Our Mission

Our mission is to enable people to use mobile data traffic freely anytime, anywhere like breathing the air. We aim to make the world more connected with maximized network utility through harnessing the power of mobile data traffic sharing.

Overview

We are the world’s first and leading mobile data traffic sharing marketplace, according to Frost & Sullivan. We are the pioneer of introducing the sharing economy business model into the telecommunications industry, creating a marketplace for mobile data traffic. Leveraging our innovative cloud SIM technology and architecture, we redefine the mobile data connectivity experience, allowing users to gain access to mobile data traffic allowance shared by network operators on our marketplace. We have aggregated mobile data traffic allowances from 230 mobile network operators (MNOs) in 144 countries and regions in our cloud SIM architecture. Total data consumed through our platform were approximately 9,000, 28,000 and 90,600 terabytes in 2017, 2018 and 2019, respectively.

Our innovative cloud SIM technology sets the technological foundation of our marketplace, which is built upon our cloud SIM architecture. We have developed our proprietary cloud SIM technology based on remote SIM connection, which means that SIM cards are not embedded in the mobile terminals but remotely connected on the cloud. According to Frost & Sullivan, cloud SIM technology enabled solutions are superior to other SIM-based technology solutions, such as solutions based on embedded SIM (eSIM) and soft SIM, in terms of network availability, quality, connection and security. Our cloud SIM technology allows dynamic selection of network services based on signal coverage and cost, and intelligent distribution of data traffic in the SIM card pool to terminals that may support multiple end devices through our cloud SIM platform, to achieve better network quality, more reliable connection and lower cost. As of December 31, 2019, we owned 43 patents relating to our cloud SIM technology.

Leveraging our cloud SIM technology and architecture, we provide mobile data connectivity services with reliable connection, high speed and competitive price, allowing users to enjoy a superior seamless mobile connectivity experience. We have transformed the traditional telecommunication business model, where users can only access the wireless network provided by their contracted MNOs and are not able to use the networks of other local MNOs. By giving users access to our distributed SIM card pool, we free users from this exclusivity, and give them the freedom to access the mobile networks of other MNOs without physically changing SIM cards wherever they are in the world as long as it is one of the 144 countries and regions we cover. As a result, we have accumulated a large and active user base. In 2019, our average daily active terminals reached approximately 187,700 and each of our active terminals on average used 1,300 megabytes of mobile data per day. In addition to mobile data users, we also create unique values to the other stakeholders in the telecommunications industry worldwide, including smartphone and smart-hardware companies, mobile virtual network operators (MVNOs), MNOs and more broadly to the society.

We operate our business under what we refer to as uCloudlink 1.0 and uCloudlink 2.0 models, and plan to launch uCloudlink 3.0 model in the future.

- *uCloudlink 1.0.* Our uCloudlink 1.0 model focuses on cross-border travelers that need mobile data connectivity services across different countries. We started to conduct our business under the uCloudlink 1.0 model in 2014. We operate portable Wi-Fi services under our own *Roamingman* brand in China, Malaysia and Singapore to provide global mobile data connectivity services. We also offer *GlocalMe* portable Wi-Fi terminals and provide our cloud SIM architecture to business partners such as MVNOS, MNOs and portable Wi-Fi terminal rental companies, for them to offer global mobile data connectivity services directly to their users. Leveraging on these business partners' local operation knowledge and established brand name in their regions, we are able to penetrate into different markets and regions more effectively, accelerating the adoption of our products and services on a global scale. Since 2018, we began to offer smartphones and smart devices enabled with mobile data connectivity services such as the *GlocalMe* World Phone series. According to Frost & Sullivan, the market size of international roaming service is US\$23.3 billion in 2018 and is expected to reach US\$34.8 billion in 2023. We are the largest portable Wi-Fi service provider for international roaming for Chinese outbound travelers with a 41.0% market share in 2018, according to Frost & Sullivan.
- *uCloudlink 2.0.* Our uCloudlink 2.0 model aims to provide mobile data connectivity services to local users across different MNOs in a single country. We tested this service in 2018, and commercially launched the service in April 2019. We develop *GlocalMe Inside* (GMI) implementation for smartphones and other smart hardware terminals, enabling them to obtain access to our cloud SIM architecture and use our globally distributed SIM card pool, and also offer *GlocalMe* World Phone series. We have partnered with three smartphone companies in China, including TCL Communication Limited, or TCL, to provide *GlocalMe Inside* implementation for certain models of its smartphones. Similarly, we have agreed with other smartphone brands including PT. Bangga Teknologi Indonesia, the owner of the handset brand Advan in Indonesia, Cosmic Technologies, Inc., the owner of the handset brand Cherry Mobile in the Philippines, to launch *GlocalMe Inside* on some of their models. This enables smartphone users to use not only our global mobile data connectivity services but also local data traffic packages without a separate Wi-Fi router. Since October 2019, our cloud SIM platform has been ready to support traffic from 5G networks. According to Frost & Sullivan, the market size of local mobile data connectivity services is US\$820 billion in 2018 and is expected to reach US\$1,149 billion in 2023. As we are expanding *GlocalMe Inside* to more smartphone brands and models, we believe we will be able to grow our user base rapidly and capture more monetization opportunities in the market.
- *uCloudlink 3.0.* We expect that we will launch our services following uCloudlink 3.0 model in the next two to three years. We anticipate that under our proposed uCloudlink 3.0 model, users may share and trade their unused data packages through our cloud SIM architecture, which will create a data traffic sharing marketplace. We have tested the data allowance sharing among users in trials, and are technologically ready to launch the uCloudlink 3.0 model. We believe that our successful uCloudlink 1.0 model and fast-growing uCloudlink 2.0 model will lead us to uCloudlink 3.0 model in the near future. Sharing among users will further enrich the sources of our distributed SIM card pool and optimize network usage, and make us a vibrant data traffic sharing marketplace.

We have developed proprietary algorithms to analyze historical data usage patterns and predict future data traffic demand. We use the insights gained from the data analytic results to efficiently procure data traffic allowances from MNOs and other sources globally, dynamically select network services based on signal coverage and cost, and intelligently allocate data traffic in the SIM card pool to terminals, then to end devices. As a result, we are able to achieve better network quality, more reliable connection and lower cost for users, as well as improve our cost efficiency. As the first entrance for users to access mobile internet, we may also leverage the data analytics to develop a number of value-added services, such as advertisement.

We have grown rapidly in recent years. Our average daily active terminals increased from approximately 65,300 in 2017 to 113,000 in 2018, and further to 187,700 in 2019. In the three months ended March 31, 2020, our average daily active terminals reached approximately 274,800. Specifically, in the three months ended March 31, 2020, average daily active terminals using our uCloudlink 1.0 model services reached approximately 99,700, and average daily active terminals using our uCloudlink 2.0 model services reached approximately 175,400, including the number of daily active terminals using both categories of services. Our daily active terminals using our uCloudlink 2.0 model services constituted 64% of our daily active terminals in the three months ended March 31, 2020, as compared to 9% in the three months ended March 31, 2019. The average daily data usage per active terminal increased from 390 megabytes in 2017 to 700 megabytes in 2018, and further to 1,300 megabytes in 2019. The average daily data usage per active terminal increased from 924 megabytes for the three months ended March 31, 2019 to 2,258 megabytes for the three months ended March 31, 2020.

We generate revenues primarily from our mobile data connectivity services and hardware terminals that incorporate the services. Our revenues increased from US\$85.8 million in 2017 to US\$126.4 million in 2018, and further to US\$158.4 million in 2019. Our gross margin increased from 34.4% in 2017 to 36.5% in 2018, and further to 41.0% in 2019. We had a net loss of US\$19.3 million and US\$26.6 million in 2017 and 2018, respectively, and had a net income of US\$5.2 million in 2019. Our adjusted net (loss)/income, a non-GAAP measure defined as net (loss)/income excluding share-based compensation, was adjusted net loss of US\$13.7 million and US\$24.3 million in 2017 and 2018, respectively, and was adjusted net income of US\$5.4 million in 2019. Our adjusted EBITDA, another non-GAAP measure defined as net (loss)/income excluding share of loss in equity method investment, net of tax, interest expense, depreciation and amortization, and share-based compensation, was negative US\$4.7 million, negative US\$15.1 million and US\$8.9 million in 2017, 2018 and 2019, respectively. See “Summary Consolidated Financial Operating Data—Non-GAAP Financial Measures.” In 2017, 2018 and 2019, we generated 37.9%, 50.9% and 67.9%, respectively, of our revenues from customers outside of China.

Our Market Opportunity

We believe that mobile data traffic has become of utility-like importance for economies and society today. Adoption of mobile technologies has increased significantly across industries and daily life situations in addition to simple internet browsing and basic communications, driven by factors such as massive build-out of 3G and 4G telecommunication infrastructure globally, increasingly affordable smartphone and smart-devices, increased adoption of high bandwidth data applications, and increasingly affordable mobile data plans. The mobile data connectivity service industry is a large and stable growing industry globally. According to Frost & Sullivan, the total revenue generated from this industry increased from US\$549 billion in 2014 to US\$854 billion in 2018, representing a CAGR of 11.7%, which is estimated to grow further at a CAGR of 7.2% to US\$1,210 billion in 2023.

With our bold mission supported by our innovative cloud SIM technology and architecture, we believe we are able to capture the market opportunities in this massive industry in the long-term. An increasing number of global outbound travels and increasing adoption in mobile data usage across businesses and daily life create an increasing need of mobile data connectivity while traveling. However, this is not fully addressed by the global mobile data connectivity services provided by MNOs due to high prices. In the local mobile data connectivity service market, the significant difference in pricing across different local data packages and local MNOs and differences in network quality and utilization rates across different MNOs make a case for sharing between MNOs. A mature user-based sharing model is still absent from the telecommunication space and we see potential for this to be developed in the future. Our uCloudlink 1.0, 2.0, and 3.0 models address those market opportunities respectively.

Our Value Propositions

Our products and services deliver unique value propositions to mobile data users, handset and smart-hardware companies, MVNOs, MNOs and more broadly to society.

To our users:

- *Global coverage.* Users enjoy mobile data connectivity services in 144 countries and regions, freely switching among countries, network operators, and data plans.
- *Superior mobile connectivity experience.* Our technology dynamically and intelligently selects the local mobile network available in our distributed SIM card pool with strong signal and fast speed at the location of the end-user. Users may enjoy seamless and unnoticeable transitions across different network operators.
- *Locally competitive rate.* By repackaging data allowances across different operators and tailoring them to meet a broad variety of user preferences, we are able to offer competitive rates to local and cross-border users comparable to those provided by local operators.
- *Personalized data package to maximize data package usage.* Our users can customize data packages based on their own needs, which minimizes the data traffic wastage in their data plans and helps optimize network utilization for network operators.

To smartphone and smart-hardware companies:

- *Enhanced product differentiation to promote sales.* Our *GlocalMe Inside* implementation, which can be pre-installed in smart mobile terminals, adds an additional major selling point to smartphone models, enhancing product differentiation and competitiveness and resulting in more sales.
- *New recurring revenue streams.* Smartphone companies, who are typically reliant on one-off sales of hardware, can generate an additional, recurring and highly scalable data revenue stream via revenue-sharing arrangements with us.
- *Stronger foothold in digital ecosystem.* Acting as a catalyst for mobile data usage, *GlocalMe Inside* can be deployed on smartphones as well as other smart-hardware terminals, and serve as gateway for hardware vendors to participate in the digital ecosystem and capture more business opportunities.

To MVNOs and fixed network operators:

- *Flexible mobile network sourcing.* By using our services, MVNOs can reduce their dependence on the arrangement with MNOs to use their network. We also purchase spare data capacity from MVNOs thereby increasing efficient usage of their networks.
- *Strengthened local and global data connectivity offering.* Leveraging our global SIM card resources, MVNOs can offer their users competitively-priced international mobile data connectivity services and provide broader local coverage and better network performance, without being limited by that of the MNOs they have entered into contract with.
- *Enabling mobile data offering for fixed network operators.* Cable operators or other fixed network operators can offer wireless services through our *GlocalMe* products without entering into an MVNO contract.
- *Offering full ownership of users.* By offering *GlocalMe* products, MVNOs can foster more direct and interactive relationships with users.

To MNOs, especially tier-2 and 3 MNOs:

- *Improved network coverage and service quality.* We improve a MNO's network coverage by enabling their customers to access all the mobile networks globally supported by our platform. Our technology provides seamless and continuous access to data and enhances user experience, ultimately helping MNOs improve customer satisfaction and retention and save capital expenditure.
- *Maximized network utilization.* Our platform can revolutionize the difficult process of network sharing among MNOs. We can also dynamically select networks of MNOs, by intelligently identifying the imbalance in terms of coverage and usage level between different networks, to better leverage their under-utilized network capacities and maximize the network utilization.
- *Simplified cooperation among MNOs.* We enable MNOs to share their network without having to engage in costly and time-consuming one-on-one negotiations. In addition, MNOs may choose not to roll-out networks in economically unattractive areas where other operators already provide coverage.
- *New user development model.* Our platform decouples users from a single MNO under the traditional SIM-based model, and allows MNOs to acquire and develop users and sell data traffic allowances through users' *GlocalMe*-ready smart devices, creating a new OTT(over the top)-like handset-based user development model.
- *Accelerated 5G implementation.* As network operators start to roll-out 5G networks, mobile data traffic sharing between MNOs via our cloud SIM architecture can reduce capital spending and roaming agreements negotiation cost, ensure low network latency for end users and expand network coverage.

To society as a whole:

- *Radio frequency efficiency.* Our cloud SIM technology enables MNOs to share their networks and resources, improving efficiency of spectrum usage.
- *Environmentally friendly and reduce waste.* Our sharing model reduces duplicated construction of telecommunication infrastructure, which leads to less industrial waste.
- *Enhanced information sharing and digitalization.* We facilitate better information sharing by allowing people to use mobile data traffic. By empowering smartphones and smart hardware with reliable mobile connectivity without limitation, we facilitate the creation of innovative mobile digital solutions.

- our expansions into new businesses.

Recent Developments

Since early 2020, the disease caused by a novel strain of coronavirus, later named COVID-19, has severely impacted China and the rest of the world. On March 11, 2020, the World Health Organization declared COVID-19 a pandemic. The COVID-19 pandemic has led governments and other authorities around the world to impose measures intended to control its spread, including restrictions on freedom of movement, gatherings of large numbers of people, and business operations such as travel bans, border closings, business closures, quarantines, shelter-in-place orders and social distancing measures. As a result, the COVID-19 pandemic and its consequences have caused a severe decline in global travel. The demands for our international data connectivity services, including the demands for *Roamingman* and from our business partners, have been significantly reduced.

We are in the process of preparing our results of operations for the three months ended March 31, 2020. The following sets forth our preliminary estimates of certain results of operations for the three months ended March 31, 2020. These preliminary estimates of certain results of operations have been prepared by, and are the responsibility of, our management. Our independent registered public accounting firm, PricewaterhouseCoopers Zhong Tian LLP has not audited, reviewed, compiled or performed any procedures with respect to these preliminary estimates. Accordingly, PricewaterhouseCoopers Zhong Tian LLP does not express an opinion or any other form of assurance with respect thereto.

Revenues. The outbreak of COVID-19 has caused a severe decline in the level of business and leisure travel around the globe. As a result, demand for our international data connectivity services is significantly reduced. Such decline also caused a decrease in revenues from sales of terminals and provision of PaaS and SaaS services to our business partners. On the other hand, our revenues generated from local data connectivity service has increased as the demand for such service increased due to the wide adoption of activities such as working from home and online classes during the outbreak. We estimate that our total revenues for the three months ended March 31, 2020 were between US\$33 million and US\$34 million, representing an increase of approximately 33.6% to 37.7% from US\$24.7 million for the three months ended March 31, 2019, but a decrease of approximately 36.7% to 38.5% from US\$53.7 million for the three months ended December 31, 2019. There is no guarantee that our total revenues will grow or remain at the similar level year over year in the remaining three quarters of 2020.

Cost of revenues. We estimate that our cost of revenues for the three months ended March 31, 2020 were between US\$21.5 million and US\$21.8 million, representing an increase of approximately 69.3% to 71.7% from US\$12.7 million for the three months ended March 31, 2019, but a decrease of approximately 37.4% to 38.2% from US\$34.8 million for the three months ended December 31, 2019.

Gross profit. We estimate that our gross profit for the three months ended March 31, 2020 were between US\$11.5 million and US\$12.2 million, as compared to US\$12.0 million and US\$18.9 million for the three months ended March 31, 2019 and December 31, 2019 respectively. Accordingly, our gross margin for the three months ended March 31, 2020 were between 34.8% to 35.9%, as compared to 48.6% and 35.2% for the three months ended March 31, 2019 and December 31, 2019, respectively, which was primarily driven by change in products mix with different gross profit margin.

Operating expenses. We estimate that our total operating expenses for the three months ended March 31, 2020 were between US\$11.4 million and US\$11.8 million, representing a decrease of approximately 8.5% to 11.6% from US\$12.9 million for the three months ended March 31, 2019, and a decrease of approximately 29.8% to 32.1% from US\$16.8 million for the three months ended December 31, 2019, primarily due to control of expenditures.

Net income. We estimate that our net income for the three months ended March 31, 2020 were between US\$0.1 million and US\$0.4 million, representing an increase from net loss of US\$0.9 million for the three months ended March 31, 2019, but a decrease of approximately 81.0% to 95.2% from net income of US\$2.1 million for the three months ended December 31, 2019.

Liquidity. We estimate that our cash and cash equivalents and restricted cash as of March 31, 2020 were between US\$45.4 million and US\$45.6 million, and our borrowings as of March 31, 2020 were between US\$6.4 million and US\$6.5 million.

The approximations presented above are preliminary, unaudited and based upon our estimates, and subject to further internal review and compilation of actual results. We have provided approximations for these data

primarily because we have not yet completed compilation of our quarterly report for the three months ended March 31, 2020. Our management's estimates are based upon monthly information currently available from our subsidiaries and business divisions and extrapolation from that information. Our actual results may differ materially from these preliminary estimates.

Our average daily active terminals was approximately 274,800 for the three months ended March 31, 2020, increased by 99.2% from approximately 138,000 for the three months ended March 31, 2019 and by 8.7% from approximately 253,000 for the three months ended December 31, 2019. The average daily data usage per active terminal was 2,258 megabytes for the three months ended March 31, 2020, increased by 144.4% from 924 megabytes for the three months ended March 31, 2019 and by 22.7% from approximately 1,840 megabytes for the three months ended December 31, 2019. Total data consumed through our platform were approximately 10,933 terabytes and 53,843 terabytes for the three months ended March 31, 2019 and 2020, respectively.

Corporate History and Structure

We commenced our operations by establishing Shenzhen uCloudlink Network Technology Co., Ltd in August 2014 and Beijing uCloudlink New Technology Co., Ltd. three months later. Our holding company, UCLOUDLINK GROUP INC., was incorporated in August 2014 in the Cayman Islands to facilitate financing and offshore listing. In September 2014, our holding company established a wholly-owned subsidiary in Hong Kong, UCLOUDLINK (HK) LIMITED, which is a subsidiary of HONGKONG UCLOUDLINK NETWORK TECHNOLOGY LIMITED, an entity through which we conduct our business operations in Hong Kong.

In January 2015, we established Beijing uCloudlink Technology Co., Ltd., through which we gained control over Shenzhen uCloudlink Network Technology Co., Ltd and Beijing uCloudlink New Technology Co., Ltd. by entering into a series of contractual arrangements with Shenzhen uCloudlink Network Technology Co., Ltd and Beijing uCloudlink New Technology Co., Ltd. and their respective shareholders.

In addition, we established the following subsidiaries to perform the following functions of our business:

primarily for marketing and sales:

- UCLOUDLINK (UK) CO. LTD in the UK in October 2014;
- Ucloudlink (America), Ltd. in the United States in August 2016;
- UCLOUDLINK (SINGAPORE) PTE. LTD. in Singapore in May 2017;
- UCLOUDLINK SDN. BHD. in Malaysia in August 2017;
- uCloudlink Japan Co., Ltd. in Japan in March 2018;

primarily for technology research and development:

- Shenzhen Ucloudlink Technology Limited in China in July 2015; and

primarily for hardware exportation:

- Shenzhen uCloudlink Co., Ltd in China in June 2018.

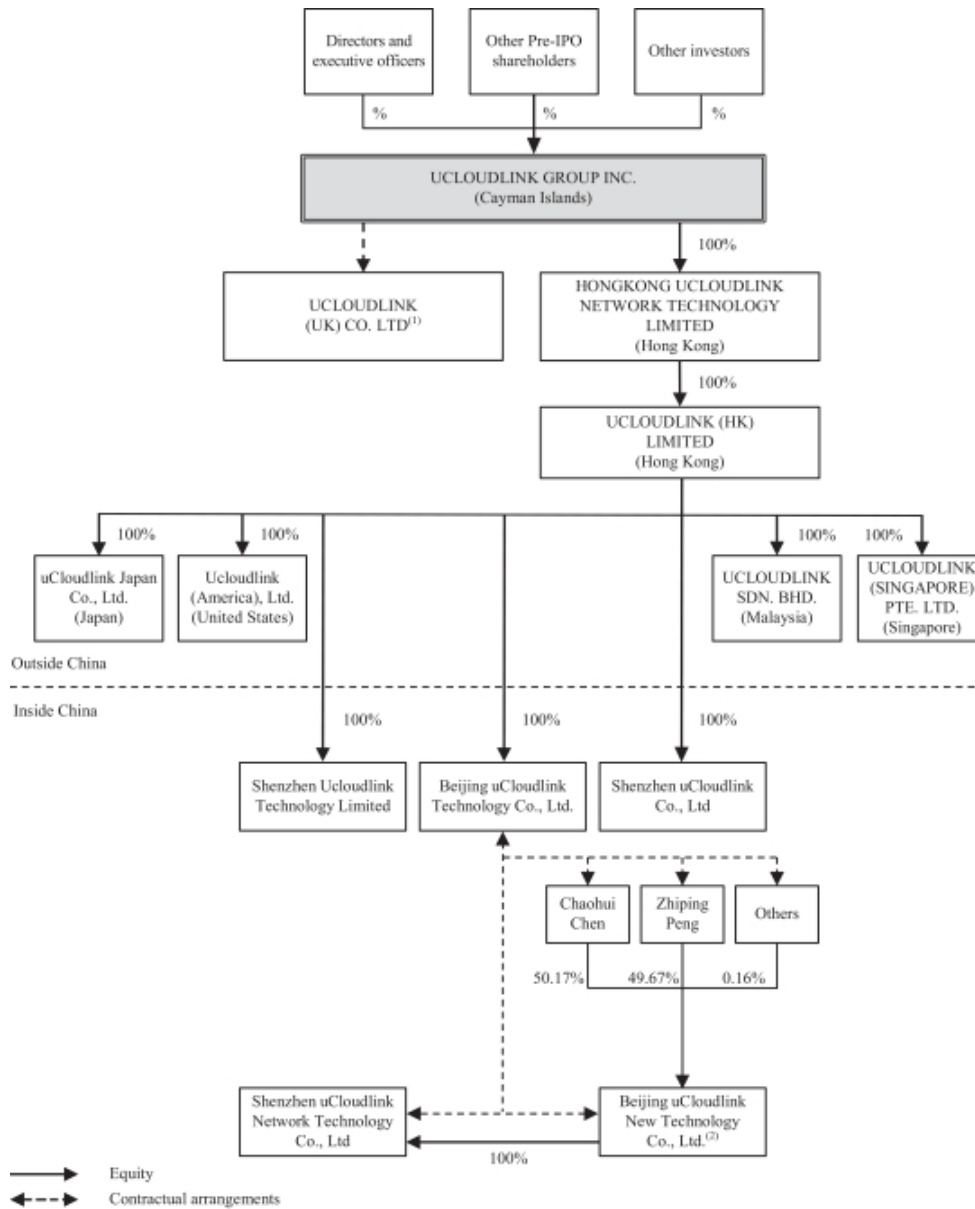

We refer to Beijing uCloudlink Technology Co., Ltd. as Beijing uCloudlink, to Shenzhen uCloudlink Network Technology Co., Ltd as Shenzhen uCloudlink, and to Beijing uCloudlink New Technology Co., Ltd. as Beijing Technology. We refer to Shenzhen uCloudlink and Beijing Technology collectively as our VIEs in this

prospectus. Our contractual arrangements with our VIEs and their shareholders allow us to (i) exercise effective control over our VIEs, (ii) receive substantially all of the economic benefits of our VIEs, and (iii) have an exclusive option to purchase or designate any third party to purchase all or part of the equity interests in and assets of our VIEs when and to the extent permitted by PRC law. For more details, including risks associated with the VIE structure, please see “—Agreements that provide us with effective control over our VIEs,” “—Agreements that allow us to receive economic benefits from our VIEs,” “—Agreements that provide us with the option to purchase the equity interests in and assets of our VIEs,” and “Risk Factors—Risks Related to Our Corporate Structure.”

As a result of our direct ownership in Beijing uCloudlink and the VIE contractual arrangements, we are regarded as the primary beneficiary of our VIEs, and we treat them and their subsidiaries as our consolidated affiliated entities under U.S. GAAP. We have consolidated the financial results of our VIEs and their respective subsidiaries with our consolidated financial statements in accordance with U.S. GAAP.

Table of Contents

The chart below summarizes our corporate structure and identifies our principal subsidiaries, our VIEs and their principal subsidiaries immediately upon the completion of this offering, assuming no exercise of the over-allotment option granted to the underwriters:

Implications of Being an Emerging Growth Company

As a company with less than US\$1.07 billion in revenue for our last fiscal year, we qualify as an “emerging growth company” pursuant to the Jumpstart Our Business Startups Act of 2012, as amended, or the JOBS Act. An emerging growth company may take advantage of specified reduced reporting and other requirements compared to those that are otherwise applicable generally to public companies. These provisions include exemption from the auditor attestation requirement under Section 404 of the Sarbanes-Oxley Act of 2002 in the assessment of the emerging growth company’s internal control over financial reporting. The JOBS Act also provides that an emerging growth company does not need to comply with any new or revised financial accounting standards until such date that a private company is otherwise required to comply with such new or revised accounting standards, and we do not plan to opt out of such exemptions afforded to an emerging growth company.

We will remain an emerging growth company until the earliest of (a) the last day of the fiscal year during which we have total annual gross revenues of at least US\$1.07 billion; (b) the last day of our fiscal year following the fifth anniversary of the completion of this offering; (c) the date on which we have, during the preceding three-year period, issued more than US\$1.0 billion in non-convertible debt; or (d) the date on which we are deemed to be a “large accelerated filer” under the Securities Exchange Act of 1934, as amended, or the Exchange Act, which would occur if the market value of the ADSs that are held by non-affiliates is at least US\$700 million as of the last business day of our most recently completed second fiscal quarter. Once we cease to be an emerging growth company, we will not be entitled to the exemptions provided in the JOBS Act discussed above.

Non-GAAP Financial Measures

In evaluating our business, we consider and use two non-GAAP measures, adjusted net (loss)/income and adjusted EBITDA, as supplemental measures to review and assess our operating performance. The presentation of these non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with U.S. GAAP. We define adjusted net (loss)/income as net (loss)/income excluding share-based compensation. We define adjusted EBITDA as net (loss)/income excluding share of loss in equity method investment, net of tax, interest expense, depreciation and amortization, and share-based compensation.

We believe that adjusted net (loss)/income and adjusted EBITDA help identify underlying trends in our business that could otherwise be distorted by the effect of certain expenses that we include in (loss)/income from operations and net (loss)/income. We believe that adjusted net (loss)/income and adjusted EBITDA provide useful information about our operating results, enhance the overall understanding of our past performance and future prospects and allow for greater visibility with respect to key metrics used by our management in its financial and operational decision-making.

The non-GAAP financial measures are not defined under U.S. GAAP and are not presented in accordance with U.S. GAAP. The non-GAAP financial measures have limitations as analytical tools. One of the key limitations of using adjusted net (loss)/income and adjusted EBITDA is that they do not reflect all items of income and expense that affect our operations. Share-based compensation has been and may continue to be incurred in our business and is not reflected in the presentation of adjusted net (loss)/income. Further, the non-GAAP financial measures may differ from the non-GAAP information used by other companies, including peer companies, and therefore their comparability may be limited.

We compensate for these limitations by reconciling the non-GAAP financial measure to the nearest U.S. GAAP performance measure, all of which should be considered when evaluating our performance. We encourage you to review our financial information in its entirety and not rely on a single financial measure.

The following table reconciles our adjusted net (loss)/income to the most directly comparable financial measure calculated and presented in accordance with U.S. GAAP, which is net (loss)/income, for the years presented:

	2017	2018	2019

RISK FACTORS

An investment in the ADSs involves significant risks. You should consider carefully all of the information in this prospectus, including the risks and uncertainties described below, before making an investment in the ADSs. Any of the following risks could have a material adverse effect on our business, financial condition and results of operations. In any such case, the market price of the ADSs could decline, and you may lose all or part of your investment.

Risks Related to Our Business and Industry

We depend on network operators for their wireless networks, infrastructures and data traffic, and any disruptions of or limitations on our use of such networks, infrastructures and data traffic may adversely affect our business and financial results.

We do not own or operate a physical network, but rather utilize the global wireless communication networks of MNOs through data traffic procurement from data traffic suppliers. The reliable service we provide to our users depends on those networks. If the MNOs fail to maintain their wireless facilities and government authorizations or to comply with government policies and regulations, the connection of our terminals, be it the initial connection or continued service connection, may be adversely affected. Some of the risks related to MNOs' wireless communication networks and infrastructures include: major equipment failures, breaches of network or information technology security that affect their wireless networks, including transport facilities, communications switches, routers, microwave links, cell sites or other equipment or third-party owned local and long-distance networks on which we rely, power surges or outages, software defects and disruptions beyond their control, such as natural disasters and acts of terrorism, among others. Any impact on their wireless communication networks could disrupt our operations, require significant resources, result in a loss of users or impair our ability to attract new users, which in turn could have a material adverse effect on our business, results of operations and financial condition.

Furthermore, while no data traffic supplier supplies more than 11% of our SIM cards in our SIM pool and there are usually multiple available networks in major markets, our business may be materially adversely impacted if certain data traffic suppliers limit or deny our access to and usage of their networks and data traffic. The data traffic suppliers may determine that the service we provide or the cloud SIM technology we use does not fully comply with local telecommunications regulations, or is not fully compatible with the data traffic suppliers' technical requirements, policies or contract provisions. The contracts we entered into for the network service and data traffic supply demonstrated varying degrees of certainties on whether and to what extent we are allowed to use the data traffic supply pursuant to our business model. A small number of contracts can be interpreted to have prohibited commercial use of our procured SIM cards. If data traffic suppliers consider that our business model and usage of data traffic do not comply with the agreements contained in relevant contracts, or in violation of local regulations, they can, among others, block the hotspot Wi-Fi function, limit the speed of the network we use, or completely terminate their services. Any of these actions taken by data traffic suppliers may have a material adverse effect on our business, results of operations and financial condition.

Our ability to grow our business and user base for our service may be limited unless we can continue to obtain data traffic at favorable rates.

To further expand our business, we must continue to obtain wireless data traffic at favorable rates and terms. Our operating performance and ability to attract new users may be adversely affected if we are unable to meet increasing demands for our services in a timely and efficient manner.

Negotiations with prospective and existing data traffic suppliers also require substantial time, effort and resources. We may ultimately fail in our negotiations, resulting in costs to our business without any associated benefits. The termination or failure of renewal of our contracts with major suppliers for our data traffic can

adversely affect our business and financial results. These contracts are in most cases for finite terms and, therefore, there can be no guarantee that they will be renewed at all or on favorable terms to us. Our business and results of operations would be adversely affected if these contracts were terminated or we were unable to enter into data traffic supply agreements in the future to provide our services to our users, which could result in a reduction of our revenues and profits.

Mergers and acquisitions among MNOs and MVNOs, either voluntary or government-driven, can result in fewer players in the telecommunications market, and as a consequence reduce our options for data traffic supply as well as our bargaining power. A more consolidated telecommunications market in a region may also partially negate the demand for our mobile data connectivity service as resources are combined and fewer negotiations are needed among the operators for network sharing or roaming.

We are and may be subject to extensive telecommunications regulations, and any change in the regulatory environment may materially impact us.

In most countries in which we operate, we may be required to comply with various regulatory obligations governing the provision of our products and services, primarily relating to telecommunications regulations. Due to the international reach of our services, it is difficult and costly to evaluate the regulatory environment in a given market and to what extent we are in compliance. Across different jurisdictions, we may be viewed as providing different services, and thus are required to obtain different licenses and permits. In addition, we may face and subject to the governmental investigation and inquiries, initiating by the governmental authorities on their own or by responding the reports or complaints from our competitors, our users, from time to time. Below we list a few examples of regional regulatory frameworks in selected markets where we have entered or plan to enter in the future.

Telecommunications operators in China are subject to regulation by, and under the supervision of, the MIIT, the primary regulator of the telecommunications industry in China. Other PRC government authorities also take part in regulating the telecommunications industry in areas such as tariff policies and foreign investment. The MIIT, under the direction of the State Council, has been preparing a draft telecommunications law, which, once adopted, will become the fundamental telecommunications statute and the legal basis for telecommunications regulations in China. In 2000, the State Council promulgated a set of telecommunications regulations, or the Telecommunications Regulations, that apply in the interim period prior to the adoption of the telecommunications law.

On May 17, 2013, the MIIT announced the Mobile Telecommunication Resale Service Pilot Scheme to encourage private investment in the telecommunications industry, which represented the official approval of the MVNO business. See “Regulation—PRC—Regulations Related to Mobile Data Traffic Service.” According to the PRC laws and regulations related to MVNO, and our consultation with the local branch of MIIT, we understand that the key character of MVNO is that it purchases mobile telecommunication services from MNOs who own physical network, and then re-organize and resell these services to end-users under their own brands. We understand our business is significantly different from mobile telecommunication resale service in the PRC, including, (i) we only use our own brands to provide terminals and technology to our users, but not to resale mobile telecommunication services, and we emphasize in our users’ agreement that we only provide mobile data connectivity services, while all the data traffic are produced and provided by MVOs or MVNOs; (ii) we enable end-users to gain access to mobile data traffic without physical SIM cards by our services, but end-users do not gain access to any other mobile telecommunication services, for example, among others, voice services, short messages, through our services; (iii) MVNOs usually provide physical SIM cards with a specific phone number to users, through which users are able to get access to data traffic and voice services. However, our mobile data connectivity services does not contain physical SIM cards or phone numbers. Based on the above understanding, our PRC legal counsel, Han Kun Law Offices, is of the opinion that the service we provide in PRC is not mobile telecommunication resale service stipulated definitely under PRC laws and regulations. We received an Investigation Notice issued by Guangdong Communications Administration, or the GCA, the local

branch of the MIIT, on March 25, 2019. According to the Investigation Notice, one of our VIEs, Shenzhen uCloudlink, has been reported to engage in the mobile telecommunication resale business without requisite approvals. The GCA conducted an investigation on us subsequently. We have been informed by the GCA that the investigation is completed. We received another Investigation Notice issued by GCA on July 16, 2019, which indicates that Shenzhen uCloudlink has been reported to engage in the mobile telecommunication resale business without requisite approvals. We attended an interview conducted by the GCA on July 19, 2019. However, as of the date of this prospectus, we have not received any clearance from the GCA which indicates that it regards us as not engaging in the mobile telecommunication resale service, and there can be no assurance that we will be able to receive such final clearance. Our PRC legal counsel advised us that as the PRC regulations related to MVNOs and mobile telecommunication resale service is still in a nascent stage and keeps developing, and our business model shares certain similarities with mobile telecommunication resale service, there is no assurance that our competitors, our users will not report us to the PRC governmental authorities again, and there is no assurance that the PRC governmental authorities will hold the same opinion in the future and will not regard us as a MVNO. To minimize such risk, we have invested in a MVNO in the PRC and we are expecting to cooperate with it in the future.

As a network service provider in the PRC, we are obligated to require the users to provide their real identity information when signing agreements or confirmations on the provision of services stipulated under relevant laws and regulations. Historically, one of our terminals in the PRC enabled the end-users to gain access to the data traffic without providing any users' identity information, for which we received a rectification order from the GCA on May 7, 2019. We have submitted our rectification plan to the GCA. As the date hereof, we have not received any final clearance from the GCA that our rectification plan is sufficient, and there can be no assurance that we will receive such final clearance. We received an Investigation Notice issued by GCA on July 16, 2019, which indicates that Shenzhen uCloudlink provides network access service for end-users without requiring them to provide identity information. We attended an interview conducted by the GCA on July 19, 2019. As the date hereof, we do not receive any clearance from the GCA which indicates that we have fulfilled the obligation of real-name authentication obligation, and there can be no assurance that we will be able to receive such final clearance. As MNOs and MVNOs are required to obtain the real identity information of their users when conduct network access formalities for mobile phone numbers, we establish our authentication method on top of such by requiring our users to provide us the verification codes we sent to their mobile phone numbers when they first register in our Apps. Therefore, we are able to verify the real identity information of our users through their phone numbers. This authentication method has been widely adopted by network service providers in the PRC. However, we cannot assure that our authentication method is sufficient to fulfill the real-name authentication obligation.

We purchase machine to machine data SIM cards, or M2M Data SIM Cards, to support our service in the PRC. In addition to the usage limitation set forth in the purchase agreements, PRC laws and regulations also have other restrictions, and further require the MVOs and MVNOs to oversee and regulate the usage of M2M Data SIM Cards, including but not limited to prohibition of reselling M2M Data SIM Cards or using M2M Data SIM Cards for non-industry uses. We received a rectification notice from the GCA on February 24, 2020. The notice indicates that it came to GCA's knowledge that one of our VIEs, Shenzhen uCloudlink, has been changing the usage scenarios of M2M Data SIM Cards. The notice requires Shenzhen uCloudlink to take rectification measures with respect to the services we provide to users in China, including shutting down the systems related to SIM BANK and stop selling or sending data traffic by separating the phone numbers from M2M Data SIM Cards no later than March 13, 2020. Upon receiving the notice, we started adjusting our technologies and operations accordingly and communicating with the GCA regarding rectification measures to take. On April 9, 2020, we officially submitted our rectification report to the GCA, which indicates that we will (i) stop selling in mainland China all portable Wi-Fi devices with SIM BANK function and using data allowances provided by PRC domestics carriers; (ii) stop using the technology to separate physical M2M Data SIM cards from phone numbers or to remotely insert virtual numbers to the devices; (iii) by the end of 2020, adjust our services to current end-users by providing alternative services and shutting down functions relating to mobile network switching, provided that the end-users will be entitled to refunds if the users are not satisfied with the adjustment;

and (iv) report to the GCA on the progress of our rectifications. The above rectification measures, if endorsed by GCA, would mean that we will stop selling devices that only support uCloudlink 2.0 model in China. As of the date of this prospectus, we have not received any final clearance from the GCA on our rectification measures, and there can be no assurance that we will receive such final clearance. The foregoing rectification measures will have an adverse impact on our sales in mainland China. Based on historical data, we estimate that, if we were to take the rectification measures from April 15, 2020 to December 31, 2020, our revenues from data connectivity services and sales of terminals in China affected by the rectifications would decrease by approximately US\$0.8 million as a result. Since the interpretation and application of regulations and laws related to M2M Data SIM Cards in the PRC remain unclear, and there are uncertainties as to the restriction on the use of M2M Data SIM Cards, including the definition of resale and non-industry uses, our usage of M2M Data SIM Cards may be deemed in violation of relevant regulations. In that case, we could be subject to administrative proceedings, orders, fines, or penalties, our cooperative MNOs and MVNOs may block data traffic or even terminate our cooperation, and our business, financial condition, results of operations and prospects may be materially and adversely affected.

In Japan, the Telecommunications Business Act of Japan, or the Telecommunications Business Act, generally requires that those who plan to provide telecommunications services be registered as telecommunications business operators. However, as long as the scale of the telecommunications circuit facilities to be installed for the telecommunication services and the scope of service area to be covered do not exceed certain thresholds set forth in an ordinance of the Ministry of Internal Affairs and Communications of Japan, or fall within a certain category of radio facilities, submission of a notice to the Minister of Internal Affairs and Communications of Japan, rather than registration, is required.

Telecommunications business operators in Japan are prohibited from acquiring, using without permission, or leaking private communications (including, but not limited to, the contents of communications, the dates and places of the communications, the names and addresses, telephone numbers and IP addresses). The Telecommunications Business Act also requires a telecommunications business operator to, among other things, provide its service in a fair manner and, in certain emergency situations such as a natural disaster, prioritize important public communications. If, among other things, the acquisition, use without permission or leakage of private communications occurs or is not appropriately prevented in connection with the operation of the telecommunications business, a telecommunications business operator does not satisfy the foregoing requirements, or its business operation is otherwise inappropriate or unreasonable, such telecommunications business operator may be subjected to administrative or criminal sanctions.

In Hong Kong, the Telecommunications Ordinance (Chapter 106 of the Laws of Hong Kong), generally requires, among others, that those who plan to (i) deal in the course of trade or business in apparatus or material for radio communications; or (ii) offer in the course of business a telecommunication services, to apply for an appropriate license. Currently, we have a Radio Dealers License (Unrestricted) and are preparing an application to the Communications Authority in Hong Kong for a Services-Based Operator License. However, there is no assurance that due to the expansion and changes to our product and service offerings from time to time, we possess or will possess all relevant or required licenses. See “Regulation—Hong Kong—Laws and Regulations Related to Telecommunication Services and Import and Export of Telecommunication Devices.” In the event that the Communications Authority in Hong Kong is of the view that we are required to, but have not obtained, the specific license at the relevant time, we and any responsible directors or other officers may be subject to fines and/or criminal liabilities. After obtaining a specific license from the Communications Authority, we will also be subject to any licensing conditions imposed by the Communications Authority and there is no assurance that this will not require us to change our practices and/or require additional expenditures on resources to ensure compliance.

The overall legal framework of the European Union was modified by the new European Electronic Communications Code which took effect on December 20, 2018 (see Section 1.7.1.1.2 Significant events in 2018). The revised code includes four main directives deriving from the 2002 Telecoms Package on:

- a common regulatory framework for electronic communications networks and services;
- the authorization of electronic communications networks and services;
- access to and interconnection of electronic communications networks and associated facilities;
- universal service and users' rights relating to electronic communications networks and services.

With respect to roaming, Regulation (EU) no. 2015/2120 of November 25, 2015 (also known as the Telecoms Single Market package—TSM), which aims, in particular, to eliminate surcharges for international roaming within the European Union and Regulation (EU) no. 2017/920 of May 17, 2017, which lays down the rules for wholesale roaming markets:

- impose, in the context of fair usage, the alignment of international roaming retail prices with national prices for intra-European communications (voice, SMS and data) from June 15, 2017;
- expands, for users using their cell phones outside the EU, pricing transparency requirements and bill shock prevention measures for European operators;
- grant a regulated right of access to European mobile data connectivity services for MVNOs and resellers, and sets new caps on wholesale markets:

The EU regulations and proposals, by reducing the price for international roaming, increasing pricing transparency for users, and lowering entry barriers for the provision of mobile data connectivity services, may reduce the demand for and growth potential of our international mobile data connectivity services. A preparatory review, prior to the potential modification of the regulation of wholesale roaming prices is scheduled for 2019.

With respect to the regulation of communication services, most of the obligations intended to protect end-users are for Internet access service and services using public numbering plan resources, independently of the service provider. Other services, such as interpersonal communication services independent of the numbering plan and signal transport services are only subject to a limited number of obligations.

In the U.S., The Federal Communications Commission, or FCC, Federal Trade Commission, or FTC, and Consumer Financial Protection Bureau, or CFPB, and other federal, state and local, as well as international, governmental authorities assert jurisdiction over the telecommunications industry. The licensing, construction, operation, sale and interconnection arrangements of wireless telecommunications systems are regulated by the FCC and, depending on the jurisdiction, international, state and local regulatory agencies. In particular, the FCC imposes significant regulation on licensees of wireless spectrum with respect to how radio spectrum is used by licensees, the nature of the services that licensees may offer and how the services may be offered, and resolution of issues of interference between spectrum bands. The FCC grants wireless licenses for terms of generally ten years that are subject to renewal and revocation. Over the past few years, the FCC and other federal and state agencies have engaged in increased regulatory and enforcement activity as well as investigations of the industry generally. Enforcement activities or investigations could make it more difficult and expensive to provide services like international or local mobile data connectivity service.

The telecommunications law and other new telecommunications regulations or rules in the regions listed above or other regions where we operated or plan to enter may contain provisions that could have a material adverse effect on our business, financial condition, results of operations and prospects.

Additional costs or fees imposed by governmental regulation could adversely affect our revenues, future growth, and results of operations. Furthermore, our business activities and results of operations may be materially adversely affected by legislative or regulatory changes, sometimes of an extraterritorial nature, or by changes to government policy, and in particular by decisions taken by regulatory authorities.

Our intellectual property rights are valuable, and any inability to protect them could reduce the value of our products, services, and brand.

Our patents, trademarks, trade secrets, copyrights, and other intellectual property rights are important assets. However, our existing and future intellectual property rights may not be sufficient to protect our products, technologies or designs and may not prevent others from developing competing products, technologies or designs. We may not have sufficient intellectual property rights in all countries and regions to prevent unauthorized third parties from misappropriating our proprietary technologies, and the scope of our intellectual property might be more limited in certain countries and regions. Furthermore, there is always the possibility, despite our efforts, that the scope of the protection gained will be insufficient or that an issued patent may be deemed invalid or unenforceable.

In addition, confidentiality, intellectual property ownership and non-compete agreements may be breached by counterparties, and there may not be adequate remedies available to us for any such breach. Accordingly, we may not be able to effectively protect or enforce our intellectual property rights in China.

Litigation may be necessary to enforce our intellectual property rights. For example, in August 2018, we filed a complaint against SIMO Holdings Inc., or SIMO, and Skyroam Inc. in the United States District Court for the Northern District of California, claiming infringement of two of our U.S. patents. There was a stipulated dismissal of the claim regarding one patent in September 2019. The defendants filed answer and counterclaim alleging trade secret misappropriation. The court granted our motion to dismiss the counterclaim and dismissed the trade secret misappropriation counterclaim with prejudice on September 12, 2019. The lawsuit is currently in discovery stage. SIMO also filed petition for *inter partes* review to United States Patent and Trademark Office (USPTO) in August 2019, alleging that our patent in this litigation is invalid. The USPTO denied the petition in February 2020. We filed three other lawsuits against Shenzhen Skyroam Technology Co., Ltd. in the Intermediate People's Court of Shenzhen in January, September, and November 2019, respectively, claiming patent infringements. The first one is currently suspended and awaiting to be resumed. The hearing of the second one will be held on June 12, 2020. The defendant filed an invalidation petition against patent No. 366.4 in Patent Reexamination Board of National Intellectual Property Administration in PRC in March 2020 and the lawsuit may be suspended. With respect to the third one, the defendant objected on jurisdictional ground on March 19, 2020, but had been ruled against by the court on April 8, 2020. As of the date of this prospectus, we have no knowledge whether the defendant will appeal for the ruling, and we are waiting for the court's further notice. In September 2019, we filed three invalidation petitions against patent No. 612.8 owned by Shenzhen Sibowei'ersi Technology Co., Ltd. and patent No. 342.0 and No. 026.3 owned by Shenzhen Skyroam Technology Co., Ltd. in Patent Reexamination Board of National Intellectual Property Administration in PRC. In October 2019, we filed two invalidation petition against patent No. 667.0 and patent No. 821.7 respectively, both of which are jointly owned by Shenzhen Sibowei'ersi Technology Co., Ltd. and Shenzhen Skyroam Technology Co., Ltd. in Patent Reexamination Board of National Intellectual Property Administration in PRC. In November 2019, we filed two invalidation petitions against patent No. 021.7 jointly owned by Shenzhen Sibowei'ersi Technology Co., Ltd. and Shenzhen Skyroam Technology Co., Ltd. and patent No. 344.2 owned by Shenzhen Skyroam Technology Co., Ltd. in Patent Reexamination Board of National Intellectual Property Administration in PRC. Up to date, the final decisions of aforementioned seven petitions are yet to be concluded.

In April 2019, we filed three administrative handling procedures against Shenzhen Weike Information Technology Co., Ltd., Shenzhen Weike Communication Equipment Co., Ltd. and Shenzhen Skyroam Technology Co., Ltd. on our patent 011.8 in Market Inspection Bureaux of Shenzhen. All of the administrative handling procedures have been suspended and is awaiting to be resumed, due to the invalidation petition against patent No. 011.8, which was filed by Shenzhen Skyroam Technology Co., Ltd. in Patent Reexamination Board of National Intellectual Property Administration in PRC in April 2019.

Initiating infringement proceedings against third parties can be expensive and time-consuming, and divert management's attention from other business concerns. In addition, we may not prevail in litigations to enforce our intellectual property rights against unauthorized use.

We are, and may in the future be, subject to intellectual property claims, which are costly to defend, could result in significant damage awards, disrupt our business operation, and could limit our ability to use certain technologies in the future.

As we adopt new technologies and roll out new products and services, we face the risk of being subject to intellectual property infringement claims. Dealing with any intellectual property claims, with or without merit, could be time-consuming and expensive, and could divert our management's attention away from the execution of our business plan. Moreover, any settlement or adverse judgment resulting from such claims may require us to pay substantial amounts of damages or obtain a license to continue to use the intellectual property that is the subject of the claims, for which we will have to pay royalties, or otherwise restrict or prohibit our use of the technologies in certain jurisdictions.

For example, in June 2018, two of our wholly-owned subsidiaries were named as defendants in a complaint filed by SIMO in the United States District Court for the Southern District of New York, alleging patent infringements. In April 2019, the court granted a summary judgment in favor of SIMO and another in favor of us. In May 2019, the jury delivered a verdict that the compensatory damages of SIMO for a four-month period from August 2018 to December 2018 were approximately US\$2.2 million and found that our infringement was willful, in connection with which the plaintiff sought enhanced damages of 50% of the compensatory damages. The trial judge approved total compensatory and enhanced damages of approximately US\$2.8 million in June 2019. Subsequently, the parties filed various post-trial motions, and the court denied our motions for judgment as a matter of law and for a new trial as well as SIMO's motion for request for attorney's fees. The court also granted plaintiff's motion for permanent injunction, effective on September 1, 2019, to enjoin us from selling, offering to sell, importing, or enabling the use of three models of portable Wi-Fi terminals and one model of *GlocalMe* World Phone that the court believes infringed upon SIMO's patent in the United States. In October 2019, the court amended the total damages to US\$8.2 million to include pre-judgment interest on the awards and supplemental damages for certain sales occurring between January 1, 2019 and August 1, 2019, and certain sales occurring overseas for devices that had previously been sold within the United States between August 13, 2018 and August 31, 2019. We upgraded the allegedly infringing products by pushing a redesigned software update to the devices. We incurred approximately US\$150,000 for the software update, user compensation (as our data connectivity service will not be available unless the devices have been upgraded), and other relevant costs. In November 2019, the court was tentatively of the view that the upgraded devices are no longer infringing, pending plaintiff's submission of a competing expert report by November 27, 2019. To avoid additional penalties, we briefly stopped selling the allegedly infringing devices in the United States. On December 9, 2019, the trial court lifted the injunction against the upgraded devices and concluded that they are not infringing. Our sales and services have generally resumed since the lift of the injunction. Based on historical data, we estimate that the loss of revenue as a result of disruption to our operation would be approximately US\$300,000 for the three months ending December 31, 2019 including the loss of sales of terminals and data packages sold directly by us. At the same time, we have appealed against the trial judge's original judgment vigorously, but there can be no assurance that we will prevail in any appeal. Pending judgment from the appellate court, we have put a sum equal to the above-mentioned damages amount in an escrow account. If our appeal is not successful, we will have to pay the damages awarded by the trial judge, which would have a negative impact on our results of operations in the United States.

In January 2020, from unofficial channels such as SIMO's press release, we learned that they are alleging, once again, the infringement of '689 patent and trade secret misappropriation in the United States District Court for the Eastern District of Texas. As of the date of this prospectus, we have not been served with the complaint. We believe that SIMO is abusing the legal system by bringing the same claims in another court. We may still incur significant legal fees fighting back, which might negatively impact our results of operations.

In addition, in April 2019, March 2020 and April 2020, Shenzhen Skyroam Technology Co., Ltd. filed three invalidation petitions against patents No. 011.8, No. 366.4 and No. 352.6 owned by us in Patent Reexamination Board of National Intellectual Property Administration in PRC, respectively. In June 2019, Shenzhen Skyroam Technology Co., Ltd. filed two complaints in the Intermediate People's Court of Shenzhen against us: one alleging trade secret misappropriation claiming damages of approximately US\$14 million and cessation of misappropriation, and the other one relating to patent ownership. In July 2019, Shenzhen Skyroam Technology Co., Ltd filed another complaint in the Intermediate People's Court of Shenzhen against us relating to patent ownership. If the court judgment of any of the lawsuits is against us in any extent, we will need to pay significant amount of damages, we may lose our patent, and our business or operation may be adversely affected. See "Business—Legal Proceedings."

We have a limited operating history, which makes it difficult to evaluate our future prospects.

We commenced operation in 2014. As a result of our relatively limited operating history, our ability to forecast our future results of operations is limited and subject to a number of uncertainties. We have experienced rapid growth in recent periods. There is no assurance that we will be able to maintain our historical growth in future periods. Our growth may fluctuate for various reasons, many of which are beyond our control. In that case, investors' perceptions of our business and business prospects may be adversely affected and the market price of the ADSs could fluctuate accordingly. You should consider our prospects in light of the risks and uncertainties that fast-growing companies with limited operating histories may encounter. We may not be able to manage our expansion effectively. Continuous expansion may increase the complexity of our business and place a strain on our management, operations, technical systems, financial resources and internal control functions. Our current and planned personnel, systems, resources and controls may not be adequate to support and effectively manage our future operations.

We face risks relating to our business partnerships and strategic alliances.

We have entered into and may in the future enter into cooperation and alliances with various third parties to further our business purpose from time to time. Our data connectivity business and its further expansion depends on the distribution channels we work with. We operate portable Wi-Fi services through multiple channels, including multiple *Roamingman* e-commerce platforms, online travel agencies such as Ctrip and Fliggy, airlines and other travel related companies, sells portable Wi-Fi terminals on online e-commerce platforms such as Amazon and T-mall, as well as on in-flight magazines with support from airlines, and work with over 1,900 local partners to offer our data connectivity services in other countries. Our uCloudlink 2.0 model aims to provide mobile data connectivity services to local users across different MNOs in a single country, the success of which depends on our *GlocalMe Inside* implementation for smartphones and other smart hardware devices. We have entered into partnerships with three smartphone manufacturers in China, including TCL, to provide *GlocalMe Inside* implementation for certain smartphone models. Some local regulator require additional telecommunication licenses and permits, so we try to obtain requisite licenses and permits through both forming joint venture with local business partners who possess such licenses and permits and application by ourselves. Any deterioration of our relationship or unsuccessful cooperation with these partners or alliances could have a material adverse effect on our operating results.

These alliances could subject us to a number of other risks, including risks associated with sharing proprietary information, failing to obtain or maintain the requisite certificates or licenses, non-performance by the third party and increased expenses in establishing new strategic alliances, any of which may materially and adversely affect our business. We may have limited ability to monitor or control the actions of these third parties and, to the extent any of these strategic third parties suffers negative publicity or harm to their reputation from events relating to their business, we may also suffer negative publicity or harm to our reputation by virtue of our association with any such third party.

If our efforts to attract and retain users do not achieve the expected results, our results of operations could be materially and adversely affected.

Our success depends on introducing new products and services and upgrading existing ones to attract and retain users. In order to attract and retain users and compete against our competitors, we must continue to invest significant resources in research and development to enhance our technologies, improve our existing products and services, and introduce additional high-quality products and services, local data traffic service and *GlocalMe Inside* service. Despite testing prior to the release and throughout the lifecycle, our products and services sometimes contain coding or manufacturing errors, and result in other negative consequences. The detection and correction of any errors in released products and services can be time consuming and costly, causing delay in the development or release of new products or services or new versions of products or services, and adverse impact on market acceptance of our products or services. Furthermore, we may incur significant sales and marketing expenses in promoting our brand and new products and services in order to attract and retain our users. If we are unable to anticipate user preferences or industry changes, or if we are unable to enhance the quality of our products and services on a timely basis, we may suffer a decline in the size of our user base. Our results of operations may also suffer if our innovations do not respond to the needs of our users, are not appropriately timed with market opportunities or are not effectively brought to market.

We face risks related to natural disasters, terrorist acts or acts of war, social unrest, health epidemics or other public safety concerns or hostile events, which could significantly disrupt our operations.

The 2019-2020 protests and demonstrations in Hong Kong, which resulted in violence, impacted the local economy and the travel industry in Hong Kong. Since we are headquartered in Hong Kong and some of our assets and operations are located there, if any significant negative developments to the political, economic or social environment were to occur, our business, results of operations and financial condition would be adversely affected.

Our business could be materially and adversely affected by natural disasters, terrorist acts or acts of war, social unrest, health epidemics or other public safety concerns or hostile events. Natural disasters may give rise to server interruptions, breakdowns, system or technology platform failures, or internet failures, which would adversely affect our ability to operate our platform and provide our services. In addition, our results of operations could be adversely affected to the extent that any such event affects the economic condition in general and the travel industry in particular.

Since early 2020, the disease caused by a novel strain of coronavirus, later named COVID-19, has severely impacted China and the rest of the world. On March 11, 2020, the World Health Organization declared COVID-19 a pandemic. The COVID-19 pandemic has led governments and other authorities around the world to impose measures intended to control its spread, including restrictions on freedom of movement, gatherings of large numbers of people, and business operations such as travel bans, border closings, business closures, quarantines, shelter-in-place orders and social distancing measures. As a result, the COVID-19 pandemic and its consequences have caused a severe decline in global travel.

The COVID-19 pandemic has subjected our business, operations and financial condition to a number of significant risks:

- ***Revenues.*** The outbreak has caused a severe decline in the level of business and leisure travel around the globe. As a result, demand for our international data connectivity services is significantly reduced. Such decline also caused a decrease in revenues from sales of terminals and provision of PaaS and SaaS services to our business partners. On the other hand, our revenues generated from local data connectivity service has increased as the demand for such service increased due to the wide adoption of activities such as working from home and online classes during the outbreak. We estimate that our total revenues in the first quarter of 2020 will decrease by approximately 36.7% to 38.5% as compared to the fourth quarter of 2019. There is no guarantee that our total revenues will grow or remain at the similar level year over year in the remaining three quarters of 2020.

[Table of Contents](#)

- *Customers.* In addition to the decrease in demand of individual consumers that use our services and purchase our products, our business partners have also been adversely affected by the outbreak, purchasing fewer of our terminals and using less of our PaaS and SaaS services. Customers may require additional time to pay us or fail to pay us at all, which has increased the amount of accounts receivable and requires us to record additional allowances for doubtful accounts, write-off of bad debts, or reduction of recognized revenues and profits. The turnover days for the account receivables is likely to be affected as a result.
- *Suppliers.* Our suppliers' ability to timely deliver raw materials, parts and finished products, or services is likely to be affected by the outbreak and measures taken to control the spread, such as travel restrictions and closure of facilities.
- *Cost of Revenues.* Our cost of revenues as a percentage of total revenues increases due to change in products mix with different gross profit margin, shortage of raw materials, delay in production, and fluctuation of raw material prices.

The impact of the COVID-19 pandemic is rapidly evolving, and the continuation or a future resurgence of the pandemic could precipitate or aggravate the other risk factors that we face, which in turn could further materially and adversely affect our business, financial condition, liquidity, results of operations and profitability, including in ways that are not currently known to us or that we do not currently consider to present significant risks. The extent of the impact of the COVID-19 on our operational and financial performance in the longer term will depend on future developments, including the duration of the outbreak and related travel advisories and restrictions and the impact of the COVID-19 on overall demand for travel, all of which are highly uncertain and beyond our control.

In addition to COVID-19, our business could also be adversely affected by the outbreak of Ebola virus disease, H1N1 flu, H7N9 flu, avian flu, SARS, or other epidemics.

Interruption or failure of our own technology systems or those provided by third-party service providers we rely upon could impair our ability to provide products and services, which could damage our reputation and harm our results of operations.

Our ability to provide products and services depends on the continuing operation of our technology systems or those provided by third-party service providers, such as cloud service providers. Any damage to or failure of such systems could interrupt our services. Service interruptions could reduce our revenue and profit and damage our brand if our systems are perceived to be unreliable. Our systems are vulnerable to damage or interruption as a result of terrorist attacks, wars, earthquakes, floods, fires, power loss, telecommunications failures, undetected errors or "bugs" in our software, malware, computer viruses, interruptions in access to our platform through the use of "denial of service" or similar attacks, hacking or other attempts to harm our systems, and similar events. Some of our systems are not fully redundant, and our disaster recovery planning does not account for all possible scenarios. If we cannot continue to retain third-party services on acceptable terms, our services may be interrupted. If we experience frequent or persistent system failures on our platform, whether due to interruptions and failures of our own technology and or those provided by third-party service providers that we rely upon, our reputation and brand could be severely harmed.

We are in the process of developing and optimizing our billing system, which will place a key role in our existing and planned business initiatives. Any error in the billing system could disrupt our operations and impact our ability to provide or bill for our services, retain customers, attract new customers, or negatively impact overall customer experience. Any occurrence of the foregoing could cause material adverse effects on our operations and financial condition, material weaknesses in our internal control over financial reporting, and reputational damage.

The current tensions in international economic relations may negatively affect the cost of our operations, the growth of our business, and the size of our target market.

Recently there have been heightened tensions in international economic relations, such as the one between the U.S. and China. Since July 2018, the U.S. government has imposed, and has proposed to impose additional, new or higher tariffs on certain products imported from China to penalize China for what it characterizes as unfair trade practices. China has responded by imposing, and proposing to impose additional, new or higher tariffs on certain products imported from the U.S. In May 2019, the U.S. government announced to increase tariffs to 25%, and China responded by imposing tariffs on certain U.S. goods on a smaller scale, and proposed to impose additional tariffs on U.S. goods. On May 16, 2019, the U.S. government placed Huawei Technologies Co. Ltd and its affiliates on the entity list, which effectively banned U.S. companies from selling to the Chinese telecoms company without U.S. government's approval. On June 1, 2019, the tariffs announced in May 2019 became in effect on US\$60 billion worth of U.S. goods exported to China. On September 1, 2019, as announced, U.S. began implementing tariffs on more than US\$125 billion worth of Chinese imports. On September 2, 2019, China lodged a complaint against the U.S. over import tariffs to the World Trade Organization. On October 11, 2019, the U.S. government announced that the two countries had reached a "Phase 1" agreement, which was signed on January 16, 2020. Nevertheless, it remains unclear how much economic relief from the trade war it will offer.

In light of the existing and future measures, we may be required to adjust or relocate certain parts of our operations, which can be costly and time consuming. Similarly, our supply chain may be negatively affected too. In addition, given that certain measures are centered on the information and communications, the global implementation of 5G mobile communication systems could be delayed, which may reduce the pace of growth in need for mobile data connectivity services worldwide. Escalations of the tensions that affect trade relations may lead to slower growth in global travels and global economy in general, and potentially negatively affect our business, financial condition and results of operations. We cannot provide any assurances or forecasts as to how the current Sino-U.S. economic relations may evolve.

We face competition from other players in the international mobile data connectivity service industry and local mobile data connectivity service industry and their adjacent industries, including MNOs, MVNOs, and other mobile data connectivity service providers.

The international mobile data connectivity service industry and local mobile data connectivity service industry are competitive, and competition for users is increasing. While we create unique values to and collaborate with MNOs and MVNOs, who are important participants on our mobile data traffic sharing marketplace, we also face competition from them. As a result, their interests may be different from, or adverse to, ours. These and other competitors have developed or may develop technologies that compete directly with our solutions.

Some of the MNOs and MVNOs we compete with are substantially larger than we are and have substantially longer operating histories. We may not be able to fund or invest in certain areas of our business to the same degree as these competitors. Many have substantially greater product development and marketing budgets and other financial and personnel resources than we do. Some also have greater name and brand recognition and a larger base of subscribers or users than we have. In addition, our competitors may provide services that we generally do not, such as cellular, local exchange and long distance services, voicemail and digital subscriber lines. Users that desire these services may choose to also obtain mobile wireless connectivity services from a competitor that provides these additional services rather than from us. Furthermore, our competitors, particularly the MNOs and MVNOs can leverage a variety of competition strategies that may affect our business, such as raising claimed noncompliance to regulatory bodies, initiating legal or administrative proceedings against us for contractual, competition, antitrust, or other causes of actions, or even lobbying for legislations that may have a disproportionate impact on us.

In addition, as our business model matures and technology direction becomes proven, players along the value chain of our services may expand into our territory, further intensifying the competition. Competition could increase our selling and marketing expenses and related user acquisition costs. We may not have the financial resources, technical expertise or marketing and support capabilities to continue to compete successfully. A failure to respond to established and new competitors may adversely impact our business and operating results.

We may also face pressure to reduce prices for our products and services. As competition in the international mobile data connectivity service industry and local mobile data connectivity service industry has increased, MNOs have lowered prices or increased the data traffic available under plans to attract or retain users, either through individual initiatives or joint actions among MNOs. To remain competitive, we may be compelled to reduce the prices for our mobile data connectivity services, which may in turn adversely affect our profitability and results of operations.

We may also be harmed by negative publicity instigated by our competitors, regardless of its validity. We have encountered and may in the future continue to encounter disputes with our competitors, including lawsuits involving claims asserted under intellectual property laws, trade secret misappropriation and defamation, which may adversely affect our business and reputation. See “Business—Legal Proceedings.” Failure to compete with current and potential competitors could materially harm our business, financial condition and our results of operations.

We may not be able to obtain licenses to use third-party intellectual property on commercially reasonable terms or at all.

Certain of products and services we offer incorporate third-party intellectual property, which requires licenses from those third parties. Based on past experience and industry practice, we believe such licenses generally can be obtained on reasonable terms. However, there can be no assurance that we would be able to obtain such licenses on commercially reasonable terms, if at all, that we would be able to develop alternative technology on a timely basis, if at all, or that we would be able to obtain a license to use a suitable alternative technology to permit us to continue offering, and our users to continue using, our affected products and services. Failure to obtain the right to use third-party intellectual property, or to use such intellectual property on commercially reasonable terms, could preclude us from selling certain products or services, or otherwise have a material adverse impact on our financial condition and operating results.

If our expansions into new businesses do not achieve the expected results, our future results of operations and growth prospects may be materially and adversely affected.

As part of our growth strategy, we enter into new markets, such as mobile data connectivity services for local users, develop new businesses, such as *GlocalMe Inside*, find new applications for our technologies, such as IoT, and explore new monetization opportunities. Expansions into new businesses may present operating, marketing and compliance challenges that differ from those that we currently encounter. There can be long lead time and various uncertainties associated with the development of new products and services. Our potential lack of familiarity with new products and services and the lack of relevant marketing data relating to these products and services may make it more difficult for us to anticipate user demand and preferences. We may misjudge market demand, and may not be able to effectively control our costs and expenses in rolling out these new products and services. Furthermore, it may take a long time for users to recognize the value of the new products and services and we may need to price our new products or services more aggressively to penetrate new markets and gain market share or remain competitive. One of the strategies we employ to expand is to introduce new and innovative business models. In the markets in which we operate the new business models, the regulators may not be familiar with the business model and new legislations that adapt to the new business model may be lacking, creating uncertainties in the outcome of the regulators determinations or our compliance status. We have historically experienced investigations or inquiries from the regulators regarding our new business models.

For example, we started to commercially offer products and services for uCloudlink 2.0 model in 2018, through which we aim to provide mobile data connectivity services for local users across different MNOs, since local mobile data traffic represents a much bigger market than international data roaming. We have entered into partnerships with three smartphone manufacturers in China, including TCL, to provide GlocalMe Inside implementation for certain smartphone models. We may not be able to effectively control our costs and expenses in these new business initiatives. We may encounter regulatory issues, bad reception by the market, or difficulties in securing partnerships with smartphone companies. If our new business initiatives do not achieve the level of success we expected, our operating results and growth prospect can be adversely affected.

We generate a substantial portion of our revenues from provision of international mobile data connectivity services. If we fail to diversify our revenue base or increase our market share in the future, our sales growth and operating results may be adversely affected.

In 2017, 2018 and 2019, we derived 75.8%, 64.9%, and 49.2%, respectively, of our total revenues from our international mobile data connectivity services. While we expect to continue to diversify our revenue base, there can be no assurance the new products and services we introduce will be successful. Accordingly, our future success depends upon our ability to enhance and expand our international mobile data connectivity service and maintain or further increase our market share in the international data roaming market, which involves substantial time, costs and risks. Our revenues from international mobile data connectivity services are expected to be affected by travel and consumer spending, because users seek to access the mobile internet while they are on-the-go, and because spending on internet access is often a consumer discretionary spending decision. Any severe or prolonged slowdown in the global and/ or Chinese economy or the recurrence of any financial disruptions could reduce expenditures for travel, which in turn may adversely affect our operating results and financial condition. The COVID-19 pandemic has led governments and other authorities around the world to impose measures intended to control its spread, including restrictions on freedom of movement, gatherings of large numbers of people, and business operations such as travel bans, border closings, business closures, quarantines, shelter-in-place orders and social distancing measures. As a result, the COVID-19 pandemic and its consequences have caused a severe decline in global travel. As a result, demand for our international data connectivity services is significantly reduced. Furthermore, we already occupy considerable market shares in some of our focused geographic markets, leaving less potential for rapid growth in those markets. If we do not achieve the targeted results from enhancing and expanding our international mobile data connectivity service and maintaining or further increasing our market share, for technological or other reasons, our sales growth and operating results may be adversely affected.

The international nature of our business exposes us to certain business risks that could limit the effectiveness of our growth strategy and cause our results of operations to suffer.

Global expansion is an element of our growth strategy. Introducing and marketing our services internationally, developing direct and indirect international sales and support channels and managing global operations require significant management attention and financial resources. We face a number of risks associated with expanding our business internationally that could negatively impact our results of operations, including:

- compliance with foreign laws, including more stringent laws in foreign jurisdictions relating to the privacy and protection of third-party data;
- regulatory requirements to provide communication services in foreign jurisdictions;
- competition from companies with international operations, including large international competitors and entrenched local companies;
- to the extent we choose to make acquisitions to enable our international expansion efforts, the identification of suitable acquisition targets in the markets into which we want to expand;
- difficulties in protecting intellectual property rights in international jurisdictions;

[Table of Contents](#)

- political and economic instability in some overseas markets;
- difficulties in recruiting and managing employees in overseas operations with different cultural backgrounds;
- currency fluctuations and exchange rates; and
- potentially adverse tax consequences or an inability to realize tax benefits; and

We may not succeed in our efforts to expand our international presence as a result of the factors described above or other factors that may have an adverse impact on our financial condition and results of operations.

We are subject to inventory risks.

For our hardware terminals, such as *GlocalMe* portable Wi-Fi terminals and *GlocalMe* World Phones, we must forecast inventory needs and place orders with our contract manufacturers and component suppliers based on our estimates of future demand for particular products. We may be unable to meet customer or distributor demand for our products or may be required to incur higher costs to secure the necessary production capacity and components. We could also overestimate future demand for our products and risk carrying excess product and component inventory, in which case our business and operating results could be adversely affected.

We are subject to risks related to data demand projection.

To ensure adequate supply of data traffic for our users, we must forecast the demand. While our uCloudlink cloud SIM platform and our SIM card allocation algorithm significantly increase the efficiency and utilization rate of the SIM cards, our ability to accurately forecast demand for our services could be affected by many factors, including specific events at a location, sales promotions by us or our distribution partners, and unanticipated changes in general market and economic conditions, among others. If we fail to accurately forecast user demand, we may experience shortage of network coverage or data traffic, limiting or interrupting the service to our users, and the users will lose confidence in our services. As market competition for products or services similar to ours intensifies, it could become more difficult to forecast demand.

Developments in alternative connectivity services, improvements in the existing networks or services, or advances in existing or alternative technologies may encroach our market share, or make our technologies obsolete, thereby materially and adversely affecting the demand for our products and services.

Developments in alternative connectivity services, improvements in the existing networks or services, or advances in existing or alternative technologies, such as Low-Earth-Orbit satellite-based communication technologies, or successful combinations of those may encroach our market share and materially and adversely affect our business and prospects in ways we do not currently anticipate. For example, improvements in the existing networks or services of MNOs that result in more flexible offerings at lower prices of both international mobile data connectivity service and local mobile data connectivity service could undermine the competitiveness of our products and services, resulting in decreased revenue and a loss of market share to competitors or providers of alternative services.

Introduction of new business models may encroach our market share.

New business models can be introduced in the markets we operate in or their adjacent markets, which can be the result of technology development, industry consolidation, or new players entering the market. For example, many venues offer free mobile Wi-Fi as an incentive or value-added benefit to their users. Free Wi-Fi may reduce retail user demand for our services, and put downward pressure on the prices we charge our retail users. In addition, telecommunications operators may offer free mobile Wi-Fi as part of a home broadband or other

[Table of Contents](#)

service contract, which also may force down the prices we charge our retail users. In addition, some mobile apps work with MNOs to offer free data traffic that can be utilized only by such apps, which may reduce the demand for our mobile data connectivity service. If these new business models are more attractive to users than the business models we currently use, our users may switch to our competitors' services, and we may lose market share.

We may acquire companies or make investments in, or enter into licensing arrangements with, other companies with technologies that are complementary to our business and these acquisitions or arrangements could have negative impacts on our business or cause us to require additional financing.

We may acquire companies, assets or the rights to technologies in the future in order to develop new services or enhance existing services, to enhance our operating infrastructure, to fund expansion, to respond to competitive pressures or to acquire complementary businesses. For example, in October 2018, we made an equity investment in a privately-held company, Maya System, Inc., which provides cloud SIM related services in Japan, including sale of products and maintenance. Entering into these types of arrangements entails many risks, any of which could materially harm our business, including:

- diversion of management's attention from other business concerns;
- failure to effectively integrate the acquired technology or company into our business;
- incurring of significant acquisition costs;
- loss of key employees from either our current business or the acquired business; and
- assumption of significant liabilities of the acquired company.

Any of the foregoing or other factors could harm our ability to achieve anticipated levels of profitability from acquired businesses or to realize other anticipated benefits of acquisitions. We may not be able to identify or consummate any future acquisitions on favorable terms, or at all. If we do effect an acquisition, it is possible that the financial markets or investors will view the acquisition negatively. We may encounter difficulties in securing necessary financing at terms that would be acceptable to us and may not be able to close on the proposed acquisition. Even if we successfully complete an acquisition, it could adversely affect our business.

We are subject to risks and uncertainties faced by companies in rapidly evolving industries.

We operate in the rapidly evolving international mobile data connectivity service industry and local mobile data connectivity service industry, which makes it difficult to predict our future results of operations. Accordingly, you should consider our future prospects in light of the risks and uncertainties experienced by companies in evolving industries. Some of these risks and uncertainties relate to our ability to:

- maintain our market share;
- successfully expand into new businesses and explore additional monetization opportunities, such as mobile data connectivity services for local users such as *GlocalMe Inside*;
- offer attractive, useful and innovative products and services to attract and retain a larger user base;
- upgrade our technology to support increased traffic and expanded product and service offerings;
- further enhance our brand;
- respond to competitive market conditions;
- respond to evolving user preferences or industry changes;
- respond to changes in the regulatory environment and manage legal risks, including those associated with intellectual property rights;

[Table of Contents](#)

- maintain effective control of our costs and expenses;
- execute our strategic investments and acquisitions and post-acquisition integrations effectively; and
- build profitable operations in new markets we have entered into.

If we are unsuccessful in addressing any of these risks and uncertainties, or if the international mobile data connectivity service industry or local mobile data connectivity service industry do not grow as quickly as expected, our results of operation and financial condition may be materially and adversely affected.

Actions of joint venture partners could negatively impact our performance.

We may enter into joint ventures in the future. Such joint venture investments may involve risks not otherwise present with a branch or subsidiary, including, without limitation:

- the risk that our joint venture partner might become bankrupt, insolvent or otherwise unable to meet its financial obligations under the terms of the joint venture;
- the risk that our joint venture partner may at any time have economic or business interests or goals which are, or which become, inconsistent with our business interests or goals;
- the risk that our joint venture partner may be in a position to take actions that are contrary to the agreed upon terms of the joint venture, our instructions or our policies or objectives;
- the risk that we may incur liabilities as a result of an action taken by our joint venture partner;
- the risk that disputes between us and our joint venture partner may result in litigation or arbitration that would increase our expenses and occupy the time and attention of our officers and directors;
- the risk that neither joint venture partner may have the ability to unilaterally control the joint venture with respect to certain major decisions, and as a result an irreconcilable impasse may be reached with respect to certain decisions; and
- the risk that we may not be able to sell our interest in a joint venture when we desire to exit the joint venture, or at an attractive price.

The occurrence of any of the foregoing risks with respect to a joint venture could have an adverse effect on the financial performance of such joint venture, which could in turn have an adverse effect on our financial performance and the value of an investment in our company.

In connection with the audits of our consolidated financial statements included in this prospectus, we and our independent registered public accounting firm identified two material weaknesses in our internal control over financial reporting. If we fail to develop and maintain an effective system of internal control over financial reporting, we may be unable to accurately report our financial results or prevent fraud.

Prior to this offering, we have been a private company with limited accounting personnel and other resources with which we address our internal control over financial reporting. In connection with the audits of our consolidated financial statements included in this prospectus, we and our independent registered public accounting firm identified two material weaknesses in our internal control over financial reporting. As defined in the standards established by the U.S. Public Company Accounting Oversight Board, a “material weakness” is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the annual or interim financial statements will not be prevented or detected on a timely basis.

The material weaknesses that have been identified relate to our (i) lack of sufficient resources regarding financial reporting and accounting personnel in the application of U.S. GAAP and the reporting requirements set

[Table of Contents](#)

forth by the SEC and (ii) lack of comprehensive U.S. GAAP accounting policies and financial reporting procedures. The material weaknesses, if not timely remedied, may lead to significant misstatements in our consolidated financial statements in the future.

Neither we nor our independent registered public accounting firm undertook a comprehensive assessment of our internal control for purposes of identifying and reporting material weaknesses and other control deficiencies in our internal control over financial reporting. Had we performed a formal assessment of our internal control over financial reporting or had our independent registered public accounting firm performed an audit of our internal control over financial reporting, additional deficiencies may have been identified.

Following the identification of the material weaknesses, we have taken measures and plan to continue to take measures to remedy the material weaknesses. See “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Internal Control Over Financial Reporting.” However, the implementation of these measures may not fully address the material weaknesses in our internal control over financial reporting, and we cannot conclude that they have been fully remediated. Our failure to correct the material weaknesses or our failure to discover and address any other control deficiencies could result in inaccuracies in our financial statements and impair our ability to comply with applicable financial reporting requirements and related regulatory filings on a timely basis. Moreover, ineffective internal control over financial reporting could significantly hinder our ability to prevent fraud.

Upon completion of this offering, we will become subject to the Sarbanes-Oxley Act of 2002. Section 404 of the Sarbanes-Oxley Act, or Section 404, requires that we include a report from management on the effectiveness of our internal control over financial reporting in our annual report beginning with our annual report for the fiscal year ending December 31, 2019. In addition, once we cease to be an “emerging growth company” as such term is defined in the JOBS Act, our independent registered public accounting firm must attest to and report on the effectiveness of our internal control over financial reporting. Our management may conclude that our internal control over financial reporting is not effective. Moreover, even if our management concludes that our internal control over financial reporting is effective, our independent registered public accounting firm, after conducting its own independent testing, may issue a report that is qualified if it is not satisfied with our internal controls or the level at which our controls are documented, designed, operated or reviewed, or if it interprets the relevant requirements differently from us. In addition, after we become a public company, our reporting obligations may place a significant strain on our management, operational and financial resources and systems for the foreseeable future. We may be unable to timely complete our evaluation testing and any required remediation.

During the course of documenting and testing our internal control procedures, in order to satisfy the requirements of Section 404, we may identify other weaknesses and deficiencies in our internal control over financial reporting. In addition, if we fail to maintain the adequacy of our internal control over financial reporting, as these standards are modified, supplemented or amended from time to time, we may not be able to conclude on an ongoing basis that we have effective internal control over financial reporting in accordance with Section 404. If we fail to achieve and maintain an effective internal control environment, we could suffer material misstatements in our consolidated financial statements and fail to meet our reporting obligations, which would likely cause investors to lose confidence in our reported financial information. This could in turn limit our access to capital markets, harm our results of operations, and lead to a decline in the trading price of the ADSs. Additionally, ineffective internal control over financial reporting could expose us to increased risk of fraud or misuse of corporate assets and subject us to potential delisting from the stock exchange on which we list, regulatory investigations and civil or criminal sanctions. We may also be required to restate our consolidated financial statements for prior periods.

We have not recognized any share-based compensation expense to date but will recognize a substantial amount of share-based compensation expense upon completion of this offering, which will have a material adverse impact on our results of operations.

In July 2019, our shareholders and board of directors adopted the Amended and Restated 2018 Stock Option Scheme and the 2019 Share Incentive Plan, which we refer to as the 2018 Plan and 2019 Plan, respectively, in this prospectus, for the purpose of granting share-based compensation awards to employees, directors and other selected persons to incentivize their performance and align their interests with ours. The maximum aggregate number of ordinary shares that may be issued under the 2018 Plan is 40,147,720 shares. The 2019 Plan will become effective upon the SEC's declaration of effectiveness of our registration statement on Form F-1 of which this prospectus is a part, and the maximum aggregate number of ordinary shares that may be issued pursuant to all awards under the 2019 Plan is initially 23,532,640 shares, which will be increased by a number equal to 1.0% of the total number of shares issued and outstanding on the last day of the immediately preceding fiscal year on the first day of each fiscal year, commencing with the fiscal year ended December 31, 2020, if determined and approved by the board of directors for the relevant fiscal year. As of the date of this prospectus, 22,015,577 share options have been granted and outstanding, and no awards have been granted under the 2019 Plan. We are required to account for share options and other share-based awards granted to our employees and directors in accordance with Codification of Accounting Standards, or ASC 718, "Compensation—Stock Compensation." We are required to classify share options granted to our employees and directors as equity awards and recognize share-based compensation expense based on the grant-date fair value of such share options, with the share-based compensation expense recognized over the period in which the recipient is required to provide service in exchange for the equity award. Because the vesting of the share options granted by us is also conditional upon completion of this offering, we have not recognized share-based compensation expense relating to these share options granted by us yet, which is not considered probable until it occurs. In addition, in connection with the dual-class share structure that will become effective immediately prior to the completion of this offering, 122,072,980 of ordinary shares beneficially owned by Mr. Chaohui Chen and Mr. Zhiping Peng, our founders and directors, will be redesignated into Class B ordinary shares on a one-for-one basis, with each Class B ordinary share being entitled to 15 votes on all matters subject to vote by our shareholders. In this regard, we expect to recognize share-based compensation expenses in the quarter we complete this offering. As a result, upon the completion of this offering, we expect to begin to recognize a substantial amount of share-based compensation expense, which will have a significant impact on our results of operations. Moreover, if additional share options or other equity incentives are granted to our employees or directors in the future, we will incur additional share-based compensation expense and our results of operations will be further adversely affected. For further information on our equity incentive plans and information on our recognition of related expenses, please see "Management—Amended and Restated 2018 Stock Option Scheme" and "—2019 Share Incentive Plan."

We are subject to taxation-related risks in multiple jurisdictions.

The tax laws applicable to our business activities are subject to change and uncertain interpretation. Our tax position could be adversely impacted by changes in tax rates, tax laws, tax practice, tax treaties or tax regulations or changes in the interpretation thereof by the tax authorities in jurisdictions in which we do business.

Moreover, we conduct operations through our subsidiaries in various tax jurisdictions pursuant to transfer pricing arrangements between us and our subsidiaries. While we believe that we operate in compliance with applicable transfer pricing laws and intend to continue to do so, our transfer pricing procedures are not binding on applicable tax authorities. If tax authorities in any jurisdiction in which we operate were to successfully challenge our transfer prices as not reflecting arms' length transactions, they could require us to adjust our transfer prices and thereby reallocate our income to reflect these revised transfer prices, which could result in a higher tax liability to us. Furthermore, a tax authority could assert that we are subject to tax in a jurisdiction where we believe we have not established a taxable connection, and such an assertion, if successful, could increase our expected tax liability in one or more jurisdictions. Such circumstances could adversely affect our financial condition, results of operations and cash flows.

We are subject to complex and evolving laws and regulations regarding privacy and data protection.

Many jurisdictions, including the United States, the European Union and China, continue to consider the need for greater regulation or reform to the existing regulatory framework for privacy and data protection. In the United States, all 50 states have now passed laws to regulate the actions that a business must take in the event of a data breach, such as prompt disclosure and notification to affected users and regulatory authorities. In addition to the data breach notification laws, some states have also enacted statutes and rules requiring businesses to reasonably protect certain types of personal information they hold or to otherwise comply with certain specified data security requirements for personal information. Additionally, the U.S. federal and state governments will likely continue to consider the need for greater regulation aimed at restricting certain uses of personal data for targeted advertising. In the European Union, or EU, the General Data Protection Regulation, or GDPR, which came into effect on May 25, 2018, increased our burden of regulatory compliance and requires us to change certain of our privacy and data security practices in order to achieve compliance. The GDPR implements more stringent operational requirements for processors and controllers of personal data, including, for example, requiring expanded disclosures about how personal information is to be used, limitations on retention of information, mandatory data breach notification requirements, and higher standards for data controllers to demonstrate that they have obtained either valid consent or have another legal basis in place to justify their data processing activities. The GDPR further provides that EU member states may make their own additional laws and regulations in relation to certain data processing activities, which could further limit our ability to use and share personal data and could require localized changes to our operating model. Under the GDPR, fines of up to €20 million or up to 4% of the total worldwide annual turnover of the preceding financial year, whichever is higher, may be assessed for non-compliance, which significantly increases our potential financial exposure for non-compliance. Since the GDPR only came into effect recently, the potential risks associated with non-compliance therewith are uniquely difficult to predict.

In June 2017, the PRC Cyber Security Law promulgated by the Standing Committee of the National People's Congress, or the SCNPC, took effect, which is formulated to maintain the network security, safeguard the cyberspace sovereignty, national security, and public interests, protect the lawful rights and interests of citizens, legal persons, and other organizations, and requires that a network operator take technical measures, and other necessary measures to safeguard the safe and stable operation of the networks, effectively respond to the network security incidents, prevent illegal and criminal activities, and maintain the integrity, confidentiality, and availability of network data. The PRC Cyber Security Law reaffirms the basic principles and requirements set forth in other existing laws and regulations on personal information protections and strengthens the obligations and requirements of internet service providers, which include but are not limited to: (i) keeping all user information collected strictly confidential and setting up a comprehensive user information protection system; (ii) abiding by the principles of legality, rationality and necessity in the collection and use of user information and disclosure of the rules, purposes, methods and scopes of collection and use of user information; and (iii) protecting users' personal information from being leaked, tampered with, destroyed, or provided to third parties. Any violation of the provisions and requirements under the PRC Cyber Security Law and other related regulations and rules may result in administrative liabilities such as warnings, fines, confiscation of illegal gains, revocation of licenses, suspension of business, and shutting down of websites, or, in severe cases, criminal liabilities. In addition, National Internet Information Office published Measures for the Security Assessment of Personal Information and Important Data to be Transmitted Abroad, or the Draft Security Assessment Notice to seek for public comments on April 11, 2017. The Draft Security Assessment Notice emphasizes the security evaluation requirements, any company found to be non-compliant with the obligations under the Draft Security Assessment Notice may potentially be subject to fines, administrative and/or criminal liabilities. It is still uncertain when the Draft Security Assessment Notice would be signed into law and whether the final version would have any substantial changes from this draft. Although we do not transfer any users' personal information outside the PRC currently, we may transfer such information outside the PRC in the future subject to the requests or orders of governmental authorizations outside the PRC. We may not be able to fulfill the obligations then we are subjected to, among other, the security assessment at acceptable cost, or at all.

In addition to the above, many jurisdictions including, for example, Indonesia, have adopted or are adopting new data privacy and data protection laws that may impose further onerous compliance requirements, such as data localization, which prohibits companies from storing data relating to resident individuals in data centers outside the jurisdiction. The proliferation of such laws within jurisdictions and countries in which we operate may result in conflicting and contradictory requirements.

In order for us to maintain or become compliant with applicable laws as they come into effect, it may require substantial expenditures on resources to continually evaluate our policies and processes and adapt to new requirements that are or become applicable to us. Complying with any additional or new regulatory requirements on a jurisdiction-by-jurisdiction basis would impose significant burdens and costs on our operations or may require us to alter our business practices. While we strive to protect our users' privacy and data security and to comply with material data protection laws and regulations applicable to us, it is possible that our practices are, and will continue to be, inconsistent with certain regulatory requirements. Our international business expansion could be adversely affected if these laws and regulations are interpreted or implemented in a manner that is inconsistent with our current business practices or that requires changes to these practices. If these laws and regulations materially limit our ability to collect and use user data, our ability to continue our current operations without modification, develop new services or features of the products and expand our user base will be impaired. Any failure or perceived failure by us to comply with applicable data privacy laws and regulations, including in relation to the collection of necessary end-user consents and providing end-users with sufficient information with respect to our use of their personal data, may result in fines and penalties imposed by regulators, governmental enforcement actions (including enforcement orders requiring us to cease collecting or processing data in a certain way), litigation and/or adverse publicity. Proceedings against us—regulatory, civil or otherwise—could force us to spend money and devote resources in the defense or settlement of, and remediation related to, such proceedings.

We would be harmed by data loss or other security breaches.

Our business involves the receipt, storage, and transmission of our users' confidential information, including sensitive personal information, confidential information about our employees and suppliers, and other sensitive information about our company. Unauthorized access to confidential information may be difficult to anticipate, detect, or prevent, particularly given that the methods of unauthorized access constantly change and evolve. We are subject to the threat of unauthorized access or disclosure of confidential information by state-sponsored parties, malicious actors, third parties or employees, errors or breaches by third-party suppliers, or other security incidents that could compromise the confidentiality and integrity of confidential information. Cyber-attacks, such as denial of service and other malicious attacks, could disrupt our internal systems and applications, impair our ability to provide services to our users, and have other adverse effects on our business and that of others who depend on our services. Mobile networks are considered a critical infrastructure provider and therefore may be more likely to be the target of such attacks. Such attacks against companies may be perpetrated by a variety of groups or persons, including those in jurisdictions where law enforcement measures to address such attacks are ineffective or unavailable, and such attacks may even be perpetrated by or at the behest of foreign governments.

Our procedures and safeguards to prevent unauthorized access to sensitive data and to defend against attacks seeking to disrupt our services must be continually evaluated and revised to address the ever-evolving threat landscape. We cannot make assurances that all preventive actions taken will adequately repel a significant attack or prevent information security breaches or the misuses of data, unauthorized access by third parties or employees, or exploits against third-party supplier environments. If we or our third-party suppliers are subject to such attacks or security breaches, we may incur significant costs or other material financial impact, which may not be covered by, or may exceed the coverage limits of, our cyber insurance, be subject to regulatory investigations, sanctions and private litigation, experience disruptions to our operations or suffer damage to our reputation. Any future cyber-attacks, data breaches, or security incidents may have a material adverse effect on our business, financial condition, and operating results.

Our products and services may experience quality problems from time to time, which could result in decreased sales, adversely affect our results of operations and harm our reputation.

Our products and services could contain design and manufacturing defects in their materials, hardware, and firmware. Defects may also occur in components and materials that we purchase from third-party suppliers, such as batteries. These defects could include defective materials or components, or “bugs,” that can unexpectedly interfere with the products’ intended operations. Although we extensively test new and enhanced products and services before their release, there can be no assurance we will be able to detect, prevent, or fix all defects. Failure to do so could result in loss of revenue, significant warranty and other expenses and harm to our reputation.

Any unauthorized control or manipulation of our products or systems could result in a material adverse effect on our business.

We have designed, implemented and tested security measures intended to prevent unauthorized access to our information technology networks, our products and systems. However, hackers or even our own employees may attempt to gain unauthorized access to modify, alter and use such networks, products and systems to gain control of, or to change, our products’ functionality, user interface and performance characteristics, exploit our services for free and possibly for illegal use. Any unauthorized access to or control of our products or systems could result in legal claims, proceedings or investigations that cause interruptions of our operations, and damage to our reputation. In addition, we can be held liable for the illegal activities conducted through such unauthorized control or manipulation of our products and systems.

Our use of open source software could negatively affect our ability to offer our products and services and subject us to possible litigation.

A portion of the technologies we use incorporates open source software, and we may incorporate open source software in the future. Such open source software is generally licensed by its authors or other third parties under open source licenses. These licenses may subject us to certain unfavorable conditions, including requirements that we offer our products and services that incorporate the open source software for no cost, that we make publicly available source code for modifications or derivative works we create based upon, incorporating, or using the open source software, or that we license such modifications or derivative works under the terms of the particular open source license.

Additionally, if a third-party software provider has incorporated open source software into software that we license from such provider, we could be required to disclose or provide at no cost any of our source code that incorporates or is a modification of such licensed software. If an author or any third party that distributes open source software that we use or license were to allege that we had not complied with the conditions of the applicable license, we may need to incur significant legal expenses defending against such allegations and could be subject to significant damages and enjoined from the sale of our products and services that contained the open source software. Any of the foregoing could disrupt the distribution and sale of our products and services and harm our business.

If we are unable to take advantage of technological developments on a timely basis, we may experience a decline in demand for our products and services or face challenges in implementing or evolving our business strategy.

Our future success depends on our ability to respond to rapidly changing technologies, adapt our products and services to evolving industry standards and improve the performance and reliability of our products and services. Significant technological changes continue to impact the international mobile data connectivity service industry and local mobile data connectivity service industry. In general, these technological changes may enable a certain companies to offer services competitive with ours. In order to grow and remain competitive with new

and evolving technologies, we will need to adapt to future changes in technology. Adopting new and sophisticated technologies may result in implementation issues such as system instabilities, unexpected or increased costs, technological constraints, regulatory permitting issues, user dissatisfaction, and other issues that could cause delays in launching new technological capabilities, which in turn could result in significant costs or reduce the anticipated benefits of the upgrades. In general, the development of new services in the international mobile data connectivity service industry and local mobile data connectivity service industry will require us to anticipate and respond to the continuously changing demands of our users, which we may not be able to do accurately or timely. If we fail to keep up with rapid technological changes to remain competitive, or consequently fail to retain users with products and services of exceptional quality, our future success may be materially and adversely affected.

Our success depends substantially on the continuing efforts of our senior executives and other key personnel, and our business may be severely disrupted if we lose their services.

Our success depends heavily upon the continuing services of our management team. If one or more of our executives or other key personnel are unable or unwilling to continue in their present positions for various reasons such as legal actions and negative publicity, and we are not able to find their successors in a timely manner, our business may be disrupted and our financial condition and results of operations may be adversely affected. Competition for management and key personnel is intense, the pool of qualified candidates is limited, and we may not be able to retain the services of our executives or key personnel, or attract and retain experienced executives or key personnel in the future.

If any of our executives or other key personnel joins a competitor or forms a competing company, we may not be able to successfully retain users, distributors, know-how and key personnel. Each of our executive officers and key employees has entered into an employment agreement with us, containing confidentiality and non-competition provisions. If any disputes arise between any of our executives or key personnel and us, we cannot assure you of the extent to which any of these agreements may be enforced.

We rely on highly skilled personnel. If we are unable to retain or motivate them or hire additional qualified personnel, we may not be able to grow effectively.

Our performance and future success depend on the talents and efforts of highly skilled individuals. We will need to continue to identify, hire, develop, motivate and retain highly skilled personnel for all areas of our organization and business operations. Our continued ability to compete effectively depends on our ability to attract new employees and to retain and motivate our existing employees. As we expand internationally, we also face the difficulties in recruiting and managing overseas employees, such as cultural differences, language barriers, and different regulatory requirements. As competition in the international mobile data connectivity service industry and local mobile data connectivity service industry intensifies, it may be more difficult for us to hire, motivate and retain highly skilled personnel. If we do not succeed in attracting additional highly skilled personnel or retaining or motivating our existing personnel, we may be unable to grow effectively.

If our employees commit fraud or other misconduct, including noncompliance with regulatory standards, our business may experience serious adverse consequences.

We are exposed to the risk of employee fraud or other misconduct. Certain laws and regulations may restrict or prohibit a wide range of pricing, discounting, marketing and promotion, sales commission, user incentive programs and other business arrangements. Employee misconduct could also involve the improper use of information obtained in the provision of services, which could result in regulatory sanctions and serious harm to our reputation. Furthermore, employee misconduct could subject us to financial losses and regulatory sanctions and could seriously harm our reputation and negatively affect our business. It is not always possible to identify and deter employee misconduct, and the precautions we take to detect and prevent this activity may not be effective in controlling unknown or unmanaged risks or losses or in protecting us from governmental

investigations or other actions or lawsuits stemming from a failure to be in compliance with such laws or regulations. If any such actions are instituted against us, and we are not successful in defending ourselves or asserting our rights, those actions could have a significant impact on our business, including the imposition of significant fines or other sanctions.

We are subject to anti-corruption, anti-bribery, anti-money laundering, financial and economic sanctions and similar laws, and noncompliance with such laws can subject us to administrative, civil and criminal fines and penalties, collateral consequences, remedial measures and legal expenses, all of which could adversely affect our business, results of operations, financial condition and reputation.

We are subject to anti-corruption, anti-bribery, anti-money laundering, financial and economic sanctions and similar laws and regulations in various jurisdictions in which we conduct activities, including the U.S. Foreign Corrupt Practices Act, or FCPA, the U.K. Bribery Act 2010, and other anti-corruption laws and regulations. Non-compliance with anti-corruption, anti-bribery, anti-money laundering or financial and economic sanctions laws could subject us to whistleblower complaints, adverse media coverage, investigations, and severe administrative, civil and criminal sanctions, collateral consequences, remedial measures and legal expenses, all of which could materially and adversely affect our business, results of operations, financial condition and reputation. In addition, changes in economic sanctions laws in the future could adversely impact our business and investments in the ADSs.

We cooperate with our contract manufacturers to manufacture our products. If we encounter issues with them, our business and results of operations could be materially and adversely affected.

We cooperate with certain contract manufacturers to produce our products. We may experience operational difficulties with our contract manufacturers, including reductions in the availability of production capacity, failure to comply with product specifications, insufficient quality control, failure to meet production deadlines, increases in manufacturing costs and longer lead time. Our contract manufacturers may experience disruptions in their manufacturing operations due to equipment breakdowns, labor strikes or shortages, natural disasters, component or material shortages, cost increases, violation of environmental, health or safety laws and regulations, or other problems. We may be unable to pass on the cost increases to our users. We may have disputes with our contract manufacturers, which may result in litigation expenses, divert our management's attention and cause supply shortages to us. If our contract manufacturers were unable to perform their obligations or were to end their relationship with us, it may take up a significant amount of time to identify and onboard a new manufacturer that has the capability and resources to build our products to our specifications in sufficient volume, and our business and results of operations could be materially and adversely affected.

While we have regular access to each manufacturing facility of our contract manufacturers, and have quality control teams to continually monitor the manufacturing processes at our contract manufacturers' facilities, any failure of such manufacturers to perform may have a material negative impact on our cost or supply of finished goods.

Furthermore, although our agreements with our contract manufacturers contain confidentiality obligations, and we have adopted security protocols to ensure knowhow and technologies for manufacturing our products could not be easily leaked or plagiarized, we cannot guarantee the effectiveness of these efforts, and any leakage or plagiarism of our knowhow and technologies could be detrimental to our business prospects and results of operations.

We are dependent on our suppliers to provide certain components of our products, and inability of these suppliers to continue to deliver and do so on time, or their refusal to deliver, necessary components of our products at prices and volumes acceptable to us would have a material adverse impact on our business, prospects and operating results.

While we obtain components from multiple sources whenever possible, certain components used in our products are purchased by us from limited sources. We believe that we may be able to establish alternate supply

relationships and can obtain or engineer replacement components for our limited source components, but we may be unable to do so in the short term or at all at prices or costs that are favorable to us. In particular, we rely on a major chip manufacturer based in the United States and our largest supplier of chips, for chips installed on our products. If we were to experience any material disruption to our sourcing of chips or any delay in the delivery, we may not be able to switch to an alternative supplier of chips within a short period time or at all. Furthermore, because our *GlocalMe Inside* service requires smartphone chips that support cloud SIM technology, the successful development and adoption of *GlocalMe Inside* service and our cooperation with smartphone companies in that regard depend on supply of smartphone chips featuring that function. If, for some reason, chip manufacturers remove or deny our access to that function from the chips they supply to the smart phone companies, the development of *GlocalMe Inside* business will be hindered.

We rely on distributors in marketing and selling our products and services, and failure to retain key distributors or attract additional distributors could materially and adversely affect our business.

We rely on third-party distributors in marketing and selling our products and services. If our distributors are not effective in selling and marketing our products and services, do not provide quality services to our users or otherwise breach their contracts with our users, or engage in inappropriate marketing conducts such as so-called “brushing” usually seen on e-commerce platforms, we may experience slower growth in a particular market, lose users and our results of operations may be materially and adversely affected. Since most of our distributors are not bound by long-term contracts, we cannot assure you that we will continue to maintain favorable relationships with them. If we fail to retain our key distributors or attract additional distributors on terms that are commercially reasonable, our business and results of operations could be materially and adversely affected.

We are subject to payment-related risks.

We enable our users to make payments by working with various third-party payment processing service providers. As we rely on third parties to provide payment processing services, including processing payments made with credit cards and payment apps, it could disrupt our business if these companies become unwilling or unable to provide these services to us. We may be subject to late payment, breach, human error, fraud and other illegal activities in connection with third-party online payment services. If our data security systems are breached or compromised, we may lose our ability to accept payments through credit and payment app from our users, and we may be subject to claims for damages from our users and third parties, all of which could adversely affect our reputation and results of operations.

We use third parties to perform shipping functions. A failure or disruption at our logistics providers would harm our business.

Currently, we use third-party logistics providers to perform shipment for us, including exports. If our logistics providers fail to deliver our products as required, we may face reputational damage or legal liabilities for breaching a contract. Although the shipping services required by us may be available from a number of providers, it is time-consuming and costly to qualify and implement these relationships. If one or more of our logistics providers suffer an interruption in their businesses, or experience delays, disruptions or quality control problems in their operations, or we choose to change or add additional logistics providers, our ability to ship products would be delayed and our business, results of operations and financial condition would be adversely affected.

Our results of operations are likely to fluctuate because of seasonality in the travel industry.

Our business can experience fluctuations, reflecting seasonal variations in demand for travel services. For example, summers generally see more global travels and generate more revenues for our data connectivity services. Consequently, our results of operations may fluctuate with the season. As we continue to expand internationally, we could reduce the degree to which we are subject to seasonality in specific markets.

We may need additional capital, and financing may not be available on terms acceptable to us, or at all.

We believe that our current cash and cash equivalents will be sufficient to meet our anticipated cash needs for the next 12 months. We may, however, require additional cash resources due to changed business conditions or other future developments, including any changes in our pricing policy, marketing initiatives or investments we may decide to pursue. If these resources are insufficient to satisfy our cash requirements, we may seek to obtain a credit facility or sell additional equity or debt securities. The sale of additional equity securities could result in dilution of our existing shareholders. The incurrence of indebtedness would result in increased debt service obligations and could result in operating and financing covenants that would restrict our operations. It is uncertain whether financing will be available in amounts or on terms acceptable to us, if at all.

We have incurred losses in the past.

We have incurred loss from operations of US\$16.1 million and US\$23.2 million, and net losses of US\$19.3 million and US\$26.6 million in 2017 and 2018, respectively, although we generated income from operations of US\$5.5 million and net income of US\$5.2 million in 2019. Our net cash used in operating activities was US\$7.2 million and US\$19.5 million in 2017 and 2018, respectively, while our net cash generated from operating activities was US\$5.8 million in 2019. The historical losses reflect the substantial investments we made to grow our business. We cannot assure you that we will be able to continue generating net profits in the foreseeable future.

We expect to continue to invest in the development and expansion of our business in areas including:

- research and development;
- sales and marketing;
- expansion of our operations and infrastructure; and
- incurring costs associated with general administration, including legal, accounting and other expenses related to being a public company upon completion of this offering.

As a result of these increased expenses, we will have to generate and sustain increased revenue to be profitable in future periods. Further, in future periods, we may not be able to generate sufficient revenue growth to offset higher costs and sustain profitability. If we fail to sustain or increase profitability, our business and operating results could be adversely affected.

Any inability to renew our leases on favorable terms could negatively impact our financial results.

We lease office space, warehouses, server rooms, data centers and counters. Generally, our leases provide us with the opportunity to renew the leases at our option for periods typically ranging from 1 to 3 years. For the leases that do not contain renewal options, or for which the option to renew has been exhausted or passed, we cannot guarantee the landlord will renew the lease, or will do so at a rate that will allow us to maintain profitability on that particular space. While we proactively monitor these leases and conduct ongoing negotiations with landlord, our ability to renegotiate renewals is inherently limited by the original contract language, including option renewal clauses. If we are unable to renew, we may incur substantial costs to move our infrastructure and to restore the property to its required condition. There is no guarantee that we will be able to find appropriate and sufficient space. The occurrence of any of these events could adversely impact our business, financial condition, results of operations and cash flows.

We have limited insurance coverage, which could expose us to significant costs and business disruption.

Insurance companies in China currently offer limited business insurance products. While we maintain product liability insurance coverage, we do not have any business liability or disruption insurance coverage for our operations. Any business disruption may result in our incurring substantial costs and the diversion of our resources.

Our business depends on our brands including GlocalMe and Roamingman, and if we are not able to maintain and enhance our brands, our business and results of operations may be harmed.

We believe that our brands including *GlocalMe* and *Roamingman* have contributed to the success of our business. We also believe that maintaining and enhancing the brands is critical as we try to retain and expand our user base for our international mobile data connectivity service and venture into new business opportunities such as *GlocalMe Inside*. If we fail to maintain and further promote our brands, or if we incur excessive expenses in this effort, our business and results of operations may be materially and adversely affected. In addition, any negative publicity about our company, our products and services, our employees, our business practices, or our partners, regardless of its veracity, could harm our brand image and in turn adversely affect our business and results of operations.

We are involved in legal proceedings in the ordinary course of our business from time to time. If the outcomes of these proceedings are adverse to us, it could have a material adverse effect on our business, results of operations and financial condition.

We are involved in various legal proceedings in the ordinary course of business from time to time, involving competitors, business partners, customers and employees, among others. Claims arising out of actual or alleged violations of law could be asserted under a variety of laws, including but not limited to intellectual property laws, contract laws, tort laws, unfair competition laws, labor and employment laws, privacy laws and property laws. No assurances can be given as to the outcome of any pending legal proceedings, which could have a material adverse effect on our business, results of operations and financial condition. Even if we are successful in our attempt to defend ourselves in legal and administrative actions or to assert our rights under various laws, enforcing our rights against the various parties involved may be expensive, time-consuming and ultimately futile. These actions could expose us to negative publicity and to substantial monetary damages and legal defense costs, injunctive reliefs, and criminal and civil liabilities and/or penalties.

Risks Related to Our Corporate Structure

If the PRC government finds that the agreements that establish the structure for operating certain of our operations in China do not comply with PRC regulations relating to the relevant industries, or if these regulations or the interpretation of existing regulations change in the future, we could be subject to penalties or be forced to relinquish our interests in those operations.

Foreign ownership of telecommunication businesses is subject to restrictions under current PRC laws and regulations. For example, foreign investors are generally not allowed to own more than 50% of the equity interests in a commercial internet content provider or other value-added telecommunication service provider (other than operating e-commerce) and the major foreign investor in a value-added telecommunication service provider in China must have experience in providing value-added telecommunications services overseas and maintain a good track record in accordance with the Guidance Catalog of Industries for Foreign Investment promulgated in 2007, as amended, the Catalog of Industries for Encouraged Foreign Investment (2019 Edition), the Special Management Measures (Negative List) for the Access of Foreign Investment (2019 Edition), and other applicable laws and regulations.

Accordingly, none of our subsidiaries is eligible to provide commercial internet content or other value-added telecommunication service, which foreign-owned companies are or restricted from conducting in China. To comply with PRC laws and regulations, we conduct such business activities through our VIEs in China. Beijing uCloudlink has entered into contractual arrangements with our VIEs and their respective shareholders, and such contractual arrangements enable us to exercise effective control over, receive substantially all of the economic benefits of, and have an exclusive option to purchase all or part of the equity interest and assets in our VIEs when and to the extent permitted by PRC law. Because of these contractual arrangements, we are the primary beneficiary of our VIEs in China and hence consolidate their financial results with ours as our variable

[Table of Contents](#)

interest entities under U.S. GAAP. If the PRC government finds that our contractual arrangements do not comply with its restrictions on foreign investment in value-added telecommunication or other foreign-restricted services, or if the PRC government otherwise finds that we, our VIEs, or any of their subsidiaries are in violation of PRC laws or regulations or lack the necessary permits or licenses to operate our business, the relevant PRC regulatory authorities, including the Ministry of Industry and Information Technology, the State Administration for Market Regulation, and Ministry of Commerce, would have broad discretion in dealing with such violations or failures, including, without limitation:

- revoking the business licenses and/or operating licenses of such entities;
- discontinuing or placing restrictions or onerous conditions on our operation through any transactions between our PRC subsidiaries and VIEs;
- imposing fines, confiscating the income from our PRC subsidiaries or our VIEs, or imposing other requirements with which we or our VIEs may not be able to comply;
- requiring us to restructure our ownership structure or operations, including terminating the contractual arrangements with our VIEs and deregistering the equity pledges of our VIEs, which in turn would affect our ability to consolidate, derive economic interests from, or exert effective control over our VIEs; or
- restricting or prohibiting our use of the proceeds of our initial public offering to finance our business and operations in China.

Furthermore, it is uncertain whether any new PRC laws, rules or regulations relating to contractual arrangements will be adopted or if adopted, what they would provide. In particular, a new draft of Foreign Investment Law was submitted to the National People's Congress for review and was approved on March 15, 2019, which came into effect from January 1, 2020. The approved Foreign Investment Law does not touch upon the relevant concepts and regulatory regimes that were historically suggested for the regulation of VIE structures, and thus this regulatory topic remains unclear under the Foreign Investment Law. Since the Foreign Investment Law is new, there are substantial uncertainties exist with respect to its implementation and interpretation and it is also possible that variable interest entities will be deemed as foreign invested enterprises and be subject to restrictions in the future. Such restrictions may cause interruptions to our operations, products and services and may incur additional compliance cost, which may in turn materially and adversely affect our business, financial condition and results of operations.

Any of these events could cause significant disruption to our business operations and severely damage our reputation, which would in turn materially and adversely affect our business, financial condition and results of operations. If occurrences of any of these events results in our inability to direct the activities of our VIEs in China that most significantly impact their economic performance, and/or our failure to receive the economic benefits from our VIEs, we may not be able to consolidate the financial results of our VIEs with ours in accordance with U.S. GAAP.

We rely on contractual arrangements with our VIEs and their shareholders for our business operations, which may not be as effective as direct ownership in providing operational control.

We have relied and expect to continue to rely on contractual arrangements with VIEs and their shareholders to operate part of our business in China. For a description of these contractual arrangements, see "Corporate History and Structure." These contractual arrangements may not be as effective as direct ownership in providing us with control over our VIEs. For example, our VIEs and their shareholders could breach their contractual arrangements with us by, among other things, failing to conduct its operations in an acceptable manner or taking other actions that are detrimental to our interests.

If we had direct ownership of our VIEs in China, we would be able to exercise our rights as a shareholder to effect changes in the board of directors of our VIEs, which in turn could implement changes, subject to any

applicable fiduciary obligations, at the management and operational level. However, under the current contractual arrangements, we rely on the performance by our VIEs and their shareholders of their obligations under the contracts to exercise control over our VIEs. The shareholders of our VIEs may not act in the best interests of our company or may not perform their obligations under these contracts. Such risks exist throughout the period in which we intend to operate certain portion of our business through the contractual arrangements with our VIEs. If any dispute relating to these contracts remains unresolved, we will have to enforce our rights under these contracts through the operations of PRC law and arbitration, litigation and other legal proceedings and therefore will be subject to uncertainties in the PRC legal system. Therefore, our contractual arrangements with our VIEs may not be as effective in ensuring our control over the relevant portion of our business operations as direct ownership would be.

Any failure by our VIEs or their shareholders to perform their obligations under our contractual arrangements with them would have a material adverse effect on our business.

If our VIEs or their shareholders fail to perform their respective obligations under the contractual arrangements, we may have to incur substantial costs and expend additional resources to enforce such arrangements. We may also have to rely on legal remedies under PRC law, including seeking specific performance or injunctive relief, and claiming damages, which we cannot assure you will be effective under PRC law. For example, if the shareholders of our VIEs were to refuse to transfer their equity interests in our VIEs to us or our designee if we exercise the purchase option pursuant to these contractual arrangements, or if they were otherwise to act in bad faith toward us, then we may have to take legal actions to compel them to perform their contractual obligations.

All the agreements under our contractual arrangements are governed by PRC law and provide for the resolution of disputes through arbitration in China. Accordingly, these contracts would be interpreted in accordance with PRC law and any disputes would be resolved in accordance with PRC legal procedures. The legal system in the PRC is not as developed as in some other jurisdictions, such as the United States. As a result, uncertainties in the PRC legal system could limit our ability to enforce these contractual arrangements. Meanwhile, there are very few precedents and little formal guidance as to how contractual arrangements in the context of a consolidated affiliated entity should be interpreted or enforced under PRC law. There remain significant uncertainties regarding the ultimate outcome of such arbitration should legal action become necessary. In addition, under PRC law, rulings by arbitrators are final, parties cannot appeal the arbitration results in courts, and if the losing parties fail to carry out the arbitration awards within a prescribed time limit, the prevailing parties may only enforce the arbitration awards in PRC courts through arbitration award recognition proceedings, which would require additional expenses and delay. In the event we are unable to enforce these contractual arrangements, or if we suffer significant delay or other obstacles in the process of enforcing these contractual arrangements, we may not be able to exert effective control over our VIEs, and our ability to conduct our business may be negatively affected. See “Risks Related to Doing Business in China—Uncertainties with respect to the PRC legal system could adversely affect us.”

The shareholders of our VIEs may have potential conflicts of interest with us, which may materially and adversely affect our business and financial condition.

The shareholders of our VIEs may have potential conflicts of interest with us, and we cannot assure you that their interests will be aligned with ours. Chaohui Chen, Zhiping Peng and four other beneficial owners of our company, hold 50.17%, 49.67% and 0.16% of the equity interests in Beijing Technology, respectively. Mr. Chaohui Chen is our founder, director and the chief executive officer. Mr. Zhiping Peng is our founder and the chairman of our board of directors. Two other shareholders of Beijing Technology, Wen Gao and Zhongqi Kuang, also serve as our executive officers. The shareholders of our VIEs may breach, or cause our VIEs to breach, or refuse to renew, the existing contractual arrangements we have with them and our VIEs, which would have a material adverse effect on our ability to effectively control our VIEs and receive economic benefits from it. For example, the shareholders may be able to cause our agreements with our VIEs to be performed in a

manner adverse to us by, among other things, failing to remit payments due under the contractual arrangements to us on a timely basis. We cannot assure you that when conflicts of interest arise, any or all of these shareholders will act in the best interests of our company or such conflicts will be resolved in our favor. Currently, we do not have any arrangements to address potential conflicts of interest between these shareholders and our company, except that we could exercise our purchase option under the exclusive option agreements with these shareholders to request them to transfer all of their equity interests in the VIEs to a PRC entity or individual designated by us, to the extent permitted by PRC law. For individuals who are also our directors and officers, we rely on them to abide by the laws of the Cayman Islands, which provide that directors and officers owe a fiduciary duty to the company that requires them to act in good faith and in what they believe to be the best interests of the company and not to use their position for personal gains. The shareholders of our VIEs have appointed Beijing uCloudlink as their attorney-in-fact to exercise their rights, including power, with respect to our VIEs. If we cannot resolve any conflict of interest or dispute between us and these shareholders, we would have to rely on legal proceedings, which could result in disruption of our business and subject us to substantial uncertainty as to the outcome of any such legal proceedings.

Contractual arrangements in relation to our VIEs may be subject to scrutiny by the PRC tax authorities and they may determine that we or our VIEs owe additional taxes, which could negatively affect our financial condition and the value of your investment.

Under applicable PRC laws and regulations, arrangements and transactions among related parties may be subject to audit or challenge by the PRC tax authorities within ten years after the taxable year when the transactions are conducted. We could face material adverse tax consequences if the PRC tax authorities determine that the VIE contractual arrangements were not entered into on an arm's length basis in such a way as to result in an impermissible reduction in taxes under applicable PRC laws, rules and regulations, and adjust income of our VIEs in the form of a transfer pricing adjustment. A transfer pricing adjustment could, among other things, result in a reduction of expense deductions recorded by our VIEs for PRC tax purposes, which could in turn increase its tax liabilities without reducing Beijing uCloudlink's tax expenses. In addition, the PRC tax authorities may impose late payment fees and other penalties on our VIEs for the adjusted but unpaid taxes according to the applicable regulations. Our financial position could be materially and adversely affected if our variable interest entities' tax liabilities increase or if they are required to pay late payment fees and other penalties.

We may lose the ability to use and enjoy assets held by our VIEs that are material to the operation of certain portion of our business if the entity goes bankrupt or becomes subject to a dissolution or liquidation proceeding.

As part of our contractual arrangements with our VIEs, the entities hold certain assets that are material to the operation of certain portion of our business, including permits, domain names and most of our IP rights. If our VIEs go bankrupt and all or part of its assets become subject to liens or rights of third-party creditors, we may be unable to continue some or all of our business activities, which could materially and adversely affect our business, financial condition and results of operations. Under the contractual arrangements, our VIEs may not, in any manner, sell, transfer, mortgage or dispose of their assets or legal or beneficial interests in the business without our prior consent. If our VIEs undergo a voluntary or involuntary liquidation proceeding, the independent third party creditors may claim rights to some or all of these assets, thereby hindering our ability to operate our business, which could materially and adversely affect our business, financial condition and results of operations.

Uncertainties exist with respect to the interpretation and implementation of the newly enacted PRC Foreign Investment Law and how it may impact the viability of our current corporate structure, corporate governance and business operations.

On March 15, 2019, the National People's Congress approved the Foreign Investment Law, which came into effect on January 1, 2020 and replaced the trio of existing laws regulating foreign investment in China, namely,

the Sino-foreign Equity Joint Venture Enterprise Law, the Sino-foreign Cooperative Joint Venture Enterprise Law and the Wholly Foreign-invested Enterprise Law, together with their implementation rules and ancillary regulations. The Foreign Investment Law embodies an expected PRC regulatory trend to rationalize its foreign investment regulatory regime in line with prevailing international practice and the legislative efforts to unify the corporate legal requirements for both foreign and domestic investments. However, since it is relatively new, uncertainties still exist in relation to its interpretation and implementation. For instance, under the Foreign Investment Law, “foreign investment” refers to the investment activities directly or indirectly conducted by foreign individuals, enterprises or other entities in China. Though it does not explicitly classify contractual arrangements as a form of foreign investment, there is no assurance that foreign investment via contractual arrangement would not be interpreted as a type of indirect foreign investment activities under the definition in the future. In addition, the definition contains a catch-all provision which includes investments made by foreign investors through means stipulated in laws or administrative regulations or other methods prescribed by the State Council. Therefore, it still leaves leeway for future laws, administrative regulations or provisions promulgated by the State Council to provide for contractual arrangements as a form of foreign investment. In any of these cases, it will be uncertain whether our contractual arrangements will be deemed to be in violation of the market access requirements for foreign investment under the PRC laws and regulations. Furthermore, if future laws, administrative regulations or provisions prescribed by the State Council mandate further actions to be taken by companies with respect to existing contractual arrangements, we may face substantial uncertainties as to whether we can complete such actions in a timely manner, or at all. Failure to take timely and appropriate measures to cope with any of these or similar regulatory compliance challenges could materially and adversely affect our current corporate structure, corporate governance and business operations.

Risks Related to Doing Business in China

Changes in China’s economic, political or social conditions or government policies could have a material adverse effect on our business and operations.

Certain portion of our operations are located in China. Accordingly, our business, financial condition, results of operations and prospects may be influenced to a significant degree by political, economic, social conditions and government policies in China generally. The Chinese economy differs from the economies of most developed countries in many respects, including the level of government involvement, level of development, growth rate, control of foreign exchange and allocation of resources. Although the PRC government has implemented measures emphasizing the utilization of market forces for economic reform, the reduction of state ownership of productive assets, and the establishment of improved corporate governance in business enterprises, a substantial portion of productive assets in China is still owned by the government. In addition, the PRC government continues to play a significant role in regulating industry development by imposing industrial policies. The PRC government also exercises significant control over China’s economic growth through allocating resources, controlling payment of foreign currency-denominated obligations, setting monetary policy, and providing preferential treatment to particular industries or companies.

While the Chinese economy has experienced significant growth over the past decades, growth has been uneven, both geographically and among various sectors of the economy, and the rate of growth has been slowing since 2012. Any adverse changes in economic conditions in China, in the policies of the PRC government or in the laws and regulations in China could have a material adverse effect on the overall economic growth of China. Such developments could adversely affect our business and operating results, lead to reduction in demand for our services and adversely affect our competitive position. COVID-19 had a severe and negative impact on Chinese and global economy in the first quarter of 2020. Whether this will lead to a prolonged downturn in the economy is still unknown. The PRC government has implemented various measures to encourage economic growth and guide the allocation of resources. Some of these measures may benefit the overall Chinese economy, but may have a negative effect on us. For example, our financial condition and results of operations may be adversely affected by government control over capital investments or changes in tax regulations. In addition, in the past the PRC government has implemented certain measures, including interest rate adjustment, to control the pace of

economic growth. These measures may cause decreased economic activity in China, which may adversely affect our business and operating results.

Uncertainties with respect to the PRC legal system could adversely affect us.

The PRC legal system is a civil law system based on written statutes. Unlike the common law system, prior court decisions under the civil law system may be cited for reference but have limited precedential value. Since these laws and regulations are relatively new and the PRC legal system continues to rapidly evolve, the interpretations of many laws, regulations and rules are not always uniform and the enforcement of these laws, regulations and rules involves uncertainties.

In 1979, the PRC government began to promulgate a comprehensive system of laws and regulations governing economic matters in general. The overall effect of legislation over the past three decades has significantly enhanced the protections afforded to various forms of foreign investments in China. However, China has not developed a fully integrated legal system, and recently enacted laws and regulations may not sufficiently cover all aspects of economic activities in China. In particular, the interpretation and enforcement of these laws and regulations involve uncertainties. Since PRC administrative and court authorities have significant discretion in interpreting and implementing statutory provisions and contractual terms, it may be difficult to evaluate the outcome of administrative and court proceedings and the level of legal protection we enjoy. These uncertainties may affect our judgment on the relevance of legal requirements and our ability to enforce our contractual rights or tort claims. In addition, the regulatory uncertainties may be exploited through unmerited or frivolous legal actions or threats in attempts to extract payments or benefits from us.

Furthermore, the PRC legal system is based in part on government policies and internal rules, some of which are not published on a timely basis or at all and may have retroactive effect. As a result, we may not be aware of our violation of any of these policies and rules until sometime after the violation. In addition, any administrative and court proceedings in China may be protracted, resulting in substantial costs and diversion of resources and management attention.

We may rely on dividends and other distributions on equity paid by our PRC subsidiaries to fund any cash and financing requirements we may have, and any limitation on the ability of our PRC subsidiaries to make payments to us and any tax we are required to pay could have a material adverse effect on our ability to conduct our business.

We are a Cayman Islands holding company and we may rely on dividends and other distributions on equity from our PRC subsidiaries for our cash requirements, including the funds necessary to pay dividends and other cash distributions to our shareholders and for services of any debt we may incur. Our subsidiaries' ability to distribute dividends is based upon their distributable earnings. Current PRC regulations permit our PRC subsidiaries to pay dividends to their respective shareholders only out of their accumulated profits, if any, determined in accordance with PRC accounting standards and regulations. In addition, each of our PRC subsidiaries and our VIEs is required to set aside at least 10% of its after-tax profits each year, if any, to fund a statutory reserve until such reserve reaches 50% of its registered capital. Each of such entities in China is also required to further set aside a portion of its after-tax profits to fund the employee welfare fund, although the amount to be set aside, if any, is determined at the discretion of its board of directors. These reserves are not distributable as cash dividends. If our PRC subsidiaries incur debt on their own behalf in the future, the instruments governing the debt may restrict their ability to pay dividends or make other payments to us. Any limitation on the ability of our PRC subsidiaries to distribute dividends or other payments to their respective shareholders could materially and adversely limit our ability to grow, make investments or acquisitions that could be beneficial to our businesses, pay dividends or otherwise fund and conduct our business.

In response to the persistent capital outflow and RMB's depreciation against U.S. dollar in the fourth quarter of 2016, the People's Bank of China and the State Administration of Foreign Exchange, or SAFE, have

implemented a series of capital control measures over recent months, including stricter vetting procedures for China-based companies to remit foreign currency for overseas acquisitions, dividend payments and shareholder loan repayments. For instance, the People's Bank of China issued the Circular on Further Clarification of Relevant Matters Relating to Offshore RMB Loans Provided by Domestic Enterprises, or the PBOC Circular 306, on November 22, 2016, which provides that offshore RMB loans provided by a domestic enterprise to offshore enterprises that it holds equity interests in shall not exceed 30% of the domestic enterprise's ownership interest in the offshore enterprise. The PBOC Circular 306 may constrain our PRC subsidiaries' ability to provide offshore loans to us. The PRC government may continue to strengthen its capital controls and our PRC subsidiaries' dividends and other distributions may be subjected to tighter scrutiny in the future. Any limitation on the ability of our PRC subsidiaries to pay dividends or make other distributions to us could materially and adversely limit our ability to grow, make investments or acquisitions that could be beneficial to our business, pay dividends, or otherwise fund and conduct our business.

Under the EIT Law and related regulations, dividends, interests, rent or royalties payable by a foreign invested enterprise, such as our PRC subsidiaries, to any of its foreign non-resident enterprise investors, and proceeds from any such foreign enterprise investor's disposition of assets (after deducting the net value of such assets) are subject to a 10% withholding tax, unless the foreign enterprise investor's jurisdiction of incorporation has a tax treaty with China that provides for a reduced rate of withholding tax. Undistributed profits earned by foreign-invested enterprises prior to January 1, 2008 are exempted from any withholding tax. The Cayman Islands, where UCLOUDLINK GROUP INC., is incorporated, does not have such a tax treaty with China. Hong Kong has a tax arrangement with China that provides for a 5% withholding tax on dividends subject to certain conditions and requirements, such as the requirement that the Hong Kong resident enterprise own at least 25% of the PRC enterprise distributing the dividend at all times within the 12-month period immediately preceding the distribution of dividends and be a "beneficial owner" of the dividends. For example, UCLOUDLINK (HK) LIMITED, which directly owns our PRC subsidiaries, is incorporated in Hong Kong. However, if UCLOUDLINK (HK) LIMITED is not considered to be the beneficial owner of dividends paid to it by our PRC subsidiaries under the tax circulars promulgated in February and October 2009, such dividends would be subject to withholding tax at a rate of 10%. If our PRC subsidiaries declare and distribute profits to us, such payments will be subject to withholding tax, which will increase our tax liability and reduce the amount of cash available to our company.

PRC regulation of loans to and direct investment in PRC entities by offshore holding companies and governmental control of currency conversion may delay or prevent us from using the proceeds of any financing outside China to make loans to or make additional capital contributions to our PRC subsidiaries and VIEs, which could materially and adversely affect our liquidity and our ability to fund and expand our business.

Any funds we transfer to our PRC subsidiaries, either as a shareholder loan or as an increase in registered capital, are subject to approval by or registration or filing with relevant governmental authorities in China. According to the relevant PRC regulations on foreign-invested enterprises, or FIEs, in China, capital contributions to our PRC subsidiaries are subject to filing with the Ministry of Commerce in its foreign investment comprehensive management information system and registration with other governmental authorities in China. In addition, (i) any foreign loan procured by our PRC subsidiaries and VIEs is required to be registered with SAFE or its local branches or filed with SAFE in its information system, and (ii) each of our PRC subsidiaries and VIEs may not procure loans which exceed the difference between its registered capital and its total investment amount as recorded in the foreign investment comprehensive management information system or, as an alternative, only procure loans subject to the Risk-Weighted Approach and the Net Asset Limits. See "Regulation—Regulations Related to Foreign Exchange." Any medium or long term loan to be provided by us to our VIEs must also be approved by the National Development and Reform Commission, or the NDRC. We may not obtain these government approvals or complete such registrations on a timely basis, if at all, with respect to future capital contributions or foreign loans by us to our PRC subsidiaries and VIEs. If we fail to receive such approvals or complete such registration or filing, our ability to use the proceeds of any financing outside China to

capitalize our PRC operations may be negatively affected, which could adversely affect our liquidity and our ability to fund and expand our business. There is, in effect, no statutory limit on the amount of capital contribution that we can make to our PRC subsidiaries. This is because there is no statutory limit on the amount of registered capital for our PRC subsidiaries, and we are allowed to make capital contributions to our PRC subsidiaries by subscribing for their initial registered capital and increased registered capital, provided that the PRC subsidiaries complete the relevant filing and registration procedures. With respect to loans to the PRC subsidiaries by us, (i) if the relevant PRC subsidiaries adopt the traditional foreign exchange administration mechanism, or the Current Foreign Debt mechanism, the outstanding amount of the loans shall not exceed the difference between the total investment and the registered capital of the PRC subsidiaries and there is, in effect, no statutory limit on the amount of loans that we can make to our PRC subsidiaries under this circumstance because we can increase the registered capital of our PRC subsidiaries by making capital contributions to them, subject to the completion of the required registrations, and the difference between the total investment and the registered capital will increase accordingly; and (ii) if the relevant PRC subsidiaries adopt the foreign exchange administration mechanism as provided in the PBOC Notice No. 9, or the Notice No. 9 Foreign Debt mechanism, the risk-weighted outstanding amount of the loans, which shall be calculated based on the formula provided in the PBOC Notice No. 9, shall not exceed 200% of the net assets of the relevant PRC subsidiary. According to the PBOC Notice No. 9, after a transition period of one year since the promulgation of the PBOC Notice No. 9, the PBOC and SAFE will determine the cross-border financing administration mechanism for the foreign-invested enterprises after evaluating the overall implementation of the PBOC Notice No. 9. As of the date hereof, neither PBOC nor SAFE has promulgated and made public any further rules, regulations, notices or circulars in this regard. It is uncertain which mechanism will be adopted by PBOC and SAFE in the future and what statutory limits will be imposed on us when providing loans to our PRC subsidiaries. Currently, our PRC subsidiaries have the flexibility to choose between the Current Foreign Debt mechanism and the Notice No. 9 Foreign Debt mechanism. However, if the Notice No. 9 Foreign Debt Mechanism, or a more stringent foreign debt mechanism becomes mandatory and our PRC subsidiaries are no longer able to choose the Current Foreign Debt mechanism, our ability to provide loans to our PRC subsidiaries or our VIEs may be significantly limited, which may adversely affect our business, financial condition and results of operations.

In 2008, SAFE promulgated the Circular on the Relevant Operating Issues Concerning the Improvement of the Administration of the Payment and Settlement of Foreign Currency Capital of Foreign-Invested Enterprises, or SAFE Circular 142. SAFE Circular 142 regulates the conversion by FIEs of foreign currency into Renminbi by restricting the usage of converted Renminbi. SAFE Circular 142 provides that any Renminbi capital converted from registered capitals in foreign currency of FIEs may only be used for purposes within the business scopes approved by PRC governmental authority and such Renminbi capital may not be used for equity investments within China unless otherwise permitted by the PRC law. In addition, SAFE strengthened its oversight of the flow and use of the Renminbi capital converted from registered capital in foreign currency of FIEs. The use of such Renminbi capital may not be changed without SAFE approval, and such Renminbi capital may not in any case be used to repay Renminbi loans if the proceeds of such loans have not been utilized. On April 8, 2015, SAFE promulgated the Circular on Reforming the Management Approach Regarding the Foreign Exchange Capital Settlement of Foreign-Invested Enterprises, or SAFE Circular 19. SAFE Circular 19 took effect as of June 1, 2015 and superseded SAFE Circular 142 on the same date. SAFE further promulgated Circular 16, effective on June 9, 2016, which, among other things, amend certain provisions of SAFE Circular 19. SAFE Circulars 19 and 16 launched a nationwide reform of the administration of the settlement of the foreign exchange capitals of FIEs and allows FIEs to settle their foreign exchange capital at their discretion, but continues to prohibit FIEs from using the Renminbi fund converted from their foreign exchange capitals for expenditure beyond their business scopes, and also prohibit FIEs from using such Renminbi fund to provide loans to persons other than affiliates unless otherwise permitted under its business scope. As a result, we are required to apply Renminbi funds converted from the net proceeds we received from any financing outside China within the business scopes of our PRC subsidiaries. SAFE Circular 19 and 16 may significantly limit our ability to transfer to and use in China the net proceeds from any such financing outside China, which may adversely affect our business, financial condition and results of operations.

Fluctuations in exchange rates could have a material adverse impact on our results of operations and the value of your investment.

The conversion of Renminbi into foreign currencies, including U.S. dollars, is based on rates set by the People's Bank of China. The Renminbi has fluctuated against the U.S. dollar, at times significantly and unpredictably. The value of the Renminbi against the U.S. dollar and other currencies may fluctuate and is affected by, among other things, changes in political and economic conditions in China and by China's foreign exchange policies, among other things. We cannot assure you that Renminbi will not appreciate or depreciate significantly in value against the U.S. dollar in the future. It is difficult to predict how market forces or PRC or U.S. government policy may impact the exchange rate between the Renminbi and the U.S. dollar in the future.

Significant fluctuation of the Renminbi may have a material adverse effect on your investment. For example, to the extent that we need to convert U.S. dollars into Renminbi for our operations, appreciation of the Renminbi against the U.S. dollar would have an adverse effect on the Renminbi amount we would receive from the conversion. Conversely, if we decide to convert our Renminbi into U.S. dollars for the purpose of making payments for dividends on our ordinary shares or ADSs or for other business purposes, appreciation of the U.S. dollar against the Renminbi would have a negative effect on the U.S. dollar amount available to us.

Very limited hedging options are available in China to reduce our exposure to exchange rate fluctuations. To date, we have not entered into any material hedging transactions in an effort to reduce our exposure to foreign currency exchange risk. While we may decide to enter into hedging transactions in the future, the availability and effectiveness of these hedges may be limited and we may not be able to adequately hedge our exposure or at all. In addition, our currency exchange losses may be magnified by PRC exchange control regulations that restrict our ability to convert Renminbi into foreign currency.

Our use of some leased properties could be challenged by third parties or governmental authorities, which may cause interruptions to our business operations.

As of the date of this prospectus, some of the lessors of our properties leased by us in China have not provided us with their property ownership certificates or any other documentation proving their right to lease those properties to us. If our lessors are not the owners of the properties and they have not obtained consents from the owners or their lessors or permits from the relevant governmental authorities, our leases could be invalidated. If this occurs, we may have to renegotiate the leases with the owners or other parties who have the right to lease the properties, and the terms of the new leases may be less favorable to us. Although we may seek damages from such lessors, such leases may be void and we may be forced to relocate. We can provide no assurance that we will be able to find suitable replacement sites on terms acceptable to us on a timely basis, or at all, or that we will not be subject to material liability resulting from third parties' challenges on our use of such properties. As a result, our business, financial condition and results of operations may be materially and adversely affected.

In addition, some of our leasehold interests in leased properties have not been registered with the relevant PRC governmental authorities as required by relevant PRC laws. Though the failure to register leasehold interests may not void the respective lease agreement, it may expose us to potential warnings and penalties up to RMB 10,000 per unregistered leased property.

Governmental control of currency conversion may limit our ability to utilize our revenues effectively and affect the value of your investment.

The PRC government imposes controls on the convertibility of the Renminbi into foreign currencies and, in certain cases, the remittance of currency out of China. We receive a significant portion of our revenues in Renminbi. Under our current corporate structure, our Cayman Islands holding company may rely on dividend payments from our PRC subsidiary to fund any cash and financing requirements we may have. Under existing

PRC foreign exchange regulations, payments of current account items, including profit distributions, interest payments and trade and service-related foreign exchange transactions, can be made in foreign currencies without prior approval of SAFE, by complying with certain procedural requirements. Specifically, under the existing exchange restrictions, without prior approval of SAFE, cash generated from the operations of our PRC subsidiary in China may be used to pay dividends to our company. However, approval from or registration with appropriate government authorities is required where Renminbi is to be converted into foreign currency and remitted out of China to pay capital expenses such as the repayment of loans denominated in foreign currencies. As a result, we need to obtain SAFE approval to use cash generated from the operations of our PRC subsidiary and consolidated affiliated entity to pay off their respective debt in a currency other than Renminbi owed to entities outside China, or to make other capital expenditure payments outside China in a currency other than Renminbi.

In light of the recent flood of capital outflows of China due to the weakening RMB, the PRC government has imposed more restrictive foreign exchange policies and stepped up scrutiny of major outbound capital movement including overseas direct investment. More restrictions and substantial vetting process are put in place by SAFE to regulate cross-border transactions falling under the capital account. If any of our shareholders regulated by such policies fails to satisfy the applicable overseas direct investment filing or approval requirement timely or at all, it may be subject to penalties from the relevant PRC authorities. The PRC government may at its discretion further restrict access in the future to foreign currencies for current account transactions. If the foreign exchange control system prevents us from obtaining sufficient foreign currencies to satisfy our foreign currency demands, we may not be able to pay dividends in foreign currencies to our shareholders, including holders of the ADSs.

The approval of the China Securities Regulatory Commission, or the CSRC, may be required in connection with this offering under a PRC regulation.

On August 8, 2006, six PRC regulatory agencies, including the China Securities Regulatory Commission, or the CSRC, promulgated the M&A Rules, which became effective on September 8, 2006 and was amended on June 22, 2009. This regulation, among other things, requires offshore special purpose vehicles, or SPVs, formed for the purpose of an overseas listing and controlled by PRC companies or individuals, to obtain the CSRC approval prior to listing their securities on an overseas stock exchange. The interpretation and application of the regulations remain unclear, and this offering may ultimately require approval from the CSRC. If CSRC approval is required, it is uncertain whether it would be possible for us to obtain the approval, and any failure to obtain or delay in obtaining CSRC approval for this offering would subject us to sanctions imposed by the CSRC and other PRC regulatory agencies. Our PRC legal counsel, Han Kun Law Offices, has advised us that, based on their understanding of the current PRC laws, the CSRC approval is not required under the M&A Rules in the context of this offering because (i) the CSRC currently has not issued any definitive rule or interpretation concerning whether offerings like ours under this prospectus are subject to this regulation; (ii) our wholly owned PRC subsidiaries were established by foreign direct investment, rather than through a merger or acquisition of a domestic company as defined under the M&A Rules; and (iii) no explicit provision in the M&A Rules classifies the contractual arrangements between us and the VIE as a type of acquisition transaction falling under the M&A Rules.

However, we have been advised by our PRC legal counsel that there are uncertainties regarding the interpretation and application of the PRC law, and there can be no assurance that the PRC government will ultimately take a view that is not contrary to the above opinion of our PRC legal counsel. If it is determined that the CSRC approval is required for this offering, we may face sanctions by the CSRC or other PRC regulatory agencies for failure to seek the CSRC approval for this offering. These sanctions may include fines and penalties on our operations in the PRC although, to our knowledge, no definitive rules or interpretations have been issued to determine or quantify such fines or penalties, delays or restrictions on the repatriation of the proceeds from this offering into the PRC, restrictions on or prohibition of the payments or remittance of dividends by our PRC subsidiaries, or other actions that may have a material adverse effect on our business and the trading price of the ADSs. The CSRC or other PRC regulatory agencies may also take actions requiring us, or making it advisable to

us, to halt this offering before the settlement and delivery of the ADSs that we are offering. Consequently, if you engage in market trading or other activities in anticipation of and prior to the settlement and delivery of the ADSs we are offering, you would be doing so at the risk that the settlement and delivery may not occur. In addition, if the CSRC or other regulatory agencies later promulgate new rules or explanations requiring that we obtain their approvals for this offering, we may be unable to obtain a waiver of such approval requirements, if and when procedures are established to obtain such a waiver.

The M&A Rules and certain other PRC regulations establish complex procedures for some acquisitions of Chinese companies by foreign investors, which could make it more difficult for us to pursue growth through acquisitions in China.

The M&A Rules and some other regulations and rules concerning mergers and acquisitions established additional procedures and requirements that could make merger and acquisition activities by foreign investors more time consuming and complex, including requirements in some instances that the Ministry of Commerce be notified in advance of any change-of-control transaction in which a foreign investor takes control of a PRC domestic enterprise. Moreover, the Anti-Monopoly Law requires that the anti-monopoly law enforcement authority shall be notified in advance of any concentration of undertaking if certain thresholds are triggered. In addition, the security review rules issued by the State Council that became effective in March 2011 specify that mergers and acquisitions by foreign investors that raise “national defense and security” concerns and mergers and acquisitions through which foreign investors may acquire de facto control over domestic enterprises that raise “national security” concerns are subject to strict review by the Ministry of Commerce, and the rules prohibit any activities attempting to bypass a security review, including by structuring the transaction through a proxy or contractual control arrangement. In the future, we may grow our business by acquiring complementary businesses. Complying with the requirements of the above-mentioned regulations and other relevant rules to complete such transactions could be time consuming, and any required approval processes, including obtaining approval from the Ministry of Commerce or its local counterparts may delay or inhibit our ability to complete such transactions, which could affect our ability to expand our business or maintain our market share.

PRC regulations relating to offshore investment activities by PRC residents and enterprises may increase our administrative burden and restrict our overseas and cross-border investment activities. If our PRC resident and enterprise shareholders fail to make any applications and filings required under these regulations, we may be unable to distribute profits to such shareholders and may become subject to liability under PRC law.

SAFE promulgated the Circular on Relevant Issues Relating to Domestic Resident’s Investment and Financing and Roundtrip Investment through Special Purpose Vehicles, or SAFE Circular 37, in July 2014 that requires PRC residents or entities to register with SAFE or its local branch in connection with their establishment or control of an offshore entity established for the purpose of overseas investment or financing with such PRC residents or entities’ legally owned assets or equity interests in domestic enterprises or offshore assets or interests. In addition, such PRC residents or entities must update their SAFE registrations when the offshore special purpose vehicle undergoes material events relating to any change of basic information (including change of such PRC citizens or residents, name and operation term), increases or decreases in investment amount, transfers or exchanges of shares, or mergers or divisions.

If our shareholders who are PRC residents or entities do not complete their registration with the local SAFE branches, our PRC subsidiaries may be prohibited from distributing their profits and proceeds from any reduction in capital, share transfer or liquidation to us, and we may be restricted in our ability to contribute additional capital to our PRC subsidiaries. Moreover, failure to comply with the SAFE registration described above could result in liability under PRC laws for evasion of applicable foreign exchange restrictions.

We have notified all PRC residents or entities who directly or indirectly hold shares in our Cayman Islands holding company and who are known to us as being PRC residents to complete the foreign exchange

registrations, among which, some PRC residents are in the process of updating their registrations required in connection with our recent corporate restructuring, furthermore, the foreign exchange registrations of several PRC residents are yet to be completed, and there is no assurance that they will complete the relevant registrations finally, or at all. However, we may not be informed of the identities of all the PRC residents or entities holding direct or indirect interest in our company, nor can we compel our beneficial owners to comply with SAFE registration requirements. As a result, we cannot assure you that all of our shareholders or beneficial owners who are PRC residents or entities have complied with, and will in the future make, obtain or update any applicable registrations or approvals required by, SAFE regulations. Failure by such shareholders or beneficial owners to comply with SAFE regulations, or failure by us to amend the foreign exchange registrations of our PRC subsidiaries, could subject us to fines or legal sanctions, restrict our overseas or cross-border investment activities, limit our PRC subsidiaries' ability to make distributions or pay dividends to us or affect our ownership structure, which could adversely affect our business and prospects.

In August 2014, Ministry of Commerce promulgated the Measures for the Administration of Overseas Investment, and the National Development Reform Committee, or the NDRC, promulgated the Administrative Measures for the Approval and Filing of Overseas Investment Projects. In December 2017, the NDRC further promulgated the Administrative Measures of Overseas Investment of Enterprises, which became effective in March 2018. Pursuant to these regulations, any outbound investment of PRC enterprises in the area and industry that is not sensitive is required to be filed with Ministry of Commerce and the NDRC or their local branch. Upon filing of an enterprise's overseas investment, where there is any change in the overseas investment matters stated in the original Certificate of Overseas Investments of Enterprises, such enterprise shall complete change formalities with the Ministry of Commerce or its local branches which processed the original filing. Regarding to the overseas reinvestments by the overseas enterprise, the PRC registered entities as the shareholder of such overseas enterprise, shall, upon completion of overseas legal formalities, report to the Ministry of Commerce. Certain of our enterprise shareholders that are PRC registered entities have completed the filing with Ministry of Commerce, and have not yet completed filing with the NDRC and the report and change formalities with Ministry of Commerce as of the date of this prospectus and we cannot assure you that they will be able to complete such filing in time or at all. Moreover, we can provide no assurance that we are or will in the future continue to be informed of the identities of all PRC residents and PRC enterprises holding direct or indirect interest in our company, and even if we are aware of such shareholders or beneficial owners who are PRC residents or PRC enterprises, we may not be able to compel them to comply with SAFE Circular 37 and outbound investment related regulations, and we may not even have any means to know whether they comply with these requirements. Any failure or inability by such individuals or enterprises to comply with SAFE and outbound investment related regulations may subject such individuals or the responsible officers of such enterprises to fines or legal sanctions, and may result in adverse impact on us, such as restrictions on our ability to distribute or pay dividends.

Furthermore, as these foreign exchange and outbound investment related regulations are relatively new and their interpretation and implementation have been constantly evolving, it is uncertain how these regulations, and any future regulations concerning offshore or cross-border investments and transactions, will be interpreted, amended and implemented by the relevant government authorities. For example, we may be subject to a more stringent review and approval process with respect to our foreign exchange activities, such as remittance of dividends and foreign-currency-denominated borrowings, which may adversely affect our financial condition and results of operations. Due to the complexity and constantly changing nature of the foreign exchange and outbound investment related regulations as well as the uncertainties involved, we cannot assure you that we have complied or will be able to comply with all applicable foreign exchange and outbound investment related regulations. In addition, if we decide to acquire a PRC domestic company, we cannot assure you that we or the owners of such company, as the case may be, will be able to obtain the necessary approvals or complete the necessary filings and registrations required by the foreign exchange regulations. This may restrict our ability to implement our acquisition strategy and could adversely affect our business and prospects.

Any failure to comply with PRC regulations regarding the registration requirements for employee stock incentive plans may subject the PRC plan participants or us to fines and other legal or administrative sanctions.

Under the applicable regulations and SAFE rules, PRC citizens who participate in an employee stock ownership plan or a stock option plan in an overseas publicly listed company are required to register with SAFE and complete certain other procedures. In February 2012, SAFE promulgated the Notices on Issues concerning the Foreign Exchange Administration for Domestic Individuals Participating in Stock Incentive Plans of Overseas Publicly-Listed Companies, or the Stock Option Rules. Pursuant to the Stock Option Rules, if a PRC resident participates in any stock incentive plan of an overseas publicly-listed company, a qualified PRC domestic agent must, among other things, file on behalf of such participant an application with SAFE to conduct the SAFE registration with respect to such stock incentive plan and obtain approval for an annual allowance with respect to the purchase of foreign exchange in connection with the exercise or sale of stock options or stock such participant holds. Such participating PRC residents' foreign exchange income received from the sale of stock and dividends distributed by the overseas publicly-listed company must be fully remitted into a PRC collective foreign currency account opened and managed by the PRC agent before distribution to such participants. We and our PRC resident employees who have been granted stock options or other share-based incentives of our Company will be subject to the Stock Option Rules when our Company becomes an overseas listed company upon the completion of this offering. If we or our PRC resident participants fail to comply with these regulations, we and/or our PRC resident participants may be subject to fines and legal sanctions and may also limit our ability to contribute additional capital into our PRC subsidiaries and limit our PRC subsidiaries' ability to distribute dividends to us. We also face regulatory uncertainties that could restrict our ability to adopt additional incentive plans for our directors, executive officers and employees under PRC law. See "Regulation—Regulations Related to Foreign Exchange—Regulations on Stock Incentive Plans."

The State Administration of Taxation, or SAT, has issued certain circulars concerning employee share options and restricted shares. Under these circulars, our employees working in China who exercise or transfer share options or are granted restricted shares will be subject to PRC individual income tax. Our PRC subsidiaries have obligations to file documents related to employee share options or restricted shares with relevant tax authorities and to withhold individual income taxes of those employees who exercise their share options. If our employees fail to pay or we fail to withhold their income taxes according to relevant laws and regulations, we may face sanctions imposed by the tax authorities or other PRC governmental authorities. See "Regulation—Regulations Related to Foreign Exchange—Regulations on Stock Incentive Plans."

If we are classified as a PRC resident enterprise for PRC income tax purposes, such classification could result in unfavorable tax consequences to us and our non-PRC noteholders, shareholders or ADS holders.

Under the PRC Enterprise Income Tax Law and its implementation rules, an enterprise established outside of the PRC with its "de facto management body" within the PRC is considered a "resident enterprise" and will be subject to PRC enterprise income tax on its global income at the rate of 25%. The implementation rules define the term "de facto management body" as the body that exercises full and substantial control and overall management over the business, productions, personnel, accounts and properties of an enterprise. In 2009, the SAT issued a circular, known as SAT Circular 82, which provides certain specific criteria for determining whether the "de facto management body" of a PRC-controlled enterprise that is incorporated offshore is located in China. Although this circular only applies to offshore enterprises controlled by PRC enterprises or PRC enterprise groups, not those controlled by PRC individuals or foreigners, the criteria set forth in the circular may reflect the SAT's general position on how the "de facto management body" text should be applied in determining the tax resident status of all offshore enterprises. According to SAT Circular 82, an offshore incorporated enterprise controlled by a PRC enterprise or a PRC enterprise group will be regarded as a PRC tax resident by virtue of having its "de facto management body" in China and will be subject to PRC enterprise income tax on its global income only if all of the following conditions are met: (i) the primary location of the day-to-day

[Table of Contents](#)

operational management is in the PRC; (ii) decisions relating to the enterprise's financial and human resource matters are made or are subject to approval by organizations or personnel in the PRC; (iii) the enterprise's primary assets, accounting books and records, company seals, and board and shareholder resolutions, are located or maintained in the PRC; and (iv) at least 50% of voting board members or senior executives habitually reside in the PRC.

We believe none of our entities outside of China is a PRC resident enterprise for PRC tax purposes. However, the tax resident status of an enterprise is subject to determination by the PRC tax authorities and uncertainties remain with respect to the interpretation of the term "de facto management body." If the PRC tax authorities determine that UCLOUDLINK GROUP INC. is a PRC resident enterprise for enterprise income tax purposes, we may be required to withhold a 10% withholding tax from interest or dividends we pay to our noteholders and shareholders that are non-resident enterprises, including the holders of the ADSs. In addition, non-resident enterprise noteholders and shareholders (including our ADS holders) may be subject to PRC tax at a rate of 10% on gains realized on the sale or other disposition of the notes. ADSs or ordinary shares, if such income is treated as sourced from within the PRC. Furthermore, if PRC tax authorities determine that we are a PRC resident enterprise for enterprise income tax purposes, interest or dividends paid to our non-PRC individual noteholders and shareholders (including our ADS holders) and any gain realized on the transfer of the notes. ADSs or ordinary shares by such holders may be subject to PRC tax at a rate of 20% (which, in the case of interest or dividends, may be withheld at source by us), if such gains are deemed to be from PRC sources. These rates may be reduced by an applicable tax treaty, but it is unclear whether non-PRC shareholders of UCLOUDLINK GROUP INC. would be able to claim the benefits of any tax treaties between their country of tax residence and the PRC in the event that UCLOUDLINK GROUP INC. is treated as a PRC resident enterprise. Any such tax may reduce the returns on your investment in the ADSs.

We face uncertainty with respect to indirect transfer of equity interests in PRC resident enterprises by their non-PRC holding companies.

We face uncertainties regarding the reporting on and consequences of previous private equity financing transactions involving the transfer and exchange of shares in our company by non-resident investors. In February 2015, the State Administration of Taxation issued the Bulletin on Issues of Enterprise Income Tax on Indirect Transfers of Assets by Non-PRC Resident Enterprises, or Bulletin 7. Pursuant to Bulletin 7, an "indirect transfer" of PRC assets, including a transfer of equity interests in an unlisted non-PRC holding company of a PRC resident enterprise, by non-PRC resident enterprises may be re-characterized and treated as a direct transfer of the underlying PRC assets, if such arrangement does not have a reasonable commercial purpose and was established for the purpose of avoiding payment of PRC enterprise income tax. As a result, gains derived from such indirect transfer may be subject to PRC enterprise income tax, and the transferee or other person who is obligated to pay for the transfer is obligated to withhold the applicable taxes, currently at a rate of 10%, for the transfer of equity interests in a PRC resident enterprise. Bulletin 7 does not apply to transactions of sale of shares by investors through a public stock exchange where such shares were acquired from a transaction through a public stock exchange. On October 17, 2017, the SAT issued the Announcement of the State Administration of Taxation on Issues of Tax Withholding regarding Non-resident Enterprise Income Tax, or Bulletin 37, which came into effect on December 1, 2017. The Bulletin 37 further clarifies the practice and procedure of the withholding of nonresident enterprise income tax.

There is uncertainty as to the application of Bulletin 37 or previous rules under Bulletin 7. We face uncertainties on the reporting and consequences of private equity financing transactions, share exchanges or other transactions involving the transfer of shares in our company by investors that are non-PRC resident enterprises. Our company may be subject to filing obligations or taxes if our company is the transferor in such transactions, and may be subject to withholding obligations if our company is the transferee in such transactions, under Bulletin 37 and Bulletin 7.

Our auditor, like other independent registered public accounting firms operating in China, is not permitted to be subject to inspection by Public Company Accounting Oversight Board, and consequently investors may be deprived of the benefits of such inspection.

Our auditor, the independent registered public accounting firm that issued the audit report included in this prospectus, as an auditor of companies that are traded publicly in the United States and a firm registered with the Public Company Accounting Oversight Board (United States), or PCAOB, is subject to laws in the United States pursuant to which the PCAOB conducts regular inspections to assess its compliance with applicable professional standards. Our auditor is located in, and organized under the laws of, the PRC, which is a jurisdiction where the PCAOB has been unable to conduct inspections without the approval of the Chinese authorities. In May 2013, PCAOB announced that it had entered into a Memorandum of Understanding on Enforcement Cooperation with the CSRC and the PRC Ministry of Finance, which establishes a cooperative framework between the parties for the production and exchange of audit documents relevant to investigations undertaken by PCAOB, the CSRC or the PRC Ministry of Finance in the United States and the PRC, respectively. PCAOB continues to be in discussions with the China Securities Regulatory Commission, or CSRC, and the PRC Ministry of Finance to permit joint inspections in the PRC of audit firms that are registered with PCAOB and audit Chinese companies that trade on U.S. exchanges.

On December 7, 2018, the SEC and the PCAOB issued a joint statement highlighting continued challenges faced by the U.S. regulators in their oversight of financial statement audits of U.S.-listed companies with significant operations in China. On April 21, 2020, the SEC and the PCAOB issued another joint statement reiterating the greater risk that disclosures will be insufficient in many emerging markets, including China, compared to those made by U.S. domestic companies. In discussing the specific issues related to the greater risk, the statement again highlights the PCAOB's inability to inspect audit work paper and practices of accounting firms in China, with respect to their audit work of U.S. reporting companies. However, it remains unclear what further actions, if any, the SEC and PCAOB will take to address the problem.

This lack of PCAOB inspections in China prevents the PCAOB from fully evaluating audits and quality control procedures of our independent registered public accounting firm. As a result, we and investors in our ordinary shares are deprived of the benefits of such PCAOB inspections. The inability of the PCAOB to conduct inspections of auditors in China makes it more difficult to evaluate the effectiveness of our independent registered public accounting firm's audit procedures or quality control procedures as compared to auditors outside of China that are subject to PCAOB inspections, which could cause investors and potential investors in our stock to lose confidence in our audit procedures and reported financial information and the quality of our financial statements.

Proceedings instituted by the SEC against the "big four" China-based accounting firms, including our independent registered public accounting firm, could result in financial statements being determined to not be in compliance with the requirements of the Securities Exchange Act of 1934, as amended, or the Exchange Act.

Starting in 2011 the "big four" China-based accounting firms, including our independent registered public accounting firm, were affected by a conflict between U.S. and Chinese law. Specifically, for certain U.S.-listed companies operating and audited in China, the SEC and the PCAOB sought to obtain from the Chinese firms access to their audit work papers and related documents. The firms were, however, advised and directed that under Chinese law, they could not respond directly to the U.S. regulators on those requests, and that requests by foreign regulators for access to such papers in China had to be channeled through the CSRC.

In late 2012, this impasse led the SEC to commence administrative proceedings under Rule 102(e) of its Rules of Practice and also under the Sarbanes-Oxley Act of 2002 against the Chinese accounting firms, including our independent registered public accounting firm. A first instance trial of the proceedings in July 2013 in the SEC's internal administrative court resulted in an adverse judgment against the firms. The administrative law

judge proposed penalties on the firms including a temporary suspension of their right to practice before the SEC, although that proposed penalty did not take effect pending review by the Commissioners of the SEC. On February 6, 2015, before a review by the Commissioner had taken place, the firms reached a settlement with the SEC. Under the settlement, the SEC accepted that future requests by the SEC for the production of documents will normally be made to the CSRC. The firms were to receive matching Section 106 requests, and were required to abide by a detailed set of procedures with respect to such requests, which in substance require them to facilitate production via the CSRC. If they failed to meet specified criteria, the SEC retained authority to impose a variety of additional remedial measures on the firms depending on the nature of the failure.

Under the terms of the settlement, the underlying proceeding against the four China-based accounting firms was deemed dismissed with prejudice four years after entry of the settlement. The four-year mark occurred on February 6, 2019. While we cannot predict if the SEC will further challenge the four China-based accounting firms' compliance with U.S. law in connection with U.S. regulatory requests for audit work papers or if the results of such a challenge would result in the SEC imposing penalties such as suspensions. If additional remedial measures are imposed on the "big four" China-based accounting firms, including our independent registered public accounting firm, we could be unable to timely file future financial statements in compliance with the requirements of the Exchange Act.

In the event the "big four" China-based accounting firms become subject to additional legal challenges by the SEC or PCAOB, depending upon the final outcome, listed companies in the United States with major PRC operations may find it difficult or impossible to retain auditors in respect of their operations in the PRC, which could result in financial statements being determined to not be in compliance with the requirements of the Exchange Act, including possible delisting. Moreover, any negative news about any such future proceedings against these audit firms may cause investor uncertainty regarding China-based, U.S.-listed companies and the market price of our common stock may be adversely affected.

If our independent registered public accounting firm was denied, even temporarily, the ability to practice before the SEC and we were unable to timely find another registered public accounting firm to audit and issue an opinion on our financial statements, our financial statements could be determined not to be in compliance with the requirements of the Exchange Act. Such a determination could ultimately lead to the delisting of the ADSs from the Nasdaq Global Market or deregistration from the SEC, or both, which would substantially reduce or effectively terminate the trading of the ADSs in the United States.

The enforcement of the PRC Labor Contract Law and other labor-related regulations in the PRC may adversely affect our business and results of operations.

The SCNPC enacted the Labor Contract Law in 2008 and amended it on December 28, 2012. The Labor Contract Law introduced specific provisions related to fixed-term employment contracts, part-time employment, probationary periods, consultation with labor unions and employee assemblies, employment without a written contract, dismissal of employees, severance, and collective bargaining to enhance previous PRC labor laws. Under the Labor Contract Law, an employer is obligated to sign an unlimited-term labor contract with any employee who has worked for the employer for ten consecutive years. Further, if an employee requests or agrees to renew a fixed-term labor contract that has already been entered into twice consecutively, the resulting contract, with certain exceptions, must have an unlimited term, subject to certain exceptions. With certain exceptions, an employer must pay severance to an employee where a labor contract is terminated or expires. In the case of retrenching 20 or more employees or where the number of employees to be retrenched is less than 20 but comprises 10% or more of the total number of employees of such employer under certain circumstances, the employer shall explain the situation to the labor union or all staff 30 days in advance and seek the opinion of the labor union or the employees, the employer may carry out the retrenchment exercise upon reporting the retrenchment scheme to the labor administrative authorities. In addition, the PRC governmental authorities have continued to introduce various new labor-related regulations since the effectiveness of the Labor Contract Law.

Under the PRC Social Insurance Law and the Administrative Measures on Housing Fund, employees are required to participate in pension insurance, work-related injury insurance, medical insurance, unemployment insurance, maternity insurance, and housing funds and employers are required, together with their employees or separately, to pay the social insurance premiums and housing funds for their employees. If we fail to make adequate social insurance and housing fund contributions, or fail to withhold individual income tax adequately, we may be subject to fines and legal sanctions, and our business, financial conditions and results of operations may be adversely affected. In our operation history, certain of our PRC subsidiaries have not made adequate contributions to employee benefit plans, or not withheld individual income tax adequately, as required by applicable PRC laws and regulations. In addition, certain of our PRC subsidiaries engage third-party human resources agencies to make social insurance and housing fund contributions for some of their employees, and there is no assurance that such third-party agencies will make such contributions in full in a timely manner, or at all. As of the date of this prospectus, we are not aware of any notice from regulatory authorities or any claim or request from these employees in this regard. However, we cannot assure you that the relevant regulatory authorities will not require us to pay outstanding amounts and impose late payment penalties or fines on us, which may materially and adversely affect our business, financial condition and results of operations.

These laws designed to enhance labor protection tend to increase our labor costs. In addition, as the interpretation and implementation of these regulations are still evolving, our employment practices may not be at all times be deemed in compliance with the regulations. As a result, we could be subject to penalties or incur significant liabilities in connection with labor disputes or investigations.

Some of our PRC service stores may have engaged in business activities without the necessary approvals from or registration with local authorities, which could subject us to fines or other penalties that may negatively impact our results of operations or interfere with our ability to operate our business.

As required by the PRC laws, a company that uses an office in a location outside its domicile to conduct business operation must register such office as a branch company with the competent local authority. As of December 31, 2019, we registered 15 branches in the PRC, of which 13 are registered for the purpose of picking-up and returning terminals, while some of our service stores established for the purpose of picking-up and returning terminals are not registered as branches. As we quickly expand our operations, we may need to register additional branch companies from time to time. However, whether a service store or a pick-up point will be deemed as having business nature or otherwise qualified for branch company registration is subject to the sole discretion of the government authorities. We cannot assure you that the governmental authorities will take the same view with us on whether a service store or pick up point is required or qualified to be registered as a branch company. If the government authorities find that we fail to complete branch company registrations for any of our service stores or pick-up points in a timely manner or otherwise violate relevant regulations on branch companies, we may be subject to penalties, including fines, confiscation of income, or being ordered to cease business. We may be subject to these penalties as a result of our failure to meet the registration requirements, and these penalties may substantially inhibit our ability to operate our business. The maximum potential penalty we may be subject to is RMB100,000 for our failure to register a service store or pick-up point as a branch company if the government authorities determine that such branch company registrations are required.

Risks Related to The ADSs and This Offering

There has been no public market for our shares or ADSs prior to this offering, and you may not be able to resell the ADSs at or above the price you paid, or at all.

Prior to this initial public offering, there has been no public market for our shares or ADSs. We have applied to list the ADSs on the Nasdaq Global Market. Our shares will not be listed on any exchange or quoted for trading on any over-the-counter trading system. If an active trading market for the ADSs does not develop after this offering, the market price and liquidity of the ADSs will be materially and adversely affected.

Negotiations with the underwriters will determine the initial public offering price for the ADSs which may bear no relationship to their market price after the initial public offering. We cannot assure you that an active trading market for the ADSs will develop or that the market price of the ADSs will not decline below the initial public offering price.

The trading price of the ADSs may be volatile, which could result in substantial losses to you.

The trading price of the ADSs is likely to be volatile and could fluctuate widely due to factors beyond our control. This may happen because of broad market and industry factors, like the performance and fluctuation in the market prices or the underperformance or deteriorating financial results of other listed companies based in China. The securities of some of these companies have experienced significant volatility since their initial public offerings, including, in some cases, substantial price declines in the trading prices of their securities. The trading performances of other PRC companies' securities after their offerings may affect the attitudes of investors toward PRC companies listed in the United States, which consequently may impact the trading performance of the ADSs, regardless of our actual operating performance. In addition, any negative news or perceptions about inadequate corporate governance practices or fraudulent accounting, corporate structure or matters of other PRC companies may also negatively affect the attitudes of investors towards PRC companies in general, including us, regardless of whether we have conducted any inappropriate activities. In addition, securities markets may from time to time experience significant price and volume fluctuations that are not related to our operating performance, such as the large decline in share prices in the United States, China and other jurisdictions in late 2008, early 2009 and the second half of 2011, which may have a material adverse effect on the trading price of the ADSs.

In addition to the above factors, the price and trading volume of the ADSs may be highly volatile due to multiple factors, including the following:

- regulatory developments affecting us or our industry, users, suppliers or third-party sellers;
- announcements of studies and reports relating to the quality of our product and service offerings or those of our competitors;
- changes in the economic performance or market valuations of other players in the industry;
- actual or anticipated fluctuations in our quarterly results of operations and changes or revisions of our expected results;
- changes in financial estimates by securities research analysts;
- conditions in the mobile data connectivity service market;
- announcements by us or our competitors of new product and service offerings, acquisitions, strategic relationships, joint ventures, capital raisings or capital commitments;
- additions to or departures of our senior management;
- fluctuations of exchange rates between the RMB and the U.S. dollar;
- litigation or other legal proceedings involving us;
- detrimental negative publicity about us or our industry;
- release or expiry of lock-up or other transfer restrictions on our issued and outstanding shares or ADSs;
- sales or perceived potential sales of additional ordinary shares or ADSs; and
- proceedings instituted by the SEC against five PRC-based accounting firms, including our independent registered public accounting firm.

In the past, shareholders of public companies have often brought securities class action suits against those companies following periods of instability in the market price of their securities. If we were involved in a class

action suit, it could divert a significant amount of our management's attention and other resources from our business and operations and require us to incur significant expenses to defend the suit, which could harm our results of operations. Any such class action suit, whether or not successful, could harm our reputation and restrict our ability to raise capital in the future. In addition, if a claim is successfully made against us, we may be required to pay significant damages, which could have a material adverse effect on our financial condition and results of operations.

The sale or availability for sale of substantial amounts of the ADSs in the public market could adversely affect their market price.

Sales of substantial amounts of the ADSs in the public market after the completion of this offering, or the perception that these sales could occur, could adversely affect the market price of the ADSs and could materially impair our ability to raise capital through equity offerings in the future. The ADSs sold in this offering will be freely tradable without restriction or further registration under the Securities Act of 1933, as amended, or the Securities Act, and shares held by our existing shareholders may also be sold in the public market in the future subject to the restrictions in Rule 144 and Rule 701 under the Securities Act and the applicable lock-up agreements. There will be ADSs (equivalent to Class A ordinary shares) outstanding immediately after this offering, or ADSs (equivalent to Class A ordinary shares) if the underwriters exercise their option to purchase additional ADSs in full. In connection with this offering, we, our officers, directors, and existing shareholders have agreed not to sell any of our ordinary shares or the ADSs or are otherwise subject to similar lockup restrictions for 180 days after the date of this prospectus without the prior written consent of the representative of the underwriters, subject to certain exceptions. However, the underwriters may release these securities from these restrictions at any time, subject to applicable regulations of the Financial Industry Regulatory Authority, Inc., or FINRA. After completion of this offering, certain holders of our ordinary shares may cause us to register under the Securities Act the sale of their shares, subject to the 180-day lock-up period in connection with this offering. Registration of these shares under the Securities Act would result in ADSs representing these shares becoming freely tradable without restriction under the Securities Act immediately upon the effectiveness of the registration. Sales of these registered shares in the form of ADSs in the public market could cause the price of the ADSs to decline. We cannot predict what effect, if any, market sales of securities held by our significant shareholders or any other shareholder or the availability of these securities for future sale will have on the market price of the ADSs. See "Underwriting" and "Shares Eligible for Future Sale" for a more detailed description of the restrictions on selling our securities after this offering.

Our dual-class share structure with different voting rights will limit your ability to influence corporate matters and could discourage others from pursuing any change of control transactions that holders of our Class A ordinary shares and ADSs may view as beneficial.

Immediately prior to the completion of this offering, we expect to create a dual-class share structure such that our ordinary shares will consist of Class A ordinary shares and Class B ordinary shares. In respect of matters requiring the votes of shareholders, holders of Class A ordinary shares will be entitled to one vote per share, while holders of Class B ordinary shares will be entitled to 15 votes per share based on our proposed dual-class share structure. We will sell Class A ordinary shares represented by the ADSs in this offering. Each Class B ordinary share is convertible into one Class A ordinary share at any time by the holder thereof, while Class A ordinary shares are not convertible into Class B ordinary shares under any circumstances. Upon any sale of Class B ordinary shares by a holder thereof to any person other than an affiliate of our two founders, namely, Mr. Chaohui Chen and Mr. Zhiping Peng, their family members or any entity controlled by the founders or their family members, such Class B ordinary shares shall be automatically and immediately converted into the same number of Class A ordinary shares.

Immediately prior to the completion of this offering, our two founders, Mr. Chaohui Chen and Mr. Zhiping Peng, will beneficially own all of our issued Class B ordinary shares. These Class B ordinary shares will constitute approximately % of our total issued and outstanding share capital immediately after the

completion of this offering and % of the aggregate voting power of our total issued and outstanding share capital immediately after the completion of this offering due to the disparate voting powers associated with our dual-class share structure, assuming the underwriters do not exercise their over-allotment option. See “Principal Shareholders.” As a result of the dual-class share structure and the concentration of ownership, holders of Class B ordinary shares will have considerable influence over matters such as decisions regarding mergers, consolidations and the sale of all or substantially all of our assets, election of directors and other significant corporate actions. Holders of Class B ordinary shares will continue to control the outcome of a shareholder vote (i) with respect to matters requiring an ordinary resolution which requires the affirmative vote of a simple majority of shareholder votes, to the extent that the Class B ordinary shares represent more than 6.2 % of our total issued and outstanding share capital; and (ii) with respect to matters requiring a special resolution which requires the affirmative vote of no less than two-thirds of shareholder votes, to the extent that the Class B ordinary shares represent at least 11.8% of our total issued and outstanding share capital. Such holders may take actions that are not in the best interest of us or our other shareholders. This concentration of ownership may discourage, delay or prevent a change in control of our company, which could have the effect of depriving our other shareholders of the opportunity to receive a premium for their shares as part of a sale of our company and may reduce the price of the ADSs. This concentrated control will limit your ability to influence corporate matters and could discourage others from pursuing any potential merger, takeover or other change of control transactions that holders of Class A ordinary shares and ADSs may view as beneficial.

The dual-class structure of our ordinary shares may adversely affect the trading market for the ADSs.

S&P Dow Jones and FTSE Russell have previously announced changes to their eligibility criteria for inclusion of shares of public companies on certain indices, including the S&P 500, to exclude companies with multiple classes of shares and companies whose public shareholders hold no more than 5% of total voting power from being added to such indices. In addition, several shareholder advisory firms have announced their opposition to the use of multiple class structures. As a result, the dual class structure of our ordinary shares may prevent the inclusion of the ADSs representing Class A ordinary shares in such indices and may cause shareholder advisory firms to publish negative commentary about our corporate governance practices or otherwise seek to cause us to change our capital structure. Any such exclusion from indices could result in a less active trading market for the ADSs. Any actions or publications by shareholder advisory firms critical of our corporate governance practices or capital structure could also adversely affect the value of the ADSs.

Because the amount, timing, and whether or not we distribute dividends at all is entirely at the discretion of our board of directors, you must rely on price appreciation of the ADSs for return on your investment.

Although we currently intend to distribute dividends in the future, the amount, timing, and whether or not we actually distribute dividends at all is entirely at the discretion of our board of directors.

Our board of directors has complete discretion as to whether to distribute dividends. In addition, our shareholders may by ordinary resolution declare a dividend, but no dividend may exceed the amount recommended by our board of directors. In either case, all dividends are subject to certain restrictions under the Cayman Islands law, namely that our company may only pay dividends out of profits or share premium, and provided that in no circumstances may a dividend be paid if this would result in our company being unable to pay its debts as they fall due in the ordinary course of business. Even if our board of directors decides to declare and pay dividends, the timing, amount and form of future dividends, if any, will depend on, among other things, our future results of operations and cash flow, our capital requirements and surplus, the amount of distributions, if any, received by us from our subsidiary, our financial condition, contractual restrictions and other factors deemed relevant by our board of directors. Accordingly, the return on your investment in the ADSs will likely depend entirely upon any future price appreciation of the ADSs. We cannot assure you that the ADSs will appreciate in value after this offering or even maintain the price at which you purchased the ADSs. You may not realize a return on your investment in the ADSs and you may even lose your entire investment in the ADSs.

Our directors, officers and principal shareholders collectively control a significant amount of our shares, and their interests may not align with the interests of our other shareholders.

Currently, our officers, directors and principal shareholders collectively hold a substantial majority of total voting power in our company. They will continue to have a substantial control of us and collectively hold % of total voting power immediately after this offering, assuming the underwriters do not exercise their over-allotment option. This significant concentration of share ownership and voting power may adversely affect or reduce the trading price of the ADSs because investors often perceive a disadvantage in owning shares in a company with one or several controlling shareholders. Furthermore, our directors and officers, as a group, have the ability to significantly influence or control the outcome of all matters requiring shareholders' approvals, including electing directors and approving mergers or other business combination transactions. These actions may be taken even if they are opposed by our other shareholders. This concentration of share ownership and voting power may also discourage, delay or prevent a change in control of our company, which could deprive our shareholders of an opportunity to receive a premium for their shares as part of a sale of our company. For more information regarding our principal shareholders, see "Principal Shareholders."

If securities or industry analysts do not publish research or publish inaccurate or unfavorable research about our business, or if they adversely change their recommendations regarding the ADSs, the market price for the ADSs and trading volume could decline.

The trading market for the ADSs will depend in part on the research and reports that securities or industry analysts publish about us or our business. If research analysts do not establish and maintain adequate research coverage or if one or more of the analysts who covers us downgrades the ADSs or publishes inaccurate or unfavorable research about our business, the market price for the ADSs would likely decline. If one or more of these analysts cease coverage of our company or fail to publish reports on us regularly, we could lose visibility in the financial markets, which, in turn, could cause the market price or trading volume for the ADSs to decline.

Because our initial public offering price is substantially higher than our net tangible book value per share, you will experience immediate and substantial dilution.

If you purchase ADSs in this offering, you will pay more for your ADSs than the amount paid by our existing shareholders for their ordinary shares on a per ADS basis. As a result, you will experience immediate and substantial dilution of US\$ per ADS, representing the difference between the initial public offering price of US\$ per ADS and our adjusted net tangible book value per ADS as of December 31, 2019, after giving effect to our sale of the ADSs offered in this offering. In addition, you may experience further dilution to the extent that our ordinary shares are issued upon the exercise of share options. See "Dilution" for a more complete description of how the value of your investment in the ADSs will be diluted upon completion of this offering.

Because we do not expect to pay dividends in the foreseeable future after this offering, you must rely on price appreciation of the ADSs for return on your investment.

We currently intend to retain most, if not all, of our available funds and any future earnings after this offering to fund the development and growth of our business. As a result, we do not expect to pay any cash dividends in the foreseeable future. Therefore, you should not rely on an investment in the ADSs as a source for any future dividend income.

Our board of directors has complete discretion as to whether to distribute dividends, subject to certain requirements of Cayman Islands law. In addition, our shareholders may by ordinary resolution declare a dividend, but no dividend may exceed the amount recommended by our directors. Under Cayman Islands law, a Cayman Islands company may pay a dividend out of either profit or share premium account, provided that in no circumstances may a dividend be paid if this would result in the company being unable to pay its debts as they

fall due in the ordinary course of business. Even if our board of directors decides to declare and pay dividends, the timing, amount and form of future dividends, if any, will depend on our future results of operations and cash flow, our capital requirements and surplus, the amount of distributions, if any, received by us from our subsidiaries, our financial condition, contractual restrictions and other factors deemed relevant by our board of directors. Accordingly, the return on your investment in the ADSs will likely depend entirely upon any future price appreciation of the ADSs. There is no guarantee that the ADSs will appreciate in value after this offering or even maintain the price at which you purchased the ADSs. You may not realize a return on your investment in the ADSs and you may even lose your entire investment in the ADSs.

The voting rights of holders of ADSs are limited by the terms of the deposit agreement, and you may not be able to exercise your right to vote your ordinary shares.

Holders of ADSs do not have the same rights as our registered shareholders. As a holder of the ADSs, you will not have any direct right to attend general meetings of our shareholders or to cast any votes at such meetings. As an ADS holder, you will only be able to exercise the voting rights carried by the underlying Class A ordinary shares represented by your ADSs indirectly by giving voting instructions to the depositary in accordance with the provisions of the deposit agreement. Under the deposit agreement, you may vote only by giving voting instructions to the depositary. If we ask for your instructions, then upon receipt of your voting instructions, the depositary will try, as far as is practicable, to vote the underlying Class A ordinary shares represented by your ADSs in accordance with these instructions. If we do not instruct the depositary to ask for your instructions, the depositary may still vote in accordance with instructions you give, but it is not required to do so. You will not be able to directly exercise your right to vote with respect to the underlying Class A ordinary shares represented by your ADSs unless you cancel and withdraw the shares, and become the registered holder of such shares prior to the record date for the general meeting. When a general meeting is convened, you may not receive sufficient advance notice of the meeting to withdraw the underlying Class A ordinary shares represented by your ADSs and become the registered holder of such shares to allow you to attend the general meeting and to vote directly with respect to any specific matter or resolution to be considered and voted upon at the general meeting. In addition, under our post-offering memorandum and articles of association that will become effective prior to completion of this offering, for the purposes of determining those shareholders who are entitled to attend and vote at any general meeting, our directors may close our register of members and/or fix in advance a record date for such meeting, and such closure of our register of members or the setting of such a record date may prevent you from withdrawing the underlying Class A ordinary shares represented by your ADSs and becoming the registered holder of such shares prior to the record date, so that you would not be able to attend the general meeting or to vote directly. If we ask for your instructions, the depositary will notify you of the upcoming vote and will arrange to deliver our voting materials to you. We have agreed to give the depositary notice of shareholder meetings sufficiently in advance of such meetings. Nevertheless, we cannot assure you that you will receive the voting materials in time to ensure that you can instruct the depositary to vote the underlying Class A ordinary shares represented by your ADSs. In addition, the depositary and its agents are not responsible for failing to carry out voting instructions or for their manner of carrying out your voting instructions. This means that you may not be able to exercise your right to direct how the underlying Class A ordinary shares represented by your ADSs are voted and you may have no legal remedy if the underlying Class A ordinary shares represented by your ADSs are not voted as you requested. In addition, in your capacity as an ADS holder, you will not be able to call a shareholders' meeting.

If we asked the depositary to solicit your instructions at least 30 days before the meeting date but the depositary does not receive voting instructions from you by the specified date and we confirm to the depositary that (i) we wish to receive a discretionary proxy; (ii) we reasonably do not know of any substantial shareholder opposition to the proxy item(s); and (iii) the proxy item(s) is not materially adverse to the interests of our shareholders, then the depositary will consider you to have authorized and directed it to give a discretionary proxy to a person designated by us to vote the number of deposited securities represented by the ADSs as to the proxy item(s).

[Table of Contents](#)

The effect of this discretionary proxy is that you cannot prevent the underlying Class A ordinary shares represented by your ADSs from being voted, except under the circumstances described above. This may make it more difficult for shareholders to influence the management of our company. Holders of our ordinary shares are not subject to this discretionary proxy.

Your right to participate in any future rights offerings may be limited, which may cause dilution to your holdings.

We may from time to time distribute rights to our shareholders, including rights to acquire our securities. However, we cannot make rights available to you in the United States unless we register both the rights and the securities to which the rights relate under the Securities Act or an exemption from the registration requirements is available. Under the deposit agreement, the depository will not make rights available to you unless both the rights and the underlying securities to be distributed to ADS holders are either registered under the Securities Act or exempt from registration under the Securities Act. We are under no obligation to file a registration statement with respect to any such rights or securities or to endeavor to cause such a registration statement to be declared effective and we may not be able to establish a necessary exemption from registration under the Securities Act. Accordingly, you may be unable to participate in our rights offerings and may experience dilution in your holdings.

You may not receive cash dividends if the depository decides it is impractical to make them available to you.

The depository will pay cash dividends on the ADSs only to the extent that we decide to distribute dividends on our Class A ordinary shares or other deposited securities, and we do not have any present plan to pay any cash dividends on our Class A ordinary shares in the foreseeable future. To the extent that there is a distribution, the depository of the ADSs has agreed to pay to you the cash dividends or other distributions it or the custodian receives on our Class A ordinary shares or other deposited securities after deducting its fees and expenses. You will receive these distributions in proportion to the number of Class A ordinary shares your ADSs represent. However, the depository may, at its discretion, decide that it is inequitable or impractical to make a distribution available to any holders of ADSs. For example, the depository may determine that it is not practicable to distribute certain property, or that the value of certain distributions may be less than the cost of distributing them. In these cases, the depository may decide not to distribute such property to you.

We and the depository are entitled to amend the deposit agreement and to change the rights of ADS holders under the terms of such agreement, and we may terminate the deposit agreement, without the prior consent of the ADS holders.

We and the depository are entitled to amend the deposit agreement and to change the rights of the ADS holders under the terms of such agreement, without the prior consent of the ADS holders. We and the depository may agree to amend the deposit agreement in any way we decide is necessary or advantageous to us. Amendments may reflect, among other things, operational changes in the ADS program, legal developments affecting ADSs or changes in the terms of our business relationship with the depository. In the event that the terms of an amendment prejudice a substantial existing right of ADS holders, ADS holders will only receive 30 days' advance notice of the amendment, and no prior consent of the ADS holders is required under the deposit agreement. Furthermore, we may decide to terminate the ADS facility at any time for any reason. For example, terminations may occur when we decide to list our shares on a non-U.S. securities exchange and determine not to continue to sponsor an ADS facility or when we become the subject of a takeover or a going-private transaction. If the ADS facility will terminate, ADS holders will receive at least 90 days' prior notice, but no prior consent is required from them. Under the circumstances that we decide to make an amendment to the deposit agreement that prejudices a substantial existing right of ADS holders or terminate the deposit agreement, the ADS holders may choose to sell their ADSs or surrender their ADSs and become direct holders of the underlying Class A ordinary shares, but will have no right to any compensation whatsoever.

ADSs holders may not be entitled to a jury trial with respect to claims arising under the deposit agreement, which could result in less favorable outcomes to the plaintiff(s) in any such action.

The deposit agreement governing the ADSs representing our Class A ordinary shares provides that, to the fullest extent permitted by law, ADS holders waive the right to a jury trial of any claim that they may have against us or the depository arising out of or relating to our ordinary shares, the ADSs or the deposit agreement, including any claim under the U.S. federal securities laws.

If we or the depository opposed a jury trial demand based on the waiver, the court would determine whether the waiver was enforceable based on the facts and circumstances of that case in accordance with the applicable state and federal law. To our knowledge, the enforceability of a contractual pre-dispute jury trial waiver in connection with claims arising under the federal securities laws has not been finally adjudicated by the United States Supreme Court. However, we believe that a contractual pre-dispute jury trial waiver provision is generally enforceable, including under the laws of the State of New York, which govern the deposit agreement, by a federal or state court in the City of New York, which has non-exclusive jurisdiction over matters arising under the deposit agreement. In determining whether to enforce a contractual pre-dispute jury trial waiver provision, courts will generally consider whether a party knowingly, intelligently and voluntarily waived the right to a jury trial. We believe that this is the case with respect to the deposit agreement and the ADSs. It is advisable that you consult legal counsel regarding the jury waiver provision before entering into the deposit agreement.

If you or any other owners and holders of ADSs bring a claim against us or the depository in connection with matters arising under the deposit agreement or the ADSs, including claims under federal securities laws, you or such other owner and holder may not be entitled to a jury trial with respect to such claims, which may have the effect of limiting and discouraging lawsuits against us or the depository. If a lawsuit is brought against us or the depository under the deposit agreement, it may be heard only by a judge or justice of the applicable trial court, which would be conducted according to different civil procedures and may result in different outcomes than a trial by jury would have had, including results that could be less favorable to the plaintiff(s) in any such action.

Nevertheless, if this jury trial waiver provision is not permitted by applicable law, an action could proceed under the terms of the deposit agreement with a jury trial. No condition, stipulation or provision of the deposit agreement or ADSs serves as a waiver by any owner and holder of ADSs or by us or the depository of compliance with any substantive provision of the U.S. federal securities laws and the rules and regulations promulgated thereunder.

You may be subject to limitations on transfer of your ADSs.

Your ADSs are transferable on the books of the depository. However, the depository may close its transfer books at any time or from time to time when it deems expedient in connection with the performance of its duties. The depository may close its books from time to time for a number of reasons, including in connection with corporate events such as a rights offering. The depository may also close its books in emergencies, and on weekends and public holidays. In addition, the depository may refuse to deliver, transfer or register transfers of ADSs generally when our books or the books of the depository are closed, or at any time if we or the depository deems it advisable to do so because of any requirement of law or of any government or governmental body, or under any provision of the deposit agreement, or for any other reason.

Certain judgments obtained against us by our shareholders may not be enforceable.

We are an exempted company incorporated under the laws of the Cayman Islands. Substantially all of our assets are located in China and Hong Kong. All of our directors and executive officers are nationals or residents of jurisdictions other than the United States. As a result, it may be difficult or impossible for you to bring an action against us or against these individuals in the United States in the event that you believe that your rights have been infringed under the U.S. federal securities laws or otherwise. Even if you are successful in bringing an

[Table of Contents](#)

action of this kind, the laws of the Cayman Islands and of the PRC may render you unable to enforce a judgment against our assets or the assets of our directors and officers. For more information regarding the relevant laws of the Cayman Islands and China, see “Enforceability of Civil Liabilities.”

Your investment in the ADSs may be impacted if we are encouraged to issue CDRs in the future.

Currently the PRC central government is proposing new rules that would allow PRC technology companies listed outside China to list on the mainland stock market through the creation of Chinese Depositary Receipts, or CDRs. Once the CDR mechanism is in place, we might consider and be encouraged by the evolving PRC governmental policies to issue CDRs and allow investors to trade our CDRs on PRC stock exchanges. However, there are uncertainties as to whether a pursuit of CDRs in China would bring positive or negative impact on your investment in the ADSs.

You may face difficulties in protecting your interests, and your ability to protect your rights through U.S. courts may be limited, because we are incorporated under Cayman Islands law.

We are an exempted company incorporated under the laws of the Cayman Islands with limited liability. Our corporate affairs are governed by our memorandum and articles of association, the Companies Law of the Cayman Islands, as amended from time to time, and the common law of the Cayman Islands. The rights of shareholders to take action against our directors, actions by our minority shareholders and the fiduciary duties of our directors to us under Cayman Islands law are to a large extent governed by the common law of the Cayman Islands. The common law of the Cayman Islands is derived in part from comparatively limited judicial precedent in the Cayman Islands as well as from the common law of England, the decisions of whose courts are of persuasive authority, but are not binding, on a court in the Cayman Islands. The rights of our shareholders and the fiduciary duties of our directors under Cayman Islands law are not as clearly established as they would be under statutes or judicial precedent in some jurisdictions in the United States. In particular, the Cayman Islands has a less developed body of securities laws than the United States. Some U.S. states, such as Delaware, have more fully developed and judicially interpreted bodies of corporate law than the Cayman Islands. In addition, Cayman Islands companies may not have standing to initiate a shareholder derivative action in a federal court of the United States.

Shareholders of Cayman Islands exempted companies like us have no general rights under Cayman Islands law to inspect corporate records or to obtain copies of lists of shareholders of these companies. Our directors have discretion under our post-IPO articles of association that will become effective immediately prior to completion of this offering to determine whether or not, and under what conditions, our corporate records may be inspected by our shareholders, but are not obliged to make them available to our shareholders. This may make it more difficult for you to obtain the information needed to establish any facts necessary for a shareholder motion or to solicit proxies from other shareholders in connection with a proxy contest.

As a result of all of the above, our public shareholders may have more difficulty in protecting their interests in the face of actions taken by management, members of the board of directors or controlling shareholders than they would as public shareholders of a company incorporated in the United States. For a discussion of significant differences between the provisions of the Companies Law of the Cayman Islands and the laws applicable to companies incorporated in the United States and their shareholders, see “Description of Share Capital—Differences in Corporate Law.”

We have not determined a specific use for a portion of the net proceeds from this offering and we may use these proceeds in ways with which you may not agree.

We have not determined a specific use for a portion of the net proceeds of this offering, and our management will have considerable discretion in deciding how to apply these proceeds. You will not have the opportunity to assess whether the proceeds are being used appropriately before you make your investment

decision. You must rely on the judgment of our management regarding the application of the net proceeds of this offering. We cannot assure you that the net proceeds will be used in a manner that would improve our results of operations or increase our ADS price, nor that these net proceeds will be placed only in investments that generate income or appreciate in value.

The post-offering memorandum and articles of association that we plan to adopt and that will become effective immediately prior to the completion of this offering will contain anti-takeover provisions that could discourage a third party from acquiring us and adversely affect the rights of holders of our ordinary shares and the ADSs.

We have adopted amended and restated memorandum and articles of association that will become effective immediately prior to the completion of this offering. Our new memorandum and articles of association contain provisions to limit the ability of others to acquire control of our company or cause us to engage in change-of-control transactions. These provisions could have the effect of depriving our shareholders of an opportunity to sell their shares at a premium over prevailing market prices by discouraging third parties from seeking to obtain control of our company in a tender offer or similar transaction. Our proposed dual-class voting structure gives disproportionate voting power to the Class B ordinary shares. Our board of directors has the authority, without further action by our shareholders, to issue preferred shares in one or more series and to fix their designations, powers, preferences, privileges, and relative participating, optional or special rights and the qualifications, limitations or restrictions, including dividend rights, conversion rights, voting rights, terms of redemption and liquidation preferences, any or all of which may be greater than the rights associated with our ordinary shares, in the form of ADS or otherwise. Preferred shares could be issued quickly with terms calculated to delay or prevent a change in control of our company or make removal of management more difficult. If our board of directors decides to issue preferred shares, the price of the ADSs may fall and the voting and other rights of the holders of our ordinary shares and ADSs may be materially and adversely affected.

We are a foreign private issuer within the meaning of the rules under the Exchange Act, and as such we are exempt from certain provisions applicable to U.S. domestic public companies.

Because we qualify as a foreign private issuer under the Exchange Act, we are exempt from certain provisions of the securities rules and regulations in the United States that are applicable to U.S. domestic issuers, including:

- the rules under the Exchange Act requiring the filing with the SEC of quarterly reports on Form 10-Q or current reports on Form 8-K;
- the sections of the Exchange Act regulating the solicitation of proxies, consents, or authorizations in respect of a security registered under the Exchange Act;
- the sections of the Exchange Act requiring insiders to file public reports of their stock ownership and trading activities and liability for insiders who profit from trades made in a short period of time; and
- the selective disclosure rules by issuers of material nonpublic information under Regulation FD.

We will be required to file an annual report on Form 20-F within four months of the end of each fiscal year. In addition, we intend to publish our results on a quarterly basis as press releases, distributed pursuant to the rules and regulations of the Nasdaq Global Market. Press releases relating to financial results and material events will also be furnished to the SEC on Form 6-K. However, the information we are required to file with or furnish to the SEC will be less extensive and less timely compared to that required to be filed with the SEC by U.S. domestic issuers. As a result, you may not be afforded the same protections or information that would be made available to you were you investing in a U.S. domestic issuer.

As an exempted company incorporated in the Cayman Islands, we are permitted to adopt certain home country practices in relation to corporate governance matters that differ significantly from the Nasdaq listing standards; these practices may afford less protection to shareholders than they would enjoy if we complied fully with the Nasdaq listing standards.

As a Cayman Islands company that will be listed on the Nasdaq Global Market, we will be subject to Nasdaq listing standards. However, the Nasdaq rules permit a foreign private issuer like us to follow the corporate governance practices of its home country. Certain corporate governance practices in the Cayman Islands, which is our home country, may differ significantly from Nasdaq listing standards. For example, neither the Companies Law of the Cayman Islands nor our post-offering memorandum and articles of association that will become effective immediately prior to the completion of this offering requires a majority of our directors to be independent and we could include non-independent directors as members of our compensation committee and nominating committee, and our independent directors would not necessarily hold regularly scheduled meetings at which only independent directors are present. Currently, we do not plan to rely on home country practice with respect to our corporate governance after we complete this offering. However, if we choose to follow home country practice in the future, our shareholders may be afforded less protection than they otherwise would under Nasdaq listing standards applicable to U.S. domestic issuers.

There can be no assurance that we will not be a passive foreign investment company, or PFIC, for United States federal income tax purposes for any taxable year, which could subject United States investors in the ADSs or ordinary shares to significant adverse United States income tax consequences.

We will be classified as a passive foreign investment company, or PFIC, for United States federal income tax purposes for any taxable year if either (a) 75% or more of our gross income for such year consists of certain types of “passive” income or (b) 50% or more of the value of our assets (determined on the basis of a quarterly average) during such year produce or are held for the production of passive income (the “asset test”). Although the law in this regard is unclear, we intend to treat our VIEs (including their respective subsidiaries, if any) as being owned by us for United States federal income tax purposes, not only because we exercise effective control over the operation of such entities but also because we are entitled to substantially all of their economic benefits, and, as a result, we consolidate their results of operations in our consolidated financial statements. Assuming that we are the owner of our VIEs (including their respective subsidiaries, if any) for United States federal income tax purposes, and based upon our current and expected income and assets, including goodwill and other unbooked intangibles not reflected on our balance sheet (taking into account the expected proceeds from this offering) and projections as to the market price of the ADSs following the offering, we do not presently expect to be a PFIC for the current taxable year or the foreseeable future.

While we do not expect to become a PFIC, because the value of our assets for purposes of the asset test may be determined by reference to the market price of the ADSs, fluctuations in the market price of the ADSs may cause us to become a PFIC for the current or subsequent taxable years. The determination of whether we will be or become a PFIC will also depend, in part, on the composition and classification of our income and assets. Because there are uncertainties in the application of the relevant rules, it is possible that the IRS may challenge our classification of certain income and assets as non-passive which may result in our being or becoming a PFIC in the current or subsequent years. In addition, the composition of our income and assets will also be affected by how, and how quickly, we use our liquid assets and the cash raised in this offering. If we determine not to deploy significant amounts of cash for active purposes or if it were determined that we do not own the stock of our VIEs for United States federal income tax purposes, our risk of being a PFIC may substantially increase. Because there are uncertainties in the application of the relevant rules and PFIC status is a factual determination made annually after the close of each taxable year, there can be no assurance that we will not be a PFIC for the current taxable year or any future taxable year.

If we are a PFIC in any taxable year, a U.S. Holder (as defined in “TAXATION—United States Federal Income Tax Considerations”) may incur significantly increased United States income tax on gain recognized on

the sale or other disposition of the ADSs or ordinary shares and on the receipt of distributions on the ADSs or ordinary shares to the extent such gain or distribution is treated as an “excess distribution” under the United States federal income tax rules, and such holder may be subject to burdensome reporting requirements. Further, if we are a PFIC for any year during which a U.S. Holder holds the ADSs or ordinary shares, we generally will continue to be treated as a PFIC for all succeeding years during which such U.S. Holder holds the ADSs or ordinary shares. For more information see “TAXATION—United States Federal Income Tax Considerations—Passive Foreign Investment Company Considerations.”

We will incur increased costs and become subject to additional rules and regulations as a result of being a public company.

As a result of this offering, we will become a public company and expect to incur significant accounting, legal and other expenses that we did not incur as a private company. We estimate such additional expenses to be approximately US\$2.5 million to US\$4.0 million annually. The Sarbanes-Oxley Act, as well as rules subsequently implemented by the SEC and the Nasdaq Global Market, have detailed requirements concerning corporate governance practices of public companies, including Section 404 of the Sarbanes-Oxley Act relating to internal controls over financial reporting. We expect these rules and regulations applicable to public companies to increase our accounting, legal and financial compliance costs and to make certain corporate activities more time-consuming and costly. Our management will be required to devote substantial time and attention to our public company reporting obligations and other compliance matters. We are currently evaluating and monitoring developments with respect to these rules and regulations, and we cannot predict or estimate the amount of additional costs we may incur or the timing of such costs. Our reporting and other compliance obligations as a public company may place a strain on our management, operational and financial resources and systems for the foreseeable future.

In the past, shareholders of a public company often brought securities class action suits against the company following periods of instability in the market price of that company’s securities. If we were involved in a class action suit, it could divert a significant amount of our management’s attention and other resources from our business and operations, which could harm our results of operations and require us to incur significant expenses to defend the suit. Any such class action suit, whether or not successful, could harm our reputation and restrict our ability to raise capital in the future. In addition, if a claim is successfully made against us, we may be required to pay significant damages, which could have a material adverse effect on our financial condition and results of operations.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus contains forward-looking statements that reflect our current expectations and views of future events. The forward looking statements are contained principally in the sections entitled “Prospectus Summary,” “Risk Factors,” “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and “Business.” Known and unknown risks, uncertainties and other factors, including those listed under “Risk Factors,” may cause our actual results, performance or achievements to be materially different from those expressed or implied by the forward-looking statements.

You can identify some of these forward-looking statements by words or phrases such as “may,” “will,” “expect,” “anticipate,” “aim,” “estimate,” “intend,” “plan,” “believe,” “is/are likely to,” “potential,” “continue” or other similar expressions. We have based these forward-looking statements largely on our current expectations and projections about future events that we believe may affect our financial condition, results of operations, business strategy and financial needs. These forward-looking statements include statements relating to:

- our mission, goals and strategies;
- our future business development, financial conditions and results of operations;
- the expected growth of the mobile data connectivity service industry;
- our expectations regarding demand for and market acceptance of our products and services;
- our expectations regarding our relationships with our customers, suppliers and business partners;
- competition in our industry;
- our proposed use of proceeds; and
- relevant government policies and regulations relating to our industry and our geographic markets.

These forward-looking statements involve various risks and uncertainties. Although we believe that our expectations expressed in these forward-looking statements are reasonable, our expectations may later be found to be incorrect. Our actual results could be materially different from our expectations. Important risks and factors that could cause our actual results to be materially different from our expectations are generally set forth in “Prospectus Summary—Our Challenges,” “Risk Factors,” “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” “Business,” “Regulation” and other sections in this prospectus. You should read thoroughly this prospectus and the documents that we refer to with the understanding that our actual future results may be materially different from and worse than what we expect. We qualify all of our forward-looking statements by these cautionary statements.

This prospectus contains certain data and information that we obtained from various government and private publications. Statistical data in these publications also include projections based on a number of assumptions. The mobile data connectivity service industry may not grow at the rate projected by market data, or at all. Failure of this market to grow at the projected rate may have a material adverse effect on our business and the market price of the ADSs. In addition, the rapidly evolving nature of this industry results in significant uncertainties for any projections or estimates relating to the growth prospects or future condition of our market. Furthermore, if any one or more of the assumptions underlying the market data are later found to be incorrect, actual results may differ from the projections based on these assumptions. You should not place undue reliance on these forward-looking statements.

The forward-looking statements made in this prospectus relate only to events or information as of the date on which the statements are made in this prospectus. Except as required by law, we undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise, after the date on which the statements are made or to reflect the occurrence of unanticipated events. You should read this prospectus and the documents that we refer to in this prospectus and have filed as exhibits to the registration statement, of which this prospectus is a part, completely and with the understanding that our actual future results may be materially different from what we expect.

USE OF PROCEEDS

We estimate that we will receive net proceeds from this offering of approximately US\$, or approximately US\$ if the underwriters exercise their over-allotment option in full, after deducting underwriting discounts and commissions and the estimated offering expenses payable by us. These estimates are based upon an assumed initial public offering price of US\$ per ADS, which is the midpoint of the price range shown on the front page of this prospectus. A US\$1.00 increase (decrease) in the assumed initial public offering price of US\$ per ADS would increase (decrease) the net proceeds to us from this offering by US\$, assuming the number of ADSs offered by us, as set forth on the front cover of this prospectus, remains the same and after deducting the estimated underwriting discounts and commissions and estimated expenses payable by us.

The primary purposes of this offering are to create a public market for our shares for the benefit of all shareholders, retain talented employees by providing them with equity incentives and obtain additional capital. We plan to use the net proceeds of this offering as follows:

- approximately % for research and development;
- approximately % for general corporate purposes, which may include funding sales and marketing efforts, working capital needs, and
- approximately % for potential strategic investments and acquisitions, although we have not identified any specific investments or acquisition opportunities.

The foregoing represents our current intentions based upon our present plans and business conditions to use and allocate the net proceeds of this offering. Our management, however, will have significant flexibility and discretion to apply the net proceeds of this offering. If an unforeseen event occurs or business conditions change, we may use the proceeds of this offering differently than as described in this prospectus. See “Risk Factors—Risks Related to the ADSs and This Offering—We have not determined a specific use for a portion of the net proceeds from this offering and we may use these proceeds in ways with which you may not agree.”

Pending any use described above, we plan to invest the net proceeds in demand deposits, interest-bearing debt instruments or other financial products for cash management purposes.

In using the proceeds of this offering, we are permitted under PRC laws and regulations as an offshore holding company to provide funding to our PRC subsidiaries only through loans or capital contributions and to our VIEs only through loans, subject to satisfaction of applicable government registration and approval requirements. We cannot assure you that we will be able to obtain these government registrations or approvals on a timely basis, or at all. See “Risk Factors—Risks Relating to Doing Business in China—PRC regulation of loans to and direct investment in PRC entities by offshore holding companies and governmental control of currency conversion may delay or prevent us from using the proceeds of any financing outside China to make loans to or make additional capital contributions to our PRC subsidiaries and VIEs, which could materially and adversely affect our liquidity and our ability to fund and expand our business.” Additionally, while there is no statutory limit on the amount of capital contribution that we can make to our PRC subsidiaries, loans provided to our PRC subsidiaries and our VIEs in the PRC are subject to certain statutory limits. With respect to our PRC subsidiaries, the maximum amount of the loans that they can acquire in aggregate from outside China as of December 31, 2019 is (i) approximately US\$52.1 million according to the Total Investment and Registered Capital Balance, as defined in “Regulation—Regulations Related to Foreign Exchange—Loans by the Foreign Companies to their PRC Subsidiaries;” or (ii) approximately US\$57.2 million under the Risk-Weighted Approach and the Net Asset Limits, as defined in “Regulation—Regulations Related to Foreign Exchange—Loans by the Foreign Companies to their PRC Subsidiaries.” With respect to our VIEs, the maximum amount of the loans that they can obtain in aggregate from outside China as of December 31, 2019 is approximately US\$7.2 million according to the Risk-Weighted Approach and the Net Asset Limits. We are able to use all of the net proceeds from this offering to

[Table of Contents](#)

fund our PRC subsidiaries through capital contributions, which are not subject to any statutory limit on the amount under PRC laws and regulations. See “Regulation—Regulations Related to Foreign Exchange—Loans by the Foreign Companies to their PRC Subsidiaries.”

DIVIDEND POLICY

Our board of directors has discretion on whether to distribute dividends, subject to certain requirements of Cayman Islands law. In addition, our shareholders may by ordinary resolution declare a dividend, but no dividend may exceed the amount recommended by our board of directors. In either case, all dividends are subject to certain restrictions under Cayman Islands law, namely that our company may only pay dividends out of profits or share premium, and provided always that in no circumstances may a dividend be paid if this would result in our company being unable to pay its debts as they fall due in the ordinary course of business. Even if we decide to pay dividends, the form, frequency and amount will depend upon our future operations and earnings, capital requirements and surplus, general financial condition, contractual restrictions and other factors that the board of directors may deem relevant.

We do not have any present plan to pay any cash dividends on our ordinary shares in the foreseeable future after this offering. We currently intend to retain most, if not all, of our available funds and any future earnings to operate and expand our business.

We are a holding company incorporated in the Cayman Islands. We may rely on dividends from our subsidiaries and consolidated entities in Hong Kong or China for our cash requirements, including any payment of dividends to our shareholders. PRC regulations may restrict the ability of our PRC subsidiaries to pay dividends to us. See “Regulation—Regulations on Dividend Distribution.”

If we pay any dividends on our ordinary shares, we will pay those dividends which are payable in respect of the Class A ordinary shares underlying the ADSs to the depository, as the registered holder of such Class A ordinary shares, and the depository then will pay such amounts to the ADS holders in proportion to the Class A ordinary shares underlying the ADSs held by such ADS holders, subject to the terms of the deposit agreement, including the fees and expenses payable thereunder. See “Description of American Depositary Shares.” Cash dividends on our ordinary shares, if any, will be paid in U.S. dollars.

CAPITALIZATION

The following table sets forth our capitalization as of December 31, 2019:

- on an actual basis;
- on a pro forma basis to reflect (i) the redesignation of 122,072,980 ordinary shares beneficially owned by Mr. Chaohui Chen and Mr. Zhiping Peng into Class B ordinary shares on a one-for-one basis immediately prior to the completion of this offering, (ii) the redesignation of all of the remaining ordinary shares into Class A ordinary shares on a one-for-one basis immediately prior to the completion of this offering, (iii) the automatic conversion and the redesignation of all of the remaining issued and outstanding preferred shares on a one-for-one basis into Class A ordinary shares immediately prior to the completion of this offering; and

Table of Contents

- Notes: (1) The pro forma as adjusted information discussed above is illustrative only. Our additional paid-in capital, total shareholders’ equity, and total capitalization following the completion of this offering are subject to adjustment based on the actual initial public offering price and other terms of this offering determined at pricing. The pro forma as adjusted amounts do not include the expense, if any, as a result of the redesignation of certain of our ordinary shares into Class B ordinary shares upon completion of this offering.
- (2) A US\$1.00 increase/(decrease) in the assumed initial public offering price of US\$ per ADS, the mid-point of the estimated range of the initial public offering price shown on the cover page of this prospectus, would increase/(decrease) each of additional paid-in capital, total shareholders’ equity, and total capitalization by US\$ million.

DILUTION

If you invest in the ADSs, your interest will be diluted to the extent of the difference between the initial public offering price per ADS and our net tangible book value per ADS after this offering. Dilution results from the fact that the initial public offering price per ordinary share is substantially in excess of the book value per ordinary share attributable to the existing shareholders for our presently outstanding ordinary shares.

Our net tangible book value as of December 31, 2019 was approximately US\$41.8 million, representing US\$0.18 per ordinary share or US\$ per ADS as of that date, or US\$0.16 per ordinary share and US\$ per ADS on a pro forma basis. Net tangible book value represents the amount of our total consolidated tangible assets, less the amount of our total consolidated liabilities. Pro forma net tangible book value per ordinary share is calculated after giving effect to the automatic conversion of all of our issued and outstanding convertible preference shares. Dilution is determined by subtracting pro forma net tangible book value per ordinary share, after giving effect to the additional proceeds we will receive from this offering, from the assumed initial public offering price of US\$ per ordinary share, which is the midpoint of the estimated initial public offering price range set forth on the front cover of this prospectus adjusted to reflect the ADS-to-ordinary share ratio, and after deducting underwriting discounts and commissions and estimated offering expenses payable by us. Because the Class A ordinary shares and Class B ordinary shares have the same dividend and other rights, except for voting and conversion rights, the dilution is presented based on all issued and outstanding ordinary shares, including Class A ordinary shares and Class B ordinary shares.

Without taking into account any other changes in net tangible book value after December 31, 2019, other than to give effect to our issuance and sale of ADSs in this offering at the assumed initial public offering price of US\$ per ADS, which is the midpoint of the estimated initial public offering price range, after deduction of the underwriting discounts and commissions and estimated offering expenses payable by us, our pro forma as adjusted net tangible book value as of December 31, 2019 would have been US\$, or US\$ per ordinary share and US\$ per ADS. This represents an immediate increase in net tangible book value of US\$ per ordinary share and US\$ per ADS to the existing shareholders and an immediate dilution in net tangible book value of US\$ per ordinary share and US\$ per ADS to investors purchasing ADSs in this offering. The following table illustrates such dilution:

	Per Ordinary Share	Per ADS
Assumed initial public offering price	US\$	US\$
Net tangible book value as of December 31, 2019	US\$	US\$
Pro forma net tangible book value after giving effect to the conversion of our preferred shares	US\$	US\$
Pro forma as adjusted net tangible book value after giving effect to the conversion of our preferred shares, this offering	US\$	US\$
Amount of dilution in net tangible book value to new investors in this offering	US\$	US\$

A US\$1.00 increase (decrease) in the assumed initial public offering price of US\$ per ADS would increase (decrease) our pro forma as adjusted net tangible book value after giving effect to this offering by US\$, the pro forma as adjusted net tangible book value per ordinary share and per ADS after giving effect to this offering by US\$ per ordinary share and US\$ per ADS and the dilution in pro forma as adjusted net tangible book value per ordinary share and per ADS to new investors in this offering by US\$ per ordinary share and US\$ per ADS, assuming no change to the number of ADSs offered by us as set forth on the front cover of this prospectus, and after deducting underwriting discounts and commissions and estimated offering expenses payable by us.

The following table summarizes, on a pro forma as adjusted basis as of December 31, 2019, the differences between existing shareholders and the new investors with respect to the number of ordinary shares (in the form of

[Table of Contents](#)

ADSs or shares) purchased from us, the total consideration paid and the average price per ordinary share and per ADS paid before deducting the underwriting discounts and commissions and estimated offering expenses payable by us. The total number of ordinary shares does not include ordinary shares underlying the ADSs issuable upon the exercise of the over-allotment option granted to the underwriters.

	Ordinary Shares Purchased		Total Consideration		Average Price Per Ordinary Share	Average Price Per ADS
	Number	Percent	Amount	Percent		
Existing shareholders			US\$	%	US\$	US\$
New investors			US\$	%	US\$	US\$
Total			US\$	100.0%		

The pro forma as adjusted information discussed above is illustrative only. Our net tangible book value following the completion of this offering is subject to adjustment based on the actual initial public offering price of the ADSs and other terms of this offering determined at pricing.

The discussion and tables above assume no exercise of any share options outstanding as of the date of this prospectus. As of the date of this prospectus, there are 22,015,577 ordinary shares issuable upon exercise of outstanding share options with exercise prices ranging from of US\$0.50 to US\$0.81 per share. To the extent that any of these options are exercised, there will be further dilution to new investors.

ENFORCEABILITY OF CIVIL LIABILITIES

We are incorporated under the laws of the Cayman Islands as an exempted company with limited liability. We are incorporated in the Cayman Islands to take advantage of certain benefits associated with being a Cayman Islands exempted company, such as:

- political and economic stability;
- an effective judicial system;
- a favorable tax system;
- the absence of exchange control or currency restrictions; and
- the availability of professional and support services.

However, certain disadvantages accompany incorporation in the Cayman Islands. These disadvantages include but are not limited to:

- the Cayman Islands has a less developed body of securities laws as compared to the United States and these securities laws provide significantly less protection to investors as compared to the United States; and
- Cayman Islands companies may not have standing to sue before the federal courts of the United States.

Our constituent documents do not contain provisions requiring that disputes, including those arising under the securities laws of the United States, between us, our officers, directors and shareholders, be arbitrated.

Substantially all of our assets are located in China and Hong Kong. All of our directors and executive officers are nationals or residents of jurisdictions other than the United States and most of their assets are located outside the United States. As a result, it may be difficult for a shareholder to effect service of process within the United States upon these individuals, or to bring an action against us or these individuals in the United States, or to enforce against us or them judgments obtained in United States courts, including judgments predicated upon the civil liability provisions of the securities laws of the United States or any state in the United States.

We have appointed Puglisi & Associates, located at 850 Library Avenue, Suite 204, Newark, Delaware 19711, as our agent upon whom process may be served in any action brought against us under the securities laws of the United States.

Cayman Islands

Maples and Calder (Hong Kong) LLP, our counsel as to Cayman Islands law, has advised us that there is uncertainty as to whether the courts of the Cayman Islands would (i) recognize or enforce judgments of U.S. courts obtained against us or our directors or officers that are predicated upon the civil liability provisions of the federal securities laws of the United States or the securities laws of any state in the United States, or (ii) entertain original actions brought in the Cayman Islands against us or our directors or officers that are predicated upon the federal securities laws of the United States or the securities laws of any state in the United States.

Maples and Calder (Hong Kong) LLP has informed us that although there is no statutory enforcement in the Cayman Islands of judgments obtained in the federal or state courts of the United States (and the Cayman Islands are not a party to any treaties for the reciprocal enforcement or recognition of such judgments), the courts of the Cayman Islands will, at common law, recognize and enforce a foreign money judgment of a foreign court of competent jurisdiction without any re-examination of the merits of the underlying dispute based on the principle that a judgment of a competent foreign court imposes upon the judgment debtor an obligation to pay the liquidated sum for which such judgment has been given, provided such judgment (i) is final and conclusive,

[Table of Contents](#)

(ii) is not in respect of taxes, a fine or a penalty; and (iii) was not obtained in a manner and is not of a kind the enforcement of which is contrary to natural justice or the public policy of the Cayman Islands. However, the Cayman Islands courts are unlikely to enforce a judgment obtained from the U.S. courts under civil liability provisions of the U.S. federal securities law if such judgment is determined by the courts of the Cayman Islands to give rise to obligations to make payments that are penal or punitive in nature. A Cayman Islands court may stay enforcement proceedings if concurrent proceedings are being brought elsewhere.

PRC

Han Kun Law Offices, our counsel as to PRC law, has advised us that there is uncertainty as to whether the courts of China would:

- recognize or enforce judgments of United States courts obtained against us or our directors or officers predicated upon the civil liability provisions of the securities laws of the United States or any state in the United States; or
- entertain original actions brought in each respective jurisdiction against us or our directors or officers predicated upon the securities laws of the United States or any state in the United States.

Han Kun Law Offices has further advised us that the recognition and enforcement of foreign judgments are provided for under the PRC Civil Procedures Law. PRC courts may recognize and enforce foreign judgments in accordance with the requirements of the PRC Civil Procedures Law based either on treaties between China and the country where the judgment is made or on principles of reciprocity between jurisdictions. China does not have any treaties or other form of reciprocity with the United States or the Cayman Islands that provide for the reciprocal recognition and enforcement of foreign judgments. In addition, according to the PRC Civil Procedures Law, courts in the PRC will not enforce a foreign judgment against us or our directors and officers if they decide that the judgment violates the basic principles of PRC law or national sovereignty, security, or public interest. As a result, it is uncertain whether and on what basis a PRC court would enforce a judgment rendered by a court in the United States or in the Cayman Islands. Under the PRC Civil Procedures Law, foreign shareholders may originate actions based on PRC law against a company in China for disputes if they can establish sufficient nexus to the PRC for a PRC court to have jurisdiction, and meet other procedural requirements, including, among others, the plaintiff must have a direct interest in the case, and there must be a concrete claim, a factual basis and a cause for the suit. It will be, however, difficult for U.S. shareholders to originate actions against us in the PRC in accordance with PRC laws because we are incorporated under the laws of the Cayman Islands and it will be difficult for U.S. shareholders, by virtue only of holding the ADSs or ordinary shares, to establish a connection to the PRC for a PRC court to have jurisdiction as required under the PRC Civil Procedures Law.

Hong Kong

Guantao & Chow Solicitors and Notaries, our counsel with respect to Hong Kong law, has advised us that there is uncertainty as to whether the courts of Hong Kong would (1) recognize or enforce judgments of U.S. courts obtained against us or our directors or officers that are predicated upon the civil liability provisions of the federal securities laws of the United States or the securities laws of any state in the United States, or (2) entertain original actions brought in Hong Kong against us or our directors or officers that are predicated upon the federal securities laws of the United States or the securities laws of any state in the United States.

We have been further advised by Guantao & Chow Solicitors and Notaries that judgment of United States courts will not be directly enforced in Hong Kong. There are currently no treaties or other arrangements providing for reciprocal enforcement of foreign judgments between Hong Kong and the United States. However, subject to certain conditions, including but not limited to when the judgment is for a definite sum of money in a civil matter and not in respect of taxes, fines, penalties or similar charges, the judgment is final and conclusive and has not been stayed or satisfied in full, the judgement is from a competent court, the judgment was not obtained by fraud, misrepresentation or mistake nor obtained in proceedings which contravenes the rules of

[Table of Contents](#)

natural justice and the enforcement of the judgment is not contrary to public policy in Hong Kong, Hong Kong courts may accept such judgment obtained from a United States court as a debt due under the rules of common law. However, a separate legal action for debt must be commenced in Hong Kong in order to recover such debt from the judgment debtor.

In the opinion of Han Kun Law Offices, our PRC legal counsel:

- the ownership structures of our VIEs in China and Beijing uCloudlink, both currently and immediately after giving effect to this offering, are not in violation of applicable PRC laws and regulations currently in effect; and
- the contractual arrangements between Beijing uCloudlink, our VIEs and their respective shareholders governed by PRC law are valid, binding and enforceable, and will not result in any violation of applicable PRC laws and regulations currently in effect.

However, our PRC legal counsel has also advised us that there are substantial uncertainties regarding the interpretation and application of current and future PRC laws, regulations and rules. Accordingly, the PRC

regulatory authorities may take a view that is contrary to the opinion of our PRC legal counsel. It is uncertain whether any new PRC laws or regulations relating to variable interest entity structures will be adopted or if adopted, what they would provide. If we or any of our VIEs are found to be in violation of any existing or future PRC laws or regulations, or fail to obtain or maintain any of the required permits or approvals, the relevant PRC regulatory authorities would have broad discretion to take action in dealing with such violations or failures. See “Risk Factors—Risks Related to Our Corporate Structure—If the PRC government finds that the agreements that establish the structure for operating certain of our operations in China do not comply with PRC regulations relating to the relevant industries, or if these regulations or the interpretation of existing regulations change in the future, we could be subject to severe penalties or be forced to relinquish our interests in those operations.” and “Risk Factors—Risks Relating to Doing Business in China—Uncertainties exist with respect to the interpretation and implementation of the newly enacted PRC Foreign Investment Law and how it may impact the viability of our current corporate structure, corporate governance and business operations.”

Overview

We are the world's first and leading mobile data traffic sharing marketplace, according to Frost & Sullivan. We are the pioneer of introducing the sharing economy business model into the telecommunications industry, creating a marketplace for mobile data traffic. Leveraging our innovative cloud SIM technology and architecture, we redefine the mobile data connectivity experience, allowing users to gain access to mobile data traffic allowance shared by network operators on our marketplace. We have aggregated mobile data traffic allowances from 230 MNOs in 144 countries and regions in our cloud SIM architecture. Total data consumed through our platform were approximately 9,000, 28,000 and 90,600 terabytes in 2017, 2018 and 2019, respectively.

Our innovative cloud SIM technology sets the technological foundation of our marketplace, which is built upon our cloud SIM architecture. We have developed our proprietary cloud SIM technology based on remote SIM connection, which means that SIM cards are not embedded in the mobile terminals but remotely connected on the cloud. Leveraging our cloud SIM technology and architecture, we provide mobile data connectivity services with reliable connection, high speed and competitive price, and allow users to enjoy a superior seamless mobile connectivity experience. We have transformed the traditional telecommunication business model, where users can only access the wireless network provided by their contracted MNOs and are not able to use the networks of other local MNOs. By giving users access to our distributed SIM card pool, we free users from this exclusivity, and give them the freedom to access the mobile networks of other MNOs without physically changing SIM cards wherever they are in the world as long as it is one of the 144 countries and regions we cover. As a result, we have accumulated a large and active user base.

We operate our business under what we refer to as uCloudlink 1.0 and uCloudlink 2.0 models, and plan to launch uCloudlink 3.0 model in the future.

- *uCloudlink 1.0.* Our uCloudlink 1.0 model, which started in 2014, focuses on cross-border travelers that need mobile data connectivity services across different countries. We offer portable Wi-Fi services under our own *Roamingman* brand in China, Malaysia and Singapore to provide global mobile data connectivity services. We also offer *GlocalMe* portable Wi-Fi terminals and provide our cloud SIM architecture to business partners such as MVNOs, MNOs and portable Wi-Fi terminal rental companies for them to offer global mobile data connectivity services directly to their users. Our *GlocalMe Inside* implementation in smartphones and other smart terminals also supports cross-border mobile data connectivity within uCloudlink 1.0 model.
- *uCloudlink 2.0.* Our uCloudlink 2.0 model aims to provide mobile data connectivity services to local users across different MNOs in a single country. We develop *GlocalMe Inside* implementation for smartphones and other smart hardware terminals, enabling them to obtain access to our cloud SIM architecture and use our globally distributed SIM card pool. Our solution enables smartphone users or smart hardware terminals to use our mobile data connectivity services without a separate Wi-Fi router.
- *uCloudlink 3.0.* We anticipate that under our proposed uCloudlink 3.0 model, users may share and trade their unused data packages through our cloud SIM architecture, which will create a data traffic sharing marketplace. We have tested the data allowance sharing among users in trials, and are technologically ready to launch the uCloudlink 3.0 model.

We have grown rapidly in recent years. We generate revenues primarily from our mobile data connectivity services and hardware terminals that incorporate the services. Our revenues increased from US\$85.8 million in 2017 to US\$126.4 million in 2018, and further to US\$158.4 million in 2019. Our gross margin increased from 34.4% in 2017 to 36.5% in 2018, and further to 41.0% in 2019. We had a net loss of US\$19.3 million and US\$26.6 million in 2017 and 2018, respectively, and we had a net income of US\$5.2 million in 2019. Our adjusted net (loss)/income, a non-GAAP measure defined as net (loss)/income excluding share-based compensation was adjusted net loss of US\$13.7 million and US\$24.3 million in 2017 and 2018, respectively, and was adjusted net income of US\$5.4 million in 2019. Our adjusted EBITDA, another non-GAAP measure defined as net (loss)/income excluding share of loss in equity method investment net of tax, interest expense, depreciation and amortization, and share-based compensation, was negative US\$4.7 million, negative US\$15.1 million and US\$8.9 million in 2017, 2018 and 2019, respectively. See “Prospectus Summary—Summary Consolidated Financial and Operating Data—Non-GAAP Financial Measures.”

Key Factors Affecting Our Results of Operations

Our results of operations and financial condition are affected by the general factors driving global mobile data connectivity service industry, including, among others, any global epidemics, overall economic growth of major economies, the increase in per capita disposable income, the expansion of urbanization, the growth in consumer spending and consumption upgrades, the penetration of mobile internet and increasing population of mobile internet users, the growth of cross-border travels, as well as competition and telecommunications regulations. Unfavorable changes in any of these general industry conditions could negatively affect demand for our products and services and materially and adversely affect our results of operations.

The outbreak of COVID-19 has adversely affected our business operations and financial conditions. See “Prospectus Summary—Recent Developments” and “Risk Factors—Risks Related to Our Business and Industry—We face risks related to natural disasters, terrorist acts or acts of war, social unrest, health epidemics or other public safety concerns or hostile events, which could significantly disrupt our operations.”

While our business is influenced by these general factors, our results of operations are more directly affected by company specific factors, including the following major factors:

- innovative monetization models offering mobile data connectivity services;
- our ability to increase our user base and usage of our mobile data connectivity services;
- efficient data allowance procurement;
- the mix of our product and service offerings;
- our ability to improve operational efficiency; and
- further penetration into international markets.

Innovative monetization models offering mobile data connectivity services

We create and develop various monetization models as our company evolves. We started to conduct our business under uCloudlink 1.0 model in 2014, which focuses on cross-border travelers that need mobile data connectivity services across different countries. We offer *Roamingman* portable Wi-Fi services and directly sell smart terminals to provide global mobile data connectivity services. We also offer smart terminals and provide our cloud SIM architecture to business partners such as MVNOs and MNOs for them to offer global mobile data connectivity services directly to their users. We will continue to penetrate into other markets outside of China to further drive the growth of international mobile data connectivity services under uCloudlink 1.0 model.

While continuing to generate revenues from uCloudlink 1.0 model, we developed uCloudlink 2.0 model in 2018, which aims to provide mobile data connectivity services to local users across different MNOs in a single country. We develop *GlocalMe Inside* implementation for smartphones and other smart hardware products,

enabling them to obtain access to our cloud SIM architecture and use our distributed SIM card pool. Users of *GlocalMe Inside*-embedded terminals can enjoy reliable and high-speed data connectivity experience at competitive cost, and they have the flexibility to create and customize their own data packages based on their needs and budgets, which in turn enables us to acquire and develop users rapidly. We strive to collaborate with more business partners to increase the number of smartphone models and terminals with *GlocalMe Inside* implementation. Due to enormous local mobile data market opportunities, we expect that uCloudlink 2.0 model will drive the growth of our user base and revenues and contribute an increasingly larger portion of our total revenues.

Our ability to increase our user base and usage of our mobile data connectivity services

The size of our user base, as measured by the number of terminals with our mobile data connectivity services activated, and the usage of our mobile data connectivity services are key factors affecting our results of operations. Our average daily active terminals increased by 73.0% from approximately 65,300 in 2017 to 113,000 in 2018, and further increased by 66.1% to 187,700 in 2019. The average daily data usage per active terminal increased by 79.5% from 390 megabytes in 2017 to 700 megabytes in 2018, and further increased by 85.7% to 1,300 megabytes in 2019. We plan to continue to increase the number of terminals and data usage by entering into new markets through cooperating with successful local business partners, and by penetrating further into current markets by expanding service offerings, offering more bundling and promotional data packages, and conducting more active branding and marketing activities. We will continue to promote the adoption of *GlocalMe Inside* implementations by actively developing strategic partnerships with leading smartphone companies. As of the date of this prospectus, we have partnered with seven smartphone companies globally for *GlocalMe Inside* implementation, resulting in approximately 4.9 million third-party smartphones that can access our mobile data connectivity service, among which over 167,100 had our function activated. We will continue to promote *GlocalMe Inside* to make it a standard configuration for mobile terminals, which will drive the growth of our user base and usage of our mobile data connectivity services, and enable us to capture the massive opportunities in local mobile data markets. The growth of our user base and data usage will lead to the increased revenues from data connectivity services.

Efficient data allowance procurement

Efficient data procurement is a key factor for managing our cost of revenues. Our gross margin relating to data connectivity services increased from 37.6% in 2017 to 44.2% in 2018, and further to 55.9% in 2019. Our costs incurred from data procurement accounted for 72.1%, 57.4% and 38.1% of our total cost of revenues in 2017, 2018 and 2019, respectively. Our data sources include MNOs and their sales channels, MVNOs, and other SIM-card trading companies, covering mobile data markets in 144 countries and regions. We use a mobile data demand prediction model to plan for data procurement, which looks at seasonality, regions and countries, network performance and other features to predict users' data demand at a specific time in a geographic area. The prediction from modeling guides us on purchasing data SIM cards to cover the dynamic data demand, optimizing the data procurement efficiency. As we have accumulated a larger number of data allowance providers as our data sources, we possess increasingly stronger bargaining power during the negotiation due to competition among data allowance providers. Data allowance providers are more willing to offer us leftover data with lower price, attracted by our unique value propositions to them. As our user base grows, larger demand for data also drives up our bargaining power with data suppliers. The efficiency of data procurement will continuously impact our cost of revenues and overall business performance. We expect that our uCloudlink 2.0 model will allow us to maximize the usage of the data allowances procured and improve the efficiency of data connectivity service marginal unit cost, and that our uCloudlink 3.0 model that relies on user-shared data allowances has the potential to further decrease data connectivity service marginal unit cost.

The mix of our product and service offerings

Our gross margin is mainly affected by the mix of services and products. Our gross margin improved from 34.4% in 2017 to 36.5% in 2018, and further to 41.0% in 2019. Our services had a gross margin of 39.5%, 47.9%

and 60.9% in 2017, 2018 and 2019, respectively, while our sales of products had a gross margin of 16.1%, 10.0% and 14.0% in the same periods, respectively. Our ability to increase our gross margin depends on our ability to expand services by developing innovative monetization models. Our gross margin is also affected by the mix of international and local mobile data connectivity services that we provide. We actively develop strategic partnerships with leading smartphone companies to increase the number of *GlocalMe Inside*-enabled smartphones. When smartphone companies implement *GlocalMe Inside* as a feature in their smartphones or the smartphone users download our GlocalMe app from app stores, their users may take advantage of our global and local mobile data connectivity services without changing physical SIM cards or connecting to a separate Wi-Fi router. This expands our user base for our data connectivity business, and creates more revenues for smartphone companies through offering a portion of our data revenues to smartphone companies as commissions or one-time installation fees. The typical term of our agreements with smartphone companies is one year, under which the smartphone companies are responsible for pre-installing our GlocalMe app from and sales and marketing of their smartphones, and we are responsible for the development, implementation and maintenance of cloud SIM technology and providing customer supports. We collect user payments when they purchase data packages through the pre-installed app and will pay the smartphone companies a pre-determined percentage of such payments we received as commissions or one-time installation fees. With increasing volume of hardwares in connection with *GlocalMe Inside* sold, we will enjoy increasing data revenue streams from the growing base of *GlocalMe Inside* handsets. As of the date of this prospectus, we have partnered with seven smartphone companies globally for *GlocalMe Inside* implementation, resulting in approximately 4.9 million third-party smartphones that can access our mobile data connectivity service, among which over 167,100 had our function activated. We will continue to promote *GlocalMe Inside* to make it a standard configuration for mobile terminals.

Our ability to improve operational efficiency

Our ability to achieve and maintain profitability is dependent on our ability to further improve our operational efficiency and reduce the total operating expenses as a percentage of our revenues. We will continue to enhance our research and development efforts to enhance our cloud SIM technology and architecture, develop and upgrade our products and services, optimize our data traffic usage, and improve data procurement and operational efficiency. Our research and development expenses accounted for 29.0%, 29.4% and 25.3% of our total operating expenses in 2017, 2018 and 2019, respectively. Our cloud SIM architecture and platform have been designed and built to power our growth as we scale to meet demands from our expanding customer base. As our business grows, we expect to continue to leverage the scalability of our business model, improve the efficiency and utilization of our personnel, and thus enjoy higher operating leverage. In addition, our ability to improve operational efficiency depends on our ability to optimize sales and marketing efforts. Currently, we expand our customer base and increase the spending by existing customers through establishing our own brand recognition and exploring more business partners around the globe. We will also utilize the insights we gain from data analytics to guide our operational activities to improve efficiency.

Further penetration into international markets

We have experienced significant growth in the sales of our services and products in international markets. As of the date of this prospectus, our data connectivity services and hardware products are offered in 144 countries and regions, compared to 140 countries and regions as of December 31, 2018. Under current uCloudlink 1.0 model, our portable Wi-Fi terminals were available in Malaysia and Singapore through our own *Roamingman* brand, and in 42 countries through our business partners, as of December 31, 2019. In 2017, 2018, and 2019, outbound travelers from China using our *Roamingman* service contributed to approximately 57%, 40%, and 25% of our total revenues, respectively. Leveraging on the local operation knowledge and established brand names of our business partners, we are able to penetrate into different markets and regions more effectively, accelerating the adoption of our products and services on a global scale. We believe our global opportunity is significant, and we will continue to expand our data connectivity services in selected local markets by collaborating with local business partners under uCloudlink 2.0 model. We have partnered with smartphone companies for *GlocalMe Inside* implementation in China, Philippines and Indonesia. We have also commenced

trial operation of *GlocalMe Inside* in Europe. We believe that our expansion and penetration into selected local markets will not only drive our revenue growth but also diversify our revenue streams across geographic regions.

Revenues from services

Our revenues from services mainly consist of data connectivity services, including international data connectivity services and local data connectivity services, and PaaS and SaaS services.

Data connectivity services. Our data connectivity services revenues include revenues from international data connectivity services and local data connectivity services.

We generate international data connectivity services revenues from (i) data service fees from providing portable Wi-Fi to users under our service model with *Roamingman* brand, (ii) data service fees generated from sales of data connectivity services to business partners, and (iii) certain retail sales of data connectivity services. We charge users service fee for data connectivity services for *Roamingman* brand, typically on a daily basis. We sell our data connectivity services as part of the portable Wi-Fi and smart terminals to our business partners and charge the business partners data service fees.

We generate local data connectivity services revenues from (i) data service fees generated from sales of data connectivity services to business partners, and (ii) retail sales of data connectivity services that can be used with our *GlocalMe* portable Wi-Fi terminals, *GlocalMe Inside* and *GlocalMe World Phones* through online platforms.

In 2017, 2018 and 2019, we generated substantially all of our data connectivity services revenues from our international data connectivity services under uCloudlink 1.0 model.

PaaS and SaaS services. Revenues from PaaS and SaaS services mainly consist of fees generated from providing cloud SIM platform as a service to business partners and other ancillary platform services. In 2019, primary services contributed to 80.8% of our revenues from *PaaS and SaaS services* while ancillary services

[Table of Contents](#)

contributed to 19.2%. We provide our cloud SIM platform as a service to business partners, enabling them to manage their data resources, and charge them service fees for the use of the cloud SIM platform services.

Sales of Products

Our sales of products mainly consist of sales of terminals and sales of data related products.

Sales of terminals. We generate revenues from selling hardware terminals, including *GlocalMe* portable Wi-Fi terminals, *GlocalMe* World Phone series and IoT modules, and smartphones with GMI installed to enterprise and retail users and business partners.

Sales of data related products. We generate revenues from selling SIM cards with prepaid data packages that can be used outside of China, which effectively help us grow our user base and data usage among travellers and cross-sell our other products and services.

Geographic Distribution

In terms of revenue contribution, China, Japan, Hong Kong, Taiwan, North America, Southeast Asia and Europe are the top geographies according to the location of customers, which contributed 49%, 19%, 10%, 6%, 5%, 5% and 3% of our total revenues in 2018, respectively, and contributed 32%, 36%, 9%, 3%, 10%, 5% and 3% in 2019, respectively.

Cost of revenues

The following table sets forth the components of our cost of revenues by amounts and percentages of cost of revenues for the periods presented:

	For the Year Ended December 31,					
	2017		2018		2019	
	US\$	%	US\$	%	US\$	%
	(in thousands, except for percentages)					
Cost of revenues:						
Cost of services	(40,621)	72.1	(46,074)	57.4	(35,594)	38.1
Cost of products sold	(15,692)	27.9	(34,170)	42.6	(57,869)	61.9
Total cost of revenues	(56,313)	100.0	(80,244)	100.0	(93,463)	100.0

Cost of revenue consists primarily of data connectivity service costs, cost of inventory, logistics costs, depreciation and maintenance costs for equipment, product replacement costs, payment processing fees and other related incidental expenses that are directly attributable to our principal operations.

Cost of services. Cost of services consists primarily of (i) expenditure on data procurement to support uCloudlink 1.0 and 2.0 models, and (ii) depreciations of our *GlocalMe* portable Wi-Fi terminals mainly under the *Roamingman* brand.

Cost of products sold. Cost of products sold consists primarily of (i) hardware procurement cost, outsourcing processing fees and shipping costs related to our terminals, and (ii) procurement costs related to overseas SIM cards.

Gross profit and gross margin

For the years of assessment 2016/2017 and 2017/2018, our subsidiaries in Hong Kong were subject to 16.5% Hong Kong profit tax on their taxable income generated from operations in Hong Kong. Additionally, payments of dividends by our subsidiary incorporated in Hong Kong to the Company is not subject to any Hong Kong withholding tax.

PRC

Generally, our PRC subsidiaries, VIEs and their subsidiaries are subject to enterprise income tax on their taxable income in China at a statutory rate of 25%. The enterprise income tax is calculated based on the entity's global income as determined under PRC tax laws and accounting standards.

Shenzhen Ucloudlink Technology Limited and Shenzhen uCloudlink qualified as national high and new technology enterprises, or HNTE, in 2017, which are entitled to preferential tax rate to 15%. Their HNTE status is set to expire on August 16, 2020. In addition, Shenzhen Ucloudlink Technology Limited and Shenzhen uCloudlink enjoy other tax preferences, including the tax preference as the small and medium-sized technology-based enterprises.

Dividends paid by our wholly foreign-owned subsidiary in China to our intermediary holding company in Hong Kong will be subject to a withholding tax rate of 10%, unless the relevant Hong Kong entity satisfies all the requirements under the Arrangement between China and the Hong Kong Special Administrative Region on the Avoidance of Double Taxation and Prevention of Fiscal Evasion with respect to Taxes on Income and Capital and receives approval from the relevant tax authority. If our Hong Kong subsidiary satisfies all the requirements under the tax arrangement and receives approval from the relevant tax authority, then the dividends paid to the Hong Kong subsidiary would be subject to withholding tax at the standard rate of 5%. The Measures for the Administration of Non-Resident Taxpayers' Enjoyment of the Treatment under Tax Agreements, which was promulgated by the STA on August 27, 2015 and became effective on November 1, 2015, abolished the former approval requirement, but a Hong Kong entity is still required to file application package with the relevant tax authority, and settle the overdue taxes if the preferential 5% tax rate is denied based on the subsequent review of the application package by the relevant tax authority. See "Risk Factors—Risks Related to Doing Business in China—We may rely on dividends and other distributions on equity paid by our PRC subsidiaries to fund any cash and financing requirements we may have, and any limitation on the ability of our PRC subsidiaries to make payments to us and any tax we are required to pay could have a material adverse effect on our ability to conduct our business."

If our holding company in the Cayman Islands or any of our subsidiaries outside of China were deemed to be a "resident enterprise" under the PRC Enterprise Income Tax Law, it would be subject to enterprise income tax on its worldwide income at a rate of 25%. See "Risk Factors—Risks Related to Doing Business in China—If we are classified as a PRC resident enterprise for PRC income tax purposes, such classification could result in unfavorable tax consequences to us and our non-PRC noteholders, shareholders or ADS holders."

Revenues

Our revenues increased by 25.3% from US\$126.4 million in 2018 to US\$158.4 million in 2019. This increase was mainly attributable to the increase in revenues from sales of products.

Revenues from Services. Our revenues from services increased by 3.0% from US\$88.4 million in 2018 to US\$91.1 million in 2019, which was primarily attributable to the increase in revenues from PaaS and SaaS services, partially offset by the decrease in revenues from data connectivity services.

- Our revenues from data connectivity services decreased slightly by 2.4% from US\$82.5 million in 2018 to US\$80.5 million in 2019. This decrease was primarily attributable to the decrease in revenues from international data connectivity services by 4.9% from US\$82.0 million in 2018 to US\$78.0 million in 2019, partially offset by the increase in revenues from local data connectivity services by

401.6% from US\$0.5 million to US\$2.5 million. The decrease in revenues from international data connectivity services was mainly due to (i) the shift in our distribution channels for Roamingman products away from agent sales to online sales, counters and airlines, resulting in slightly lower volume but at a higher gross profit margin, (ii) the shift in structure of target destinations with higher contribution by short-haul destinations, (iii) general economic conditions, including the decrease in outbound travelers from China, and (iv) RMB depreciation against US\$ (reporting currency) during the period. The increase in revenues from local data connectivity services was mainly due to the increase of such revenue from a major customer in Japan.

- Our revenues from PaaS and SaaS services increased by 81.0% from US\$5.0 million in 2018 to US\$9.1 million in 2019. This increase was primarily attributable to the increasing demand from our partners using our platform services.

Sales of Products. Our revenues from sales of products increased by 77.3% from US\$38.0 million in 2018 to US\$67.3 million in 2019, which was primarily attributable to the increase in revenues from sales of terminals.

- Our revenues from sales of terminals increased by 114.4% from US\$25.6 million in 2018 to US\$54.9 million in 2019, mainly due to the increase in sales volume of portable Wi-Fi terminals and smartphones under other brands with GMI application installed.
- Our revenues from sales of data related products was US\$12.1 million and US\$12.0 million in 2018 and 2019, respectively.

Cost of revenues

Our cost of revenues increased by 16.5% from US\$80.2 million in 2018 to US\$93.5 million in 2019. The increase was attributable to an increase in cost of products sold, partially offset by a decrease in cost of services.

- Our cost of services decreased by 22.7% from US\$46.1 million in 2018 to US\$35.6 million in 2019, primarily due to our success in negotiating better prices for our data procurement from major suppliers and to improve data operation efficiencies of our SIM bank.
- Our cost of products sold increased by 69.4% from US\$34.2 million in 2018 to US\$57.9 million in 2019, primarily due to the rapid growth of sales from portable Wi-Fi terminals and smartphones under other brands with GMI application installed, partially offset by our efforts to lower procurement cost of products.

Gross profit and margin

As a result of the foregoing, our total gross profit increased by 40.7% from US\$46.2 million in 2018 to US\$64.9 million in 2019. Our gross margin improved from 36.5% in 2018 to 41.0% in 2019.

Operating expenses

Research and development expenses. Our research and development expenses decreased by 25.9% from US\$20.4 million in 2018 to US\$15.1 million in 2019. The decrease was primarily due to (i) a decrease of US\$3.5 million in payroll costs in connection with headcount adjustment, and (ii) a decrease of US\$1.5 million in mobile terminals testing and certification expenses.

Sales and marketing expenses. Our sales and marketing expenses decreased by 17.8% from US\$29.7 million in 2018 to US\$24.4 million in 2019. General and administrative expenses. Our general and administrative expenses increased by 1.5% from US\$19.9 million in 2018 to US\$20.2 million in 2019. The increase was primarily due to an increase of expenses incurred in connection with litigation and legal fees from US\$2.4 million in 2018 to US\$7.1 million in 2019, partially offset by a decrease in share-based compensation expenses.

Our overall results of operations fluctuate from quarter to quarter as a result of a variety of factors, including commencement of new partnerships and the ordering schedule of our business partners, seasonal factors and the launch of new products or new generations of existing products.

We expect our quarterly performance continues to be affected by seasonal trends, behavior of consumers, economic conditions, market competition and our operational decisions. Consequently, the results of any prior quarterly or annual period should not be relied upon as indications of our future operating performance. As we continue to expand internationally, we could reduce the degree to which we are subject to seasonality in specific markets. See also “Risk Factors—Risks Related to Our Business—Our results of operations are likely to fluctuate because of seasonality in the travel industry” and “Risk Factors—Risks Related to Our Business—We face risks related to natural disasters, terrorist acts or acts of war, social unrest, health epidemics or other public safety concerns or hostile events, which could significantly disrupt our operations.”

To date, we have financed our operating and investing activities through cash generated by historical equity and equity-linked financing activities and borrowings from financial institutions. In April and May 2017, we issued convertible bonds with face value of US\$55 million and US\$15 million, respectively, to our new investors. The bonds bear an interest at a rate of 8% per annum on the US\$55 million basis and interest shall be paid every six months. The bonds shall mature in three years from the date of issue, and may be converted into ordinary shares of our company at predetermined ratio by the holder before the maturity date. All outstanding principal and accrued interest of convertible bonds were automatically converted to 35,004,220 ordinary shares of our Company on August 28, 2018, upon the occurrence of the event of automatic conversion, being our revenues having achieved over RMB500 million in the year ended December 31, 2017.

We have the following borrowings:

- In February 2018, we obtained a one-year short-term bank borrowing of RMB4.0 million (US\$0.6 million) from a commercial bank, bearing interest at a rate of 6.6% per annum. As of December 31, 2018 and 2019, the outstanding balance of this loan was RMB2.7 million (US\$0.4 million) and nil, respectively. We have fully repaid the loan.
- In March 2018, we obtained a one-year short-term bank borrowing of RMB8.0 million (US\$1.1 million) from a commercial bank, bearing interest at a rate of 6.1% per annum. As of December 31, 2018 and 2019, the outstanding balance of this loan was RMB4.9 million (US\$0.7 million) and nil, respectively. We have fully repaid the loan.
- In November 2018, we entered into a two-year financing agreement with a third-party finance lease company amounting to RMB30.0 million (US\$4.3 million), with equivalent amount of accounts receivable pledged by us as collateral. The interest rate is 9% per annum. As of December 31, 2018 and 2019, the outstanding balance of this borrowing was RMB27.7 million (US\$4.0 million) and RMB12.5 million (US\$1.8 million), respectively.
- In January 2019, we entered into a series of short-term loan agreements with a commercial bank amounting to US\$3.8 million for working capital and business development purposes. These short-term bank borrowings bear interest at a rate of 6.5% per annum. As of December 31, 2019, the aggregate outstanding balance of these loans was US\$2.9 million.
- In August 2019, we obtained a one-year short-term bank borrowing of RMB8.0 million (US\$1.1 million) from a commercial bank, bearing interest at a rate of 5.655% per annum. As of December 31, 2019, the outstanding balance of this loan was RMB7.0 million (US\$1.0 million).

[Table of Contents](#)

- In September 2019, we obtained a one-year short-term bank borrowing of RMB8.0 million (US\$1.1 million) from a commercial bank, bearing interest at a rate of 6.09% per annum. As of December 31, 2019, the outstanding balance of this loan was RMB7.0 million (US\$1.0 million).

As of December 31, 2017, 2018 and 2019, our cash and cash equivalents were US\$49.1 million, US\$36.5 million and US\$37.3 million, respectively. Our cash and cash equivalents primarily consist of cash on hand, cash held at bank, and time deposits placed with banks which have original maturities of three months or less.

As of December 31, 2019, US\$11.8 million of our cash and cash equivalents was held in U.S. dollars, US\$13.8 million was held in Renminbi, US\$0.6 million was held in Hong Kong dollars, and US\$11.1 million was held in other currencies. As of December 31, 2019, 36.2% of our cash and cash equivalents were held in China, and 13.1% were held by our VIEs. Although we consolidate the results of our VIE and its subsidiary, we only have access to the assets or earnings of our VIE and their subsidiary through our contractual arrangements with our VIE and their shareholders. See “Corporate History and Structure—Contractual Arrangements with Our VIEs and Their Respective Shareholders.”

We believe that our current cash and cash equivalents will be sufficient to meet our anticipated working capital requirements and capital expenditures for at least the next 12 months. However, due to the outbreak of COVID-19, we anticipate that a reduction in revenue will result in reduction in cash flow generated from operations. We will evaluate our financial and cash flow positions from time to time and intend to mitigate liquidity risk by implementing operational measures such as costs cutting and reducing investment in capital expenditures. As our data centers or server rooms are leased, the capital needs related to our operations are limited. Total capital expenditures only accounted for 4.0% and 1.8% of our total revenues in 2018 and 2019, respectively, and we do not expect significant increase in capital needs related to property, plant and equipment. We believe that we are financially flexible enough to address future capital needs related to research and development and other key investments to expand and strengthen our operations. In addition to the proceeds from this offering, we believe that the increase of our operating cash flow and our low debt-to-equity ratio offer us additional flexibility to increase and diversify our capital resources in the long term. After this offering, we may decide to enhance our liquidity position or increase our cash reserve for future investments through additional capital and finance funding. The issuance and sale of additional equity would result in further dilution to our shareholders. The incurrence of indebtedness would result in increased fixed obligations and could result in operating covenants that would restrict our operations. We cannot assure you that financing will be available in amounts or on terms acceptable to us, if at all.

Our accounts receivable represent primarily accounts receivable from customers and business partners to whom we rendered services or sold products. As of December 31, 2017, 2018 and 2019, our accounts receivable, net of allowance for doubtful accounts, were US\$13.7 million, US\$16.6 million and US\$25.8 million, respectively. The increase was primarily due to the increase in services we provided and products we sold. Our accounts receivable turnover days increased from 41.4 days in 2017 to 43.8 days in 2018, and further to 48.9 days in 2019, which was primarily due to special credit term extension for some strategic business partners. Accounts receivable turnover days for a given period are equal to average balances of accounts receivable, net of allowance for doubtful accounts, at the beginning and the end of the period divided by revenues during the period and multiplied by the number of days during the period.

Our accounts payable represent primarily accounts payable to hardware suppliers and mobile data allowance providers. As of December 31, 2017, 2018 and 2019, our accounts payable were US\$10.3 million, US\$12.7 million and US\$16.7 million, respectively. The increase was primarily due to the increase in purchase of raw materials and procurement of data. Our accounts payable turnover days increased from 48.8 days in 2017 to 52.2 days in 2018, and further to 57.4 days in 2019, which was primarily due to the higher volume of procurement of hardware products in December. Accounts payable turnover days for a given period are equal to

In utilizing the proceeds we expect to receive from this offering, we may make additional capital contributions to our PRC subsidiaries, establish new PRC subsidiaries and make capital contributions to these new PRC subsidiaries, make loans to our PRC subsidiaries, or acquire offshore entities with operations in China in offshore transactions. However, most of these uses are subject to PRC regulations. See “Risk Factors—Risks Related to Doing Business in China—PRC regulation of loans to and direct investment in PRC entities by offshore holding companies and governmental control of currency conversion may delay or prevent us from using the proceeds of any financing outside China to make loans to or make additional capital contributions to our PRC subsidiaries and VIEs, which could materially and adversely affect our liquidity and our ability to fund and expand our business” and “Use of Proceeds.”

Operating activities

Net cash generated from operating activities in 2019 was US\$5.8 million. The difference between net cash generated from operating activities and net income of US\$5.2 million in the same period was primarily due to (i) the increase of US\$6.3 million of accrued expenses, accounts payable and other liabilities, (ii) the US\$3.0 million of depreciation of property and equipment, and (iii) the decrease of US\$2.6 million of prepayments, receivables and other assets. The accrued expenses, accounts payable and other liabilities mainly include accounts payable to suppliers, and accrued bonus and staff costs. Such difference is partially offset by (i) the increase of US\$9.3 million of accounts receivables, (ii) the decrease of US\$1.9 million of amounts due to related parties and (iii) the decrease of US\$2.0 million of contract liabilities representing cash collected upfront from the customers for purchase of our services and products.

Net cash used in operating activities in 2018 was US\$19.5 million. The difference between net cash used in operating activities and net loss of US\$26.6 million in the same year was primarily due to (i) the increase of US\$3.6 million of accrued expenses, accounts payable and other liabilities, (ii) the US\$5.2 million of depreciation of property and equipment, and (iii) the share-based compensation of US\$2.3 million. Such difference is partially offset by the increase of US\$7.8 million of inventories, the increase of US\$3.1 million of accounts receivables and the increase of US\$2.3 million of prepayments and other current assets, which mainly include prepayment to suppliers, deposits to sales counters and export tax receivable.

Net cash used in operating activities in 2017 was US\$7.2 million. The difference between net cash used in operating activities and net loss of US\$19.3 million in the same year was primarily due to (i) the increase of US\$13.8 million of accrued expenses, accounts payable and other liabilities, (ii) the share-based compensation of US\$5.6 million, and (iii) US\$5.7 million of depreciation of property and equipment. Such difference is partially offset by the increase of US\$8.0 million of accounts receivables, and the increase of US\$3.8 million of inventories.

Investing activities

Net cash used in investing activities in 2019 was US\$3.3 million, primarily due to the purchase of property and equipment of US\$2.8 million, and cash paid for long-term investment of US\$0.4 million in a licensed mobile virtual network operator primarily engaged in telecommunications related business.

Net cash used in investing activities in 2018 was US\$4.6 million, primarily due to purchase of property and equipment of US\$4.5 million, which was partially offset by proceeds from disposal of property and equipment of US\$1.0 million.

Net cash used in investing activities in 2017 was US\$5.0 million, primarily due to purchase of property and equipment of US\$6.7 million, which was partially offset by proceeds from disposal of short-term investment of US\$1.3 million.

Financing activities

Net cash generated from financing activities in 2019 was US\$1.5 million, primarily due to proceeds from bank borrowings of US\$9.0 million, which was partially offset by repayment of bank borrowings of US\$5.2 million and repayment of other borrowings of US\$2.2 million.

Net cash generated from financing activities in 2018 was US\$4.4 million, primarily due to proceeds from bank borrowings of US\$6.1 million and cash received from long-term borrowing of US\$4.4 million, which was partially offset by repayments of bank borrowings of US\$5.8 million.

Net cash generated from financing activities in 2017 was US\$59.4 million, primarily due to proceeds from issuance of convertible bonds of US\$70.0 million and proceeds from bank borrowings of US\$6.5 million, which was partially offset by repurchase of series A-1 ordinary shares of US\$8.3 million, and repayments of bank borrowings of US\$8.2 million.

Capital expenditures

Our capital expenditures are primarily incurred for purchases of intangible assets, property and equipment. Our capital expenditures were US\$6.7 million, US\$5.1 million and US\$2.8 million in 2017, 2018 and 2019, respectively. The decrease in capital expenditure is primarily due to the accumulation of *Roamingman* devices to support efficient business operation. We intend to fund our future capital expenditures with our existing cash balance and proceeds from this offering. We will continue to make capital expenditures to meet the expected growth of our business.

Contractual obligations

The following table sets forth our contractual obligations as of December 31, 2019:

Total	14,646	14,257	341	48	—

Note: (1) Operating lease obligations consist of the obligations under non-cancellable operating lease agreements covering various facilities.

Other than as shown above, we did not have any significant capital and other commitments, long-term obligations or guarantees as of December 31, 2019.

Off-Balance Sheet Commitments and Arrangements

We have not entered into any financial guarantees or other commitments to guarantee the payment obligations of any third parties. In addition, we have not entered into any derivative contracts that are indexed to our shares and classified as shareholder's equity or that are not reflected in our consolidated financial statements. Furthermore, we do not have any retained or contingent interest in assets transferred to an unconsolidated entity that serves as credit, liquidity or market risk support to such entity. We do not have any variable interest in any unconsolidated entity that provides financing, liquidity, market risk or credit support to us or engages in leasing, hedging or product development services with us.

Critical Accounting Policies

We prepare our financial statements in conformity with U.S. GAAP, which requires us to make judgments, estimates and assumptions. We continually evaluate these estimates and assumptions based on the most recently available information, our own historical experiences and various other assumptions that we believe to be reasonable under the circumstances. Since the use of estimates is an integral component of the financial reporting process, actual results could differ from our expectations as a result of changes in our estimates. Some of our accounting policies require a higher degree of judgment than others in their application and require us to make significant accounting estimates.

The following descriptions of critical accounting policies, judgments and estimates should be read in conjunction with our consolidated financial statements and other disclosures included in this prospectus. The selection of critical accounting policies, the judgments and other uncertainties affecting application of those policies and the sensitivity of reported results to changes in conditions and assumptions are factors that should be considered when reviewing our financial statements. We believe the following accounting policies involve the most significant judgments and estimates used in the preparation of our financial statements.

Basis of Consolidation

A subsidiary is an entity in which (i) we directly or indirectly control more than 50% of the voting power; or (ii) we have the power to appoint or remove the majority of the members of the board of directors or to cast a majority of votes at the meeting of the board of directors or to govern the financial and operating policies of the investee pursuant to a statute or under an agreement among the shareholders or equity holders. A VIE is required to be consolidated by the primary beneficiary of the entity if the equity holders in the entity do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties.

All transactions and balances among us, our subsidiaries, the VIEs and their subsidiaries have been eliminated upon consolidation.

Revenue recognition

Revenue is principally generated by the provision of data connectivity services, the sales of terminals and sales of data related products. Revenue represents the fair value of the consideration received or receivable for the sales of goods and the provision of services in the ordinary course of our business activities and is recorded net of value-added tax, or VAT. We recognize revenue in accordance with ASC 606 "Revenue from Contracts with Customers" for all years presented with full retrospective method.

We conduct our business through various contractual arrangements, including:

(i) Data connectivity services

We generate international data connectivity services revenues from (i) data service fees from the use of portable Wi-Fi services under *Roamingman* brand, (ii) data service fees generated from sales of data connectivity services to business partners, and (iii) retail sales of data connectivity services.

We also generate local data connectivity services revenues from (i) data service fees generated from sales of data connectivity services to business partners and (ii) retail sales of data connectivity services.

For data connectivity services from the use of portable Wi-Fi terminals, we determine that the arrangement involves the leasing of portable Wi-Fi terminals with data connectivity services embedded. We determine that we are the lessor in the arrangement which contains an equipment lease component and a service non-lease component. We further determine that lease component is an operating lease under ASC 840, and that the

[Table of Contents](#)

operating lease component and service component are delivered over the same time and pattern. Therefore, the lease income and service income are recognized as data connectivity services revenue evenly over the service period.

We evaluate and determine that we are the principal. For data connectivity services from the use of portable Wi-Fi terminals and retail sales of data connectivity services, we view users as our customers. For data connectivity services generated from sales of data connectivity services to enterprises customers, we view enterprise customers as our customers. We report data connectivity services revenues on gross basis. Accordingly, the amounts paid for data connectivity services by customers are recorded as revenues and the related commission fees paid to our agents (mainly travel agents and other online distributors) are recorded as cost of revenues. Where we are the principal, we control the data before the data connectivity service is provided to customers. Such control is evidenced by the inventory risk borne by us and our ability to direct the use of data, and is further supported by our responsibility to customers and discretion in establishing pricing.

Data connectivity services offered to customers typically provide unlimited data usage during a fixed period of time (“contract period”), where revenue is recognized ratably on a straight-line basis over the contract period. We do not have further performance obligations to the customers after the contract period. We also offer data connectivity services where users are charged service fee based on actual data usage, where revenue is recognized as the services are provided to customers.

In providing data connectivity services to our customers, we procure SIM cards and data plans from various suppliers. Those SIM cards are activated and hosted on our cloud SIM platform. Our cloud SIM platform manages terminal information and customer accounts and intelligently allocates the SIM cards and data plans and makes them available to customers who purchase our data connectivity services. Accordingly, we take inventory risk and obtains control of the SIM cards and data plans procured and direct the use of the data on its cloud SIM platform depending on customers’ demand. We account for the SIM cards and data plans procured as costs of revenue as data is being made available and consumed on its cloud SIM platform.

As our data connectivity services are provided without right of return and we do not provide any other credit and incentive to our customers, therefore, the provision of data connectivity services does not involve variable consideration.

(ii) Sales of terminals and data related products

We generate revenues from selling tangible products, including *GlocalMe* portable Wi-Fi terminals, *GlocalMe* World Phone series and smartphone with GMI implemented, SIM cards, to enterprise and retail customers and business partners. Sales of terminals and data related products are recognized when control of promised goods is transferred to the customers, which generally occurs upon the acceptance of the goods by the customers.

For sales of Wi-Fi terminals, one gigabyte of free data connectivity service is normally included as a bundle package for the first time purchase of the terminals. There are two separate performance obligations in such bundle sales as the Wi-Fi terminals is a distinct good while the data connectivity service is a distinct service. We allocate the transaction price to each distinct performance obligation based on their relative standalone selling prices. We then recognize revenue for each of the distinct performance obligations identified in accordance with the applicable revenue recognition method relevant for that obligation. For revenue related to the Wi-Fi terminals, revenue is recognized when the control of the Wi-Fi terminals is transferred. For revenue related to the data connectivity service, revenue is recognized ratably on a straight line basis over the contract period.

(iii) PaaS or SaaS services

PaaS or SaaS mainly consist of fees generated from providing cloud SIM platform as a service to business partners and other ancillary platform services. We provide our cloud SIM platform as a service to business

[Table of Contents](#)

partners enabling them to manage their data resources. Business partners using the platform are charged service fees for the use of the cloud SIM platform services. We have continuous obligation to ensure the performance of the platform over the service period. Revenue is recognized ratably over the contract period as business partners simultaneously consume and receive benefits from the service.

(iv) Contract balance

Contract liabilities represent the cash collected upfront from the customers for purchase of data connectivity services or purchase of Wi-Fi terminals, while the underlying data connectivity services have not yet been rendered or the Wi-Fi terminals have not been delivered to the customers by us, which is included in the presentation of contract liabilities.

Due to the generally short-term duration of the relevant contracts, all performance obligations are satisfied within one year. Where transaction prices for data connectivity services and Wi-Fi terminals are received upfront from the customers, such receipts are recorded as contract liabilities and recognized as revenues over the contract period. For the years ended December 31, 2017, 2018 and 2019, revenue amounting to approximately US\$2.9 million, US\$2.5 million and US\$3.9 million were included in the contract liabilities balance at the beginning of the respective period.

Income taxes

We account for income taxes using the liability method, under which deferred income taxes are recognized for future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred taxes of a change in tax rates is recognized as income or expense in the period that includes the enactment date. Valuation allowance is provided on deferred tax assets to the extent that it is more likely than not that the asset will not be realizable in the foreseeable future.

Deferred taxes are also recognized on the undistributed earnings of subsidiaries, which are presumed to be transferred to the parent company and are subject to withholding taxes, unless there is sufficient evidence to show that the subsidiary has invested or will invest the undistributed earnings indefinitely or that the earnings will be remitted in a tax-free liquidation.

We adopt ASC 740 “income taxes” which prescribes a more likely than not threshold for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. It also provides guidance on derecognition of income tax assets and liabilities, classification of current and deferred income tax assets and liabilities, accounting for interest and penalties associated with tax positions, accounting for income taxes in interim periods and income tax disclosures.

Share-based compensation and fair value of ordinary shares

Share-based compensation expenses arise from share based awards, mainly including Restricted Shares held by certain senior management (namely, Mr. Chaohui Chen, Mr. Zhiping Peng and Mr. Wen Gao) and share options awarded to employees in accordance with ASC 718 Stock Compensation. We follow ASC 718 to determine whether share option or restricted shares should be classified and accounted for as a liability award or equity award. All grants of share-based awards to employees and directors classified as equity awards are recognized in the financial statements based on their grant date fair values which are calculated using an option pricing model. We classify the share-based awards granted to employees as equity award, and have elected to recognize compensation expense on share-based awards with service condition on a graded vesting basis over the requisite service period, which is generally the vesting period.

We entered into a share restriction agreement with certain senior management and their respective wholly owned companies, which directly hold our equity interest. Pursuant to the share restriction agreement, all of our ordinary shares, or Restricted Shares, held by certain senior management shall be subject to vesting conditions

[Table of Contents](#)

until the Restricted Shares become vested. The Restricted Shares were classified as equity awards under ASC 718 and are accounted for as share-based compensation based on the grant date fair value over the vesting period using graded vesting method.

For share options awarded to employees, we apply the binominal option pricing model in determining the fair value of options granted under ASC 718. We have elected to account for forfeitures when they occur.

On each measurement date, we review internal and external sources of information to assist in the estimation of various attributes to determine the fair value of the share-based awards we granted, including the fair value of the underlying shares, expected life and expected volatility. We are required to consider many factors and makes certain assumptions during this assessment. If any of the assumptions used to determine the fair value of the share-based awards change significantly in the future, share-based compensation expense may differ materially.

In determining the grant date fair value of our ordinary shares for purposes of (i) assessing whether there is a beneficial conversion feature in connection with our convertible bond issued in April 2017 and (ii) determining share-based compensation expenses in connection with share options granted under the 2018 Stock Option Scheme, we, with the assistance of an independent external valuer, evaluated the use of income approach / discounted cash flow, or DCF method.

DCF method of the income approach involves applying appropriate weighted average cost of capital, or WACC, to discount the future cash flows forecast, based on our best estimates as of the valuation date, to present value. The WACC was determined based on a consideration of the factors including risk-free rate, comparative industry risk, equity risk premium, company size and non-systematic risk factors.

In deriving the equity value of each class of shares, we applied the option pricing method, which treats different classes of shares as call options on the total equity value, with exercise prices based on the liquidation preference or redemption amount of the relevant classes of shares. Under this method, the ordinary share has value only if the fund available for distribution to shareholders exceeds the value of liquidation preference or redemption amounts at the time of a liquidity event, assuming the enterprise has funds available to pay for liquidation preference or redemption. Given the nature of the different classes of shares, the modelling of different classes of capital as call options on company's enterprise value is analyzed and the values of different classes of shares were derived accordingly.

We also applied a discount for lack of marketability, which assumed that the put option is struck at the average price of the stock before the privately held shares can be sold, the cost of the put option was considered as a basis to determine such discount for lack of marketability.

The determination of the equity value requires complex and subjective judgments to be made regarding prospects of the industry and the products at the valuation date, our projected financial and operating results, our unique business risks and the liquidity of our shares.

We have therefore estimated, with assistance from an independent external valuer, the fair value of our ordinary shares at certain dates for the periods presented to determine the fair value of our ordinary shares as of the issuance date of our convertible notes and the grant date of share-based compensation awards related to share options under the 2018 Stock Option Scheme as one of the inputs into determining the fair value of the awards as of the grant date.

<u>Date of Grant</u>	<u>Fair value per Ordinary Share</u>	<u>Discount for Lack of Marketability</u>	<u>Discount Rate</u>	<u>Type of Valuation</u>
April 21, 2017	US\$ 1.99	25.00%	18.35%	Contemporaneous
December 31, 2018	US\$ 3.64	13.63%	18.13%	Contemporaneous
August 12, 2019	US\$ 3.48	12.31%	16.22%	Contemporaneous

[Table of Contents](#)

The determined fair value of our ordinary shares increased from US\$1.99 per share as of April 21, 2017 to US\$3.64 per share as of December 31, 2018. We believe the increase in the fair value of our ordinary shares was primarily attributable to the following factors:

- Our revenues grew significantly from US\$85.8 million in 2017 to US\$126.4 million in 2018, representing a 47.2% annual growth rate;
- As we progressed towards an initial public offering, the lead time to an expected liquidity event decreased, resulting in a decrease of discount for lack of marketability from 25.00% as of April 21, 2017 to 13.63% as of December 31, 2018;
- As a result of milestone events described above and the growth of our business, the discount rate decreased from 18.35% as of April 21, 2017 to 18.13% as of December 31, 2018; and
- We adjusted our financial forecast to reflect the anticipated higher revenue growth rate and improved financial performance in the future due to the abovementioned developments.

Internal Control Over Financial Reporting

Prior to this offering, we have been a private company with limited accounting personnel and other resources with which we address our internal control over financial reporting. In connection with the audits of our consolidated financial statements as of and for the years ended December 31, 2017, 2018 and 2019, we and our independent registered public accounting firm identified two material weaknesses in our internal control over financial reporting. As defined in the standards established by the U.S. Public Company Accounting Oversight Board, a “material weakness” is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the annual or interim financial statements will not be prevented or detected on a timely basis.

The material weaknesses that have been identified relate to our (i) lack of sufficient resources regarding financial reporting and accounting personnel in the application of U.S. GAAP and the reporting requirements set forth by the SEC, and (ii) lack of comprehensive U.S. GAAP accounting policies and financial reporting procedures. The material weaknesses, if not timely remedied, may lead to significant misstatements in our consolidated financial statements in the future.

To remedy identified material weaknesses, we have implemented, and plan to continue to implement, several measures, including, among others:

- hiring additional competent and qualified accounting and reporting personnel with appropriate knowledge and experience of U.S. GAAP and SEC financial reporting requirements;
- establishing an ongoing program to provide sufficient and additional appropriate training to our accounting staff, especially trainings related to U.S. GAAP and SEC financial reporting requirements; and
- formulating internal accounting and internal control guidance on U.S. GAAP and SEC financial reporting requirements.

However, we cannot assure you that all these measures will be sufficient to remediate our material weaknesses in a timely manner, or at all. See “Risk Factors—Risks Related to Our Business and Industry—In connection with the audits of our consolidated financial statements included in this prospectus, we and our independent registered public accounting firm identified two material weaknesses in our internal control over financial reporting. If we fail to develop and maintain an effective system of internal control over financial reporting, we may be unable to accurately report our financial results or prevent fraud.”

As a company with less than US\$1.07 billion in revenue for fiscal year of 2019, we qualify as an “emerging growth company” pursuant to the JOBS Act. An emerging growth company may take advantage of specified

reduced reporting and other requirements that are otherwise applicable generally to public companies. These provisions include exemption from the auditor attestation requirement under Section 404 of the Sarbanes-Oxley Act of 2002 in the assessment of the emerging growth company's internal control over financial reporting.

Quantitative and Qualitative Disclosures about Market Risk

Foreign exchange risk

We transact business globally in multiple currencies. Our international revenue, as well as costs and expenses denominated in foreign currencies, expose us to the risk of fluctuations in foreign currency exchange rates against the U.S. dollar. We have foreign currency risks related to our revenue and operating expenses denominated in currencies other than the U.S. dollar, including Renminbi, the Hong Kong dollar, and Japanese Yen. Accordingly, changes in exchange rates in the future may negatively affect our future revenue and other operating results as expressed in U.S. dollars. Our foreign currency risk is partially mitigated as our revenue recognized in currencies other than the U.S. dollar is diversified across geographic regions and we incur expenses in the same currencies in these regions. We have not used any derivative financial instruments to hedge exposure to such risk.

In addition, our foreign exchange risk is further mitigated since Hong Kong dollars are pegged against U.S. dollars. To the extent we need to convert U.S. dollars into Hong Kong dollars for our operations, appreciation of Hong Kong dollar against the U.S. dollar would reduce the amount in Hong Kong dollars we receive from the conversion. Conversely, if we decide to convert Hong Kong dollars into U.S. dollars for the purpose of making payments for servicing our outstanding debt, or for other business purposes, appreciation of the U.S. dollar against the Hong Kong dollar would reduce the U.S. dollar amounts available to us.

The value of U.S. dollar against Renminbi may fluctuate and is affected by, among other things, changes in political and economic conditions and the foreign exchange policy adopted by the PRC government. The Renminbi is not freely convertible into foreign currencies. Remittances of foreign currencies into the PRC or remittances of Renminbi out of the PRC as well as exchange between Renminbi and foreign currencies require approval by foreign exchange administrative authorities and certain supporting documentation. The State Administration for Foreign Exchange, under the authority of the People's Bank of China, controls the conversion of Renminbi into other currencies. To the extent that we need to convert U.S. dollars into Renminbi for our operations, appreciation of Renminbi against the U.S. dollar would reduce the Renminbi amount we receive from the conversion. Conversely, if we decide to convert Renminbi into U.S. dollars for the purpose of making payments for dividends on our ordinary shares or ADSs, servicing our outstanding debt, or for other business purposes, appreciation of the U.S. dollar against the Renminbi would reduce the U.S. dollar amounts available to us.

Interest rate risk

Our exposure to interest rate risk primarily relates to the interest income generated by excess cash, which is mostly held in interest-bearing bank deposits. Interest-earning instruments carry a degree of interest rate risk. We have not been exposed to material risks due to changes in interest rates, and we have not used any derivative financial instruments to manage our interest risk exposure.

After completion of this offering, we may invest the net proceeds we receive from the offering in interest-earning instruments. Investments in both fixed rate and floating rate interest earning instruments carry a degree of interest rate risk. Fixed rate securities may have their fair market value adversely impacted due to a rise in interest rates, while floating rate securities may produce less income than expected if interest rates fall.

Our Market Opportunity

Increasing adoption of mobile data services globally

We believe that mobile data traffic has become of utility-like importance for economies and society today. Adoption of mobile technologies has increased significantly across industries and daily life situations in addition to simple internet browsing and basic communications. Key areas include but not limited to shopping (e-commerce), healthcare (mobile examination and assessment), entertainment (digital content streaming), home applications (connected-home), education (integrated and interactive education content), manufacturing (smart machinery) and more. As a result, mobile data usage per user globally experienced tremendous growth, increasing from 0.6 GB/month in 2014 to 3.9 GB/month in 2018, representing a CAGR of 59.7%, which is estimated to grow further at a CAGR of 37.3% to 19.0 GB/month in 2023, according to Frost & Sullivan. In addition, as a result of enhanced telecommunication infrastructure and networks, as well as digitization, data demand from the machine-to-machine, or M2M, IoT industry also reached 4.1 exabytes in 2018, recording a CAGR of 78.9% since 2014, and Frost & Sullivan estimated that it would grow further at a CAGR of 46.6% to 27.8 exabytes by 2023. The total number of M2M IoT devices connected also increased from 245 million in 2014 to 750 million in 2018, representing a CAGR of 32.3%, and expected to grow further at a CAGR of 8.4% to 1,122 million in 2023. This massive increase of connected devices globally will require new connectivity solutions for users, hardware vendors and carriers as traditional SIM model will gradually become increasingly less practical. With our bold mission supported by our innovative cloud SIM technology and architecture, we believe we are able to capitalize on this massive industry opportunity.

The mobile data connectivity service industry is a large and stable growing industry globally. It consists primarily of international mobile data connectivity services and local mobile data connectivity services used by mobile data users and M2M IoT devices. According to Frost & Sullivan, the total revenue generated from the global mobile data connectivity service industry by mobile data users increased from US\$549 billion in 2014 to US\$854 billion in 2018, representing a CAGR of 11.7%, which is estimated to grow further at a CAGR of 7.2% to US\$1,210 billion in 2023. This includes the local data connectivity market, the international roaming market as well as the global M2M IoT market.

The respective market size and growth rate are shown in the diagram below.

Local mobile data connectivity, international data roaming, M2M IoT market size, 2014-2023E

Source: Frost & Sullivan Report

- Notes:
- (1) Local mobile data connectivity services refers to mobile data connectivity services provided by local service providers, such as mobile network operators, or MNOs, or other mobile data connectivity service providers to local mobile data users within a designated local geographical coverage area.
 - (2) International data roaming refers to mobile data connectivity services provided to mobile data users when they travel outside of their local network coverage area. Includes services provided by OTT MVNOs through technologies such as cloud SIM.
 - (3) IoT is a system of interrelated computing devices, mechanical and digital machines or objects with the ability to transfer data over the internet without requiring human-to-human or human-to-computer interaction.

Key drivers in increasing adoption of mobile data services globally include the following:

- **Massive build-out of 3G and 4G telecommunication infrastructure globally:** the build-out of 3G and 4G mobile communication infrastructure has been a key driver for the ubiquitous adoption of mobile data connectivity services, with the global penetration rate of 3G and 4G increasing from 75% and 36% in 2014 to 89% and 73% in 2018, respectively.
- **Increasingly affordable smartphones and smart-devices:** The number of smartphone brands has increased from 47 to 305 between 2008 and 2018, and as of December 31, 2018, more than 77% of shipments from these brands are targeting the mid to low-end smartphone segment, which lead to the adoption of smartphones across the globe, according to Frost & Sullivan. The increasing competition and fragmentation in the mid to low-end smartphone segment has driven smartphone companies to improve the functionality of their products. As a result, penetration rate of smartphones globally has increased from 34.6% in 2014 to 52.2% in 2018, with some of the key developing countries, such as China, Indonesia and Philippines increasing by 55%, 19% and 22%, respectively during the same time period, reaching 67%, 26% and 32%, respectively. In addition to smartphones, the increasing adoption of other forms of smart or IoT devices further stimulates the adoption of and demand for mobile data services.
- **Increased adoption of high bandwidth data applications:** The advancement in mobile data transmission technologies and availability of smartphones have also enabled the proliferation of more bandwidth-

intensive applications such as streaming of entertainment content and mobile online gaming, further increasing the adoption of mobile data services.

- Increasingly affordable mobile data plans:* Increased transmission bandwidths have driven average global mobile data prices to decrease from US\$16.7/GB in 2014 to US\$ 3.5/GB in 2018, representing a CAGR of (32.3%). Increasingly affordable data combined with a wide array of applications has resulted in increased mobile data traffic consumed per user for mobile data applications.

Massive Total Addressable Market (TAM) lies across all uCloudlink business models

uCloudlink 1.0 – Sharing between countries to provide mobile data connectivity services to global travelers

Increasing disposable income, accelerated globalization, and the proliferation of new business models in the travel industry such as online travel agencies and online home sharing platforms have contributed to an increasing number of global outbound travels, with total numbers of annual outbound trips increasing from 1.33 billion in 2014 to 1.68 billion in 2018, representing a CAGR of 5.9%, and that is expected to grow at a CAGR of 6.5% to 2.30 billion in 2023.

With the increasing adoption in mobile data usage across businesses and daily life especially in the upcoming 5G era and the increasing time travelers spend abroad, the importance for travelers to stay connected globally will increase. As a result, the number of global outbound travels where travellers were using mobile data connectivity services increased from 212 million in 2014 to 333 million in 2018, representing a CAGR of 12.0% and is expected to grow at a CAGR of 12.4%, to 596 million in 2023.

MNOs are providing global mobile data connectivity services to address increasing needs by global travelers. International roaming rates have come down, but remain significantly more expensive than local rates, which ranged across 2.7-31.6 times across some of our key target markets according to Frost & Sullivan. This has led to a high proportion of outbound travels with mobile data connectivity services deactivated remaining at 80.2% of total number of travels, as of 2018. As mobile data connectivity technologies continue to develop to reduce the roaming rates, the demand for mobile data connectivity services from outbound travelers will continue to rise, creating a massive market for alternative providers of international data connectivity solutions.

uCloudlink 2.0—Sharing between carriers to serve local mobile data users

The size of the local mobile data connectivity services is massive, with revenue from local data connectivity services increasing from US\$526 billion in 2014 to US\$820 billion in 2018, representing a CAGR of 11.8%, and approximately 33 times the size of the international roaming market. It is expected to grow further at a CAGR of 7.0% to US\$1,149 billion in 2023. In addition, the M2M IoT market could be another major driver for the local data usage as we approach the 5G era, where the application of mobile technologies will be further amplified. However, similar to the rate discrepancy in the international roaming context, the significant difference in price per GB across different local data packages and local MNOs opens up a massive opportunity for alternative providers of local data. In some of our key target markets, the price per GB difference between different data plans can be more than nine times, and the price per GB difference between Tier 1 and Tier 2 MNOs can be more than 60% as shown in the comparisons below.

The table below shows a pricing comparison between different local data plans on average in some of our key target markets.

Notes: Data traffic pricing of Tier 1 and Tier 2 are based on the average data plan in 2018. Tier 1 MNOs refer to the MNOs with the largest numbers of subscribers in each country, unless the subscriber market share difference is less than 5%. Price of Tier 2 MNOs is calculated based on the average pricing of the following two key players in each country.

Differences in network quality across different MNOs within the home market remain a pain-point for mobile data users. As a result, MNOs are constantly making significant investments to improve their network quality to minimize customer churn. Given Tier 1 MNOs typically have the financial strength to improve coverage of their mobile networks also to areas that may not be as economically attractive, population coverage ratios are typically higher than those of Tier 2 MNOs, with the coverage ratio difference in some of our key

target markets being as high as 8.3%. However, this incremental improvement in coverage rate is at the cost of significant capex incurred as compared to Tier 2 MNOs, as shown in the table below. Similarly, depending on the market share of an operator, the depth of the network, available spectrum and employed mobile technologies, the difference in utilization rates of networks across mobile operators can be as high as 30% within the same market.

Sharing between MNOs will allow them to increase their network utilization rate and simultaneously lower the network capex requirements, thereby increasing efficiencies in operations and capital deployment. Below is a network population coverage and network utilization comparison between different MNOs in some of our key target markets.

uCloudlink 3.0 – Sharing between all mobile data users

We plan to further expand our TAM by addressing the unmet needs of mobile data users by enabling user-based data traffic sharing under our 3.0 sharing model in the near future, where mobile data users may freely share and trade data traffic from their underutilized data packages via our mobile data traffic marketplace.

We have seen user-based sharing models across many other industries with significant value creation. According to Frost & Sullivan, five major sharing economy sectors including on-demand staffing, media streaming, shared mobility, hospitality, peer-to-peer and crowd-based funding had a combined market size of US\$14 billion in 2014 and are expected to grow to US\$258 billion by 2023, representing a CAGR of 38.2%. Meanwhile, the combined market size of the respective traditional operating models corresponding to those five sectors is expected to grow from US\$240 billion to US\$258 billion across the same time period, representing a CAGR of 0.8%. Various sharing economy models create new market opportunities and provide additional optionality to consumers, who are becoming more technology savvy, cautious about efficient use of resources, with a higher degree of customization and personal interaction needs, as well as change in live-style as a result of globalization. A mature user-based sharing model is still absent from the telecommunication space and we believe there are great potential for this to be developed in the future.

The diagram below shows the comparison between the market sizes of the five major sharing economy models against their traditional operating models, including on-demand staffing, media streaming, shared mobility, hospitality, peer-to-peer and crowd-based funding:

In the global mobile data connectivity service industry, the underutilization of assets is twofold. On the one hand, the physical networks owned and operated by MNO’s often are underutilized, leading to a sub-optimal return on invested capital for MNOs. On the other hand, given there is limited sharing of data traffic allowances amongst users, the mobile data utilization rate can be as low as 42.5%. Sharing these unused data traffic allowances through new business models such as uCloudlink’s 3.0 sharing model can result in significant resource utilization benefits for both mobile data users and MNOs.

Overview of the Global Mobile Data Connectivity Industry and Key Trends

Major mobile data connectivity service providers

Most mobile data connectivity service providers fall under one of three categories:

- **Mobile Network Operator (MNO):** providers of wireless communication services that own or control all the elements necessary to deliver services to mobile data users including the radio spectrum allocation, physical wireless network infrastructure, back-haul network infrastructure, and billing and customer services. They typically provide both wholesale and retail offerings to individual consumers and businesses.
- **Mobile Virtual Network Operator (MVNO):** mobile operators that usually do not have their own network infrastructure. Instead, MVNOs have commercial arrangements with MNOs to rent out capacity on the MNOs' network to serve their own customers. MVNOs typically offer wireless communication services under their own brands and distribute their SIM cards through online or physical retail channels to their end customers.
- **Over The Top Mobile Virtual Network Operator (OTT MVNO):** typically eSIM or soft SIM technology-based mobile data connectivity service providers that aggregate network capacity from multiple MNOs and MVNOs to redistribute that capacity through customized retail offerings under their own brands.

Our cloud SIM technology: We do not own or control any telecommunication infrastructure like MNOs, nor are we dependent on the network of a limited number of MNOs like the MVNOs. We host a pool of SIM cards in the cloud and enable mobile data users to consume mobile data traffic, and potentially enable mobile data users and data providers to share their data traffic through a simple buy-and-sell process via our mobile data traffic marketplace. Our users are able to switch to any network available in the SIM card pool dynamically based on their respective global locations, which is not typically available in services based on other OTT MVNO technologies. Our cloud SIM technology is also capable of supporting mobile data traffic sharing among mobile data users and is compatible with other technologies offered by MNOs, MVNOs and OTT MVNOs to enable data traffic sharing across all platforms.

Importance of mobile data traffic sharing to increase in a 5G world with growing variety of applications

The importance of staying connected to and the applications of mobile technologies will be further amplified by the adoption of the 5G technology in the coming years. 5G is expected to offer unprecedented bandwidth, low latency, fast mobility, and high capacity compared to previous technologies, which will support a set of brand new applications on top of a better experience.

5G applications can be classified into three key categories:

- *Enhanced mobile broadband:* enhanced indoor and outdoor broadband will facilitate applications such as enterprise collaboration and augmented and virtual reality. For example, given the data-intensive and interactive nature, high quality augmented and virtual reality experiences set high requirements for network speed and latency, as well as storage and computing capabilities in the cloud, which can only be satisfied by 5G.
- *Ultra-reliable low latency communications:* such as smart grids, remote patient monitoring or telehealth, industrial automation and autonomous vehicle. For example, autonomous vehicle is one of the mission-critical applications, with extremely high requirements for seamless coverage. The low network latency and fast mobility features of 5G are the key enablers of autonomous driving.
- *Massive machine type communications:* such as IoT, asset tracking, smart agriculture, smart cities, energy monitoring, smart homes, remote monitoring. For example, the future development of smart cities will be wireless, cloud-based and analytically rich, all setting higher requirements than current 4G networks can deliver.

Table of Contents

However, the rollout of 5G technology will place significantly higher requirements on mobile network capabilities compared to 4G. The diagram below compares the network performance requirements of today's 4G mobile network against 5G across eight different categories.

Source: Frost & Sullivan Report

Significant incremental capex will be required for implementation of 5G. When telecommunication technology advances from one generation to another, for example from 3G to 4G or from 4G to 5G, there are significant incremental capex requirements related to spectrum and network equipment and infrastructure. As the telecommunications industry is approaching the 5G era, there will be significant pressure of capex requirement on MNOs in order to support the rollout of 5G network in the next 10 years. According to Frost & Sullivan, the capex requirement to support 5G technology in some of the key countries, such as China and the United States is expected to be at 122% and 34% more than that under 4G, adding tremendous financial burden on MNOs.

Below table showcase the difference between 4G and expected 5G investment in some of our key target markets:

(US\$ billion)	China	US	Japan	Korea
4G Investment	190	197	94	41
Expected 5G Investment	421	265	129	61
Increase in Investment under 5G vs. 4G	122%	34%	37%	51%

Source: Frost & Sullivan Report

In addition, in the context of international roaming, the traditional roaming arrangements will significantly negate the benefits of low latency and high speed 5G could bring. With the network upgrading from 4G and 5G, MNOs will have to conduct cost renegotiations of bilateral international roaming arrangements. Both points highlight the importance mobile data traffic sharing in the 5G era.

Growing importance of the sharing concept in the telecommunications industry

As the mobile communication service industry becomes more competitive globally, in order to cope with the additional capex burden that comes with the technology advancement, carriers have begun sharing telecommunication infrastructure and other network resources.

The largest shared telecommunication infrastructure to date is the passive telecommunication infrastructure, primarily in the telecommunications tower market, where multiple MNOs co-locate their antenna equipment on a

shared physical tower site. According to Frost & Sullivan, approximately 67.5% of all global telecommunication towers globally in 2018 were shared between multiple MNOs. Tower sharing has gained recognition not just from the industry players but also support from the government in order to increase the efficiency of network usage as well as provide an environment for more competitive pricing and continuous technology advancement to happen. As a result, the telecommunication tower sharing industry has grown to become a multi-billion industry with the world's 20 listed tower companies adding to a market capitalization of US\$202 billion business as of December 31, 2018. Sharing of passive infrastructure significantly lower MNOs' network capex requirement and improve MNOs' time to market given this type of sharing typically involve massive infrastructure projects, which consume a significant amount of time and capital to build, however it typically involve complex negotiations among MNOs.

In addition, MNOs will also share active infrastructure, for example, radio spectrum, radio access network (RAN) and more, that are typically electronic infrastructure. It also extends to operational and administrative systems, such as billing system, customer service platform. As a result, this type of sharing typically takes the partnerships between MNOs deeper, and involves more complex negotiations and more often seen by regulators as potential anti-competition move in the past. It also incur additional operating expenses for the MNOs given they will need to pay leasing fees for the active infrastructure shared by their MNOs partners.

Beyond sharing of passive and active telecommunication infrastructures, MNOs have started to open up their networks and services for sharing to further improve utilization of network resources. Currently, key strategies include:

- *MNOs Opening-up Network to MVNOs:* MNOs monetize unused network resources through partnership with MVNOs. MVNOs will typically target niche user segments where the MNOs have less success, and thereby act as a magnet, to indirectly increase the number of customer on the MNOs' network and create an additional revenue stream for the MNOs. This network sharing strategy is a relatively easy to implement, given the MVNOs only ride on the MNO networks and primarily focus on sales and marketing to satisfy the need of customers in niche segments, while the network infrastructure remain fully owned and operated by the MNOs. As a result, the number of mobile subscribers under MVNOs globally has increased from 174 million in 2014 to 233 million in 2018, representing a CAGR of 7.6%, and expected to reach 407 million subscribers by 2023, growing at an accelerated CAGR 11.8% between 2018 and 2023.
- *Direct network sharing among MNOs:* The MNOs market has always been a complex web of agreements, partnerships and rivalries. Competition among local MNOs globally is typically intense with low level of sharing given MNOs consider network asset as a core competence and strategic asset, it typically involves a series of negotiation and complex agreements to realize networking sharing. Network sharing agreements have been seen to some extent in Europe through the establishment of joint venture companies between the MNOs to consolidate the network assets intended to be shared. Moreover, as roaming agreements will need to be renegotiated among MNOs as the mobile technology evolve from one generation to another (i.e. from 4G to 5G), it creates further demand for alternative solutions that minimizes the negotiation costs.

Sharing of telecommunication resources has not happened on the level of end-users

Unlike other industries such as transportation, entertainment or lodging, there is an absence of a user-based sharing model in the telecommunications industry. Network sharing between MNOs will be able to help address resources utilization, but it is complex to implement. Sharing among users could be an alternative solution.

Sharing across end-users in other industries has gradually become a norm and part of daily life situations. It unlocks the value of unused and underused assets, driving a shift from asset-heavy to asset-light businesses and enabling access over ownership. Some 83% of Americans are familiar with sharing services in 2018, and two-thirds of consumers worldwide are willing to share or rent out their personal assets. While different in nature across industries, sharing

economy models allow efficiently mapping of the unbalance between supply and demand side requirements for certain resources via a sharing platform.

According to Frost & Sullivan, mobile data packages are still significantly underutilized in some of our key target markets. On average, mobile data users are only able to utilize 65.7% of their data plan across our key target markets, indicating there is a large pool of unused mobile data traffic available for sharing between the end-users.

Cloud SIM technology uniquely positioned to become a competitive option for data traffic sharing in the 5G era

Overview of cloud SIM technology

Subscriber Identity Modules, or SIM cards, have been playing the role of authenticating and pairing mobile devices with the mobile networks and subsequently allowing the mobile device users to access the networks. Switching from traditional SIM technology to cloud SIM technology, mobile device users’ options of network are no longer restricted by the ties between physical SIM cards and the respective MNO networks. Cloud SIM technology uncouples users from the exclusive relationship with the MNOs by residing a pool of SIM cards in the cloud. Users are thus able to switch to any network available in the SIM card pool dynamically and automatically based on their location. By utilizing local SIM cards via cloud SIM, mobile data users are able to enjoy mobile data connectivity service globally with local network quality and at local rates, while still able to retain access to their primary phone number from their home network supported by traditional SIM cards.

The cloud SIM technology is in many aspects superior to OTT MVNO technologies

Soft SIM, which is more exposed to hacking given that it does not reside in any kind of secure data storage. The functionalities are performed by a collection of software applications with generally unsecured data handling. Moreover, hardware companies and vendors have access to write SIM card profiles under soft SIM in addition to MNOs, which can negatively affect the adoption of the technology by MNOs.

Embedded SIM (eSIM), which still ties the mobile devices to specific MNOs and limits future dynamic and seamless switching across networks, which is required to achieve best coverage, competitive rate and the optimal user experience.

Below is a comprehensive comparison across the three major OTT MVNO SIM technologies:

As a result of the advantages of cloud SIM, cloud SIM could become the standard for data sharing. Moreover, cloud SIM technologies is the only mobile data solution that supports sharing among mobile data users, which we expect to serve as the basis for our sharing 3.0 model. Data sharing can reduce under-utilized data packages and improve the efficiency of mobile data networks. Cloud SIM technology is also compatible with SoftSIM and eSIM technologies.

uCloudlink's cloud SIM technology enabled mobile terminals and services offer the following key advantages compared to other mobile data service providers:

- *Our ability to acquire data from a wide range of sources.* Our Cloud SIM technology can in theory support SIM cards from almost all suppliers and connect to networks of almost all MNOs. Moreover, the technology is compatible with eSIM and soft SIM technologies, encompassing the SIM card source available to those technologies.
- *Our ability to support dynamic network selection for mobile data users:* With dynamic network selection capability, we can connect our users with local mobile data network that has the optimal combination of network quality, speed and price. As a result, users only need to carry one uCloudlink cloud SIM technology-enabled mobile device while they are travelling in the 144 countries and regions covered by uCloudlink to stay connected. uCloudlink's mobile data connectivity services can be accessed across all smartphones, and regardless of the home mobile network that the users contracted with.
- *Our ability to utilize under-utilized data:* uCloudlink's proprietary algorithms to analyze historical data usage patterns and predict future data traffic demand, and the insights gained enable uCloudlink to efficiently procure data traffic allowances. We can intelligently allocate data traffic in the SIM card pool to our cloud SIM technology-enabled terminals, further maximizing the utilization rate of each of our SIM cards.
- *Our ability to repackage data:* With the ability to serve our users with data traffic from multiple mobile networks and to dynamically select SIM cards for our users, we are able to create a variety of data packages across 144 countries and regions that we cover, to enable users to choose the most optimal

data traffic plan based on their actual needs. In addition, we are also technologically ready to support mobile data users to trade their unused data to further customize their data allowances and packages.

- *Our ability to decouple users from physical SIM cards:* Cloud SIM technology enables mobile data users to be decoupled from SIM cards, providing mobile data users with additional mobile network optionality. User can purchase data packages through our *GlocalMe Connect* mobile application and enjoy mobile data connectivity services provided by the MNOs, which is not possible under the traditional SIM-based model.

Certain handset manufacturers have begun to embed mobile data connectivity services in their devices, but only in limited numbers and only through eSIM and soft SIM technologies, which suffer from certain disadvantages as discussed above.

Powered by such competitive advantages, uCloudlink became the largest portable Wi-Fi service providers in China with a market share of 41.0% in 2018, significantly above the second and third players, who only had 20.2% and 14.0% market share respectively, according to Frost & Sullivan.

Based on the foregoing, we expect the adoption for uCloudlink's product and services will continue to grow.

Benefits of adopting cloud SIM to handset and smart device companies

Traditionally, handset and smart device companies have limited ways to monetize their products and primarily rely on handset sales, which does not provide a recurring revenue stream and required smartphone companies to constantly design and promote new handset and smart device models in order to satisfy users' needs.

The implementation of cloud SIM can bring the following benefits to handset and smart device companies:

- *Enhanced product differentiation to promote sales.* Embedded mobile data connectivity services, which can be pre-installed in handset and smart devices, adds an additional major selling point to the handset and smart devices, enhancing product differentiation and competitiveness and resulting in more sales with better data traffic.
- *New Recurring revenue streams.* Smartphone companies, who are typically reliant on one-off sales of hardware, can generate an additional, recurring and highly scalable data revenue stream via the revenue-sharing arrangements with cloud SIM providers.
- *Stronger foothold in digital ecosystem.* Acting as a catalyst for mobile data usage, cloud SIM technology can be deployed on handsets as well as other smart devices, and serve as gateway for hardware vendors to participate in the digital ecosystem and capture more business opportunities.

BUSINESS

Our Mission

Our mission is to enable people to use mobile data traffic freely anytime, anywhere like breathing the air. We aim to make the world more connected with maximized network utility through harnessing the power of mobile data traffic sharing.

Overview

We are the world's first and leading mobile data traffic sharing marketplace, according to Frost & Sullivan. We are the pioneer of introducing the sharing economy business model into the telecommunications industry, creating a marketplace for mobile data traffic. Leveraging our innovative cloud SIM technology and architecture, we redefine the mobile data connectivity experience, allowing users to gain access to mobile data traffic allowance shared by network operators on our marketplace. We have aggregated mobile data traffic allowances from 230 mobile network operators (MNOs) in 144 countries and regions in our cloud SIM architecture. Total data consumed through our platform were approximately 9,000, 28,000 and 90,600 terabytes in 2017, 2018 and 2019, respectively.

Our innovative cloud SIM technology sets the technological foundation of our marketplace, which is built upon our cloud SIM architecture. We have developed our proprietary cloud SIM technology based on remote SIM connection, which means that SIM cards are not embedded in the mobile terminals but remotely connected on the cloud. According to Frost & Sullivan, cloud SIM technology enabled solutions are superior to other SIM-based technology solutions, such as solutions based on embedded SIM (eSIM) and soft SIM, in terms of network availability, quality, connection and security. Our cloud SIM technology allows dynamic selection of network services based on signal coverage and cost, and intelligent distribution of data traffic in the SIM card pool to terminals that may support multiple end devices through our cloud SIM platform, to achieve better network quality, more reliable connection and lower cost. As of December 31, 2019, we owned 43 patents relating to our cloud SIM technology.

Leveraging our cloud SIM technology and architecture, we provide mobile data connectivity services with reliable connection, high speed and competitive price, allowing users to enjoy a superior seamless mobile connectivity experience. We have transformed the traditional telecommunication business model, where users can only access the wireless network provided by their contracted MNOs and are not able to use the networks of other local MNOs. By giving users access to our distributed SIM card pool, we free users from this exclusivity, and give them the freedom to access the mobile networks of other MNOs without physically changing SIM cards wherever they are in the world as long as it is one of the 144 countries and regions we cover. As a result, we have accumulated a large and active user base. In 2019, our average daily active terminals reached approximately 187,700 and each of our active terminals on average used 1,300 megabytes of mobile data per day. In addition to mobile data users, we also create unique values to the other stakeholders in the telecommunications industry worldwide, including smartphone and smart-hardware companies, mobile virtual network operators (MVNOs), MNOs and more broadly to society.

We operate our business under what we refer to as uCloudlink 1.0 and uCloudlink 2.0 models, and plan to launch uCloudlink 3.0 model in the future.

- *uCloudlink 1.0.* Our uCloudlink 1.0 model focuses on cross-border travelers that need mobile data connectivity services across different countries. We started to conduct our business under the uCloudlink 1.0 model in 2014. We operate portable Wi-Fi services under our own *Roamingman* brand in China, Malaysia and Singapore to provide global mobile data connectivity services. We also offer *GlocalMe* portable Wi-Fi terminals and provide our cloud SIM architecture to business partners such as MVNOs, MNOs and portable Wi-Fi terminal rental companies, for them to offer global mobile data connectivity services directly to their users. Leveraging on these business partners' local operation

knowledge and established brand name in their regions, we are able to penetrate into different markets and regions more effectively, accelerating the adoption of our products and services on a global scale. Since 2018, we began to offer smartphones and smart devices enabled with mobile data connectivity services such as the *GlocalMe* World Phone series. According to Frost & Sullivan, the market size of international roaming service is US\$23.3 billion in 2018 and is expected to reach US\$34.8 billion in 2023. We are the largest portable Wi-Fi service provider for international roaming for Chinese outbound travelers with a 41.0% market share in 2018, according to Frost & Sullivan.

- *uCloudlink 2.0*. Our *uCloudlink 2.0* model aims to provide mobile data connectivity services to local users across different MNOs in a single country. We tested this service in 2018, and commercially launched the service in April 2019. We develop *GlocalMe Inside* implementation for smartphones and other smart hardware terminals, enabling them to obtain access to our cloud SIM architecture and use our globally distributed SIM card pool, and also offer *GlocalMe* World Phone series. We have partnered with three smartphone companies in China, including TCL Communication Limited, to provide *GlocalMe Inside* implementation for certain models of its smartphones. Similarly, we have agreed with other smartphone brands including PT. Bangga Teknologi Indonesia, the owner of the handset brand Advan in Indonesia, Cosmic Technologies, Inc., the owner of the handset brand Cherry Mobile in the Philippines, to launch *GlocalMe Inside* on some of their models. This enables smartphone users to use not only our global mobile data connectivity services but also local data traffic packages without a separate Wi-Fi router. Since October 2019, our cloud SIM platform has been ready to support traffic from 5G networks. According to Frost & Sullivan, the market size of local mobile data connectivity services is US\$820 billion in 2018 and is expected to reach US\$1,149 billion in 2023. As we are expanding *GlocalMe Inside* to more smartphone brands and models, we believe we will be able to grow our user base rapidly and capture more monetization opportunities in the market.
- *uCloudlink 3.0*. We expect that we will launch our services following *uCloudlink 3.0* model in the next two to three years. We anticipate that under our proposed *uCloudlink 3.0* model, users may share and trade their unused data packages through our cloud SIM architecture, which will create a data traffic sharing marketplace. We have tested the data allowance sharing among users in trials, and are technologically ready to launch the *uCloudlink 3.0* model. We believe that our successful *uCloudlink 1.0* model and fast-growing *uCloudlink 2.0* model will lead us to *uCloudlink 3.0* model in the near future. Sharing among users will further enrich the sources of our distributed SIM card pool and optimize network usage, and make us a vibrant data traffic sharing marketplace.

We have developed proprietary algorithms to analyze historical data usage patterns and predict future data traffic demand. We use the insights gained from the data analytic results to efficiently procure data traffic allowances from MNOs and other sources globally, dynamically select network services based on signal coverage and cost, and intelligently allocate data traffic in the SIM card pool to terminals, then to end devices. As a result, we are able to achieve better network quality, more reliable connection and lower cost for users, as well as improve our cost efficiency. As the first entrance for users to access mobile internet, we may also leverage the data analytics to develop a number of value-added services, such as advertisement.

We have grown rapidly in recent years. Our average daily active terminals increased by 73.0% from approximately 65,300 in 2017 to 113,000 in 2018, and further by 66.1% to 187,700 in 2019. In the three months ended March 31, 2020, our average daily active terminals reached approximately 274,800. Specifically, in the three months ended March 31, 2020, average daily active terminals using our *uCloudlink 1.0* model services reached approximately 99,700, and average daily active terminals using our *uCloudlink 2.0* model services reached approximately 175,400, including the number of daily active terminals using both categories of services. Our daily active terminals using our *uCloudlink 2.0* model services constituted 64% of our daily active terminals in the three months ended March 31, 2020, as compared to 9% in the three months ended March 31, 2019. The average daily data usage per active terminal increased from 390 megabytes in 2017 to 700 megabytes in 2018, and further to 1,300 megabytes in 2019. The average daily data usage per active terminal increased from 924 megabytes for the three months ended March 31, 2019 to 2,258 megabytes for the three months ended March 31, 2020.

We generate revenue primarily from our mobile data connectivity services and hardware terminals that incorporate the services. Our revenues increased from US\$85.8 million in 2017 to US\$126.4 million in 2018, and further to US\$158.4 million in 2019. Our gross margin increased from 34.4% in 2017 to 36.5% in 2018, and further to 41.0% in 2019. We had a net loss of US\$19.3 million and US\$26.6 million in 2017 and 2018, respectively, and we had a net income of US\$5.2 million in 2019. Our adjusted net (loss)/income, a non-GAAP measure defined as net (loss)/income excluding share-based compensation, was adjusted net loss of US\$13.7 million and US\$24.3 million in 2017 and 2018, respectively, and was adjusted net income of US\$5.4 million in 2019. Our adjusted EBITDA, another non-GAAP measure defined as net (loss)/income excluding share of loss in equity method investment net of tax, interest expense, depreciation and amortization, and share-based compensation, was negative US\$4.7 million, negative US\$15.1 million and US\$8.9 million in 2017, 2018 and 2019, respectively. See “Summary Consolidated Financial and Operating Data—Non-GAAP Financial Measures.” In 2017, 2018 and 2019, we generated 37.9%, 50.9% and 67.9%, respectively, of our revenues from customers outside of China.

Our Value Propositions

Our products and services deliver unique value propositions to mobile data users, handset and smart-hardware companies, MVNOs, MNOs and more broadly to society.

To our users:

- *Global coverage.* Users enjoy mobile data connectivity services in 144 countries and regions, freely switching among countries, network operators, and data plans.

- *New recurring revenue streams.* Smartphone companies, who are typically reliant on one-off sales of hardware, can generate an additional, recurring and highly scalable data revenue stream via the revenue-sharing arrangements with us.
- *Stronger foothold in digital ecosystem.* Acting as a catalyst for mobile data usage, *GlocalMe Inside* can be deployed on smartphones as well as other smart-hardware terminals, and serve as gateway for hardware vendors to participate in the digital ecosystem and capture more business opportunities.

To MVNOs and fixed network operators:

- *Flexible mobile network sourcing.* By using our services, MVNOs can reduce their dependence on the arrangement with MNOs to use their network. We also purchase spare data capacity from MVNOs thereby increasing efficient usage of their networks.

[Table of Contents](#)

- *Strengthened local and global data connectivity offering.* Leveraging our global SIM card resources, MVNOs can offer their users competitively-priced international mobile data connectivity services and provide broader local coverage and better network performance, without being limited by that of the MNOs they have entered into contract with.
- *Enabling mobile data offering for fixed network operators.* Cable operators or other fixed network operators can offer wireless services through our *GlocalMe* products without entering into an MVNO contract.
- *Offering full ownership of users.* By offering *GlocalMe* products, MVNOs can foster more direct and interactive relationships with users.

To MNOs, especially tier-2 and 3 MNOs:

- *Improved network coverage and service quality.* We improve a MNO's network coverage by enabling their customers to access all the mobile networks globally supported by our platform. Our technology provides seamless and continuous access to data and enhances user experience, ultimately helping MNOs improve customer satisfaction and stickiness and save capital expenditure.
- *Maximized network utilization.* Our platform can revolutionize the difficult process of network sharing among MNOs. We can also dynamically select networks of MNOs, by intelligently identifying the imbalance in terms of coverage and usage level between different networks, to better leverage their under-utilized network capacities and maximize the network utilization.
- *Simplified cooperation among MNOs.* We enable MNOs to share their network without having to engage in costly and time-consuming one-on-one negotiations. In addition, MNOs may choose not to roll-out networks in economically unattractive areas where other operators already provide coverage.
- *New user development model.* Our platform decouples users from a single MNO under the traditional SIM-based model, and allows MNOs to acquire and develop users and sell data traffic allowances through users' *GlocalMe*-ready smart devices, creating a new OTT-like handset-based user development model.
- *Accelerated 5G implementation.* As network operators start to roll-out 5G networks, mobile data traffic sharing between MNOs via our cloud SIM architecture can reduce capital spending and roaming agreements negotiation cost, ensure low network latency for end users and expand network coverage.

To society as a whole:

- *Radio frequency efficiency.* Our cloud SIM technology enables MNOs to share their networks and resources, improving efficiency of spectrum usage.
- *Environmentally friendly and reduce waste.* Our sharing model reduces duplicated construction of telecommunication infrastructure, which leads to less industrial waste.
- *Enhanced information sharing and digitalization.* We facilitate better information sharing by allowing people to use mobile data traffic. By empowering smartphones and smart hardware with reliable mobile connectivity without limitation, we facilitate the creation of innovative mobile digital solutions.

Our Competitive Strengths

We believe the following strengths have contributed to our success:

The world's first and leading mobile data traffic sharing marketplace

We are the pioneer of introducing the sharing economy business model into the telecommunications industry, creating a marketplace for mobile data traffic. Similar to the adoption of sharing economy business

model in many other industries globally, such as transportation, retail and entertainment, we believe our innovative business model will unlock massive benefits for individuals and companies in the telecommunications industry, and deliver superior mobile data traffic experience cost-effectively. Through our marketplace, traffic allowances from network operators globally can be shared among our users, who then enjoy superior and ubiquitous mobile data connectivity experience worldwide. Network operators may share their networks without engaging in often complex and costly one-on-one network sharing negotiations for international and domestic roaming services. So far, we have aggregated mobile data traffic allowances from 230 MNOs in 144 countries and regions into our distributed SIM card pool, as compared to 183 MNOs in 106 countries and regions in 2016.

Our data traffic sharing marketplace leverages on our proprietary cloud SIM technology, which can dynamically select the network at a given location that shows an optimal combination of strong signal, fast speed and attractive rates for each user. This results in superior mobile data connectivity experience, establishing a win-win situation for network operators and users. The monthly average data usage through our platform increased from approximately 750 terabytes in 2017 to 2,300 terabytes in 2018, and further to 7,500 terabytes in 2019. In 2019, each of our active terminals on average used 1,300 megabytes of mobile data per day. Our average daily active terminals was approximately 187,700 in 2019.

Our mobile data connectivity services have traditionally been targeting cross-border travelers who may use our *GlocalMe* portable Wi-Fi empowered by cloud SIM technology to access the internet globally. We provide portable Wi-Fi as a service through *Roamingman* brand and also distribute to our business partners to support their own brands. We have entered into partnerships with three smartphone manufacturers in China, including TCL, to provide *GlocalMe Inside* implementation for certain smartphone models. This enables smartphone users to use our global mobile data connectivity services without a separate Wi-Fi router. As of the date of this prospectus, there are approximately 4.9 million smartphones in the market with *GlocalMe Inside* implementation. As we are expanding *GlocalMe Inside* to more smartphone brands and models, we believe we will be able to grow our user base rapidly and capture more monetization opportunities in the market.

Innovative cloud SIM technology and architecture redefining mobile data connectivity experience

Leveraging our innovative cloud SIM technology and architecture, we have created a powerful business model, redefining mobile data connectivity experience. Under the traditional telecommunication business model, each user has one SIM card to access the wireless network provided by the contracted MNO. Users are not able to use the network of other local MNOs and typically need to pay significant roaming fees to access the network of foreign MNOs when they travel in other countries. By giving our users access to our distributed SIM card pool, our cloud SIM architecture frees users from this exclusivity, and gives users the freedom to access the mobile networks of 230 MNOs seamlessly by purchasing attractive and well-tailored data packages that come with stable and high-speed wireless connections.

Our cloud SIM architecture, which is empowered by our proprietary cloud SIM technology, primarily consists of our distributed SIM card pool, a cloud SIM platform with portals and tools, and terminals capable of supporting multiple end devices. As of December 31, 2019, we owned 43 patents relating to our cloud SIM technology, which is superior to other SIM-based communication technologies in many aspects according to Frost & Sullivan:

- *Cross-MNO data traffic sharing creates more options for users.* Our distributed SIM card pool hosts SIM cards from 230 MNOs globally. The cloud SIM platform supports intelligent network selection by detecting the local network with best overall performance at a given location and available in our distributed SIM card pool, and automatically allocating the associated SIM card information to the terminals of the end user. Our cloud SIM technology is more flexible than embedded SIM (eSIM), which ties users with specific MNOs through contracts and limits future switching options of users.
- *Cloud SIM architecture supports the expansion of our operations and business.* We can easily expand our data traffic capacity and coverage by purchasing new SIM cards with traffic allowances and

hosting them in our distributed SIM card pool. We may rapidly develop relationships with new business partners as they may host their local SIM cards either directly in our distributed SIM card pool or manage a local SIM bank by themselves which can be connected to our cloud SIM platform. Every device with *GlocalMe Inside* installed may potentially become our source of data traffic allowance supply, making us a vibrant data traffic sharing marketplace.

- *Cloud SIM technology ensures high network security.* With dual-SIM-card system and dual-channel communication, we believe our cloud SIM technology is superior to other SIM technologies. Soft SIM, for example, is less secured, as hardware companies and vendors have access to SIM card profile in addition to MNOs. The functionalities of soft SIM are performed by software applications with generally unsecured data handling.

Our cloud SIM technology is increasingly recognized by key participants in the mobile value chain. Through *GlocalMe Inside*, we believe we are the only player that has implemented cloud SIM technology in smart hardware products made by global leading brands. We implement this on communication chipsets through pre-installation or subsequent firmware update.

Strong strategic partnerships globally enabling deep and effective penetration into local markets

Since we commenced our business operations in 2014, we have expanded our mobile data network coverage to 144 countries and regions globally. We have a proven track record of identifying and building trusted relationships with strong local business partners, allowing us to effectively reach users in key markets. As of December 31, 2019, we had over 1,900 business partners across 45 countries. These business partners operate portable Wi-Fi rental business or resell our products under their own brands using our *GlocalMe* portable Wi-Fi solutions. Leveraging on their local operation knowledge and established brand name in their regions, we are able to penetrate into different markets and regions more effectively, accelerating the adoption of our products and services on a global scale. Our business partners under uCloudlink 1.0 model include Vision Inc. (Global Wifi), Telecom Square Inc., Jetfi Technology Co. Ltd., and Softbank Corp. We also partner with a leading European car rental company for global mobile data connectivity services.

As our business expands from providing international data roaming solutions to cross-border travelers to providing domestic data traffic to local residents through *GlocalMe Inside*-enabled smartphones, we actively develop strategic partnerships with leading smartphone companies primarily through revenue-sharing agreements. As of the date of this prospectus, we have partnered with 7 smartphone companies globally for *GlocalMe Inside* implementation on a total of 13 models:

- *Chinese smartphone companies.* We have partnered with three smartphone manufacturers in China, including TCL, to provide *GlocalMe Inside* implementation for certain models of their smartphones. As of the date of this prospectus, one manufacturer has launched our *GlocalMe Inside* implementation on two of its models, and we expect TCL and at least one more Chinese partner to launch *GlocalMe Inside* implementation in 2020.
- *Advan.* In Indonesia, Advan launched *GlocalMe Inside* on three of its smartphone models in 2019.
- *Cherry Mobile.* In the Philippines, we cooperate with Cherry Mobile and launched our *GlocalMe Inside* implementation on Cherry Roam smartphones in August 2019.

We believe that *GlocalMe Inside* creates a highly scalable new business model and will lead to enormous market opportunities as more smartphone companies participate.

Efficient data procurement and utilization based on advanced technology and data analytic capabilities

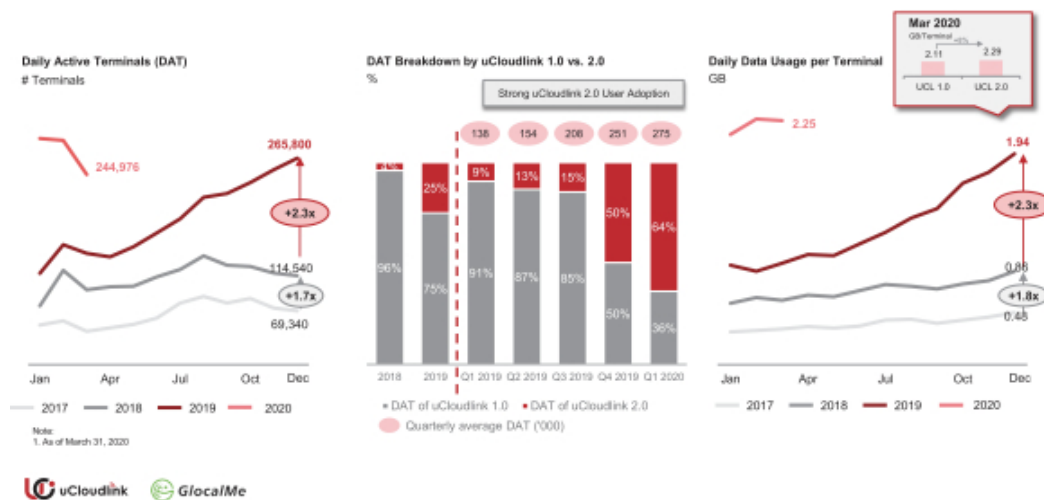

Our data traffic sharing marketplace serves as a unique global mobile data traffic access point covering 144 countries and regions. As users surf the internet through the mobile data connectivity services we provide,

we are the first entrance for users. Approximately 9,000, 28,000 and 90,600 terabytes of data had been consumed on our marketplace in 2017, 2018 and 2019, respectively. We have developed proprietary algorithms to analyze historical data usage patterns and predict future data traffic demand. We predict mobile data demand through modeling, which takes into account seasonality, regions and countries, network performance and other features to predict users' data demand at a specific time in a geographic area. Based on the prediction, we dynamically select the networks and utilize the data traffic available on our platform, ensuring reliable mobile data connectivity services to our users. We also use the insights gained from the data analytic results to efficiently procure data traffic allowances from MNOs and other sources globally. Our data procurement optimizes between pricing and coverage quality, allowing us to secure a distributed SIM card pool that offers superior coverage and user experience at attractive rates. In 2017, 2018 and 2019, our gross margin relating to our services was 39.5%, 47.9% and 60.9%, respectively.

In addition to procuring data through traditional wholesale packages, our data traffic sharing marketplace, powered by our cloud SIM technology, uniquely positions us to obtain data from underutilized network resources. For example, network operators can sell to us the data traffic on their networks that is under-used for traditional wholesale agreements. MVNOs can monetize through our marketplace the data allowances that they have purchased from MNOs but not yet used by their own end-users. Under our uCloudlink 3.0 model, we will also enable users to share unused data allowances on our marketplace. As a result, our marketplace minimizes data wastage for the participants in the mobile data value chain and ensures optimal allocation of resources, which in turn help enrich our data procurement sources and make us a vibrant mobile data traffic sharing marketplace.

Diversified and asset-light business model with strong growth and margin

In 2019, we generated revenues of US\$158.4 million, as compared to US\$126.4 million in 2018 and US\$85.8 million in 2017. Our revenue growth has been driven by strong mobile data demand due to the increasingly data-heavy mobile media content and the growing recognition of our high-quality and innovative mobile data connectivity services among users and business partners. Our average daily active terminals increased by 73.0% from 65,300 in 2017 to 113,000 in 2018, and further increased by 66.1% to 187,700 in 2019. The average daily data usage per active terminal increased from 390 megabytes in 2017 to 700 megabytes in 2018, and further to approximately 1,300 megabytes in 2019. We believe these factors, together with our expansion into local data markets around the globe, will continue to drive the robust growth of our business and diversify our revenue streams across geographic regions. In 2018 and 2019, we generated 50.9% and 67.9% of our revenues, respectively, from regions outside China according to the location of the customers. The strong growth in our user activity level is also demonstrated by the following charts:

[Table of Contents](#)

As we strategically continue to skew our revenue mix towards mobile data connectivity services, which have a low marginal unit cost, and as we continuously optimize our SIM allocation algorithm to improve our SIM utilization rate, we will enjoy attractive unit economics and returns. Our gross profit margin reached 41.0% in 2019, an increase from 36.5% in 2018 and 34.4% in 2017. In 2017, 2018 and 2019, our gross margin relating to our services was 39.5%, 47.9% and 60.9%, respectively. Our products and services are built on our cloud SIM architecture, which requires limited capital expenditure. Our total capital expenditures were only 7.8%, 4.1% and 1.8% of our revenues in 2017, 2018 and 2019, respectively, providing us with a solid foundation to generate cash flow in the future.

Experienced and visionary management team

Our company is built on new technology and an innovative business model, and we benefit from the vision and experience of our founding and senior management team. Our senior management team has an average of approximately 22 years of experience in the telecommunications industry. They have in-depth knowledge to navigate through global telecommunications industry value chain with first-hand working experience dealing with MNOs, mobile network equipment suppliers, smart hardware companies and distributors in Asia, Europe and North America. Their deep insights on telecommunication technologies, mobile data network operation and industry trend enable us to stay at the forefront of technology and business model innovation and redefine the mobile data traffic experience. Our management believes the fundamental measure of our success is the value we create for mobile data users, smartphone and smart-hardware companies, MVNOs, MNOs and society as a whole.

Our Growth Strategies

As the world's first and leading data traffic sharing marketplace, we have a set of user-centric strategies to grow our business and deliver the best mobile internet connectivity experience to users globally.

Strengthen our market leadership in international mobile data connectivity services for cross-border travelers

We plan to further grow our market share in international mobile data connectivity services for cross-border travelers. We will tailor our marketing strategies and develop distribution channels to further expose our products and services to cross-border travelers, for example, by partnering with more leading online travel agencies and establishing more pickup and return stations. In addition, we will develop our collaboration with MNOs and MVNOs and promote our products and services through their distribution channels. We will also conduct direct marketing and partner with strong local business partners to establish ourselves as the "go-to" service provider for international mobile data connectivity services, superior in terms of price, coverage and convenience. We will also provide more value-added services, especially cross-border travelers, such as map, translation, car reservation and itinerary planning, to attract and retain our users. We will continue to innovate and improve our hardware products and *GlocalMe* solutions to provide reliable support for international mobile data connectivity.

Capture the massive opportunities in local mobile data markets worldwide

According to Frost & Sullivan, revenues from local mobile data connectivity services worldwide represent approximately 35 times the revenues of international mobile data connectivity services in 2018. We are constantly seeking opportunities and advancing our hardware products and data connectivity solutions to capture the massive opportunities in local mobile data markets.

We plan to enter selected local data markets through partnerships with local companies with strong presence, such as network operators. We will focus on countries with a reasonably developed telecommunications industry and a sizable population to ensure an attractive addressable market. We will identify market pain-points such as high price for mobile data, limited coverage by certain wireless operators, and underutilized network resources. We plan to work with carefully selected local business partners to help navigate regulatory requirements and accelerate our market entry process.

Through our cloud SIM technology we are uniquely positioned to help participants in the mobile value chain monetize unused data allowances and network resources in the future. We will encourage MNOs, MVNOs and users to share local mobile data traffic allowances over our marketplace, thereby limiting their capital expenditure and operating expenses, and minimizing inefficient usage of network resources under our proposed uCloudlink 3.0 model.

Expand GlocalMe Inside to become a leading provider and create a GlocalMe Inside connection based ecosystem

Through our *GlocalMe Inside* solutions, we embed our cloud SIM technology into the smart terminals of third-party brands. This enables users to directly purchase local data packages on these third-party terminals. We intend to expand the implementation of *GlocalMe Inside* through more strategic partnerships with third-party smart device brands.

Smart device brands are seeking supplemental recurring revenue streams on top of their traditional one-off hardware sales. We have adopted revenue sharing model, profit sharing model, and one-time installation fee model for *GlocalMe Inside*, which allows mobile terminal brands to benefit from such recurring revenue streams on a global basis. This will increase the competitiveness of their products by offering embedded mobile data connectivity services to their users. Leveraging on *GlocalMe Inside*, mobile terminal brands may diversify their offerings to take part in telecommunication ecosystem.

As of the date of this prospectus, we have partnered with 7 handset brands globally for *GlocalMe Inside* implementation on a total of 13 models, resulting in a total of approximately 4.9 million third-party smartphones in circulation globally that were upgraded to support *GlocalMe Inside*. We will continue to promote *GlocalMe Inside* to make it a standard configuration for mobile terminals, and create an ecosystem for users, smart device brands, network operators and applications based on *GlocalMe Inside* connection.

Support the global proliferation of Internet-of-thing (IoT) applications in the upcoming 5G era

IoT applications are expected to create massive revenue opportunities in the era of 5G. According to Frost & Sullivan, the global IoT market is expected to grow from approximately US\$1.4 trillion in 2018 to US\$2.8 trillion in 2023, representing a CAGR of 14.3%. Key requirements for the rapid adoption of reliable IoT services include universal coverage, superior throughput speed and low latency network.

- *Cross-network connection.* Moving objects require stable connections as they transition within and across countries. For example, logistics companies need to track their trucks and parcels precisely as they are being transported globally.
- *High throughput speed.* Surveillance, and the latest augmented reality (AR) and virtual reality (VR) applications, which often consume a large amount of data, require cost-effective data connectivity solution with comprehensive coverage and high throughput speed.
- *Low latency.* For certain IoT applications such as automated vehicles, latency in milliseconds could result in a collision. Our cloud SIM architecture can intelligently identify networks with the lowest latency to ensure the IoT applications to meet critical operational requirements.
- *High network reliability.* For law enforcement and public safety agencies, mobile data connectivity services with high reliability are critical for officers to stay connected and ensure real-time monitoring.

We believe our IoT modules will be able to offer the above-mentioned attributes to machines and mobile terminals at a competitive price based on our cloud SIM technology and architecture, and fully capitalize on the opportunities offered by the new 5G use cases.

Continue to innovate to pursue new monetization opportunities

We believe that our cloud SIM technology and architecture can be further monetized through new products and services. As a unique global mobile data traffic access point supported by our strong data analytics capability, we plan to further capitalize on our large user base and roll out additional value-added services such as mobile advertising. In addition, as we are uniquely positioned to collect network statistics cross mobile data networks globally, we plan to utilize the insights gained from the meta-data and analytic results to develop and offer additional value-added services, such as assisting network operators to assess and optimize their network infrastructure and deployment. As more users and business partners join our platform, we will further advance our big data analytics capabilities, and continuously improve our service quality and monetization capabilities.

We have conducted trials on the sharing model of mobile data traffic allowances using cloud SIM technology among trial users. These trials allowed us to gain initial insights on user behavior and technological requirements for mobile data traffic allowance sharing between individual users. We plan to further explore this uCloudlink 3.0 model in the future, by promoting data traffic sharing between individual users.

Promote user engagement across our products to drive adoption and recurring usage

We plan to promote cross-product engagement and long-term recurring usage. We offer bundled products to stimulate user engagement across product categories. For example, we offer bundled data packages combining mobile data connectivity and international roaming packages in order to stimulate users to utilize our services both in their home market and when traveling. We also focus on selling data connectivity solutions to lock-in customers for long-term usage and increase the likelihood for repeat purchases of our data packages. In addition, we bundle hardware terminals with data packages, which allows us to keep track of users' purchases, identify dormant users and offer them promotions to reactivate their usage.

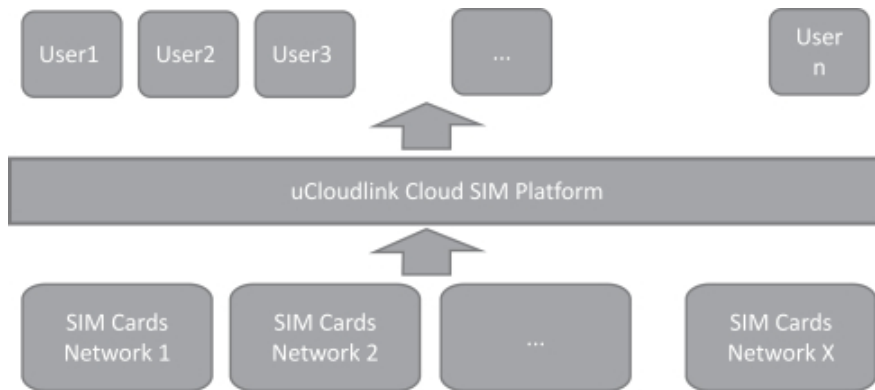

We plan to enhance adoption of *GlocalMe Inside* in third-party smart terminals. We will continue to promote the adoption of *GlocalMe Inside* implementation in more terminals through pre-installation or subsequent firmware update, educate users about our mobile data connectivity services and offer more promotions to stimulate usage. We plan to adopt a freemium approach for *GlocalMe Inside*, by offering free starter data packages via the *GlocalMe* apps to motivate users to experience our services and eventually convert them to customers buying data packages. We will actively promote our services in certain regions and conduct targeted marketing to bring in more users. We believe this leads to higher retention rate once the user has tested our products. Moreover, depending on the agreements between business partners of mobile terminal companies and us, our business partners may promote *GlocalMe Inside* as a key feature of their mobile terminals and cross-sell it with data packages. This further helps us acquire more users and improve user engagement.

Pursue strategic investment and acquisition opportunities

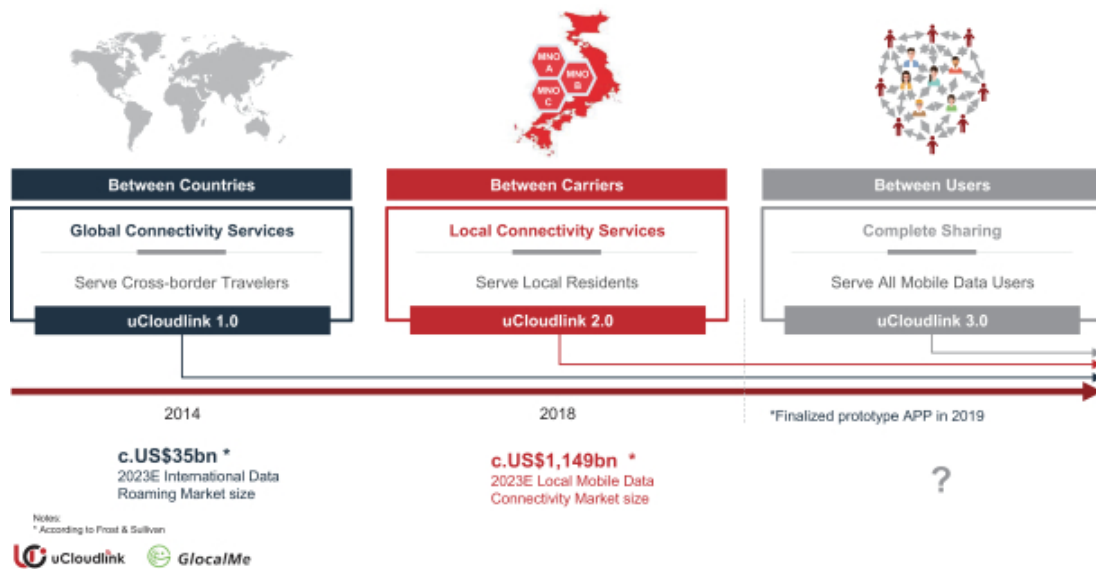

We intend to pursue suitable strategic partnerships, investments and acquisitions. Potential business partners may include companies that have key technologies and patents to enable us to innovate and remain competitive, as well as those with local operational experience that will help us penetrate effectively into key markets.

Evolution of Our Business

Our uCloudlink cloud SIM platform is designed for sharing mobile data connectivity services by allocating the SIM cards remotely and dynamically to users. All users can access and use the SIM card resources in our distributed SIM card pool supplied by different network operators via our platform.

The graph below shows the evolution of our business:

uCloudlink 1.0 model focuses on cross-border travelers that need mobile data connectivity services across different countries. According to Frost & Sullivan, the market size of international roaming service is US\$23.3 billion in 2018 and is expected to reach US\$34.8 billion in 2023. We started to conduct our business under uCloudlink 1.0 model in 2014. When a terminal connects in a foreign country or region, a local SIM card in our distributed SIM card pool will be allocated dynamically based on the terminal’s location to avoid costly roaming fees. We operate *Roamingman* portable Wi-Fi services in China, Malaysia and Singapore to provide global mobile data connectivity services. We also offer *GlocalMe* portable Wi-Fi terminals and provide our cloud SIM architecture to business partners such as MVNOs, MNOs and portable Wi-Fi terminal rental companies for them to offer global mobile data connectivity services directly to their users. Our *GlocalMe Inside*

implementation in smartphones and other smart terminals also supports cross-border mobile data connectivity within uCloudlink 1.0 model.

uCloudlink 2.0 model aims to provide mobile data connectivity services to local users across different MNOs in a single country. We started to offer this service in 2018. According to Frost & Sullivan, the market size of local mobile data connectivity services is US\$820 billion in 2018 and is expected to reach US\$1,149 billion in 2023. We allocate another SIM card to a terminal when its current MNO does not have coverage in a certain location, or allocate a SIM card with cheaper data charges or better network quality when multiple MNOs offer coverage in that location. We develop *GlocalMe Inside* implementation for smartphones and other smart hardware products, enabling them to obtain access to our cloud SIM architecture and use our distributed SIM card pool. Users with *GlocalMe Inside* embedded terminals can enjoy reliable and high-speed data connectivity experience at competitive cost. We have launched the *GlocalMe World Phones* series, cooperated with third-party smartphone companies to implement *GlocalMe Inside*, and developed cloud SIM modules for smart hardware products. An MNO or MVNO may also leverage our *GlocalMe* products under uCloudlink 2.0 model to provide local data connectivity in areas where it does not have strong network deployment.

Under uCloudlink 3.0 model, which is in its trial stage, users may share and trade their unused data allowance through our cloud SIM architecture. We believe that our successful uCloudlink 1.0 model and fast-growing uCloudlink 2.0 model will lead us to uCloudlink 3.0 model in the near future. The data allowance from different users will be incorporated to our distributed SIM card pool in addition to those from MNOs and MVNOs. Sharing among users will further enrich the sources of our distributed SIM card pool, help eliminate data wastage and optimize network usage, and make us a vibrant data traffic sharing marketplace. We have conducted trials for the uCloudlink 3.0 model. These trials allowed us to gain initial insights on user behavior and technological requirements for mobile data traffic allowance sharing among individual users.

The graph below summarizes our business ecosystem and monetization model:

To support our business evolution from 1.0 model to 3.0 model, we have strategized our cloud SIM business model in three key stages to fully capitalize the value of our cloud SIM technology and architecture:

- *Stage 1 - B2C Retail:* We started our business primarily by selling or leasing GlocalMe hardware and data packages directly to retail consumers in order to gain market recognition and to prove the superiority of our cloud SIM technology and architecture, as well as the scalability and profitability of our business model.
- *Stage 2 - B2B2C Wholesale:* Once we have proved the concept of cloud SIM, and gained tractions from the market on our product and services, we are able to attract local business partners to collaborate with us and distribute our hardware and data packages in their countries and regions. Our business partners tailor their marketing strategies to resell or lease our hardware and data packages to their local audience, and this tailored operations have helped us to expedite our global expansion. As of December 31, 2019, we had over 1,900 business partners across 45 countries.

- *Stage 3 - PaaS/SaaS Platform:* With extensive experience at serving our business partners across the globe, our core cloud SIM technology and architecture became more mature and comprehensive, and we are able to open up our proprietary platform and software to our business partners to support their operations. Our business partners can rely on our PaaS and SaaS platform for SIM and data traffic management, and focus on sales and marketing, as well as procure customized ODM (Original Design Manufacture) hardware and data packages from their proprietary sources to fully exploit their edge in their local markets. Such specialization enables us and our business partners to operate more efficiently.

As we migrate from Stage 1 to Stage 3, we are gradually becoming more platform-centric and able to focus on developing and serving our customers and business partners with our core capabilities – cloud SIM technology and architecture, and delegate other functions to our local business partners. This model will allow us to further expedite our global expansion by forming a global partner ecosystem. Simultaneously, our business partners will also further comprehend our mobile network offering by hosting their SIM cards on our platform locally.

Our Cloud SIM Technology and Architecture

Relying on our cloud SIM technology and architecture, we provide users with mobile data connectivity service with reliable connectivity, high speed or competitive price. The cloud SIM technology enables compatible terminals to use local data network without changing SIM cards, whereas the cloud SIM architecture supports the operation of cloud SIM technology.

Cloud SIM Technology

We have developed our cloud SIM technology based on remote SIM connection, which means that SIM cards are not located inside the mobile terminals but remotely connected. Because SIM cards are not locally hosted on the terminals, we can easily switch the SIM card from one to another dynamically over the cloud. Cloud SIM technology requires two connections simultaneously, many chipsets in the market support our cloud SIM technology through firmware upgrade. As of December 31, 2019, we owned 43 patents relating to the cloud SIM technology in China, Japan, United States and other countries, and had 62 pending patent applications.

The key advantages of our cloud SIM technology include:

- *Availability.* Users are no longer limited to one particular MNO. MNOs become suppliers of data traffic and can be easily replaced by their competitors. In addition, end users in our proposed uCloudlink 3.0 model may also become our sources of data traffic.
- *Better network quality and connection.* Cloud SIM technology allows dynamic selection of network services based on signal coverage and cost to achieve better network quality, more reliable connection and lower cost.
- *Security.* The cloud SIM technology follows the existing telecoms technology, and presents no additional security risk.

Cloud SIM Architecture

The cloud SIM architecture mainly consists of (i) a distributed SIM card pool with data traffic purchased by us or provided by our business partners, hosted locally or remotely using SIM banks and other terminals; (ii) uCloudlink cloud SIM platform, including software and necessary infrastructures for users and business partners; and (iii) user-end terminals such as *GlocalMe* portable Wi-Fi terminals and smartphones, and *GlocalMe Inside* implementations in third-party smartphones as well as smart-hardware products. Network data supplied from the distributed SIM card pool are delivered to end terminals through uCloudlink cloud SIM platform using cloud SIM technology.

[Table of Contents](#)

Our cloud SIM architecture allows a broad range of business partners, such as mobile terminal brands, MVNOs, MNOs, mobile Wi-Fi terminal rental companies and distribution channels, to participate in our fast-growing business. Our distributed SIM card pool includes distributed SIM banks operated by us and our business partners, contributing to a data supply network with global coverage. Our cloud SIM platform supports our business partners so that they can offer reliable services and generate revenues efficiently. The end terminals allow users to enjoy mobile data connectivity services with reliable connectivity and high speed.

The illustration below demonstrates the components of our cloud SIM architecture:

Distributed SIM Card Pool—Supply for Mobile Data Connectivity Services

Our distributed SIM card pool includes SIM cards purchased and managed by us, and those hosted and managed by our business partners using primarily SIM banks. It also supports data sharing by users in the future through SIM boxes and *GlocalMe Inside* smart phones and devices under our uCloudlink 3.0 model.

Our SIM Banks. We operate our own distributed SIM banks to host a large number of local data SIM cards, which altogether enable us to provide global mobile data connectivity services in 144 countries and regions, including those countries traditionally renowned for high roaming cost, such as the Maldives and Mauritius. With cloud SIM technology, we simply purchase and use local SIM cards locally, reducing our data cost and eliminating the need to negotiate complicated roaming terms with MNOs. See “—Mobile Data Procurement and Management.” As of December 31, 2019, we hosted over 435,100 SIM cards on SIM banks managed by ourselves and our partners.

Business Partners’ SIM Banks. Local SIM banks can also host a large number of data SIM cards, which can be physical SIM cards, e-SIM or soft SIM cards, and may be managed by our business partners directly. For example, a MNO or MVNO from whom we procure data may operate a local SIM bank and manage the data plans and SIM cards more efficiently. A portable Wi-Fi rental service business partner may purchase data locally and host these SIM cards in local SIM banks to meet its data demand within its operating region. We charge our business partners by the number of SIM cards hosted and the data volume provided through our architecture. As of December 31, 2019, the SIM cards hosted in local SIM banks and in our SIM banks on account of our business partners accounted for 63% of our whole distributed SIM card pool.

SIM Box and Other SIM Terminals. Under our uCloudlink 3.0 model, users will be able to sell or exchange unused data allowances via our distributed SIM card pool by using *GlocalMe* SIM boxes, *GlocalMe Inside* smartphones and other SIM terminals. *GlocalMe* SIM box is our cloud SIM technology solution for users who need to have multiple SIM cards standby. SIM box is designed to be placed at home instead of being carried around. Users of our SIM box can remotely connect via their smartphones to the SIM cards in the box for data connectivity, calls and text messages. We monetize *GlocalMe* SIM box by selling the hardware products, and will add more features and provide services through SIM box in the future.

uCloudlink Cloud SIM Platform—Dispatcher of Mobile Data Connectivity Services

Our uCloudlink cloud SIM platform is the core of our cloud SIM architecture. The cloud SIM platform manages terminal information and user accounts and intelligently allocates all the SIM cards hosted in our cloud SIM architecture. It computes detailed scores for network performance of various mobile data networks in a given location. Such integrated knowledge allows the cloud SIM platform to detect and select the best local network or most cost-efficient network available in our distributed SIM card pool for each user, and automatically connect the associated SIM card to the terminal. The cloud SIM platform further includes portals and tools for users and business partners to track and manage the mobile data connectivity service and smart

terminals. We also provide open Application Programming Interface (API) to allow easy integration into business partners' and enterprise customers' existing management software.

Platform-as-a-Service (PaaS). We offer our uCloudlink cloud SIM platform as PaaS to our business partners and charge associated service fees. Our SIM card allocation algorithm increases the efficiency and utilization rate of the SIM cards, allowing business partners and us to generate attractive usage economics and minimize data wastage. In addition, as SIM cards purchased by us and those hosted by various business partners are incorporated in the architecture as an integrated SIM card pool, mobile data connectivity service providers such as MNO and MVNO business partners can not only offer their own data connectivity service on our platform, but also easily obtain access to data connectivity services from other service providers.

Big Data and Advanced Algorithms. As our platform represents our users' first entry-point to the mobile internet, we are able to obtain timely and first-hand feedback from users of our mobile data connectivity services, and gain access to a large volume of network coverage and performance related information. We develop and leverage big data analytics to enhance the accuracy of our data usage demand predictions, optimize our operations, and deliver best-in-class user experience. For example, insights into the network performance and user data traffic demand help us react to network spikes and interruptions quickly. We may provide such insights as business intelligence to our business partners in the future to optimize their network infrastructure deployment and improve the service experience of their customers and to provide more advanced value-added services, such as advertisement.

Cloud Infrastructure. We have built a robust technology infrastructure to support the delivery of mobile data connectivity solutions globally. We currently utilize third-party clouds to host our network infrastructure and cloud SIM platform servers. Cloud infrastructure allows elastic and distributed supply of computing power and bandwidths to accommodate traffic spikes, increasing the robustness of our system. When we experience elevated demand from our users, for example during summer holidays or other peak traveling seasons, we may expand our cloud SIM platform efficiently in various countries and regions to address the increased demand. In the unlikely event that our access to one of our platform server is interrupted, cloud technology allows immediate service supplement from servers in other places to fill in and provide continuous services. We also back-up our servers and data on a daily basis using cloud technology to minimize the risk of data loss, which enables instant system restoration and reliable service.

Smart Terminals—Demand for Mobile Data Connectivity Services

Terminals that are compatible with our cloud SIM technology are a vital part of our business. Empowered by our cloud SIM technology, these terminals free users from physically changing SIM cards, ready to connect to global mobile networks with reliable connectivity, high speed and competitive prices. Our cloud SIM technology enables the terminals to communicate to our cloud SIM platform the basic information regarding network selection and cloud SIM card matching, and provides the terminals with high-speed mobile data connectivity services. Terminals report information of network performance at their locations back to the cloud SIM platform so that it can dynamically improve its network allocation efficiency. Users may purchase local data packages and international data packages and manage their terminals through our *GlocalMe* apps.

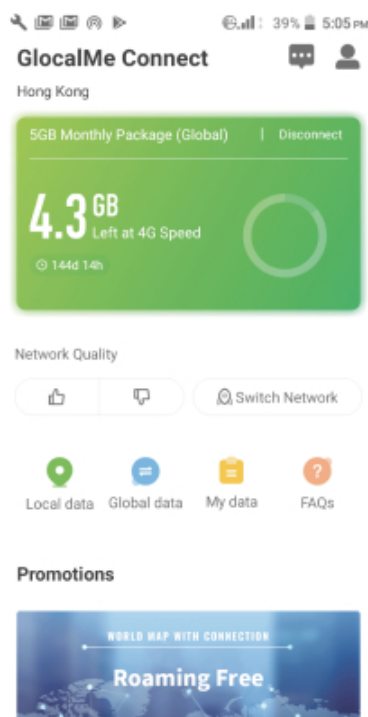

Supported by our broad network coverage and powerful cloud SIM platform, we have introduced a range of compatible terminals, including portable Wi-Fi terminals, *GlocalMe Inside* embedded smartphones and other smart-hardware products such as IoT terminals. Under uCloudlink 1.0 model, most of the smart terminals are portable Wi-Fi terminals for international roaming purposes. Under uCloudlink 2.0 model, most terminals are smartphones with *GlocalMe Inside* implementation, through which users can enjoy both local and international mobile data connectivity services. See “—Our Products and Services.”

GlocalMe Connect and Other Apps. The *GlocalMe Connect* app enables seamless usage of our mobile data connectivity services on compatible third-party terminals. Our app is adopted through either pre-installation or

[Table of Contents](#)

subsequent firmware update in third-party smartphones of leading global handset brands, or offered by our business partners under the own brands. Users need to activate this app to enjoy our mobile data connectivity services. Users may easily check balance of their current data plans, renew their plans, purchase and top up other local and global data packages, maintain their accounts and obtain access to online customer support. For each country or region, users can choose from unlimited data pass in particular periods, normal data packages by data amounts, and packages for multiple countries in that region.

The illustrations below show the interface and functions of our *GlocalMe Connect* app:

Besides *GlocalMe Connect* app, we also offer *GlocalMe* app that can be downloaded from app stores to manage portable Wi-Fi terminals, and *GlocalMe Call* app to manage voice calls and text messages that are remotely hosted on SIM boxes.

Our Products and Services

Leveraging on our integral cloud SIM technology and architecture, the core of our business is to provide reliable and high-speed mobile data connectivity services at competitive prices, which we deliver through a range of hardware products and service solutions to our business partners, retail and enterprise customers. The main hardware terminals we offer include portable Wi-Fi terminals, smartphones and smart-hardware products for international and local mobile data connectivity services. We also provide business solutions using multiple types of terminals to enterprise customers, as well as other value-added services to our business partners.

Since October 2019, our cloud SIM platform is ready to support traffic from 5G networks. While MNOs globally are rolling out 5G networks and smartphone manufacturers are launching 5G-compatible models, smooth and reliable 5G experience outside of home country will not achieve in the near- to mid-term, as MNOs will probably require new 5G roaming agreements and tariff arrangements. Similarly, in local markets, 5G

roaming agreements between MNOs are also required for wider 5G coverage by combining the 5G networks of multiple MNOs. Our 5G-ready cloud SIM platform offers a ready-to-use solution for MNOs and smartphone manufacturers that enables roaming-free inter-carrier 5G network access domestically and internationally.

GlocalMe Portable Wi-Fi

We launched our *GlocalMe* portable Wi-Fi solutions in 2014 as a signature product under uCloudlink 1.0 model. Empowered by our cloud SIM architecture, our portable Wi-Fi solutions provide high-speed network connection in 144 countries and regions without physically changing SIM cards and supports simultaneous connection for up to five end devices. As we allocate local data SIM cards in our distributed SIM card pool using our cloud SIM technology, cross-border travelers using our portable Wi-Fi solutions enjoy local mobile data connection just like local users, which is reliable and fast and at competitive rates.

Although *GlocalMe* portable Wi-Fi solutions are primarily targeting users with international roaming needs, they can also be used locally under uCloudlink 2.0 model. As the mobile terminals incorporating our portable Wi-Fi solutions can automatically choose the local mobile data network with best performance at the location, local users may enjoy greater mobile data coverage, more reliable network connection, and lower price, without being restricted to a particular MNO or MVNO.

We offer several models of hardware terminals incorporating our portable Wi-Fi solutions, including those with or without screens. *GlocalMe* hardware terminals come with *GlocalMe* app, through which users may purchase global data using pay-as-you-go system, or choose from various local and international data packages.

Services through “Roamingman” Brand

Roamingman is our brand of the global portable Wi-Fi service business, primarily targeting Chinese users who are traveling abroad under uCloudlink 1.0 model. Besides China, we also operate *Roamingman* business in Malaysia and Singapore. Empowered by our cloud SIM architecture, *Roamingman* provides global data connection through using our terminals. Users may obtain our portable Wi-Fi through multiple channels, including multiple *Roamingman* e-commerce platforms, online travel agencies such as Ctrip and Fliggy, airlines and other travel related companies. We offer flexible use periods, coverage regions and extension options to address the diverse needs from cross-border travelers. After reserving the terminals with deposits, users may pick up and return the terminals at airports, convenience stores, or via courier services.

We typically charge users a daily service fee that includes unlimited data usage in that day. The price of the daily service fee depends on the countries and regions the users plan to visit. In each of 2018 and 2019, we fulfilled approximately 2.6 million reservations of portable Wi-Fi terminals through *Roamingman* brand, and accumulated a total of approximately 19.5 million and 19.4 million usage days with our terminals, respectively. In 2018 and 2019, 24.4% and 25.4% of users used our *Roamingman* terminals more than once, respectively.

Direct Sales

We also directly sell our *GlocalMe* portable Wi-Fi solutions to enterprise and retail customers through online and offline channels in multiple countries and regions, such as China, Japan, Europe and the United States. Frequent cross-border travelers and enterprise customers may be better off by buying our terminals with data plans instead of short-term leasing. Our customers also include local users who seek to access more reliable and less expensive mobile data network locally following uCloudlink 2.0 model. We generate revenue by selling the solutions, including the hardware and data packages for future use. We also generate revenue when users purchase additional data package through our products. Users may purchase our terminals on online e-commerce platforms such as Amazon and T-mall, as well as through in-flight magazines on supported airlines such as Cathay Dragon.

Co-operation with Business Partners

We have collaborated with business partners to provide access to our portable Wi-Fi solutions in other countries. Our business partners for *GlocalMe* portable Wi-Fi solutions include MNOs, MVNOs and portable Wi-Fi rental companies. Typically, we generate revenue by selling the hardware terminals to our business partners and providing mobile data connectivity services through our cloud SIM architecture. Our uCloudlink cloud SIM platform offers customer management tools, back-end SIM card tracking and data billing system, and provides access to global mobile data networks. In addition to utilizing data traffic available on our cloud SIM platform, business partners may also procure SIM cards and host the SIM cards in our cloud SIM architecture to provide data connectivity services to their customers. As of December 31, 2019, we had approximately 300 business partners for *GlocalMe* portable Wi-Fi solutions in 42 countries, and we had sold approximately 896,700 terminals to our business partners.

Platform-as-a-Service (PaaS) / Software-as-a-Service (SaaS)

We offer uCloudlink cloud SIM platform as a service to our business partners with a service charge. Our uCloudlink cloud SIM platform intelligently chooses best performing local network, supporting a massive number of terminals and users. Our PaaS and SaaS offering consists of modules such as customer relationship management, operations support system, business support system, and SIM card enterprise resource planning and management, which enable our PaaS and SaaS customers to become over-the-top (OTT) operators. PaaS targets sophisticated business partners that have their own business operation software, such as MNOs and portable Wi-Fi rental companies, to improve their cooperation with us. The cloud SIM platform includes APIs to allow easy integration into business partners' and enterprise customers' existing business management software.

SaaS targets business partners that do not have their own business operation software. We support full business software solutions such as customer management and billing, sales and purchase of data packages, data package design, traffic supply and demand analysis, and multiple payment methods. Leveraging on the network data we collected through our operation, we are able to provide insights to our business partners to boost their operation efficiency through advanced algorithms. Business partners may access to a dashboard through *ucloudlink.com*.

Our distributed SIM card pool includes distributed SIM banks that may be operated by our business partners locally to maintain and manage their SIM cards, which will be dispatched through our cloud SIM platform. Our business partners include MNOs, MVNOs, portable Wi-Fi rental companies, and smartphone and smart-hardware companies. See “—Our Cloud SIM Technology and Architecture—Cloud SIM Architecture.”

PaaS and SaaS related service fees typically include revenue derived from SIM card performance improvement, SIM card hosting fees, software license fees and data pool exchange service fees, which are highly recurring monetization models. We typically charge our business partners for service fees for PaaS and SaaS provided and based on the number of SIM cards hosted in our distributed SIM card pool. Since the launch of our PaaS and SaaS services, we have experienced no customer churn and substantially all of our PaaS and SaaS customers had been growing in terms of their absolute revenue contribution between 2017 and 2019. We had two PaaS and SaaS customers in 2017, three in 2018 and six in 2019. As business partners realize the commercial benefits from leveraging uCloudlink's PaaS and SaaS services, we believe they will gradually migrate more of their SIM and data traffic management functions to uCloudlink. Our PaaS and SaaS services are complementary in nature and form a complete value cycle at serving our business partners' needs.

GlocalMe Inside Implementations

We believe that reliable and high-quality connectivity is the crucial factor for mobile phones no matter how many fancy add-on features they come with. Hence, we provide *GlocalMe Inside* implementation solutions for smartphones so that users can enjoy reliable network experience with the mobile phone itself using the respective *GlocalMe Inside* app, without physically changing SIM card or carrying an external portable Wi-Fi terminal.

This was done via a series of technological collaborations between us, mobile terminal brands and major chipset brands. We enable *GlocalMe Inside* services in existing mobile models with supporting chipsets by simply notifying the mobile terminal users to update their firmware. Alternatively, third-party mobile phone brands can also pre-install our *GlocalMe Inside* solutions on their new mobile terminals, which can also become a unique selling feature of their new products. We believe by having an embedded data solution, third-party mobile terminal brands will be able to diversify their product offerings and participate in telecommunication ecosystem. As of the date of this prospectus, there are approximately 4.9 million smartphones that support *GlocalMe Inside*, and over 167,100 of those had activated their *GlocalMe* mobile data connectivity service.

While *GlocalMe Inside* is capable of providing both local and international mobile data connectivity services, given the convenience that comes with an embedded data solution, *GlocalMe Inside* will further promote our signature implementation of uCloudlink 2.0 model, targeting high-speed seeking reliable and fast local data connectivity.

Collaboration with Mobile Terminal Business Partners

As of the date of this prospectus, we had collaborated with seven mobile terminal brands. Below are our key mobile terminal brand business partners:

- *Chinese smartphone companies.* We have partnered with three smartphone manufacturers in China, including TCL, to provide *GlocalMe Inside* implementation for certain models of their smartphones. As of the date of this prospectus, one manufacturer has launched our *GlocalMe Inside* implementation on two of its models, and we expect TCL and at least one more Chinese partner to launch *GlocalMe Inside* implementation in early 2020.
- *Cherry Mobile.* Cherry Mobile is one of the major mobile device brands in the Philippines. As of the date of this prospectus, Cherry Mobile has completed testing mobile devices implemented with *GlocalMe Inside* and currently targets to release approximately 30,000 units of the Cherry Roam model that are embedded with our cloud SIM technology. We launched our *GlocalMe Inside* implementation on Cherry Roam smartphones in August 2019 in the Philippines.
- *Advan.* Advan is one of the major mobile device brands in Indonesia. Advan launched *GlocalMe Inside* on three of its smartphone models in Indonesia in 2019. By the end of 2019, *GlocalMe Inside* had been implemented on a total of approximately 175,000 Advan mobile terminals.

We sell data packages to mobile terminal users through *GlocalMe Inside* implementation ourselves or through our mobile terminal brand business partners. We collect user payment when they purchase data packages through the pre-installed app and will pay the smartphone company a pre-determined percentage of such payments we received as commissions. The percentage depends on the nature of the collaborations and the countries where the mobile terminal users are using our mobile data connectivity services. For *GlocalMe Inside* implementation, we either piggyback our business partners' sales efforts to sell their mobile terminals with our data connectivity services embedded. Alternatively, we can become distribution channels of our business partners by selling their terminals and our mobile data connectivity services. In September 2019, we began this model whereby we purchase handsets from our business partners, then implement *GlocalMe Inside*, and sell the handsets to wholesalers.

GlocalMe World Phone

Prior to the commercialization of *GlocalMe Inside* in third-party mobile terminals, we launched *GlocalMe World Phones* in 2018, mobile phones that come with *GlocalMe Inside* implementation and allow users to easily gain access to data network options through *GlocalMe Connect* app, showcasing our *GlocalMe Inside* technology. We sell *GlocalMe World Phones* to selected distribution partners, such as Hong Kong Broadband Network Limited, Maya System Inc. in Japan, and a leading European car rental company.

[Table of Contents](#)

GlocalMe World Phones can instantly connect to global and local mobile network without extra equipment or changing SIM card using our cloud SIM technology. They monitor the network performance in real time and automatically switch to the best available network locally. At the same time, *GlocalMe* World Phones can serve as Wi-Fi hotspot for five simultaneous connections.

We generate revenue by selling the hardware products and offering data packages for the smartphones. We sell our *GlocalMe* World Phones through online e-commerce platforms and offline channels.

GlocalMe Inside in other Smart Hardware

Some of other smart terminals also use smartphone chipsets and satisfy the requirements of cloud SIM technology. We provide the firmware upgrade to third parties without additional hardware cost to enable global mobile data connectivity services on these terminals, including mobile Wi-Fi, intelligent translators, industrial routers, and smart speakers.

Other Products and Services

IoT Module

In the new era of IoT, we offer IoT modules with *GlocalMe Inside* implementation to meet the huge demand for mobile data from various terminals, and provide integrated network solutions to our customers. IoT modules are primarily targeting enterprise customers seeking for cost-effective and reliable data connectivity with low network latency in their products, to be used locally and internationally. For example, we provide data network solutions for translation terminals. We also help logistic companies to deploy their freight trucks using IoT modules installed on the vehicles. We expect to generate revenue from IoT modules by selling hardware and data packages. As 5G becomes more available, IoT providers will be more dependent on our cloud SIM architecture and service solutions.

SIM Cards

As a complementary product under uCloudlink 1.0 model, we sell SIM cards with prepaid data packages that we procure from various sources around the world to outbound travelers who prefer the traditional method of physically changing the SIM cards in their smartphones. We expect to expand our user base and data usage through this model, and cross-sell our other products and services.

Value-Added Services

As users surf on internet through the mobile data connectivity services we provide, we are the first entrance for users and their information. Based on this advantage, we provide a number of value-added services to our business partners, such as advertisement. We collaborate with our business partners and other third-party advertisement agencies to provide advertisements on our products based on our big data analysis results. These advertisements are displayed on the screens of our portable Wi-Fi terminals, *GlocalMe* World Phones and our *GlocalMe Connect* app. We also provide other value-added services to our users, especially cross-border travelers, such as map, translation, car reservation and itinerary planning.

Mobile Data Procurement and Management

We provide mobile data connectivity services to our users, and we procure mobile data from various sources to form our distributed SIM card pool. We have aggregated mobile data traffic allowances from 230 MNOs in 144 countries and regions in our cloud SIM architecture. Data are consumed on our platform either directly by our users or indirectly through our business partners. Data consumed directly by our users increased from approximately 8,000 terabytes in 2017 to 19,100 terabytes in 2018, and further to 30,500 terabytes in 2019, while

data consumed through our business partners increased from approximately 1,000 terabytes in 2017 to 8,900 terabytes in 2018, and further to 60,000 terabytes in 2019. The graph below illustrates the flow of our data traffic allowance.

Data Procurement

Our data sources include MNOs and their sales channels, MVNOs, and other SIM-card trading companies. When we start to offer uCloudlink 3.0 model in the future, users will also become our suppliers of mobile data. We have a dedicated team of 13 data procurement personnel as of December 31, 2019, to purchase global mobile data from various sources. Our data purchasing team covers 144 countries and regions, divided by geographic regions and languages. In 2019, our top ten data traffic providers supply 48.8% of our distributed SIM card pool.

We ask for quotations from MNOs and resellers in a region and specify our technical requirements to support cloud SIM technology. Negotiation with MNOs and their sales channels often lasts for up to two months. We generally use framework agreements for data procurement. We notify MNOs of our request for cloud SIM technology support and sometimes include the requirement in the agreement. See “Risk Factors—Risks Related to Our Business and Industry—We depend on network operators for their wireless networks, infrastructures and data traffic, and any disruptions of or limitations on our use of such networks, infrastructures and data traffic may adversely affect our business and financial results.”

As we have aggregated mobile data traffic allowances from 230 MNOs, we possess bargaining power during the negotiation due to competition among MNOs and sometimes offer bidding process to purchase data with better price and terms. As our user base grows, larger demand for data also drives up our bargaining power with data suppliers. We further increase our bargaining power from our algorithm on pricing and user demand prediction. We technically analyze data packages across MNOs and other data suppliers and choose the combination with lower price or better network coverage. As our service maximizes network utilization, simplifies the cooperation among MNOs, improves network coverage and service quality of MNOs and fully utilizes network capacity, especially 5G, MNOs are more willing to offer us leftover data with low price.

Our operation under uCloudlink 2.0 model involves the purchase and use of local data, and some local regulator require additional telecommunication licenses and permits. We use our best efforts to obtain the requisite licenses and permits by collaborating with or forming joint venture with local business partners who possess such licenses and permits or by applying by ourselves. For example, in May 2019, we made an investment in a licensed MVNO primarily engaged in telecommunications related business.

The procured data, especially those from sources other than MNOs themselves, are subject to testing and validation before commercially loaded in our distributed SIM card pool. This ensures that the data included in the SIM card has the volume and network performance parameters as the agreement specified.

Data Demand Projection

To ensure reliable mobile data connectivity services to our users, we have a planning team to predict mobile data demand through modeling. The model looks at seasonality, regions and countries, network performance and other features to predict users' data demand at a specific time in a geographic area.

In the rare event where mobile data demand spikes and our normally procured data cannot fulfill that one-off demand, we have set up procedures to ensure our service quality. When the data usage reaches a threshold percentage of our distributed SIM card pool, our system will alert us. We may activate backup SIM cards, which often provide more expensive data package and do not incur cost before activation. For example, in the event that the data demand in Hong Kong spikes, we may activate a backup SIM card in Hong Kong, and if no local backup SIM card is available, activate a Thailand SIM card using daily international roaming plan, to cover data demand in Hong Kong. Based on the prediction from modeling, if we find that our data traffic is not sufficient to cover the data demand, we may utilize data traffic made available by our business partners on our platform or purchase SIM cards from MNOs. If these measure still cannot solve the demand, we will temporarily stop service for new users or suspend new data package orders. In the worst situation, we may pause service for users with low data demand.

Data Pricing Strategy

We set the prices of our mobile data packages based on prevailing market price. We also use algorithms to create our data plans by a fresh combination of the data packages in our distributed SIM card pool. This significantly enhances the efficiency of our data SIM card management and increases the margin of our data operation.

Leveraging our Business Operations Support System (BOSS), we allow users to customize the data packages they wish to purchase, and we assign tailor-made pricing to the data packages created by the users, based on their own needs and some metrics, such as the length of the data plan, the data supplier, the geographic region covered and volume of data traffic needed. We are developing additional customization features so that users may personalize and purchase data plans based on their needs. Such flexibility will enable more reasonable cost for users and increase our network operation efficiency.

Manufacturing and Supply of Components

To produce our hardware terminals that incorporate our mobile data connectivity services, we rely on our manufacturing partners. A significant portion of this manufacturing is currently performed by a small number of outsourcing partners. We have master agreements with our manufacturing partners and issue purchase orders each time, with varying prices. Before engaging a manufacturing partner, we evaluate the plant's manufacturing capabilities, including quality control system, managing mechanism and business performance. We request the manufacturing partner to produce a small batch as testing process. We work closely with our manufacturing partners on manufacturing schedules and components management to ensure that they are able to meet their production commitments. We have an on-site quality control team to randomly test the products and oversees the working flow from components to end products.

We have a dedicated team to purchase required components to meet specified requirements of our customers. Most components essential to our business are generally available from multiple sources. However, a few components, such as chipsets, are at times subject to industry-wide shortage, significant pricing fluctuations and long supply cycles. We communicate with chipset manufacturers or their agents periodically regarding their production plans. We also apply our own monthly demand prediction for the following three months to purchase and store components.

We engage our manufacturing partners for component inventory storage as well. We do not maintain warehouses for end products as we primarily produce according to purchase orders. We also outsourced the logistics service to third-party courier companies.

Marketing and Business Development

We promote our products and services through a variety of online and offline marketing and promotional activities. We primarily market our *Roamingman* portable Wi-Fi service through online travel agencies such as Ctrip, as well as through offline channels. We also promote our *Roamingman* brand with embedded advertisement in movies to reach broader consumer market. For *GlocalMe* portable Wi-Fi terminals, we publish advertisement on in-flight magazines with support from airlines, for example, Cathay Dragon. For *GlocalMe Inside* and other services based on our cloud SIM architecture, we establish our brand recognition to reach more potential business partners by participating exhibitions in tourism, consumer electronics and telecommunications. To promote *GlocalMe Inside*, we provide promotional data traffic allowance from time to time to acquire new users, and we collaborate with smartphone companies that use *GlocalMe Inside* implementations to activate their existing users by pushing advertising messages to the handsets and conducting other targeted marketing. When holidays approach, we also promote data discount through WeChat accounts, email newsletters and short text messages.

We have a dedicated business development team in charge of the marketing of our other products and services to potential business partners and enterprise customers. We believe that sales of our reliable and high-quality products and services are enhanced by knowledgeable salespersons who can convey the value of our cloud SIM technology and demonstrate various use scenarios enabled by our products. We further believe providing direct contact with our business partners is an effective way to demonstrate the advantages of our products and providing a high-quality sales and after-sales support experience is critical to attracting new and retaining existing business partners. Most of our sales personnel previously work in notable technology companies and have years of sales experience and technological knowledge base to support their sales activities. We establish our brand recognition to reach more potential business partners by participating exhibitions in tourism, consumer electronics and telecommunications.

Customer Support

We maintain a dedicated customer service team in our ongoing efforts to maintain end-user satisfaction and improve our products and services. We offer customer support for global users in Chinese, English, Japanese and Cantonese, and we plan to offer more language support for *GlocalMe Inside* products. Users may contact customer support directly from *GlocalMe Connect* app anytime to report issues and voluntarily provide feedback on our products and services, which help us further improve our current business or develop and launch new services. We currently provide all of customer service by ourselves, but some of our customer service was outsourced in the past. Our business partners, such as MNOs, MVNOs, portable Wi-Fi terminal rental companies and smartphone companies and vendors, often employ their own customer service teams as the first line facing users. We provide additional customer service and technical support for these teams.

Our customer support team typically solves the following issues: (i) consultation on data packages and their definitions, (ii) questions regarding payment methods, and (iii) network performance glitches. For portable Wi-Fi terminals, users may mail back the broken terminal for repair and we often plan for backup terminals to cover our *Roamingman* services. When we receive a user complaint, our customer support team will solve according to our service policy. If the user is not satisfied, the issue will be escalated to our management team.

Research and Development

We invest significant resources in research and development to improve our technology and develop solutions supporting our cloud SIM operations. We incurred US\$13.3 million, US\$20.4 million and US\$15.1 million of research and development expenses in 2017, 2018 and 2019, respectively.

We have a team of experienced engineers who are primarily based in China. We recruit most of our engineers locally and have established various recruiting and training programs to keep them abreast of the most

advanced technologies. As of December 31, 2019, our technology team had a total of 341 personnel, primarily focusing on the development of cloud SIM technology and our architecture, firmware and software development, big data analysis and hardware development.

Our research and development team has been working on our uCloudlink 3.0 model, where users may trade unused data allowance through our cloud SIM architecture. The multiple trials our engineers have conducted under the uCloudlink 3.0 model allowed us to gain insights on user behavior and technological requirements for sharing of data traffic allowance among individual users.

Data Privacy and Security

We are committed to protecting information security of all users and business partners within our cloud SIM architecture. We have established and implemented a strict company-wide policy on data collection, processing and usage. We collect network performance information and other data that is related to the services we provide and use the collected data for our operations, all with users' consent.

We build our security protocols and processes for research and development, supply chain and other aspects of our business operations. We have a security team of engineers and technicians dedicated to protecting the security of our data and our system. The mechanism of our cloud SIM technology is secure as it does not authorize third parties to modify SIM card profiles. We anonymize and encrypt confidential personal information and take other technological measures to ensure the secure processing, transmission and usage of data. We have also established stringent internal protocols under which we grant classified access to confidential personal data only to limited employees with strictly defined and layered access authority. In addition, we use third-party security system provided by our cloud service providers. Our security system is capable of handling malicious attacks each day to safeguard the security of our architecture and to protect the privacy of our users.

We adopt security and data privacy practices in compliance with local cyber security law and data privacy regulations in the countries and regions that we operate, including cyber security law of China, data privacy laws of Indonesia and GDPR. See "Risk Factors—Risks Related to Our Business and Industry—We are subject to complex and evolving laws and regulations regarding privacy and data protection" and "Regulations—Regulations Related to Internet Information Security and Privacy Protection."

Intellectual Property

We regard our patents, trademarks, copyrights, domain names, know-how, proprietary technologies, and similar intellectual property as critical to our success. As of December 31, 2019, we owned 43 patents relating to the cloud SIM technology in China, Japan, United States and other countries, and had 62 pending patent applications. Our patents cover our key technologies, including cloud SIM architecture and supporting terminals, design patents, hardware antenna and hardware configuration. We also own 122 registered trademarks, including *GlocalMe*, *Roamingman* and *uCloudlink*, copyrights to 33 software programs developed by us relating to various aspects of our operations, and 48 registered domain names, including www.ucloudlink.com, www.glocalme.com and www.roamingman.com.

We seek to protect our technology and associated intellectual property rights through a combination of patent, copyright and trademark laws, as well as license agreements and other contractual protections. In addition, we enter into confidentiality and non-disclosure agreements with our employees, our suppliers and manufacturers, our business partners and others to protect our proprietary rights. The agreements we enter into with our employees also provide that all patents, software, inventions, developments, works of authorship and trade secrets created by them during the course of their employment are our property.

We intend to protect our technology and proprietary rights vigorously. We have employed internal policies, confidentiality agreements, encryptions and data security measures to protect our proprietary rights. However,

[Table of Contents](#)

there can be no assurance that our efforts will be successful. Even if our efforts are successful, we may incur significant costs in defending our rights. From time to time, third parties may initiate litigation against us alleging infringement of their proprietary rights or declaring their non-infringement of our intellectual property rights. See “Risk Factors—Risks Related to Our Business and Industry—Our intellectual property rights are valuable, and any inability to protect them could reduce the value of our products, services, and brand” and “Risk Factors—Risks Related to Our Business and Industry—We are, and may in the future be, subject to intellectual property claims, which are costly to defend, could result in significant damage awards, and could limit our ability to use certain technologies in the future.”

Competition

The mobile data connectivity services industry is rapidly evolving and increasingly competitive. While we create unique values to and collaborate with MNOs and MVNOs, who are important participants on our mobile data traffic sharing marketplace, we also face competition from them. Our primary competitors under uCloudlink 1.0 model are other international roaming solution providers, including MNOs’ roaming and one-off tourist SIM card services. Our primary competitors under uCloudlink 2.0 model are MVNOs. Our cloud SIM technology also faces competition from soft SIM technology and eSIM technology. See “Industry—Overview of the Global Mobile Data Connectivity Industry and Key Trends—Major mobile data connectivity service providers.”

We believe that we are strategically positioned in global mobile data connectivity services industry and we compete with others based on the following factors: (1) strong relationships with business partners around the globe to expand our product penetration; (2) advanced cloud SIM technology and architecture that deliver high quality mobile data connectivity experience to end users; (3) innovative *GlocalMe Inside* solutions that bring new opportunities to the hardware terminal value chain; and (4) experience and track record of success in the telecommunications business.

Employees

We had a total of 911, 916 and 804 employees as of December 31, 2017, 2018 and 2019, respectively. The following table sets forth the numbers of our employees categorized by function as of December 31, 2019.

<u>Function</u>	<u>Number of Employees</u>
Research and Development	341
Business Development, Sales and Marketing	351
Administration and Management	112
Total	804

Our success depends on our ability to attract, motivate, train and retain qualified personnel. The average age of our employees is below 32 and 67% of our employees have obtained bachelor’s degrees. We believe we offer our employees competitive compensation packages and an environment that encourages self-development and, as a result, have generally been able to attract and retain qualified personnel and maintain a stable core management team.

We enter into standard labor contracts and confidentiality agreements with our employees. As required by regulations in China, we participate in various employee social insurance plans that are organized by municipal and provincial governments, including pension, unemployment insurance, childbirth insurance, work-related injury insurance, medical insurance and housing fund. We are required under PRC law to make contributions to employee social insurance plans at specified percentages of the salaries, bonuses and certain allowances of our employees, up to a maximum amount specified by the local government from time to time. See “Risk Factors—Risks Related to Our Business and Industry—The enforcement of the PRC Labor Contract Law and other labor-related regulations in the PRC may adversely affect our business and results of operations.” Bonuses are

generally discretionary and based in part on employee performance and in part on the overall performance of our business. We have granted, and plan to continue to grant, share-based incentive awards to our employees in the future to incentivize their contributions to our growth and development.

Facilities

We are headquartered in Hong Kong and have offices in China and a few other countries. As of the date of this prospectus, we have leased office space, warehouses, server rooms and data centers in our key markets as summarized below. We lease our premises under operating lease agreements from independent third parties. We believe that our existing facilities are generally adequate to meet our current needs, but we expect to seek additional space as needed to accommodate future growth.

<u>Location</u>	<u>Space</u> <u>(sq.m. approx.)</u>	<u>Use</u>	<u>Lease Term</u>
Hong Kong	373	Office and other premises	half a year to two years
China	8,371	Office, sales counter and warehouse	half a year to three years
Overseas	635	Office and other premises	one to two years

Insurance

We maintain various insurance policies to safeguard against risks and unexpected events. We have contracted with leading insurance companies and providers to obtain insurance coverage for product liability and freight transportation. In addition to providing social insurance for our employees as required by PRC law, we also provide supplemental commercial medical insurance for our employees. We have maintained product liability insurance for our terminals.

Legal Proceedings

We have been involved in a series of intellectual property lawsuits against SIMO Holdings Inc., or SIMO, and its affiliates.

In June 2018, HONGKONG U-CLOUDLINK NETWORK TECHNOLOGY LIMITED and Ucloudlink (America), Ltd., two of our wholly-owned subsidiaries, were named as defendants in a complaint filed by SIMO in the United States District Court for the Southern District of New York, alleging patent infringements. The plaintiff initially alleged that our products deployed in the United States infringed its U.S. Patent No. 8,116,735 and U.S. Patent No. 9,736,689, which are referred to as the '735 patent and the '689 patent, respectively, starting from August 2018. The plaintiff subsequently dropped its allegations regarding the '735 patent in January 2019. In April 2019, the court granted summary judgment in favor of SIMO holding that we infringed upon the '689 patent and also granted summary judgment in favor of us holding that there was no pre-suit damages to the extent that SIMO is deemed to have been given actual notice of infringement as to certain of our products. In May 2019, the jury delivered a verdict which awarded SIMO compensatory damages in the amount of approximately US\$2.2 million for a four-month period from August 2018 to December 2018. The jury also found that our infringement was willful, in connection with which the plaintiff sought enhanced damages in the amount of 50% of the compensatory damages. The trial judge delivered a judgment in June 2019, approving enhanced damages in the amount of 30% of the compensatory damages. Subsequently, the parties filed various post-trial motions, and the court denied our motions for judgment as a matter of law and for a new trial as well as SIMO's motion for request for attorney's fees. The court also granted plaintiff's motion for permanent injunction, effective on September 1, 2019, to enjoin us from selling, offering to sell, importing, or enabling the use of three models of portable Wi-Fi terminals and one model of *GlocalMe* World Phone that the court believes infringed upon SIMO's patent in the United States in August 2019. In October 2019, the court amended the total damages to US\$8.2 million to include pre-judgment interest on the awards and supplemental damages for certain sales occurring between January 1, 2019 and August 1, 2019, and certain sales occurring overseas for devices that had

[Table of Contents](#)

previously been sold within the United States between August 13, 2018 and August 31, 2019. We upgraded the allegedly infringing products by pushing a redesigned software update to the devices, which the court concluded on December 9, 2019 were no longer subject to the injunction. On May 1, 2020, we filed a declaratory judgment lawsuit in the Southern District of New York against SIMO to obtain a declaration that our redesigned products do not infringe the '689 patent. The purpose of the new case is to have the court re-issue the previous conclusion as a declaratory judgment so that it is enforceable to block SIMO from accusing our redesigned products of infringing in the future. We have appealed against the court's original ruling in the United States Court of Appeals for the Federal Circuit, and we used an escrow account for paying the damages awarded by the trial judge, awaiting the appellate court to deliver its judgment. We did not accrue any loss contingencies as we did not consider an unfavorable outcome to be probable. In parallel, we filed an invalidity petition in form of *inter partes* review against the '689 patent in the U.S. Patent and Trademark Office and the petition was denied on September 17, 2019. We filed reexamination request in form of *ex parte* review on October 22, 2019, and the request was granted for review in December 2019. We are also making improvements to our products and services in the United States to lower the risk of patent infringement claims in the future.

In January 2020, from unofficial channels such as SIMO's press release, we learned that they are alleging, once again, the infringement of '689 patent and trade secret misappropriation in the United States District Court for the Eastern District of Texas. As of the date of this prospectus, we have not been served with the complaint.

In August 2018, Shenzhen Sibowei'ersi Technology Co., Ltd. and Shenzhen Skyroam Technology Co., Ltd. jointly filed a complaint against our company in Guangzhou Intellectual Property Court in PRC alleging patent infringements. In the lawsuit, the plaintiffs alleged that we infringed one of their patents in the PRC, and require us to, among others, stop manufacturing and selling related terminals and pay damages up to RMB10.5 million. The first hearing of the lawsuit was held on May 13, 2019. To make us a strong case, we filed an invalidity petition against their alleged patent in Patent Reexamination Board of National Intellectual Property Administration in PRC. On July 16, 2019, the Patent Reexamination Board issued a reexamination decision which invalidates their alleged patent in entirety. The plaintiffs applied to withdraw the lawsuit, which was approved on August 14, 2019. In October 2019, Shenzhen Sibowei'ersi Technology Co., Ltd. filed a complaint against the National Intellectual Property Administration in Beijing Intellectual Property Court in PRC petitioning for the withdrawal of the foregoing reexamination decision of invalidity and reaching a new reexamination decision. The lawsuit is awaiting the court's notice.

In August 2018, we filed a complaint in the name of HONGKONG U-CLOUDLINK NETWORK TECHNOLOGY LIMITED and Ucloudlink (America), Ltd. against SIMO and its affiliate Skyroam Inc. in the United States District Court for the Northern District of California. We claimed that the defendants infringed and continued to infringe two of our patents. There was a stipulated dismissal of the claim regarding one patent in September 2019. The defendants filed answer and counterclaim alleging trade secret misappropriation. The court granted our motion to dismiss the counterclaim and dismissed the trade secret misappropriation counterclaim with prejudice on September 12, 2019. This lawsuit is currently in discovery stage. SIMO also filed petition for *inter partes* review to United States Patent and Trademark Office (USPTO) in August 2019, alleging that our patent in this litigation is invalid. The USPTO denied the petition in February 2020.

We filed four lawsuits against Shenzhen Skyroam Technology Co., Ltd. The first one, in the Intermediate People's Court of Shenzhen, claims patent infringement on our patent No. 104.4, and is currently suspended and awaiting to be resumed. The second one, in the People's Court of Nanshan District of Shenzhen, claims commercial defamation infringement, for which the court hearing was held on October 21, 2019 and the final judgment is yet to be delivered. The third one, in the Intermediate People's Court of Shenzhen, claims for patent infringement on our patent No. 366.4, and the hearing of this lawsuit will be held on June 12, 2020. The defendant filed an invalidation petition against patent No. 366.4 in Patent Reexamination Board of National Intellectual Property Administration in PRC in March, 2020 and the lawsuit may be suspended. The fourth one, in the Intermediate People's Court of Shenzhen, claims patent infringement on our patent No. 120.9. The

defendant objected on jurisdictional ground on March 19, 2020, and the court ruled against it on April 8, 2020. As the date hereof, the defendant has not decided whether to appeal for the ruling, and we are waiting for the court's notice.

In June 2019, Shenzhen Skyroam Technology Co., Ltd. filed a complaint in the Intermediate People's Court of Shenzhen alleging trade secret misappropriation against one of our employees who is a former employee of Shenzhen Skyroam Technology Co., Ltd., one of our officers and us. The plaintiff alleged that we misappropriated their trade secret by falsely obtaining, disclosing and using the trade secret regarding technology and operation of the plaintiff, and it claimed damages of approximately US\$14 million and cessation of misappropriation. The court denied our motion to transfer the lawsuit from the Intermediate People's Court of Shenzhen to the Higher People's Court of Guangdong and we have appealed for jurisdiction objection on September 17, 2019. The court has not yet reached a verdict. Also, in June 2019, Shenzhen Skyroam Technology Co., Ltd. filed a complaint against us in the Intermediate People's Court of Shenzhen regarding a patent ownership dispute. The plaintiff alleged that our patent No. 011.8, invented by a former employee of our company who had previously worked with the plaintiff, is actually the technical achievement of the plaintiff, thus the patent should be owned by the plaintiff, and it claimed damages of approximately US\$21,000. The exchange of evidence was held in August 2019 and we applied to suspend the lawsuit on October 15, 2019. We further received the court's summons on November 7, 2019 and the first hearing of this lawsuit was held on January 6, 2020. A second hearing may be held in future and the court has not yet reached a verdict. Due to the aforementioned lawsuit, the invalidation petition against patent No. 011.8, which was filed by Shenzhen Skyroam Technology Co., Ltd. in Patent Reexamination Board of National Intellectual Property Administration in PRC in April 2019, has been suspended. We believe the claims do not have merit and intend to defend ourselves vigorously. In addition, in July 2019, Shenzhen Skyroam Technology Co., Ltd. filed another complaint in the Intermediate People's Court of Shenzhen against us relating to patent ownership. The plaintiff alleged that our patent No. 104.4, invented by a former employee of our company who had previously worked with the plaintiff, is actually the technical achievement of the plaintiff, thus the patent should be owned by the plaintiff, and the plaintiff claimed damages of approximately US\$21,000. We objected on jurisdictional ground on October 14, 2019 and the court ruled against us. We have appealed for jurisdiction objection. In the most unfavorable outcome of the aforementioned three cases, we will lose patent No. 011.8 and No. 104.4 and pay damages up to US\$14 million approximately.

Any of the pending lawsuits against us, or any other legal or administrative proceeding, regardless of the outcome, is likely to result in substantial cost and diversion of our resources, including our management's time and attention. See "Risk Factors—Risks Related to Our Business and Industry—We are involved in legal proceedings in the ordinary course of our business from time to time. If the outcomes of these proceedings are adverse to us, it could have a material adverse effect on our business, results of operations and financial condition."

REGULATION

This section sets forth a summary of the principal PRC and Hong Kong laws and regulations relevant to our business and operations.

PRC

Regulations Related to Foreign Investment

Company Law of the PRC

The Company Law of the PRC, which was promulgated by the SCNPC, on December 29, 1993, came into effect on July 1, 1994, and was most recently amended in 2018, provides that companies established in the PRC may either be limited liability companies or companies limited by shares. Each company has the status of a legal person and owns its own assets. Assets of a company may be used in full for the company's liability. The Company Law applies to foreign-invested companies unless relevant laws provide otherwise.

Guidance Catalog of Industries for Foreign Investment

Investment activities in China by foreign investors are principally governed by the Guidance Catalogue of Industries for Foreign Investment, or the Catalog (2017 Edition), which was promulgated by Ministry of Commerce and the National Development and Reform Commission on June 28, 2017 and became effective on July 28, 2017, and the Provisions on Guiding Foreign Investment Direction, which was promulgated by the State Council on February 11, 2002 and came into effect on April 1, 2002, classify all foreign investment projects into four categories: (1) encouraged projects, (2) permitted projects, (3) restricted projects, and (4) prohibited projects. On June 28, 2018, the National Development and Reform Commission and the Ministry of Commerce issued the Special Management Measures (Negative List) for the Access of Foreign Investment (2018 Edition), or the Negative List (2018 Edition), which became effective on July 28, 2018. The Negative List (2018 Edition) replaces the section titled "Special Management Measures for the Access of Foreign Investment (Negative List for the Access of Foreign Investment)" in the Catalog (2017 Edition). On June 30, 2019, the Ministry of Commerce and the National Development and Reform Commission issued the Special Management Measures (Negative List) for the Access of Foreign Investment (2019 Edition), or the Negative List, and the Catalog of Industries for Encouraged Foreign Investment (2019 Edition), or the Catalog which became effective on July 30, 2019 and replace the Negative List (2018 Edition) and the section titled "Catalogue of Encouraged Foreign Investment Industries" in the Catalog (2017 Edition) respectively thereafter.

The Catalog, along with the Negative List, governs investment activities in the PRC by foreign investors. Industries not listed in the Catalog and the Negative List are generally deemed as falling into the "permitted" category, unless specifically restricted by other PRC laws and regulations. For some restricted industries, foreign investors can only conduct investment activities through equity or contractual joint ventures, while in some cases PRC shareholders are required to hold the majority interests in such joint ventures. In addition, some projects in the restricted category are subject to higher-level governmental approvals. Foreign investors are not allowed to invest in industries in the prohibited category. The value-added telecommunications services carried on by us in PRC falls in the restricted category, and foreign investors cannot hold over 50% of equity interests in entities providing such services.

Foreign Investment Law of the PRC

The Foreign Investment Law of the PRC was formally adopted by the Second session of the 13th NPC on March 15, 2019, which came into effect on January 1, 2020 and, together with their implementation rules and ancillary regulations, replaced the trio of laws regulating foreign investment in China, namely, the Sino-foreign Equity Joint Venture Enterprise Law of the PRC, the Sino-foreign Cooperative Joint Venture Enterprise Law of

the PRC and the Wholly Foreign-owned Enterprise Law of the PRC. The organization form and activities of foreign-invested enterprises shall be governed, among others, by the laws of the Company Law of the PRC and the Partnership Enterprise Law of the PRC. Foreign-invested enterprises established before the implementation of this Law may retain the original business organization and so on within five years after the implementation of this Law.

The Foreign Investment Law of the PRC is formulated to further expand opening-up, vigorously promote foreign investment and protect the legitimate rights and interests of foreign investors. According to the Foreign Investment Law, foreign investments are entitled to pre-entry national treatment and are subject to negative list management system. The pre-entry national treatment means that the treatment given to foreign investors and their investments at the stage of investment access shall not be less favorable than that of domestic investors and their investments. The negative list management system means that the state implements special administrative measures for access of foreign investment in specific fields. Foreign investors shall not invest in any forbidden fields stipulated in the Negative List recently effective on July 2019 and shall meet the conditions stipulated in the Negative List before investing in any restricted fields. The Foreign Investment Law does not mention the relevant concept and regulatory regime of VIE structures, please refer to “Risk Factors—Uncertainties exist with respect to the interpretation and implementation of the newly enacted PRC Foreign Investment Law and how it may impact the viability of our current corporate structure, corporate governance and business operations.”

Foreign investors’ investment, earnings and other rights and interests within the territory of China shall be protected in accordance with the law, and all national policies on supporting the development of enterprises shall equally apply to foreign-invested enterprises. Among others, foreign invested enterprises can participate in the formulation of standards in an equal manner and can participate in government procurement activities through fair competition in accordance with the law. Further, the state shall not expropriate any foreign investment except under special circumstances. In carrying out business activities, foreign invested enterprises shall comply with relevant provisions on labor protection, social insurance, tax, accounting, foreign exchange and other matters stipulated in laws and regulations.

Regulations Related to Telecommunications Service

Telecommunications Regulations of the PRC (2016 Revision)

The Telecommunications Regulations of the PRC (2016 Revision), or the Telecom Regulations, which was promulgated on September 25, 2000 by the State Council and most recently amended on February 6, 2016, provides a regulatory framework for telecommunications services providers in the PRC. As required by the Telecom Regulations, a commercial telecommunications service provider in the PRC shall obtain an operating license from the Ministry of Industry and Information Technology, or the MIIT, or its counterparts at provincial level prior to its commencement of operations. The Telecom Regulations categorize all telecommunication businesses in the PRC as either basic telecommunication services or value-added telecommunications services.

Catalog of Telecommunications Business

The Catalog of Telecommunications Business, or the Telecom Catalog, which was issued as an attachment to the Telecom Regulations and updated in February 21, 2003, December 28, 2015 and June 6, 2019, further categorizes value-added telecommunication services into two classes: class I value-added telecommunication services and class II value-added telecommunication services. Internet access services falls within class I value-added telecommunications services. Information services provided via cable networks, mobile networks, or internet fall within class II value-added telecommunications services.

Measures on Telecommunications Business Operating Licenses (2017 Revision)

The Measures on Telecommunications Business Operating Licenses (2017 Revision), or the Telecom License Measures, which was promulgated by the MIIT on March 1, 2009 and last amended on July 3, 2017,

requires that any approved telecommunications services provider shall conduct its business in accordance with the specifications in its license for value-added telecommunications services, or VATS License. The Telecom License Measures further prescribes types of requisite licenses for VATS Licenses together with qualifications and procedures for obtaining such VATS Licenses. Where telecommunications services providers need to continue telecommunications business upon the expiry of their VATS Licenses, they shall file an application for renewal of their VATS Licenses to the original issuing authority 90 days in advance.

Administrative Measures on Internet Information Services (2011 Revision)

The Administrative Measures on Internet Information Services (2011 Revision), which was promulgated on September 25, 2000 and amended on January 8, 2011 by the State Council, requires that commercial internet information services providers, which mean providers of information or services to internet users with charge, shall obtain a VATS License with the business scope of internet information services, namely the Internet Content Provider License or the ICP License, from competent government authorities before providing any commercial internet content services within the PRC.

Restrictions on Foreign Direct Investment in Value-Added Telecommunications Services

Foreign direct investment in telecommunications companies in China is governed by the Provisions on the Administration of Foreign-Invested Telecommunications Enterprises, which was promulgated on December 11, 2001 and amended on September 10, 2008 and February 6, 2016 by the State Council. The regulations require that foreign-invested value-added telecommunications enterprises in China to be established as Sino-foreign equity joint ventures and the foreign investors may acquire up to 50% of the equity interests in such joint ventures. In addition, the major foreign investor, as defined therein, is required to demonstrate a good track record and experience in operating value-added telecommunications businesses. Moreover, foreign investors that meet these requirements must obtain approvals from the MIIT and the Ministry of Commerce, or their authorized local counterparts, which retain considerable discretion in granting approvals.

On July 13, 2006, the predecessor of the MIIT, the Ministry of Information Industry, or the MII, released the Circular on Strengthening the Administration of Foreign Investment in the Operation of Value-added Telecommunications Business, or the MII Circular. The MII Circular prohibits domestic telecommunications enterprises from leasing, transferring or selling telecommunications business operation licenses to foreign investors in any form, or providing any resources, sites or facilities to any foreign investor for their illegal operation of a telecommunication business in China. Furthermore, under the MII Circular, the Internet domain names and registered trademarks used by a foreign-invested value-added telecommunications services operator shall be legally owned by that operator (or its shareholders). If a license holder fails to comply with the requirements in the MII Circular and cure such non-compliance, the MII or its local counterparts have the discretion to take measures against such license holders, including revoking their VATS Licenses.

We engage in business activities that are value-added telecommunications services as defined in the Telecom Regulations and the Telecom Catalog. To comply with the relevant laws and regulations, one of our VIEs, Shenzhen uCloudlink has obtained a VATS License. One is for Internet access services, which was issued by the MIIT on November 28, 2017 and will remain effective until November 28, 2022. We can file applications for renewal of our VATS Licenses to the original issuing authorities 90 days before the expiration dates. To the best of our knowledge, currently we are not aware of any material impediment to renew such VATS Licenses as of the date hereof.

If an

Internet information service provider violates these measures, the Ministry of Public Security and the local security bureaus may revoke its operating license and shut down its websites.

In December 2012, the SCNPC promulgated the Decision on Strengthening Network Information Protection to enhance the legal protection of information security and privacy on the Internet. In July 2013, the MIIT promulgated the Provisions on Protection of Personal Information of Telecommunication and Internet Users to regulate the collection and use of users' personal information in the provision of telecommunication services and Internet information services in China. Telecommunication business operators and Internet service providers are required to establish their own rules for collecting and use of users' information and cannot collect or use users' information without their consent. On April 11, 2017, National Internet Information Office published Measures for the Security Assessment of Personal Information and Important Data to be Transmitted Abroad, or the Draft Security Assessment Notice to seek for public comments on April 11, 2017. Upon the enactment of the draft, network operators will be required to store personal information and important data gathered and produced during operations within the territory of the PRC. PRC laws and regulations do not prohibit network operators from collecting and analyzing personal information from their users, however, such laws and regulations can impose stringent requirements. As the date hereof, to the best of our knowledge, we are not aware any material noncompliance as a result of collecting and analyzing users' personal information in our operation. The Draft Security Assessment Notice emphasizes the security evaluation requirements, any company found to be non-compliant with the obligations under the Draft Security Assessment Notice may potentially be subject to fines, administrative and/or criminal liabilities. Regulations Related to Intellectual Property Right

Patents

According to the Patent Law of the PRC (Revised in 2008) promulgated by the SCNPC, and its Implementation Rules (Revised in 2010) promulgated by the State Council, there are three types of patents, "invention", "utility model" and "design". Invention patents are valid for twenty years, while design patents and utility model patents are valid for ten years, from the date of application. The Chinese patent system adopts a "first come, first grant" principle, which means that where more than one person files a patent application for the same invention, a patent will be granted to the person who files the application first. To be patentable, invention or utility models must meet three criteria: novelty, inventiveness and practicability. A third party must obtain consent or a proper license from the patent owner to use the patent. Otherwise, the use constitutes an infringement of the patent rights.

Copyright and Software Products

The NPC adopted the Copyright Law in 1990 and amended it in 2001 and 2010, respectively. The amended Copyright Law extends copyright protection to Internet activities, products disseminated over the Internet and software products. The Trademark Office under the State Administration for Market Regulation handles trademark registrations and grants a term of 10 years to registered trademarks and another 10 years if requested upon expiry of the first or any renewed 10-year term. The PRC Trademark Law has adopted a “first-to-file” principle with respect to trademark registrations. Where a trademark for which a registration has been made is identical or similar to another trademark which has already been registered or been subject to a preliminary examination and approval for use on the same kind of or similar commodities or services, the application for registration of such trademark may be rejected. Any person applying for the registration of a trademark may not prejudice the existing right first obtained by others nor may any person register in advance a trademark that has already been used by another party and has already gained a “sufficient degree of reputation” through such party’s use. Trademark license agreements should be filed with the Trademark Office or its regional offices.

Regulations Related to Tax

Enterprise Income Tax

PRC enterprise income tax is calculated based on taxable income, which is determined under (1) the PRC Enterprise Income Tax Law, or the EIT Law, promulgated by the NPC and implemented in January 2008 and amended in February 2017 and December 2018 respectively, and (2) the implementation rules to the EIT Law promulgated by the State Council and implemented in January 2008 and amended in April 2019. The EIT Law imposes a uniform enterprise income tax rate of 25% on all resident enterprises in the PRC, including foreign-invested enterprises and domestic enterprises, unless they are qualified for certain exceptions.

In addition, according to the EIT Law, enterprises registered in countries or regions outside the PRC but have their “de facto management bodies” located within China may be considered as PRC resident enterprises and are therefore subject to PRC enterprise income tax at the rate of 25% on their worldwide income. Though the implementation rules of the EIT Law define “de facto management bodies” as “establishments that carry out substantial and overall management and control over the manufacturing and business operations, personnel, accounting, properties, etc., of an enterprise,” the only detailed guidance currently available for the definition of “de facto management body” as well as the determination and administration of tax residency status of offshore incorporated enterprises are set forth in the Notice Regarding the Determination of Chinese-Controlled Overseas Incorporated Enterprises as PRC Tax Resident Enterprises on the Basis of De Facto Management Bodies, or the Circular 82, promulgated by the State Administration of Taxation or the SAT, in April 2009, and the Administrative Measures for Enterprise Income Tax of Chinese-Controlled Overseas Incorporated Resident Enterprises (Trial Version) issued by the SAT in July 2011, or Bulletin No. 45, which provide guidance on the administration as well as the determination of the tax residency status of a Chinese-controlled offshore incorporated enterprise, defined as an enterprise that is incorporated under the law of a foreign country or territory and that has a PRC company or PRC corporate group as its primary controlling shareholder.

According to Circular 82, a Chinese-controlled offshore-incorporated enterprise will be regarded as a PRC resident enterprise by virtue of having its “de facto management body” in China and will be subject to PRC enterprise income tax on its global income only if all of the following conditions are met:

- the primary location of the day-to-day operational management and the places where they perform their duties are in the PRC;
- decisions relating to the enterprise’s financial and human resource matters are made or are subject to approval of organizations or personnel in the PRC;

Table of Contents

- the enterprise's primary assets, accounting books and records, company seals and board and shareholder resolutions are located or maintained in the PRC; and
- 50% or more of voting board members or senior executives habitually reside in the PRC.

Bulletin No. 45 further clarifies certain issues related to the determination of tax resident status and competent tax authorities. It also specifies that when provided with a copy of Recognition of Residential Status from a resident Chinese-controlled offshore incorporated enterprise, a payer does not need to withhold income tax when paying certain PRC-sourced income such as dividends, interest and royalties to such Chinese-controlled offshore-incorporated enterprise.

Pursuant to the Announcement of the SAT on Issues Relating to Withholding at Source of Income Tax of Non-resident Enterprises which was promulgated by the SAT on October 17, 2017 and became effective on December 1, 2017 and amended on June 15, 2018, with regard to dividends, bonuses and other equity investment proceeds and interest therefrom, rentals, royalties, property transfer income and other kinds of income earned by non-resident enterprises from inside China, on which enterprise income tax shall be levied, withholding tax at source shall be applicable thereto. Entities or individuals that have direct obligations to make relevant payments to non-resident enterprises in accordance with relevant legal provisions or contracts shall be the withholding agents. The withholding agent shall, within seven days from occurrence of the withholding obligation, declare and turn over the withholding tax to the tax authorities in charge at the withholding agent's location.

Value-Added Tax and Business Tax

According to the Provisional Regulations on Value-added Tax, which was promulgated by the PRC State Council on December 13, 1993 and most recently amended in November 2017, and the Implementing Rules of the Provisional Regulations on Value-added Tax, which were promulgated by the Ministry of Finance on December 18, 2008 and subsequently amended by the Ministry of Finance and the SAT on October 28, 2011, all taxpayers selling goods, providing processing, repairing or replacement services or importing goods within the PRC must pay value-added tax.

Since January 1, 2012, the Ministry of Finance and the SAT have implemented the VAT Pilot Plan, which imposes VAT in lieu of business tax for certain "modern service industries." According to the implementation circulars released by the Ministry of Finance and the SAT on the VAT Pilot Plan, the "modern service industries" include research, development and technology services, information technology services, cultural innovation services, logistics support, lease of corporeal properties, attestation and consulting services. According to the Notice Regarding the Inclusion of the Telecommunications Sector under the Pilot Program of Replacing Business Tax with Value-Added Tax, which was promulgated on April 29, 2014 and became effective on June 1, 2014, the entities and individuals providing telecommunications services within the territory of PRC shall pay VAT instead of business tax. According to the Notice of the Ministry of Finance and the SAT on Implementing the Pilot Program of Replacing Business Tax with Value-Added Tax in an All-round Manner which became effective on May 1, 2016, entities and individuals engaged in the sale of services, intangible assets or fixed assets within the PRC territory are required to pay value-added tax instead of business tax.

Individual Income Tax

According to the Individual Income Tax Law of the PRC, or the IIT Law, which was promulgated by the SCNPC on September 10, 1980 and most recently amended in August 2018, and the implementing rules of the IIT Law, which was promulgated by the State Council on January 28, 1994 and most recently amended in December 18, 2018, individuals who have a domicile in China, or individuals who do not have a domicile in China but have resided in China for an aggregate over 183 days or within a single tax year, shall be deemed as resident individuals. Income derived by resident individuals from inside and outside China shall be subject to individual income tax. Taxpayers for individual income tax shall be the income earners, and withholding agent

shall be the entity or individual who pays that income. Income for personal services provided within the territory of China by taking position, employment, contract performance, etc., whether or not the place of payment is within the territory of China, shall be deemed as the income sourced within the territory of China.

According to the Law of the PRC on the Administration of Tax Collection, which was promulgated by the SCNPC on September 4, 1992 and most recently amended in April 2015, if a withholding agent fails to withhold or collect an amount of tax which should have been withheld or collected, or fails to remit taxes within the time limit as prescribed in provisions, the withholding agent may face sanctions imposed by the tax authorities or other PRC governmental authorities.

Regulations Related to Foreign Exchange

Regulations on Dividend Distribution

The principal laws and regulations regulating the dividend distribution of dividends by foreign invested enterprises in the PRC include the Company Law of the PRC, the Wholly Foreign-owned Enterprise Law of the PRC and its implementation regulations, the Sino-foreign Equity Joint Venture Law of the PRC and its implementation regulations, and the Sino-foreign Cooperative Joint Venture Enterprise Law of the PRC and its implementation regulations. However, after the Foreign Investment Law of the PRC took effect on January 1, 2020, the above-mentioned laws in relation to foreign investment in China were replaced. Under the current regulatory regime in the PRC, foreign-invested enterprises in the PRC may pay dividends only out of their accumulated profit, if any, determined in accordance with PRC accounting standards and regulations. A PRC company is required to set aside as general reserves at least 10% of its after-tax profit, until the cumulative amount of such reserves reaches 50% of its registered capital unless the provisions of laws regarding foreign investment otherwise provided. A PRC company shall not distribute any profits until any losses from prior fiscal years have been offset. Profits retained from prior fiscal years may be distributed together with distributable profits from the current fiscal year. Wholly foreign-owned companies may, at their discretion, allocate a portion of their after-tax profits based on PRC accounting standards to staff welfare and bonus funds. These reserves are not distributable as cash dividends.

Regulations on Foreign Exchange Registration of Overseas Investment by PRC Residents

On October 21, 2005, State Administration of Foreign Exchange, or SAFE, promulgated the Circular Concerning Relevant Issues on the Foreign Exchange Administration of Raising Funds through Overseas Special Purpose Vehicle and Investing Back in China by Domestic Residents, which became effective on November 1, 2005, or SAFE Circular 75. The notice requires PRC domestic resident natural persons to register or file with the local SAFE branch in the following circumstances: (1) before establishing or controlling any company outside the PRC for the purpose of capital financing, (2) after contributing their assets or shares of a domestic enterprise into overseas special purpose vehicles, or raising funds overseas after such contributions, and (3) after any major change in the share capital of the special purpose vehicle without any round-trip investment being made. On July 4, 2014, SAFE promulgated the Circular Concerning Relevant Issues on the Foreign Exchange Administration of Offshore Investing and Financing and Round-Trip Investing by Domestic Residents through Special Purpose Vehicles, or SAFE Circular 37, for the purpose of simplifying the approval process, and for the promotion of the cross-border investment. SAFE Circular 37 supersedes SAFE Circular 75 and revises and regulates the relevant matters involving foreign exchange registration for round-trip investment. Under SAFE Circular 37, in the event of the change of basic information of the registered offshore special purpose vehicle such as the individual shareholder, name, operation term, etc., or if there is a capital increase, decrease, equity transfer or swap, merge, spin-off or other amendment of the material items, the domestic resident shall complete the change of foreign exchange registration formality for offshore investment. In addition, according the procedural guideline as attached to SAFE Circular 37, the principle of review has been changed to “the domestic individual resident is only required to register the SPV directly established or controlled (first level)”. At the same time, SAFE has issued the Operation Guidance for the Issues Concerning Foreign Exchange Administration

over Round-trip Investment with respect to the procedures for SAFE registration under SAFE Circular 37, which became effective on July 4, 2014 as an attachment to SAFE Circular 37.

On February 13, 2015, SAFE promulgated the Notice on Simplifying and Improving the Foreign Currency Management Policy on Direct Investment effective from June 1, 2015, which eliminates the administrative approval requirement of foreign exchange registration of direct domestic investment and direct overseas investment. In addition, it simplifies the procedure of registration of foreign exchange so that investors can register with banks rather than SAFE or its local branches to have the registration of foreign exchange under the condition of direct domestic investment and direct overseas investment. However, remedial registration applications made by PRC residents that previously failed to comply with SAFE Circular 37 continue to fall under the jurisdiction of the relevant local branch of SAFE. In the event that a PRC shareholder holding interests in a special purpose vehicle fails to fulfill the required SAFE registration, the PRC subsidiaries of that special purpose vehicle may be prohibited from distributing profits to the offshore parent and from carrying out subsequent cross-border foreign exchange activities, and the special purpose vehicle may be restricted in its ability to contribute additional capital into its PRC subsidiary. Moreover, failure to comply with the various SAFE registration requirements described above could result in liability under PRC law for evasion of foreign exchange controls.

Regulations on Stock Incentive Plans

On February 15, 2012, SAFE promulgated the Notice on Foreign Exchange Administration of PRC Residents Participating in Share Incentive Plans of Offshore Listed Companies, replacing the previous rules issued by SAFE in March 2007. Under this notice and other relevant rules and regulations, PRC residents who participate in a stock incentive plan in an overseas publicly-listed company are required to register with SAFE or its local branches and complete certain other procedures. Participants of a stock incentive plan who are PRC residents must retain a qualified PRC agent, which could be a PRC subsidiary of the overseas publicly-listed company or another qualified institution selected by the PRC subsidiary, to conduct the SAFE registration and other procedures with respect to the stock incentive plan on behalf of its participants. The participants must also retain an overseas entrusted institution to handle matters in connection with their exercise of stock options, the purchase and sale of corresponding stocks or interests and fund transfers. In addition, the PRC agent is required to amend the SAFE registration with respect to the stock incentive plan if there is any material change to the stock incentive plan, the PRC agent or the overseas entrusted institution or other material changes. The PRC agents must, on behalf of the PRC residents who have the right to exercise the employee share options, apply to SAFE or its local branches for an annual quota for the payment of foreign currencies in connection with the PRC residents' exercise of the employee share. Under the Circular of the State Administration of Taxation on Issues Concerning Individual Income Tax in Relation to Equity Incentives promulgated by the SAT and effective from August 24, 2009, overseas listed companies and their PRC subsidiaries shall, according to the individual income tax calculation methods for "wage and salary income" and stock option income, lawfully withhold and pay individual income tax on such income.

In addition, the SAT has issued certain circulars concerning employee stock options and restricted shares. Under these circulars, employees working in the PRC who exercise stock options or are granted restricted shares will be subject to PRC individual income tax. The PRC subsidiaries of an overseas listed company are required to file documents related to employee stock options and restricted shares with relevant tax authorities and to withhold individual income taxes of employees who exercise their stock option or purchase restricted shares. If the employees fail to pay or the PRC subsidiaries fail to withhold income tax in accordance with relevant laws and regulations, the PRC subsidiaries may face sanctions imposed by the tax authorities or other PRC governmental authorities.

Loans by the Foreign Companies to their PRC Subsidiaries

A loan made by foreign investors as shareholders in a foreign invested enterprise is considered to be foreign debt in the PRC and is regulated by various laws and regulations, including the Regulation of the PRC on

[Table of Contents](#)

Foreign Exchange Administration, the Interim Provisions on the Management of Foreign Debts, the Statistical Monitoring of Foreign Debts Tentative Provisions, the Detailed Rules for the Implementation of Provisional Regulations on Statistics and Supervision of Foreign Debt, and the Administrative Measures for Registration of Foreign Debts. Under these rules and regulations, a shareholder loan in the form of foreign debt made to a PRC entity does not require the prior approval of SAFE. However, such foreign debt must be registered with and recorded by SAFE or its local branches within 15 business days after the foreign debt contract is entered into. Pursuant to these rules and regulations, the balance of the foreign debts of a foreign invested enterprise shall not exceed the difference between the total investment and the registered capital of the foreign invested enterprise, or Total Investment and Registered Capital Balance.

Pursuant to the Interim Provisions of the State Administration for Industry and Commerce on the Ratio of the Registered Capital to the Total Investment of a Sino-foreign Equity Joint Venture Enterprise, issued by SAIC on March 1, 1987, with respect to a Sino-foreign equity joint venture, the registered capital shall be (i) no less than 7/10 of its total investment, if the total investment is US\$3 million or under US\$3 million; (ii) no less than 1/2 of its total investment, if the total investment is ranging from US\$3 million to US\$10 million (including US\$10 million), provided that the registered capital shall not be less than US\$2.1 million if the total investment is less than US\$4.2 million; (iii) no less than 2/5 of its total investment, if the total investment is ranging from US\$10 million to US\$30 million (including US\$30 million), provided that the registered capital shall not be less than US\$5 million if the total investment is less than US\$12.5 million; and (iv) no less than 1/3 of its total investment, if the total investment exceeds US\$30 million, provided that the registered capital shall not be less than US\$12 million if the total investment is less than US\$36 million. Additionally, pursuant to this provision, the proportion of registered capital to the total amount of investment of sino-foreign cooperative joint venture enterprise or foreign-invested enterprises shall be implemented in accordance with these limitations set forth therein.

On January 11, 2017, the People's Bank of China, or the PBOC, promulgated the Notice of the People's Bank of China on Matters concerning the Macro-Prudential Management of Full-Covered Cross-Border Financing, or the PBOC Notice No. 9. Pursuant to the PBOC Notice No. 9, within a transition period of one year from January 11, 2017, the foreign-invested enterprises may adopt the currently valid foreign debt management mechanism, or Current Foreign Debt Mechanism, or the mechanism as provided in the PBOC Notice No. 9, or Notice No. 9 Foreign Debt Mechanism, at their own discretion. The PBOC Notice No. 9 provides that, enterprises may conduct independent cross-border financing in RMB or foreign currencies as required. Pursuant to the PBOC Notice No. 9, the outstanding cross-border financing of an enterprise (the outstanding balance drawn, here and below) shall be calculated using a risk-weighted approach, or Risk-Weighted Approach, and shall not exceed the specified upper limit, namely: risk-weighted outstanding cross-border financing \leq the upper limit of risk-weighted outstanding cross-border financing. Risk-weighted outstanding cross-border financing $\leq \sum$ outstanding amount of RMB and foreign currency denominated cross-border financing * maturity risk conversion factor * type risk conversion factor + \sum outstanding foreign currency denominated cross-border financing * exchange rate risk conversion factor. Maturity risk conversion factor shall be 1 for medium-and long-term cross-border financing with a term of more than one year and 1.5 for short-term cross-border financing with a term of less than one year. Type risk conversion factor shall be 1 for on-balance-sheet financing and 1 for off-balance-sheet financing (contingent liabilities) for the time being. Exchange rate risk conversion factor shall be 0.5. The PBOC Notice No. 9 further provides that the upper limit of risk-weighted outstanding cross-border financing for enterprises shall be 200% of its net assets, or Net Asset Limits. Enterprises shall file with SAFE in its capital item information system after entering into the relevant cross-border financing contracts and prior to three business day before drawing any money from the foreign debts.

Based on the foregoing, if we provide funding to our wholly foreign-owned subsidiaries through shareholder loans, the balance of such loans shall not exceed the Total Investment and Registered Capital Balance and we will need to register such loans with SAFE or its local branches in the event that the Current Foreign Debt Mechanism applies, or the balance of such loans shall be subject to the Risk-Weighted Approach and the Net Asset Limits and we will need to file the loans with SAFE in its information system in the event that the Notice

No. 9 Foreign Debt Mechanism applies. According to the PBOC Notice No. 9, after a transition period of one year from January 11, 2017, the PBOC and SAFE will determine the cross-border financing administration mechanism for the foreign-invested enterprises after evaluating the overall implementation of the PBOC Notice No. 9. As of the date of this Prospectus, neither PBOC nor SAFE has promulgated and made public any further rules, regulations, notices or circulars in this regard. It is uncertain which mechanism will be adopted by PBOC and SAFE in the future and what statutory limits will be imposed on us when providing loans to our PRC subsidiaries.

Regulations Related to M&A and Overseas Listing

Regulations on M&A and Overseas Listings

In 2006, six PRC regulatory agencies, including the China Securities Regulatory Commission, or the CSRC, jointly adopted the Rules on the Merger or Acquisition of Domestic Enterprises by Foreign Investors, or M&A Rules, which was amended in 2009. The M&A Rules purport, among other things, to require an offshore special purpose vehicles controlled by PRC companies or individuals and formed for overseas listing purposes through acquisitions of PRC domestic interest held by such PRC companies or individuals, to obtain the approval from the CSRC prior to publicly listing their securities on an overseas stock exchange. In 2006, the CSRC published a notice on its official website specifying documents and materials required to be submitted to it by the offshore special purpose vehicle seeking CSRC approval of its overseas listing. While the application of the M&A Rules remains unclear, our PRC counsel, Han Kun Law Offices, has advised us that based on its understanding of current PRC laws, rules and regulations and the M&A Rules, prior approval from the CSRC is not required under the M&A Rules for the listing and trading of the ADSs given that (1) our PRC subsidiaries were directly established by us as wholly foreign-owned enterprises and we have not acquired any equity interest or assets of a PRC domestic company owned by PRC companies or individuals as defined under the M&A Rules that are our beneficial owners after the effective date of the M&A Rules, and (2) no provision in the M&A Rules clearly classifies the contractual arrangements as a type of transaction subject to the M&A Rules.

However, our PRC counsel has further advised us that uncertainties still exist as to how the M&A Rules will be interpreted and implemented and its opinions summarized above are subject to any new laws, rules and regulations or detailed implementations and interpretations in any form relating to the M&A Rules. If the CSRC or other PRC regulatory agencies subsequently determine that prior CSRC approval was required, we may face regulatory actions or other sanctions from the CSRC or other PRC regulatory agencies. See “Risk Factors—Risks Related to Doing Business in China—The approval of the China Securities Regulatory Commission, or the CSRC, may be required in connection with this offering under a PRC regulation.”

The M&A Rules also establish procedures and requirements that could make some acquisitions of PRC companies by foreign investors more time-consuming and complex, including requirements in some instances that the anti-monopoly law enforcement agency be notified in advance of any change-of-control transaction in which a foreign investor takes control of a PRC domestic enterprise. In addition, the Rules on Implementation of Security Review System for the Merger and Acquisition of Domestic Enterprises by Foreign Investors issued by the Ministry of Commerce in 2011 specify that mergers and acquisitions by foreign investors that raise “national defense and security” concerns and mergers and acquisitions through which foreign investors may acquire de facto control over domestic enterprises that raise “national security” concerns are subject to strict review by the Ministry of Commerce, and prohibit any activities attempting to bypass such security review, including by structuring the transaction through a proxy or contractual control arrangement. See “Risk Factors—Risks Related to Doing Business in China—The M&A Rules and certain other PRC regulations establish complex procedures for some acquisitions of Chinese companies by foreign investors, which could make it more difficult for us to pursue growth through acquisitions in China.”

Hong Kong

Laws and Regulations Related to Telecommunication Services and Import and Export of Telecommunication Devices

Under the Telecommunications Ordinance (Chapter 106 of the Laws of Hong Kong), or TO, a Radio Dealers License (Unrestricted), or RD License, is required for possessing and dealing in the course of trade or business in apparatus or material for radio communications or in any component part of any such apparatus or in apparatus of any kind that generates and emits radio waves whether or not the apparatus is intended, or capable of being used, for radio communications. However, the above requirement does not apply to licensed or exempted radio communications apparatus (e.g. mobile phones, short-range walkie-talkies, cordless phones) meeting prescribed specifications. Further, under the TO, a RD License is required for importing into Hong Kong or exporting therefrom radio communications transmitting apparatus. A RD License is generally valid for a period of 12 months, and is renewable on payment of the prescribed fee, at the discretion of the Communications Authority in Hong Kong, or CA.

Generally, under the TO, an appropriate license from the CA is required for a person to operate any public telecommunications networks or services in Hong Kong. Service-based operators are licensed under Services-Based Operator License, or SBO. There are several classes of SBO.

- A “Class 1 service” is an internal telecommunications service (a) for carrying real-time voice communications which may be integrated with other types of communications, (b) which is capable of allowing customers to make and receive calls to and from parties assigned with numbers from the numbering plan of Hong Kong, (c) to which customers are assigned with numbers from the numbering plan of Hong Kong, and (d) which is not a “Class 2 service”.
- A “Class 2 service” is an internal telecommunications service (a) for carrying real-time voice communications which may be integrated with other types of communications, (b) which is capable of allowing customers to make and receive calls to and from parties assigned with numbers from the numbering plan of Hong Kong; (c) to which customers are assigned with numbers from the numbering plan of Hong Kong; and (d) in the provision of which –
 - (i) the licensee (and where appropriate its agents, contractors and resellers) in all promotion, marketing or advertising materials concerning such service declares the service as a “Class 2 service”; or
 - (ii) the licensee, in lieu of (i), complies with such conditions as may be specified by CA in a direction that may be issued by CA.
- “Class 3 service” is a non-facility based public telecommunications service. The following are types of Class 3 service (a) external telecommunications services, (b) international value-added network services, (c) mobile virtual network operator services, (d) private payphone services, (e) public radio communications relay services, (f) security and fire alarm signals transmission services, (g) teleconferencing services, and (h) any other services designated by CA as a “Class 3 service”, but does not include Class 1 service and Class 2 service.
- There is also a SBO for services other than Class 1, Class 2 or Class 3 service.

A SBO is generally valid for one year and may, at the discretion of the CA, be renewed on an annual basis.

HONGKONG UCLOUDLINK NETWORK TECHNOLOGY LIMITED, our subsidiary established in Hong Kong, has obtained a RD License. The current RD License was issued by CA on May 29, 2018 and will remain effective until May 31, 2020. Currently, we are preparing an application to the CA for a SBO. Our Hong Kong counsel has advised us that there remains some uncertainty, mainly related to the determination by the relevant authority of factual circumstances of our operations, as to whether we are required to obtain the SBO license, and based on communication with the relevant authority, the latter has not reached a final determination and will further consider the issue after reviewing our application.

Laws and Regulations Related to Product Quality and Product Liability

Trade Descriptions Ordinance (Chapter 362 of the Laws of Hong Kong) (“TDO”)

Products sold in Hong Kong (including products sold online to customers in Hong Kong) are subject to the TDO. The TDO was most recently amended in July 2013 to expand certain existing provisions, including the prohibition of false trade descriptions in respect of goods and services in the course of trade, prohibition on certain unfair trade practices and the introduction of a civil, compliance based enforcement mechanism. The Customs and Excise Department in Hong Kong is the principal enforcement agency for the TDO.

The TDO provides that a trade description (including fitness for purpose, performance and manufacturing details) which is false to a material degree; misleading, or likely to be taken for a trade description of a kind that would be false to a material degree, would be regarded as false trade description (section 2 of the TDO).

The TDO provides that it is an offense for any person, in the course of his/her/its trade or business, to apply a false trade description to any goods; or supply or offer to supply any goods to which a false trade description is applied. It is also an offense for any person to have in his/her/its possession for sale or for any purpose of trade or manufacture any goods to which a false trade description is applied (section 7 of the TDO).

To amount to a false trade description, the falsity of the trade descriptions has to be to a material degree. Trivial errors or discrepancies in trade descriptions would not constitute an offense. What constitutes a material degree will vary with the facts.

Contravention of the prohibitions in the TDO is an offense, with a maximum penalty of up to HK\$0.5 million and imprisonment for five years.

Sale of Goods Ordinance (Chapter 26 of the Laws of Hong Kong) (“SGO”), Supply of Services (Implied Terms) Ordinance (Chapter 457 of the Laws of Hong Kong) (“SSO”) and Control of Exemption Clauses Ordinance (Chapter 71 of the Laws of Hong Kong) (the “CECO”)

The contracts that we enter into with our customers and are governed by the laws of Hong Kong are subject to the SGO, SSO and CECO.

The SGO provides for circumstances where certain terms will be implied in contracts of sale of goods in Hong Kong, which include, among others, implied conditions that the seller has or will have a right to sell the goods at the time when the property is to pass and that goods supplied are of merchantable quality subject to certain exceptions as stipulated in the SGO, reasonably fit for the buyer’s express or implied purposes, and correspond with the descriptions provided by the seller and any samples. The SGO also provides for circumstances where buyers may be deemed to have accepted goods and the actions that a buyer may take for a breach of contract by a seller.

The SSO implies certain terms into contracts of supply of services in Hong Kong, which include implied conditions that, (i) the supplier will carry out the services with reasonable care and skill (which generally means the services must meet the standard that a reasonable person would regard as satisfactory); (ii) the supplier will carry out the services within a reasonable time if the time of performance has not been fixed by the contract; and (iii) the party contracting with the supplier will pay a reasonable charge if the charge has not been fixed by the contract. The SSO provides that as against a party to a contract for the supply of a service who deals as a consumer, the other party cannot, by reference to any contract term, exclude or restrict any liability of his/her/its arising under the contract by virtue of the SSO.

The CECO aims to limit the extent to which civil liability for breach of contract, or for negligence or other breach of duty, can be avoided by means of contract terms and otherwise. Under the CECO, a person cannot by

reference to any contract term or to a notice given to persons generally or to particular persons to exclude or restrict his/her/its liability for death or personal injury resulting from negligence. Further, in the case of other loss or damage, a person cannot so exclude or restrict his/her/its liability for negligence except in so far as the term or notice satisfies the requirement of reasonableness regard to the circumstances which are, or ought reasonably to have been, known to or in the contemplation of the parties when the contract is made.

Laws and Regulations Related to Privacy Protection

The Personal Data (Privacy) Ordinance (Chapter 486 of the Laws of Hong Kong) (“PDPO”), covers any personal data that relates directly or indirectly to a living individual in Hong Kong, can be used to directly or indirectly ascertain the identity of that individual, and exists in a form in which access or processing is practicable. It applies to a data user who, either alone or jointly or in common with other persons, controls the collection, holding, processing or use of the data. The PDPO imposes a statutory duty on data users to comply with the requirements of the six data protection principles contained in Schedule 1 to the PDPO. The PDPO provides that a data user shall not do an act, or engage in a practice, that contravenes such data protection principles unless the act or practice, as the case may be, is required or permitted under the PDPO.

Non-compliance with a data protection principle may lead to a complaint to the Privacy Commissioner for Personal Data in Hong Kong (the “Privacy Commissioner”). The Privacy Commissioner may serve an enforcement notice to direct the data user to remedy the contravention and/ or instigate prosecution actions. A data user who contravenes an enforcement notice commits an offense which may lead to a fine and/or imprisonment. Any person contravening an enforcement notice shall be liable to a maximum penalty of up to HK\$50,000 and imprisonment for two years.

The PDPO also criminalizes, among others, misuse or inappropriate use of personal data in direct marketing activities; non-compliance with data access request and unauthorized disclosure of personal data obtained without data user’s consent. The maximum penalty for breach under the PDPO is a fine of up to HK\$1.0 million and imprisonment for up to five years.

Laws and Regulations Related to Business Registration

The Business Registration Ordinance (Chapter 310 of the Laws of Hong Kong) requires every person, whether a company or an individual, who carries on a business in Hong Kong to apply for business registration certificate from the Inland Revenue Department in Hong Kong within one month from the date of commencement of the business, and to display the valid business registration certificate at the place of business. Any person who fails to apply for business registration or display a valid business registration certificate at the place of business shall be guilty of an offense, and shall be liable to a maximum penalty of up to HK\$5,000 and to imprisonment for one year.

Laws and Regulations Related to Related to Tax

The Inland Revenue Ordinance (Chapter 112 of the Laws of Hong Kong), or IRO, imposes taxes on property, earnings and profits in Hong Kong. The IRO provides, among others, that persons, which include corporations, carrying on any trade, profession or business in Hong Kong are chargeable to tax all profits (excluding profits arising from the sale of capital assets) arising in or derived from Hong Kong from such trade, profession or business.

Our profits arising in or derived from Hong Kong are subject to the profit tax regime under the IRO. The standard rate of profits tax for the years of assessment of 2016/2017 and 2017/2018 was 16.5%. Under the current tax regime, for the year of assessment 2018/2019 onwards the following two-tiered rates of profits tax shall apply: 8.25% on assessable profits up to HK\$2.0 million; and 16.5% on any part of assessable profits over HK\$2.0 million.

Duties of Directors

Under Cayman Islands law, our directors owe fiduciary duties to our company, including a duty of loyalty, a duty to act honestly and a duty to act in what they consider in good faith to be in our best interests. Our directors must also exercise their powers only for a proper purpose. Our directors also owe to our company a duty to exercise skills they actually possess and such care and diligence that a reasonably prudent person would exercise in comparable circumstance. It was previously considered that a director need not exhibit in the performance of his duties a greater degree of skill than may reasonably be expected from a person of his knowledge and experience. However, English and Commonwealth Courts have moved toward an objective standard with regard to the required skill and care and these authorities are likely to be followed in the Cayman Islands. In fulfilling their duty of care to us, our directors must ensure compliance with our memorandum and articles of association, as amended and restated from time to time, and the class rights vested thereunder in the holders of the shares. Our company has the right to seek damages if a duty owed by our directors is breached. In certain limited exceptional circumstances, a shareholder may have the right to seek damages in our name if a duty owed by our directors is breached.

Our directors may be elected by an ordinary resolution of our shareholders. Alternatively, our board of directors may, by the affirmative vote of a simple majority of the directors present and voting at a board meeting appoint any person as a director to fill a casual vacancy on our board or as an addition to the existing board. Our directors are not automatically subject to a term of office and hold office until such time as they are removed from office by an ordinary resolution of our shareholders. Immediately prior to the completion of this offering, our authorized share capital will be US\$100,000 divided into 2,000,000,000 shares comprising of (i) 1,700,000,000 Class A ordinary shares of a par value of US\$0.00005 each, (ii) 200,000,000 Class B ordinary shares of a par value of US\$0.00005 each, and (iii) 100,000,000 shares of a par value of US\$0.00005 each of such class or classes (however designated) as the board of directors may determine in accordance with the memorandum and articles of association. Immediately prior to the completion of this offering, (i) 122,072,980 of ordinary shares beneficially owned by Mr. Chaohui Chen and Mr. Zhiping Peng will be redesignated into Class B ordinary shares on a one-for-one basis, (ii) all of the remaining ordinary shares will be redesignated into Class A ordinary shares on a one-for-one basis, and (iii) all of the remaining issued and outstanding preferred shares will be automatically converted and redesignated into Class A ordinary shares on a one-for-one basis.

Our Post-Offering Memorandum and Articles of Association

Our shareholders have conditionally adopted a sixth amended and restated memorandum and articles of association, which will become effective and replace our current fifth amended and restated memorandum and articles of association in its entirety immediately prior to the completion of this offering. The following are summaries of material provisions of the post-offering memorandum and articles of association and of the Companies Law, insofar as they relate to the material terms of our ordinary shares.

Objects of Our Company. Under our post-offering memorandum and articles of association, the objects of our company are unrestricted and we have the full power and authority to carry out any object not prohibited by the laws of the Cayman Islands.

Ordinary Shares. Our ordinary shares are issued in registered form. We may not issue shares to bearer. Our shareholders who are non-residents of the Cayman Islands may freely hold and vote their shares. Our ordinary shares are divided into Class A ordinary shares and Class B ordinary shares. Holders of our Class A ordinary shares and Class B ordinary shares will have the same rights except for voting and conversion rights. Each Class A ordinary share shall entitle the holder thereof to one vote on all matters subject to vote at our general meetings, and each Class B ordinary share shall entitle the holder thereof to 15 votes on all matters subject to vote at our general meetings. Our ordinary shares are issued in registered form and are issued when registered in our register of members.

Conversion. Each Class B ordinary share is convertible into one Class A ordinary share at any time by the holder thereof. Class A ordinary shares are not convertible into Class B ordinary shares under any circumstances. Upon (i) any direct or indirect sale, transfer, assignment or disposition of such number of Class B ordinary shares by the holder thereof or the direct or indirect transfer or assignment of the voting power attached to such number of Class B ordinary shares through voting proxy or otherwise to any person that is not an affiliate of our two founders, namely, Mr. Chaohui Chen and Mr. Zhiping Peng, their family members or any entity controlled by the founders or their family members, or (ii) the direct or indirect sale, transfer, assignment or disposition of a majority of the issued and outstanding voting securities of, or the direct or indirect transfer or assignment of the

[Table of Contents](#)

voting power attached to such voting securities through voting proxy or otherwise, or the direct or indirect sale, transfer, assignment or disposition of all or substantially all of the assets of, a holder of Class B ordinary shares that is an entity to any person other than an affiliate of our two founders, namely, Mr. Chaohui Chen and Mr. Zhiping Peng, their family members or any entity controlled by the founders or their family members, such Class B ordinary shares shall be automatically and immediately converted into an equal number of Class A ordinary shares.

Dividends. Our post-offering memorandum and articles of association provides that our directors may from time to time declare dividends (including interim dividends) and other distributions on our shares in issue and authorize payment of the same out of the funds of our company lawfully available therefor. In addition, our shareholders may declare dividends by ordinary resolution, but no dividend shall exceed the amount recommended by our directors. Under the laws of the Cayman Islands, our company may pay a dividend out of either profit or share premium account; provided that in no circumstances may a dividend be paid if this would result in our company being unable to pay its debts as they fall due in the ordinary course of business.

Voting Rights. Voting at any meeting of shareholders is by show of hands unless a poll (before or on the declaration of the result of the show of hands) is demanded. A poll may be demanded by the chairman of such meeting or any one shareholder holding not less than 10% of the votes attaching to the shares present in person or by proxy.

An ordinary resolution to be passed at a meeting by the shareholders requires the affirmative vote of a simple majority of the votes attaching to the ordinary shares cast at a meeting, while a special resolution requires the affirmative vote of no less than two-thirds of the votes cast attaching to the outstanding ordinary shares at a meeting, or with a written resolution signed by all members entitled to vote. A special resolution will be required for important matters such as a change of name or making changes to our post-offering memorandum and articles of association.

General Meetings of Shareholders. As a Cayman Islands exempted company, we are not obliged by the Companies Law to call shareholders' annual general meetings. Our post-offering memorandum and articles of association provide that we may (but are not obliged to) in each year hold a general meeting as our annual general meeting in which case we shall specify the meeting as such in the notices calling it, and the annual general meeting shall be held at such time and place as may be determined by our directors.

Shareholders' general meetings may be convened by the chairman of our board of directors, the chief executive officer or by our directors (acting by a resolution of our board). Advance notice of at least seven calendar days is required for the convening of our annual general shareholders' meeting (if any) and any other general meeting of our shareholders. A quorum required for any general meeting of shareholders consists of, at the time when the meeting proceeds to business, one or more of our shareholders holding shares which carry in aggregate (or representing by proxy) more than 50% of all votes attaching to all of our shares in issue and entitled to vote at such general meeting, present in person or by proxy or, if a corporation or other non-natural person, by its duly authorised representative.

The Companies Law provides shareholders with only limited rights to requisition a general meeting, and does not provide shareholders with any right to put any proposal before a general meeting. However, these rights may be provided in a company's articles of association. Our post-offering memorandum and articles of association provide that upon the requisition of shareholders holding shares which carry in aggregate not less than one-third of all votes attaching to all issued and outstanding shares of our company entitled to vote at general meetings as at the date of the deposit, our board will convene an extraordinary general meeting and put the resolutions so requisitioned to a vote at such meeting. However, our post-offering memorandum and articles of association do not provide our shareholders with any right to put any proposals before annual general meetings or extraordinary general meetings not called by such shareholders.

Transfer of Ordinary Shares. Subject to the restrictions set out below, any of our shareholders may transfer all or any of his or her ordinary shares by an instrument of transfer in writing and in the usual or common form or any other form approved by our board of directors.

Our board of directors may, in its absolute discretion, decline to register any transfer of any ordinary share which is not fully paid up or on which we have a lien. Our board of directors may also decline to register any transfer of any ordinary share unless:

- the instrument of transfer is lodged with us, accompanied by the certificate for the ordinary shares to which it relates and such other evidence as our board of directors may reasonably require to show the right of the transferor to make the transfer;
- the instrument of transfer is in respect of only one class of ordinary shares;
- the instrument of transfer is properly stamped, if required;
- in the case of a transfer to joint holders, the number of joint holders to whom the ordinary share is to be transferred does not exceed four; and
- a fee of such maximum sum as the Nasdaq Global Market may determine to be payable or such lesser sum as our directors may from time to time require is paid to us in respect thereof.

If our directors refuse to register a transfer they shall, within three calendar months after the date on which the instrument of transfer was lodged, send to each of the transferor and the transferee notice of such refusal.

The registration of transfers may, on ten calendar days' notice being given by advertisement in such one or more newspapers, by electronic means or by any other means in accordance with the rules of the Nasdaq Global Market be suspended and the register closed at such times and for such periods as our board of directors may from time to time determine; provided, however, that the registration of transfers shall not be suspended nor the register closed for more than 30 calendar days in any year as our board may determine.

Liquidation. On the winding up of our company, if the assets available for distribution amongst our shareholders shall be more than sufficient to repay the whole of the share capital at the commencement of the winding up, the surplus shall be distributed amongst our shareholders in proportion to the par value of the shares held by them at the commencement of the winding up, subject to a deduction from those shares in respect of which there are monies due, of all monies payable to our company for unpaid calls or otherwise. If our assets available for distribution are insufficient to repay all of the paid-up capital, such the assets will be distributed so that, as nearly as may be, the losses are borne by our shareholders in proportion to the par value of the shares held by them.

Calls on Shares and Forfeiture of Shares. Our board of directors may from time to time make calls upon shareholders for any amounts unpaid on their shares in a notice served to such shareholders at least 14 calendar days prior to the specified time and place of payment. The shares that have been called upon and remain unpaid are subject to forfeiture.

Redemption, Repurchase and Surrender of Shares. We may issue shares on terms that such shares are subject to redemption, at our option or at the option of the holders of these shares, on such terms and in such manner as may be determined, before the issue of such shares, by our board of directors or by our shareholders by special resolution. Our company may also repurchase any of our shares on such terms and in such manner as have been approved by our board of directors or by an ordinary resolution of our shareholders. Under the Companies Law, the redemption or repurchase of any share may be paid out of our Company's profits or out of the proceeds of a new issue of shares made for the purpose of such redemption or repurchase, or out of capital (including share premium account and capital redemption reserve) if our company can, immediately following such payment, pay its debts as they fall due in the ordinary course of business. In addition, under the Companies

[Table of Contents](#)

Law no such share may be redeemed or repurchased (a) unless it is fully paid up, (b) if such redemption or repurchase would result in there being no shares outstanding or (c) if the company has commenced liquidation. In addition, our company may accept the surrender of any fully paid share for no consideration.

Variations of Rights of Shares. Whenever the capital of our company is divided into different classes the rights attached to any such class may, subject to any rights or restrictions for the time being attached to any class, only be materially adversely varied with the consent in writing of the holders of two-thirds of all of the issued shares of that class or with the sanction of an ordinary resolution passed at a separate meeting of the holders of the shares of that class. The rights conferred upon the holders of the shares of any class issued with preferred or other rights shall not, subject to any rights or restrictions for the time being attached to the shares of that class, be deemed to be materially adversely varied by the creation, allotment or issue of further shares ranking *pari passu* with or subsequent to them or the redemption or purchase of any shares of any class by our company. The rights of the holders of shares shall not be deemed to be materially adversely varied by the creation or issue of shares with preferred or other rights including, without limitation, the creation of shares with enhanced or weighted voting rights.

Issuance of Additional Shares. Our post-offering memorandum of association authorizes our board of directors to issue additional shares (including series of preferred shares) from time to time as our board of directors shall determine, to the extent of available authorized but unissued shares.

Our post-offering memorandum of association also authorizes our board of directors to establish from time to time one or more series of preference shares and to determine, with respect to any series of preference shares, the terms and rights of that series, including:

- the designation of the series;
- the number of shares of the series;
- the dividend rights, dividend rates, conversion rights, voting rights; and
- the rights and terms of redemption and liquidation preferences.

Our board of directors may issue preference shares without action by our shareholders to the extent authorized but unissued. Issuance of these shares may dilute the voting power of holders of ordinary shares.

Inspection of Books and Records. Holders of our ordinary shares will have no general right under Cayman Islands law to inspect or obtain copies of our list of shareholders or our corporate records. However, we intend to provide our shareholders with annual audited financial statements. See “Where You Can Find Additional Information.”

Anti-Takeover Provisions. Some provisions of our post-offering memorandum and articles of association may discourage, delay or prevent a change of control of our company or management that shareholders may consider favorable, including provisions that:

- authorize our board of directors to issue preference shares in one or more series and to designate the price, rights, preferences, privileges and restrictions of such preference shares without any further vote or action by our shareholders; and
- limit the ability of shareholders to requisition and convene general meetings of shareholders.

However, under Cayman Islands law, our directors may only exercise the rights and powers granted to them under our post-offering memorandum and articles of association for a proper purpose and for what they believe in good faith to be in the best interests of our company.

Exempted Company. We are an exempted company with limited liability under the Companies Law. The Companies Law distinguishes between ordinary resident companies and exempted companies. Any company that

[Table of Contents](#)

is registered in the Cayman Islands but conducts business mainly outside of the Cayman Islands may apply to be registered as an exempted company. The requirements for an exempted company are essentially the same as for an ordinary company except that an exempted company:

- does not have to file an annual return of its shareholders with the Registrar of Companies;
- is not required to open its register of members for inspection;
- does not have to hold an annual general meeting;
- may issue negotiable or bearer shares or shares with no par value;
- may obtain an undertaking against the imposition of any future taxation (such undertakings are usually given for 20 years in the first instance);
- may register by way of continuation in another jurisdiction and be deregistered in the Cayman Islands;
- may register as a limited duration company; and
- may register as a segregated portfolio company.

“Limited liability” means that the liability of each shareholder is limited to the amount unpaid by the shareholder on the shares of the company (except in exceptional circumstances, such as involving fraud, the establishment of an agency relationship or an illegal or improper purpose or other circumstances in which a court may be prepared to pierce or lift the corporate veil).

Differences in Corporate Law

The Companies Law is derived, to a large extent, from the older Companies Acts of England but does not follow recent English statutory enactments and accordingly there are significant differences between the Companies Law and the current Companies Act of England. In addition, the Companies Law differs from laws applicable to U.S. corporations and their shareholders. Set forth below is a summary of certain significant differences between the provisions of the Companies Law applicable to us and the laws applicable to companies incorporated in the United States and their shareholders.

Mergers and Similar Arrangements. The Companies Law permits mergers and consolidations between Cayman Islands companies and between Cayman Islands companies and non-Cayman Islands companies. For these purposes, (i) “merger” means the merging of two or more constituent companies and the vesting of their undertaking, property and liabilities in one of such companies as the surviving company, and (ii) a “consolidation” means the combination of two or more constituent companies into a consolidated company and the vesting of the undertaking, property and liabilities of such companies to the consolidated company. In order to effect such a merger or consolidation, the directors of each constituent company must approve a written plan of merger or consolidation, which must then be authorized by (a) a special resolution of the shareholders of each constituent company, and (b) such other authorization, if any, as may be specified in such constituent company’s articles of association. The plan must be filed with the Registrar of Companies of the Cayman Islands together with a declaration as to the solvency of the consolidated or surviving company, a list of the assets and liabilities of each constituent company and an undertaking that a copy of the certificate of merger or consolidation will be given to the members and creditors of each constituent company and that notification of the merger or consolidation will be published in the Cayman Islands Gazette. Court approval is not required for a merger or consolidation which is effected in compliance with these statutory procedures.

A merger between a Cayman parent company and its Cayman subsidiary or subsidiaries does not require authorization by a resolution of shareholders of that Cayman subsidiary if a copy of the plan of merger is given to every member of that Cayman subsidiary to be merged unless that member agrees otherwise. For this purpose a company is a “parent” of a subsidiary if it holds issued shares that together represent at least ninety percent (90%) of the votes at a general meeting of the subsidiary.

[Table of Contents](#)

The consent of each holder of a fixed or floating security interest over a constituent company is required unless this requirement is waived by a court in the Cayman Islands.

Save in certain limited circumstances, a shareholder of a Cayman constituent company who dissents from the merger or consolidation is entitled to payment of the fair value of his shares (which, if not agreed between the parties, will be determined by the Cayman Islands court) upon dissenting to the merger or consolidation, provide the dissenting shareholder complies strictly with the procedures set out in the Companies Law. The exercise of dissenter rights will preclude the exercise by the dissenting shareholder of any other rights to which he or she might otherwise be entitled by virtue of holding shares, save for the right to seek relief on the grounds that the merger or consolidation is void or unlawful.

Separate from the statutory provisions relating to mergers and consolidations, the Companies Law also contains statutory provisions that facilitate the reconstruction and amalgamation of companies by way of schemes of arrangement, provided that the arrangement is approved by a majority in number of each class of shareholders and creditors with whom the arrangement is to be made, and who must in addition represent three-fourths in value of each such class of shareholders or creditors, as the case may be, that are present and voting either in person or by proxy at a meeting, or meetings, convened for that purpose. The convening of the meetings and subsequently the arrangement must be sanctioned by the Grand Court of the Cayman Islands. While a dissenting shareholder has the right to express to the court the view that the transaction ought not to be approved, the court can be expected to approve the arrangement if it determines that:

- the statutory provisions as to the required majority vote have been met;
- the shareholders have been fairly represented at the meeting in question and the statutory majority are acting bona fide without coercion of the minority to promote interests adverse to those of the class;
- the arrangement is such that may be reasonably approved by an intelligent and honest man of that class acting in respect of his interest; and
- the arrangement is not one that would more properly be sanctioned under some other provision of the Companies Law.

The Companies Law also contains a statutory power of compulsory acquisition which may facilitate the “squeeze out” of dissentient minority shareholder upon a tender offer. When a tender offer is made and accepted by holders of 90% of the shares affected within four months, the offeror may, within a two-month period commencing on the expiration of such four month period, require the holders of the remaining shares to transfer such shares to the offeror on the terms of the offer. An objection can be made to the Grand Court of the Cayman Islands but this is unlikely to succeed in the case of an offer which has been so approved unless there is evidence of fraud, bad faith or collusion.

If an arrangement and reconstruction by way of scheme of arrangement is thus approved and sanctioned, or if a tender offer is made and accepted in accordance with the foregoing statutory procedures, a dissenting shareholder would have no rights comparable to appraisal rights, which would otherwise ordinarily be available to dissenting shareholders of Delaware corporations, providing rights to receive payment in cash for the judicially determined value of the shares.

Shareholders' Suits. In principle, we will normally be the proper plaintiff to sue for a wrong done to us as a company, and as a general rule a derivative action may not be brought by a minority shareholder. However, based on English authorities, which would in all likelihood be of persuasive authority in the Cayman Islands, the Cayman Islands court can be expected to follow and apply the common law principles (namely the rule in *Foss v. Harbottle* and the exceptions thereto) so that a non-controlling shareholder may be permitted to commence a class action against or derivative actions in the name of the company to challenge:

- an act which is illegal or ultra vires and is therefore incapable of ratification by the shareholders;

[Table of Contents](#)

- an act which requires a resolution with a qualified (or special) majority (i.e. more than a simple majority) which has not been obtained; and
- an act which constitutes a fraud on the minority where the wrongdoer are themselves in control of the company.

Indemnification of Directors and Executive Officers and Limitation of Liability. Cayman Islands law does not limit the extent to which a company's memorandum and articles of association may provide for indemnification of officers and directors, except to the extent any such provision may be held by the Cayman Islands courts to be contrary to public policy, such as to provide indemnification against civil fraud or the consequences of committing a crime. Our post-offering memorandum and articles of association provide that that we shall indemnify our officers and directors against all actions, proceedings, costs, charges, expenses, losses, damages or liabilities incurred or sustained by such director or officer, other than by reason of such person's own dishonesty, wilful default or fraud, in or about the conduct of our company's business or affairs (including as a result of any mistake of judgment) or in the execution or discharge of his duties, powers, authorities or discretions, including, without prejudice to the generality of the foregoing, any costs, expenses, losses or liabilities incurred by such director or officer in defending (whether successfully or otherwise) any civil proceedings concerning our company or its affairs in any court whether in the Cayman Islands or elsewhere. This standard of conduct is generally the same as permitted under the Delaware General Corporation Law for a Delaware corporation.

In addition, we have entered into indemnification agreements with our directors and executive officers that provide such persons with additional indemnification beyond that provided in our post-offering memorandum and articles of association.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to our directors, officers or persons controlling us under the foregoing provisions, we have been informed that in the opinion of the SEC, such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

Directors' Fiduciary Duties. Under Delaware corporate law, a director of a Delaware corporation has a fiduciary duty to the corporation and its shareholders. This duty has two components: the duty of care and the duty of loyalty. The duty of care requires that a director act in good faith, with the care that an ordinarily prudent person would exercise under similar circumstances. Under this duty, a director must inform himself of, and disclose to shareholders, all material information reasonably available regarding a significant transaction. The duty of loyalty requires that a director acts in a manner he reasonably believes to be in the best interests of the corporation. He must not use his corporate position for personal gain or advantage. This duty prohibits self-dealing by a director and mandates that the best interest of the corporation and its shareholders take precedence over any interest possessed by a director, officer or controlling shareholder and not shared by the shareholders generally. In general, actions of a director are presumed to have been made on an informed basis, in good faith and in the honest belief that the action taken was in the best interests of the corporation. However, this presumption may be rebutted by evidence of a breach of one of the fiduciary duties. Should such evidence be presented concerning a transaction by a director, the director must prove the procedural fairness of the transaction, and that the transaction was of fair value to the corporation.

As a matter of Cayman Islands law, a director of a Cayman Islands company is in the position of a fiduciary with respect to the company and therefore it is considered that he owes the following duties to the company—a duty to act bona fide in the best interests of the company, a duty not to make a personal profit based on his position as director (unless the company permits him to do so), a duty not to put himself in a position where the interests of the company conflict with his personal interest or his duty to a third party, and a duty to exercise powers for the purpose for which such powers were intended. A director of a Cayman Islands company owes to the company a duty to act with skill and care. It was previously considered that a director need not exhibit in the

[Table of Contents](#)

performance of his duties a greater degree of skill than may reasonably be expected from a person of his knowledge and experience. However, English and Commonwealth courts have moved towards an objective standard with regard to the required skill and care and these authorities are likely to be followed in the Cayman Islands.

Shareholder Action by Written Consent. Under the Delaware General Corporation Law, a corporation may eliminate the right of shareholders to act by written consent by amendment to its certificate of incorporation. Cayman Islands law and our post-offering memorandum and articles of association provide that our shareholders may approve corporate matters by way of a unanimous written resolution signed by or on behalf of each shareholder who would have been entitled to vote on such matter at a general meeting without a meeting being held.

Shareholder Proposals. Under the Delaware General Corporation Law, a shareholder has the right to put any proposal before the annual meeting of shareholders; *provided* it complies with the notice provisions in the governing documents. A special meeting may be called by the board of directors or any other person authorized to do so in the governing documents, but shareholders may be precluded from calling special meetings.

The Companies Law provides shareholders with only limited rights to requisition a general meeting, and does not provide shareholders with any right to put any proposal before a general meeting. However, these rights may be provided in a company's articles of association. Our post-offering memorandum and articles of association allow any one or more of our shareholders holding shares which carry in aggregate not less than one-third of all votes attaching to all issued and outstanding shares of our company as at the date of the deposit entitled to vote at general meetings to requisition an extraordinary general meeting of our shareholders, in which case our board is obliged to convene an extraordinary general meeting and to put the resolutions so requisitioned to a vote at such meeting. Other than this right to requisition a shareholders' meeting, our post-offering memorandum and articles of association do not provide our shareholders with any other right to put proposals before annual general meetings or extraordinary general meetings. As an exempted Cayman Islands company, we are not obliged by law to call shareholders' annual general meetings.

Cumulative Voting. Under the Delaware General Corporation Law, cumulative voting for elections of directors is not permitted unless the corporation's certificate of incorporation specifically provides for it. Cumulative voting potentially facilitates the representation of minority shareholders on a board of directors since it permits the minority shareholder to cast all the votes to which the shareholder is entitled on a single director, which increases the shareholder's voting power with respect to electing such director. There are no prohibitions in relation to cumulative voting under the laws of the Cayman Islands but our post-offering memorandum and articles of association do not provide for cumulative voting. As a result, our shareholders are not afforded any less protections or rights on this issue than shareholders of a Delaware corporation.

Removal of Directors. Under the Delaware General Corporation Law, a director of a corporation with a classified board may be removed only for cause with the approval of a majority of the outstanding shares entitled to vote, unless the certificate of incorporation provides otherwise. Under our post-offering memorandum and articles of association, directors may be removed by an ordinary resolution of our shareholders. A director's office shall be vacated if he (i) becomes bankrupt or makes any arrangement or composition with his creditors; (ii) dies or is found to be or becomes of unsound mind; (iii) resigns his office by notice in writing; (iv) without special leave of absence from our board, is absent from meetings of our board for three consecutive meetings and our board resolves that his office be vacated; or (v) is removed from office pursuant to any other provision of our articles of association.

Transactions with Interested Shareholders. The Delaware General Corporation Law contains a business combination statute applicable to Delaware corporations whereby, unless the corporation has specifically elected not to be governed by such statute by amendment to its certificate of incorporation, it is prohibited from engaging in certain business combinations with an "interested shareholder" for three years following the date that such

[Table of Contents](#)

person becomes an interested shareholder. An interested shareholder generally is a person or a group who or which owns or owned 15% or more of the target's outstanding voting share within the past three years. This has the effect of limiting the ability of a potential acquirer to make a two-tiered bid for the target in which all shareholders would not be treated equally. The statute does not apply if, among other things, prior to the date on which such shareholder becomes an interested shareholder, the board of directors approves either the business combination or the transaction which resulted in the person becoming an interested shareholder. This encourages any potential acquirer of a Delaware corporation to negotiate the terms of any acquisition transaction with the target's board of directors.

Cayman Islands law has no comparable statute. As a result, we cannot avail ourselves of the types of protections afforded by the Delaware business combination statute. However, although Cayman Islands law does not regulate transactions between a company and its significant shareholders, it does provide that such transactions must be entered into bona fide in the best interests of the company and not with the effect of constituting a fraud on the minority shareholders.

Dissolution; Winding up. Under the Delaware General Corporation Law, unless the board of directors approves the proposal to dissolve, dissolution must be approved by shareholders holding 100% of the total voting power of the corporation. Only if the dissolution is initiated by the board of directors may it be approved by a simple majority of the corporation's outstanding shares. Delaware law allows a Delaware corporation to include in its certificate of incorporation a supermajority voting requirement in connection with dissolutions initiated by the board.

Under Cayman Islands law, a company may be wound up by either an order of the courts of the Cayman Islands or by a special resolution of its members or, if the company is unable to pay its debts as they fall due, by an ordinary resolution of its members. The court has authority to order winding up in a number of specified circumstances including where it is, in the opinion of the court, just and equitable to do so.

Variation of Rights of Shares. Under the Delaware General Corporation Law, a corporation may vary the rights of a class of shares with the approval of a majority of the outstanding shares of such class, unless the certificate of incorporation provides otherwise. Under our post-offering memorandum and articles of association, if our share capital is divided into more than one class of shares, the rights attached to any such class may, subject to any rights or restrictions for the time being attached to any class, only be materially adversely varied with the consent in writing of the holders of two-thirds of all the issued shares of that class or with the sanction of an ordinary resolution passed at a separate meeting of the holders of the shares of that class. The rights conferred upon the holders of the shares of any class issued with preferred or other rights shall not, subject to any rights or restrictions for the time being attached to the shares of that class, be deemed to be materially adversely varied by the creation, allotment or issue of further shares ranking pari passu with or subsequent to them or the redemption or purchase of any shares of any class by our company. The rights of the holders of shares shall not be deemed to be materially adversely varied by the creation or issue of shares with preferred or other rights including, without limitation, the creation of shares with enhanced or weighted voting rights.

Amendment of Governing Documents. Under the Delaware General Corporation Law, a corporation's governing documents may be amended with the approval of a majority of the outstanding shares entitled to vote, unless the certificate of incorporation provides otherwise. Under the Companies Law and our post-offering memorandum and articles of association, our memorandum and articles of association may only be amended by a special resolution of our shareholders.

Rights of Non-resident or Foreign Shareholders. There are no limitations imposed by our post-offering memorandum and articles of association on the rights of non-resident or foreign shareholders to hold or exercise voting rights on our shares. In addition, there are no provisions in our post-offering memorandum and articles of association governing the ownership threshold above which shareholder ownership must be disclosed.

The following is a summary of our securities issuances in the past three years.

Share Split

In May 2019, we effected a 20-for-1 share split whereby each of our issued and unissued share with a par value of US\$0.001 each was sub-divided into 20 shares with a par value of US\$0.00005 each, such that our authorized share capital became US\$50,000 divided into 971,000,000 ordinary shares of a par value of US\$0.00005 each and 29,000,000 series A preferred shares with a par value of US\$0.00005 each. Warrants

On November 6, 2018, we issued warrants to Innoven Capital China Pte. Ltd., a third-party investor, pursuant to which the investor has the right to subscribe, up to RMB5.0 million worth of equity securities of our company, to be issued in our equity financing prior to our initial public offering, at an exercise price equal to the per share issuance price of the equity securities in the relevant round of equity financing. The warrants will expire upon the earlier of (i) the fifth anniversary of the date of issuance, which is November 6, 2023, and (ii) the date when we submit the application for an initial public offering. If the warrants expire because we submit the application for the initial public offering prior to November 6, 2023, or we have not done any equity financing prior to November 6, 2023, we will be obligated to pay to the investor 25% of the exercise price of the outstanding warrants.

Grants of Options

We have granted options to purchase our ordinary shares to certain of our directors, executive officers and employees. See “Management—Amended and Restated 2018 Stock Option Scheme.”

Shareholders Agreement

We entered into our third amended and restated shareholders agreement on April 21, 2017 with our shareholders, which consist of holders of ordinary shares and preferred shares. The shareholders agreement provides for certain shareholders' rights, including information and inspection rights, right of participation, right of first refusal and co-sale rights, and contains provisions governing our board of directors and other corporate governance matters. The special rights, as well as the corporate governance provisions, will automatically terminate upon the completion of this offering.

Registration Rights

We have granted certain registration rights to holders of registrable securities, which include our ordinary shares issued or issuable pursuant to conversion of our preferred shares. Set forth below is a description of the registration rights granted under the shareholders agreement.

Demand Registration Rights. At any time after the earlier of (i) January 1, 2017, or (ii) the date that is 12 months after the closing of this offering, holders of at least 50% of the registrable securities (including preferred shares and ordinary shares issued upon conversion of preferred shares) then outstanding have the right to demand that we file a registration statement of all registrable securities that the holders request to be registered and included in such registration by written notice. At least 20% (or any lesser percentage in certain situations) of the registrable securities requested by the holders to be included in the underwriting and registration shall be so included. We have the right to defer filing of a registration statement for a period of not more than 60 days for registration on Form F-3 (90 days for registration other than on Form F-3) after the receipt of the request of the initiating holders if we furnish to the holders requesting registration a certificate signed by our president or chief executive officer stating that in the good faith judgment of our board of directors, it would be materially detrimental to us and our shareholders for such registration statement to be filed at such time. However, we cannot exercise the deferral right more than once in any twelve-month period. We are obligated to effect no more than two demand registrations, other than demand registration to be effected pursuant to registration statement on Form F-3, for which an unlimited number of demand registrations shall be permitted so long as certain condition is met.

Piggyback Registration Rights. If we propose to register for our own account any of our equity securities, or for the account of any holder (other than certain holders) of equity securities any of such holder's equity securities, in connection with public offering of such securities (except for exempt transactions), we shall promptly give each holder written notice of such registration and, upon the written request of any holder given within 15 days after delivery of such notice, we shall use our best efforts to include in such registration any registrable securities thereby requested to be registered by such holder. If a holder decides not to include all or any of its registrable securities in such registration by us, such holder shall nevertheless continue to have the right to include any registrable securities in any subsequent registration statement or registration statements as may be filed by us.

Expenses of Registration. We will bear all registration expenses, other than underwriting discounts and selling commissions applicable to the sale of registrable securities pursuant to the registration rights.

Termination of Registration Rights. Our shareholders' registration rights will terminate on the earlier of (i) the date that is five years after the date of closing of this offering, or (ii) with respect to any holder, the date on which such holder may sell all of such holder's registrable securities under Rule 144 of the Securities Act in any 90-day period.

DESCRIPTION OF AMERICAN DEPOSITARY SHARES

American Depositary Shares

The Bank of New York Mellon, as depositary, will register and deliver American Depositary Shares, also referred to as ADSs. Each ADS will represent Class A ordinary shares (or a right to receive Class A ordinary shares) deposited with The Hongkong and Shanghai Banking Corporation Limited, as custodian for the depositary in Hong Kong. Each ADS will also represent any other securities, cash or other property which may be held by the depositary. The deposited shares together with any other securities, cash or other property held by the depositary are referred to as the deposited securities. The depositary's office at which the ADSs will be administered and its principal executive office is located at 240 Greenwich Street, New York, New York 10286.

You may hold ADSs either (A) directly (i) by having an American Depositary Receipt, also referred to as an ADR, which is a certificate evidencing a specific number of ADSs, registered in your name, or (ii) by having uncertificated ADSs registered in your name, or (B) indirectly by holding a security entitlement in ADSs through your broker or other financial institution that is a direct or indirect participant in The Depository Trust Company, also called DTC. If you hold ADSs directly, you are a registered ADS holder, also referred to as an ADS holder. This description assumes you are an ADS holder. If you hold the ADSs indirectly, you must rely on the procedures of your broker or other financial institution to assert the rights of ADS holders described in this section. You should consult with your broker or financial institution to find out what those procedures are.

Registered holders of uncertificated ADSs will receive statements from the depositary confirming their holdings.

As an ADS holder, we will not treat you as one of our shareholders and you will not have shareholder rights. Cayman Islands law governs shareholder rights. The depositary will be the holder of the shares underlying your ADSs. As a registered holder of ADSs, you will have ADS holder rights. A deposit agreement among us, the depositary, ADS holders and all other persons indirectly or beneficially holding ADSs sets out ADS holder rights as well as the rights and obligations of the depositary. New York law governs the deposit agreement and the ADSs.

The following is a summary of the material provisions of the deposit agreement. For more complete information, you should read the entire deposit agreement and the form of ADR. For directions on how to obtain copies of those documents, please refer to "Where You Can Find Additional Information."

Dividends and Other Distributions

How will you receive dividends and other distributions on the shares?

The depositary has agreed to pay or distribute to ADS holders the cash dividends or other distributions it or the custodian receives on shares or other deposited securities, upon payment or deduction of its fees and expenses. You will receive these distributions in proportion to the number of shares your ADSs represent.

- **Cash.** The depositary will convert any cash dividend or other cash distribution we pay on the shares into U.S. dollars, if it can do so on a reasonable basis and can transfer the U.S. dollars to the United States. If that is not possible or if any government approval is needed and cannot be obtained, the deposit agreement allows the depositary to distribute the foreign currency only to those ADS holders to whom it is possible to do so. It will hold the foreign currency it cannot convert for the account of the ADS holders who have not been paid. It will not invest the foreign currency and it will not be liable for any interest.

Before making a distribution, any withholding taxes, or other governmental charges that must be paid will be deducted. See "Taxation." The depositary will distribute only whole U.S. dollars and cents and

will round fractional cents to the nearest whole cent. *If the exchange rates fluctuate during a time when the depositary cannot convert the foreign currency, you may lose some of the value of the distribution.*

- **Shares.** The depositary may distribute additional ADSs representing any shares we distribute as a dividend or free distribution. The depositary will only distribute whole ADSs. It will sell shares which would require it to deliver a fraction of an ADS (or ADSs representing those shares) and distribute the net proceeds in the same way as it does with cash. If the depositary does not distribute additional ADSs, the outstanding ADSs will also represent the new shares. The depositary may sell a portion of the distributed shares (or ADSs representing those shares) sufficient to pay its fees and expenses in connection with that distribution.
- **Rights to purchase additional shares.** If we offer holders of our securities any rights to subscribe for additional shares or any other rights, the depositary may (i) exercise those rights on behalf of ADS holders, (ii) distribute those rights to ADS holders or (iii) sell those rights and distribute the net proceeds to ADS holders, in each case after deduction or upon payment of its fees and expenses. To the extent the depositary does not do any of those things, it will allow the rights to lapse. *In that case, you will receive no value for them.* The depositary will exercise or distribute rights only if we ask it to and provide satisfactory assurances to the depositary that it is legal to do so. If the depositary will exercise rights, it will purchase the securities to which the rights relate and distribute those securities or, in the case of shares, new ADSs representing the new shares, to subscribing ADS holders, but only if ADS holders have paid the exercise price to the depositary. U.S. securities laws may restrict the ability of the depositary to distribute rights or ADSs or other securities issued on exercise of rights to all or certain ADS holders, and the securities distributed may be subject to restrictions on transfer.
- **Other Distributions.** The depositary will send to ADS holders anything else we distribute on deposited securities by any means it thinks is legal, fair and practical. If it cannot make the distribution in that way, the depositary has a choice. It may decide to sell what we distributed and distribute the net proceeds, in the same way as it does with cash. Or, it may decide to hold what we distributed, in which case ADSs will also represent the newly distributed property. However, the depositary is not required to distribute any securities (other than ADSs) to ADS holders unless it receives satisfactory evidence from us that it is legal to make that distribution. The depositary may sell a portion of the distributed securities or property sufficient to pay its fees and expenses in connection with that distribution. U.S. securities laws may restrict the ability of the depositary to distribute securities to all or certain ADS holders, and the securities distributed may be subject to restrictions on transfer.

The depositary is not responsible if it decides that it is unlawful or impractical to make a distribution available to any ADS holders. We have no obligation to register ADSs, shares, rights or other securities under the Securities Act. We also have no obligation to take any other action to permit the distribution of ADSs, shares, rights or anything else to ADS holders. *This means that you may not receive the distributions we make on our shares or any value for them if it is illegal or impractical for us to make them available to you.*

Deposit, Withdrawal and Cancellation

How are ADSs issued?

The depositary will deliver ADSs if you or your broker deposits shares or evidence of rights to receive shares with the custodian. Upon payment of its fees and expenses and of any taxes or charges, such as stamp taxes or stock transfer taxes or fees, the depositary will register the appropriate number of ADSs in the names you request and will deliver the ADSs to or upon the order of the person or persons that made the deposit.

How can ADS holders withdraw the deposited securities?

You may surrender your ADSs to the depositary for the purpose of withdrawal. Upon payment of its fees and expenses and of any taxes or charges, such as stamp taxes or stock transfer taxes or fees, the depositary will

[Table of Contents](#)

deliver the shares and any other deposited securities underlying the ADSs to the ADS holder or a person the ADS holder designates at the office of the custodian. Or, at your request, risk and expense, the depositary will deliver the deposited securities at its office, if feasible. However, the depositary is not required to accept surrender of ADSs to the extent it would require delivery of a fraction of a deposited share or other security. The depositary may charge you a fee and its expenses for instructing the custodian regarding delivery of deposited securities.

How do ADS holders interchange between certificated ADSs and uncertificated ADSs?

You may surrender your ADR to the depositary for the purpose of exchanging your ADR for uncertificated ADSs. The depositary will cancel that ADR and will send to the ADS holder a statement confirming that the ADS holder is the registered holder of uncertificated ADSs. Upon receipt by the depositary of a proper instruction from a registered holder of uncertificated ADSs requesting the exchange of uncertificated ADSs for certificated ADSs, the depositary will execute and deliver to the ADS holder an ADR evidencing those ADSs.

Voting Rights

How do you vote?

ADS holders may instruct the depositary how to vote the number of deposited shares their ADSs represent. If we request the depositary to solicit your voting instructions (and we are not required to do so), the depositary will notify you of a shareholders' meeting and send or make voting materials available to you. Those materials will describe the matters to be voted on and explain how ADS holders may instruct the depositary how to vote. For instructions to be valid, they must reach the depositary by a date set by the depositary. The depositary will try, as far as practical, subject to the laws of the Cayman Islands and the provisions of our articles of association or similar documents, to vote or to have its agents vote the shares or other deposited securities as instructed by ADS holders or as described in the following sentence. If we asked the depositary to solicit your instructions at least 30 days before the meeting date but the depositary does not receive voting instructions from you by the specified date and we confirm to the depositary that: (i) we wish to receive a proxy to vote uninstructed shares; (ii) we reasonably do not know of any substantial shareholder opposition to the proxy item(s); and (iii) the proxy item(s) is not materially adverse to the interests of shareholders, then the depositary will consider you to have authorized and directed it to give a discretionary proxy to a person designated by us to vote the number of deposited securities represented by the ADSs as to the proxy item(s). If we do not request the depositary to solicit your voting instructions, you can still send voting instructions, and, in that case, the depositary may try to vote as you instruct, but it is not required to do so.

Except by instructing the depositary as described above, you won't be able to exercise voting rights unless you surrender your ADSs and withdraw the shares. However, you may not know about the meeting enough in advance to withdraw the shares. In any event, the depositary will not exercise any discretion in voting deposited securities and it will only vote or attempt to vote as instructed.

We cannot assure you that you will receive the voting materials in time to ensure that you can instruct the depositary to vote your shares. In addition, the depositary and its agents are not responsible for failing to carry out voting instructions or for the manner of carrying out voting instructions. *This means that you may not be able to exercise voting rights and there may be nothing you can do if your shares are not voted as you requested.*

In order to give you a reasonable opportunity to instruct the depositary as to the exercise of voting rights relating to Deposited Securities, if we request the Depositary to act, we agree to give the depositary notice of any such meeting and details concerning the matters to be voted upon at least 45 days in advance of the meeting date.

Fees and Expenses

Persons depositing or withdrawing shares or ADS holders must pay:	For:
\$5.00 (or less) per 100 ADSs (or portion of 100 ADSs)	Issuance of ADSs, including issuances resulting from a distribution of shares or rights or other property
	Cancellation of ADSs for the purpose of withdrawal, including if the deposit agreement terminates
\$.05 (or less) per ADS	Any cash distribution to ADS holders
A fee equivalent to the fee that would be payable if securities distributed to you had been shares and the shares had been deposited for issuance of ADSs	Distribution of securities distributed to holders of deposited securities (including rights) that are distributed by the depository to ADS holders
\$.05 (or less) per ADS per calendar year	Depository services
Registration or transfer fees	Transfer and registration of shares on our share register to or from the name of the depository or its agent when you deposit or withdraw shares
Expenses of the depository	Cable and facsimile transmissions (when expressly provided in the deposit agreement)
	Converting foreign currency to U.S. dollars
Taxes and other governmental charges the depository or the custodian has to pay on any ADSs or shares underlying ADSs, such as stock transfer taxes, stamp duty or withholding taxes	As necessary
Any charges incurred by the depository or its agents for servicing the deposited securities	As necessary

The depository collects its fees for delivery and surrender of ADSs directly from investors depositing shares or surrendering ADSs for the purpose of withdrawal or from intermediaries acting for them. The depository collects fees for making distributions to investors by deducting those fees from the amounts distributed or by selling a portion of distributable property to pay the fees. The depository may collect its annual fee for depository services by deduction from cash distributions or by directly billing investors or by charging the book-entry system accounts of participants acting for them. The depository may collect any of its fees by deduction from any cash distribution payable (or by selling a portion of securities or other property distributable) to ADS holders that are obligated to pay those fees. The depository may generally refuse to provide fee-attracting services until its fees for those services are paid.

From time to time, the depository may make payments to us to reimburse us for costs and expenses generally arising out of establishment and maintenance of the ADS program, waive fees and expenses for services provided to us by the depository or share revenue from the fees collected from ADS holders. In performing its duties under the deposit agreement, the depository may use brokers, dealers, foreign currency dealers or other service providers that are owned by or affiliated with the depository and that may earn or share fees, spreads or commissions.

The depository may convert currency itself or through any of its affiliates and, in those cases, acts as principal for its own account and not as agent, advisor, broker or fiduciary on behalf of any other person and

[Table of Contents](#)

earns revenue, including, without limitation, transaction spreads, that it will retain for its own account. The revenue is based on, among other things, the difference between the exchange rate assigned to the currency conversion made under the deposit agreement and the rate that the depositary or its affiliate receives when buying or selling foreign currency for its own account. The depositary makes no representation that the exchange rate used or obtained in any currency conversion under the deposit agreement will be the most favorable rate that could be obtained at the time or that the method by which that rate will be determined will be the most favorable to ADS holders, subject to the depositary's obligations under the deposit agreement. The methodology used to determine exchange rates used in currency conversions is available upon request.

Payment of Taxes

You will be responsible for any taxes or other governmental charges payable on your ADSs or on the deposited securities represented by any of your ADSs. The depositary may refuse to register any transfer of your ADSs or allow you to withdraw the deposited securities represented by your ADSs until those taxes or other charges are paid. It may apply payments owed to you or sell deposited securities represented by your ADSs to pay any taxes owed and you will remain liable for any deficiency. If the depositary sells deposited securities, it will, if appropriate, reduce the number of ADSs to reflect the sale and pay to ADS holders any proceeds, or send to ADS holders any property, remaining after it has paid the taxes.

Tender and Exchange Offers; Redemption, Replacement or Cancellation of Deposited Securities

The depositary will not tender deposited securities in any voluntary tender or exchange offer unless instructed to do by an ADS holder surrendering ADSs and subject to any conditions or procedures the depositary may establish.

If deposited securities are redeemed for cash in a transaction that is mandatory for the depositary as a holder of deposited securities, the depositary will call for surrender of a corresponding number of ADSs and distribute the net redemption money to the holders of called ADSs upon surrender of those ADSs.

If there is any change in the deposited securities such as a sub-division, combination or other reclassification, or any merger, consolidation, recapitalization or reorganization affecting the issuer of deposited securities in which the depositary receives new securities in exchange for or in lieu of the old deposited securities, the depositary will hold those replacement securities as deposited securities under the deposit agreement. However, if the depositary decides it would not be lawful and practical to hold the replacement securities because those securities could not be distributed to ADS holders or for any other reason, the depositary may instead sell the replacement securities and distribute the net proceeds upon surrender of the ADSs.

If there is a replacement of the deposited securities and the depositary will continue to hold the replacement securities, the depositary may distribute new ADSs representing the new deposited securities or ask you to surrender your outstanding ADRs in exchange for new ADRs identifying the new deposited securities.

If there are no deposited securities underlying ADSs, including if the deposited securities are cancelled, or if the deposited securities underlying ADSs have become apparently worthless, the depositary may call for surrender of those ADSs or cancel those ADSs upon notice to the ADS holders.

Amendment and Termination

How may the deposit agreement be amended?

We may agree with the depositary to amend the deposit agreement and the ADRs without your consent for any reason. If an amendment adds or increases fees or charges, except for taxes and other governmental charges or expenses of the depositary for registration fees, facsimile costs, delivery charges or similar items, or prejudices

[Table of Contents](#)

a substantial right of ADS holders, it will not become effective for outstanding ADSs until 30 days after the depositary notifies ADS holders of the amendment. *At the time an amendment becomes effective, you are considered, by continuing to hold your ADSs, to agree to the amendment and to be bound by the ADRs and the deposit agreement as amended.*

How may the deposit agreement be terminated?

The depositary will initiate termination of the deposit agreement if we instruct it to do so. The depositary may initiate termination of the deposit agreement if

- 60 days have passed since the depositary told us it wants to resign but a successor depositary has not been appointed and accepted its appointment;
- we delist the ADSs from an exchange in the United States on which they were listed and do not list the ADSs shares on another exchange in the United States or make arrangements for trading of ADSs on the U.S. over-the-counter market;
- we appear to be insolvent or enter insolvency proceedings;
- all or substantially all the value of the deposited securities has been distributed either in cash or in the form of securities;
- there are no deposited securities underlying the ADSs or the underlying deposited securities have become apparently worthless; or
- there has been a replacement of deposited securities.

If the deposit agreement will terminate, the depositary will notify ADS holders at least 90 days before the termination date. At any time after the termination date, the depositary may sell the deposited securities. After that, the depositary will hold the money it received on the sale, as well as any other cash it is holding under the deposit agreement, unsegregated and without liability for interest, for the pro rata benefit of the ADS holders that have not surrendered their ADSs. Normally, the depositary will sell as soon as practicable after the termination date.

After the termination date and before the depositary sells, ADS holders can still surrender their ADSs and receive delivery of deposited securities, except that the depositary may refuse to accept a surrender for the purpose of withdrawing deposited securities or reverse previously accepted surrenders of that kind that have not settled if it would interfere with the selling process. The depositary may refuse to accept a surrender for the purpose of withdrawing sale proceeds until all the deposited securities have been sold. The depositary will continue to collect distributions on deposited securities, *but*, after the termination date, the depositary is not required to register any transfer of ADSs or distribute any dividends or other distributions on deposited securities to the ADSs holder (until they surrender their ADSs) or give any notices or perform any other duties under the deposit agreement except as described in this paragraph.

Limitations on Obligations and Liability

Limits on our Obligations and the Obligations of the Depositary; Limits on Liability to Holders of ADSs

The deposit agreement expressly limits our obligations and the obligations of the depositary. It also limits our liability and the liability of the depositary. We and the depositary:

- are only obligated to take the actions specifically set forth in the deposit agreement without negligence or bad faith, and the depositary will not be a fiduciary or have any fiduciary duty to holders of ADSs;
- are not liable if we are or it is prevented or delayed by law or by events or circumstances beyond our or its control from performing our or its obligations under the deposit agreement;

[Table of Contents](#)

- are not liable if we or it exercises discretion permitted under the deposit agreement;
- are not liable for the inability of any holder of ADSs to benefit from any distribution on deposited securities that is not made available to holders of ADSs under the terms of the deposit agreement, or for any special, consequential or punitive damages for any breach of the terms of the deposit agreement;
- have no obligation to become involved in a lawsuit or other proceeding related to the ADSs or the deposit agreement on your behalf or on behalf of any other person;
- may rely upon any documents we believe or it believes in good faith to be genuine and to have been signed or presented by the proper person;
- are not liable for the acts or omissions of any securities depository, clearing agency or settlement system; and
- the depository has no duty to make any determination or provide any information as to our tax status, or any liability for any tax consequences that may be incurred by ADS holders as a result of owning or holding ADSs or be liable for the inability or failure of an ADS holder to obtain the benefit of a foreign tax credit, reduced rate of withholding or refund of amounts withheld in respect of tax or any other tax benefit.

In the deposit agreement, we and the depository agree to indemnify each other under certain circumstances.

Requirements for Depository Actions

Before the depository will deliver or register a transfer of ADSs, make a distribution on ADSs, or permit withdrawal of shares, the depository may require:

- payment of stock transfer or other taxes or other governmental charges and transfer or registration fees charged by third parties for the transfer of any shares or other deposited securities;
- satisfactory proof of the identity and genuineness of any signature or other information it deems necessary; and
- compliance with regulations it may establish, from time to time, consistent with the deposit agreement, including presentation of transfer documents.

The depository may refuse to deliver ADSs or register transfers of ADSs when the transfer books of the depository or our transfer books are closed or at any time if the depository or we think it advisable to do so.

Your Right to Receive the Shares Underlying your ADSs

ADS holders have the right to cancel their ADSs and withdraw the underlying shares at any time except:

- when temporary delays arise because: (i) the depository has closed its transfer books or we have closed our transfer books; (ii) the transfer of shares is blocked to permit voting at a shareholders' meeting; or (iii) we are paying a dividend on our shares;
- when you owe money to pay fees, taxes and similar charges; or
- when it is necessary to prohibit withdrawals in order to comply with any laws or governmental regulations that apply to ADSs or to the withdrawal of shares or other deposited securities.

This right of withdrawal may not be limited by any other provision of the deposit agreement.

Direct Registration System

In the deposit agreement, all parties to the deposit agreement acknowledge that the Direct Registration System, also referred to as DRS, and Profile Modification System, also referred to as Profile, will apply to the

[Table of Contents](#)

ADSs. DRS is a system administered by DTC that facilitates interchange between registered holding of uncertificated ADSs and holding of security entitlements in ADSs through DTC and a DTC participant. Profile is a feature of DRS that allows a DTC participant, claiming to act on behalf of a registered holder of uncertificated ADSs, to direct the depository to register a transfer of those ADSs to DTC or its nominee and to deliver those ADSs to the DTC account of that DTC participant without receipt by the depository of prior authorization from the ADS holder to register that transfer.

In connection with and in accordance with the arrangements and procedures relating to DRS/Profile, the parties to the deposit agreement understand that the depository will not determine whether the DTC participant that is claiming to be acting on behalf of an ADS holder in requesting registration of transfer and delivery as described in the paragraph above has the actual authority to act on behalf of the ADS holder (notwithstanding any requirements under the Uniform Commercial Code). In the deposit agreement, the parties agree that the depository's reliance on and compliance with instructions received by the depository through the DRS/Profile system and in accordance with the deposit agreement will not constitute negligence or bad faith on the part of the depository.

Shareholder communications; inspection of register of holders of ADSs

The depository will make available for your inspection at its office all communications that it receives from us as a holder of deposited securities that we make generally available to holders of deposited securities. The depository will send you copies of those communications or otherwise make those communications available to you if we ask it to. You have a right to inspect the register of holders of ADSs, but not for the purpose of contacting those holders about a matter unrelated to our business or the ADSs.

Jury Trial Waiver

The deposit agreement provides that, to the extent permitted by law, ADS holders waive the right to a jury trial of any claim they may have against us or the depository arising out of or relating to our shares, the ADSs or the deposit agreement, including any claim under the U.S. federal securities laws. If we or the depository opposed a jury trial demand based on the waiver, the court would determine whether the waiver was enforceable in the facts and circumstances of that case in accordance with applicable case law. However, you will not, be agreeing to the terms of the deposit agreement, be deemed to have waived our or the depository's compliance with U.S. federal securities laws and the rules and regulations promulgated thereunder.

SHARES ELIGIBLE FOR FUTURE SALE

Upon completion of this offering, we will have _____ ADSs outstanding, representing approximately _____ % of our outstanding Class A ordinary shares, assuming the underwriters do not exercise their over-allotment option to purchase additional ADSs. All of the ADSs sold in this offering will be freely transferable by persons other than by our “affiliates” without restriction or further registration under the Securities Act. Sales of substantial amounts of the ADSs in the public market could adversely affect prevailing market prices of the ADSs. Prior to this offering, there has been no public market for our ordinary shares or the ADSs. We have applied to list the ADSs on the Nasdaq Global Market, but we cannot assure you that a regular trading market will develop in the ADSs. We do not expect that a trading market will develop for our ordinary shares not represented by the ADSs.

Lock-up Agreements

We have agreed, for a period of 180 days after the date of this prospectus, not to offer, sell, contract to sell, pledge, grant any option to purchase, make any short sale, lend or otherwise dispose of, except in this offering, any of our ordinary shares or the ADSs or securities that are substantially similar to our ordinary shares or the ADSs, including but not limited to any options or warrants to purchase our ordinary shares, the ADSs or any securities that are convertible into or exchangeable for, or that represent the right to receive, our ordinary shares, the ADSs or any such substantially similar securities (other than pursuant to employee stock option plans existing on, or upon the conversion or exchange of convertible or exchangeable securities outstanding as of, the date such lock-up agreement was executed), without the prior written consent of the representative of the underwriters.

Furthermore, each of our directors, executive officers and all of our existing shareholders has also entered into a similar lock-up agreement for a period of 180 days from the date of this prospectus, subject to certain exceptions, with respect to our ordinary shares, the ADSs and securities that are substantially similar to our ordinary shares or the ADSs. These parties collectively own all of our outstanding ordinary shares, without giving effect to this offering. In addition, our officers and directors that are our existing shareholders have also agreed with us, subject to certain exceptions, not to sell, transfer or otherwise dispose of any ADSs, ordinary shares or similar securities for a period of one year after the date of this prospectus.

Other than this offering, we are not aware of any plans by any significant shareholders to dispose of significant numbers of the ADSs or ordinary shares. However, one or more existing shareholders or owners of securities convertible or exchangeable into or exercisable for the ADSs or ordinary shares may dispose of significant numbers of the ADSs or ordinary shares in the future. We cannot predict what effect, if any, future sales of the ADSs or ordinary shares, or the availability of ADSs or ordinary shares for future sale, will have on the trading price of the ADSs from time to time. Sales of substantial amounts of the ADSs or ordinary shares in the public market, or the perception that these sales could occur, could adversely affect the trading price of the ADSs.

Rule 144

All of our ordinary shares that will be outstanding upon the completion of this offering, other than those ordinary shares sold in this offering, are “restricted securities” as that term is defined in Rule 144 under the Securities Act and may be sold publicly in the United States only if they are subject to an effective registration statement under the Securities Act or pursuant to an exemption from the registration requirement such as those provided by Rule 144 and Rule 701 promulgated under the Securities Act. In general, beginning 90 days after the date of this prospectus, a person (or persons whose shares are aggregated) who at the time of a sale is not, and has not been during the three months preceding the sale, an affiliate of ours and has beneficially owned our restricted securities for at least six months will be entitled to sell the restricted securities without registration under the Securities Act, subject only to the availability of current public information about us, and will be entitled to sell restricted securities beneficially owned for at least one year without restriction. Persons who are

[Table of Contents](#)

our affiliates and have beneficially owned our restricted securities for at least six months may sell a number of restricted securities within any three-month period that does not exceed the greater of the following:

- 1% of the then outstanding ordinary shares of the same class, including ordinary shares represented by ADSs, which immediately after the completion of this offering will equal Class A ordinary shares, assuming the underwriters do not exercise their over-allotment option; or
- the average weekly trading volume of our ordinary shares of the same class, in the form of ADSs or otherwise, during the four calendar weeks preceding the date on which notice of the sale is filed with the SEC.

Sales by our affiliates under Rule 144 are also subject to certain requirements relating to manner of sale, notice and the availability of current public information about us.

Rule 701

In general, under Rule 701 of the Securities Act as currently in effect, each of our employees, consultants or advisors who purchases our ordinary shares from us in connection with a compensatory stock plan or other written agreement executed prior to the completion of this offering is eligible to resell those ordinary shares in reliance on Rule 144, but without compliance with some of the restrictions, including the holding period, contained in Rule 144. However, the Rule 701 shares would remain subject to lock-up arrangements and would only become eligible for sale when the lock-up period expires.

TAXATION

The following summary of the material Cayman Islands, Hong Kong, PRC and U.S. federal income tax consequences of an investment in the ADSs or ordinary shares is based upon laws and relevant interpretations thereof in effect as of the date of this registration statement, all of which are subject to change. This summary does not deal with all possible tax consequences relating to an investment in the ADSs or ordinary shares, such as the tax consequences under U.S. state and local tax laws or under the tax laws of jurisdictions other than the Cayman Islands, Hong Kong, the People's Republic of China and the United States. To the extent that the discussion relates to matters of Cayman Islands tax law, it represents the opinion of Maples and Calder (Hong Kong) LLP, our Cayman Islands counsel; to the extent it relates to Hong Kong tax law, it is the opinion of Guantao & Chow Solicitors and Notaries, our Hong Kong counsel; to the extent it relates to PRC tax law, it is the opinion of Han Kun Law Offices, our PRC counsel.

Cayman Islands Taxation

The Cayman Islands currently levies no taxes on individuals or corporations based upon profits, income, gains or appreciation and there is no taxation in the nature of inheritance tax or estate duty. There are no other taxes likely to be material to us levied by the government of the Cayman Islands except for stamp duties which may be applicable on instruments executed in, or, after execution, brought within the jurisdiction of the Cayman Islands. The Cayman Islands is not party to any double tax treaties that are applicable to any payments made to or by our company. There are no exchange control regulations or currency restrictions in the Cayman Islands.

Payments of dividends and capital in respect of our ordinary shares and ADSs will not be subject to taxation in the Cayman Islands and no withholding will be required on the payment of a dividend or capital to any holder of our ordinary shares or the ADSs, nor will gains derived from the disposal of our ordinary shares or the ADSs be subject to Cayman Islands income or corporation tax.

Hong Kong Taxation

Hong Kong profits tax is chargeable on every person, including corporations, carrying on a trade, profession or business in Hong Kong in respect of profits arising in or derived from Hong Kong from such trade, profession or business (excluding profits arising from the sale of capital assets). However, profits arising from the sale of capital assets are not subject to Hong Kong profit tax. Whether (i) an activity amounted to trade, profession or business; (ii) an asset is capital in nature or revenue in nature; and/or (iii) profits are arising in or derived from Hong Kong are questions of fact. Under the current Hong Kong Inland Revenue Ordinance, Hong Kong profits tax for a corporation from the year of assessment 2018/2019 onwards is generally 8.25% on assessable profits up to HK\$2.0 million; and 16.5% on any part of assessable profits over HK\$2.0 million.

In addition, if the transfer of a share is required to be registered in a share register in Hong Kong, or Hong Kong Share, stamp duty will be payable by the person(s) who effects any sale or purchase of such Hong Kong Share. The stamp duty in relation to transfer of Hong Kong Share is currently charged at the ad valorem rate of 0.1% of the consideration for, or (if greater) the value of, the shares transferred on each of the seller and purchaser. In other words, a total of 0.2% of the consideration for, or (if greater) the value of, the shares transferred is currently payable on a typical sale and purchase transaction of Hong Kong Share. In addition, the instrument of transfer (if required) will be subject to a flat rate of stamp duty of \$5.00.

People's Republic of China Taxation

Under the PRC Enterprise Income Tax Law and its implementation rules, an enterprise established outside of the PRC with a "de facto management body" within the PRC is considered a resident enterprise and will be subject to the enterprise income tax at the rate of 25% on its global income. The implementation rules define the term "de facto management body" as the body that exercises full and substantial control over and overall

management of the business, production, personnel, accounts and properties of an enterprise. In April 2009, the SAT issued a circular, known as Circular 82, which provides certain specific criteria for determining whether the “de facto management body” of a PRC-controlled enterprise that is incorporated offshore is located in China. Although this circular only applies to offshore enterprises controlled by PRC enterprises or PRC enterprise groups, not those controlled by PRC individuals or foreigners, the criteria set forth in the circular may reflect the State Administration of Taxation’s general position on how the “de facto management body” test should be applied in determining the tax resident status of all offshore enterprises. According to Circular 82, an offshore incorporated enterprise controlled by a PRC enterprise or a PRC enterprise group will be regarded as a PRC tax resident by virtue of having its “de facto management body” in China only if all of the following conditions are met: (i) the primary location of the day-to-day operational management is in the PRC; (ii) decisions relating to the enterprise’s financial and human resource matters are made or are subject to approval by organizations or personnel in the PRC; (iii) the enterprise’s primary assets, accounting books and records, company seals, and board and shareholder resolutions are located or maintained in the PRC; and (iv) at least 50% of voting board members or senior executives habitually reside in the PRC.

We believe that UCLOUDLINK GROUP INC. is not a PRC resident enterprise for PRC tax purposes. UCLOUDLINK GROUP INC. is not controlled by a PRC enterprise or PRC enterprise group and we do not believe that UCLOUDLINK GROUP INC. meets all of the conditions above. UCLOUDLINK GROUP INC. is a company incorporated outside the PRC. As a holding company, its key assets are its ownership interests in its subsidiaries, and its key assets are located, and its records (including the resolutions of its board of directors and the resolutions of its shareholders) are maintained, outside the PRC. For the same reasons, we believe our other entities outside of China are not PRC resident enterprises either. However, the tax resident status of an enterprise is subject to determination by the PRC tax authorities and uncertainties remain with respect to the interpretation of the term “de facto management body.” There can be no assurance that the PRC government will ultimately take a view that is consistent with us.

If the PRC tax authorities determine that UCLOUDLINK GROUP INC. is a PRC resident enterprise for enterprise income tax purposes, we may be required to withhold a 10% withholding tax from dividends we pay to our shareholders that are non-resident enterprises, including the holders of the ADSs. In addition, non-resident enterprise shareholders (including the ADS holders) may be subject to a 10% PRC tax on gains realized on the sale or other disposition of ADSs or ordinary shares, if such income is treated as sourced within the PRC. It is unclear whether our non-PRC individual shareholders (including the ADS holders) would be subject to any PRC tax on dividends or gains obtained by such non-PRC individual shareholders in the event we are determined to be a PRC resident enterprise. If any PRC tax were to apply to such dividends or gains, it would generally apply at a rate of 20% unless a reduced rate is available under an applicable tax treaty. It is also unclear whether non-PRC shareholders of UCLOUDLINK GROUP INC. would be able to claim the benefits of any tax treaties between their country of tax residence and the PRC in the event that UCLOUDLINK GROUP INC. is treated as a PRC resident enterprise.

Provided that our Cayman Islands holding company, UCLOUDLINK GROUP INC., is not deemed to be a PRC resident enterprise, holders of the ADSs and ordinary shares who are not PRC residents will not be subject to PRC income tax on dividends distributed by us or gains realized from the sale or other disposition of our shares or ADSs. However, under SAT Public Notice 7 and SAT Public Notice 37, where a non-resident enterprise conducts an “indirect transfer” by transferring PRC taxable assets, including, in particular, equity interests in a PRC resident enterprise, indirectly by disposing of the equity interests of an overseas holding company, the non-resident enterprise, being the transferor, or the transferee or the PRC resident enterprise which directly owns such PRC taxable assets may report to the relevant tax authority such indirect transfer. Using a “substance over form” principle, the PRC tax authority may disregard the existence of the overseas holding company and re-characterize the transaction as a direct transfer of underlying PRC assets if it lacks a reasonable commercial purpose and was established for the purpose of reducing, avoiding or deferring PRC tax. As a result, gains derived from such indirect transfer may be subject to PRC enterprise income tax, and the transferee or other person who is obligated to pay for the transfer is obligated to withhold the applicable taxes, currently at a

[Table of Contents](#)

rate of 10% for the transfer of equity interests in a PRC resident enterprise. We and our non-PRC resident investors may be at risk of being required to file a return and being taxed under SAT Public Notice 7 and SAT Public Notice 37, and we may be required to expend valuable resources to comply with SAT Public Notice 7 and SAT Public Notice 37, or to establish that we should not be taxed under these circulars. See “Risk Factors—Risks Related to Doing Business in China—We face uncertainty with respect to indirect transfer of equity interests in PRC resident enterprises by their non-PRC holding companies.”

United States Federal Income Tax Considerations

The following discussion is a summary of U.S. federal income tax considerations generally applicable to the ownership and disposition of the ADSs or ordinary shares by a U.S. Holder (as defined below) that acquires the ADSs or ordinary shares in this offering and holds the ADSs or ordinary shares as “capital assets” (generally, property held for investment) under the U.S. Internal Revenue Code of 1986, as amended (the “Code”). This discussion is based upon existing U.S. federal tax law, which is subject to differing interpretations or change, possibly with retroactive effect. No ruling has been sought from the Internal Revenue Service (the “IRS”) with respect to any U.S. federal income tax consequences described below, and there can be no assurance that the IRS or a court will not take a contrary position. This discussion, moreover, does not address the U.S. federal estate, gift, Medicare, and alternative minimum tax considerations, any withholding or information reporting requirements, including pursuant to sections 1471 through 1474 of the Code, or any state, local and non-U.S. tax considerations, relating to the ownership or disposition of the ADSs or ordinary shares. The following summary does not address all aspects of U.S. federal income taxation that may be important to particular investors in light of their individual circumstances or to persons in special tax situations such as:

- banks and other financial institutions;
- insurance companies;
- pension plans;
- cooperatives;
- regulated investment companies;
- real estate investment trusts;
- broker-dealers;
- traders that elect to use a mark-to-market method of accounting;
- certain former U.S. citizens or long-term residents;
- tax-exempt entities (including private foundations);
- persons liable for alternative minimum tax;
- persons who acquire their ADSs or ordinary shares pursuant to any employee share option or otherwise as compensation;
- investors that will hold their ADSs or ordinary shares as part of a straddle, hedge, conversion, constructive sale or other integrated transaction for U.S. federal income tax purposes;
- investors that have a functional currency other than the U.S. dollar;
- persons that actually or constructively own ADSs or ordinary shares representing 10% or more of our stock (by vote or value);
- persons required to accelerate the recognition of any item of gross income with respect to their ADSs or ordinary shares as a result of such income being recognized on an applicable financial statement; or
- partnerships or other entities taxable as partnerships for U.S. federal income tax purposes, or persons holding ADSs or ordinary shares through such entities;

all of whom may be subject to tax rules that differ significantly from those discussed below.

[Table of Contents](#)

Each U.S. Holder is urged to consult its tax advisor regarding the application of U.S. federal taxation to its particular circumstances, and the state, local, non-U.S. and other tax considerations of the ownership and disposition of the ADSs or ordinary shares.

General

For purposes of this discussion, a “U.S. Holder” is a beneficial owner of the ADSs or ordinary shares that is, for U.S. federal income tax purposes:

- an individual who is a citizen or resident of the United States;
- a corporation (or other entity treated as a corporation for U.S. federal income tax purposes) created in, or organized under the laws of the United States or any state thereof or the District of Columbia;
- an estate the income of which is includible in gross income for U.S. federal income tax purposes regardless of its source; or
- a trust (A) the administration of which is subject to the primary supervision of a U.S. court and which has one or more U.S. persons who have the authority to control all substantial decisions of the trust or (B) that has otherwise validly elected to be treated as a U.S. person under the Code.

If a partnership (or other entity treated as a partnership for U.S. federal income tax purposes) is a beneficial owner of the ADSs or ordinary shares, the tax treatment of a partner in the partnership will generally depend upon the status of the partner and the activities of the partnership. Partnerships holding the ADSs or ordinary shares and their partners are urged to consult their tax advisors regarding an investment in the ADSs or ordinary shares.

For U.S. federal income tax purposes, a U.S. Holder of ADSs will generally be treated as the beneficial owner of the underlying shares represented by the ADSs. The remainder of this discussion assumes that a U.S. Holder of the ADSs will be treated in this manner. Accordingly, deposits or withdrawals of ordinary shares for ADSs will generally not be subject to U.S. federal income tax.

Passive Foreign Investment Company Considerations

A non-U.S. corporation, such as our company, will be classified as a PFIC for U.S. federal income tax purposes for any taxable year if either (i) 75% or more of its gross income for such year consists of certain types of “passive” income or (ii) 50% or more of the value of its assets (determined on the basis of a quarterly average) during such year is attributable to assets that produce or are held for the production of passive income (the “asset test”). For this purpose, cash and assets readily convertible into cash are categorized as passive assets and the company’s goodwill and other unbooked intangibles not reflected on its balance sheet are taken into account. Passive income generally includes, among other things, dividends, interest, rents, royalties, and gains from the disposition of passive assets. We will be treated as owning a proportionate share of the assets and earning a proportionate share of the income of any other corporation in which we own, directly or indirectly, 25% or more (by value) of the stock.

Although the law in this regard is not entirely clear, we treat our consolidated VIEs as being owned by us for U.S. federal income tax purposes because we control its management decisions and are entitled to substantially all of the economic benefits associated with it, and, as a result, we consolidate its results of operations in our consolidated U.S. GAAP financial statements. If it were determined, however, that we are not the owner of the consolidated VIEs for U.S. federal income tax purposes, the composition of our income and assets would change and we may be treated as a PFIC for the current taxable year and any subsequent taxable year.

Assuming that we are the owner of the VIEs for U.S. federal income tax purposes, and based upon our current and projected income and assets, including the expected proceeds from this offering, and projections as to the market price of the ADSs immediately following this offering, we do not expect to be a PFIC for the current taxable year or the foreseeable future. However, no assurance can be given in this regard because the determination of whether we are or will become a PFIC is a factual determination made annually that will depend, in part, upon the composition and classification of our income and assets. Because there are uncertainties in the application of the relevant rules, it is possible that the IRS may challenge our classification of certain income and assets as non-passive which may result in our being or becoming a PFIC in the current or subsequent years. Furthermore, fluctuations in the market price of the ADSs may cause us to be classified as a PFIC for the current or future taxable years because the value of our assets for purposes of the asset test, including the value of our goodwill and other unbooked intangibles, may be determined by reference to the market price of the ADSs from time to time (which may be volatile). In estimating the value of our goodwill and other unbooked intangibles, we have taken into account our anticipated market capitalization immediately following the close of this offering. Among other matters, if our market capitalization is less than anticipated or subsequently declines, we may be or become a PFIC for the current or future taxable years. The composition of our income and assets may also be affected by how, and how quickly, we use our liquid assets and the cash raised in this offering. Under circumstances where our revenue from activities that produce passive income significantly increases relative to our revenue from activities that produce non-passive income, or where we determine not to deploy significant amounts of cash for active purposes, our risk of becoming classified as a PFIC may substantially increase.

If we are a PFIC for any year during which a U.S. Holder holds the ADSs or ordinary shares, we generally will continue to be treated as a PFIC for all succeeding years during which such U.S. Holder holds the ADSs or ordinary shares, unless we were to cease to be a PFIC and the U.S. Holder makes a “deemed sale” election with respect to the ADSs or ordinary shares.

The discussion below under “—Dividends” and “—Sale or Other Disposition” is written on the basis that we will not be or become classified as a PFIC for U.S. federal income tax purposes. The U.S. federal income tax rules that apply generally if we are treated as a PFIC are discussed below under “—Passive Foreign Investment Company Rules.”

Dividends

The gross amount of any distributions paid on the ADSs or ordinary shares (including the amount of any PRC tax withheld) out of our current or accumulated earnings and profits, as determined under U.S. federal income tax principles, will generally be includible in the gross income of a U.S. Holder as dividend income on the day actually or constructively received by the U.S. Holder, in the case of ordinary shares, or by the depository, in the case of ADSs. Because we do not intend to determine our earnings and profits on the basis of U.S. federal income tax principles, any distribution we pay will generally be treated as a “dividend” for U.S. federal income tax purposes. Dividends received on the ADSs or ordinary shares will not be eligible for the dividends received deduction allowed to corporations in respect of dividends received from U.S. corporations.

Individuals and other non-corporate U.S. Holders will be subject to tax on any such dividends at the lower capital gain tax rate applicable to “qualified dividend income,” provided that certain conditions are satisfied, including that (1) the ADSs or ordinary shares on which the dividends are paid are readily tradable on an established securities market in the United States, or, in the event that we are deemed to be a PRC resident enterprise under the PRC tax law, we are eligible for the benefit of the U.S.-PRC income tax treaty (the “Treaty”), (2) we are neither a PFIC nor treated as such with respect to a U.S. Holder (as discussed below) for the taxable year in which the dividend is paid and the preceding taxable year, and (3) certain holding period requirements are met. For this purpose, ADSs listed on the Nasdaq Global Market will generally be considered to be readily tradable on an established securities market in the United States. U.S. Holders are urged to consult their tax advisors regarding the availability of the lower rate for dividends paid with respect to the ADSs or

ordinary shares. In the event that we are deemed to be a PRC resident enterprise under the PRC Enterprise Income Tax Law (see “TAXATION—People’s Republic of China Taxation”), we may be eligible for the benefits of the Treaty. If we are eligible for such benefits, dividends we pay on our ordinary shares, regardless of whether such shares are represented by the ADSs, and regardless of whether the ADSs are readily tradable on an established securities market in the United States, would be eligible for the reduced rates of taxation described in the preceding paragraph.

For U.S. foreign tax credit purposes, dividends paid on the ADSs or ordinary shares generally will be treated as income from foreign sources and generally will constitute passive category income. In the event that we are deemed to be a PRC resident enterprise under the PRC Enterprise Income Tax Law, a U.S. Holder may be subject to PRC withholding taxes on dividends paid on the ADSs or ordinary shares (see “TAXATION—People’s Republic of China Taxation”). Depending on the U.S. Holder’s particular facts and circumstances and subject to a number of complex conditions and limitations, PRC withholding taxes on dividends that are non-refundable under the Treaty may be treated as foreign taxes eligible for credit against a U.S. Holder’s U.S. federal income tax liability. A U.S. Holder who does not elect to claim a foreign tax credit for foreign tax withheld may instead claim a deduction for U.S. federal income tax purposes, in respect of such withholding, but only for a year in which such holder elects to do so for all creditable foreign income taxes. The rules governing the foreign tax credit are complex and U.S. Holders are urged to consult their tax advisors regarding the availability of the foreign tax credit under their particular circumstances.

Sale or Other Disposition

A U.S. Holder will generally recognize gain or loss upon the sale or other disposition of ADSs or ordinary shares in an amount equal to the difference between the amount realized upon the disposition and the holder’s adjusted tax basis in such ADSs or ordinary shares. The gain or loss will generally be capital gain or loss. Any capital gain or loss will be long term if the ADSs or ordinary shares have been held for more than one year. The deductibility of a capital loss may be subject to limitations. Any such gain or loss that the U.S. Holder recognizes will generally be treated as U.S. source income or loss for foreign tax credit limitation purposes, which will generally limit the availability of foreign tax credits. However, in the event we are deemed to be a PRC resident enterprise under the PRC Enterprise Income Tax Law, we may be eligible for the benefits of the Treaty. In such event, if PRC tax were to be imposed on any gain from the disposition of the ADSs or ordinary shares, a U.S. Holder that is eligible for the benefits of the Treaty may elect to treat such gain as PRC source income for foreign tax credit purposes. If a U.S. Holder is not eligible for the benefits of the Treaty or fails to make the election to treat any gain as foreign source, then such U.S. Holder may not be able to use the foreign tax credit arising from any PRC tax imposed on the disposition of the ADSs or ordinary shares unless such credit can be applied (subject to applicable limitations) against United States federal income tax due on other income derived from foreign sources in the same income category (generally, the passive category). Each U.S. Holder is advised to consult its tax advisor regarding the tax consequences if a foreign tax is imposed on a disposition of the ADSs or ordinary shares, including the availability of the foreign tax credit under its particular circumstances.

Passive Foreign Investment Company Rules

If we are classified as a PFIC for any taxable year during which a U.S. Holder holds the ADSs or ordinary shares, and unless the U.S. Holder makes a mark-to-market election (as described below), the U.S. Holder will generally be subject to special tax rules on (i) any excess distribution that we make to the U.S. Holder (which generally means any distribution paid during a taxable year to a U.S. Holder that is greater than 125 percent of the average annual distributions paid to the U.S. Holder in the three preceding taxable years or, if shorter, the U.S. Holder’s holding period for the ADSs or ordinary shares), and (ii) any gain recognized on the sale or other disposition (including, under certain circumstances, a pledge) of ADSs or ordinary shares. Under the PFIC rules:

- the excess distribution or gain will be allocated ratably over the U.S. Holder’s holding period for the ADSs or ordinary shares;

Table of Contents

- the amount allocated to the taxable year of the distribution or gain and any taxable years in the U.S. Holder's holding period prior to the first taxable year in which we are classified as a PFIC (each, a "pre-PFIC year"), will be taxable as ordinary income; and
- the amount allocated to each prior taxable year, other than a pre-PFIC year, will be subject to tax at the highest tax rate in effect for individuals or corporations, as appropriate, for that year, increased by an additional tax equal to the interest on the resulting tax deemed deferred with respect to each such taxable year.

If we are a PFIC for any taxable year during which a U.S. Holder holds the ADSs or ordinary shares and any of our subsidiaries, our VIEs or any of the subsidiaries of our VIEs is also a PFIC, such U.S. Holder would be treated as owning a proportionate amount (by value) of the shares of the lower-tier PFIC for purposes of the application of these rules. U.S. Holders are urged to consult their tax advisors regarding the application of the PFIC rules to any of our subsidiaries, our VIEs or any of the subsidiaries of our VIEs.

As an alternative to the foregoing rules, a U.S. Holder of "marketable stock" (as defined below) in a PFIC may make a mark-to-market election with respect to such stock. If a U.S. Holder makes this election with respect to the ADSs, the holder will generally (i) include as ordinary income for each taxable year that we are a PFIC the excess, if any, of the fair market value of ADSs held at the end of the taxable year over the adjusted tax basis of such ADSs and (ii) deduct as an ordinary loss the excess, if any, of the adjusted tax basis of the ADSs over the fair market value of such ADSs held at the end of the taxable year, but such deduction will only be allowed to the extent of the net amount previously included in income as a result of the mark-to-market election. The U.S. Holder's adjusted tax basis in the ADSs would be adjusted to reflect any income or loss resulting from the mark-to-market election. If a U.S. Holder makes a mark-to-market election in respect of the ADSs and we cease to be classified as a PFIC, the holder will not be required to take into account the gain or loss described above during any period that we are not classified as a PFIC. If a U.S. Holder makes a mark-to-market election, any gain such U.S. Holder recognizes upon the sale or other disposition of the ADSs in a year when we are a PFIC will be treated as ordinary income and any loss will be treated as ordinary loss, but such loss will only be treated as ordinary loss to the extent of the net amount previously included in income as a result of the mark-to-market election.

The mark-to-market election is available only for "marketable stock," which is stock that is regularly traded on a qualified exchange or other market, as defined in applicable United States Treasury regulations. We expect that the ADSs, but not our ordinary shares, will be treated as marketable stock upon their listing on the Nasdaq Global Market. We anticipate that the ADSs should qualify as being regularly traded, but no assurances may be given in this regard.

Because a mark-to-market election cannot technically be made for any lower-tier PFICs that we may own, a U.S. Holder may continue to be subject to the PFIC rules with respect to such U.S. Holder's indirect interest in any investments held by us that are treated as an equity interest in a PFIC for U.S. federal income tax purposes.

We do not intend to provide information necessary for U.S. Holders to make qualified electing fund elections which, if available, would result in tax treatment different from (and generally less adverse than) the general tax treatment for PFICs described above.

If a U.S. Holder owns the ADSs or ordinary shares during any taxable year that we are a PFIC, the holder must generally file an annual IRS Form 8621. You should consult your tax advisor regarding the U.S. federal income tax consequences of owning and disposing of the ADSs or ordinary shares if we are or become a PFIC.

UNDERWRITING

We and the underwriters named below have entered into an underwriting agreement with respect to the ADSs being offered. Subject to certain conditions, each underwriter has severally agreed to purchase the number of ADSs indicated in the table below. I-Bankers Securities, Inc. is the representative of the underwriters.

<u>Underwriters</u>	<u>Number of ADSs</u>
I-Bankers Securities, Inc.	
Valuable Capital Limited	
Tiger Brokers (NZ) Limited	
Loop Capital Markets LLC

The underwriters are committed to taking and paying for all of the ADSs being offered, if any are taken, other than the ADSs covered by the option described below unless and until this option is exercised.

The underwriters have an option, exercisable for 30 days from the date of this prospectus, to buy up to an additional ADSs from the company to cover sales by the underwriters of a greater number of ADSs than the total number set forth in the table above. If any ADSs are purchased pursuant to this option, the underwriters will severally purchase ADSs in approximately the same proportion as set forth in the table above.

The following tables show the per ADS and total underwriting discounts and commissions to be paid to the underwriters by us. Such amounts are shown assuming both no exercise and full exercise of the underwriters' option to purchase additional ADSs.

	<u>Paid by Us</u>	
	<u>No Exercise</u>	<u>Full Exercise</u>
Per ADS	\$	\$
Total	\$	\$

ADSs sold by the underwriters to the public will initially be offered at the initial public offering price set forth on the cover of this prospectus. Any ADSs sold by the underwriters to securities dealers may be sold at a discount of up to \$ per ADS from the initial public offering price. After the initial offering of the ADSs, the representative may change the offering price and the other selling terms. The offering of the ADSs by the underwriters is subject to receipt and acceptance and subject to the underwriters' right to reject any order in whole or in part.

Certain of the underwriters are expected to make offers and sales both inside and outside the United States through their respective selling agents. Any offers or sales in the United States will be conducted by broker-dealers registered with the SEC. Valuable Capital Limited is not a broker-dealer registered with the SEC, and it does not intend to make any offers or sales of the ADSs within the United States or to any U.S. persons. Tiger Brokers (NZ) Limited, or TBNZ is not a broker-dealer registered with the SEC. To the extent that its conduct may involve the offer or sale of ADSs to investors in the United States, those offers or sales will be made through US Tiger Securities, Inc., TBNZ's SEC-registered broker-dealer affiliate in the United States.

We, our directors, executive officers and all of our existing shareholders, have agreed with the underwriters, subject to certain exceptions, not to dispose of or hedge any of their ordinary shares or ADSs or any securities convertible into or exchangeable for our ordinary shares or ADSs during the period from the date of this prospectus continuing through the date 180 days after the date of this prospectus, except with the prior written consent of the representative. This agreement does not apply to any existing employee benefit plans. See "Shares Eligible for Future Sale" for a discussion of certain transfer restrictions.

[Table of Contents](#)

Prior to the offering, there has been no public market for the ADSs. The initial public offering price has been negotiated among the representative and us. Among the factors to be considered in determining the initial public offering price of the ADSs, in addition to prevailing market conditions, will be our historical performance, estimates of the business potential and earnings prospects, an assessment of our management and the consideration of the above factors in relation to market valuation of companies in related businesses.

We have applied for the listing of the ADSs on the Nasdaq Global Market under the symbol “UCL.”

In connection with the offering, the underwriters may purchase and sell the ADSs in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of ADSs than they are required to purchase in the offering, and a short position represents the amount of such sales that have not been covered by subsequent purchases. A “covered short position” is a short position that is not greater than the amount of additional ADSs for which the underwriters’ option described above may be exercised. The underwriters may cover any covered short position by either exercising their option to purchase additional ADSs or purchasing ADSs in the open market. In determining the source of ADSs to cover the covered short position, the underwriters will consider, among other things, the price of ADSs available for purchase in the open market as compared to the price at which they may purchase additional ADSs pursuant to the option described above. “Naked” short sales are any short sales that create a short position greater than the amount of additional ADSs for which the option described above may be exercised. The underwriters must cover any such naked short position by purchasing ADSs in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the ADSs in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of various bids for or purchases of the ADSs made by the underwriters in the open market prior to the completion of the offering.

The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representative has repurchased ADSs sold by or for the account of such underwriter in stabilizing or short covering transactions.

Purchases to cover a short position and stabilizing transactions, as well as other purchases by the underwriters for their own accounts, may have the effect of preventing or retarding a decline in the market price of the ADSs, and together with the imposition of the penalty bid, may stabilize, maintain or otherwise affect the market price of the ADSs. As a result, the price of the ADSs may be higher than the price that otherwise might exist in the open market. The underwriters are not required to engage in these activities and may end any of these activities at any time. These transactions may be effected on the Nasdaq Global Market, in the over-the-counter market or otherwise.

We estimate that our share of the total expenses of the offering, excluding underwriting discounts and commissions, will be approximately \$.

(iii) Risks in relation to the VIE structure

In accordance with various contractual agreements, the Company has the power to direct the activities of the VIEs and can have assets transferred out of the VIEs. Therefore, the Company considers that there are no assets in the respective VIEs that can be used only to settle obligations of the respective VIEs, except for the registered capital of the VIEs amounting to approximately US\$1.1 million, US\$1.8 million and US\$3.8 million, as of December 31, 2017, 2018 and 2019, respectively. As the respective VIEs are incorporated as limited liability companies under the PRC Company Law, creditors do not have recourse to the general credit of the Company for

the liabilities of the respective VIEs. There is currently no contractual arrangement that would require the Company to provide additional financial support to the VIEs. As the Company is conducting certain businesses in the PRC through the VIEs, the Company may provide additional financial support on a discretionary basis in the future, which could expose the Company to a loss.

There is no VIE in the Group where the Company or any subsidiary has a variable interest but is not the primary beneficiary.

In the opinion of the Company's management, the contractual arrangements among its subsidiary, the VIEs and their respective nominee shareholders are in compliance with the current PRC laws and are legally binding and enforceable. However, uncertainties in the interpretation and enforcement of the PRC laws, regulations and policies could limit the Company's ability to enforce these contractual arrangements. As a result, the Company may be unable to consolidate the VIEs in the consolidated financial statements.

In January 2015, the Ministry of Commerce ("MOFCOM"), released for public comment a proposed PRC law, the Draft Foreign Investment Enterprises ("FIE") Law, that appears to include VIEs within the scope of entities that could be considered to be FIEs, that would be subject to restrictions under existing PRC law on foreign investment in certain categories of industry. Specifically, the Draft FIE Law introduces the concept of "actual control" for determining whether an entity is considered to be an FIE. In addition to control through direct or indirect ownership or equity, the Draft FIE Law includes control through contractual arrangements within the definition of "actual control". If the Draft FIE Law is passed by the People's Congress of the PRC and goes into effect in its current form, these provisions regarding control through contractual arrangements could be construed to include the Company's contractual arrangements with its VIEs, and as a result, the Group's VIEs could become explicitly subject to the current restrictions on foreign investment in certain categories of industry. The Draft FIE Law includes provisions that would exempt from the definition of FIEs where the ultimate controlling shareholders are either entities organized under PRC law or individuals who are PRC citizens. The Draft FIE Law is silent as to what type of enforcement action might be taken against existing VIEs, that operates in restricted or prohibited industries and is not controlled by entities organized under PRC law or individuals who are PRC citizens. If the restrictions and prohibitions on FIEs included in the Draft FIE Law are enacted and enforced in their current form, the Company's ability to use the contractual arrangements with its VIEs and the Company's ability to conduct business through the VIEs could be severely limited.

The Company's ability to control the VIEs also depends on the power of attorney exercised by Beijing uCloudlink to vote on all matters requiring shareholders' approvals in the VIEs. As noted above, the Company believes these power of attorney are legally binding and enforceable but may not be as effective as direct equity ownership. In addition, if the Company's corporate structure or the contractual arrangements with the VIEs were found to be in violation of any existing PRC laws and regulations, the PRC regulatory authorities could, within their respective jurisdictions:

- revoke the Company's business and operating licenses;
- require the Company to discontinue or restrict its operations;
- restrict the Company's right to collect revenues;

- require the Company to restructure its operations, re-apply for the necessary licenses or relocate the Company's businesses, staff and assets;
- impose additional conditions or requirements with which the Company may not be able to comply; or
- take other regulatory or enforcement actions against the Company that could be harmful to the Group's business.

The imposition of any of these restrictions or actions may result in a material adverse effect on the Company's ability to conduct its business. In addition, if the imposition of any of these restrictions causes the Company to lose the right to direct the activities of the VIEs or the right to receive their economic benefits, the Company would no longer be able to consolidate the financial statements of the VIEs. In the opinion of management, the likelihood of losing the benefits in respect of the Company's current ownership structure or the contractual arrangements with its VIEs is remote.

Refer to Note 2.3 for the consolidated financial information of the Company's VIEs as of December 31, 2017, 2018 and 2019.

2. Summary of significant accounting policies

2.1 Basis of presentation

The accompanying consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). Significant accounting policies followed by the Group in the preparation of the accompanying consolidated financial statements are summarized below.

2.2 Use of estimates

The preparation of the consolidated financial statements in conformity with U.S. GAAP requires the Group to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities as of the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates, and such differences may be material to the consolidated financial statements. Significant accounting estimates reflected in the Company's consolidated financial statements include legal contingencies, share-based compensation and realization of deferred tax assets. The Group bases its estimates on historical experience and on various other assumptions that are believed to be reasonable, the results of which form the basis for making judgments about the carrying values of assets and liabilities.

2.3 Consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries, which include the wholly-foreign owned enterprises ("WFOE") and variable interest entities ("VIEs") over which the Company is the primary beneficiary. All transactions and balances among the Company and its subsidiaries have been eliminated upon consolidation. The results of subsidiaries acquired or disposed of are recorded in the consolidated statements of comprehensive (loss)/income from the effective date of acquisition or up to the effective date of disposal, as appropriate.

2.3 Consolidation (Continued)

A subsidiary is an entity in which (i) the Company directly or indirectly controls more than 50% of the voting power; or (ii) the Company has the power to appoint or remove the majority of the members of the board of directors or to cast a majority of votes at the meeting of the board of directors or to govern the financial and operating policies of the investee pursuant to a statute or under an agreement among the shareholders or equity holders. A VIE is required to be consolidated by the primary beneficiary of the entity if the equity holders in the entity do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties.

Due to legal restrictions on foreign ownership and investment in commercial internet content provider or other value-added telecommunication service through certain PRC domestic companies, the equity interests of certain PRC domestic companies are held by PRC citizens or by PRC entities owned and/or controlled by PRC citizens. Specifically, the PRC domestic companies that are material to the Group's businesses are Beijing Technology and Shenzhen uCloudlink.

The following table sets forth the assets, liabilities, results of operations and changes in cash and cash equivalents of the VIEs taken as a whole, which were included in the Company's consolidated financial statements with intercompany balances and transactions eliminated between the VIEs:

2. Summary of significant accounting policies (Continued)

2.3 Consolidation (Continued)

The VIEs did not have any material related party transactions except for the related party transactions which are disclosed in Note 24 or elsewhere in these consolidated financial statements, and those transactions with other subsidiaries that are not VIEs, which were eliminated upon consolidation.

Under the contractual arrangements with the VIEs, the Company has the power to direct activities of the VIEs and can have assets transferred out of the VIEs under its control. Therefore, the Company considers that there is no asset in any of the VIEs that can be used only to settle obligations of the VIEs, except for registered capital. As all VIEs are incorporated as limited liability companies under the Company Law of the PRC, creditors of the VIEs do not have recourse to the general credit of the Company for any of the liabilities of the VIEs.

Currently there is no contractual arrangement which requires the Company to provide additional financial support to the VIEs. However, as the Company conducts its businesses primarily based on the licenses and approvals held by its VIEs, the Company has provided and will continue to provide financial support to the VIEs considering the business requirements of the VIEs, as well as the Company's own business objectives in the future.

Unrecognized revenue-producing assets held by the VIEs include certain internet value added services provision and other licenses. The internet value added services provision and other licenses are required under relevant PRC laws, rules and regulations for the operation of internet businesses in the PRC, and therefore are integral to the Group's operations. The internet content provision licenses require that core PRC trademark registrations and domain names are held by the VIEs that provide the relevant services.

2.4 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker (the "CODM"), which is comprised of the executive directors of the Company. The Group has only one operating and reportable segment. The Group's long-lived assets are substantially all located in the PRC.

2.5 Foreign currency translation

The functional currency of the Company is US\$. The Company's subsidiaries with operations in the PRC, Hong Kong and other jurisdictions generally use their respective local currencies as their functional currencies. The reporting currency of the Company is US\$. The financial statements of the Company's subsidiaries, other than the subsidiaries with the functional currency of US\$, are translated into US\$ using the exchange rate as of the balance sheet date for assets and liabilities and the average daily exchange rate for each month for income and expense items. Translation gains and losses are recorded in accumulated other comprehensive income or loss as a component of shareholders' equity.

In the financial statements of the Company's subsidiaries, transactions in currencies other than the functional currency are measured and recorded in the functional currency using the exchange rate in effect at the date of the transaction. At the balance sheet date, monetary assets and liabilities that are denominated in currencies other than the functional currency are translated into the functional currency using the exchange rate at the balance sheet date. All gains and losses arising from foreign currency transactions are recorded in the consolidated statements of comprehensive income or loss during the period in which they occur.

2. Summary of significant accounting policies (Continued)

2.6 Convertible bonds

The Group determines the accounting of its convertible bonds in accordance with the terms in relation to the conversion feature and beneficial conversion feature, as applicable. After considering the impact of such features, the Group may account for such instrument as a liability in its entirety, or separate the instrument into debt and equity components following the respective guidance described under ASC 815 “Derivatives and Hedging” and ASC 470 “Debt”. The debt discount, if any, together with related issuance cost are subsequently amortized as interest expense, using the effective interest method, from the issuance date to the earliest conversion date. Interest expenses are recognized in the statement of comprehensive (loss)/income in the period in which they are incurred.

2.7 Mezzanine equity

Mezzanine equity represents the (i) Series A Preferred Shares and (ii) redeemable Series A-2 ordinary shares issued by the Company. The Series A Preferred Shares are redeemable at the holders’ option any time after a certain date and were contingently redeemable upon the occurrence of certain liquidation events outside of the Group’s control. Therefore, the Group classifies the Series A Preferred Shares as mezzanine equity. The Series A-2 ordinary shares were initially accounted as mezzanine equity because of the redemption feature embedded at the holders’ option, while upon the expiration of the redemption right at December 31, 2017, the Series A-2 redeemable ordinary shares were transferred to ordinary shares.

In accordance with ASC 480-10, the mezzanine equity was initially measured based on its fair value at date of issue. Since the Series A Preferred Shares will be redeemable at the holder’s option after 5 years from issuance if the Series A Preferred Shares are not converted, either voluntarily or automatically upon a qualified initial public offering (“Qualified IPO”), the Group accretes changes in the redemption value over the period from the date of issuance to the earliest redemption date of the instrument using the effective interest method.

Increase in carrying amount shall be recorded as charges against retained earnings or, in the absence of retained earnings, by charges against additional paid-in capital.

2.8 Revenue recognition

Revenue is principally generated by the provision of data connectivity services and the sales of terminals and sales of data related products. Revenue represents the fair value of the consideration received or receivable for the sales of goods and the provision of services in the ordinary course of the Group’s activities and is recorded net of value-added tax (“VAT”). The Group recognizes revenue in accordance with ASC 606 “Revenue from Contracts with Customers” for all years presented with full retrospective method.

The Group conducts its business through various contracts with customers, including:

(i) Data connectivity services

The Group generates international data connectivity services revenues from (i) data service fees from the use of portable Wi-Fi terminals (under its brand of “Roamingman”), (ii) data service fees generated from sales of data connectivity services to enterprise customers, and (iii) retail sales of data connectivity services.

2. Summary of significant accounting policies (Continued)

2.8 Revenue recognition (Continued)

(i) Data connectivity services (Continued)

The Group also generates local data connectivity services revenues from (i) data service fees generated from sales of data connectivity services to enterprise customers, and (ii) retail sales of data connectivity services.

For data connectivity services from the use of portable Wi-Fi terminals, the Group determines that the arrangement involves the leasing of portable Wi-Fi terminals with data connectivity services embedded. The Group determines that it is the lessor in the arrangement which contains an equipment lease component and a service non-lease component. The Group further determines that lease component is an operating lease under ASC 840, and that the operating lease component and service component are delivered over the same time and pattern. Therefore, the lease income and service income are recognized as data connectivity services revenue evenly over the service period.

The Group evaluates and determines that it is the principal. For data connectivity services from the use of portable Wi-Fi terminals and retail sales of data connectivity services, the Group views users as its customers. For data connectivity services generated from sales of data connectivity services to enterprise customers, the Group views enterprise customers as its customers. The Group reports data connectivity services revenues on gross basis. Accordingly, the amounts paid for data connectivity services by customers are recorded as revenues and the related commission fees paid to its agents (mainly travel agents and other online distributors) are recorded as cost of revenues. Where the Group is the principal, it controls the data before the data connectivity service is provided to customers. Its control is evidenced by the inventory risk borne by the Group and the Group's ability to direct the use of the data, and is further supported by the Group being primarily responsible to customers and having the discretion in establishing pricing.

Data connectivity services offered to customers typically provide unlimited data usage during a fixed period of time ("contract period"), where revenue is recognized ratably on a straight-line basis over the contract period. The Group does not have further performance obligations to the customers after the contract period. The Group also offers data connectivity services where customers are charged service fee based on actual data usage, where revenue is recognized as the services are provided to customers.

In providing data connectivity services to its customers, the Group procures SIM cards and data plans from various suppliers. Those SIM cards are activated and hosted on the Group's cloud SIM platform. The Group's cloud SIM platform manages terminal information and customer accounts and intelligently allocates the SIM cards and data plans and makes them available to customers who purchase the Group's data connectivity services. Accordingly, the Group takes inventory risk and obtains control of the SIM cards and data plans procured and direct the use of the data on its cloud SIM platform depending on customers' demand. The Group accounts for the SIM cards and data plans procured as costs of revenue as data is being made available and consumed on its cloud SIM platform.

As the Group's data connectivity services are provided without right of return and the Group does not provide any other credit and incentive to its customers, therefore, the Group's provision of data connectivity services does not involve variable consideration.

2. Summary of significant accounting policies (Continued)

2.8 Revenue recognition (Continued)

(ii) Sales of terminals and data related products

The Group generates revenues from selling tangible products, including GlocalMe portable Wi-Fi terminals, GlocalMe World Phone series and smartphones with GlocalMe Inside (“GMI”) implemented, as well as SIM cards, to enterprise and retail customers and business partners. Sales of terminals and data related products are recognized when control of promised goods is transferred to the customers, which generally occurs upon the acceptance of the goods by the customers.

For sales of Wi-Fi terminals, one gigabyte of free data connectivity service is normally included as a bundle package for the first time purchase of the terminals. There are two separate performance obligations in such bundle sales as the Wi-Fi terminal is a distinct good while the data connectivity service is a distinct service. The Group allocates the transaction price to each distinct performance obligation based on their relative standalone selling prices. The Group then recognizes revenue for each of the distinct performance obligations identified in accordance with the applicable revenue recognition method relevant for that obligation. For revenue related to the Wi-Fi terminals, revenue is recognized when the control of the Wi-Fi terminals is transferred. For revenue related to the data connectivity service, it is recognized ratably on a straight line basis over the relevant contract period.

(iii) Provision of PaaS or SaaS services

Platform-as-a-Service (PaaS) or Software-as-a-Service (SaaS) mainly consist of fees generated from providing cloud SIM platform as a service to business partners. The Group provides its cloud SIM platform as a service to business partners enabling them to manage their data resources. Business partners using the platform are charged service fees for the use of the cloud SIM platform services. The Group has continuous obligation to ensure the performance of the platform over the service period. Revenue is recognized ratably over the contract period as business partners simultaneously consume and receive benefits from the service. The Group does not provide any other credit and incentive related to the cloud SIM platform services, therefore there is no variable consideration in the arrangement.

(iv) Contract balance

Contract liabilities represent the cash collected upfront from the customers for purchase of data connectivity services or purchase of Wi-Fi terminals, while the underlying data connectivity services have not yet been rendered or the Wi-Fi terminals have not been delivered to the customers by the Group, which is included in the presentation of contract liabilities.

Due to the generally short-term duration of the relevant contracts, all performance obligations are satisfied within one year. Where transaction prices for data connectivity services and Wi-Fi terminals are received upfront from the customers, such receipts are recorded as contract liabilities and recognized as revenues over the contract period. The opening balance of contract liabilities from several customers as of January 1, 2017 was US\$2,930 thousands. For the year ended December 31, 2017, 2018 and 2019, revenue amounting to US\$2,930 thousands, US\$2,542 thousands and US\$3,940 thousands were included in the contract liabilities balance at the beginning of the respective period.

2. Summary of significant accounting policies (Continued)

2.9 Cost of revenue

Cost of revenue consists primarily of data connectivity service costs, cost of inventory, logistics costs, depreciation and maintenance costs for equipment, payment processing fees and other related incidental expenses that are directly attributable to the Group's principal operations.

2.10 Research and development expenses

Research and development expenses primarily consist of salaries and benefits for research and development personnel, materials, general expenses and depreciation expenses associated with research and development activities.

2.11 Sales and marketing expenses

Sales and marketing expenses consist primarily of online and offline advertising expenses, promotion expenses, staff costs, sales commissions and other related incidental expenses that are incurred to conduct the Group's sales and marketing activities.

Advertising and promotional expenses were US\$2,712 thousands, US\$6,589 thousands and US\$5,991 thousands during the years ended December 31, 2017, 2018 and 2019, respectively.

2.12 General and administrative expenses

General and administrative expenses consist primarily of salaries, bonuses, share-based compensation and benefits for certain senior management and those not specifically dedicated to research and development or sales and marketing activities, depreciation of property and equipment, amortization of intangible assets, legal and professional services fees, rental and other general corporate related expenses.

2.13 Share-based compensation

Share-based compensation expenses arise from share based awards, mainly including Restricted Shares held by certain senior management (namely, Mr. Chen Chaohui, Mr. Peng Zhiping and Mr. Gao Wen) and share options awarded to employees in accordance with ASC 718 Stock Compensation. The Group follows ASC 718 to determine whether share option or restricted shares should be classified and accounted for as a liability award or equity award. All grants of share-based awards to employees and certain senior management classified as equity awards are recognized in the financial statements based on their grant date fair values which are calculated using an option pricing model. The Group classifies the share-based awards granted to employees as equity award, and has elected to recognize compensation expense on share-based awards with service condition on a graded vesting basis over the requisite service period, which is generally the vesting period.

The Group entered into a share restriction agreement with certain senior management and their respective wholly owned companies, which directly hold the equity interest in the Group. Pursuant to the share restriction agreement, all ordinary shares ("Restricted Shares") of the Group held by certain senior management shall be subject to vesting conditions until the Restricted Shares become vested. The Restricted Shares were classified as equity awards under ASC 718 and are accounted for as share-based compensation based on the grant date fair value over the vesting period using graded vesting method.

2.13 Share-based compensation (Continued)

For share options awarded to employees, the Group applies the Binominal option pricing model in determining the fair value of options granted under ASC 718. The Group has elected to account for forfeitures when they occur.

On each measurement date, the Group reviews internal and external sources of information to assist in the estimation of various attributes to determine the fair value of the share-based awards granted by the Group, including the fair value of the underlying shares, expected life and expected volatility. The Group is required to consider many factors and makes certain assumptions during this assessment. If any of the assumptions used to determine the fair value of the share-based awards change significantly in the future, share-based compensation expense may differ materially.

2.14 Other employee benefits

The Company's subsidiaries in the PRC participate in a government-mandated multi-employer defined contribution plan pursuant to which certain retirement, medical and other welfare benefits are provided to employees. The relevant labor regulations require the Company's subsidiaries in the PRC to pay the local labor and social welfare authorities monthly contributions based on the applicable benchmarks and rates stipulated by the local government. The relevant local labor and social welfare authorities are responsible for meeting all retirement benefits obligations and the Company's subsidiaries in the PRC have no further commitments beyond their monthly contributions. The contributions to the plan are expensed as incurred. During the years ended December 31, 2017, 2018 and 2019, contributions to such plan amounting to US\$2,928 thousands, US\$4,888 thousands and US\$3,836 thousands, respectively, were charged to the consolidated statements of comprehensive (loss)/income.

The Group also makes payments to other defined contribution plans for the benefit of employees employed by subsidiaries outside of the PRC.

2.15 Income taxes

The Group accounts for income taxes using the liability method, under which deferred income taxes are recognized for future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred taxes of a change in tax rates is recognized as income or expense in the period that includes the enactment date. Valuation allowance is provided on deferred tax assets to the extent that it is more likely than not that the asset will not be realizable in the foreseeable future.

Deferred taxes are also recognized on the undistributed earnings of subsidiaries, which are presumed to be transferred to the parent company and are subject to withholding taxes, unless there is sufficient evidence to show that the subsidiary has invested or will invest the undistributed earnings indefinitely or that the earnings will be remitted in a tax-free manner.

The Group adopts ASC 740 "Income Taxes" which prescribes a more likely than not threshold for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. It also

provides guidance on derecognition of income tax assets and liabilities, classification of current and deferred income tax assets and liabilities, accounting for interest and penalties associated with tax positions, accounting for income taxes in interim periods and income tax disclosures.

The Group did not have significant unrecognized uncertain tax positions or any unrecognized liabilities, interest or penalties associated with unrecognized tax benefit as of and for the years ended December 31, 2017, 2018 and 2019.

2.16 Government grants

For government grants that are non-operating in nature and with no further conditions to be met, the amounts are recognized as income in other income, net. For government grants that contain certain operating conditions, the amounts are recorded as deferred government grant, and are recognized as income in other income, net when the conditions are met.

2.17 Leases

Leases are classified as either capital or operating leases. Leases that transfer substantially all the benefits and risks incidental to the ownership of assets are accounted for as capital leases as if there was an acquisition of an asset and incurrence of an obligation at the inception of the lease. All other leases are accounted for as operating leases wherein rental payments (net of any incentives received from the lessor) are recognized in the consolidated statements of comprehensive income/(loss) on a straight-line basis over the lease terms.

2.18 Comprehensive (loss)/income

Comprehensive (loss)/income is defined to include all changes in equity of the Group during a period arising from transactions and other event and circumstances except those resulting from investments by shareholders and distributions to shareholders. For the years presented, the Group's comprehensive (loss)/income includes net (loss)/income and other comprehensive (loss)/income, which mainly consists of the foreign currency translation adjustment that have been excluded from the determination of net (loss)/income.

2.19 (Loss)/income per share

Basic (loss)/income per share is computed by dividing net (loss)/income attributable to ordinary shareholders by the weighted average number of ordinary shares outstanding during the period using the two-class method. Under the two-class method, net (loss)/income is allocated between different classes of ordinary shares based on their participating rights. Diluted (loss)/income per share is calculated by dividing net (loss)/income attributable to ordinary shareholders by the weighted average number of ordinary and dilutive ordinary equivalent shares outstanding during the year. Ordinary equivalent shares consist of ordinary shares issuable in connection with the Group's convertible redeemable preferred shares, redeemable ordinary shares and convertible bonds using the if-converted method and shares issuable upon the exercise of share options using the treasury stock method. Ordinary equivalent shares are not included in the denominator of the diluted loss per share calculation when inclusion of such shares would be anti-dilutive.

Cash and cash equivalents represent cash on hand, time deposits and highly-liquid investments placed with banks or other financial institutions, which are unrestricted as to withdrawal and use, and which have original maturities of three months or less. The Group adopted ASU No. 2016-18, Statement of Cash Flows: Restricted Cash (Topic 230) for all years presented. The changes in restricted cash in the consolidated cash flow were US\$7,628 thousands, US\$7,541 thousands and US\$2,791 thousands for the years ended December 31, 2017, 2018 and 2019, respectively, which were no longer presented within investing activities and were retrospectively included in the changes of cash, cash equivalents and restricted cash as required.

2.21 Inventories

Inventories mainly consist of products for sales. They are accounted for using the weighted average cost and stated at the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

2.22 Accounts receivable, net

Accounts receivable are presented net of allowance for doubtful accounts. The Group evaluates the creditworthiness of each customer at the time when services are rendered or products are sold and continuously monitor the recoverability of the accounts receivable.

The Group uses specific identification method in providing for bad debts when facts and circumstances indicate that collection is doubtful and a loss is probable and estimable. If the financial conditions of its customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances might be required. The allowance for doubtful accounts is based on the best facts available and is re-evaluated and adjusted on a regular basis as additional information is received.

Some of the factors that the Group considers in determining whether a bad debt allowance is recorded on an individual customer are:

- (i) the customer's past payment history and whether it fails to comply with its payment schedule;
- (ii) whether the customer is in financial difficulty due to economic or legal factors;

- (iii) a significant dispute with the customer has occurred;
- (iv) the objective evidence which indicates non-collectability of the accounts receivable.

2.23 Investment in equity investee

The equity investment represents the Group's investment in a privately-held entity. The Group accounts for its equity investment over which it has significant influence but does not own a majority equity interest or otherwise control using the equity method. The Group adjusts the carrying amount of the investment and recognizes investment income or loss for share of the earnings or loss of the investee after the date of investment. When the Group's share of loss in the equity investee equals or exceeds its interest in the equity investee, the Group does not recognize further losses, unless the Group has incurred obligations or made payments or guarantees on behalf of the equity investee. The Group assesses its equity investment for other-than-temporary impairment by considering factors including, but not limited to, current economic and market conditions, operating performance of the entities, including current earnings trends and undiscounted cash flows, and other entity-specific information. The fair value determination, particularly for investment in privately-held entities, requires judgment to determine appropriate estimates and assumptions. Changes in these estimates and assumptions could affect the calculation of the fair value of the investment and determination of whether any identified impairment is other-than-temporary.

2.24 Property and equipment

Property and equipment are stated at historical cost less accumulated depreciation and impairment loss, if any. Depreciation is calculated using the straight-line method over their estimated useful lives. Residual rate is determined based on the economic value of the property and equipment at the end of the estimated useful lives as a percentage of the original cost.

Depreciation is calculated using the straight-line method to allocate their cost to their residual values over their estimated useful lives, as follows:

Computers, server & switch and office equipment	5 years
Wi-Fi terminals for data connectivity services	2 years
Leasehold improvement	Over the shorter of lease term or 3 years

Expenditures for maintenance and repairs are expensed as incurred. The gain or loss on the disposal of property and equipment is the difference between the net sales proceeds and the carrying amount of the relevant assets and is recognized in the consolidated statements of comprehensive (loss)/income.

2.25 Intangible assets

Intangible assets mainly consist of trademark, software and licensed copyrights. Identifiable intangible assets are carried at acquisition cost less accumulated amortization and impairment loss, if any. Finite-lived

intangible assets are tested for impairment if impairment indicators arise. All intangible assets of the Group are finite-lived intangible assets.

Amortization of finite-lived intangible assets is computed using the straight-line method over their estimated useful lives, which are as follows:

Trademark	10 years
Software	10 years
Licensed copyrights	10 years

2.26 Long-term investment

Long-term investment represents investment of equity interest of 3.75% of Beijing Huaxianglianxin Technology Company acquired in April, 2019. Beijing Huaxianglianxin Technology Company is a licensed mobile virtual network operator and is primarily engaged in telecommunications related business. The Group measures the long-term investment over which the Group does not have significant influence or that do not have readily determinable fair value at cost less impairment prior to January 1, 2018. Effective from January 1, 2018 with the adoption of ASU 2016-01, the Group has elected to use the measurement alternative to account for the equity investment, and therefore carries this investment at cost adjusted for changes from observable transactions for identical or similar investments of the same investee, less impairment. As of December 31, 2019, the carrying amount of this investment was US\$430 thousands (December 31, 2018: Nil) and there was no readily determinable fair value and observable price changes in the equity interest. There was no impairment of the investments as of December 31, 2019.

2.27 Deferred offering costs

Deferred offering costs, which consist of direct incremental legal, consulting, banking and accounting fees relating to anticipated equity offerings, are capitalized and will be offset against proceeds upon the consummation of the offerings within shareholders' equity. In the event an anticipated offering is terminated, deferred offering costs will be expensed. As of December 31, 2018, there were no capitalized deferred offering costs. As of December 31, 2019, there were US\$964 thousands of deferred offering costs capitalized and classified in prepayments and other current assets in the consolidated balance sheet.

2.28 Impairment of long-lived assets

For long-lived assets the Group evaluates for impairment whenever events or changes indicate that the carrying amount of an asset may no longer be recoverable. The Group assesses the recoverability of the long-lived assets by comparing the carrying value of the long-lived assets to the estimated undiscounted future cash flows expected to receive from use of the assets and their eventual disposition. Such assets are considered to be impaired if the sum of the expected undiscounted cash flows is less than the carrying amount of the assets. The impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. The Group tests impairment of long-lived assets at the reporting unit level when impairment indicator appeared and recognizes impairment in the event at the carrying value exceeds the fair value of each reporting unit.

No impairment charge of long-lived assets was recorded for the years ended December 31, 2017, 2018 and 2019.

2.29 Software development costs

The Group incurred costs to research and develop relevant software that is used in its cloud SIM architecture. Costs incurred during the research phase are expensed as incurred. Costs incurred for the development of software prior to the establishment of technological feasibility, which is when a working model is available, are expensed when incurred.

2.30 Fair value of financial instruments

Fair value is the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required or permitted to be recorded at fair value, the Group considers the principal or most advantageous market in which it would transact and it considers assumptions that market participants would use when pricing the asset or liability.

The established fair value hierarchy requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The three levels of inputs that may be used to measure fair value include:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Observable, market-based inputs, other than quoted prices, in active markets for identical assets or liabilities.

Level 3: Unobservable inputs to the valuation methodology that are significant to the measurement of the fair value of the assets or liabilities.

Accounting guidance also describes three main approaches to measuring the fair value of assets and liabilities: (1) market approach; (2) income approach and (3) cost approach. The market approach uses prices and other relevant information generated from market transactions involving identical or comparable assets or liabilities. The income approach uses valuation techniques to convert future amounts to a single present value amount. The measurement is based on the value indicated by current market expectations about those future amounts. The cost approach is based on the amount that would currently be required to replace an asset.

The Group does not have any non-financial assets or liabilities that are recognized or disclosed at fair value in the financial statements on a recurring basis.

The Group's financial instruments consist principally of cash and cash equivalents, short-term deposit, accounts receivable, accounts payable, contract liabilities and other liabilities.

As of December 31, 2017, 2018 and 2019, the carrying values of cash and cash equivalents, short-term deposit, accounts receivable, accounts payable, contract liabilities and other liabilities approximated their fair values reported in the consolidated balance sheets due to the short term nature of these instruments.

3. Recent accounting pronouncements

In January 2016, the FASB issued ASU No. 2016-01, Financial Instruments—Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities (“ASU 2016-01”). The main objective of this update is to enhance the reporting model for financial instruments to provide users of financial statements with more decision-useful information. ASU 2016-01 changes how entities measure certain equity investments and present changes in the fair value of financial liabilities measured under the fair value option that are attributable to their own credit. The guidance also changes certain disclosure requirements and other aspects of current U.S. GAAP. Further, in March 2018, the FASB issued “Technical Corrections and Improvements to Financial Instruments—Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities”, which provides further guidance on adjustments for observable transaction for equity securities without a readily determinable fair value and clarification on fair value option for liabilities instruments. ASU 2016-01 is effective for annual reporting periods, and interim periods within those years beginning after December 15, 2017. The Group adopted ASU 2016-01 from January 1, 2018.

In February 2016, the FASB issued ASU No. 2016-02, “Leases (Topic 842)”, which increases lease transparency and comparability among organizations. Under the new standard, lessees will be required to recognize all assets and liabilities arising from leases on the balance sheet, with the exception of leases with a term of 12 months or less, which permits a lessee to make an accounting policy election by class of underlying asset not to recognize lease assets and liabilities. If a lessee makes this election, it should recognize lease expenses for such lease generally on a straight-line basis over the lease term. The ASU is effective for reporting periods beginning after December 15, 2018 and interim periods within those fiscal years. Early adoption is permitted. In March 2018, the FASB approved an alternative transition method to the modified retrospective approach, which eliminates the requirement to restate prior period financial statements and allows the cumulative effect of the retrospective allocation to be recorded as an adjustment to the opening balance of retained earnings at the date of adoption. In November 2019, the FASB issued ASU No. 2019-10, “Leases (Topic 842): Effective Dates”, to finalize the effective date delays for private companies, not-for-profits, and smaller reporting companies applying the leases standards. The ASU is effective for reporting periods beginning after December 15, 2020 and interim periods within fiscal years beginning after December 15, 2021. Early adoption is permitted. The Group will adopt this new guidance for the fiscal years beginning after December 15, 2020 and interim periods within fiscal years beginning after December 15, 2021. Most of leases will continue to be operating leases. Upon the adoption, the Group expects its consolidated balance sheet to include a right of use asset and liability related to substantially all of its lease arrangements. The Group is currently evaluating the impact that the adoption of this standard will have on its financial condition and results from operations.

In June 2016, the FASB issued ASU No. 2016-13 “Financial Instruments-Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments”. The new guidance amended guidance on reporting credit losses for assets held at amortized cost basis and available for sale debt securities. For available for sale debt securities, credit losses will be presented as an allowance rather than as a write-down. This standard is effective for fiscal years beginning after December 15, 2019, including interim periods within those fiscal years. Early adoption is permitted for all entities. In November 2019, the FASB issued ASU No. 2019-10, “Financial Instruments-Credit Losses (Topic 326): Effective Dates”, to finalize the effective date delays for private companies, not-for-profits, and smaller reporting companies applying the CECL standards. The ASU is effective for reporting periods beginning after December 15, 2022 and interim periods within those fiscal years. Early adoption is permitted. The Group is currently assessing the impact of adopting this standard on its consolidated financial statements.

3. Recent accounting pronouncements (Continued)

In August 2016, the FASB issued ASU No. 2016-15 “Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments”. This standard clarifies the classification of certain cash receipts and cash payments in the statement of cash flows, including debt prepayment or extinguishment costs, settlement of contingent consideration arising from a business combination, insurance settlement proceeds, and distributions from certain equity method investees. For all other entities, the amendments are effective for fiscal years beginning after December 15, 2018, and interim periods within fiscal years beginning after December 15, 2019. The Group adopted this new guidance from January 1, 2019. The adoption of the standard does not have a significant impact on its consolidated financial statements.

In August 2018, the FASB issued ASU No. 2018-15, “Intangibles—Goodwill and Other—Internal-Use Software (Subtopic 350-40): Customer’s Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That Is a Service Contract”. This standard aligns the requirements for capitalizing implementation costs incurred in a hosting arrangement with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software. The implementation costs incurred in a hosting arrangement that is a service contract should be presented as a prepaid asset in the balance sheet and expensed over the term of the hosting arrangement to the same line item in the statement of operations as the costs related to the hosting fees. This standard is effective for annual reporting periods beginning after December 15, 2020, and interim periods within annual periods beginning after December 15, 2021. The amendments should be applied either retrospectively or prospectively to all implementation costs incurred after adoption. The Group is currently assessing the impact of adopting this standard on its consolidated financial statements.

In August 2018, the FASB issued ASU No. 2018-13, “Fair Value Measurement (Topic 820)”. This standard modifies disclosure requirements related to fair value measurement and is effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. Early adoption is permitted. Implementation on a prospective or retrospective basis varies by specific disclosure requirement. The standard also allows for early adoption of any removed or modified disclosures upon issuance while delaying adoption of the additional disclosures until their effective date. The Group is currently assessing the impact of adopting this standard on its consolidated financial statements.

4. Concentration and Risks

(a) Foreign exchange risk

The revenues and expenses of the Group’s entities in the PRC are generally denominated in RMB and their assets and liabilities are denominated in RMB. The RMB is not freely convertible into foreign currencies. Remittances of foreign currencies into the PRC or remittances of RMB out of the PRC as well as exchange between RMB and foreign currencies require approval by foreign exchange administrative authorities and certain supporting documentation. The State Administration for Foreign Exchange, under the authority of the People’s Bank of China, controls the conversion of RMB into other currencies.

(b) Credit risk

Financial instruments that potentially expose the Group to credit risk consist primarily of cash and cash equivalents, short-term deposit and accounts receivable. The Group places its cash and cash equivalents and short-term deposit with financial institutions with high credit ratings and quality.

(b) Credit risk (Continued)

The Group conducts credit evaluations of third-party customers and related parties, and generally does not require collateral or other security from its third-party customers and related parties. The Group establishes an allowance for doubtful accounts primarily based upon the age of the receivables and factors surrounding the credit risk of specific third-party customers and related parties.

7. Taxation

(a) Income taxes

(i) Cayman Islands

The Company was incorporated in the Cayman Islands and conducts most of its business through its subsidiaries and VIEs located in the PRC and Hong Kong. Under the current laws of the Cayman Islands, the Company is not subject to tax on either income or capital gain. Additionally, upon payments of dividends to the shareholders, no Cayman Islands withholding tax will be imposed.

(ii) PRC

The PRC enterprise income tax is calculated based on the taxable income determined under the PRC laws and accounting standards. Under the Corporate Income Tax ("CIT") Law, which became effective on January 1, 2008, foreign invested enterprises and domestic enterprises are subject to a unified CIT rate of 25%. In accordance with the implementation rules of the CIT Law, a qualified "High and New Technology Enterprise" ("HNTE") is eligible for a preferential tax rate of 15% with valid period of three years.

Shenzhen Ucloudlink Technology Limited and Shenzhen uCloudlink are qualified as HNTE, which are eligible to a preferential tax rate of 15% for the three-year period from 2017 to 2019 as long as they fulfill the HNTE criteria.

(b) Deferred tax assets

Deferred income tax expense reflects the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. The components of the deferred tax assets are as follows:

(In thousands)	Years ended December 31		
	2017	2018	2019
Deferred tax assets			
Net operating loss carryforwards	5,548	6,666	6,991

(In thousands)	Years ended December 31		
	2017	2018	2019

Change of valuation allowance	622	1,116	322
Balance at end of the year	5,657	6,773	7,095

Valuation allowance is provided against deferred tax assets when the Group determines that it is more-likely-than-not that the deferred tax assets will not be utilized in the future. The Group considers positive and negative evidence to determine whether some portion or all of the deferred tax assets will be more-likely-than-not realized. This assessment considers, among other matters, the nature, frequency and severity of recent losses and forecasts of future profitability. These assumptions require significant judgment and the forecasts of future taxable income are consistent with the plans and estimates the Group is using to manage the underlying businesses. Valuation allowances are established for deferred tax assets based on a more likely than not threshold. The Group's ability to realize deferred tax assets depends on its ability to generate sufficient taxable income within the carry forward periods provided for in the tax law. The Group has provided a full valuation allowance for the deferred tax assets as of December 31, 2017, 2018 and 2019, as management is not able to conclude that the future realization of those net operating loss carry forwards and other deferred tax assets are more likely than not. The statutory rate of 15% to 25%, depending on which entity, was applied when calculating deferred tax assets.

As of December 31, 2017, 2018 and 2019, the Group had net operating loss carryforwards of approximately US\$29,388 thousands, US\$44,015 thousands and US\$45,712 thousands respectively, which arose from the subsidiaries and VIE established in Hong Kong and PRC. As of December 31, 2017, 2018 and 2019, the Group does not believe that sufficient positive evidence exists to conclude that the recoverability of deferred tax assets is more likely than not to be realized. Consequently, the Group has provided full valuation allowance on the related deferred tax assets.

2018, the enterprises that have the qualifications of high-tech enterprises or high-tech SMEs will be able to make up for the losses that have not been completed in the previous five years before the qualification year. The longest carry-over period is extended from 5 years to 10 years. As of December 31, 2019, the net operating loss carry forwards arose from Shenzhen Ucloudlink Technology Limited and Shenzhen uCloudlink will expire during the period from 2025 to 2029, if unused.

(c) Uncertain tax position

The Group evaluates the level of authority for each uncertain tax position (including the potential application of interest and penalties) based on the technical merits, and measures the unrecognized benefits associated with the tax positions. As of December 31, 2017, 2018 and 2019, the Group did not have any significant unrecognized uncertain tax positions. The Group does not anticipate any significant increase to our liability for unrecognized tax benefit within the next 12 months. Interest and penalties related to income tax matters, if any, is included in income tax expense.

8. Ordinary shares

- (i) Prior to May 19, 2019, the authorized share of the Company was US\$50,000 divided into 50,000,000 shares of par value US\$0.001.

On May 19, 2019, the Board of Directors of the Company passed the resolution that all of the Company's ordinary shares and preferred shares were subdivided into 20 shares with a par value of US\$0.00005 each. The par value of ordinary shares and preferred shares and related disclosure have been recast to reflect the US\$0.00005 par value for all periods presented in the consolidated financial statements. As of December 31, 2017, 2018 and 2019, the Company has 149,318,791 ordinary shares (including 118,471,111 vested restricted shares), 228,749,678 shares (including 162,897,778 vested restricted shares) and 232,451,900 shares (including 162,897,778 vested restricted shares) outstanding, respectively.

- (ii) On January 28, 2015, the Company entered into a share purchase agreement ("Series A SPA") with certain investors under which the Company issued 8,400,000 ordinary shares at a total consideration of US\$4,056,206 and 25,000,000 Series A Preferred Shares to certain investors at a total consideration of US\$9,788,652 (Note 9). Also as a closing condition to the Series A SPA, the Company entered into a share restriction agreement with certain senior management and their respective wholly owned subsidiaries, which directly hold the equity interest on the Company. Pursuant to the share restriction agreement, all ordinary shares ("Restricted Shares") of the Company held by certain senior management shall be subject to vesting conditions until the Restricted Shares become vested. The Restricted Shares shall vest over a period of 5 years from the closing of the Series A SPA (which was shortened to 4 years on September 22, 2016). Vesting of all Restricted Shares will be accelerated upon the completion of a qualified IPO or trade sale. In the event that certain senior management voluntarily and unilaterally terminates his employment/service contract with the Group or his employment or service relationship is terminated by any applicable Group entities for cause as stated in the Series A SPA, the related senior management shall sell to the Company, and the Company shall repurchase from certain senior management, all of the unvested shares at a price of US\$0.00005 per share. <u>(In thousands)</u>	<u>Years ended December 31</u>

The bonds bear an interest at a rate of 8% per annum on the US\$55 million and interest is paid every 6 months and shall be matured in three years from the date of issue at their face value of US\$70 million or convertible into ordinary shares of the Company at predetermined ratio by the holder before the maturity date of the bonds. The Notes will mature on April 21, 2020. The value of the Notes is initially measured by the cash received and is subsequently stated at amortized cost.

For the years ended December 31, 2017, 2018 and 2019, the Group incurred rental expenses under operating leases US\$1,533 thousands, US\$3,662 thousands and US\$3,276 thousands, respectively.

(b) Purchase commitment for purchase of data

As at December 31, 2019, the Group has future minimum purchase commitment related to the purchase of data of US\$5,545 thousands and US\$38 thousands in 2020 and 2021 respectively.

(c) Contingencies

In June 2018, HONGKONG U CLOUDLINK NETWORK TECHNOLOGY LIMITED and Ucloudlink (America), Ltd., two wholly-owned subsidiaries of the Company, were named as defendants in a complaint filed by SIMO Holding Inc. (“SIMO”) in the United States District Court for the Southern District of New York (the “Court”), alleging patent infringements. The trial judge of the Court delivered a judgement in June 2019 approving total compensatory and enhanced damages of US\$2.8 million. Subsequently, the plaintiff and the Company filed post-trial motions in connection with which the plaintiff filed motions for supplemental damages to increase the damages to US\$8.5m. On August 28, 2019, the Court resolved in an order which denied the Company’s motions for judgment as a matter of law and for a new trial as well as plaintiff’s motion for request for attorney’s fees. The Court granted plaintiff’s motion for permanent injunction, effective on September 1, 2019, to enjoin the Company from selling, offering to sell, importing, or enabling the use of three models of portable Wi-Fi terminals and one model of GlocalMe World Phone that the Court believes infringed upon SIMO’s patent in the United States. In October 2019, the Court amended the total damages to US\$8.2 million to include pre-judgment interest on the awards and supplemental damages for certain sales occurring between January 1, 2019 and August 1, 2019, and certain sales occurring overseas for devices that had previously been sold within the United States between August 13, 2018 and August 31, 2019. The Group upgraded the allegedly infringing products by pushing a redesigned software update to the devices, which the Court concluded that the upgraded devices are no longer infringing and lifted the injunction against the upgraded devices on December 9, 2019. The Group has appealed against the Court’s original ruling in the United States Court of Appeals for the Federal Circuit. Pending judgement from the appellate court, the Group has put a sum equal to the abovementioned damages amount in an escrow account in January 2020.

In January 2020, the Group became aware that SIMO is alleging patent infringement and trade secret misappropriation against the Group in the United States District Court for the Eastern District of Texas. As of the date of this report, the Group has not been served with any complaint.

25. Commitments and Contingencies (Continued)

(c) Contingencies (Continued)

In August 2018, two affiliates of SIMO, namely Shenzhen Sibowei'ersi Technology Co., Ltd. and Shenzhen Skyroam Technology Co., Ltd., jointly filed a complaint against Shenzhen uCloudlink Network Technology Co., Ltd. in Guangzhou Intellectual Property Court in the PRC alleging patent infringements and claimed damages up to RMB10.5 million (equivalent to US\$1.6 million). The Group has filed an invalidation petition against their alleged patent in Patent Reexamination Board of National Intellectual Property Administration in the PRC. On July 16, 2019, the Patent Reexamination Board of National Intellectual Property Administration issued a reexamination decision which invalidated the plaintiffs' alleged patent in its entirety with respect to the patent infringement allegation. The first hearing of this lawsuit was held on May 13, 2019. The plaintiffs applied to withdraw the lawsuit, which has been approved on August 14, 2019. In October 2019, Shenzhen Sibowei'ersi Technology Co., Ltd. filed a complaint against the National Intellectual Property Administration in Beijing Intellectual Property Court in PRC petitioning the withdrawal of the foregoing reexamination decision of invalidity and reach of a new reexamination decision. The lawsuit is awaiting the court's notice.

In June 2019, Shenzhen Skyroam Technology Co., Ltd. filed a complaint against one of the Group's employees, one of the Group's officers, Shenzhen Ucloudlink Technology Limited and Shenzhen uCloudlink Network Technology Co., Ltd. in the Intermediate People's Court of Shenzhen alleging trade secret misappropriation and claimed damage of approximately US\$14 million and cessation of misappropriation. The Court denied the Group's motion to transfer the lawsuit from the Intermediate People's Court of Shenzhen to the Higher People's Court of Guangdong and the Group has appealed for jurisdiction objection in September 2019 while the court has not yet reached a verdict. Also, in June 2019, Shenzhen Skyroam Technology Co., Ltd. filed a complaint against the Shenzhen Ucloudlink Technology Limited in the Intermediate People's Court of Shenzhen regarding a patent ownership dispute. The plaintiff claimed damages of approximately US\$21,000. The exchange of evidence was held in August 2019 and the Group has applied to suspend the lawsuit on October 15, 2019. The Group further received the court's summons on November 7, 2019 and the evidentiary hearing of this lawsuit was held on January 6, 2020. In July 2019, Shenzhen Skyroam Technology Co., Ltd. filed another complaint in the Intermediate People's Court of Shenzhen against the Shenzhen Ucloudlink Technology Limited relating to patent ownership and the plaintiff claimed damages of approximately US\$21,000. The Group objected on jurisdictional ground in October 2019 and the court ruled against the Group. The Group has appealed for jurisdiction objection.

The Group believes the aforementioned allegations are without merit and will defend vigorously. The Group considers that the likelihood of an unfavorable outcome is not probable or is unable to estimate the amount or the range of the possible loss. Therefore, no accrual has been recorded by the Group as of December 31, 2019 in respect of these proceedings.

26. Restricted net assets

The Company's ability to pay dividends is primarily dependent on the Company receiving distributions of funds from its subsidiaries and the VIEs. Relevant PRC statutory laws and regulations permit payments of dividends by the Company's PRC subsidiaries and the VIEs only out of their retained earnings, if any, as determined in accordance with PRC accounting standards and regulations. The results of operations reflected in the consolidated financial statements prepared in accordance with U.S. GAAP differ from those reflected in the statutory financial statements of the Company's subsidiaries and the VIEs.

26. Restricted net assets (Continued)

In accordance with the PRC Regulations on Enterprises with Foreign Investment and the articles of association of the Company's PRC subsidiaries, a foreign-invested enterprise established in the PRC is required to provide certain statutory reserves, namely general reserve fund, the enterprise expansion fund and staff welfare and bonus fund which are appropriated from net profit as reported in the enterprise's PRC statutory accounts. A foreign-invested enterprise is required to allocate at least 10% of its annual after-tax profit to the general reserve fund until such reserve has reached 50% of its respective registered capital based on the enterprise's PRC statutory accounts. Appropriations to the enterprise expansion fund and staff welfare and bonus fund are at the discretion of the board of directors for all foreign-invested enterprises. The aforementioned reserves can only be used for specific purposes and are not distributable as cash dividends. The WFOE was established as a foreign-invested enterprise and, therefore, is subject to the above mandated restrictions on distributable profits. For the years ended December 31, 2017, 2018 and 2019, WFOE did not have after-tax profit and therefore no statutory reserves have been allocated.

Foreign exchange and other regulations in the PRC may further restrict the Company's VIEs from transferring funds to the Company in the form of dividends, loans and advances. Amounts restricted include paid-in capital, additional paid-in capital, and the statutory reserves of the Company's PRC subsidiaries, affiliates and VIEs. As of December 31, 2019, total restricted net assets were US\$49,219 thousands.

The Company performed a test on the restricted net assets of subsidiaries and VIEs in accordance with Securities and Exchange Commission Regulation S-X Rule 4-08 (e) (3), "General Notes to Financial Statements" and concluded that the restricted net assets exceeded 25% of the consolidated net assets of the Company as of December 31, 2019 and the condensed financial information of the Company are required to be presented (See Note 28).

27. Subsequent Events

Impact of COVID-19 (unaudited)

In early 2020, there was an outbreak of novel coronavirus, later named COVID-19 in China. Following the COVID-19 outbreak, a series of precautionary and control measures have been implemented by the Chinese government, including but not limited to extending the Chinese New Year holiday, quarantine measures and travel restrictions. These measures have resulted in drop in outbound travellers from China and mainly impacted the Group's Roamingman business.

In mid-March, 2020, the World Health Organization declared COVID-19 a pandemic. Since then, the COVID-19 pandemic has led governments and other authorities around the world to impose measures intended to control its spread, including restrictions on freedom of movement, gatherings of large numbers of people, and business operations such as travel bans, border closings, business closures, quarantines, shelter-in-place orders and social distancing measures. These measures have caused a severe decline in the level of business and leisure travel around the globe. As a result, demands for the Group's international data connectivity services, including the demands for Roamingman and from its business partners, have been significantly reduced.

The Group estimates that the total revenue of the first quarter of 2020 would be between US\$33 million to US\$34 million, which represents a decrease by approximately 36.7% to 38.5% as compared to the total revenue of the fourth quarter of 2019. Such decrease was primarily driven by the reduction in revenue generated from international data connectivity services. Such decline has also resulted in the decrease in revenues from sales of

terminals and provision of PaaS and SaaS services to business partners. On the other hand, the Group's revenue generated from local data connectivity service has increased as the demand for such service increased due to the wide adoption of activities such as working from home and online classes during the outbreak of COVID-19.

The Group is currently uncertain about the recovery of its overall business in the remaining period of 2020. On demand side, the Group anticipates that apart from decrease in demand from individual consumers, there will be decrease in demand from business partners for international connectivity data services, terminals and PaaS and SaaS services. The turnover days of account receivables may be affected due to slower collection from customers. The Group also anticipates that the cost of revenues as a percentage of total revenues will increase due to change in product mix with different gross margins, shortage of raw materials, delay in production and fluctuation of raw material prices.

The current circumstances are dynamic and the impacts of COVID-19 on the Group's business operations for the remaining period of 2020 are highly uncertain and cannot be reasonably estimated at this time, although the Group anticipates COVID-19 may have a material adverse impact on its business, results of operations, financial condition and cash flows in 2020.

The Group anticipates that a reduction in revenue will result in reduction in cash flow generated from operations. The Group will evaluate its financial and cash flow positions from time to time and intend to mitigate liquidity risk by implementing operational measures such as costs cutting and reducing investment in capital expenditures.

Issuance of new share options (unaudited)

In April 2020, the Company granted 4,963,017 share options to its employees, under the Revised 2018 Plan, with a weighted average exercise price of US\$0.55. The grantees can exercise vested options after the commencement date of exercise and before the end of its contractual term (i.e. 6 years after the commencement date of exercise). The commencement date of exercise is 6 months after the completion of the Company's IPO.

28. Additional information: condensed financial statements of the Company

Regulation S-X require condensed financial information as to financial position, statement of cash flows and results of operations of a parent company as of the same dates and for the same periods for which audited consolidated financial statements have been presented when the restricted net assets of consolidated and unconsolidated subsidiaries together exceed 25 percent of consolidated net assets as of the end of the most recently completed fiscal year.

The Company records its investment in its subsidiaries, VIE and VIE's subsidiaries under the equity method of accounting.

Such investments are presented on the separate condensed balance sheets of the Company as "Long-term investments".

The subsidiaries did not pay any dividends to the Company for the periods presented. Certain information and footnote disclosures generally included in financial statements prepared in accordance with U.S. GAAP have been condensed and omitted. The footnote disclosures represent supplemental information relating to the operations of the Company, as such, these statements should be read in conjunction with the notes to the consolidated financial statements of the Company.

PART II**INFORMATION NOT REQUIRED IN PROSPECTUS****ITEM 6. INDEMNIFICATION OF DIRECTORS AND OFFICERS.**

Cayman Islands law does not limit the extent to which a company's articles of association may provide for indemnification of officers and directors, except to the extent any such provision may be held by the Cayman Islands courts to be contrary to public policy, such as to provide indemnification against civil fraud or the consequences of committing a crime.

The post-offering memorandum and articles of association that we have adopted and will become effective immediately prior to the completion of this offering provide that we shall indemnify our directors and officers (each an indemnified person) against all actions, proceedings, costs, charges, expenses, losses, damages or liabilities incurred or sustained by such indemnified person, other than by reason of such person's own dishonesty, willful default or fraud, in or about the conduct of our company's business or affairs (including as a result of any mistake of judgment) or in the execution or discharge of his duties, powers, authorities or discretions, including, without prejudice to the generality of the foregoing, any costs, expenses, losses or liabilities incurred by such indemnified person in defending (whether successfully or otherwise) any civil proceedings concerning our company or its affairs in any court whether in the Cayman Islands or elsewhere.

Pursuant to the indemnification agreements, the form of which is filed as Exhibit 10.3 to this registration statement, we agree to indemnify our directors and executive officers against certain liabilities and expenses incurred by such persons in connection with claims made by reason of their being such a director or officer.

The underwriting agreement, the form of which is filed as Exhibit 1.1 to this registration statement, will also provide indemnification for us and our officers and directors for certain liabilities.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers or persons controlling us pursuant to the foregoing provisions, we have been informed that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

PRIORITY OF THE PROVISIONS SET OUT IN THE SCHEDULE

- 3 All provisions set out in the main body of these articles shall be read in conjunction with and shall be subject to the terms set out in the Schedule A hereto, which provide further details on the rights of holders of preferred shares. In the event of any difference between the provisions set out in the main body of these Articles and the provisions set out in the Schedule A hereto, the provisions set out in the Schedule A hereto shall prevail.

COMMENCEMENT OF BUSINESS

- 4 The business of the Company may be commenced as soon after incorporation as the Directors shall see fit.
- 5 The Directors may pay, out of the capital or any other monies of the Company, all expenses incurred in or about the formation and establishment of the Company, including the expenses of registration.

ISSUE OF SHARES

- 6 Subject to the other provisions in the Memorandum and Articles (and to any direction that may be given by the Company in general meeting) and without prejudice to any rights attached to any existing Shares, the Directors may allot, issue, grant options over or otherwise dispose of Shares (including fractions of a Share) with or without preferred, deferred or other rights or restrictions, whether in regard to Dividend, voting, return of capital or otherwise and to such persons, at such times and on such other terms as they think proper.
- 7 The Company shall not issue Shares to bearer.

REGISTER OF SHAREHOLDERS

- 8 The Company shall maintain or cause to be maintained the register of members in accordance with the Statute.

CLOSING REGISTER OF MEMBERS OR FIXING RECORD DATE

- 9 For the purpose of determining Shareholders entitled to notice of, or to vote at any meeting of Shareholders or any adjournment thereof, or Shareholders entitled to receive payment of any dividend, or in order to make a determination of Shareholders for any other purpose, the Directors may provide that the register of members shall be closed for transfers for a stated period which shall not in any case exceed forty days. If the register of members shall be closed for the purpose of determining Shareholders entitled to notice of, or to vote at, a meeting of Shareholders the register of members shall be closed for at least five days immediately preceding the meeting.

- 10 In lieu of, or apart from, closing the register of members, the Directors may fix in advance or arrears a date as the record date for any such determination of Shareholders entitled to notice of, or to vote at any meeting of the Shareholders or any adjournment thereof, or for the purpose of determining the Shareholders entitled to receive payment of any dividend or in order to make a determination of Shareholders for any other purpose.
- 11 If the register of members is not so closed and no record date is fixed for the determination of Shareholders entitled to notice of, or to vote at, a meeting of Shareholders or Shareholders entitled to receive payment of a dividend, the date on which notice of the meeting is sent or the date on which the resolution of the Directors declaring such dividend is adopted, as the case may be, shall be the record date for such determination of Shareholders. When a determination of Shareholders entitled to vote at any meeting of Shareholders has been made as provided in this Article, such determination shall apply to any adjournment thereof.

CERTIFICATES FOR SHARES

- 12 A Shareholder shall only be entitled to a share certificate if the Directors resolve that share certificates shall be issued. Share certificates representing Shares, if any, shall be in such form as the Directors may determine. Share certificates shall be signed by one or more Directors or other person authorised by the Directors. The Directors may authorise certificates to be issued with the authorised signature(s) affixed by mechanical process. All certificates for Shares shall be consecutively numbered or otherwise identified and shall specify the Shares to which they relate. All certificates surrendered to the Company for transfer shall be cancelled and subject to these Articles no new certificate shall be issued until the former certificate representing a like number of relevant Shares shall have been surrendered and cancelled.
- 13 The Company shall not be bound to issue more than one certificate for Shares held jointly by more than one person and delivery of a certificate to one joint holder shall be a sufficient delivery to all of them.
- 14 If a share certificate is defaced, worn out, lost or destroyed, it may be renewed on such terms (if any) as to evidence and indemnity and on the payment of such expenses reasonably incurred by the Company in investigating evidence, as the Directors may prescribe, and (in the case of defacement or wearing out) upon delivery of the old certificate.

REDEMPTION AND REPURCHASE OF SHARES

- 15 Subject to the Statute and the other provisions in the Memorandum and Articles, the Company may issue Shares that are to be redeemed or are liable to be redeemed at the option of the Shareholder or the Company. The redemption of such Shares shall be effected in such manner as the Company may determine before the issue of the Shares or as set forth in the Articles.
- 16 Subject to the Statute and other provisions in the Memorandum and Articles, the Company may purchase its own Shares (including any redeemable Shares).

- 17 The Company may make a payment in respect of the redemption or purchase of its own Shares in any manner permitted by the Statute, including out of capital.

VARIATION OF RIGHTS OF SHARES

- 18 Subject to the Statute and the other provisions in the Memorandum and Articles, if at any time the share capital of the Company is divided into different classes of Shares, the rights attached to any class (unless otherwise provided by the terms of issue of the Shares of that class) may, whether or not the Company is being wound-up, be varied with the consent in writing of the holders of at least two thirds of the issued and outstanding Shares of that class.
- 19 Subject to the Statute and the other provisions in the Memorandum and Articles, the rights conferred upon the holders of the Shares of any class issued with preferred or other rights shall not, unless otherwise expressly provided by the terms of issue of the Shares of that class, be deemed to be varied by the creation or issue of further Shares ranking *pari passu* therewith and the provisions of these Articles relating to general meetings shall apply to every class meeting of the holders of one class of Shares except that the necessary quorum shall be one person holding or representing by proxy at least a majority of the issued Shares of the class and that any holder of Shares of the class present in person or by proxy may demand a poll.

COMMISSION ON SALE OF SHARES

- 20 The Company may, in so far as the Statute permits, pay a commission to any person in consideration of his subscribing or agreeing to subscribe whether absolutely or conditionally for any Shares of the Company. Such commissions may be satisfied by the payment of cash and/or the issue of fully or partly paid-up Shares. The Company may also on any issue of Shares pay such brokerage as may be lawful.

NON RECOGNITION OF TRUSTS

- 21 The Company shall not be bound by or compelled to recognise in any way (even when notified) any equitable, contingent, future or partial interest in any Share, or (except only as is otherwise provided by these Articles or the Statute) any other rights in respect of any Share other than an absolute right to the entirety thereof in the registered holder.

LIEN ON SHARES

- 22 The Company shall have a first and paramount lien on all Shares (whether fully paid-up or not) registered in the name of a Shareholder (whether solely or jointly with others) for all debts, liabilities or engagements to or with the Company (whether presently payable or not) by such Shareholder or his estate, either alone or jointly with any other person, whether a Shareholder or not, but the Directors may at any time declare any Share to be wholly or in part exempt from the provisions of this Article. The registration of a transfer of any such Share shall operate as a waiver of the Company's lien thereon. The Company's lien on a Share shall also extend to any amount payable in respect of that Share.

- 23 The Company may sell, in such manner as the Directors think fit, any Shares on which the Company has a lien, if a sum in respect of which the lien exists is presently payable, and is not paid within fourteen clear days after notice has been given to the holder of the Shares, or to the person entitled to it in consequence of the death or bankruptcy of the holder, demanding payment and stating that if the notice is not complied with the Shares may be sold.
- 24 To give effect to any such sale the Directors may authorise any person to execute an instrument of transfer of the Shares sold to, or in accordance with the directions of, the purchaser. The purchaser or his nominee shall be registered as the holder of the Shares comprised in any such transfer, and he shall not be bound to see to the application of the purchase money, nor shall his title to the Shares be affected by any irregularity or invalidity in the sale or the exercise of the Company's power of sale under these Articles.
- 25 The net proceeds of such sale after payment of costs, shall be applied in payment of such part of the amount in respect of which the lien exists as is presently payable and any residue shall (subject to a like lien for sums not presently payable as existed upon the Shares before the sale) be paid to the person entitled to the Shares at the date of the sale.

CALL ON SHARES

- 26 Subject to the terms of the allotment the Directors may from time to time make calls upon the Shareholders in respect of any monies unpaid on their Shares (whether in respect of par value or premium), and each Shareholder shall (subject to receiving at least fourteen days notice specifying the time or times of payment) pay to the Company at the time or times so specified the amount called on the Shares. A call may be revoked or postponed as the Directors may determine. A call may be required to be paid by instalments. A person upon whom a call is made shall remain liable for calls made upon him notwithstanding the subsequent transfer of the Shares in respect of which the call was made.
- 27 A call shall be deemed to have been made at the time when the resolution of the Directors authorising such call was passed.
- 28 The joint holders of a Share shall be jointly and severally liable to pay all calls in respect thereof.
- 29 If a call remains unpaid after it has become due and payable, the person from whom it is due shall pay interest on the amount unpaid from the day it became due and payable until it is paid at such rate as the Directors may determine, but the Directors may waive payment of the interest wholly or in part.
- 30 An amount payable in respect of a Share on allotment or at any fixed date, whether on account of the par value of the Share or premium or otherwise, shall be deemed to be a call and if it is not paid all the provisions of these Articles shall apply as if that amount had become due and payable by virtue of a call.

- 31 The Directors may issue Shares with different terms as to the amount and times of payment of calls, or the interest to be paid.
- 32 The Directors may, if they think fit, receive an amount from any Shareholder willing to advance all or any part of the monies uncalled and unpaid upon any Shares held by him, and may (until the amount would otherwise become payable) pay interest at such rate as may be agreed upon between the Directors and the Shareholder paying such amount in advance.
- 33 No such amount paid in advance of calls shall entitle the Shareholder paying such amount to any portion of a dividend declared in respect of any period prior to the date upon which such amount would, but for such payment, become payable.

FORFEITURE OF SHARES

- 34 If a call remains unpaid after it has become due and payable the Directors may give to the person from whom it is due not less than fourteen clear days notice requiring payment of the amount unpaid together with any interest, which may have accrued. The notice shall specify where payment is to be made and shall state that if the notice is not complied with the Shares in respect of which the call was made will be liable to be forfeited.
- 35 If the notice is not complied with any Share in respect of which it was given may, before the payment required by the notice has been made, be forfeited by a resolution of the Directors. Such forfeiture shall include all dividends or other monies declared payable in respect of the forfeited Share and not paid before the forfeiture.
- 36 A forfeited Share may be sold, re-allotted or otherwise disposed of on such terms and in such manner as the Directors think fit and at any time before a sale, re-allotment or disposition the forfeiture may be cancelled on such terms as the Directors think fit. Where for the purposes of its disposal a forfeited Share is to be transferred to any person the Directors may authorise some person to execute an instrument of transfer of the Share in favour of that person.
- 37 A person any of whose Shares have been forfeited shall cease to be a Shareholder in respect of them and shall surrender to the Company for cancellation the certificate for the Shares forfeited and shall remain liable to pay to the Company all monies which at the date of forfeiture were payable by him to the Company in respect of those Shares together with interest, but his liability shall cease if and when the Company shall have received payment in full of all monies due and payable by him in respect of those Shares.
- 38 A certificate in writing under the hand of one Director or officer of the Company that a Share has been forfeited on a specified date shall be conclusive evidence of the fact as against all persons claiming to be entitled to the Share. The certificate shall (subject to the execution of an instrument of transfer) constitute a good title to the Share and the person to whom the Share is disposed of shall not be bound to see to the application of the purchase money, if any, nor shall his title to the Share be affected by any irregularity or invalidity in the proceedings in reference to the forfeiture, sale or disposal of the Share.

- 39 The provisions of these Articles as to forfeiture shall apply in the case of non payment of any sum which, by the terms of issue of a Share, becomes payable at a fixed time, whether on account of the par value of the Share or by way of premium as if it had been payable by virtue of a call duly made and notified.

TRANSFER AND TRANSMISSION OF SHARES

- 40 The instrument of transfer of any Share shall be in writing and shall be executed by or on behalf of the transferor (and if the Directors so require, signed by the transferee). The transferor shall be deemed to remain the holder of a Share until the name of the transferee is entered in the register of members. The Directors may decline to register any transfer of Shares if such transfer of Shares does not comply with the terms of any agreement between the Company and such transferring Shareholder.
- 41 If a Shareholder dies the survivor or survivors where he was a joint holder, and his legal personal representatives where he was a sole holder, shall be the only persons recognised by the Company as having any title to his interest. The estate of a deceased Shareholder is not thereby released from any liability in respect of any Share, which had been jointly held by him.
- 42 Any person becoming entitled to a Share in consequence of the death or bankruptcy or liquidation or dissolution of a Shareholder (or in any other way than by transfer) may, upon such evidence being produced as may from time to time be required by the Directors, elect either to become the holder of the Share or to have some person nominated by him as the transferee. If he elects to become the holder he shall give notice to the Company to that effect, but the Directors shall, in either case, have the same right to decline or suspend registration as they would have had in the case of a transfer of the Share by that Shareholder before his death or bankruptcy, as the case may be.
- 43 If the person so becoming entitled shall elect to be registered himself as holder he shall deliver or send to the Company a notice in writing signed by him stating that he so elects.
- 44 A person becoming entitled to a Share by reason of the death or bankruptcy or liquidation or dissolution of the holder (or in any other case than by transfer) shall be entitled to the same dividends and other advantages to which he would be entitled if he were the registered holder of the Share. However, he shall not, before being registered as a Shareholder in respect of the Share, be entitled in respect of it to exercise any right conferred by ownership in relation to meetings of the Company and the Directors may at any time give notice requiring any such person to elect either to be registered himself or to transfer the Share. If the notice is not complied with within ninety days of being received or deemed to be received as determined pursuant to the Articles, the Directors may thereafter withhold payment of all dividends, bonuses or other monies payable in respect of the Share until the requirements of the notice have been complied with.

REGISTERED OFFICE

- 45 Subject to the Statute, the Company may by resolution of the Directors change the location of its registered office.

GENERAL MEETINGS

- 46 All general meetings other than annual general meetings shall be called extraordinary general meetings.
- 47 The Company shall, if required by the Statute, in each year hold a general meeting as its annual general meeting, and shall specify the meeting as such in the notices calling it. The annual general meeting shall be held at such time and place as the Directors shall appoint. At these meetings the report of the Directors (if any) shall be presented.
- 48 The Company may hold an annual general meeting, but shall not (unless required by Statute) be obliged to hold an annual general meeting.
- 49 The Directors may call general meetings, and they shall on a Shareholders requisition forthwith proceed to convene an extraordinary general meeting of the Company.
- 50 A Shareholders requisition is a requisition of Shareholders of the Company holding at the date of deposit of the requisition not less than ten percent of the outstanding capital of the Company which as at that date carries the right of voting at general meetings of the Company.
- 51 The requisition must state the objects of the meeting and must be signed by the requisitionists and deposited at the registered office, and may consist of several documents in like form each signed by one or more requisitionists.
- 52 If the Directors do not within twenty-one days from the date of the deposit of the requisition duly proceed to convene a general meeting to be held within a further twenty-one days, the requisitionists, or any of them representing more than one-half of the total voting rights of all of them, may themselves convene a general meeting, but any meeting so convened shall not be held after the expiration of three months after the expiration of the said twenty-one days.
- 53 A general meeting convened as aforesaid by requisitionists shall be convened in the same manner as nearly as possible as that in which general meetings are to be convened by Directors.

NOTICE OF GENERAL MEETINGS

- 54 Written notice shall be given not less than five (5) days nor more than sixty (60) days before the date of any general meeting. Every notice shall be exclusive of the day on which it is given or deemed to be given and of the day for which it is given and shall specify the place, the day and the hour of the meeting and the general nature of the business and shall be given in manner hereinafter mentioned or in such other manner if any as may be prescribed by the Company, provided that a general meeting of the Company shall, whether or not the notice specified in this regulation has been given and whether or not the provisions of the Articles regarding general meetings have been complied with, be deemed to have been duly convened if it is so agreed:

- 54.1 in the case of an annual general meeting, by all the Shareholders (or their proxies) entitled to attend and vote thereat; and
- 54.2 in the case of an extraordinary general meeting, by a majority in number of the Shareholders (or their proxies) having a right to attend and vote at the meeting, being a majority together holding not less than seventy five percent of the outstanding Shares giving that right.
- 55 The accidental omission to give notice of a general meeting to, or the non receipt of notice of a meeting by, any person entitled to receive notice shall not invalidate the proceedings of that meeting.

PROCEEDINGS AT GENERAL MEETINGS

- 56 No business shall be transacted at any general meeting unless a quorum is present. Unless otherwise provided by law, or the Articles, a simple majority of the Shares entitled to vote, present in person or represented by proxy, shall constitute a quorum at a meeting of Shareholders.
- 57 A person may participate at a general meeting by conference telephone or other communications equipment by means of which all the persons participating in the meeting can communicate with each other. Participation by a person in a general meeting in this manner is treated as presence in person at that meeting.
- 58 A resolution (including a Special Resolution) in writing (in one or more counterparts) signed by all Shareholders for the time being entitled to receive notice of and to attend and vote at general meetings (or, being corporations, signed by their duly authorised representatives) shall be as valid and effective as if the resolution had been passed at a general meeting of the Company duly convened and held.
- 59 Unless otherwise provided by law or the Articles, if a quorum is not present within half an hour from the time appointed for the meeting or if during such a meeting a quorum ceases to be present, the meeting, if convened upon the requisition of Shareholders, shall be dissolved and in any other case it shall stand adjourned to the same day in the next week at the same time and place or to such other day, time or such other place as the Directors may determine, and if at the adjourned meeting a quorum is not present within half an hour from the time appointed for the meeting the Shareholders present shall be a quorum.
- 60 The chairman, if any, of the board of Directors shall preside as chairman at every general meeting of the Company, or if there is no such chairman, or if he shall not be present within fifteen minutes after the time appointed for the holding of the meeting, or is unwilling to act, the Directors present shall elect one of their number to be chairman of the meeting.
- 61 If no Director is willing to act as chairman or if no Director is present within fifteen minutes after the time appointed for holding the meeting, the Shareholders present shall choose one of their numbers to be chairman of the meeting.

- 62 The chairman may, with the consent of a meeting at which a quorum is present, (and shall if so directed by the meeting), adjourn the meeting from time to time and from place to place, but no business shall be transacted at any adjourned meeting other than the business left unfinished at the meeting from which the adjournment took place. When a general meeting is adjourned for thirty days or more, notice of the adjourned meeting shall be given as in the case of an original meeting. Otherwise it shall not be necessary to give any such notice.
- 63 A resolution put to the vote of the meeting shall be decided by a poll conducted by the chairman of the meeting. A vote by show of hands in lieu of a poll shall not be permitted.
- 64 Except on a poll demanded on the election of a chairman or on a question of adjournment, a poll shall be taken as the chairman directs, and the result of the poll shall be deemed to be the resolution of the general meeting at which the poll was demanded.
- 65 A poll demanded on the election of a chairman or on a question of adjournment shall be taken forthwith. A poll demanded on any other question shall be taken at such time as the chairman of the general meeting directs, and any business other than that upon which a poll has been demanded or is contingent thereon may proceed pending the taking of the poll.
- 66 In the case of an equality of votes, the chairman shall not be entitled to a second or casting vote.

VOTES OF SHAREHOLDERS

- 67 Subject to any rights or restrictions attached to any Shares, on a poll every Shareholder shall have one vote for every Share of which he is the holder.
- 68 A Shareholder of unsound mind, or in respect of whom an order has been made by any court, having jurisdiction in lunacy, may vote, by his committee, receiver, curator bonis, or other person on such Shareholder's behalf appointed by that court, and any such committee, receiver, curator bonis or other person may vote by proxy.
- 69 No person shall be entitled to vote at any general meeting or at any separate meeting of the holders of a class of Shares unless he is registered as a Shareholder on the record date for such meeting nor unless all calls or other monies then payable by him in respect of Shares have been paid.
- 70 No objection shall be raised to the qualification of any voter except at the general meeting or adjourned general meeting at which the vote objected to is given or tendered and every vote not disallowed at the meeting shall be valid. Any objection made in due time shall be referred to the chairman whose decision shall be final and conclusive.
- 71 On a poll votes may be cast either personally or by proxy. A Shareholder may appoint more than one proxy or the same proxy under one or more instruments to attend and vote at a meeting.

- 72 A Shareholder holding more than one Share need not cast the votes in respect of his Shares in the same way on any resolution and therefore may vote a Share or some or all such Shares either for or against a resolution and/or abstain from voting a Share or some or all of the Shares and, subject to the terms of the instrument appointing him, a proxy appointed under one or more instruments may vote a Share or some or all of the Shares in respect of which he is appointed either for or against a resolution and/or abstain from voting.

PROXIES

- 73 The instrument appointing a proxy shall be in writing, be executed under the hand of the appointor or of his attorney duly authorised in writing, or, if the appointor is a corporation under the hand of an officer or attorney duly authorised for that purpose. A proxy need not be a Shareholder of the Company.
- 74 The instrument appointing a proxy shall be deposited at the registered office or at such other place as is specified for that purpose in the notice convening the meeting, or in any instrument of proxy sent out by the Company:
- 74.1 not less than 48 hours before the time for holding the meeting or adjourned meeting at which the person named in the instrument proposes to vote; or
- 74.2 in the case of a poll taken more than 48 hours after it is demanded, be deposited as aforesaid after the poll has been demanded and not less than 24 hours before the time appointed for the taking of the poll; or
- 74.3 where the poll is not taken forthwith but is taken not more than 48 hours after it was demanded be delivered at the meeting at which the poll was demanded to the chairman or to the secretary or to any director;
- provided that the Directors may in the notice convening the meeting, or in an instrument of proxy sent out by the Company, direct that the instrument appointing a proxy may be deposited (no later than the time for holding the meeting or adjourned meeting) at the registered office or at such other place as is specified for that purpose in the notice convening the meeting, or in any instrument of proxy sent out by the Company. The chairman may in any event at his discretion direct that an instrument of proxy shall be deemed to have been duly deposited. An instrument of proxy that is not deposited in the manner permitted shall be invalid.
- 75 The instrument appointing a proxy may be in any usual or common form and may be expressed to be for a particular meeting or any adjournment thereof or generally until revoked. An instrument appointing a proxy shall be deemed to include the power to demand or join or concur in demanding a poll.
- 76 Votes given in accordance with the terms of an instrument of proxy shall be valid notwithstanding the previous death or insanity of the principal or revocation of the proxy or of the authority under which the proxy was executed, or the transfer of the Share in respect of which the proxy is given unless notice in writing of such death, insanity, revocation or transfer was received by the Company at the registered office before the commencement of the general meeting, or adjourned meeting at which it is sought to use the proxy.

CORPORATE SHAREHOLDERS

- 77 Any corporation or other non-natural person which is a Shareholder may in accordance with its constitutional documents, or in the absence of such provision by resolution of its directors or other governing body, authorise such person as it thinks fit to act as its representative at any meeting of the Company or of any class of Shareholders, and the person so authorised shall be entitled to exercise the same powers on behalf of the corporation which he represents as the corporation could exercise if it were an individual Shareholder.

SHARES THAT MAY NOT BE VOTED

- 78 Shares in the Company that are beneficially owned by the Company shall not be voted, directly or indirectly, at any meeting and shall not be counted in determining the total number of outstanding Shares at any given time.

DIRECTORS

- 79 Except as otherwise provided herein, the number of Directors of the Company shall be determined from time to time by the Board of Directors. The first Directors of the Company shall be determined in writing by, or appointed by a resolution of, the subscriber(s) to the Memorandum. Except as otherwise provided in the Articles, each Director shall hold office until such Director's successor is elected and qualified or until such Director's earlier resignation or removal. Any Director may resign at any time upon written notice to the Company.

POWERS OF DIRECTORS

- 80 Subject to the Statute and the other provisions in the Memorandum and Articles and to any directions given by Special Resolution, the business of the Company shall be managed by the Directors who may exercise all the powers of the Company. No alteration of the Memorandum or Articles and no such direction shall invalidate any prior act of the Directors which would have been valid if that alteration had not been made or that direction had not been given. A duly convened meeting of Directors at which a quorum is present may exercise all powers exercisable by the Directors.
- 81 All cheques, promissory notes, drafts, bills of exchange and other negotiable instruments and all receipts for monies paid to the Company shall be signed, drawn, accepted, endorsed or otherwise executed as the case may be in such manner as the Directors shall determine by resolution.
- 82 The Directors on behalf of the Company may pay a gratuity or pension or allowance on retirement to any Director who has held any other salaried office or place of profit with the Company or to his widow or dependants and may make contributions to any fund and pay premiums for the purchase or provision of any such gratuity, pension or allowance.

- 83 The Directors may exercise all the powers of the Company to borrow money and to mortgage or charge its undertaking, property and uncalled capital or any part thereof and to issue debentures, debenture stock, mortgages, bonds and other such securities whether outright or as security for any debt, liability or obligation of the Company or of any third party.

APPOINTMENT AND REMOVAL OF DIRECTORS

- 84 Except as otherwise provided in the Articles, Directors shall be appointed by the Shareholders at a general or extraordinary meeting or by written consent. Appointment of Directors need not be by written ballot.
- 85 Except as otherwise provided in the Articles, vacancies in the Board of Directors may be filled by a majority vote of the Board of Directors or by an appointment either at a general meeting or at an extraordinary meeting of the Shareholders called for that purpose. Any Directors appointed by the Shareholders to fill a vacancy shall hold office for the balance of the term for which he or she was appointed. A Director appointed by the Board of Directors to fill a vacancy shall serve until the next meeting of Shareholders at which Directors are appointed.

VACATION OF OFFICE OF DIRECTOR

- 86 The office of a Director shall be vacated if:
- 86.1 he gives notice in writing to the Company that he resigns the office of Director; or
- 86.2 if he absents himself (without being represented by proxy or an alternate Director appointed by him) from three consecutive meetings of the board of Directors without special leave of absence from the Directors, and they pass a resolution that he has by reason of such absence vacated office; or
- 86.3 if he dies, becomes bankrupt or makes any arrangement or composition with his creditors generally; or
- 86.4 if he is found to be or becomes of unsound mind; or
- 86.5 any Director who shall have been nominated by a specified group of Shareholders may be removed during the aforesaid term of office, either for or without cause, by, and only by, the affirmative vote of the holders of a majority of the Shares of such specified group, given at a special meeting of such Shareholders duly called or by an action by written consent for that purpose. Any vacancy on the board of Directors caused as a result of one or more of the events set out in Articles 86.1 to 86.4 of any such Director who shall have been nominated by a specified group of Shareholders, may be filled by, and only by, the vote of the holders of a majority of the Shares of such specified group given at a special meeting of such Shareholders or by an action by written consent, unless otherwise agreed upon among such Shareholders.

- 87 Subject to the other provisions in the Memorandum and Articles, the Directors may regulate their proceedings as they think fit. Questions arising at any meeting shall be decided by a majority of votes. A Director who is also an alternate Director shall be entitled in the absence of his appointor to a separate vote on behalf of his appointor in addition to his own vote.
- 88 A person may participate in a meeting of the Directors or committee of Directors by conference telephone or other communications equipment by means of which all the persons participating in the meeting can communicate with each other at the same time. Participation by a person in a meeting in this manner is treated as presence in person at that meeting. Unless otherwise determined by the Directors the meeting shall be deemed to be held at the place where the chairman is at the start of the meeting.
- 89 A resolution in writing (in one or more counterparts) signed by all the Directors or all the members of a committee of Directors (an alternate Director being entitled to sign such a resolution on behalf of his appointor) shall be as valid and effectual as if it had been passed at a meeting of the Directors, or committee of Directors as the case may be, duly convened and held.
- 90 A Director or alternate Director may, or other officer of the Company on the requisition of a Director or alternate Director shall, call a meeting of the Directors by at least two days' notice in writing to every Director and alternate Director which notice shall set forth the general nature of the business to be considered unless notice is waived by all the Directors (or their alternates) either at, before or after the meeting is held.
- 91 The continuing Directors may act notwithstanding any vacancy in their body, but if and so long as their number is reduced below the number fixed by or pursuant to these Articles as the necessary quorum of Directors the continuing Directors or Director may act for the purpose of increasing the number of Directors to that number, or of summoning a general meeting of the Company, but for no other purpose.
- 92 The Directors may elect a chairman of their board and determine the period for which he is to hold office; but if no such chairman is elected, or if at any meeting the chairman is not present within five minutes after the time appointed for holding the same, the Directors present may choose one of their number to be chairman of the meeting.
- 93 All acts done by any meeting of the Directors or of a committee of Directors (including any person acting as an alternate Director) shall, notwithstanding that it be afterwards discovered that there was some defect in the appointment of any Director or alternate Director, or that they or any of them were disqualified, be as valid as if every such person had been duly appointed and qualified to be a Director or alternate Director as the case may be.

- 94 Any non-employee Director who expects to be unable to attend a Board of Director meeting because of absence, illness or otherwise, may appoint any Person to be an alternate Director to act in his stead and such appointee whilst he holds office as an alternate director shall, in the event of absence therefrom of his appointor, be entitled to attend the Board of Director meeting and to vote thereat and to do, in the place and stead of his appointor, any other act or thing that his appointor is permitted or required to do by virtue of his being a director as if the alternate director were the appointor, other than appointment of an alternate to himself, and he shall ipso facto vacate office if and when his appointor ceases to be a director or removes the appointee from office. A Director but not an alternate Director may be represented at any meetings of the board of Directors by a proxy appointed in writing by him. The proxy shall count towards the quorum and the vote of the proxy shall for all purposes be deemed to be that of the appointing Director.

PRESUMPTION OF ASSENT

- 95 A Director of the Company who is present at a meeting of the board of Directors at which action on any Company matter is taken shall be presumed to have assented to the action taken unless his dissent shall be entered in the minutes of the meeting or unless he shall file his written dissent from such action with the person acting as the chairman or secretary of the meeting before the adjournment thereof or shall forward such dissent by registered post to such person immediately after the adjournment of the meeting. Such right to dissent shall not apply to a Director who voted in favour of such action.

- 97 A Director may act by himself or his firm in a professional capacity for the Company and he or his firm shall be entitled to remuneration for professional services as if he were not a Director or alternate Director.
- 98 A Director or alternate Director of the Company may be or become a director or other officer of or otherwise interested in any company promoted by the Company or in which the Company may be interested as shareholder or otherwise, and no such Director or alternate Director shall be accountable to the Company for any remuneration or other benefits received by him as a director or officer of, or from his interest in, such other company.
- 99 No person shall be disqualified from the office of Director or alternate Director or prevented by such office from contracting with the Company, either as vendor, purchaser or otherwise, nor shall any such contract or any contract or transaction entered into by or on behalf of the Company in which any Director or alternate Director shall be in any way interested be or be liable to be avoided, nor shall any Director or alternate Director so contracting or being so interested be liable to account to the Company for any profit realised by any such contract or transaction by reason of such Director holding office or of the fiduciary relation thereby established. A Director (or his alternate Director in his absence) shall be at liberty to vote in respect of any contract or transaction in which he is interested provided that the nature of the interest of any Director or alternate Director in any such contract or transaction shall be disclosed by him at or prior to its consideration and any vote thereon, and provided further that, if a Director (or his/her alternate in his/her absence) is interested in a transaction with the Company (including any repurchase of Shares by the Company from the founders), he/she shall be disqualified from or abstain from voting in respect of such transaction if any Investor Director so requires.

- 100 A general notice that a Director or alternate Director is a shareholder, director, officer or employee of any specified firm or company and is to be regarded as interested in any transaction with such firm or company shall not be sufficient disclosure for the purposes of voting on a resolution in respect of a contract or transaction in which he has an interest, and after such general notice it shall be necessary to give special notice relating to particulars of the transaction and with the comparison with arm-length transaction of the same kind.

MINUTES

- 101 The Directors shall cause minutes to be made in books kept for the purpose of all appointments of officers made by the Directors, all proceedings at meetings of the Company or the holders of any class of Shares and of the Directors, and of committees of Directors including the names of the Directors or alternate Directors present at each meeting.

DELEGATION OF DIRECTORS' POWERS

- 102 The Directors may delegate any of their powers to any committee consisting of one or more Directors. They may also delegate to any managing director or any Director holding any other executive office such of their powers as they consider desirable to be exercised by him provided that an alternate Director may not act as managing director and the appointment of a managing director shall be revoked forthwith if he ceases to be a Director. Any such delegation may be made subject to any conditions the Directors may impose, and either collaterally with or to the exclusion of their own powers and may be revoked or altered. Subject to any such conditions, the proceedings of a committee of Directors shall be governed by the Articles regulating the proceedings of Directors, so far as they are capable of applying.
- 103 The Directors may establish any committees, local boards or agencies or appoint any person to be a manager or agent for managing the affairs of the Company and may appoint any person to be a Shareholder of such committees or local boards. Any such appointment may be made subject to any conditions the Directors may impose, and either collaterally with or to the exclusion of their own powers and may be revoked or altered. Subject to any such conditions, the proceedings of any such committee, local board or agency shall be governed by the Articles regulating the proceedings of Directors, so far as they are capable of applying.

- 104 The Directors may by power of attorney or otherwise appoint any person to be the agent of the Company on such conditions as the Directors may determine, provided that the delegation is not to the exclusion of their own powers and may be revoked by the Directors at any time.
- 105 The Directors may by power of attorney or otherwise appoint any company, firm, person or body of persons, whether nominated directly or indirectly by the Directors, to be the attorney or authorised signatory of the Company for such purpose and with such powers, authorities and discretions (not exceeding those vested in or exercisable by the Directors under these Articles) and for such period and subject to such conditions as they may think fit, and any such powers of attorney or other appointment may contain such provisions for the protection and convenience of persons dealing with any such attorneys or authorised signatories as the Directors may think fit and may also authorise any such attorney or authorised signatory to delegate all or any of the powers, authorities and discretions vested in him.
- 106 The Directors may appoint such officers as they consider necessary on such terms, at such remuneration and to perform such duties, and subject to such provisions as to disqualification and removal as the Directors may think fit. Unless otherwise specified in the terms of his appointment an officer may be removed by resolution of the Directors or Shareholders.

ALTERNATE DIRECTORS

- 107 Any Director (other than an alternate Director) may by writing appoint any other Director, or any other person willing to act, to be an alternate Director and by writing may remove from office an alternate Director so appointed by him.
- 108 An alternate Director shall be entitled to receive notice of all meetings of Directors and of all meetings of committees of Directors of which his appointor is a Shareholder, to attend and vote at every such meeting at which the Director appointing him is not personally present, and generally to perform all the functions of his appointor as a Director in his absence.
- 109 An alternate Director shall cease to be an alternate Director if his appointor ceases to be a Director.
- 110 Any appointment or removal of an alternate Director shall be by notice to the Company signed by the Director making or revoking the appointment or in any other manner approved by the Directors.
- 111 An alternate Director shall be deemed for all purposes to be a Director and shall alone be responsible for his own acts and defaults and shall not be deemed to be the agent of the Director appointing him.

NO MINIMUM SHAREHOLDING

- 112 Subject to the approval by a majority of the Directors (including the consents of the Cashcapital Director), the Company in general meeting may fix a minimum shareholding required to be held by a Director, but unless and until such a shareholding qualification is fixed a Director is not required to hold Shares.

REMUNERATION OF DIRECTORS

- 113 The remuneration to be paid to the Directors, if any, shall be such remuneration as the Directors shall determine. The Directors shall also be entitled to be paid all travelling, hotel and other expenses properly incurred by them in connection with their attendance at meetings of Directors or committees of Directors, or general meetings of the Company, or separate meetings of the holders of any class of Shares or debentures of the Company, or otherwise in connection with the business of the Company, or to receive a fixed allowance in respect thereof as may be determined by the Directors, or a combination partly of one such method and partly the other.
- 114 The Directors may by resolution approve additional remuneration to any Director for any services other than his ordinary routine work as a Director. Any fees paid to a Director who is also counsel or solicitor to the Company, or otherwise serves it in a professional capacity shall be in addition to his remuneration as a Director.

SEAL

- 115 The Company may, if the Directors so determine, have a Seal. The Seal shall only be used by the authority of the Directors or of a committee of the Directors authorised by the Directors. Every instrument to which the Seal has been affixed shall be signed by at least one person who shall be either a Director or some officer or other person appointed by the Directors for the purpose.
- 116 The Company may have for use in any place or places outside the Cayman Islands a duplicate Seal or Seals each of which shall be a facsimile of the common Seal of the Company and, if the Directors so determine, with the addition on its face of the name of every place where it is to be used.
- 117 A Director or officer, representative or attorney of the Company may without further authority of the Directors affix the Seal over his signature alone to any document of the Company required to be authenticated by him under seal or to be filed with the Registrar of Companies in the Cayman Islands or elsewhere wheresoever.

DIVIDENDS, DISTRIBUTIONS AND RESERVE

- 118 Subject to the Statute and the other provisions in the Memorandum and Articles, the Directors may declare dividends and distributions on Shares in issue and authorise payment of the dividends or distributions out of the funds of the Company lawfully available therefor. No dividend or distribution shall be paid except out of the realised or unrealised profits of the Company, or as otherwise permitted by the Statute.

- 119 The Directors may deduct from any dividend or distribution payable to any Shareholder all sums of money (if any) then payable by him to the Company on account of calls or otherwise.
- 120 The Directors may declare that any dividend or distribution be paid wholly or partly by the distribution of specific assets and in particular of shares, debentures, or securities of any other company or in any one or more of such ways and where any difficulty arises in regard to such distribution, the Directors may settle the same as they think expedient and in particular may issue fractional Shares and fix the value for distribution of such specific assets or any part thereof and may determine that cash payments shall be made to any Shareholders upon the basis of the value so fixed in order to adjust the rights of all Shareholders and may vest any such specific assets in trustees as may seem expedient to the Directors.
- 121 Any dividend, distribution, interest or other monies payable in cash in respect of Shares may be paid by wire transfer to the holder or by cheque or warrant sent through the post directed to the registered address of the holder or, in the case of joint holders, to the registered address of the holder who is first named on the register of members or to such person and to such address as such holder or joint holders may in writing direct. Every such cheque or warrant shall be made payable to the order of the person to whom it is sent. Any one of two or more joint holders may give effectual receipts for any dividends, bonuses, or other monies payable in respect of the Share held by them as joint holders.
- 122 No dividend or distribution shall bear interest against the Company.
- 123 Any dividend which cannot be paid to a Shareholder and/or which remains unclaimed after six months from the date of declaration of such dividend may, in the discretion of the Directors, be paid into a separate account in the Company's name, provided that the Company shall not be constituted as a trustee in respect of that account and the dividend shall remain as a debt due to the Shareholder. Any dividend which remains unclaimed after a period of six years from the date of declaration of such dividend shall be forfeited and shall revert to the Company.

CAPITALISATION

- 124 The Directors may capitalise any sum standing to the credit of any of the Company's reserve accounts (including share premium account and capital redemption reserve fund) or any sum standing to the credit of profit and loss account or otherwise available for distribution and to appropriate such sum to Shareholders in the proportions in which such sum would have been divisible amongst them had the same been a distribution of profits by way of dividend and to apply such sum on their behalf in paying up in full unissued Shares for allotment and distribution credited as fully paid-up to and amongst them in the proportion aforesaid. In such event the Directors shall do all acts and things required to give effect to such capitalisation, with full power to the Directors to make such provisions as they think fit for the case of Shares becoming distributable in fractions (including provisions whereby the benefit of fractional entitlements accrue to the Company rather than to the Shareholders concerned). The Directors may authorise any person to enter on behalf of all of the Shareholders interested into an agreement with the Company providing for such capitalisation and matters incidental thereto and any agreement made under such authority shall be effective and binding on all concerned.

BOOKS OF ACCOUNT

- 125 The Directors shall cause proper books of account to be kept with respect to all sums of money received and expended by the Company and the matters in respect of which the receipt or expenditure takes place, all sales and purchases of goods by the Company and the assets and liabilities of the Company. Proper books shall not be deemed to be kept if there are not kept such books of account as are necessary to give a true and fair view of the state of the Company's affairs and to explain its transactions.
- 126 In addition to the Company's contractual rights, the Directors shall from time to time determine whether and to what extent and at what times and places and under what conditions or regulations the accounts and books of the Company or any of them shall be open to the inspection of Shareholders not being Directors and no Shareholder (not being a Director) shall have any right of inspecting any account or book or document of the Company except as conferred by Statute or authorised by the Directors or by the Company in general meeting.
- 127 The Directors may from time to time cause to be prepared and to be laid before the Company in general meeting profit and loss accounts, balance sheets, sheet of cashflow, group (consolidated) accounts (if any) and such other reports and accounts as may be required by law.

AUDIT

- 128 The Directors may appoint an Auditor of the Company who shall hold office until removed from office by a resolution of the Directors, and may fix his or their remuneration.
- 129 Every Auditor of the Company shall have a right of access at all times to the books and accounts and vouchers of the Company and shall be entitled to require from the Directors and officers of the Company such information and explanation as may be necessary for the performance of the duties of the Auditor.
- 130 Auditors shall, if so required by the Directors, make a report on the accounts of the Company during their tenure of office at the next annual general meeting following their appointment in the case of a company which is registered with the Registrar of Companies as an ordinary company, and at the next extraordinary general meeting following their appointment in the case of a company which is registered with the Registrar of Companies as an exempted company, and at any other time during their term of office, upon request of the Directors or any general meeting of the Shareholders.

Any notice, if posted from one country to another, is to be sent via FedEx or a similar internationally recognized carrier.
- 132 Where a notice is sent by courier, service of the notice shall be deemed to be effected by delivery of the notice to a courier company, and shall be deemed to have been received on the third day (not including Saturdays or Sundays or public holidays) following the day on which the notice was delivered to the courier. Where a notice is sent by post, service of the notice shall be deemed to be effected by properly addressing, pre paying and posting a letter containing the notice, and shall be deemed to have been received on the fifth day (not including Saturdays or Sundays or public holidays) following the day on which the notice was posted. Where a notice is sent by cable, telex or fax, service of the notice shall be deemed to be effected by properly addressing and sending such notice and shall be deemed to have been received on the same day that it was transmitted. Where a notice is given by e-mail service shall be deemed to be effected by transmitting the e-mail to the e-mail address provided by the intended recipient and shall be deemed to have been received on the same day that it was sent, and it shall not be necessary for the receipt of the e-mail to be acknowledged by the recipient.
- 133 A notice may be given by the Company to the person or persons which the Company has been advised are entitled to a Share or Shares in consequence of the death or bankruptcy of a Shareholder in the same manner as other notices which are required to be given under these Articles and shall be addressed to them by name, or by the title of representatives of the deceased, or trustee of the bankrupt, or by any like description at the address supplied for that purpose by the persons claiming to be so entitled, or at the option of the Company by giving the notice in any manner in which the same might have been given if the death or bankruptcy had not occurred.
- 134 Notice of every general meeting shall be given in any manner hereinbefore authorised to every person shown as a Shareholder in the register of members on the record date for such meeting except that in the case of joint holders the notice shall be sufficient if given to the joint holder first named in the register of members and every person upon whom the ownership of a Share devolves by reason of his being a legal personal representative or a trustee in bankruptcy of a Shareholder of record where the Shareholder of record but for his death or bankruptcy would be entitled to receive notice of the meeting, and no other person shall be entitled to receive notices of general meetings.
- 135 Whenever any notice is required by law or these Articles to be given to any Director, member of a committee or Shareholder, a waiver thereof in writing, signed by the person or persons entitled to said notice, whether before or after the time stated therein, shall be deemed equivalent thereto.

INDEMNITY

- 136 Every Director, agent or officer of the Company shall be indemnified to the fullest extent permissible under the law against any liability incurred by him as a result of any act or failure to act in carrying out his functions other than such liability (if any) that he may incur by his own actual fraud or wilful default. No such Director, agent or officer shall be liable to the Company for any loss or damage in carrying out his functions unless that liability arises through the actual fraud or wilful default of such Director, agent or officer. References in this Article to actual fraud or wilful default mean a finding to such effect by a competent court in relation to the conduct of the relevant party.

FINANCIAL YEAR

- 137 Unless the Directors otherwise prescribe, the financial year of the Company shall end on 31st December in each year and, following the year of incorporation, shall begin on 1st January in each year.

TRANSFER BY WAY OF CONTINUATION

- 138 If the Company is exempted as defined in the Statute, it shall, subject to the provisions of the Statute and the Memorandum and with the approval of a Special Resolution, have the power to register by way of continuation as a body corporate under the laws of any jurisdiction outside the Cayman Islands and to be deregistered in the Cayman Islands.

AMENDMENTS OF MEMORANDUM AND ARTICLES OF ASSOCIATION AND ALTERATION OF CAPITAL

For the purposes of Section 5.2, each Investor "pro rata share" shall be determined according to the number of the Equity Securities held by such Investor (calculated on an as converted to Ordinary Shares and on a Fully-Diluted Basis) in relation to the aggregate number of all Equity Securities (calculated on an as converted to Ordinary Shares and on a Fully-Diluted Basis basis) immediately prior to the issuance of the New Notes, provided, however, the Investors shall not have such preemptive right in any of the following circumstances: (a) issuance of any Notes to Haitong pursuant to the Notes Purchase Agreement, and (b) if the potential investor to whom the Company proposes to sell or issue New Notes is a Strategic Investor provided further that the Board of the Company shall give each Investor a notice which explains and specifies the benefits or/and advantages the Company will obtain with the join-in of such Strategic Investor.
- (b) Procedures
 - (i) In the event that the Company proposes to issue any New Notes, it shall give each Investor written notice (an "Issuance Notice of New Notes") of such intention, describing (i) the type of New Notes, (ii) the identity of the prospective subscriber, and (iii) the price and the general terms upon which the Company proposes to issue such New Notes. Each Investor shall have thirty (30) days after the receipt of the Issuance Notice of New Notes to agree to purchase up to such Investor's pro rata share of such New Notes for the price and upon the terms specified in the Issuance Notice of New Notes by giving written notice to the Company and stating therein the quantity of New Notes to be purchased.

- (ii) In the event that any Investor fails to exercise its right to purchase its full pro rata share of the New Notes, the Company shall deliver a written notice (the “Second Participation Notice of New Notes”) within five (5) days after the expiration of the aforementioned thirty (30) day period to each Preferred Shareholder, Xizang Guoke, Lead Ordinary Shareholder and Haitong that have elected to purchase its entire pro rata share of the New Notes (the “Fully Participating Investors of New Notes”) which notice shall set forth the number of the New Notes for which the Investors was entitled to purchase but that were not purchased by such Investor pursuant to subsection (a) above (such New Notes, the “Overallotment New Notes”). Such notice may be given by telephone provided it is confirmed in writing within two (2) Business Days. If, as a result thereof, the total number of additional New Notes the Fully Participating Investors of New Notes propose to buy exceeds the total number of the Overallotment New Notes, then the Overallotment New Notes shall be allocated to such Fully Participating Investors of New Notes by allocating to each such Fully Participating Investor of New Notes the lesser of (A) the difference between the Additional Number of New Notes and the aggregate number of Over-allotment New Notes that has already been allocated to it, and (B) its over-allotment pro rata share of the Overallotment New Notes that has not yet been allocated, which allocation step shall be repeated until all Overallotment New Notes are allocated. Each such Fully Participating Investor of New Notes who has been allocated all the Additional Number of New Notes shall cease to participate in any subsequent allocation step. For the purposes of determining the allocation of Overallotment New Notes that a Fully Participating Investor of New Notes will receive in each allocation step, such Investor’s “over-allotment pro rata share” shall be determined according to the aggregate number of all Equity Securities (calculated on an as converted to Ordinary Shares and on a Fully-Diluted Basis basis) held by such Fully Participating Investor of New Notes on the date of the Issuance Notice of New Notes in relation to the aggregate number of all Equity Securities (calculated on an as converted to Ordinary Shares and on a Fully-Diluted Basis basis) held by all Fully Participating Investors of New Notes who participate in such allocation step on such date.
- (iii) Payment for the New Notes to be purchased by the Investors shall be made by check or wire transfer in immediately available funds of the appropriate currency, against delivery of such New Notes to be purchased at the business address of the Company at the time of the scheduled closing therefor, which shall be no later than seventy (70) days after such Investor’s receipt of the Issuance Notice of New Notes.

5.3 For a period of ninety (90) days following the expiration of the period during which any Investor may exercise its preemptive rights under this Section 5, the Company may sell any New Shares and/or New Notes with respect to which the Preemptive Rights under this Section 5 were not exercised, to the purchasers identified in the Issuance Notice of New Shares or Issuance Notice of New Notes (as the case may be) and at a price and upon terms not more favorable to the purchasers thereof than specified in the Issuance Notice of New Shares or Issuance Notice of New Notes (as the case may be). In the event the Company has not completed the sale of such New Shares and/or New Notes within such ninety (90) day period, the Company shall not and the other Covenantors shall cause the Company not to thereafter issue or sell any New Shares or New Notes, without first again offering such New Shares or New Notes to the Investors in the manner provided in this Section 5.

 - (c) the dividends, if any, payable on such series, whether any such dividends shall be cumulative, and, if so, from what dates, the conditions and dates upon which such dividends shall be payable, and the preference or relation which such dividends shall bear to the dividends payable on any shares of any other class or any other series of shares;
 - (d) whether the preferred shares of such series shall be subject to redemption by the Company, and, if so, the times, prices and other conditions of such redemption;
 - (e) whether the preferred shares of such series shall have any rights to receive any part of the assets available for distribution amongst the Members upon the liquidation of the Company, and, if so, the terms of such liquidation preference, and the relation which such liquidation preference shall bear to the entitlements of the holders of shares of any other class or any other series of shares;
 - (f) whether the preferred shares of such series shall be subject to the operation of a retirement or sinking fund and, if so, the extent to and manner in which any such retirement or sinking fund shall be applied to the purchase or redemption of the preferred shares of such series for retirement or other corporate purposes and the terms and provisions relative to the operation thereof;

- (g) whether the preferred shares of such series shall be convertible into, or exchangeable for, shares of any other class or any other series of preferred shares or any other securities and, if so, the price or prices or the rate or rates of conversion or exchange and the method, if any, of adjusting the same, and any other terms and conditions of conversion or exchange;
- (h) the limitations and restrictions, if any, to be effective while any preferred shares of such series are outstanding upon the payment of dividends or the making of other distributions on, and upon the purchase, redemption or other acquisition by the Company of, the existing shares or shares of any other class of shares or any other series of preferred shares;
- (i) the conditions or restrictions, if any, upon the creation of indebtedness of the Company or upon the issue of any additional shares, including additional shares of such series or of any other class of shares or any other series of preferred shares; and
- (j) any other powers, preferences and relative, participating, optional and other special rights, and any qualifications, limitations and restrictions thereof;

and, for such purposes, the Directors may reserve an appropriate number of Shares for the time being unissued. The Company shall not issue Shares to bearer.

- 10. The Company may insofar as may be permitted by law, pay a commission to any Person in consideration of his subscribing or agreeing to subscribe whether absolutely or conditionally for any Shares. Such commissions may be satisfied by the payment of cash or the lodgement of fully or partly paid-up Shares or partly in one way and partly in the other. The Company may also pay such brokerage as may be lawful on any issue of Shares.
- 11. The Directors may refuse to accept any application for Shares, and may accept any application in whole or in part, for any reason or for no reason.

CLASS A ORDINARY SHARES AND CLASS B ORDINARY SHARES

- 12. Holders of Class A Ordinary Shares and Class B Ordinary Shares shall at all times vote together as one class on all resolutions submitted to a vote by the Members. Each Class A Ordinary Share shall entitle the holder thereof to one (1) vote on all matters subject to vote at general meetings of the Company, and each Class B Ordinary Share shall entitle the holder thereof to fifteen (15) votes on all matters subject to vote at general meetings of the Company.
- 13. Each Class B Ordinary Share is convertible into one (1) Class A Ordinary Share at any time by the holder thereof. The right to convert shall be exercisable by the holder of the Class B Ordinary Share delivering a written notice to the Company that such holder elects to convert a specified number of Class B Ordinary Shares into Class A Ordinary Shares.
- 14. Any number of Class B Ordinary Shares held by a holder thereof will be automatically and immediately converted into an equal number of Class A Ordinary Shares upon the occurrence of any of the following:
 - (a) any direct or indirect sale, transfer, assignment or disposition of such number of Class B Ordinary Shares by the holder thereof or the direct or indirect transfer or assignment of the voting power attached to such number of Class B Ordinary Shares through voting proxy or otherwise to any person that is not an Affiliate of any of the Specified Persons;

for the avoidance of doubt, the creation of any pledge, charge, encumbrance or other third party right of whatever description on any of Class B Ordinary Shares to secure contractual or legal obligations shall not be deemed as a sale, transfer, assignment or disposition under this clause (a) unless and until any such pledge, charge, encumbrance or other third party right is enforced and results in a third party that is not an Affiliate of any of the Specified Persons holding directly or indirectly beneficial ownership or voting power through voting proxy or otherwise to the related Class B Ordinary Shares, in which case all the related Class B Ordinary Shares shall be automatically converted into the same number of Class A Ordinary Shares; or

- (b) the direct or indirect sale, transfer, assignment or disposition of a majority of the issued and outstanding voting securities of, or the direct or indirect transfer or assignment of the voting power attached to such voting securities through voting proxy or otherwise, or the direct or indirect sale, transfer, assignment or disposition of all or substantially all of the assets of, a holder of Class B Ordinary Shares that is an entity to any person that is not an Affiliate of any of the Specified Persons;

for the avoidance of doubt, the creation of any pledge, charge, encumbrance or other third party right of whatever description on the issued and outstanding voting securities or the assets of a holder of Class B Ordinary Shares that is an entity to secure contractual or legal obligations shall not be deemed as a sale, transfer, assignment or disposition under this clause (b) unless and until any such pledge, charge, encumbrance or other third party right is enforced and results in a third party that is not an Affiliate of any of the Specified Persons holding directly or indirectly beneficial ownership or voting power through voting proxy or otherwise to the related issued and outstanding voting securities or the assets;

Notwithstanding anything to contrary in the foregoing and elsewhere in these Articles, the execution of and any amendment to the Voting Agreement and/or performance of the rights, obligations and any other provisions under the Voting Agreement shall not be deemed as a transfer or assignment of the voting power attached to the Class B Ordinary Shares held by the parties to the Voting Agreement under Article 14 and shall not result in Class B Ordinary Shares beneficially owned by the parties to the Voting Agreement being automatically converted into the same number of Class A Ordinary Shares.

15. Any conversion of Class B Ordinary Shares into Class A Ordinary Shares pursuant to these Articles shall be effected by means of the re-designation of each relevant Class B Ordinary Share as a Class A Ordinary Share. Such conversion shall become effective forthwith upon entries being made in the Register to record the re-designation of the relevant Class B Ordinary Shares as Class A Ordinary Shares.
16. Class A Ordinary Shares are not convertible into Class B Ordinary Shares under any circumstances.
17. Save and except for voting rights and conversion rights as set out in Articles 12 to 16 (inclusive), the Class A Ordinary Shares and the Class B Ordinary Shares shall rank *pari passu* with one another and shall have the same rights, preferences, privileges and restrictions.

MODIFICATION OF RIGHTS

18. Whenever the capital of the Company is divided into different Classes the rights attached to any such Class may, subject to any rights or restrictions for the time being attached to any Class, only be materially adversely varied with the consent in writing of the holders of two-thirds (2/3) of all of the issued Shares of that Class or with the sanction of an Ordinary Resolution passed at a separate meeting of the holders of the Shares of that Class. To every such separate meeting all the provisions of these Articles relating to general meetings of the Company or to the proceedings thereat shall, *mutatis mutandis*, apply, except that the necessary quorum shall be one or more Persons holding or representing by proxy at least one-third in nominal or par value amount of the issued Shares of the relevant Class (but so that if at any adjourned meeting of such holders a quorum as above defined is not present, those Shareholders who are present shall form a quorum) and that, subject to any rights or restrictions for the time being attached to the Shares of that Class, every Shareholder of the Class shall on a poll have one vote for each Share of the Class held by him. For the purposes of this Article the Directors may treat all the Classes or any two or more Classes as forming one Class if they consider that all such Classes would be affected in the same way by the proposals under consideration, but in any other case shall treat them as separate Classes.
19. The rights conferred upon the holders of the Shares of any Class issued with preferred or other rights shall not, subject to any rights or restrictions for the time being attached to the Shares of that Class, be deemed to be materially adversely varied by, *inter alia*, the creation, allotment or issue of further Shares ranking *pari passu* with or subsequent to them or the redemption or purchase of any Shares of any Class by the Company. The rights of the holders of Shares shall not be deemed to be materially adversely varied by the creation or issue of Shares with preferred or other rights including, without limitation, the creation of Shares with enhanced or weighted voting rights.

CERTIFICATES

20. Every Person whose name is entered as a Member in the Register may, without payment and upon its written request, request a certificate within two calendar months after allotment or lodgement of transfer (or within such other period as the conditions of issue shall provide) in the form determined by the Directors. All certificates shall specify the Share or Shares held by that Person, provided that in respect of a Share or Shares held jointly by several Persons the Company shall not be bound to issue more than one certificate, and delivery of a certificate for a Share to one of several joint holders shall be sufficient delivery to all. All certificates for Shares shall be delivered personally or sent through the post addressed to the Member entitled thereto at the Member's registered address as appearing in the Register.
21. Every share certificate of the Company shall bear legends required under the applicable laws, including the Securities Act.
22. Any two or more certificates representing Shares of any one Class held by any Member may at the Member's request be cancelled and a single new certificate for such Shares issued in lieu on payment (if the Directors shall so require) of one dollar (US\$1.00) or such smaller sum as the Directors shall determine.
23. If a share certificate shall be damaged or defaced or alleged to have been lost, stolen or destroyed, a new certificate representing the same Shares may be issued to the relevant Member upon request, subject to delivery up of the old certificate or (if alleged to have been lost, stolen or destroyed) compliance with such conditions as to evidence and indemnity and the payment of out-of-pocket expenses of the Company in connection with the request as the Directors may think fit.

24. In the event that Shares are held jointly by several Persons, any request may be made by any one of the joint holders and if so made shall be binding on all of the joint holders.

FRACTIONAL SHARES

25. The Directors may issue fractions of a Share and, if so issued, a fraction of a Share shall be subject to and carry the corresponding fraction of liabilities (whether with respect to nominal or par value, premium, contributions, calls or otherwise), limitations, preferences, privileges, qualifications, restrictions, rights (including, without prejudice to the generality of the foregoing, voting and participation rights) and other attributes of a whole Share. If more than one fraction of a Share of the same Class is issued to or acquired by the same Shareholder such fractions shall be accumulated.

LIEN

26. The Company has a first and paramount lien on every Share (whether or not fully paid) for all amounts (whether presently payable or not) payable at a fixed time or called in respect of that Share. The Company also has a first and paramount lien on every Share registered in the name of a Person indebted or under liability to the Company (whether he is the sole registered holder of a Share or one of two or more joint holders) for all amounts owing by him or his estate to the Company (whether or not presently payable). The Directors may at any time declare a Share to be wholly or in part exempt from the provisions of this Article. The Company's lien on a Share extends to any amount payable in respect of it, including but not limited to dividends.
27. The Company may sell, in such manner as the Directors in their absolute discretion think fit, any Share on which the Company has a lien, but no sale shall be made unless an amount in respect of which the lien exists is presently payable nor until the expiration of fourteen calendar days after a notice in writing, demanding payment of such part of the amount in respect of which the lien exists as is presently payable, has been given to the registered holder for the time being of the Share, or the Persons entitled thereto by reason of his death or bankruptcy.
28. For giving effect to any such sale the Directors may authorise a Person to transfer the Shares sold to the purchaser thereof. The purchaser shall be registered as the holder of the Shares comprised in any such transfer and he shall not be bound to see to the application of the purchase money, nor shall his title to the Shares be affected by any irregularity or invalidity in the proceedings in reference to the sale.
29. The proceeds of the sale after deduction of expenses, fees and commission incurred by the Company shall be received by the Company and applied in payment of such part of the amount in respect of which the lien exists as is presently payable, and the residue shall (subject to a like lien for sums not presently payable as existed upon the Shares prior to the sale) be paid to the Person entitled to the Shares immediately prior to the sale.

CALLS ON SHARES

30. Subject to the terms of the allotment, the Directors may from time to time make calls upon the Shareholders in respect of any moneys unpaid on their Shares, and each Shareholder shall (subject to receiving at least fourteen calendar days' notice specifying the time or times of payment) pay to the Company at the time or times so specified the amount called on such Shares. A call shall be deemed to have been made at the time when the resolution of the Directors authorising such call was passed.
31. The joint holders of a Share shall be jointly and severally liable to pay calls in respect thereof.

32. If a sum called in respect of a Share is not paid before or on the day appointed for payment thereof, the Person from whom the sum is due shall pay interest upon the sum at the rate of eight percent per annum from the day appointed for the payment thereof to the time of the actual payment, but the Directors shall be at liberty to waive payment of that interest wholly or in part.
33. The provisions of these Articles as to the liability of joint holders and as to payment of interest shall apply in the case of non-payment of any sum which, by the terms of issue of a Share, becomes payable at a fixed time, whether on account of the amount of the Share, or by way of premium, as if the same had become payable by virtue of a call duly made and notified.
34. The Directors may make arrangements with respect to the issue of partly paid Shares for a difference between the Shareholders, or the particular Shares, in the amount of calls to be paid and in the times of payment.
35. The Directors may, if they think fit, receive from any Shareholder willing to advance the same all or any part of the moneys uncalled and unpaid upon any partly paid Shares held by him, and upon all or any of the moneys so advanced may (until the same would, but for such advance, become presently payable) pay interest at such rate (not exceeding without the sanction of an Ordinary Resolution, eight percent per annum) as may be agreed upon between the Shareholder paying the sum in advance and the Directors. No such sum paid in advance of calls shall entitle the Member paying such sum to any portion of a dividend declared in respect of any period prior to the date upon which such sum would, but for such payment, become presently payable.

FORFEITURE OF SHARES

36. If a Shareholder fails to pay any call or instalment of a call in respect of partly paid Shares on the day appointed for payment, the Directors may, at any time thereafter during such time as any part of such call or instalment remains unpaid, serve a notice on him requiring payment of so much of the call or instalment as is unpaid, together with any interest which may have accrued.
37. The notice shall name a further day (not earlier than the expiration of fourteen calendar days from the date of the notice) on or before which the payment required by the notice is to be made, and shall state that in the event of non-payment at or before the time appointed, the Shares in respect of which the call was made will be liable to be forfeited.
38. If the requirements of any such notice as aforesaid are not complied with, any Share in respect of which the notice has been given may at any time thereafter, before the payment required by notice has been made, be forfeited by a resolution of the Directors to that effect.
39. A forfeited Share may be sold or otherwise disposed of on such terms and in such manner as the Directors think fit, and at any time before a sale or disposition the forfeiture may be cancelled on such terms as the Directors think fit.
40. A Person whose Shares have been forfeited shall cease to be a Shareholder in respect of the forfeited Shares, but shall, notwithstanding, remain liable to pay to the Company all moneys which at the date of forfeiture were payable by him to the Company in respect of the Shares forfeited, but his liability shall cease if and when the Company receives payment in full of the amount unpaid on the Shares forfeited.
41. A certificate in writing under the hand of a Director that a Share has been duly forfeited on a date stated in the certificate shall be conclusive evidence of the facts in the declaration as against all Persons claiming to be entitled to the Share.

42. The Company may receive the consideration, if any, given for a Share on any sale or disposition thereof pursuant to the provisions of these Articles as to forfeiture and may execute a transfer of the Share in favour of the Person to whom the Share is sold or disposed of and that Person shall be registered as the holder of the Share and shall not be bound to see to the application of the purchase money, if any, nor shall his title to the Shares be affected by any irregularity or invalidity in the proceedings in reference to the disposition or sale.
43. The provisions of these Articles as to forfeiture shall apply in the case of non-payment of any sum which by the terms of issue of a Share becomes due and payable, whether on account of the amount of the Share, or by way of premium, as if the same had been payable by virtue of a call duly made and notified.

TRANSFER OF SHARES

44. The instrument of transfer of any Share shall be in writing and in any usual or common form or such other form as the Directors may, in their absolute discretion, approve and be executed by or on behalf of the transferor and if in respect of a nil or partly paid up Share, or if so required by the Directors, shall also be executed on behalf of the transferee and shall be accompanied by the certificate (if any) of the Shares to which it relates and such other evidence as the Directors may reasonably require to show the right of the transferor to make the transfer. The transferor shall be deemed to remain a Shareholder until the name of the transferee is entered in the Register in respect of the relevant Shares.
45. (a) The Directors may in their absolute discretion decline to register any transfer of Shares which is not fully paid up or on which the Company has a lien.
- (b) The Directors may also decline to register any transfer of any Share unless:
- (i) the instrument of transfer is lodged with the Company, accompanied by the certificate for the Shares to which it relates and such other evidence as the Board may reasonably require to show the right of the transferor to make the transfer;
 - (ii) the instrument of transfer is in respect of only one Class of Shares;
 - (iii) the instrument of transfer is properly stamped, if required;
 - (iv) in the case of a transfer to joint holders, the number of joint holders to whom the Share is to be transferred does not exceed four; and
 - (v) a fee of such maximum sum as the Designated Stock Exchange may determine to be payable, or such lesser sum as the Board of Directors may from time to time require, is paid to the Company in respect thereof.
46. The registration of transfers may, on ten calendar days' notice being given by advertisement in such one or more newspapers, by electronic means or by any other means in accordance with the Designated Stock Exchange Rules, be suspended and the Register closed at such times and for such periods as the Directors may, in their absolute discretion, from time to time determine, provided always that such registration of transfer shall not be suspended nor the Register closed for more than thirty calendar days in any calendar year.
47. All instruments of transfer that are registered shall be retained by the Company. If the Directors refuse to register a transfer of any Shares, they shall within three calendar months after the date on which the transfer was lodged with the Company send notice of the refusal to each of the transferor and the transferee.

TRANSMISSION OF SHARES

48. The legal personal representative of a deceased sole holder of a Share shall be the only Person recognised by the Company as having any title to the Share. In the case of a Share registered in the name of two or more holders, the survivors or survivor, or the legal personal representatives of the deceased survivor, shall be the only Person recognised by the Company as having any title to the Share.
49. Any Person becoming entitled to a Share in consequence of the death or bankruptcy of a Shareholder shall, upon such evidence being produced as may from time to time be required by the Directors, have the right either to be registered as a Shareholder in respect of the Share or, instead of being registered himself, to make such transfer of the Share as the deceased or bankrupt Person could have made; but the Directors shall, in either case, have the same right to decline or suspend registration as they would have had in the case of a transfer of the Share by the deceased or bankrupt Person before the death or bankruptcy.
50. A Person becoming entitled to a Share by reason of the death or bankruptcy of a Shareholder shall be entitled to the same dividends and other advantages to which he would be entitled if he were the registered Shareholder, except that he shall not, before being registered as a Shareholder in respect of the Share, be entitled in respect of it to exercise any right conferred by membership in relation to meetings of the Company, provided however, that the Directors may at any time give notice requiring any such Person to elect either to be registered himself or to transfer the Share, and if the notice is not complied with within ninety calendar days, the Directors may thereafter withhold payment of all dividends, bonuses or other monies payable in respect of the Share until the requirements of the notice have been complied with.

REGISTRATION OF EMPOWERING INSTRUMENTS

51. The Company shall be entitled to charge a fee not exceeding one dollar (US\$1.00) on the registration of every probate, letters of administration, certificate of death or marriage, power of attorney, notice in lieu of distringas, or other instrument.

ALTERATION OF SHARE CAPITAL

52. The Company may from time to time by Ordinary Resolution increase the share capital by such sum, to be divided into Shares of such Classes and amount, as the resolution shall prescribe.
53. The Company may by Ordinary Resolution:
 - (a) increase its share capital by new Shares of such amount as it thinks expedient;
 - (b) consolidate and divide all or any of its share capital into Shares of a larger amount than its existing Shares;
 - (c) subdivide its Shares, or any of them, into Shares of an amount smaller than that fixed by the Memorandum, provided that in the subdivision the proportion between the amount paid and the amount, if any, unpaid on each reduced Share shall be the same as it was in case of the Share from which the reduced Share is derived; and
 - (d) cancel any Shares that, at the date of the passing of the resolution, have not been taken or agreed to be taken by any Person and diminish the amount of its share capital by the amount of the Shares so cancelled.
54. The Company may by Special Resolution reduce its share capital and any capital redemption reserve in any manner authorised by the Company Law.

REDEMPTION, PURCHASE AND SURRENDER OF SHARES

55. Subject to the provisions of the Companies Law and these Articles, the Company may:
- (a) issue Shares that are to be redeemed or are liable to be redeemed at the option of the Shareholder or the Company. The redemption of Shares shall be effected in such manner and upon such terms as may be determined, before the issue of such Shares, by either the Board or by the Shareholders by Special Resolution;
 - (b) purchase its own Shares (including any redeemable Shares) on such terms and in such manner and terms as have been approved by the Board or by the Members by Ordinary Resolution, or are otherwise authorised by these Articles; and
 - (c) make a payment in respect of the redemption or purchase of its own Shares in any manner permitted by the Companies Law, including out of capital.
56. The purchase of any Share shall not oblige the Company to purchase any other Share other than as may be required pursuant to applicable law and any other contractual obligations of the Company.
57. The holder of the Shares being purchased shall be bound to deliver up to the Company the certificate(s) (if any) thereof for cancellation and thereupon the Company shall pay to him the purchase or redemption monies or consideration in respect thereof.
58. The Directors may accept the surrender for no consideration of any fully paid Share.

TREASURY SHARES

59. The Directors may, prior to the purchase, redemption or surrender of any Share, determine that such Share shall be held as a Treasury Share.
60. The Directors may determine to cancel a Treasury Share or transfer a Treasury Share on such terms as they think proper (including, without limitation, for nil consideration).

GENERAL MEETINGS

61. All general meetings other than annual general meetings shall be called extraordinary general meetings.
62. (a) The Company may (but shall not be obliged to) in each calendar year hold a general meeting as its annual general meeting and shall specify the meeting as such in the notices calling it. The annual general meeting shall be held at such time and place as may be determined by the Directors.
- (b) At these meetings the report of the Directors (if any) shall be presented.
63. (a) The Chairman, the chief executive officer or the Directors (acting by a resolution of the Board) may call general meetings, and they shall on a Shareholders' requisition forthwith proceed to convene an extraordinary general meeting of the Company.
- (b) A Shareholders' requisition is a requisition of Members holding at the date of deposit of the requisition Shares which carry in aggregate not less than one-third of all votes attaching to all issued and outstanding Shares of the Company that as at the date of the deposit carry the right to vote at general meetings of the Company.

- (c) The requisition must state the objects of the meeting and must be signed by the requisitionists and deposited at the Registered Office, and may consist of several documents in like form each signed by one or more requisitionists.
- (d) If there are no Directors as at the date of the deposit of the Shareholders' requisition, or if the Directors do not within twenty-one (21) calendar days from the date of the deposit of the requisition duly proceed to convene a general meeting to be held within a further twenty-one calendar days, the requisitionists, or any of them representing more than one-half of the total voting rights of all of them, may themselves convene a general meeting, but any meeting so convened shall not be held after the expiration of three calendar months after the expiration of the said twenty-one calendar days.
- (e) A general meeting convened as aforesaid by requisitionists shall be convened in the same manner as nearly as possible as that in which general meetings are to be convened by Directors.

NOTICE OF GENERAL MEETINGS

- 64. At least seven (7) calendar days' notice shall be given for any general meeting. Every notice shall be exclusive of the day on which it is given or deemed to be given and of the day for which it is given and shall specify the place, the day and the hour of the meeting and the general nature of the business and shall be given in the manner hereinafter mentioned or in such other manner if any as may be prescribed by the Company, provided that a general meeting of the Company shall, whether or not the notice specified in this Article has been given and whether or not the provisions of these Articles regarding general meetings have been complied with, be deemed to have been duly convened if it is so agreed:
 - (a) in the case of an annual general meeting, by all the Shareholders (or their proxies) entitled to attend and vote thereat; and
 - (b) in the case of an extraordinary general meeting, by a majority of the Shareholders having a right to attend and vote at the meeting, present in person or by proxy or, in the case of a corporation or other non-natural person, by its duly authorised representative or proxy.
- 65. The accidental omission to give notice of a meeting to or the non-receipt of a notice of a meeting by any Shareholder shall not invalidate the proceedings at any meeting.

PROCEEDINGS AT GENERAL MEETINGS

- 66. No business except for the appointment of a chairman for the meeting shall be transacted at any general meeting unless a quorum of Shareholders is present at the time when the meeting proceeds to business. One or more Shareholders holding Shares which carry in aggregate (or representing by proxy) more than fifty per cent (50%) of all votes attaching to all Shares in issue and entitled to vote at such general meeting, present in person or by proxy or, if a corporation or other non-natural person, by its duly authorised representative, shall be a quorum for all purposes.
- 67. If within half an hour from the time appointed for the meeting a quorum is not present, the meeting shall be dissolved.
- 68. If the Directors wish to make this facility available for a specific general meeting or all general meetings of the Company, participation in any general meeting of the Company may be by means of a telephone or similar communication equipment by way of which all Persons participating in such meeting can communicate with each other and such participation shall be deemed to constitute presence in person at the meeting.

69. The Chairman, if any, shall preside as chairman at every general meeting of the Company.
70. If there is no such Chairman, or if at any general meeting he is not present within fifteen minutes after the time appointed for holding the meeting or is unwilling to act as chairman of the meeting, any Director or Person nominated by the Directors shall preside as chairman of that meeting, failing which the Shareholders present in person or by proxy shall choose any Person present to be chairman of that meeting.
71. The chairman may with the consent of any general meeting at which a quorum is present (and shall if so directed by the meeting) adjourn a meeting from time to time and from place to place, but no business shall be transacted at any adjourned meeting other than the business left unfinished at the meeting from which the adjournment took place. When a meeting, or adjourned meeting, is adjourned for fourteen calendar days or more, notice of the adjourned meeting shall be given as in the case of an original meeting. Save as aforesaid it shall not be necessary to give any notice of an adjournment or of the business to be transacted at an adjourned meeting.
72. The Directors may cancel or postpone any duly convened general meeting at any time prior to such meeting, except for general meetings requisitioned by the Shareholders in accordance with these Articles, for any reason or for no reason, upon notice in writing to Shareholders. A postponement may be for a stated period of any length or indefinitely as the Directors may determine.
73. At any general meeting a resolution put to the vote of the meeting shall be decided on a show of hands, unless a poll is (before or on the declaration of the result of the show of hands) demanded by the chairman of the meeting or any Shareholder holding not less than ten per cent (10%) of the votes attaching to the Shares present in person or by proxy, and unless a poll is so demanded, a declaration by the chairman of the meeting that a resolution has, on a show of hands, been carried, or carried unanimously, or by a particular majority, or lost, and an entry to that effect in the book of the proceedings of the Company, shall be conclusive evidence of the fact, without proof of the number or proportion of the votes recorded in favour of, or against, that resolution.
74. If a poll is duly demanded it shall be taken in such manner as the chairman of the meeting directs, and the result of the poll shall be deemed to be the resolution of the meeting at which the poll was demanded.
75. All questions submitted to a meeting shall be decided by an Ordinary Resolution except where a greater majority is required by these Articles or by the Companies Law. In the case of an equality of votes, whether on a show of hands or on a poll, the chairman of the meeting at which the show of hands takes place or at which the poll is demanded, shall be entitled to a second or casting vote.
76. A poll demanded on the election of a chairman of the meeting or on a question of adjournment shall be taken forthwith. A poll demanded on any other question shall be taken at such time as the chairman of the meeting directs.

VOTES OF SHAREHOLDERS

77. Subject to any rights and restrictions for the time being attached to any Share, on a show of hands every Shareholder present in person or by proxy (or, if a corporation or other non-natural person, by its duly authorised representative or proxy) shall, at a general meeting of the Company, each have one vote and on a poll every Shareholder present in person or by proxy (or, if a corporation or other non-natural person, by its duly authorised representative or proxy) shall have one (1) vote for each Class A Ordinary Share and fifteen (15) votes for each Class B Ordinary Share of which he is the holder.
78. In the case of joint holders the vote of the senior who tenders a vote whether in person or by proxy (or, if a corporation or other non-natural person, by its duly authorised representative or proxy) shall be accepted to the exclusion of the votes of the other joint holders and for this purpose seniority shall be determined by the order in which the names stand in the Register.
79. Shares carrying the right to vote that are held by a Shareholder of unsound mind, or in respect of whom an order has been made by any court having jurisdiction in lunacy, may be voted, whether on a show of hands or on a poll, by his committee, or other Person in the nature of a committee appointed by that court, and any such committee or other Person may vote in respect of such Shares by proxy.
80. No Shareholder shall be entitled to vote at any general meeting of the Company unless all calls, if any, or other sums presently payable by him in respect of Shares carrying the right to vote held by him have been paid.
81. On a poll votes may be given either personally or by proxy.
82. Each Shareholder, other than a recognised clearing house (or its nominee(s)) or depositary (or its nominee(s)), may only appoint one proxy on a show of hand. The instrument appointing a proxy shall be in writing under the hand of the appointor or of his attorney duly authorised in writing or, if the appointor is a corporation, either under Seal or under the hand of an officer or attorney duly authorised. A proxy need not be a Shareholder.
83. An instrument appointing a proxy may be in any usual or common form or such other form as the Directors may approve.
84. The instrument appointing a proxy shall be deposited at the Registered Office or at such other place as is specified for that purpose in the notice convening the meeting, or in any instrument of proxy sent out by the Company:
 - (a) not less than 48 hours before the time for holding the meeting or adjourned meeting at which the person named in the instrument proposes to vote; or

Subject to any regulations imposed on it by the Directors, questions arising at any meeting shall be determined by a majority of votes of the committee members present and in case of an equality of votes the chairman shall have a second or casting vote.
123. All acts done by any meeting of the Directors or of a committee of Directors, or by any Person acting as a Director, shall notwithstanding that it be afterwards discovered that there was some defect in the appointment of any such Director or Person acting as aforesaid, or that they or any of them were disqualified, be as valid as if every such Person had been duly appointed and was qualified to be a Director.

Without limiting the generality of the foregoing, the Directors may fix the value of such specific assets, may determine that cash payment shall be made to some Shareholders in lieu of specific assets and may vest any such specific assets in trustees on such terms as the Directors think fit.
130. Subject to any rights and restrictions for the time being attached to any Shares, all dividends shall be declared and paid according to the amounts paid up on the Shares, but if and for so long as nothing is paid up on any of the Shares dividends may be declared and paid according to the par value of the Shares. 155. No Indemnified Person shall be liable:
- (a) for the acts, receipts, neglects, defaults or omissions of any other Director or officer or agent of the Company; or
 - (b) for any loss on account of defect of title to any property of the Company; or
 - (c) on account of the insufficiency of any security in or upon which any money of the Company shall be invested; or
 - (d) for any loss incurred through any bank, broker or other similar Person; or

- (e) for any loss occasioned by any negligence, default, breach of duty, breach of trust, error of judgement or oversight on such Indemnified Person's part; or
- (f) for any loss, damage or misfortune whatsoever which may happen in or arise from the execution or discharge of the duties, powers, authorities, or discretions of such Indemnified Person's office or in relation thereto;

unless the same shall happen through such Indemnified Person's own dishonesty, willful default or fraud.

FINANCIAL YEAR

156. Unless the Directors otherwise prescribe, the financial year of the Company shall end on December 31st in each calendar year and shall begin on January 1st in each calendar year.

NON-RECOGNITION OF TRUSTS

157. No Person shall be recognised by the Company as holding any Share upon any trust and the Company shall not, unless required by law, be bound by or be compelled in any way to recognise (even when having notice thereof) any equitable, contingent, future or partial interest in any Share or (except only as otherwise provided by these Articles or as the Companies Law requires) any other right in respect of any Share except an absolute right to the entirety thereof in each Shareholder registered in the Register.

WINDING UP

158. If the Company shall be wound up the liquidator may, with the sanction of a Special Resolution of the Company and any other sanction required by the Companies Law, divide amongst the Members in species or in kind the whole or any part of the assets of the Company (whether they shall consist of property of the same kind or not) and may for that purpose value any assets and determine how the division shall be carried out as between the Members or different classes of Members. The liquidator may, with the like sanction, vest the whole or any part of such assets in trustees upon such trusts for the benefit of the Members as the liquidator, with the like sanction, shall think fit, but so that no Member shall be compelled to accept any asset upon which there is a liability.
159. If the Company shall be wound up, and the assets available for distribution amongst the Members shall be insufficient to repay the whole of the share capital, such assets shall be distributed so that, as nearly as may be, the losses shall be borne by the Members in proportion to the par value of the Shares held by them. If in a winding up the assets available for distribution amongst the Members shall be more than sufficient to repay the whole of the share capital at the commencement of the winding up, the surplus shall be distributed amongst the Members in proportion to the par value of the Shares held by them at the commencement of the winding up subject to a deduction from those Shares in respect of which there are monies due, of all monies payable to the Company for unpaid calls or otherwise. This Article is without prejudice to the rights of the holders of Shares issued upon special terms and conditions.

AMENDMENT OF ARTICLES OF ASSOCIATION

160. Subject to the Companies Law, the Company may at any time and from time to time by Special Resolution alter or amend these Articles in whole or in part.

CLOSING OF REGISTER OR FIXING RECORD DATE

161. For the purpose of determining those Shareholders that are entitled to receive notice of, attend or vote at any meeting of Shareholders or any adjournment thereof, or those Shareholders that are entitled to receive payment of any dividend, or in order to make a determination as to who is a Shareholder for any other purpose, the Directors may provide that the Register shall be closed for transfers for a stated period which shall not exceed in any case thirty calendar days in any calendar year.
162. In lieu of or apart from closing the Register, the Directors may fix in advance a date as the record date for any such determination of those Shareholders that are entitled to receive notice of, attend or vote at a meeting of the Shareholders and for the purpose of determining those Shareholders that are entitled to receive payment of any dividend the Directors may, at or within ninety calendar days prior to the date of declaration of such dividend, fix a subsequent date as the record date for such determination.
163. If the Register is not so closed and no record date is fixed for the determination of those Shareholders entitled to receive notice of, attend or vote at a meeting of Shareholders or those Shareholders that are entitled to receive payment of a dividend, the date on which notice of the meeting is posted or the date on which the resolution of the Directors declaring such dividend is adopted, as the case may be, shall be the record date for such determination of Shareholders. When a determination of those Shareholders that are entitled to receive notice of, attend or vote at a meeting of Shareholders has been made as provided in this Article, such determination shall apply to any adjournment thereof.

REGISTRATION BY WAY OF CONTINUATION

164. The Company may by Special Resolution resolve to be registered by way of continuation in a jurisdiction outside the Cayman Islands or such other jurisdiction in which it is for the time being incorporated, registered or existing. In furtherance of a resolution adopted pursuant to this Article, the Directors may cause an application to be made to the Registrar of Companies to deregister the Company in the Cayman Islands or such other jurisdiction in which it is for the time being incorporated, registered or existing and may cause all such further steps as they consider appropriate to be taken to effect the transfer by way of continuation of the Company.

ARTICLE 2. FORM OF RECEIPTS, DEPOSIT OF SHARES, DELIVERY, TRANSFER AND SURRENDER OF AMERICAN DEPOSITARY SHARES

SECTION 2.1. Form of Receipts; Registration and Transferability of American Depositary Shares.

Definitive Receipts shall be substantially in the form set forth in Exhibit A to this Deposit Agreement, with appropriate insertions, modifications and omissions, as permitted under this Deposit Agreement. No Receipt shall be entitled to any benefits under this Deposit Agreement or be valid or obligatory for any purpose, unless that Receipt has been (i) executed by the Depositary by the manual signature of a duly authorized officer of the Depositary or (ii) executed by the facsimile signature of a duly authorized officer of the Depositary and countersigned by the manual signature of a duly authorized signatory of the Depositary or the Registrar or a co-registrar. The Depositary shall maintain books on which (x) each Receipt so executed and delivered as provided in this Deposit Agreement and each transfer of that Receipt and (y) all American Depositary Shares delivered as provided in this Deposit Agreement and all registrations of transfer of American Depositary Shares, shall be registered. A Receipt bearing the facsimile signature of a person that was at any time a proper officer of the Depositary shall, subject to the other provisions of this paragraph, bind the Depositary, even if that person was not a proper officer of the Depositary on the date of issuance of that Receipt.

The Receipts and statements confirming registration of American Depositary Shares may have incorporated in or attached to them such legends or recitals or modifications not inconsistent with the provisions of this Deposit Agreement as may be required by the Depositary or required to comply with any applicable law or regulations thereunder or with the rules and regulations of any securities exchange upon which American Depositary Shares may be listed or to conform with any usage with respect thereto, or to indicate any special limitations or restrictions to which any particular Receipts and American Depositary Shares are subject by reason of the date of issuance of the underlying Deposited Securities or otherwise.

American Depositary Shares evidenced by a Receipt, when the Receipt is properly endorsed or accompanied by proper instruments of transfer, shall be transferable as certificated registered securities under the laws of the State of New York. American Depositary Shares not evidenced by Receipts shall be transferable as uncertificated registered securities under the laws of the State of New York. The Depositary, notwithstanding any notice to the contrary, may treat the Owner of American Depositary Shares as the absolute owner thereof for the purpose of determining the person entitled to distribution of dividends or other distributions or to any notice provided for in this Deposit Agreement and for all other purposes, and neither the Depositary nor the Company shall have any obligation or be subject to any liability under this Deposit Agreement to any Holder of American Depositary Shares (but only to the Owner of those American Depositary Shares).

SECTION 2.2. Deposit of Shares.

Subject to the terms and conditions of this Deposit Agreement, Shares or evidence of rights to receive Shares may be deposited under this Deposit Agreement by delivery thereof to any Custodian, accompanied by any appropriate instruments or instructions for transfer, or endorsement, in form satisfactory to the Custodian.

As conditions of accepting Shares for deposit, the Depositary may require (i) any certification required by the Depositary or the Custodian in accordance with the provisions of this Deposit Agreement, (ii) a written order directing the Depositary to deliver to, or upon the written order of, the person or persons stated in that order American Depositary Shares representing those deposited Shares, (iii) evidence satisfactory to the Depositary that those Shares have been re-registered in the books of the Company or the Foreign Registrar in the name of the Depositary, a Custodian or a nominee of the Depositary or a Custodian, (iv) evidence satisfactory to the Depositary that any necessary approval for the transfer or deposit has been granted by any governmental body in each applicable jurisdiction and (v) an agreement or assignment, or other instrument satisfactory to the Depositary, that provides for the prompt transfer to the Custodian of any dividend, or right to subscribe for additional Shares or to receive other property, that any person in whose name those Shares are or have been recorded may thereafter receive upon or in respect of those Shares, or, in lieu thereof, such agreement of indemnity or other agreement as shall be satisfactory to the Depositary.

At the request and risk and expense of a person proposing to deposit Shares, and for the account of that person, the Depositary may receive certificates for Shares to be deposited, together with the other instruments specified in this Section, for the purpose of forwarding those Share certificates to the Custodian for deposit under this Deposit Agreement.

The Depository shall instruct each Custodian that, upon each delivery to a Custodian of a certificate or certificates for Shares to be deposited under this Deposit Agreement, together with the other documents specified in this Section, that Custodian shall, as soon as transfer and recordation can be accomplished, present that certificate or those certificates to the Company or the Foreign Registrar, if applicable, for transfer and recordation of the Shares being deposited in the name of the Depository or its nominee or that Custodian or its nominee.

Deposited Securities shall be held by the Depository or by a Custodian for the account and to the order of the Depository or at such other place or places as the Depository shall determine.

SECTION 2.3. Delivery of American Depositary Shares.

The Depository shall instruct each Custodian that, upon receipt by that Custodian of any deposit pursuant to Section 2.2, together with the other documents or evidence required under that Section, that Custodian shall notify the Depository of that deposit and the person or persons to whom or upon whose written order American Depositary Shares are deliverable in respect thereof. Upon receiving a notice of a deposit from a Custodian, or upon the receipt of Shares or evidence of the right to receive Shares by the Depository, the Depository, subject to the terms and conditions of this Deposit Agreement, shall deliver, to or upon the order of the person or persons entitled thereto, the number of American Depositary Shares issuable in respect of that deposit, but only upon payment to the Depository of the fees and expenses of the Depository for the delivery of those American Depositary Shares as provided in Section 5.9, and of all taxes and governmental charges and fees payable in connection with that deposit and the transfer of the deposited Shares. However, the Depository shall deliver only whole numbers of American Depositary Shares.

SECTION 2.4. Registration of Transfer of American Depositary Shares; Combination and Split-up of Receipts; Interchange of Certificated and Uncertificated American Depositary Shares.

The Depository, subject to the terms and conditions of this Deposit Agreement, shall register a transfer of American Depositary Shares on its transfer books upon (i) in the case of certificated American Depositary Shares, surrender of the Receipt evidencing those American Depositary Shares, by the Owner or by a duly authorized attorney, properly endorsed or accompanied by proper instruments of transfer or (ii) in the case of uncertificated American Depositary Shares, receipt from the Owner of a proper instruction (including, for the avoidance of doubt, instructions through DRS and Profile as provided in Section 2.9), and, in either case, duly stamped as may be required by the laws of the State of New York and of the United States of America. Upon registration of a transfer, the Depository shall deliver the transferred American Depositary Shares to or upon the order of the person entitled thereto.

The Depository, subject to the terms and conditions of this Deposit Agreement, shall upon surrender of a Receipt or Receipts for the purpose of effecting a split-up or combination of such Receipt or Receipts, execute and deliver a new Receipt or Receipts for any authorized number of American Depositary Shares requested, evidencing the same aggregate number of American Depositary Shares as the Receipt or Receipts surrendered.

The Depository, upon surrender of certificated American Depositary Shares for the purpose of exchanging for uncertificated American Depositary Shares, shall cancel the Receipt evidencing those certificated American Depositary Shares and send the Owner a statement confirming that the Owner is the owner of the same number of uncertificated American Depositary Shares. The Depository, upon receipt of a proper instruction (including, for the avoidance of doubt, instructions through DRS and Profile as provided in Section 2.9) from the Owner of uncertificated American Depositary Shares for the purpose of exchanging for certificated American Depositary Shares, shall cancel those uncertificated American Depositary Shares and register and deliver to the Owner a Receipt evidencing the same number of certificated American Depositary Shares.

The Depository may appoint one or more co-transfer agents for the purpose of effecting registration of transfers of American Depositary Shares and combinations and split-ups of Receipts at designated transfer offices on behalf of the Depository. In carrying out its functions, a co-transfer agent may require evidence of authority and compliance with applicable laws and other requirements by Owners or persons entitled to American Depositary Shares and will be entitled to protection and indemnity to the same extent as the Depository.

SECTION 2.5. Surrender of American Depositary Shares and Withdrawal of Deposited Securities.

Upon surrender of American Depositary Shares for the purpose of withdrawal of the Deposited Securities represented thereby and payment of the fee of the Depository for the surrender of American Depositary Shares as provided in Section 5.9 and payment of all taxes and governmental charges payable in connection with that surrender and withdrawal of the Deposited Securities, and subject to the terms and conditions of this Deposit Agreement, the Owner of those American Depositary Shares shall be entitled to delivery (to the extent delivery can then be lawfully and practicably made), to or as instructed by that Owner, of the amount of Deposited Securities at the time represented by those American Depositary Shares, but not any money or other property as to which a record date for distribution to Owners has passed (since money or other property of that kind will be delivered or paid on the scheduled payment date to the Owner as of that record date), and except that the Depository shall not be required to accept surrender of American Depositary Shares for the purpose of withdrawal to the extent it would require delivery of a fraction of a Deposited Security. That delivery shall be made, as provided in this Section, without unreasonable delay.

As a condition of accepting a surrender of American Depositary Shares for the purpose of withdrawal of Deposited Securities, the Depository may require (i) that each surrendered Receipt be properly endorsed in blank or accompanied by proper instruments of transfer in blank and (ii) that the surrendering Owner execute and deliver to the Depository a written order directing the Depository to cause the Deposited Securities being withdrawn to be delivered to or upon the written order of a person or persons designated in that order.

Thereupon, the Depository shall direct the Custodian to deliver, subject to Sections 2.6, 3.1 and 3.2, the other terms and conditions of this Deposit Agreement and local market rules and practices, to the surrendering Owner or to or upon the written order of the person or persons designated in the order delivered to the Depository as above provided, the amount of Deposited Securities represented by the surrendered American Depositary Shares, and the Depository may charge the surrendering Owner a fee and its expenses for giving that direction by cable (including SWIFT) or facsimile transmission.

If Deposited Securities are delivered physically upon surrender of American Depositary Shares for the purpose of withdrawal, that delivery will be made at the Custodian's office, except that, at the request, risk and expense of an Owner surrendering American Depositary Shares for withdrawal of Deposited Securities, and for the account of that Owner, the Depository shall direct the Custodian to forward any cash or other property comprising, and forward a certificate or certificates, if applicable, and other proper documents of title, if any, for, the Deposited Securities represented by the surrendered American Depositary Shares to the Depository for delivery at the Depository's Office or to another address specified in the order received from the surrendering Owner.

SECTION 2.6. Limitations on Delivery, Registration of Transfer and Surrender of American Depositary Shares.

As a condition precedent to the delivery, registration of transfer or surrender of any American Depositary Shares or split-up or combination of any Receipt or withdrawal of any Deposited Securities, the Depository, Custodian or Registrar may require payment from the depositor of Shares or the presenter of the Receipt or instruction for registration of transfer or surrender of American Depositary Shares not evidenced by a Receipt of a sum sufficient to reimburse it for any tax or other governmental charge and any stock transfer or registration fee with respect thereto (including any such tax or charge and fee with respect to Shares being deposited or withdrawn) and payment of any applicable fees as provided in this Deposit Agreement, may require the production of proof satisfactory to it as to the identity and genuineness of any signature and may also require compliance with any regulations the Depository may establish consistent with the provisions of this Deposit Agreement, including, without limitation, this Section 2.6.

The Depositary may refuse to accept deposits of Shares for delivery of American Depositary Shares or to register transfers of American Depositary Shares in particular instances, or may suspend deposits of Shares or registration of transfer generally, whenever it or the Company considers it necessary or advisable to do so. The Depositary may refuse surrenders of American Depositary Shares for the purpose of withdrawal of Deposited Securities in particular instances, or may suspend surrenders for the purpose of withdrawal generally, but, notwithstanding anything to the contrary in this Deposit Agreement, only for (i) temporary delays caused by closing of the Depositary's register or the register of holders of Shares maintained by the Company or the Foreign Registrar, or the deposit of Shares, in connection with voting at a shareholders' meeting or the payment of dividends, (ii) the payment of fees, taxes and similar charges, (iii) compliance with any U.S. or foreign laws or governmental regulations relating to the American Depositary Shares or to the withdrawal of the Deposited Securities or (iv) any other reason that, at the time, is specified under paragraph I(A)(1) of the General Instructions to Form F-6 under the Securities Act of 1993 or any successor to that provision.

The Depositary shall not knowingly accept for deposit under this Deposit Agreement any Shares that, at the time of deposit, are Restricted Securities.

SECTION 2.7. Lost Receipts, etc.

If a Receipt is mutilated, destroyed, lost or stolen, the Depositary shall deliver to the Owner the American Depositary Shares evidenced by that Receipt in uncertificated form or, if requested by the Owner, execute and deliver a new Receipt of like tenor in exchange and substitution for such mutilated Receipt, upon surrender and cancellation of that mutilated Receipt, or in lieu of and in substitution for that destroyed, lost or stolen Receipt. However, before the Depositary will deliver American Depositary Shares in uncertificated form or execute and deliver a new Receipt, in substitution for a destroyed, lost or stolen Receipt, the Owner must (a) file with the Depositary (i) a request for that replacement before the Depositary has notice that the Receipt has been acquired by a bona fide purchaser and (ii) a sufficient indemnity bond and (b) satisfy any other reasonable requirements imposed by the Depositary.

SECTION 2.8. Cancellation and Destruction of Surrendered Receipts.

The Depositary shall cancel all Receipts surrendered to it and is authorized to destroy Receipts so cancelled.

SECTION 2.9. DTC Direct Registration System and Profile Modification System.

(a) Notwithstanding the provisions of Section 2.4, the parties acknowledge that DTC's Direct Registration System ("DRS") and Profile Modification System ("Profile") apply to the American Depositary Shares upon acceptance thereof to DRS by DTC. DRS is the system administered by DTC that facilitates interchange between registered holding of uncertificated securities and holding of security entitlements in those securities through DTC and a DTC participant. Profile is a required feature of DRS that allows a DTC participant, claiming to act on behalf of an Owner of American Depositary Shares, to direct the Depositary to register a transfer of those American Depositary Shares to DTC or its nominee and to deliver those American Depositary Shares to the DTC account of that DTC participant without receipt by the Depositary of prior authorization from the Owner to register that transfer.

(b) In connection with DRS/Profile, the parties acknowledge that the Depository will not determine whether the DTC participant that is claiming to be acting on behalf of an Owner in requesting a registration of transfer and delivery as described in paragraph (a) above has the actual authority to act on behalf of that Owner (notwithstanding any requirements under the Uniform Commercial Code). For the avoidance of doubt, the provisions of Sections 5.3 and 5.8 apply to the matters arising from the use of the DRS/Profile. The parties agree that the Depository's reliance on and compliance with instructions received by the Depository through the DRS/Profile system and otherwise in accordance with this Deposit Agreement shall not constitute negligence or bad faith on the part of the Depository.

ARTICLE 3. CERTAIN OBLIGATIONS OF OWNERS AND HOLDERS OF AMERICAN DEPOSITARY SHARES

SECTION 3.1. Filing Proofs, Certificates and Other Information.

Any person presenting Shares for deposit or any Owner or Holder may be required from time to time to file with the Depository or the Custodian such proof of citizenship or residence, exchange control approval, or such information relating to the registration on the books of the Company or the Foreign Registrar, if applicable, to execute such certificates and to make such representations and warranties, as the Depository may deem necessary or proper. The Depository may withhold the delivery or registration of transfer of American Depositary Shares, the distribution of any dividend or other distribution or of the proceeds thereof or the delivery of any Deposited Securities until that proof or other information is filed or those certificates are executed or those representations and warranties are made. The Depository shall provide the Company, upon the Company's written request and at the Company's expense, as promptly as practicable, with copies of any information or other materials that it receives pursuant to this Section 3.1, to the extent that disclosure is permitted under applicable law.

SECTION 3.2. Liability of Owner for Taxes.

If any tax or other governmental charge shall become payable by the Custodian or the Depository with respect to or in connection with any American Depositary Shares or any Deposited Securities represented by any American Depositary Shares or in connection with a transaction to which Section 4.8 applies, that tax or other governmental charge shall be payable by the Owner of those American Depositary Shares to the Depository. The Depository may refuse to register any transfer of those American Depositary Shares or any withdrawal of Deposited Securities represented by those American Depositary Shares until that payment is made, and may withhold any dividends or other distributions or the proceeds thereof, or may sell for the account of the Owner any part or all of the Deposited Securities represented by those American Depositary Shares and apply those dividends or other distributions or the net proceeds of any sale of that kind in payment of that tax or other governmental charge but, even after a sale of that kind, the Owner of those American Depositary Shares shall remain liable for any deficiency. The Depository shall distribute any net proceeds of a sale made under this Section that are not used to pay taxes or governmental charges to the Owners entitled to them in accordance with Section 4.1. If the number of Shares represented by each American Depositary Share decreases as a result of a sale of Deposited Securities under this Section, the Depository may call for surrender of the American Depositary Shares to be exchanged on a mandatory basis for a lesser number of American Depositary Shares and may sell American Depositary Shares to the extent necessary to avoid distributing fractions of American Depositary Shares in that exchange and distribute the net proceeds of that sale to the Owners entitled to them.

SECTION 3.3. Warranties on Deposit of Shares.

Every person depositing Shares under this Deposit Agreement shall be deemed thereby to represent and warrant that those Shares and each certificate therefor, if applicable, are validly issued, fully paid and nonassessable and were not issued in violation of any preemptive or similar rights of the holders of outstanding securities of the Company and that the person making that deposit is duly authorized so to do. Every depositing person shall also be deemed to represent that the Shares, at the time of deposit, are not Restricted Securities. All representations and warranties deemed made under this Section shall survive the deposit of Shares and delivery of American Depositary Shares.

SECTION 3.4. Disclosure of Interests.

When required in order to comply with applicable laws and regulations or the articles of association or similar document of the Company, the Company may from time to time request each Owner and Holder to provide to the Depository information relating to: (a) the capacity in which it holds American Depositary Shares, (b) the identity of any Holders or other persons or entities then or previously interested in those American Depositary Shares and the nature of those interests and (c) any other matter where disclosure of such matter is required for that compliance. Each Owner and Holder agrees to provide all information known to it in response to a request made pursuant to this Section. Each Holder consents to the disclosure by the Depository and the Owner or any other Holder through which it holds American Depositary Shares, directly or indirectly, of all information responsive to a request made pursuant to this Section relating to that Holder that is known to that Owner or other Holder. The Depository agrees to use reasonable efforts to comply with written instructions requesting that the Depository forward any request authorized under this Section to the Owners and to forward to the Company any responses it receives in response to that request. The Depository may charge the Company a fee and its expenses for complying with requests under this Section 3.4.

ARTICLE 4. THE DEPOSITED SECURITIES

SECTION 4.1. Cash Distributions.

Whenever the Depositary receives any cash dividend or other cash distribution on Deposited Securities, the Depositary shall, subject to the provisions of Section 4.5, convert that dividend or other distribution into Dollars and distribute the amount thus received (net of the fees and expenses of the Depositary as provided in Section 5.9) to the Owners entitled thereto, in proportion to the number of American Depositary Shares representing those Deposited Securities held by them respectively; provided, however, that if the Custodian or the Depositary shall be required to withhold and does withhold from that cash dividend or other cash distribution an amount on account of taxes or other governmental charges, the amount distributed to the Owners of the American Depositary Shares representing those Deposited Securities shall be reduced accordingly. However, the Depositary will not pay any Owner a fraction of one cent, but will round each Owner's entitlement to the nearest whole cent.

Where the Company is the primary obligor for withholding, the Company or its agent will remit to the appropriate governmental agency in each applicable jurisdiction all amounts, if any, withheld by them in respect of taxes and owing to such agency. The Depositary or the Custodian will remit to the appropriate governmental agency in each applicable jurisdiction all amounts, if any, withheld by them in respect of taxes and owing to such agency.

If a cash distribution would represent a return of all or substantially all the value of the Deposited Securities underlying American Depositary Shares, the Depositary may require surrender of those American Depositary Shares and may require payment of or deduct the fee for surrender of American Depositary Shares (whether or not it is also requiring surrender of American Depositary Shares) as a condition of making that cash distribution. A distribution of that kind shall be a Termination Option Event.

SECTION 4.2. Distributions Other Than Cash, Shares or Rights.

Subject to the provisions of Sections 4.11 and 5.9, whenever the Depositary receives any distribution other than a distribution described in Section 4.1, 4.3 or 4.4 on Deposited Securities (but not in exchange for or in conversion or in lieu of Deposited Securities), the Depositary shall cause the securities or property received by it to be distributed to the Owners entitled thereto, after deduction or upon payment of any fees and expenses of the Depositary and any taxes or other governmental charges, in proportion to the number of American Depositary Shares representing such Deposited Securities held by them respectively, in any manner that the Depositary deems equitable and practicable for accomplishing that distribution (which may be a distribution of depositary shares representing the securities received); provided, however, that if in the opinion of the Depositary such distribution cannot be made proportionately among the Owners entitled thereto, or if for any other reason (including, but not limited to, any requirement that the Company or the Depositary withhold an amount on account of taxes or other governmental charges or that securities received must be registered under the Securities Act of 1933 in order to be distributed to Owners or Holders) the Depositary deems such distribution not to be lawful and feasible, the Depositary may adopt such other method as it may deem equitable and practicable for the purpose of effecting such distribution, including, but not limited to, the public or private sale of the securities or property thus received, or any part thereof, and distribution of the net proceeds of any such sale (net of the fees and expenses of the Depositary as provided in Section 5.9) to the Owners entitled thereto, all in the manner and subject to the conditions set forth in Section 4.1. The Depositary may withhold any distribution of securities under this Section 4.2 if it has not received satisfactory assurances from the Company that the distribution does not require registration under the Securities Act of 1933. The Depositary may sell, by public or private sale, an amount of securities or other property it would otherwise distribute under this Section 4.2 that is sufficient to pay its fees and expenses in respect of that distribution.

If a distribution under this Section 4.2 would represent a return of all or substantially all the value of the Deposited Securities underlying American Depositary Shares, the Depositary may require surrender of those American Depositary Shares and may require payment of or deduct the fee for surrender of American Depositary Shares (whether or not it is also requiring surrender of American Depositary Shares) as a condition of making that distribution. A distribution of that kind shall be a Termination Option Event.

SECTION 4.3. Distributions in Shares.

Whenever the Depositary receives any distribution on Deposited Securities consisting of a dividend in, or free distribution of, Shares, the Depositary may deliver to the Owners entitled thereto, in proportion to the number of American Depositary Shares representing those Deposited Securities held by them respectively, an aggregate number of American Depositary Shares representing the amount of Shares received as that dividend or free distribution, subject to the terms and conditions of this Deposit Agreement with respect to the deposit of Shares and issuance of American Depositary Shares, including withholding of any tax or governmental charge as provided in Section 4.11 and payment of the fees and expenses of the Depositary as provided in Section 5.9 (and the Depositary may sell, by public or private sale, an amount of the Shares received (or American Depositary Shares representing those Shares) sufficient to pay its fees and expenses in respect of that distribution). In lieu of delivering fractional American Depositary Shares, the Depositary may sell the amount of Shares represented by the aggregate of those fractions (or American Depositary Shares representing those Shares) and distribute the net proceeds, all in the manner and subject to the conditions described in Section 4.1. If and to the extent that additional American Depositary Shares are not delivered and Shares or American Depositary Shares are not sold, each American Depositary Share shall thenceforth also represent the additional Shares distributed on the Deposited Securities represented thereby.

If the Company declares a distribution in which holders of Deposited Securities have a right to elect whether to receive cash, Shares or other securities or a combination of those things, or a right to elect to have a distribution sold on their behalf, the Depositary may, after consultation with the Company, make that right of election available for exercise by Owners in any manner the Depositary considers to be lawful and practical. As a condition of making a distribution election right available to Owners, the Depositary may require satisfactory assurances from the Company that doing so does not require registration of any securities under the Securities Act of 1933.

SECTION 4.4. Rights.

(a) If rights are granted to the Depositary in respect of deposited Shares to purchase additional Shares or other securities, the Company and the Depositary shall endeavor to consult as to the actions, if any, the Depositary should take in connection with that grant of rights. The Depositary may, to the extent deemed by it to be lawful and practical (i) if requested in writing by the Company, grant to all or certain Owners rights to instruct the Depositary to purchase the securities to which the rights relate and deliver those securities or American Depositary Shares representing those securities to Owners, (ii) if requested in writing by the Company, deliver the rights to or to the order of certain Owners, or (iii) sell the rights to the extent practicable and distribute the net proceeds of that sale to Owners entitled to those proceeds. To the extent rights are not exercised, delivered or disposed of under (i), (ii) or (iii) above, the Depositary shall permit the rights to lapse unexercised.

(b) If the Depositary will act under (a)(i) above, the Company and the Depositary will enter into a separate agreement setting forth the conditions and procedures applicable to the particular offering. Upon instruction from an applicable Owner in the form the Depositary specified and upon payment by that Owner to the Depositary of an amount equal to the purchase price of the securities to be received upon the exercise of the rights, the Depositary shall, on behalf of that Owner, exercise the rights and purchase the securities. The purchased securities shall be delivered to, or as instructed by, the Depositary. The Depositary shall (i) deposit the purchased Shares under this Deposit Agreement and deliver American Depositary Shares representing those Shares to that Owner or (ii) deliver or cause the purchased Shares or other securities to be delivered to or to the order of that Owner. The Depositary will not act under (a)(i) above unless the offer and sale of the securities to which the rights relate are registered under the Securities Act of 1933 or the Depositary has received an opinion of a United States counsel that is satisfactory to it to the effect that those securities may be sold and delivered to the applicable Owners without registration under the Securities Act of 1933.

(c) If the Depositary will act under (a)(ii) above, the Company and the Depositary will enter into a separate agreement setting forth the conditions and procedures applicable to the particular offering. Upon (i) the request of an applicable Owner to deliver the rights allocable to the American Depositary Shares of that Owner to an account specified by that Owner to which the rights can be delivered and (ii) receipt of such documents as the Company and the Depositary agreed to require to comply with applicable law, the Depositary will deliver those rights as requested by that Owner.

(d) If the Depositary will act under (a)(iii) above, the Depositary will use reasonable efforts to sell the rights in proportion to the number of American Depositary Shares held by the applicable Owners and pay the net proceeds to the Owners otherwise entitled to the rights that were sold, upon an averaged or other practical basis without regard to any distinctions among such Owners because of exchange restrictions or the date of delivery of any American Depositary Shares or otherwise.

(e) Payment or deduction of the fees of the Depositary as provided in Section 5.9 and payment or deduction of the expenses of the Depositary and any applicable taxes or other governmental charges shall be conditions of any delivery of securities or payment of cash proceeds under this Section 4.4.

(f) The Depositary shall not be responsible for any failure to determine that it may be lawful or feasible to make rights available to or exercise rights on behalf of Owners in general or any Owner in particular, or to sell rights.

SECTION 4.5. Conversion of Foreign Currency.

Whenever the Depositary or the Custodian receives foreign currency, by way of dividends or other distributions or the net proceeds from the sale of securities, property or rights, and if at the time of the receipt thereof the foreign currency so received can in the judgment of the Depositary be converted on a reasonable basis into Dollars and the resulting Dollars transferred to the United States, the Depositary shall convert or cause to be converted by sale or in any other manner that it may determine that foreign currency into Dollars, and those Dollars shall be distributed, as promptly as practicable, to the Owners entitled thereto. A cash distribution may be made upon an averaged or other practicable basis without regard to any distinctions among Owners based on exchange restrictions, the date of delivery of any American Depositary Shares or otherwise and shall be net of any expenses of conversion into Dollars incurred by the Depositary as provided in Section 5.9.

If a conversion of foreign currency or the repatriation or distribution of Dollars can be effected only with the approval or license of any government or agency thereof, the Depositary may, but will not be required to, file an application for that approval or license.

If the Depositary determines that in its judgment any foreign currency received by the Depositary or the Custodian is not convertible on a reasonable basis into Dollars transferable to the United States, or if any approval or license of any government or agency thereof that is required for such conversion is not filed or sought by the Depositary or is not obtained within a reasonable period as determined by the Depositary, the Depositary may distribute the foreign currency received by the Depositary to, or in its discretion may hold such foreign currency uninvested and without liability for interest thereon for the respective accounts of, the Owners entitled to receive the same.

If any conversion of foreign currency, in whole or in part, cannot be effected for distribution to some of the Owners entitled thereto, the Depositary may in its discretion make that conversion and distribution in Dollars to the extent practicable and permissible to the Owners entitled thereto and may distribute the balance of the foreign currency received by the Depositary to, or hold that balance uninvested and without liability for interest thereon for the account of, the Owners entitled thereto.

The Depositary may convert currency itself or through any of its affiliates and, in those cases, acts as principal for its own account and not as agent, advisor, broker or fiduciary on behalf of any other person and earns revenue, including, without limitation, transaction spreads, that it will retain for its own account. The revenue is based on, among other things, the difference between the exchange rate assigned to the currency conversion made under this Deposit Agreement and the rate that the Depositary or its affiliate receives when buying or selling foreign currency for its own account. The Depositary makes no representation that the exchange rate used or obtained in any currency conversion under this Deposit Agreement will be the most favorable rate that could be obtained at the time or that the method by which that rate will be determined will be the most favorable to Owners, subject to the Depositary's obligations under Section 5.3. The methodology used to determine exchange rates used in currency conversions is available upon request.

SECTION 4.6. Fixing of Record Date.

Whenever a cash dividend, cash distribution or any other distribution is made on Deposited Securities or rights to purchase Shares or other securities are issued with respect to Deposited Securities (which rights will be delivered to or exercised or sold on behalf of Owners in accordance with Section 4.4) or the Depositary receives notice that a distribution or issuance of that kind will be made, or whenever the Depositary receives notice that a meeting of holders of Shares will be held in respect of which the Company has requested the Depositary to send a notice under Section 4.7, or whenever the Depositary will assess a fee or charge against the Owners, or whenever the Depositary causes a change in the number of Shares that are represented by each American Depositary Share, or whenever the Depositary otherwise finds it necessary or convenient, the Depositary shall fix a record date, which shall be the same as, or as near as practicable to, any corresponding record date set by the Company with respect to Shares, (a) for the determination of the Owners (i) who shall be entitled to receive the benefit of that dividend or other distribution or those rights, (ii) who shall be entitled to give instructions for the exercise of voting rights at that meeting, (iii) who shall be responsible for that fee or charge or (iv) for any other purpose for which the record date was set, or (b) on or after which each American Depositary Share will represent the changed number of Shares. Subject to the provisions of Sections 4.1 through 4.5 and to the other terms and conditions of this Deposit Agreement, the Owners on a record date fixed by the Depositary shall be entitled to receive the amount distributable by the Depositary with respect to that dividend or other distribution or those rights or the net proceeds of sale thereof in proportion to the number of American Depositary Shares held by them respectively, to give voting instructions or to act in respect of the other matter for which that record date was fixed, or be responsible for that fee or charge, as the case may be.

SECTION 4.7. Voting of Deposited Shares.

(a) Upon receipt of notice of any meeting of holders of Shares at which holders of Shares will be entitled to vote, if requested in writing by the Company, the Depositary shall, as soon as practicable thereafter, Disseminate to the Owners a notice, the form of which shall be in the sole discretion of the Depositary, that shall contain (i) the information contained in the notice of meeting received by the Depositary, (ii) a statement that the Owners as of the close of business on a specified record date will be entitled, subject to any applicable provision of Cayman Islands law and of the articles of association or similar documents of the Company, to instruct the Depositary as to the exercise of the voting rights pertaining to the amount of Shares represented by their respective American Depositary Shares (iii) a statement as to the manner in which those instructions may be given, including an express indication that instructions may be deemed given in accordance with the last sentence of paragraph (b) below, if no instruction is received, to the Depositary to give a discretionary proxy to a person designated by the Company and (iv) the last date on which the Depositary will accept instructions (the "Instruction Cutoff Date").

(b) Upon the written request of an Owner of American Depositary Shares, as of the date of the request or, if a record date was specified by the Depositary, as of that record date, received on or before any Instruction Cutoff Date established by the Depositary, the Depositary may, and if the Depositary sent a notice under the preceding paragraph shall, endeavor, in so far as practicable, to vote or cause to be voted the amount of deposited Shares represented by those American Depositary Shares in accordance with the instructions set forth in that request. The Depositary shall not vote or attempt to exercise the right to vote that attaches to the deposited Shares other than in accordance with instructions given by Owners and received by the Depositary or as provided in the following sentence. If

(i) the Company instructed the Depository to Disseminate a notice under paragraph (a) above and complied with the paragraph (d) below,

(ii) no instructions are received by the Depository from an Owner with respect to a matter and an amount of American Depositary Shares of that Owner on or before the Instruction Cutoff Date and

(iii) the Depository has received from the Company, by the business day following the Instruction Cutoff Date, a written confirmation that, as of the Instruction Cutoff Date, (x) the Company wishes a proxy to be given under this sentence, (y) the Company reasonably does not know of any substantial opposition to the matter and (z) the matter is not materially adverse to the interests of shareholders,

then, the Depository shall deem that Owner to have instructed the Depository to give a discretionary proxy to a person designated by the Company with respect to that matter and the amount of deposited Shares represented by that amount of American Depositary Shares and the Depository shall give a discretionary proxy to a person designated by the Company to vote that amount of deposited Shares as to that matter.

(c) There can be no assurance that Owners generally or any Owner in particular will receive the notice described in paragraph (a) above in time to enable Owners to give instructions to the Depository prior to the Instruction Cutoff Date.

(d) If the Company will request the Depository to Disseminate a notice under paragraph (a) above, the Company shall give the Depository notice of the meeting, details concerning the matters to be voted upon and copies of materials to be made available to holders of Shares in connection with the meeting not less than 30 days prior to the meeting date.

SECTION 4.8. Tender and Exchange Offers; Redemption, Replacement or Cancellation of Deposited Securities.

(a) The Depository shall not tender any Deposited Securities in response to any voluntary cash tender offer, exchange offer or similar offer made to holders of Deposited Securities (a "Voluntary Offer"), except when instructed in writing to do so by an Owner surrendering American Depositary Shares and subject to any conditions or procedures the Depository may require.

(b) If the Depositary receives a written notice that Deposited Securities have been redeemed for cash or otherwise purchased for cash in a transaction that is mandatory and binding on the Depositary as a holder of those Deposited Securities (a "Redemption"), the Depositary, at the expense of the Company, shall (i) if required, surrender Deposited Securities that have been redeemed to the issuer of those securities or its agent on the redemption date, (ii) Disseminate a notice to Owners (A) notifying them of that Redemption, (B) calling for surrender of a corresponding number of American Depositary Shares and (C) notifying them that the called American Depositary Shares have been converted into a right only to receive the money received by the Depositary upon that Redemption and those net proceeds shall be the Deposited Securities to which Owners of those converted American Depositary Shares shall be entitled upon surrenders of those American Depositary Shares in accordance with Section 2.5 or 6.2 and (iii) distribute the money received upon that Redemption to the Owners entitled to it upon surrender by them of called American Depositary Shares in accordance with Section 2.5 (and, for the avoidance of doubt, Owners shall not be entitled to receive that money under Section 4.1). If the Redemption affects less than all the Deposited Securities, the Depositary shall call for surrender a corresponding portion of the outstanding American Depositary Shares and only those American Depositary Shares will automatically be converted into a right to receive the net proceeds of the Redemption. The Depositary shall allocate the American Depositary Shares converted under the preceding sentence among the Owners pro-rata to their respective holdings of American Depositary Shares immediately prior to the Redemption, except that the allocations may be adjusted so that no fraction of a converted American Depositary Share is allocated to any Owner. A Redemption of all or substantially all of the Deposited Securities shall be a Termination Option Event.

(c) If the Depositary is notified of or there occurs any change in nominal or par value or any subdivision, combination or any other reclassification of the Deposited Securities or any recapitalization, reorganization, sale of assets substantially as an entirety, merger or consolidation affecting the issuer of the Deposited Securities or to which it is a party that is mandatory and binding on the Depositary as a holder of Deposited Securities and, as a result, securities or other property have been or will be delivered in exchange, conversion, replacement or in lieu of, Deposited Securities (a "Replacement"), the Depositary shall, if required, surrender the old Deposited Securities affected by that Replacement of Shares and hold, as new Deposited Securities under this Deposit Agreement, the new securities or other property delivered to it in that Replacement. However, the Depositary may elect to sell those new Deposited Securities if in the opinion of the Depositary it is not lawful or not practical for it to hold those new Deposited Securities under this Deposit Agreement because those new Deposited Securities may not be distributed to Owners without registration under the Securities Act of 1933 or for any other reason, at public or private sale, at such places and on such terms as it deems proper and proceed as if those new Deposited Securities had been Redeemed under paragraph (b) above. A Replacement shall be a Termination Option Event.

(d) In the case of a Replacement where the new Deposited Securities will continue to be held under this Deposit Agreement, the Depositary may call for the surrender of outstanding Receipts to be exchanged for new Receipts specifically describing the new Deposited Securities and the number of those new Deposited Securities represented by each American Depositary Share. If the number of Shares represented by each American Depositary Share decreases as a result of a Replacement, the Depositary may call for surrender of the American Depositary Shares to be exchanged on a mandatory basis for a lesser number of American Depositary Shares and may sell American Depositary Shares to the extent necessary to avoid distributing fractions of American Depositary Shares in that exchange and distribute the net proceeds of that sale to the Owners entitled to them.

(e) If there are no Deposited Securities with respect to American Depositary Shares, including if the Deposited Securities are cancelled, or the Deposited Securities with respect to American Depositary Shares have become apparently worthless, the Depositary may call for surrender of those American Depositary Shares or may cancel those American Depositary Shares, upon notice to Owners, and that condition shall be a Termination Option Event.

SECTION 4.9. Reports.

The Depositary shall make available for inspection by Owners at its Office any reports and communications, including any proxy solicitation material, received from the Company which are both (a) received by the Depositary as the holder of the Deposited Securities and (b) made generally available to the holders of those Deposited Securities by the Company. The Company shall furnish reports and communications, including any proxy soliciting material to which this Section applies, to the Depositary in English, to the extent those materials are required to be translated into English pursuant to any regulations of the Commission.

SECTION 4.10. Lists of Owners.

Upon written request by the Company, the Depositary shall, at the expense of the Company, furnish to it a list, as of a recent date, of the names, addresses and American Depositary Share holdings of all Owners.

SECTION 4.11. Withholding.

If the Depositary determines that any distribution received or to be made by the Depositary (including Shares and rights to subscribe therefor) is subject to any tax or other governmental charge that the Depositary is obligated to withhold, the Depositary may sell, by public or private sale, all or a portion of the distributed property (including Shares and rights to subscribe therefor) in the amounts and manner the Depositary deems necessary and practicable to pay those taxes or charges, and the Depositary shall distribute the net proceeds of that sale, after deduction of those taxes or charges, to the Owners entitled thereto in proportion to the number of American Depositary Shares held by them respectively.

Services for Owners and Holders that may permit them to obtain reduced rates of tax withholding at source or reclaim excess tax withheld, and the fees and costs associated with using services of that kind, are not provided under, and are outside the scope of, this Deposit Agreement.

Each Owner and Holder agrees to indemnify the Company, the Depository, the Custodian and their respective directors, employees, agents and affiliates for, and hold each of them harmless against, any claim by any governmental authority with respect to taxes, additions to tax, penalties or interest arising out of any refund of taxes, reduced withholding at source or other tax benefit received by it.

ARTICLE 5. THE DEPOSITARY, THE CUSTODIANS AND THE COMPANY

SECTION 5.1. Maintenance of Office and Register by the Depository.

Until termination of this Deposit Agreement in accordance with its terms, the Depository shall maintain facilities for the delivery, registration of transfers and surrender of American Depositary Shares in accordance with the provisions of this Deposit Agreement.

The Depository shall keep a register of all Owners and all outstanding American Depositary Shares, which shall be open for inspection by the Owners at the Depository's Office during regular business hours, but only for the purpose of communicating with Owners regarding the business of the Company or a matter related to this Deposit Agreement or the American Depositary Shares.

The Depository may close the register for delivery, registration of transfer or surrender for the purpose of withdrawal from time to time as provided in Section 2.6.

If any American Depositary Shares are listed on one or more stock exchanges, the Depository shall act as Registrar or appoint a Registrar or one or more co-registrars for registration of those American Depositary Shares in accordance with any requirements of that exchange or those exchanges.

SECTION 5.2. Prevention or Delay of Performance by the Company or the Depository.

Neither the Depository nor the Company nor any of their respective directors, employees, agents or affiliates shall incur any liability to any Owner or Holder:

(i) if by reason of (A) any provision of any present or future law or regulation or other act of the government of the United States, any State of the United States or any other state or jurisdiction, or of any governmental or regulatory authority or stock exchange; (B) (in the case of the Depository only) any provision, present or future, of the articles of association or similar document of the Company, or any provision of any securities issued or distributed by the Company, or any offering or distribution thereof; or (C) any event or circumstance, whether natural or caused by a person or persons, that is beyond the ability of the Depository or the Company, as the case may be, to prevent or counteract by reasonable care or effort (including, but not limited to, earthquakes, floods, severe storms, fires, explosions, war, terrorism, civil unrest, labor disputes or criminal acts; interruptions or malfunctions of utility services, Internet or other communications lines or systems; unauthorized access to or attacks on computer systems or websites; or other failures or malfunctions of computer hardware or software or other systems or equipment), the Depository or the Company is, directly or indirectly, prevented from, forbidden to or delayed in, or could be subject to any civil or criminal penalty on account of doing or performing and therefore does not do or perform, any act or thing that, by the terms of this Deposit Agreement or the Deposited Securities, it is provided shall be done or performed;

(ii) for any exercise of, or failure to exercise, any discretion provided for in this Deposit Agreement (including any determination by the Depository to take, or not take, any action that this Deposit Agreement provides the Depository may take);

(iii) for the inability of any Owner or Holder to benefit from any distribution, offering, right or other benefit that is made available to holders of Deposited Securities but is not, under the terms of this Deposit Agreement, made available to Owners or Holders; or

(iv) for any special, consequential or punitive damages for any breach of the terms of this Deposit Agreement.

Where, by the terms of a distribution to which Section 4.1, 4.2 or 4.3 applies, or an offering to which Section 4.4 applies, or for any other reason, that distribution or offering may not be made available to Owners, and the Depository may not dispose of that distribution or offering on behalf of Owners and make the net proceeds available to Owners, then the Depository shall not make that distribution or offering available to Owners, and shall allow any rights, if applicable, to lapse.

SECTION 5.3. Obligations of the Depository and the Company.

The Company assumes no obligation nor shall it be subject to any liability under this Deposit Agreement to any Owner or Holder, except that the Company agrees to perform its obligations specifically set forth in this Deposit Agreement without negligence or bad faith.

The Depository assumes no obligation nor shall it be subject to any liability under this Deposit Agreement to any Owner or Holder (including, without limitation, liability with respect to the validity or worth of the Deposited Securities), except that the Depository agrees to perform its obligations specifically set forth in this Deposit Agreement without negligence or bad faith, and the Depository shall not be a fiduciary or have any fiduciary duty to Owners or Holders.

Neither the Depositary nor the Company shall be under any obligation to appear in, prosecute or defend any action, suit or other proceeding in respect of any Deposited Securities or in respect of the American Depositary Shares on behalf of any Owner or Holder or any other person.

Each of the Depositary and the Company may rely, and shall be protected in relying upon, any written notice, request, direction or other document believed by it to be genuine and to have been signed or presented by the proper party or parties.

Neither the Depositary nor the Company shall be liable for any action or non-action by it in reliance upon the advice of or information from legal counsel, accountants, any person presenting Shares for deposit, any Owner or any other person believed by it in good faith to be competent to give such advice or information.

The Depositary shall not be liable for any acts or omissions made by a successor depositary whether in connection with a previous act or omission of the Depositary or in connection with any matter arising wholly after the removal or resignation of the Depositary, provided that in connection with the issue out of which such potential liability arises the Depositary performed its obligations without negligence or bad faith while it acted as Depositary.

The Depositary shall not be liable for the acts or omissions of any securities depository, clearing agency or settlement system in connection with or arising out of book-entry settlement of American Depositary Shares or Deposited Securities or otherwise.

In the absence of bad faith on its part, the Depositary shall not be responsible for any failure to carry out any instructions to vote any of the Deposited Securities, or for the manner in which any such vote is cast or the effect of any such vote.

The Depositary shall have no duty to make any determination or provide any information as to the tax status of the Company or any liability for any tax consequences that may be incurred by Owners or Holders as a result of owning or holding American Depositary Shares. The Depositary shall not be liable for the inability or failure of an Owner or Holder to obtain the benefit of a foreign tax credit, reduced rate of withholding or refund of amounts withheld in respect of tax or any other tax benefit.

No disclaimer of liability under the United States federal securities laws is intended by any provision of this Deposit Agreement.

SECTION 5.4. Resignation and Removal of the Depositary.

The Depositary may at any time resign as Depositary hereunder by written notice of its election so to do delivered to the Company, to become effective upon the appointment of a successor depositary and its acceptance of that appointment as provided in this Section. The effect of resignation if a successor depositary is not appointed is provided for in Section 6.2.

The Depositary may at any time be removed by the Company by 90 days' prior written notice of that removal, to become effective upon the later of (i) the 90th day after delivery of the notice to the Depositary and (ii) the appointment of a successor depositary and its acceptance of its appointment as provided in this Section.

If the Depositary resigns or is removed, the Company shall use its best efforts to appoint a successor depositary, which shall be a bank or trust company having an office in the Borough of Manhattan, The City of New York. Every successor depositary shall execute and deliver to the Company an instrument in writing accepting its appointment under this Deposit Agreement. If the Depositary receives notice from the Company that a successor depositary has been appointed following its resignation or removal, the Depositary, upon payment of all sums due it from the Company, shall deliver to its successor a register listing all the Owners and their respective holdings of outstanding American Depositary Shares and shall deliver the Deposited Securities to or to the order of its successor. When the Depositary has taken the actions specified in the preceding sentence (i) the successor shall become the Depositary and shall have all the rights and shall assume all the duties of the Depositary under this Deposit Agreement and (ii) the predecessor depositary shall cease to be the Depositary and shall be discharged and released from all obligations under this Deposit Agreement, except for its duties under Section 5.8 with respect to the time before that discharge. A successor Depositary shall notify the Owners of its appointment as soon as practical after assuming the duties of Depositary.

Any corporation or other entity into or with which the Depositary may be merged or consolidated shall be the successor of the Depositary without the execution or filing of any document or any further act.

SECTION 5.5. The Custodians.

The Custodian shall be subject at all times and in all respects to the directions of the Depositary and shall be responsible solely to it. The Depositary in its discretion may at any time appoint a substitute or additional custodian or custodians, each of which shall thereafter be one of the Custodians under this Deposit Agreement. If the Depositary receives notice that a Custodian is resigning and, upon the effectiveness of that resignation there would be no Custodian acting under this Deposit Agreement, the Depositary shall, as promptly as practicable after receiving that notice, appoint a substitute custodian or custodians, each of which shall thereafter be a Custodian under this Deposit Agreement. The Depositary shall require any Custodian that resigns or is removed to deliver all Deposited Securities held by it to another Custodian.

SECTION 5.6. Notices and Reports.

If the Company takes or decides to take any corporate action of a kind that is addressed in Sections 4.1 to 4.4, or 4.6 to 4.8, or that effects or will effect a change of the name or legal structure of the Company, or that effects or will effect a change to the Shares, the Company shall notify the Depository and the Custodian of that action or decision as soon as it is lawful and practical to give that notice. The notice shall be in English and shall include all details that the Company is required to include in any notice to any governmental or regulatory authority or securities exchange or is required to make available generally to holders of Shares by publication or otherwise.

The Company will arrange for the translation into English, if not already in English, to the extent required pursuant to any regulations of the Commission, and the prompt transmittal by the Company to the Depository and the Custodian of all notices and any other reports and communications which are made generally available by the Company to holders of its Shares. If requested in writing by the Company, the Depository will Disseminate, at the Company's expense, those notices, reports and communications to all Owners or otherwise make them available to Owners in a manner that the Company specifies as substantially equivalent to the manner in which those communications are made available to holders of Shares and compliant with the requirements of any securities exchange on which the American Depository Shares are listed. The Company will timely provide the Depository with the quantity of such notices, reports, and communications, as requested by the Depository from time to time, in order for the Depository to effect that Dissemination.

The Company represents that as of the date of this Deposit Agreement, the statements in Article 11 of the Receipt with respect to the Company's obligation to file periodic reports under the United States Securities Exchange Act of 1934, as amended, are true and correct. The Company agrees to promptly notify the Depository upon becoming aware of any change in the truth of any of those statements.

SECTION 5.7. Distribution of Additional Shares, Rights, etc.

If the Company or any affiliate of the Company determines to make any issuance or distribution of (1) additional Shares, (2) rights to subscribe for Shares, (3) securities convertible into Shares, or (4) rights to subscribe for such securities (each a "Distribution"), the Company shall notify the Depository in writing in English as promptly as practicable and in any event before the Distribution starts and, if requested in writing by the Depository, the Company shall promptly furnish to the Depository either (i) evidence satisfactory to the Depository that the Distribution is registered under the Securities Act of 1933 or (ii) a written opinion from a United States counsel that is reasonably satisfactory to the Depository, stating that the Distribution does not require, or, if made in the United States, would not require, registration under the Securities Act of 1933.

The Company agrees with the Depositary that neither the Company nor any company controlled by, controlling or under common control with the Company will at any time deposit any Shares that, at the time of deposit, are Restricted Securities.

SECTION 5.8. Indemnification.

The Company agrees to indemnify the Depositary, its directors, employees, agents and affiliates and each Custodian against, and hold each of them harmless from, any liability or expense (including, but not limited to any fees and expenses incurred in seeking, enforcing or collecting such indemnity and the reasonable fees and expenses of counsel) that may arise out of or in connection with (a) any registration with the Commission of American Depositary Shares or Deposited Securities or the offer or sale thereof or (b) acts performed or omitted, pursuant to the provisions of or in connection with this Deposit Agreement and the American Depositary Shares, as the same may be amended, modified or supplemented from time to time, (i) by either the Depositary or a Custodian or their respective directors, employees, agents and affiliates, except for any liability or expense arising out of the negligence or bad faith of either of them, or (ii) by the Company or any of its directors, employees, agents and affiliates.

The indemnities contained in the preceding paragraph shall not extend to any losses arising out of information relating to the Depositary or any Custodian, as the case may be, furnished in writing by the Depositary to the Company expressly for use in any registration statement, proxy statement, prospectus or preliminary prospectus or any other offering documents relating to the American Depositary Share, the Shares or any other Deposited Securities (it being understood and agreed that, as of the date of this Deposit Agreement, the Depositary has not furnished any information of that kind).

The Depositary agrees to indemnify the Company, its directors, employees, agents and affiliates and hold them harmless from any liability or expense (including but not limited to any fees and expenses incurred in seeking, enforcing or collecting such indemnity and the reasonable fees and expenses of counsel) that may arise out of acts performed or omitted by the Depositary or any Custodian or their respective directors, employees, agents and affiliates due to their negligence or bad faith.

SECTION 5.9. Charges of Depositary.

The following charges shall be incurred by any party depositing or withdrawing Shares or by any party surrendering American Depositary Shares or to whom American Depositary Shares are issued (including, without limitation, issuance pursuant to a stock dividend or stock split declared by the Company or an exchange of stock regarding the American Depositary Shares or Deposited Securities or a delivery of American Depositary Shares pursuant to Section 4.3), or by Owners, as applicable: (1) taxes and other governmental charges, (2) such registration fees as may from time to time be in effect for the registration of transfers of Shares generally on the Share register of the Company or Foreign Registrar and applicable to transfers of Shares to or from the name of the Depositary or its nominee or the Custodian or its nominee on the making of deposits or withdrawals hereunder, (3) such cable (including SWIFT) and facsimile transmission fees and expenses as are expressly provided in this Deposit Agreement, (4) such expenses as are incurred by the Depositary in the conversion of foreign currency pursuant to Section 4.5, (5) a fee of \$5.00 or less per 100 American Depositary Shares (or portion thereof) for the delivery of American Depositary Shares pursuant to Section 2.3, 4.3 or 4.4 and the surrender of American Depositary Shares pursuant to Section 2.5 or 6.2, (6) a fee of \$.05 or less per American Depositary Share (or portion thereof) for any cash distribution made pursuant to this Deposit Agreement, including, but not limited to Sections 4.1 through 4.4 and Section 4.8, (7) a fee for the distribution of securities pursuant to Section 4.2 or of rights pursuant to Section 4.4 (where the Depositary will not exercise or sell those rights on behalf of Owners), such fee being in an amount equal to the fee for the execution and delivery of American Depositary Shares referred to above which would have been charged as a result of the deposit of such securities under this Deposit Agreement (for purposes of this item 7 treating all such securities as if they were Shares) but which securities are instead distributed by the Depositary to Owners, (8) in addition to any fee charged under item 6 above, a fee of \$.05 or less per American Depositary Share (or portion thereof) per annum for depositary services, which will be payable as provided in item 9 below, and (9) any other charges payable by the Depositary or the Custodian, any of the Depositary's or Custodian's agents or the agents of the Depositary's or Custodian's agents, in connection with the servicing of Shares or other Deposited Securities (which charges shall be assessed against Owners as of the date or dates set by the Depositary in accordance with Section 4.6 and shall be payable at the sole discretion of the Depositary by billing those Owners for those charges or by deducting those charges from one or more cash dividends or other cash distributions).

The Depositary may collect any of its fees by deduction from any cash distribution payable, or by selling a portion of any securities to be distributed, to Owners that are obligated to pay those fees.

In performing its duties under this Deposit Agreement, the Depositary may use brokers, dealers, foreign currency dealers or other service providers that are owned by or affiliated with the Depositary and that may earn or share fees, spreads or commissions.

The Depositary may own and deal in any class of securities of the Company and its affiliates and in American Depositary Shares.

SECTION 5.10. Retention of Depositary Documents.

The Depositary is authorized to destroy those documents, records, bills and other data compiled during the term of this Deposit Agreement at the times permitted by the laws or regulations governing the Depositary, unless the Company requests in writing prior to any such destruction that those papers be retained for a longer period or turned over to the Company.

SECTION 5.11. Exclusivity.

Without prejudice to the Company's rights under Section 5.4, the Company agrees not to appoint any other depositary for issuance of depositary shares, depositary receipts or any similar securities or instruments so long as The Bank of New York Mellon is acting as Depositary under this Deposit Agreement.

SECTION 5.12. Information for Regulatory Compliance.

Each of the Company and the Depositary shall provide to the other, as promptly as practicable, information from its records or otherwise available to it that is reasonably requested by the other to permit the other to comply with applicable law or requirements of governmental or regulatory authorities.

ARTICLE 6. AMENDMENT AND TERMINATION

SECTION 6.1. Amendment.

The form of the Receipts and any provisions of this Deposit Agreement may at any time and from time to time be amended by agreement between the Company and the Depositary without the consent of Owners or Holders in any respect that they may deem necessary or desirable. Any amendment that would impose or increase any fees or charges (other than taxes and other governmental charges, registration fees, cable (including SWIFT) or facsimile transmission costs, delivery costs or other such expenses), or that would otherwise prejudice any substantial existing right of Owners, shall, however, not become effective as to outstanding American Depositary Shares until the expiration of 30 days after notice of that amendment has been Disseminated to the Owners of outstanding American Depositary Shares. Every Owner and Holder, at the time any amendment so becomes effective, shall be deemed, by continuing to hold American Depositary Shares or any interest therein, to consent and agree to that amendment and to be bound by this Deposit Agreement as amended thereby. Upon the effectiveness of an amendment to the form of Receipt, including a change in the number of Shares represented by each American Depositary Share, the Depositary may call for surrender of Receipts to be replaced with new Receipts in the amended form or call for surrender of American Depositary Shares to effect that change of ratio. In no event shall any amendment impair the right of the Owner to surrender American Depositary Shares and receive delivery of the Deposited Securities represented thereby, except in order to comply with mandatory provisions of applicable law.

SECTION 6.2. Termination.

(a) The Company may initiate termination of this Deposit Agreement by notice to the Depository. The Depository may initiate termination of this Deposit Agreement if (i) at any time 90 days shall have expired after the Depository delivered to the Company a written resignation notice and a successor depository has not been appointed and accepted its appointment as provided in Section 5.4 or (ii) a Termination Option Event has occurred or will occur. If termination of this Deposit Agreement is initiated, the Depository shall Disseminate a notice of termination to the Owners of all American Depositary Shares then outstanding setting a date for termination (the "Termination Date"), which shall be at least 90 days after the date of that notice, and this Deposit Agreement shall terminate on that Termination Date.

(b) After the Termination Date, the Company shall be discharged from all obligations under this Deposit Agreement except for its obligations to the Depository under Sections 5.8 and 5.9.

(c) At any time after the Termination Date, the Depository may sell the Deposited Securities then held under this Deposit Agreement and may thereafter hold uninvested the net proceeds of any such sale, together with any other cash then held by it hereunder, unsegregated and without liability for interest, for the pro rata benefit of the Owners of American Depositary Shares that remain outstanding, and those Owners will be general creditors of the Depository with respect to those net proceeds and that other cash. After making that sale, the Depository shall be discharged from all obligations under this Deposit Agreement, except (i) to account for the net proceeds and other cash (after deducting, in each case, the fee of the Depository for the surrender of American Depositary Shares, any expenses for the account of the Owner of such American Depositary Shares in accordance with the terms and conditions of this Deposit Agreement and any applicable taxes or governmental charges) to pay them to Owners upon surrender of American Depositary Shares in accordance with Section 2.5, (ii) for its obligations under Section 5.8 and (iii) to act as provided in paragraph (d) below.

(d) After the Termination Date, if any American Depositary Shares remain outstanding, the Depository shall continue to receive dividends and other distributions pertaining to Deposited Securities (that have not been sold), may sell rights and other property as provided in this Deposit Agreement and shall deliver Deposited Securities (or sale proceeds) upon surrender of American Depositary Shares (after payment or upon deduction, in each case, of the fee of the Depository for the surrender of American Depositary Shares, any expenses for the account of the Owner of those American Depositary Shares in accordance with the terms and conditions of this Deposit Agreement and any applicable taxes or governmental charges). After the Termination Date, the Depository shall not accept deposits of Shares or deliver American Depositary Shares. After the Termination Date, (i) the Depository may refuse to accept surrenders of American Depositary Shares for the purpose of withdrawal of Deposited Securities (that have not been sold) or reverse previously accepted surrenders of that kind that have not settled if in its judgment the requested withdrawal would interfere with its efforts to sell the Deposited Securities, (ii) the Depository will not be required to deliver cash proceeds of the sale of Deposited Securities until all Deposited Securities have been sold and (iii) the Depository may discontinue the registration of transfers of American Depositary Shares and suspend the distribution of dividends and other distributions on Deposited Securities to the Owners and need not give any further notices or perform any further acts under this Deposit Agreement except as provided in this Section.

ARTICLE 7. MISCELLANEOUS

SECTION 7.1. Counterparts; Signatures; Delivery.

This Deposit Agreement may be executed in any number of counterparts, each of which shall be deemed an original and all of those counterparts shall constitute one and the same instrument. Copies of this Deposit Agreement shall be filed with the Depository and the Custodians and shall be open to inspection by any Owner or Holder during regular business hours.

The exchange of copies of this Deposit Agreement and signature pages by facsimile, or email attaching a pdf or similar bit-mapped image, shall constitute effective execution and delivery of this Deposit Agreement as to the parties to it; copies and signature pages so exchanged may be used in lieu of the original Deposit Agreement and signature pages for all purposes and shall have the same validity, legal effect and admissibility in evidence as an original manual signature; the parties to this Deposit Agreement hereby agree not to argue to the contrary.

SECTION 7.2. No Third Party Beneficiaries.

This Deposit Agreement is for the exclusive benefit of the Company, the Depository, the Owners and the Holders and their respective successors and shall not be deemed to give any legal or equitable right, remedy or claim whatsoever to any other person.

SECTION 7.3. Severability.

In case any one or more of the provisions contained in this Deposit Agreement or in a Receipt should be or become invalid, illegal or unenforceable in any respect, the validity, legality and enforceability of the remaining provisions contained in this Deposit Agreement or that Receipt shall in no way be affected, prejudiced or disturbed thereby.

SECTION 7.4. Owners and Holders as Parties; Binding Effect.

The Owners and Holders from time to time shall be parties to this Deposit Agreement and shall be bound by all of the terms and conditions of this Deposit Agreement and of the Receipts by acceptance of American Depositary Shares or any interest therein.

SECTION 7.5. Notices.

Any and all notices to be given to the Company shall be in writing and shall be deemed to have been duly given if personally delivered or sent by domestic first class or international air mail or air courier or sent by facsimile transmission or email attaching a pdf or similar bit-mapped image of a signed writing, provided that receipt of the facsimile transmission or email has been confirmed by the recipient, addressed to U CLOUDLINK GROUP INC., Room 2118-2119, 21/F, One Pacific Centre, 414 Kwun Tong Road, Kwun Tong, Kowloon, Hong Kong, Attention: Chief Financial Officer, or any other place to which the Company may have transferred its principal office with notice to the Depository.

Any and all notices to be given to the Depository shall be in writing and shall be deemed to have been duly given if in English and personally delivered or sent by first class domestic or international air mail or air courier or sent by facsimile transmission or email attaching a pdf or similar bit-mapped image of a signed writing, addressed to The Bank of New York Mellon, 240 Greenwich Street, New York, New York 10286, Attention: Depository Receipt Administration, or any other place to which the Depository may have transferred its Office with notice to the Company.

Delivery of a notice to the Company or Depository by mail or air courier shall be deemed effected when deposited, postage prepaid, in a post-office letter box or received by an air courier service. Delivery of a notice to the Company or Depository sent by facsimile transmission or email shall be deemed effected when the recipient acknowledges receipt of that notice.

A notice to be given to an Owner shall be deemed to have been duly given when Disseminated to that Owner. Dissemination in paper form will be effective when personally delivered or sent by first class domestic or international air mail or air courier, addressed to that Owner at the address of that Owner as it appears on the transfer books for American Depositary Shares of the Depository, or, if that Owner has filed with the Depository a written request that notices intended for that Owner be mailed to some other address, at the address designated in that request. Dissemination in electronic form will be effective when sent in the manner consented to by the Owner to the electronic address most recently provided by the Owner for that purpose.

SECTION 7.6. Arbitration; Settlement of Disputes.

Any controversy, claim or cause of action brought by any party hereto against the Company arising out of or relating to the Shares or other Deposited Securities, the American Depositary Shares, the Receipts or this Deposit Agreement, or the breach hereof or thereof, if so elected by the claimant, shall be settled by arbitration in accordance with the International Arbitration Rules of the American Arbitration Association, and judgment upon the award rendered by the arbitrators may be entered in any court having jurisdiction thereof.

The place of the arbitration shall be The City of New York, State of New York, United States of America, and the language of the arbitration shall be English.

The number of arbitrators shall be three, each of whom shall be disinterested in the dispute or controversy, shall have no connection with any party thereto, and shall be an attorney experienced in international securities transactions. Each party shall appoint one arbitrator and the two arbitrators shall select a third arbitrator who shall serve as chairperson of the tribunal. If a dispute, controversy or cause of action shall involve more than two parties, the parties shall attempt to align themselves in two sides (i.e., claimant(s) and respondent(s)), each of which shall appoint one arbitrator as if there were only two parties to such dispute, controversy or cause of action. If such alignment and appointment shall not have occurred within thirty (30) calendar days after the initiating party serves the arbitration demand, the American Arbitration Association shall appoint the three arbitrators, each of whom shall have the qualifications described above. The parties and the American Arbitration Association may appoint from among the nationals of any country, whether or not a party is a national of that country.

The arbitral tribunal shall have no authority to award any consequential, special or punitive damages or other damages not measured by the prevailing party's actual damages and may not, in any event, make any ruling, finding or award that does not conform to the terms and conditions of this Deposit Agreement.

SECTION 7.7. Appointment of Agent for Service of Process; Submission to Jurisdiction; Jury Trial Waiver.

The Company hereby (i) designates and appoints the person named in Exhibit A to this Deposit Agreement as the Company's authorized agent in the United States upon which process may be served in any suit or proceeding (including any arbitration proceeding) arising out of or relating to the Shares or Deposited Securities, the American Depositary Shares, the Receipts or this Deposit Agreement (a "Proceeding"), (ii) consents and submits to the jurisdiction of any state or federal court in the State of New York in which any Proceeding may be instituted and (iii) agrees that service of process upon said authorized agent shall be deemed in every respect effective service of process upon the Company in any Proceeding. The Company agrees to deliver to the Depositary, upon the execution and delivery of this Deposit Agreement, a written acceptance by the agent named in Exhibit A to this Deposit Agreement of its appointment as process agent. The Company further agrees to take any and all action, including the filing of any and all such documents and instruments, as may be necessary to continue that designation and appointment in full force and effect, or to appoint and maintain the appointment of another process agent located in the United States as required above, and to deliver to the Depositary a written acceptance by that agent of that appointment, for so long as any American Depositary Shares or Receipts remain outstanding or this Deposit Agreement remains in force. In the event the Company fails to maintain the designation and appointment of a process agent in the United States in full force and effect, the Company hereby waives personal service of process upon it and consents that a service of process in connection with a Proceeding may be made by certified or registered mail, return receipt requested, directed to the Company at its address last specified for notices under this Deposit Agreement, and service so made shall be deemed completed five (5) days after the same shall have been so mailed.

EACH PARTY TO THIS DEPOSIT AGREEMENT (INCLUDING, FOR AVOIDANCE OF DOUBT, EACH OWNER AND HOLDER) HEREBY IRREVOCABLY WAIVES, TO THE FULLEST EXTENT PERMITTED BY APPLICABLE LAW, ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY IN ANY SUIT, ACTION OR PROCEEDING AGAINST THE COMPANY AND/OR THE DEPOSITARY DIRECTLY OR INDIRECTLY ARISING OUT OF OR RELATING TO THE SHARES OR OTHER DEPOSITED SECURITIES, THE AMERICAN DEPOSITARY SHARES OR THE RECEIPTS, THIS DEPOSIT AGREEMENT OR ANY TRANSACTION CONTEMPLATED HEREIN OR THEREIN, OR THE BREACH HEREOF OR THEREOF, INCLUDING, WITHOUT LIMITATION, ANY QUESTION REGARDING EXISTENCE, VALIDITY OR TERMINATION (WHETHER BASED ON CONTRACT, TORT OR ANY OTHER THEORY).

SECTION 7.8. Waiver of Immunities.

To the extent that the Company or any of its properties, assets or revenues may have or may hereafter become entitled to, or have attributed to it, any right of immunity, on the grounds of sovereignty or otherwise, from any legal action, suit or proceeding, from the giving of any relief in any respect thereof, from setoff or counterclaim, from the jurisdiction of any court, from service of process, from attachment upon or prior to judgment, from attachment in aid of execution or judgment, or from execution of judgment, or other legal process or proceeding for the giving of any relief or for the enforcement of any judgment, in any jurisdiction in which proceedings may at any time be commenced, with respect to its obligations, liabilities or any other matter under or arising out of or in connection with the Shares or Deposited Securities, the American Depositary Shares, the Receipts or this Deposit Agreement, the Company, to the fullest extent permitted by law, hereby irrevocably and unconditionally waives, and agrees not to plead or claim, any immunity of that kind and consents to relief and enforcement as provided above.

SECTION 7.9. Governing Law.

This Deposit Agreement and the Receipts shall be interpreted in accordance with and all rights hereunder and thereunder and provisions hereof and thereof shall be governed by the laws of the State of New York.

IN WITNESS WHEREOF, UCLOUDLINK GROUP INC. and THE BANK OF NEW YORK MELLON have duly executed this Deposit Agreement as of the day and year first set forth above and all Owners and Holders shall become parties hereto upon acceptance by them of American Depositary Shares or any interest therein.

Capitalized terms defined in the Deposit Agreement and not defined herein shall have the meanings set forth in the Deposit Agreement.

2. SURRENDER OF AMERICAN DEPOSITARY SHARES AND WITHDRAWAL OF SHARES.

Upon surrender of American Depositary Shares for the purpose of withdrawal of the Deposited Securities represented thereby and payment of the fee of the Depositary for the surrender of American Depositary Shares as provided in Section 5.9 of the Deposit Agreement and payment of all taxes and governmental charges payable in connection with that surrender and withdrawal of the Deposited Securities, and subject to the terms and conditions of the Deposit Agreement, the Owner of those American Depositary Shares shall be entitled to delivery (to the extent delivery can then be lawfully and practicably made), to or as instructed by that Owner, of the amount of Deposited Securities at the time represented by those American Depositary Shares, but not any money or other property as to which a record date for distribution to Owners has passed (since money or other property of that kind will be delivered or paid on the scheduled payment date to the Owner as of that record date), and except that the Depositary shall not be required to accept surrender of American Depositary Shares for the purpose of withdrawal to the extent it would require delivery of a fraction of a Deposited Security. The Depositary shall direct the Custodian with respect to delivery of Deposited Securities and may charge the surrendering Owner a fee and its expenses for giving that direction by cable (including SWIFT) or facsimile transmission. If Deposited Securities are delivered physically upon surrender of American Depositary Shares for the purpose of withdrawal, that delivery will be made at the Custodian’s office, except that, at the request, risk and expense of the surrendering Owner, and for the account of that Owner, the Depositary shall direct the Custodian to forward any cash or other property comprising, and forward a certificate or certificates, if applicable, and other proper documents of title, if any, for, the Deposited Securities represented by the surrendered American Depositary Shares to the Depositary for delivery at the Depositary’s Office or to another address specified in the order received from the surrendering Owner.

3. REGISTRATION OF TRANSFER OF AMERICAN DEPOSITARY SHARES; COMBINATION AND SPLIT-UP OF RECEIPTS; INTERCHANGE OF CERTIFICATED AND UNCERTIFICATED AMERICAN DEPOSITARY SHARES.

The Depositary, subject to the terms and conditions of the Deposit Agreement, shall register a transfer of American Depositary Shares on its transfer books upon (i) in the case of certificated American Depositary Shares, surrender of the Receipt evidencing those American Depositary Shares, by the Owner or by a duly authorized attorney, properly endorsed or accompanied by proper instruments of transfer or (ii) in the case of uncertificated American Depositary Shares, receipt from the Owner of a proper instruction (including, for the avoidance of doubt, instructions through DRS and Profile as provided in Section 2.9 of that Agreement), and, in either case, duly stamped as may be required by the laws of the State of New York and of the United States of America. Upon registration of a transfer, the Depositary shall deliver the transferred American Depositary Shares to or upon the order of the person entitled thereto.

The Depositary, subject to the terms and conditions of the Deposit Agreement, shall upon surrender of a Receipt or Receipts for the purpose of effecting a split-up or combination of such Receipt or Receipts, execute and deliver a new Receipt or Receipts for any authorized number of American Depositary Shares requested, evidencing the same aggregate number of American Depositary Shares as the Receipt or Receipts surrendered.

The Depositary, upon surrender of certificated American Depositary Shares for the purpose of exchanging for uncertificated American Depositary Shares, shall cancel the Receipt evidencing those certificated American Depositary Shares and send the Owner a statement confirming that the Owner is the owner of the same number of uncertificated American Depositary Shares. The Depositary, upon receipt of a proper instruction (including, for the avoidance of doubt, instructions through DRS and Profile as provided in Section 2.9 of the Deposit Agreement) from the Owner of uncertificated American Depositary Shares for the purpose of exchanging for certificated American Depositary Shares, shall cancel those uncertificated American Depositary Shares and register and deliver to the Owner a Receipt evidencing the same number of certificated American Depositary Shares.

As a condition precedent to the delivery, registration of transfer, or surrender of any American Depositary Shares or split-up or combination of any Receipt or withdrawal of any Deposited Securities, the Depositary, the Custodian, or Registrar may require payment from the depositor of the Shares or the presenter of the Receipt or instruction for registration of transfer or surrender of American Depositary Shares not evidenced by a Receipt of a sum sufficient to reimburse it for any tax or other governmental charge and any stock transfer or registration fee with respect thereto (including any such tax or charge and fee with respect to Shares being deposited or withdrawn) and payment of any applicable fees as provided in the Deposit Agreement, may require the production of proof satisfactory to it as to the identity and genuineness of any signature and may also require compliance with any regulations the Depositary may establish consistent with the provisions of the Deposit Agreement.

The Depositary may refuse to accept deposits of Shares for delivery of American Depositary Shares or to register transfers of American Depositary Shares in particular instances, or may suspend deposits of Shares or registration of transfer generally, whenever it or the Company considers it necessary or advisable to do so. The Depositary may refuse surrenders of American Depositary Shares for the purpose of withdrawal of Deposited Securities in particular instances, or may suspend surrenders for the purpose of withdrawal generally, but, notwithstanding anything to the contrary in the Deposit Agreement, only for (i) temporary delays caused by closing of the Depositary's register or the register of holders of Shares maintained by the Company or the Foreign Registrar, or the deposit of Shares, in connection with voting at a shareholders' meeting or the payment of dividends, (ii) the payment of fees, taxes and similar charges, (iii) compliance with any U.S. or foreign laws or governmental regulations relating to the American Depositary Shares or to the withdrawal of the Deposited Securities or (iv) any other reason that, at the time, is specified under paragraph I(A)(1) of the General Instructions to Form F-6 under the Securities Act of 1993 or any successor to that provision.

The Depositary shall not knowingly accept for deposit under the Deposit Agreement any Shares that, at the time of deposit, are Restricted Securities.

4. LIABILITY OF OWNER FOR TAXES.

If any tax or other governmental charge shall become payable by the Custodian or the Depositary with respect to or in connection with any American Depositary Shares or any Deposited Securities represented by any American Depositary Shares or in connection with a transaction to which Section 4.8 of the Deposit Agreement applies, that tax or other governmental charge shall be payable by the Owner of those American Depositary Shares to the Depositary. The Depositary may refuse to register any transfer of those American Depositary Shares or any withdrawal of Deposited Securities represented by those American Depositary Shares until that payment is made, and may withhold any dividends or other distributions or the proceeds thereof, or may sell for the account of the Owner any part or all of the Deposited Securities represented by those American Depositary Shares, and may apply those dividends or other distributions or the net proceeds of any sale of that kind in payment of that tax or other governmental charge but, even after a sale of that kind, the Owner shall remain liable for any deficiency. The Depositary shall distribute any net proceeds of a sale made under Section 3.2 of the Deposit Agreement that are not used to pay taxes or governmental charges to the Owners entitled to them in accordance with Section 4.1 of the Deposit Agreement. If the number of Shares represented by each American Depositary Share decreases as a result of a sale of Deposited Securities under Section 3.2 of the Deposit Agreement, the Depositary may call for surrender of the American Depositary Shares to be exchanged on a mandatory basis for a lesser number of American Depositary Shares and may sell American Depositary Shares to the extent necessary to avoid distributing fractions of American Depositary Shares in that exchange and distribute the net proceeds of that sale to the Owners entitled to them.

5. WARRANTIES ON DEPOSIT OF SHARES.

Every person depositing Shares under the Deposit Agreement shall be deemed thereby to represent and warrant that those Shares and each certificate therefor, if applicable, are validly issued, fully paid and nonassessable and were not issued in violation of any preemptive or similar rights of the holders of outstanding securities of the Company and that the person making that deposit is duly authorized so to do. Every depositing person shall also be deemed to represent that the Shares, at the time of deposit, are not Restricted Securities. All representations and warranties deemed made under Section 3.3 of the Deposit Agreement shall survive the deposit of Shares and delivery of American Depositary Shares.

6. FILING PROOFS, CERTIFICATES, AND OTHER INFORMATION.

Any person presenting Shares for deposit or any Owner or Holder may be required from time to time to file with the Depositary or the Custodian such proof of citizenship or residence, exchange control approval, or such information relating to the registration on the books of the Company or the Foreign Registrar, if applicable, to execute such certificates and to make such representations and warranties, as the Depositary may deem necessary or proper. The Depositary may withhold the delivery or registration of transfer of any American Depositary Shares, the distribution of any dividend or other distribution or of the proceeds thereof or the delivery of any Deposited Securities until that proof or other information is filed or those certificates are executed or those representations and warranties are made. As conditions of accepting Shares for deposit, the Depositary may require (i) any certification required by the Depositary or the Custodian in accordance with the provisions of the Deposit Agreement, (ii) a written order directing the Depositary to deliver to, or upon the written order of, the person or persons stated in that order, the number of American Depositary Shares representing those Deposited Shares, (iii) evidence satisfactory to the Depositary that those Shares have been re-registered in the books of the Company or the Foreign Registrar in the name of the Depositary, a Custodian or a nominee of the Depositary or a Custodian, (iv) evidence satisfactory to the Depositary that any necessary approval for the transfer or deposit has been granted by any governmental body in each applicable jurisdiction and (v) an agreement or assignment, or other instrument satisfactory to the Depositary, that provides for the prompt transfer to the Custodian of any dividend, or right to subscribe for additional Shares or to receive other property, that any person in whose name those Shares are or have been recorded may thereafter receive upon or in respect of those Shares, or, in lieu thereof, such agreement of indemnity or other agreement as shall be satisfactory to the Depositary.

7. CHARGES OF DEPOSITARY.

The following charges shall be incurred by any party depositing or withdrawing Shares or by any party surrendering American Depositary Shares or to whom American Depositary Shares are issued (including, without limitation, issuance pursuant to a stock dividend or stock split declared by the Company or an exchange of stock regarding the American Depositary Shares or Deposited Securities or a delivery of American Depositary Shares pursuant to Section 4.3 of the Deposit Agreement), or by Owners, as applicable: (1) taxes and other governmental charges, (2) such registration fees as may from time to time be in effect for the registration of transfers of Shares generally on the Share register of the Company or Foreign Registrar and applicable to transfers of Shares to or from the name of the Depositary or its nominee or the Custodian or its nominee on the making of deposits or withdrawals hereunder, (3) such cable (including SWIFT) and facsimile transmission fees and expenses as are expressly provided in the Deposit Agreement, (4) such expenses as are incurred by the Depositary in the conversion of foreign currency pursuant to Section 4.5 of the Deposit Agreement, (5) a fee of \$5.00 or less per 100 American Depositary Shares (or portion thereof) for the delivery of American Depositary Shares pursuant to Section 2.3, 4.3 or 4.4 of the Deposit Agreement and the surrender of American Depositary Shares pursuant to Section 2.5 or 6.2 of the Deposit Agreement, (6) a fee of \$.05 or less per American Depositary Share (or portion thereof) for any cash distribution made pursuant to the Deposit Agreement, including, but not limited to Sections 4.1 through 4.4 and 4.8 of the Deposit Agreement, (7) a fee for the distribution of securities pursuant to Section 4.2 of the Deposit Agreement or of rights pursuant to Section 4.4 of that Agreement (where the Depositary will not exercise or sell those rights on behalf of Owners), such fee being in an amount equal to the fee for the execution and delivery of American Depositary Shares referred to above which would have been charged as a result of the deposit of such securities under the Deposit Agreement (for purposes of this item 7 treating all such securities as if they were Shares) but which securities are instead distributed by the Depositary to Owners, (8) in addition to any fee charged under item 6, a fee of \$.05 or less per American Depositary Share (or portion thereof) per annum for depositary services, which will be payable as provided in item 9 below, and (9) any other charges payable by the Depositary or the Custodian, any of the Depositary's or Custodian's agents or the agents of the Depositary's or Custodian's agents, in connection with the servicing of Shares or other Deposited Securities (which charges shall be assessed against Owners as of the date or dates set by the Depositary in accordance with Section 4.6 of the Deposit Agreement and shall be payable at the sole discretion of the Depositary by billing those Owners for those charges or by deducting those charges from one or more cash dividends or other cash distributions).

The Depositary may collect any of its fees by deduction from any cash distribution payable, or by selling a portion of any securities to be distributed, to Owners that are obligated to pay those fees.

The Depositary may own and deal in any class of securities of the Company and its affiliates and in American Depositary Shares.

From time to time, the Depositary may make payments to the Company to reimburse the Company for costs and expenses generally arising out of establishment and maintenance of the American Depositary Shares program, waive fees and expenses for services provided by the Depositary or share revenue from the fees collected from Owners or Holders. In performing its duties under the Deposit Agreement, the Depositary may use brokers, dealers, foreign currency dealers or other service providers that are owned by or affiliated with the Depositary and that may earn or share fees, spreads or commissions.

8. DISCLOSURE OF INTERESTS.

When required in order to comply with applicable laws and regulations or the articles of association or similar document of the Company, the Company may from time to time request each Owner and Holder to provide to the Depositary information relating to: (a) the capacity in which it holds American Depositary Shares, (b) the identity of any Holders or other persons or entities then or previously interested in those American Depositary Shares and the nature of those interests and (c) any other matter where disclosure of such matter is required for that compliance. Each Owner and Holder agrees to provide all information known to it in response to a request made pursuant to Section 3.4 of the Deposit Agreement. Each Holder consents to the disclosure by the Depositary and the Owner or other Holder through which it holds American Depositary Shares, directly or indirectly, of all information responsive to a request made pursuant to that Section relating to that Holder that is known to that Owner or other Holder.

9. TITLE TO AMERICAN DEPOSITARY SHARES.

It is a condition of the American Depositary Shares, and every successive Owner and Holder of American Depositary Shares, by accepting or holding the same, consents and agrees that American Depositary Shares evidenced by a Receipt, when the Receipt is properly endorsed or accompanied by proper instruments of transfer, shall be transferable as certificated registered securities under the laws of the State of New York, and that American Depositary Shares not evidenced by Receipts shall be transferable as uncertificated registered securities under the laws of the State of New York. The Depositary, notwithstanding any notice to the contrary, may treat the Owner of American Depositary Shares as the absolute owner thereof for the purpose of determining the person entitled to distribution of dividends or other distributions or to any notice provided for in the Deposit Agreement and for all other purposes, and neither the Depositary nor the Company shall have any obligation or be subject to any liability under the Deposit Agreement to any Holder of American Depositary Shares, but only to the Owner.

10. VALIDITY OF RECEIPT.

This Receipt shall not be entitled to any benefits under the Deposit Agreement or be valid or obligatory for any purpose, unless this Receipt shall have been (i) executed by the Depositary by the manual signature of a duly authorized officer of the Depositary or (ii) executed by the facsimile signature of a duly authorized officer of the Depositary and countersigned by the manual signature of a duly authorized signatory of the Depositary or the Registrar or a co-registrar.

11. REPORTS; INSPECTION OF TRANSFER BOOKS.

The Company is subject to the periodic reporting requirements of the Securities Exchange Act of 1934 and, accordingly, files certain reports with the Securities and Exchange Commission. Those reports will be available for inspection and copying through the Commission's EDGAR system or at public reference facilities maintained by the Commission in Washington, D.C.

The Depositary will make available for inspection by Owners at its Office any reports, notices and other communications, including any proxy soliciting material, received from the Company which are both (a) received by the Depositary as the holder of the Deposited Securities and (b) made generally available to the holders of those Deposited Securities by the Company. The Company shall furnish reports and communications, including any proxy soliciting material to which Section 4.9 of the Deposit Agreement applies, to the Depositary in English, to the extent such materials are required to be translated into English pursuant to any regulations of the Commission.

The Depositary will keep books for the registration of American Depositary Shares and transfers of American Depositary Shares, which shall be open for inspection by the Owners at the Depositary's Office during regular business hours, but only for the purpose of communicating with Owners regarding the business of the Company or a matter related to this Deposit Agreement or the American Depositary Shares.

12. DIVIDENDS AND DISTRIBUTIONS.

Whenever the Depositary receives any cash dividend or other cash distribution on Deposited Securities, the Depositary will, if at the time of receipt thereof any amounts received in a foreign currency can in the judgment of the Depositary be converted on a reasonable basis into Dollars transferable to the United States, and subject to the Deposit Agreement, convert that dividend or other cash distribution into Dollars and distribute the amount thus received (net of the fees and expenses of the Depositary as provided in Article 7 hereof and Section 5.9 of the Deposit Agreement) to the Owners entitled thereto; provided, however, that if the Custodian or the Depositary is required to withhold and does withhold from that cash dividend or other cash distribution an amount on account of taxes or other governmental charges, the amount distributed to the Owners of the American Depositary Shares representing those Deposited Securities shall be reduced accordingly. If a cash distribution would represent a return of all or substantially all the value of the Deposited Securities underlying American Depositary Shares, the Depositary may require surrender of those American Depositary Shares and may require payment of or deduct the fee for surrender of American Depositary Shares (whether or not it is also requiring surrender of American Depositary Shares) as a condition of making that cash distribution. A distribution of that kind shall be a Termination Option Event.

Subject to the provisions of Section 4.11 and 5.9 of the Deposit Agreement, whenever the Depositary receives any distribution other than a distribution described in Section 4.1, 4.3 or 4.4 of the Deposit Agreement on Deposited Securities (but not in exchange for or in conversion or in lieu of Deposited Securities), the Depositary will cause the securities or property received by it to be distributed to the Owners entitled thereto, after deduction or upon payment of any fees and expenses of the Depositary and any taxes or other governmental charges, in any manner that the Depositary deems equitable and practicable for accomplishing that distribution (which may be a distribution of depositary shares representing the securities received); provided, however, that if in the opinion of the Depositary such distribution cannot be made proportionately among the Owners entitled thereto, or if for any other reason the Depositary deems such distribution not to be lawful and feasible, the Depositary may adopt such other method as it may deem equitable and practicable for the purpose of effecting such distribution, including, but not limited to, the public or private sale of the securities or property thus received, or any part thereof, and distribution of the net proceeds of any such sale (net of the fees and expenses of the Depositary as provided in Article 7 hereof and Section 5.9 of the Deposit Agreement) to the Owners entitled thereto all in the manner and subject to the conditions set forth in Section 4.1 of the Deposit Agreement. The Depositary may withhold any distribution of securities under Section 4.2 of the Deposit Agreement if it has not received satisfactory assurances from the Company that the distribution does not require registration under the Securities Act of 1933. The Depositary may sell, by public or private sale, an amount of securities or other property it would otherwise distribute under this Article that is sufficient to pay its fees and expenses in respect of that distribution. If a distribution under Section 4.2 of the Deposit Agreement would represent a return of all or substantially all the value of the Deposited Securities underlying American Depositary Shares, the Depositary may require surrender of those American Depositary Shares and may require payment of or deduct the fee for surrender of American Depositary Shares (whether or not it is also requiring surrender of American Depositary Shares) as a condition of making that distribution. A distribution of that kind shall be a Termination Option Event.

Whenever the Depositary receives any distribution consisting of a dividend in, or free distribution of, Shares, the Depositary may deliver to the Owners entitled thereto, an aggregate number of American Depositary Shares representing the amount of Shares received as that dividend or free distribution, subject to the terms and conditions of the Deposit Agreement with respect to the deposit of Shares and issuance of American Depositary Shares, including the withholding of any tax or other governmental charge as provided in Section 4.11 of the Deposit Agreement and the payment of the fees and expenses of the Depositary as provided in Article 7 hereof and Section 5.9 of the Deposit Agreement (and the Depositary may sell, by public or private sale, an amount of Shares received (or American Depositary Shares representing those Shares) sufficient to pay its fees and expenses in respect of that distribution). In lieu of delivering fractional American Depositary Shares, the Depositary may sell the amount of Shares represented by the aggregate of those fractions (or American Depositary Shares representing those Shares) and distribute the net proceeds, all in the manner and subject to the conditions described in Section 4.1 of the Deposit Agreement. If and to the extent that additional American Depositary Shares are not delivered and Shares or American Depositary Shares are not sold, each American Depositary Share shall thenceforth also represent the additional Shares distributed on the Deposited Securities represented thereby.

If the Company declares a distribution in which holders of Deposited Securities have a right to elect whether to receive cash, Shares or other securities or a combination of those things, or a right to elect to have a distribution sold on their behalf, the Depositary may, after consultation with the Company, make that right of election available for exercise by Owners in any manner the Depositary considers to be lawful and practical. As a condition of making a distribution election right available to Owners, the Depositary may require satisfactory assurances from the Company that doing so does not require registration of any securities under the Securities Act of 1933.

If the Depositary determines that any distribution received or to be made by the Depositary (including Shares and rights to subscribe therefor) is subject to any tax or other governmental charge that the Depositary is obligated to withhold, the Depositary may sell, by public or private sale, all or a portion of the distributed property (including Shares and rights to subscribe therefor) in the amounts and manner the Depositary deems necessary and practicable to pay those taxes or charges, and the Depositary shall distribute the net proceeds of that sale, after deduction of those taxes or charges, to the Owners entitled thereto in proportion to the number of American Depositary Shares held by them respectively.

Each Owner and Holder agrees to indemnify the Company, the Depositary, the Custodian and their respective directors, employees, agents and affiliates for, and hold each of them harmless against, any claim by any governmental authority with respect to taxes, additions to tax, penalties or interest arising out of any refund of taxes, reduced withholding at source or other tax benefit received by it. Services for Owners and Holders that may permit them to obtain reduced rates of tax withholding at source or reclaim excess tax withheld, and the fees and costs associated with using services of that kind, are not provided under, and are outside the scope of, the Deposit Agreement.

13. RIGHTS.

(a) If rights are granted to the Depositary in respect of deposited Shares to purchase additional Shares or other securities, the Company and the Depositary shall endeavor to consult as to the actions, if any, the Depositary should take in connection with that grant of rights. The Depositary may, to the extent deemed by it to be lawful and practical (i) if requested in writing by the Company, grant to all or certain Owners rights to instruct the Depositary to purchase the securities to which the rights relate and deliver those securities or American Depositary Shares representing those securities to Owners, (ii) if requested in writing by the Company, deliver the rights to or to the order of certain Owners, or (iii) sell the rights to the extent practicable and distribute the net proceeds of that sale to Owners entitled to those proceeds. To the extent rights are not exercised, delivered or disposed of under (i), (ii) or (iii) above, the Depositary shall permit the rights to lapse unexercised.

(b) If the Depositary will act under (a)(i) above, the Company and the Depositary will enter into a separate agreement setting forth the conditions and procedures applicable to the particular offering. Upon instruction from an applicable Owner in the form the Depositary specified and upon payment by that Owner to the Depositary of an amount equal to the purchase price of the securities to be received upon the exercise of the rights, the Depositary shall, on behalf of that Owner, exercise the rights and purchase the securities. The purchased securities shall be delivered to, or as instructed by, the Depositary. The Depositary shall (i) deposit the purchased Shares under the Deposit Agreement and deliver American Depositary Shares representing those Shares to that Owner or (ii) deliver or cause the purchased Shares or other securities to be delivered to or to the order of that Owner. The Depositary will not act under (a)(i) above unless the offer and sale of the securities to which the rights relate are registered under the Securities Act of 1933 or the Depositary has received an opinion of a United States counsel that is satisfactory to it to the effect that those securities may be sold and delivered to the applicable Owners without registration under the Securities Act of 1933.

(c) If the Depositary will act under (a)(ii) above, the Company and the Depositary will enter into a separate agreement setting forth the conditions and procedures applicable to the particular offering. Upon (i) the request of an applicable Owner to deliver the rights allocable to the American Depositary Shares of that Owner to an account specified by that Owner to which the rights can be delivered and (ii) receipt of such documents as the Company and the Depositary agreed to require to comply with applicable law, the Depositary will deliver those rights as requested by that Owner.

(d) If the Depositary will act under (a)(iii) above, the Depositary will use reasonable efforts to sell the rights in proportion to the number of American Depositary Shares held by the applicable Owners and pay the net proceeds to the Owners otherwise entitled to the rights that were sold, upon an averaged or other practical basis without regard to any distinctions among such Owners because of exchange restrictions or the date of delivery of any American Depositary Shares or otherwise.

(e) Payment or deduction of the fees of the Depositary as provided in Section 5.9 of the Deposit Agreement and payment or deduction of the expenses of the Depositary and any applicable taxes or other governmental charges shall be conditions of any delivery of securities or payment of cash proceeds under Section 4.4 of that Agreement.

(f) The Depositary shall not be responsible for any failure to determine that it may be lawful or feasible to make rights available to or exercise rights on behalf of Owners in general or any Owner in particular, or to sell rights.

14. CONVERSION OF FOREIGN CURRENCY.

Whenever the Depositary or the Custodian receives foreign currency, by way of dividends or other distributions or the net proceeds from the sale of securities, property or rights, and if at the time of the receipt thereof the foreign currency so received can in the judgment of the Depositary be converted on a reasonable basis into Dollars and the resulting Dollars transferred to the United States, the Depositary shall convert or cause to be converted by sale or in any other manner that it may determine that foreign currency into Dollars, and those Dollars shall be distributed, as promptly as practicable, to the Owners entitled thereto. A cash distribution may be made upon an averaged or other practicable basis without regard to any distinctions among Owners based on exchange restrictions, the date of delivery of any American Depositary Shares or otherwise and shall be net of any expenses of conversion into Dollars incurred by the Depositary as provided in Section 5.9 of the Deposit Agreement.

If a conversion of foreign currency or the repatriation or distribution of Dollars can be effected only with the approval or license of any government or agency thereof, the Depositary may, but will not be required to, file an application for that approval or license.

If the Depositary determines that in its judgment any foreign currency received by the Depositary or the Custodian is not convertible on a reasonable basis into Dollars transferable to the United States, or if any approval or license of any government or agency thereof that is required for such conversion is not filed or sought by the Depositary or is not obtained within a reasonable period as determined by the Depositary, the Depositary may distribute the foreign currency received by the Depositary to, or in its discretion may hold such foreign currency uninvested and without liability for interest thereon for the respective accounts of, the Owners entitled to receive the same.

If any conversion of foreign currency, in whole or in part, cannot be effected for distribution to some of the Owners entitled thereto, the Depositary may in its discretion make that conversion and distribution in Dollars to the extent practicable and permissible to the Owners entitled thereto and may distribute the balance of the foreign currency received by the Depositary to, or hold that balance uninvested and without liability for interest thereon for the account of, the Owners entitled thereto.

The Depositary may convert currency itself or through any of its affiliates and, in those cases, acts as principal for its own account and not as agent, advisor, broker or fiduciary on behalf of any other person and earns revenue, including, without limitation, transaction spreads, that it will retain for its own account. The revenue is based on, among other things, the difference between the exchange rate assigned to the currency conversion made under the Deposit Agreement and the rate that the Depositary or its affiliate receives when buying or selling foreign currency for its own account. The Depositary makes no representation that the exchange rate used or obtained in any currency conversion under the Deposit Agreement will be the most favorable rate that could be obtained at the time or that the method by which that rate will be determined will be the most favorable to Owners, subject to the Depositary's obligations under Section 5.3 of that Agreement. The methodology used to determine exchange rates used in currency conversions is available upon request.

15. RECORD DATES.

Whenever a cash dividend, cash distribution or any other distribution is made on Deposited Securities or rights to purchase Shares or other securities are issued with respect to Deposited Securities (which rights will be delivered to or exercised or sold on behalf of Owners in accordance with Section 4.4 of the Deposit Agreement) or the Depositary receives notice that a distribution or issuance of that kind will be made, or whenever the Depositary receives notice that a meeting of holders of Shares will be held in respect of which the Company has requested the Depositary to send a notice under Section 4.7 of the Deposit Agreement, or whenever the Depositary will assess a fee or charge against the Owners, or whenever the Depositary causes a change in the number of Shares that are represented by each American Depositary Share, or whenever the Depositary otherwise finds it necessary or convenient, the Depositary shall fix a record date, which shall be the same as, or as near as practicable to, any corresponding record date set by the Company with respect to Shares, (a) for the determination of the Owners (i) who shall be entitled to receive the benefit of that dividend or other distribution or those rights, (ii) who shall be entitled to give instructions for the exercise of voting rights at that meeting, (iii) who shall be responsible for that fee or charge or (iv) for any other purpose for which the record date was set, or (b) on or after which each American Depositary Share will represent the changed number of Shares. Subject to the provisions of Sections 4.1 through 4.5 of the Deposit Agreement and to the other terms and conditions of the Deposit Agreement, the Owners on a record date fixed by the Depositary shall be entitled to receive the amount distributable by the Depositary with respect to that dividend or other distribution or those rights or the net proceeds of sale thereof in proportion to the number of American Depositary Shares held by them respectively, to give voting instructions or to act in respect of the other matter for which that record date was fixed, or be responsible for that fee or charge, as the case may be.

16. VOTING OF DEPOSITED SHARES.

(a) Upon receipt of notice of any meeting of holders of Shares at which holders of Shares will be entitled to vote, if requested in writing by the Company, the Depositary shall, as soon as practicable thereafter, Disseminate to the Owners a notice, the form of which shall be in the sole discretion of the Depositary, that shall contain (i) the information contained in the notice of meeting received by the Depositary, (ii) a statement that the Owners as of the close of business on a specified record date will be entitled, subject to any applicable provision of Cayman Islands law and of the articles of association or similar documents of the Company, to instruct the Depositary as to the exercise of the voting rights pertaining to the amount of Shares represented by their respective American Depositary Shares (iii) a statement as to the manner in which those instructions may be given, including an express indication that instructions may be deemed given in accordance with the last sentence of paragraph (b) below, if no instruction is received, to the Depositary to give a discretionary proxy to a person designated by the Company and (iv) the last date on which the Depositary will accept instructions (the "Instruction Cutoff Date").

(b) Upon the written request of an Owner of American Depositary Shares, as of the date of the request or, if a record date was specified by the Depositary, as of that record date, received on or before any Instruction Cutoff Date established by the Depositary, the Depositary may, and if the Depositary sent a notice under the preceding paragraph shall, endeavor, in so far as practicable, to vote or cause to be voted the amount of deposited Shares represented by those American Depositary Shares in accordance with the instructions set forth in that request. The Depositary shall not vote or attempt to exercise the right to vote that attaches to the deposited Shares other than in accordance with instructions given by Owners and received by the Depositary or as provided in the following sentence. If

(i) the Company instructed the Depositary to Disseminate a notice under paragraph (a) above and complied with the paragraph (d) below,

(ii) no instructions are received by the Depositary from an Owner with respect to a matter and an amount of American Depositary Shares of that Owner on or before the Instruction Cutoff Date and

(iii) the Depositary has received from the Company, by the business day following the Instruction Cutoff Date, a written confirmation that, as of the Instruction Cutoff Date, (x) the Company wishes a proxy to be given under this sentence, (y) the Company reasonably does not know of any substantial opposition to the matter and (z) the matter is not materially adverse to the interests of shareholders,

then, the Depositary shall deem that Owner to have instructed the Depositary to give a discretionary proxy to a person designated by the Company with respect to that matter and the amount of deposited Shares represented by that amount of American Depositary Shares and the Depositary shall give a discretionary proxy to a person designated by the Company to vote that amount of deposited Shares as to that matter.

(c) There can be no assurance that Owners generally or any Owner in particular will receive the notice described in paragraph (a) above in time to enable Owners to give instructions to the Depositary prior to the Instruction Cutoff Date.

(d) If the Company will request the Depositary to Disseminate a notice under paragraph (a) above, the Company shall give the Depositary notice of the meeting, details concerning the matters to be voted upon and copies of materials to be made available to holders of Shares in connection with the meeting not less than 30 days prior to the meeting date.

17. TENDER AND EXCHANGE OFFERS; REDEMPTION, REPLACEMENT OR CANCELLATION OF DEPOSITED SECURITIES.

(a) The Depositary shall not tender any Deposited Securities in response to any voluntary cash tender offer, exchange offer or similar offer made to holders of Deposited Securities (a "Voluntary Offer"), except when instructed in writing to do so by an Owner surrendering American Depositary Shares and subject to any conditions or procedures the Depositary may require.

(b) If the Depositary receives a written notice that Deposited Securities have been redeemed for cash or otherwise purchased for cash in a transaction that is mandatory and binding on the Depositary as a holder of those Deposited Securities (a "Redemption"), the Depositary, at the expense of the Company, shall (i) if required, surrender Deposited Securities that have been redeemed to the issuer of those securities or its agent on the redemption date, (ii) Disseminate a notice to Owners (A) notifying them of that Redemption, (B) calling for surrender of a corresponding number of American Depositary Shares and (C) notifying them that the called American Depositary Shares have been converted into a right only to receive the money received by the Depositary upon that Redemption and those net proceeds shall be the Deposited Securities to which Owners of those converted American Depositary Shares shall be entitled upon surrenders of those American Depositary Shares in accordance with Section 2.5 or 6.2 of the Deposit Agreement and (iii) distribute the money received upon that Redemption to the Owners entitled to it upon surrender by them of called American Depositary Shares in accordance with Section 2.5 of that Agreement (and, for the avoidance of doubt, Owners shall not be entitled to receive that money under Section 4.1 of that Agreement). If the Redemption affects less than all the Deposited Securities, the Depositary shall call for surrender a corresponding portion of the outstanding American Depositary Shares and only those American Depositary Shares will automatically be converted into a right to receive the net proceeds of the Redemption. The Depositary shall allocate the American Depositary Shares converted under the preceding sentence among the Owners pro-rata to their respective holdings of American Depositary Shares immediately prior to the Redemption, except that the allocations may be adjusted so that no fraction of a converted American Depositary Share is allocated to any Owner. A Redemption of all or substantially all of the Deposited Securities shall be a Termination Option Event.

(c) If the Depositary is notified of or there occurs any change in nominal or par value or any subdivision, combination or any other reclassification of the Deposited Securities or any recapitalization, reorganization, sale of assets substantially as an entirety, merger or consolidation affecting the issuer of the Deposited Securities or to which it is a party that is mandatory and binding on the Depositary as a holder of Deposited Securities and, as a result, securities or other property have been or will be delivered in exchange, conversion, replacement or in lieu of, Deposited Securities (a "Replacement"), the Depositary shall, if required, surrender the old Deposited Securities affected by that Replacement of Shares and hold, as new Deposited Securities under the Deposit Agreement, the new securities or other property delivered to it in that Replacement. However, the Depositary may elect to sell those new Deposited Securities if in the opinion of the Depositary it is not lawful or not practical for it to hold those new Deposited Securities under the Deposit Agreement because those new Deposited Securities may not be distributed to Owners without registration under the Securities Act of 1933 or for any other reason, at public or private sale, at such places and on such terms as it deems proper and proceed as if those new Deposited Securities had been Redeemed under paragraph (b) above. A Replacement shall be a Termination Option Event.

(d) In the case of a Replacement where the new Deposited Securities will continue to be held under the Deposit Agreement, the Depositary may call for the surrender of outstanding Receipts to be exchanged for new Receipts specifically describing the new Deposited Securities and the number of those new Deposited Securities represented by each American Depositary Share. If the number of Shares represented by each American Depositary Share decreases as a result of a Replacement, the Depositary may call for surrender of the American Depositary Shares to be exchanged on a mandatory basis for a lesser number of American Depositary Shares and may sell American Depositary Shares to the extent necessary to avoid distributing fractions of American Depositary Shares in that exchange and distribute the net proceeds of that sale to the Owners entitled to them.

(e) If there are no Deposited Securities with respect to American Depositary Shares, including if the Deposited Securities are cancelled, or the Deposited Securities with respect to American Depositary Shares become apparently worthless, the Depositary may call for surrender of those American Depositary Shares or may cancel those American Depositary Shares, upon notice to Owners, and that condition shall be a Termination Option Event.

18. LIABILITY OF THE COMPANY AND DEPOSITARY.

Neither the Depositary nor the Company nor any of their respective directors, employees, agents or affiliates shall incur any liability to any Owner or Holder:

(i) if by reason of (A) any provision of any present or future law or regulation or other act of the government of the United States, any State of the United States or any other state or jurisdiction, or of any governmental or regulatory authority or stock exchange; (B) (in the case of the Depositary only) any provision, present or future, of the articles of association or similar document of the Company, or by reason of any provision of any securities issued or distributed by the Company, or any offering or distribution thereof; or (C) any event or circumstance, whether natural or caused by a person or persons, that is beyond the ability of the Depositary or the Company, as the case may be, to prevent or counteract by reasonable care or effort (including, but not limited to earthquakes, floods, severe storms, fires, explosions, war, terrorism, civil unrest, labor disputes or criminal acts; interruptions or malfunctions of utility services, Internet or other communications lines or systems; unauthorized access to or attacks on computer systems or websites; or other failures or malfunctions of computer hardware or software or other systems or equipment), the Depositary or the Company is, directly or indirectly, prevented from, forbidden to or delayed in, or could be subject to any civil or criminal penalty on account of doing or performing and therefore does not do or perform, any act or thing that, by the terms of the Deposit Agreement or the Deposited Securities, it is provided shall be done or performed;

(ii) for any exercise of, or failure to exercise, any discretion provided for in the Deposit Agreement (including any determination by the Depositary to take, or not take, any action that the Deposit Agreement provides the Depositary may take);

(iii) for the inability of any Owner or Holder to benefit from any distribution, offering, right or other benefit that is made available to holders of Deposited Securities but is not, under the terms of the Deposit Agreement, made available to Owners or Holders; or

(iv) for any special, consequential or punitive damages for any breach of the terms of the Deposit Agreement.

Where, by the terms of a distribution to which Section 4.1, 4.2 or 4.3 of the Deposit Agreement applies, or an offering to which Section 4.4 of that Agreement applies, or for any other reason, that distribution or offering may not be made available to Owners, and the Depositary may not dispose of that distribution or offering on behalf of Owners and make the net proceeds available to Owners, then the Depositary shall not make that distribution or offering available to Owners, and shall allow any rights, if applicable, to lapse.

Neither the Company nor the Depositary assumes any obligation or shall be subject to any liability under the Deposit Agreement to Owners or Holders, except that they agree to perform their obligations specifically set forth in the Deposit Agreement without negligence or bad faith. The Depositary shall not be a fiduciary or have any fiduciary duty to Owners or Holders. The Depositary shall not be subject to any liability with respect to the validity or worth of the Deposited Securities. Neither the Depositary nor the Company shall be under any obligation to appear in, prosecute or defend any action, suit, or other proceeding in respect of any Deposited Securities or in respect of the American Depositary Shares, on behalf of any Owner or Holder or other person. Neither the Depositary nor the Company shall be liable for any action or non-action by it in reliance upon the advice of or information from legal counsel, accountants, any person presenting Shares for deposit, any Owner or Holder, or any other person believed by it in good faith to be competent to give such advice or information. Each of the Depositary and the Company may rely, and shall be protected in relying upon, any written notice, request, direction or other document believed by it to be genuine and to have been signed or presented by the proper party or parties. The Depositary shall not be liable for any acts or omissions made by a successor depositary whether in connection with a previous act or omission of the Depositary or in connection with a matter arising wholly after the removal or resignation of the Depositary, provided that in connection with the issue out of which such potential liability arises, the Depositary performed its obligations without negligence or bad faith while it acted as Depositary. The Depositary shall not be liable for the acts or omissions of any securities depository, clearing agency or settlement system in connection with or arising out of book-entry settlement of American Depositary Shares or Deposited Securities or otherwise. In the absence of bad faith on its part, the Depositary shall not be responsible for any failure to carry out any instructions to vote any of the Deposited Securities or for the manner in which any such vote is cast or the effect of any such vote. The Depositary shall have no duty to make any determination or provide any information as to the tax status of the Company or any liability for any tax consequences that may be incurred by Owners or Holders as a result of owning or holding American Depositary Shares. The Depositary shall not be liable for the inability or failure of an Owner or Holder to obtain the benefit of a foreign tax credit, reduced rate of withholding or refund of amounts withheld in respect of tax or any other tax benefit. No disclaimer of liability under the United States federal securities laws is intended by any provision of the Deposit Agreement.

19. RESIGNATION AND REMOVAL OF THE DEPOSITARY; APPOINTMENT OF SUCCESSOR CUSTODIAN.

The Depositary may at any time resign as Depositary under the Deposit Agreement by written notice of its election so to do delivered to the Company, to become effective upon the appointment of a successor depositary and its acceptance of such appointment as provided in the Deposit Agreement. The Depositary may at any time be removed by the Company by 90 days' prior written notice of that removal, to become effective upon the later of (i) the 90th day after delivery of the notice to the Depositary and (ii) the appointment of a successor depositary and its acceptance of its appointment as provided in the Deposit Agreement. The Depositary in its discretion may at any time appoint a substitute or additional custodian or custodians.

20. AMENDMENT.

The form of the Receipts and any provisions of the Deposit Agreement may at any time and from time to time be amended by agreement between the Company and the Depositary without the consent of Owners or Holders in any respect which they may deem necessary or desirable. Any amendment that would impose or increase any fees or charges (other than taxes and other governmental charges, registration fees, cable (including SWIFT) or facsimile transmission costs, delivery costs or other such expenses), or that would otherwise prejudice any substantial existing right of Owners, shall, however, not become effective as to outstanding American Depositary Shares until the expiration of 30 days after notice of that amendment has been Disseminated to the Owners of outstanding American Depositary Shares. Every Owner and Holder, at the time any amendment so becomes effective, shall be deemed, by continuing to hold American Depositary Shares or any interest therein, to consent and agree to that amendment and to be bound by the Deposit Agreement as amended thereby. Upon the effectiveness of an amendment to the form of Receipt, including a change in the number of Shares represented by each American Depositary Share, the Depositary may call for surrender of Receipts to be replaced with new Receipts in the amended form or call for surrender of American Depositary Shares to effect that change of ratio. In no event shall any amendment impair the right of the Owner to surrender American Depositary Shares and receive delivery of the Deposited Securities represented thereby, except in order to comply with mandatory provisions of applicable law.

21. TERMINATION OF DEPOSIT AGREEMENT.

(a) The Company may initiate termination of the Deposit Agreement by notice to the Depositary. The Depositary may initiate termination of the Deposit Agreement if (i) at any time 60 days shall have expired after the Depositary delivered to the Company a written resignation notice and a successor depositary has not been appointed and accepted its appointment as provided in Section 5.4 of that Agreement or (ii) a Termination Option Event has occurred. If termination of the Deposit Agreement is initiated, the Depositary shall Disseminate a notice of termination to the Owners of all American Depositary Shares then outstanding setting a date for termination (the "Termination Date"), which shall be at least 90 days after the date of that notice, and the Deposit Agreement shall terminate on that Termination Date.

(b) After the Termination Date, the Company shall be discharged from all obligations under the Deposit Agreement except for its obligations to the Depositary under Sections 5.8 and 5.9 of that Agreement.

(c) At any time after the Termination Date, the Depositary may sell the Deposited Securities then held under the Deposit Agreement and may thereafter hold uninvested the net proceeds of any such sale, together with any other cash then held by it hereunder, unsegregated and without liability for interest, for the pro rata benefit of the Owners of American Depositary Shares that remain outstanding, and those Owners will be general creditors of the Depositary with respect to those net proceeds and that other cash. After making that sale, the Depositary shall be discharged from all obligations under the Deposit Agreement, except (i) to account for the net proceeds and other cash (after deducting, in each case, the fee of the Depositary for the surrender of American Depositary Shares, any expenses for the account of the Owner of such American Depositary Shares in accordance with the terms and conditions of the Deposit Agreement and any applicable taxes or governmental charges) to pay them to Owners upon surrender of American Depositary Shares in accordance with Section 2.5 of that Agreement, (ii) for its obligations under Section 5.8 of that Agreement and (iii) to act as provided in paragraph (d) below.

(d) After the Termination Date, the Depositary shall continue to receive dividends and other distributions pertaining to Deposited Securities (that have not been sold), may sell rights and other property as provided in the Deposit Agreement and shall deliver Deposited Securities (or sale proceeds) upon surrender of American Depositary Shares (after payment or upon deduction, in each case, of the fee of the Depositary for the surrender of American Depositary Shares, any expenses for the account of the Owner of those American Depositary Shares in accordance with the terms and conditions of the Deposit Agreement and any applicable taxes or governmental charges). After the Termination Date, the Depositary shall not accept deposits of Shares or deliver American Depositary Shares. After the Termination Date, (i) the Depositary may refuse to accept surrenders of American Depositary Shares for the purpose of withdrawal of Deposited Securities (that have not been sold) or reverse previously accepted surrenders of that kind that have not settled if in its judgment the requested withdrawal would interfere with its efforts to sell the Deposited Securities, (ii) the Depositary will not be required to deliver cash proceeds of the sale of Deposited Securities until all Deposited Securities have been sold and (iii) the Depositary may discontinue the registration of transfers of American Depositary Shares and suspend the distribution of dividends and other distributions on Deposited Securities to the Owners and need not give any further notices or perform any further acts under the Deposit Agreement except as provided in Section 6.2 of that Agreement.

22. DTC DIRECT REGISTRATION SYSTEM AND PROFILE MODIFICATION SYSTEM.

(a) Notwithstanding the provisions of Section 2.4 of the Deposit Agreement, the parties acknowledge that DTC's Direct Registration System ("DRS") and Profile Modification System ("Profile") apply to the American Depositary Shares upon acceptance thereof to DRS by DTC. DRS is the system administered by DTC that facilitates interchange between registered holding of uncertificated securities and holding of security entitlements in those securities through DTC and a DTC participant. Profile is a required feature of DRS that allows a DTC participant, claiming to act on behalf of an Owner of American Depositary Shares, to direct the Depository to register a transfer of those American Depositary Shares to DTC or its nominee and to deliver those American Depositary Shares to the DTC account of that DTC participant without receipt by the Depository of prior authorization from the Owner to register that transfer.

(b) In connection with DRS/Profile, the parties acknowledge that the Depository will not determine whether the DTC participant that is claiming to be acting on behalf of an Owner in requesting registration of transfer and delivery as described in paragraph (a) above has the actual authority to act on behalf of that Owner (notwithstanding any requirements under the Uniform Commercial Code). For the avoidance of doubt, the provisions of Sections 5.3 and 5.8 of the Deposit Agreement apply to the matters arising from the use of the DRS/Profile. The parties agree that the Depository's reliance on and compliance with instructions received by the Depository through the DRS/Profile system and otherwise in accordance with the Deposit Agreement, shall not constitute negligence or bad faith on the part of the Depository.

23. ARBITRATION; SETTLEMENT OF DISPUTES.

Any controversy, claim or cause of action brought by any party hereto against the Company arising out of or relating to the Shares or other Deposited Securities, the American Depositary Shares, the Receipts or the Deposit Agreement, or the breach hereof or thereof, if so elected by the claimant, shall be settled by arbitration in accordance with the International Arbitration Rules of the American Arbitration Association, and judgment upon the award rendered by the arbitrators may be entered in any court having jurisdiction thereof.

The place of the arbitration shall be The City of New York, State of New York, United States of America, and the language of the arbitration shall be English.

The number of arbitrators shall be three, each of whom shall be disinterested in the dispute or controversy, shall have no connection with any party thereto, and shall be an attorney experienced in international securities transactions. Each party shall appoint one arbitrator and the two arbitrators shall select a third arbitrator who shall serve as chairperson of the tribunal. If a dispute, controversy or cause of action shall involve more than two parties, the parties shall attempt to align themselves in two sides (i.e., claimant(s) and respondent(s)), each of which shall appoint one arbitrator as if there were only two parties to such dispute, controversy or cause of action. If such alignment and appointment shall not have occurred within thirty (30) calendar days after the initiating party serves the arbitration demand, the American Arbitration Association shall appoint the three arbitrators, each of whom shall have the qualifications described above. The parties and the American Arbitration Association may appoint from among the nationals of any country, whether or not a party is a national of that country.

The arbitral tribunal shall have no authority to award any consequential, special or punitive damages or other damages not measured by the prevailing party's actual damages and may not, in any event, make any ruling, finding or award that does not conform to the terms and conditions of the Deposit Agreement.

24. APPOINTMENT OF AGENT FOR SERVICE OF PROCESS; SUBMISSION TO JURISDICTION; JURY TRIAL WAIVER; WAIVER OF IMMUNITIES.

The Company has (i) appointed Puglisi & Associates, 850 Library Avenue, Suite 204, Newark, Delaware as the Company's authorized agent in the United States upon which process may be served in any suit or proceeding (including any arbitration proceeding) arising out of or relating to the Shares or Deposited Securities, the American Depositary Shares, the Receipts or this Agreement, (ii) consented and submitted to the jurisdiction of any state or federal court in the State of New York in which any such suit or proceeding may be instituted, and (iii) agreed that service of process upon said authorized agent shall be deemed in every respect effective service of process upon the Company in any such suit or proceeding.

EACH PARTY TO THE DEPOSIT AGREEMENT (INCLUDING, FOR AVOIDANCE OF DOUBT, EACH OWNER AND HOLDER) THEREBY IRREVOCABLY WAIVES, TO THE FULLEST EXTENT PERMITTED BY APPLICABLE LAW, ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY IN ANY SUIT, ACTION OR PROCEEDING AGAINST THE COMPANY AND/OR THE DEPOSITARY DIRECTLY OR INDIRECTLY ARISING OUT OF OR RELATING TO THE SHARES OR OTHER DEPOSITED SECURITIES, THE AMERICAN DEPOSITARY SHARES OR THE RECEIPTS, THE DEPOSIT AGREEMENT OR ANY TRANSACTION CONTEMPLATED HEREIN OR THEREIN, OR THE BREACH HEREOF OR THEREOF, INCLUDING, WITHOUT LIMITATION, ANY QUESTION REGARDING EXISTENCE, VALIDITY OR TERMINATION (WHETHER BASED ON CONTRACT, TORT OR ANY OTHER THEORY).

To the extent that the Company or any of its properties, assets or revenues may have or hereafter become entitled to, or have attributed to it, any right of immunity, on the grounds of sovereignty or otherwise, from any legal action, suit or proceeding, from the giving of any relief in any respect thereof, from setoff or counterclaim, from the jurisdiction of any court, from service of process, from attachment upon or prior to judgment, from attachment in aid of execution or judgment, or other legal process or proceeding for the giving of any relief or for the enforcement of any judgment, in any jurisdiction in which proceedings may at any time be commenced, with respect to its obligations, liabilities or any other matter under or arising out of or in connection with the Shares or Deposited Securities, the American Depositary Shares, the Receipts or the Deposit Agreement, the Company, to the fullest extent permitted by law, hereby irrevocably and unconditionally waives, and agrees not to plead or claim, any such immunity and consents to such relief and enforcement.

3.1 Preemptive Right in respect of New Shares.

- (i) The Company hereby grants to each Shareholder of the Company a right to purchase up to its pro rata share of any New Shares that the Company may, from time to time after the Closing Date, propose to sell or issue on the same price, terms and conditions as the Company proposes to sell or issue to any potential investor. The Preferred Shareholders, Xizang Guoke, the Lead Ordinary Investor and the Haitong Shareholders (only in respect of such number of Ordinary Shares converted) shall also have a right of oversubscription if any Shareholder elects not to purchase its full pro rata share of the New Shares. For the purposes of Section 3.1: (a) each Shareholder's "pro rata share" shall be determined according to the number of the Ordinary Shares held by such Shareholder in relation to the aggregate number of all outstanding Equity Securities of the Company (calculated on an as to be fully converted to Ordinary Shares and on a Fully-Diluted Basis basis) immediately prior to the issuance of the New Shares; (b) for the purpose of giving effect to Section 3.1(ii)(b), Haitong Noteholders shall be treated as Shareholders and all the outstanding Notes owned by them shall be deemed to be fully converted into the Ordinary Shares immediately prior to the issuance of the New Shares; and (c) each Preferred Shareholder's "pro rata share" shall be determined according to the aggregate number of all Ordinary Shares convertible from the Preferred Shares held by such Preferred Shareholder immediately prior to the issuance of the New Shares in relation to the aggregate number of all outstanding Equity Securities of the Company (calculated on an as to be fully converted to Ordinary Shares and on a Fully-Diluted Basis basis), provided, however, the Shareholders shall not have such preemptive right in any of the following circumstances: (a) issuance of Ordinary Shares convertible from all or any part of the Notes; and (b) if the potential investor to whom the Company proposes to sell or issue New Shares is a Strategic Investor provided further that the Board of the Company shall give each Shareholder a notice which explains and specifies the benefits or/and advantages the Company will obtain with the join-in of such Strategic Investor.
- (ii) Procedure:
- (a) In the event that the Company proposes to issue any New Shares, it shall give each Shareholder written notice (an "Issuance Notice of New Shares") of such intention, describing (i) the type of New Shares, (ii) the identity of the prospective subscriber, and (iii) the price and the general terms upon which the Company proposes to issue such New Shares. Each Shareholder shall have thirty (30) days after the receipt of the Issuance Notice of New Shares to agree to purchase up to such Shareholder's pro rata share of such New Shares for the price and upon the terms specified in the Issuance Notice of New Shares by giving written notice to the Company and stating therein the quantity of New Shares to be purchased.

- (b) To the extent there is any Notes outstanding and not converted into Ordinary Shares by a Haitong Noteholder on the date of the Issuance Notice of New Shares, such Haitong Noteholder may, for the purpose of exercising its preemptive right under Section 3.1, without any prejudice to its conversion rights under the Notes Terms and Conditions, exercise its conversion right attached to any outstanding Notes within thirty (30) days after receipt of the Issuance Notice of New Shares in accordance with the Notes Terms and Conditions. The Company shall not issue any New Shares or deliver the Second Participation Notice of New Shares (as defined in Section 3.1(ii)(c)) unless and until the aforesaid conversion requested by such Haitong Noteholder has been completed in accordance with the Notes Terms and Conditions. Any Ordinary Shares converted by a Haitong Noteholder hereunder shall be taken into account in calculating Haitong Shareholder's pro rata share in respect of the issuance of the New Shares under Section 3.1.
- (c) In the event that any Shareholder fails to exercise its right to purchase its full pro rata share of the New Shares, the Company shall deliver a written notice (the "Second Participation Notice of New Shares") within five (5) days after the expiration of the aforementioned thirty (30) day period to each of the Preferred Shareholder, Xizang Guoke, Lead Ordinary Shareholder and the Haitong Shareholders (only in respect of such Ordinary Shares already converted) that have elected to purchase its entire pro rata share of the New Shares (the "Fully Participating Investors of New Shares") which notice shall set forth the number of the New Shares for which a Shareholder was entitled to purchase but that were not purchased by the Shareholder, pursuant to subsection (i) above (such shares, the "Overallotment New Shares"). Each Fully Participating Investor shall have five (5) days from the date of receipt of the Second Participation Notice of New Shares (the "Second Participation Period of New Shares") to notify the Company of its desire to purchase more than its pro rata share of the New Shares, stating the number of the additional New Shares it proposes to buy (the "Additional Number of New Shares"). Such notice may be given by telephone provided it is confirmed in writing within two (2) Business Days. If, as a result thereof, the total number of additional New Shares the Fully Participating Investors of New Shares propose to buy exceeds the total number of the Overallotment New Shares, then the Overallotment New Shares shall be allocated to such Fully Participating Investors of New Shares by allocating to each such Fully Participating Investor of New Shares the lesser of (A) the difference between the Additional Number of New Shares and the aggregate number of Overallotment New Shares that has already been allocated to it, and (B) its over-allotment pro rata share of the Overallotment New Shares that has not yet been allocated, which allocation step shall be repeated until all Overallotment New Shares are allocated. Each such Fully Participating Investor of New Shares who has been allocated all the Additional Number of New Shares shall cease to participate in any subsequent allocation step. For the purposes of determining the allocation of Overallotment New Shares that a Fully Participating Investor of New Shares will receive in each allocation step, such Investor's "over-allotment pro rata share" shall be determined according to the aggregate number of all Ordinary Shares or all Ordinary Shares convertible from the Preferred Shares held by such Fully Participating Investor of New Shares on the date of the Issuance Notice of New Shares in relation to the aggregate number of all Ordinary Shares and all Ordinary Shares convertible from the Preferred Shares held by all Fully Participating Investors of New Shares who participate in such allocation step on such date.

- (d) Payment for the New Shares to be purchased by the Shareholders shall be made by check or wire transfer in immediately available funds of the appropriate currency, against delivery of such New Shares to be purchased at the business address of the Company at the time of the scheduled closing therefor, which shall be no later than seventy (70) days after such Shareholders' receipt of the Issuance Notice of New Shares.

3.2 Preemptive Right in respect of New Notes.

- (i) the Company hereby grants each Investor a right to purchase up to its pro rata share of any New Notes that the Company may, from time to time after the Closing Date, propose to sell or issue on the same price, terms and conditions as the Company propose to sell or issue to any potential investor. The Preferred Shareholders, Xizang Guoke, the Lead Ordinary Investor, Haitong Noteholders and Haitong Shareholders shall also have a right of oversubscription if any Investor elects not to purchase its full pro rata share of the New Notes. For the purposes of Section 3.2, each Investor "pro rata share" shall be determined according to the number of the Equity Securities held by such Investor (calculated on an as converted to Ordinary Shares and on a Fully-Diluted Basis) in relation to the aggregate number of all Equity Securities (calculated on an as converted to Ordinary Shares and on a Fully-Diluted Basis) immediately prior to the issuance of the New Notes, provided, however, the Investors shall not have such preemptive right in any of the following circumstances: (a) issuance of any Notes to Haitong pursuant to the Notes Purchase Agreement, and (b) if the potential investor to whom the Company proposes to sell or issue New Notes is a Strategic Investor provided further that the Board of the Company shall give each Investor a notice which explains and specifies the benefits or/and advantages the Company will obtain with the join-in of such Strategic Investor.
- (ii) Procedures:
 - (a) In the event that the Company proposes to issue any New Notes, it shall give each Investor written notice (an "Issuance Notice of New Notes") of such intention, describing (i) the type of New Notes, (ii) the identity of the prospective subscriber, and (iii) the price and the general terms upon which the Company proposes to issue such New Notes. Each Investor shall have thirty (30) days after the receipt of the Issuance Notice of New Notes to agree to purchase up to such Investor's pro rata share of such New Notes for the price and upon the terms specified in the Issuance Notice of New Notes by giving written notice to the Company and stating therein the quantity of New Notes to be purchased.

- (b) In the event that any Investor fails to exercise its right to purchase its full pro rata share of the New Notes, the Company shall deliver a written notice (the “Second Participation Notice of New Notes”) within five (5) days after the expiration of the aforementioned thirty (30) day period to each Preferred Shareholder, Xizang Guoke, Lead Ordinary Shareholder and Haitong that have elected to purchase its entire pro rata share of the New Notes (the “Fully Participating Investors of New Notes”) which notice shall set forth the number of the New Notes for which the Investor was entitled to purchase but that were not purchased by such Investor pursuant to subsection (a) above (such New Notes, the “Over-allotment New Notes”). Each Fully Participating Investor of New Notes shall have five (5) days from the date of receipt of the Second Participation Notice (the “Second Participation Period of New Notes”) to notify the Company of its desire to purchase more than its pro rata share of the New Notes, stating the number of the additional New Notes it proposes to buy (the “Additional Number of New Notes”). Such notice may be given by telephone provided it is confirmed in writing within two (2) Business Days. If, as a result thereof, the total number of additional New Notes the Fully Participating Investors of New Notes propose to buy exceeds the total number of the Over-allotment New Notes, then the Over-allotment New Notes shall be allocated to such Fully Participating Investors of New Notes by allocating to each such Fully Participating Investor of New Notes the lesser of (A) the difference between the Additional Number of New Notes and the aggregate number of Over-allotment New Notes that has already been allocated to it, and (B) its over-allotment pro rata share of the Over-allotment New Notes that has not yet been allocated, which allocation step shall be repeated until all Over-allotment New Notes are allocated. Each such Fully Participating Investor of New Notes who has been allocated all the Additional Number of New Notes shall cease to participate in any subsequent allocation step. For the purposes of determining the allocation of Over-allotment New Notes that a Fully Participating Investor of New Notes will receive in each allocation step, such Investor’s “over-allotment pro rata share” shall be determined according to the aggregate number of all Equity Securities (calculated on an as converted to Ordinary Shares and on a Fully-Diluted Basis basis) held by such Fully Participating Investor of New Notes on the date of the Issuance Notice of New Notes in relation to the aggregate number of all Equity Securities (calculated on an as converted to Ordinary Shares and on a Fully-Diluted Basis basis) held by all Fully Participating Investors of New Notes who participate in such allocation step on such date.
- (c) Payment for the New Notes to be purchased by the Investors shall be made by check or wire transfer in immediately available funds of the appropriate currency, against delivery of such New Notes to be purchased at the business address of the Company at the time of the scheduled closing therefor, which shall be no later than seventy (70) days after such Investor’s receipt of the Issuance Notice of New Notes.

- 3.3 For a period of ninety (90) days following the expiration of the period during which any Investor may exercise its preemptive rights under this Section 3, the Company may sell any New Shares and/or New Notes with respect to which the Preemptive Rights under this Section 3 were not exercised, to the purchasers identified in the Issuance Notice of New Shares or Issuance Notice of New Notes (as the case may be) and at a price and upon terms not more favorable to the purchasers thereof than specified in the Issuance Notice of New Shares or Issuance Notice of New Notes (as the case may be). In the event the Company has not completed the sale of such New Shares and/or New Notes within such ninety (90) day period, the Company shall not and the other Covenantors shall cause the Company not to thereafter issue or sell any New Shares or New Notes, without first again offering such New Shares or New Notes to the Investors in the manner provided in this Section 3.

4.1. Restrictions on Ordinary Shares Owned by the Founder Parties.

- (i) Transfer Restrictions and Non-Competition. At any time prior to the Qualified IPO of the Company, without the prior written consent of the Investors the Founder Parties shall not transfer any Ordinary Shares directly or indirectly owned by them to other parties except to any entities wholly owned by such Founder Parties, nor shall such Founder Parties be engaged, make investments or otherwise involve in any business that shall compete against the business of the Group Company. Notwithstanding the foregoing, such transfer restrictions shall not apply to the transfer of the Ordinary Shares to the employees, officers, consultants or directors of the Company pursuant to the ESOP and as approved by the Board (including the affirmative vote of the Cashcapital Director and Haitong Director (if applicable)).
- (ii) Key Founder Restricted Shares. The Founder Parties agree and acknowledge that (a) all the Ordinary Shares held by the Founder Holdco 1, and Founder Holdco 5, as of the Closing Date, shall be designated as "Company Restricted Shares"; (b) all the shares of the Key Founder Holdco(s) held by other applicable Key Founder Holdco(s) as of the Closing Date shall be designated as "Indirect Founder Holdco Restricted Shares"; and (c) all the shares of the Key Founder Holdco(s) held by the Key Founders as of the Closing Date shall be designated as "Direct Founder Holdco Restricted Shares". Each of the Company Restricted Shares, the Indirect Founder Holdco Restricted Shares and Direct Founder Holdco Restricted Shares (collectively, the "Founder Restricted Shares") shall be subject to the restrictions in the form set forth in Exhibit D attached hereto.

- 4.2. Right of First Refusal and Right of Co-Sale. - 4.3. Transfer of Preferred Shares or Ordinary Shares held by certain Investors. Each Party agrees that the Preferred Shares or Ordinary Shares held by the Lead Ordinary Investors and Xizang Guoke are freely transferrable to any other third party other than to any competitor of the Group Companies in direct competition or indirect competition of the principal business of the Group Companies. For the sole purpose of this Section 4.3, only the business of data traffic operation shall mean indirect competition of the principal business of the Group Companies. For the avoidance of doubt, this Section 4.3 shall not apply to the following circumstances: (i) Haitong Noteholders shall have the right to transfer the Notes in accordance with the terms and conditions thereto; and (ii) Haitong Shareholders shall have the right to transfer Ordinary Shares to their respective Affiliates, including without limitation any fund or entities managed or advised by the Haitong Noteholders or Haitong Shareholders without any consent of the Company or any other Parties. Any Investor who makes any transfer under this Section 4.3 shall procure the transferee to agree in writing that it will adhere to, and be bound by, the terms of this Agreement as a Party to this Agreement by executing a deed of accession in the form set forth in Exhibit G attached hereto. Each party hereto irrevocably agrees to any transfer under this Section 4.3 and waives any right of first refusal or right of co-sale in respect of such transfer and any other contractual conditions or restrictions on such transfer, and shall execute such documents and take such actions as necessary to complete such transfer.
- 4.4. Permitted Transfer. Notwithstanding the foregoing or anything to the contrary herein, the rights of the Investors under Section 4.2 shall not apply to: (i) a repurchase of Shares from a Transferor by the Company pursuant to an agreement containing vesting and/or repurchase provisions approved by the Board including the Cashcapital Director and the Haitong Director (if applicable); (2) a transfer approved by the Board (including the Cashcapital Director and the Haitong Director (if applicable)) for the purpose of and as contemplated by the ESOP; (3) a transfer by the Transferor to its wholly owned entity; or (4) a redemption of the Shares by the Company under Section 5.3(i).

- 4.6. Transfer Defined. For the purpose of this Agreement, the term “transfer” shall include any direct or indirect transfer, sale, assignment or pledge, mortgage, and its verb form and the terms of “transferor” and “transferee” shall have the meaning correlative to the foregoing. In the case that any Ordinary Share is held by its ultimate beneficial owner through one or more level of holding companies, any transfer, repurchase, or new issuance of the shares of such holding companies or similar transactions that have the effect of changing the beneficial ownership of such Ordinary Share shall be deemed as an indirect transfer of such Ordinary Shares. The Parties agree that the restrictions on the transfer of the Ordinary Shares contained in this Agreement shall apply to such indirect transfer and shall not be circumvented by means of any indirect transfer of the Ordinary Shares.

5. ADDITIONAL AGREEMENTS

- 5.1. Registration Rights. The Company hereby grants to the Shareholders such registration rights in the form set forth in Exhibit F attached hereto.
- 5.2. Liquidation. If a Liquidation Event occurs, the Parties acknowledge and agree that distributions to the Shareholders of the Company shall be made in accordance with the Company’s Memorandum and Articles.

The redemption price for such Haitong Shareholder (the “Haitong Redemption Price”) shall be (i) the principal amount (the “Principal Amount”) of the Notes which had been converted into the Ordinary Shares that such Haitong Shareholder has requested the Company to redeem plus (ii) a premium which in aggregate with the Principal Amount, will provide such Haitong Shareholder with an IRR of 8% per annum on the Principal Amount, calculated from the Conversion Date of the Notes (or, where applicable, each Conversion Date of the relevant part of the Notes) to the date that Haitong Redemption Price has been fully paid.

Such assets or funds of the Company shall not be used to pay the redemption prices to other Shareholders under this Section 5.3 unless and until redemption payments payable to the Preferred Shareholders, Haitong Shareholders and A2 Ordinary Investors pursuant to the terms of this Agreement and other Transaction Documents have been made in full.

5.4. Tax Matters.

- (i) The Group Company shall comply with the applicable tax laws and comply with all record-keeping, reporting, and other requirements necessary for Haitong or Preferred Shareholder's compliance with any applicable tax laws. The Group Company shall use their respective commercially reasonable effort to avoid adverse tax status (such as "PRC resident enterprise" for any Group Company organized outside the PRC under the PRC tax laws, or "controlled foreign corporation" or "passive foreign investment company" under the U.S. tax laws).

The Shareholders and Haitong shall give full effect to and act in accordance with the provisions of this Agreement over the provisions of the Memorandum and Articles, and the Shareholders and Haitong shall exercise all voting and other rights and powers (including to procure any required alteration to the Memorandum and Articles to resolve such conflict or inconsistency) to make the provisions of this Agreement effective.

6. TERMINATION

This Agreement and all rights and covenants contained herein, including but not limited to those contained in Sections 2, 3, 4 and 5 (with the exception of the registration rights granted under Section 5.1, which shall survive the closing of a Qualified IPO in accordance with their terms), shall terminate on the closing of a Qualified IPO. All the preferred rights of the Shares shall terminate in the event that the Investors (other than Haitong) shall hold less than 5% of the total outstanding Shares of the Company (on an as converted basis) solely resulting from the sale of the Equity Securities as applicable. Notwithstanding the foregoing, Haitong's right to appoint the Haitong Director or the Observer set forth in Section 2.1, Section 2.2 and Section 2.3 shall terminate in the event that Haitong collectively hold less than 8% of the total outstanding Equity Securities of the Company (on an as converted basis). 2 Assumptions

The following opinions are given only as to, and based on, circumstances and matters of fact existing and known to us on the date of this opinion letter. These opinions only relate to the laws of the Cayman Islands which are in force on the date of this opinion letter. In giving these opinions we have relied (without further verification) upon the completeness and accuracy, as of the date of this opinion letter, of the Director’s Certificate and the Certificate of Good Standing. We have also relied upon the following assumptions, which we have not independently verified:

- 2.1 Copies of documents, conformed copies or drafts of documents provided to us are true and complete copies of, or in the final forms of, the originals.
- 2.2 All signatures, initials and seals are genuine.
- 2.3 There is nothing under any law (other than the law of the Cayman Islands), which would or might affect the opinions set out below.

3 Opinion

Based upon the foregoing and subject to the qualifications set out below and having regard to such legal considerations as we deem relevant, we are of the opinion that:

- 3.1 The Company has been duly incorporated as an exempted company with limited liability and is validly existing and in good standing with the Registrar of Companies under the laws of the Cayman Islands.
- 3.2 The authorised share capital of the Company, with effect immediately prior to the completion of the Company’s initial public offering of the ADSs representing the Shares, will be US\$100,000 divided into 2,000,000,000 shares comprising of (i) 1,700,000,000 Class A Ordinary Shares of a par value of US\$0.00005 each, (ii) 200,000,000 Class B Ordinary Shares of a par value of US\$0.00005 each, and (iii) 100,000,000 shares of a par value of US\$0.00005 each of such class or classes (however designated) as the board of directors may determine in accordance with the IPO Memorandum and Articles.
- 3.3 The issue and allotment of the Shares have been duly authorised and when allotted, issued and paid for as contemplated in the Registration Statement, the Shares will be legally issued and allotted, fully paid and non-assessable. As a matter of Cayman law, a share is only issued when it has been entered in the register of members (shareholders).
- 3.4 The statements under the caption “Taxation” in the prospectus forming part of the Registration Statement, to the extent that they constitute statements of Cayman Islands law, are accurate in all material respects and that such statements constitute our opinion.

4 Qualifications

In this opinion the phrase “non-assessable” means, with respect to the Shares in the Company, that a shareholder shall not, solely by virtue of its status as a shareholder, be liable for additional assessments or calls on the Shares by the Company or its creditors (except in exceptional circumstances, such as involving fraud, the establishment of an agency relationship or an illegal or improper purpose or other circumstances in which a court may be prepared to pierce or lift the corporate veil).

Except as specifically stated herein, we make no comment with respect to any representations and warranties which may be made by or with respect to the Company in any of the documents or instruments cited in this opinion or otherwise with respect to the commercial terms of the transactions, which are the subject of this opinion.

We hereby consent to the filing of this opinion as an exhibit to the Registration Statement and to the reference to our name under the headings “Enforceability of Civil Liabilities”, “Taxation” and “Legal Matters” and elsewhere in the prospectus included in the Registration Statement. SHARES SUBJECT TO THE PLAN

3.1 Number of Shares.

(a) Subject to the provisions of Article 9 and Section 3.1(b), the maximum aggregate number of Shares which may be issued pursuant to all Awards (the “**Award Pool**”) shall initially be 23,532,640 Shares (reserved exclusively for issuance pursuant to Restricted Share Units or Restricted Shares to be awarded to Directors, officers, and other eligible participants as approved by the Board), which shall be increased by a number equal to 1.0% of the total number of Shares issued and outstanding on the last day of the immediately preceding fiscal year on the first day of each fiscal year, commencing with the fiscal year ended December 31, 2020, if determined and approved by the Board for the relevant fiscal year.

(b) To the extent that an Award terminates, expires, or lapses for any reason, any Shares subject to the Award shall again be available for the grant of an Award pursuant to the Plan. To the extent permitted by Applicable Laws, Shares issued in assumption of, or in substitution for, any outstanding awards of any entity acquired in any form or combination by a Group Entity shall not be counted against Shares available for grant pursuant to the Plan. If any Restricted Shares are forfeited by the Participant or repurchased by the Company, such Shares may again be optioned, granted or awarded hereunder, subject to the limitations of Section 3.1(a).

3.2 Shares Distributed. Any Shares distributed pursuant to an Award may consist, in whole or in part, of authorized and unissued Shares, treasury Shares (subject to Applicable Laws) or Shares purchased on the open market. Additionally, at the discretion of the Committee, any Shares distributed pursuant to an Award may be represented by American Depository Shares. ARTICLE 4

ELIGIBILITY AND PARTICIPATION

4.1 Eligibility. Persons eligible to participate in this Plan include Employees, Consultants, and Directors, as determined by the Committee.

4.2 Participation. Subject to the provisions of the Plan, the Committee may, from time to time, select from among all eligible individuals, those to whom Awards shall be granted and shall determine the nature and amount of each Award. No individual shall have any right to be granted an Award pursuant to this Plan.

ARTICLE 5

OPTIONS

5.1 General. The Committee is authorized to grant Options to Participants on the following terms and conditions:

(a) Exercise Price. The exercise price per Share subject to an Option shall be determined by the Committee and set forth in the Award Agreement which may be a fixed price or a variable price related to the Fair Market Value of the Shares. The exercise price per Share subject to an Option may be amended or adjusted in the absolute discretion of the Committee, the determination of which shall be final, binding and conclusive. For the avoidance of doubt, to the extent not prohibited by Applicable Laws or any exchange rule, a downward adjustment of the exercise prices of Options mentioned in the preceding sentence shall be effective without the approval of the Company's shareholders or the approval of the affected Participants.

(b) Time and Conditions of Exercise. The Committee shall determine the time or times at which an Option may be exercised in whole or in part, including exercise prior to vesting; provided that the term of any Option granted under the Plan shall not exceed fifteen years, except as provided in Section 12.1. The Committee shall also determine any conditions, if any, that must be satisfied before all or part of an Option may be exercised.

(c) Payment. The Committee shall determine the methods by which the exercise price of an Option may be paid, the form of payment, including, without limitation (i) cash or check denominated in U.S. Dollars, (ii) to the extent permissible under the Applicable Laws, cash or check in Chinese Renminbi, (iii) cash or check denominated in any other local currency as approved by the Committee, (iv) Shares held for such period of time as may be required by the Committee in order to avoid adverse financial accounting consequences and having a Fair Market Value on the date of delivery equal to the aggregate exercise price of the Option or exercised portion thereof, (v) after the Trading Date the delivery of a notice that the Participant has placed a market sell order with a broker with respect to Shares then issuable upon exercise of the Option, and that the broker has been directed to pay a sufficient portion of the net proceeds of the sale to the Company in satisfaction of the Option exercise price; provided that payment of such proceeds is then made to the Company upon settlement of such sale, (vi) other property acceptable to the Committee with a Fair Market Value equal to the exercise price, or (vii) any combination of the foregoing. Notwithstanding any other provision of the Plan to the contrary, no Participant who is a member of the Board or an "executive officer" of the Company within the meaning of Section 13(k) of the Exchange Act shall be permitted to pay the exercise price of an Option in any method which would violate Section 13(k) of the Exchange Act.

(d) Effects of Termination of Employment or Service on Options. Termination of employment or service shall have the following effects on Options granted to the Participants:

(i) Dismissal for Cause. Unless otherwise provided in the Award Agreement, if a Participant's employment by or service to the Service Recipient is terminated by the Service Recipient for Cause, the Participant's Options will terminate upon such termination, whether or not the Option is then vested and/or exercisable;

(ii) Death or Disability. Unless otherwise provided in the Award Agreement, if a Participant's employment by or service to the Service Recipient terminates as a result of the Participant's death or Disability:

- (a) the Participant (or his or her legal representative or beneficiary, in the case of the Participant's Disability or death, respectively), will have until the date that is 12 months after the Participant's termination of Employment to exercise the Participant's Options (or portion thereof) to the extent that such Options were vested and exercisable on the date of the Participant's termination of Employment on account of death or Disability;
- (b) the Options, to the extent not vested and exercisable on the date of the Participant's termination of Employment or service, shall terminate upon the Participant's termination of Employment or service on account of death or Disability; and
- (c) the Options, to the extent exercisable for the 12-month period following the Participant's termination of Employment or service and not exercised during such period, shall terminate at the close of business on the last day of the 12-month period.

(iii) Other Terminations of Employment or Service. Unless otherwise provided in the Award Agreement, if a Participant's employment by or service to the Service Recipient terminates for any reason other than a termination by the Service Recipient for Cause or because of the Participant's death or Disability:

- (a) the Participant will have until the date that is 90 days after the Participant's termination of Employment or service to exercise his or her Options (or portion thereof) to the extent that such Options were vested and exercisable on the date of the Participant's termination of Employment or service;
- (b) the Options, to the extent not vested and exercisable on the date of the Participant's termination of Employment or service, shall terminate upon the Participant's termination of Employment or service; and
- (c) the Options, to the extent exercisable for the 90-day period following the Participant's termination of Employment or service and not exercised during such period, shall terminate at the close of business on the last day of the 90-day period.

(e) Evidence of Grant. All Options shall be evidenced by an Award Agreement between the Company and the Participant. The Award Agreement shall include such additional provisions as may be specified by the Committee.

ARTICLE 6

RESTRICTED SHARES

6.1 Grant of Restricted Shares. The Committee, at any time and from time to time, may grant Restricted Shares to Participants as the Committee, in its sole discretion, shall determine. The Committee, in its sole discretion, shall determine the number of Restricted Shares to be granted to each Participant.

6.2 Restricted Shares Award Agreement. Each Award of Restricted Shares shall be evidenced by an Award Agreement that shall specify the period of restriction, the number of Restricted Shares granted, and such other terms and conditions as the Committee, in its sole discretion, shall determine. Unless the Committee determines otherwise, Restricted Shares shall be held by the Company as escrow agent until the restrictions on such Restricted Shares have lapsed.

6.3 Issuance and Restrictions. Restricted Shares shall be subject to such restrictions on transferability and other restrictions as the Committee may impose (including, without limitation, limitations on the right to vote Restricted Shares or the right to receive dividends on the Restricted Shares). These restrictions may lapse separately or in combination at such times, pursuant to such circumstances, in such installments, or otherwise, as the Committee determines at the time of the grant of the Award or thereafter.

6.4 Forfeiture/Repurchase. Except as otherwise determined by the Committee at the time of the grant of the Award or thereafter, upon termination of employment or service during the applicable restriction period, Restricted Shares that are at that time subject to restrictions shall be forfeited or repurchased in accordance with the Award Agreement; provided, however, the Committee may (a) provide in any Restricted Share Award Agreement that restrictions or forfeiture and repurchase conditions relating to Restricted Shares will be waived in whole or in part in the event of terminations resulting from specified causes, and (b) in other cases waive in whole or in part restrictions or forfeiture and repurchase conditions relating to Restricted Shares.

6.5 Certificates for Restricted Shares. Restricted Shares granted pursuant to the Plan may be evidenced in such manner as the Committee shall determine. If certificates representing Restricted Shares are registered in the name of the Participant, certificates must bear an appropriate legend referring to the terms, conditions, and restrictions applicable to such Restricted Shares, and the Company may, at its discretion, retain physical possession of the certificate until such time as all applicable restrictions lapse.

6.6 Removal of Restrictions. Except as otherwise provided in this Article 6, Restricted Shares granted under the Plan shall be released from escrow as soon as practicable after the last day of the period of restriction. The Committee, in its discretion, may accelerate the time at which any restrictions shall lapse or be removed. After the restrictions have lapsed, the Participant shall be entitled to have any legend or legends under Section 6.5 removed from his or her Share certificate, and the Shares shall be freely transferable by the Participant, subject to applicable legal restrictions. The Committee (in its discretion) may establish procedures regarding the release of Shares from escrow and the removal of legends, as necessary or appropriate to minimize administrative burdens on the Company.

ARTICLE 7

7.1 Grant of Restricted Share Units. The Committee, at any time and from time to time, may grant Restricted Share Units to Participants as the Committee, in its sole discretion, shall determine. The Committee, in its sole discretion, shall determine the number of Restricted Share Units to be granted to each Participant.

7.2 Restricted Share Units Award Agreement. Each Award of Restricted Share Units shall be evidenced by an Award Agreement that shall specify any vesting conditions, the number of Restricted Share Units granted, and such other terms and conditions as the Committee, in its sole discretion, shall determine.

7.3 Form and Timing of Payment of Restricted Share Units. At the time of grant, the Committee shall specify the date or dates and/or event or events upon on which the Restricted Share Units shall become fully vested and nonforfeitable. Upon vesting, the Committee, in its sole discretion, may pay Restricted Share Units in the form of cash, Shares or a combination thereof.

7.4 Forfeiture/Repurchase. Except as otherwise determined by the Committee at the time of the grant of the Award or thereafter, upon termination of employment or service during the applicable restriction period, Restricted Share Units that are at that time unvested shall be forfeited or repurchased in accordance with the Award Agreement; *provided, however*, the Committee may (a) provide in any Restricted Share Unit Award Agreement that restrictions or forfeiture and repurchase conditions relating to Restricted Share Units will be waived in whole or in part in the event of terminations resulting from specified causes, and (b) in other cases waive in whole or in part restrictions or forfeiture and repurchase conditions relating to Restricted Share Units.

ARTICLE 8

PROVISIONS APPLICABLE TO AWARDS

8.1 Award Agreement. Awards under the Plan shall be evidenced by Award Agreements that set forth the terms, conditions and limitations for each Award which may include the term of an Award, the provisions applicable in the event the Participant's employment or service terminates, and the Company's authority to unilaterally or bilaterally amend, modify, suspend, cancel or rescind an Award.

8.2 No Transferability; Limited Exception to Transfer Restrictions.

(a) Limits on Transfer. Unless otherwise expressly provided in (or pursuant to) this Section 8.2, by applicable law and by the Award Agreement, as the same may be amended:

(i) all Awards are non-transferable and will not be subject in any manner to sale, transfer, anticipation, alienation, assignment, pledge, encumbrance or charge;

(ii) Awards will be exercised only by the Participant; and

(iii) amounts payable or shares issuable pursuant to an Award will be delivered only to (or for the account of), and, in the case of Shares, registered in the name of, the Participant.

In addition, the shares shall be subject to the restrictions set forth in the applicable Award Agreement.

(b) Further Exceptions to Limits on Transfer. The exercise and transfer restrictions in Section 8.2(a) will not apply to:

(i) transfers to the Company or a Subsidiary;

(ii) transfers by gift to "immediate family" as that term is defined in SEC Rule 16a-1(e) promulgated under the Exchange Act;

(iii) the designation of a beneficiary to receive benefits if the Participant dies or, if the Participant has died, transfers to or exercises by the Participant's beneficiary, or, in the absence of a validly designated beneficiary, transfers by will or the laws of descent and distribution; or

(iv) if the Participant has suffered a disability, permitted transfers or exercises on behalf of the Participant by the Participant's duly authorized legal representative; or

(v) subject to the prior approval of the Committee, the chief executive officer of the Company, or an executive officer or director of the Company authorized by the Committee, transfer to one or more natural persons who are the Participant's family members or entities owned and controlled by the Participant and/or the Participant's family members, including but not limited to trusts or other entities whose beneficiaries or beneficial owners are the Participant and/or the Participant's family members, or to such other persons or entities as may be expressly approved by the Committee, pursuant to such conditions and procedures as the Committee or may establish. Any permitted transfer shall be subject to the condition that the Committee receives evidence satisfactory to it that the transfer is being made for estate and/or tax planning purposes and on a basis consistent with the Company's lawful issue of securities.

Notwithstanding anything else in this Section 8.2(b) to the contrary, but subject to compliance with all Applicable Laws, Restricted Shares and Restricted Share Units will be subject to any and all transfer restrictions under the Code applicable to such Awards or necessary to maintain the intended tax consequences of such Awards. Notwithstanding clause (b) above but subject to compliance with all Applicable Laws, any contemplated transfer by gift to "immediate family" as referenced in clause (b) above is subject to the condition precedent that the transfer be approved by the Administrator in order for it to be effective.

8.3 Beneficiaries. Notwithstanding Section 8.2, a Participant may, in the manner determined by the Committee, designate a beneficiary to exercise the rights of the Participant and to receive any distribution with respect to any Award upon the Participant's death. A beneficiary, legal guardian, legal representative, or other person claiming any rights pursuant to the Plan is subject to all terms and conditions of the Plan and any Award Agreement applicable to the Participant, except to the extent the Plan and Award Agreement otherwise provide, and to any additional restrictions deemed necessary or appropriate by the Committee. If no beneficiary has been designated or survives the Participant, payment shall be made to the person entitled thereto pursuant to the Participant's will or the laws of descent and distribution. Subject to the foregoing, a beneficiary designation may be changed or revoked by a Participant at any time provided the change or revocation is filed with the Committee.

8.4 Performance Objectives and Other Terms. The Committee, in its discretion, may set performance objectives or other vesting criteria which, depending on the extent to which they are met, will determine the number or value of the Awards that will be granted or paid out to the Participants.

ARTICLE 9

CHANGES IN CAPITAL STRUCTURE

9.1 Adjustments. In the event of any dividend, share split, combination or exchange of Shares, amalgamation, arrangement or consolidation, spin-off, recapitalization or other distribution (other than normal cash dividends) of Company assets to its shareholders, or any other change affecting the shares of Shares or the share price of a Share, the Committee shall make such proportionate adjustments, if any, as the Committee in its discretion may deem appropriate to reflect such change with respect to (a) the aggregate number and type of shares that may be issued under the Plan (including, but not limited to, adjustments of the limitations in Section 3.1); (b) the terms and conditions of any outstanding Awards (including, without limitation, any applicable performance targets or criteria with respect thereto); and (c) the grant or exercise price per share for any outstanding Awards under the Plan.

9.2 Corporate Transactions. Except as may otherwise be provided in any Award Agreement or any other written agreement entered into by and between the Company and a Participant, if the Committee anticipates the occurrence, or upon the occurrence, of a Corporate Transaction, the Committee may, in its sole discretion, provide for (i) any and all Awards outstanding hereunder to terminate at a specific time in the future and shall give each Participant the right to exercise the vested portion of such Awards during a period of time as the Committee shall determine, or (ii) the purchase of any Award for an amount of cash equal to the amount that could have been attained upon the exercise of such Award (and, for the avoidance of doubt, if as of such date the Committee determines in good faith that no amount would have been attained upon the exercise of such Award, then such Award may be terminated by the Company without payment), or (iii) the replacement of such Award with other rights or property selected by the Committee in its sole discretion or the assumption of or substitution of such Award by the successor or surviving corporation, or a Parent or Subsidiary thereof, with appropriate adjustments as to the number and kind of Shares and prices, or (iv) payment of such Award in cash based on the value of Shares on the date of the Corporate Transaction plus reasonable interest on the Award through the date as determined by the Committee when such Award would otherwise be vested or have been paid in accordance with its original terms, if necessary to comply with Section 409A of the Code.

9.3 Outstanding Awards – Other Changes. In the event of any other change in the capitalization of the Company or corporate change other than those specifically referred to in this Article 9, the Committee may, in its absolute discretion, make such adjustments in the number and class of shares subject to Awards outstanding on the date on which such change occurs and in the per share grant or exercise price of each Award as the Committee may consider appropriate to prevent dilution or enlargement of rights.

9.4 No Other Rights. Except as expressly provided in the Plan, no Participant shall have any rights by reason of any subdivision or consolidation of Shares of any class, the payment of any dividend, any increase or decrease in the number of shares of any class or any dissolution, liquidation, merger, or consolidation of the Company or any other corporation. Except as expressly provided in the Plan or pursuant to action of the Committee under the Plan, and no issuance by the Company of shares of any class, or securities convertible into shares of any class, shall affect, and no adjustment by reason thereof shall be made with respect to, the number of Shares subject to an Award or the grant or exercise price of any Award.

Notwithstanding the foregoing, the full Board, acting by majority of its members in office, shall conduct the general administration of the Plan if required by Applicable Laws, and with respect to Awards granted to the Committee members, Independent Directors and executive officers of the Company and for purposes of such Awards the term “Committee” as used in the Plan shall be deemed to refer to the Board.

10.2 Action by the Committee. A majority of the Committee shall constitute a quorum. The acts of a majority of the members present at any meeting at which a quorum is present, and acts approved unanimously in writing all members of the Committee in lieu of a meeting, shall be deemed the acts of the Committee. Each member of the Committee is entitled to, in good faith, rely or act upon any report or other information furnished to that member by any officer or other employee of a Group Entity, the Company’s independent certified public accountants, or any executive compensation consultant or other professional retained by the Company to assist in the administration of the Plan.

- (e) determine whether, to what extent, and pursuant to what circumstances an Award may be settled in, or the exercise price of an Award may be paid in, cash, Shares, other Awards, or other property, or an Award may be canceled, forfeited, or surrendered;
- (f) prescribe the form of each Award Agreement, which need not be identical for each Participant;
- (g) decide all other matters that must be determined in connection with an Award;
- (h) establish, adopt, or revise any rules and regulations as it may deem necessary or advisable to administer the Plan;
- (i) interpret the terms of, and any matter arising pursuant to, the Plan or any Award Agreement;

(j) amend terms and conditions of Award Agreements; and

(k) make all other decisions and determinations that may be required pursuant to the Plan or as the Committee deems necessary or advisable to administer the Plan, including design and adopt from time to time new types of Awards that are in compliance with Applicable Laws.

10.4 Decisions Binding. The Committee's interpretation of the Plan, any Awards granted pursuant to the Plan, any Award Agreement and all decisions and determinations by the Committee with respect to the Plan are final, binding, and conclusive on all parties.

ARTICLE 11

11.2 Expiration Date. The Plan will expire on, and no Award may be granted pursuant to the Plan after, the fifteenth anniversary of the Effective Date. Any Awards that are outstanding on the fifteenth anniversary of the Effective Date shall remain in force according to the terms of the Plan and the applicable Award Agreement.

ARTICLE 12

AMENDMENT, MODIFICATION, AND TERMINATION

12.1 Amendment, Modification, and Termination. At any time and from time to time, the Board may terminate, amend or modify the Plan; provided, however, that (a) to the extent necessary and desirable to comply with Applicable Laws or stock exchange rules, the Company shall obtain shareholder approval of any Plan amendment in such a manner and to such a degree as required, unless the Company decides to follow home country practice, and (b) unless the Company decides to follow home country practice, shareholder approval is required for any amendment to the Plan that (i) increases the number of Shares available under the Plan (other than any adjustment as provided by Article 9 or Section 3.1(a)), or (ii) permits the Committee to extend the term of the Plan or the exercise period for an Option beyond fifteen years from the date of grant.

12.2 Awards Previously Granted. Except with respect to amendments made pursuant to Section 12.1, no termination, amendment, or modification of the Plan shall adversely affect in any material way any Award previously granted pursuant to the Plan without the prior written consent of the Participant.

ARTICLE 13

GENERAL PROVISIONS

13.1 No Rights to Awards. No Participant, employee, or other person shall have any claim to be granted any Award pursuant to the Plan, and neither the Company nor the Committee is obligated to treat Participants, employees, and other persons uniformly.

13.2 No Shareholders Rights. No Award gives the Participant any of the rights of a shareholder of the Company unless and until Shares are in fact issued to such person in connection with such Award.

13.3 Taxes. No Shares shall be delivered under the Plan to any Participant until such Participant has made arrangements acceptable to the Committee for the satisfaction of any income and employment tax withholding obligations under Applicable Laws. The Company or any Subsidiary shall have the authority and the right to deduct or withhold, or require a Participant to remit to the Company, an amount sufficient to satisfy all applicable taxes (including the Participant's payroll tax obligations) required or permitted by Applicable Laws to be withheld with respect to any taxable event concerning a Participant arising as a result of this Plan. The Committee may in its discretion and in satisfaction of the foregoing requirement allow a Participant to elect to have the Company withhold Shares otherwise issuable under an Award (or allow the return of Shares) having a Fair Market Value equal to the sums required to be withheld. Notwithstanding any other provision of the Plan, the number of Shares which may be withheld with respect to the issuance, vesting, exercise or payment of any Award (or which may be repurchased from the Participant of such Award after such Shares were acquired by the Participant from the Company) in order to satisfy any income and payroll tax liabilities applicable to the Participant with respect to the issuance, vesting, exercise or payment of the Award shall, unless specifically approved by the Committee, be limited to the number of Shares which have a Fair Market Value on the date of withholding or repurchase equal to the aggregate amount of such liabilities based on the minimum statutory withholding rates for the applicable income and payroll tax purposes that are applicable to such supplemental taxable income.

13.4 No Right to Employment or Services. Nothing in the Plan or any Award Agreement shall interfere with or limit in any way the right of the Service Recipient to terminate any Participant's employment or services at any time, nor confer upon any Participant any right to continue in the employment or services of any Service Recipient.

13.5 Unfunded Status of Awards. The Plan is intended to be an "unfunded" plan for incentive compensation. With respect to any payments not yet made to a Participant pursuant to an Award, nothing contained in the Plan or any Award Agreement shall give the Participant any rights that are greater than those of a general creditor of the relevant Group Entity.

13.6 Indemnification. To the extent allowable pursuant to Applicable Laws, each member of the Committee or of the Board shall be indemnified and held harmless by the Company from any loss, cost, liability, or expense that may be imposed upon or reasonably incurred by such member in connection with or resulting from any claim, action, suit, or proceeding to which he or she may be a party or in which he or she may be involved by reason of any action or failure to act pursuant to the Plan and against and from any and all amounts paid by him or her in satisfaction of judgment in such action, suit, or proceeding against him or her; provided he or she gives the Company an opportunity, at its own expense, to handle and defend the same before he or she undertakes to handle and defend it on his or her own behalf. The foregoing right of indemnification shall not be exclusive of any other rights of indemnification to which such persons may be entitled pursuant to the Company's Memorandum of Association and Articles of Association, as a matter of law, or otherwise, or any power that the Company may have to indemnify them or hold them harmless.

13.7 Expenses. The expenses of administering the Plan shall be borne by the Group Entities.

13.8 Fractional Shares. No fractional Shares shall be issued and the Committee shall determine, in its discretion, whether cash shall be given in lieu of fractional Shares or whether such fractional Shares shall be eliminated by rounding up or down as appropriate.

13.9 Government and Other Regulations. The obligation of the Company to make payment of awards in Shares or otherwise shall be subject to all Applicable Laws, and to such approvals by government agencies as may be required. The Company shall be under no obligation to register any of the Shares paid pursuant to the Plan under the Securities Act or any other similar law in any applicable jurisdiction. If the Shares paid pursuant to the Plan may in certain circumstances be exempt from registration pursuant to the Securities Act or other Applicable Laws, the Company may restrict the transfer of such Shares in such manner as it deems advisable to ensure the availability of any such exemption.

13.10 Governing Law. The Plan and all Award Agreements shall be construed in accordance with and governed by the laws of the Cayman Islands.

13.11 Section 409A. To the extent that the Committee determines that any Award granted under the Plan is or may become subject to Section 409A of the Code, the Award Agreement evidencing such Award shall incorporate the terms and conditions required by Section 409A of the Code. To the extent applicable, the Plan and the Award Agreements shall be interpreted in accordance with Section 409A of the Code and the U.S. Department of Treasury regulations and other interpretative guidance issued thereunder, including without limitation any such regulation or other guidance that may be issued after the Effective Date. Notwithstanding any provision of the Plan to the contrary, in the event that following the Effective Date the Committee determines that any Award may be subject to Section 409A of the Code and related Department of Treasury guidance (including such Department of Treasury guidance as may be issued after the Effective Date), the Committee may adopt such amendments to the Plan and the applicable Award agreement or adopt other policies and procedures (including amendments, policies and procedures with retroactive effect), or take any other actions, that the Committee determines are necessary or appropriate to (a) exempt the Award from Section 409A of the Code and/or preserve the intended tax treatment of the benefits provided with respect to the Award, or (b) comply with the requirements of Section 409A of the Code and related U.S. Department of Treasury guidance.

INDEMNIFICATION AGREEMENT

THIS INDEMNIFICATION AGREEMENT (this "Agreement") is made as of _____, 2019 by and between UCLOUDLINK GROUP INC., an exempted company incorporated and existing under the laws of the Cayman Islands (the "Company"), and _____ (ID Card No. _____) (the "Indemnitee").

WHEREAS, the Indemnitee has agreed to serve as a director or officer of the Company and in such capacity will render valuable services to the Company; and

WHEREAS, in order to induce and encourage highly experienced and capable persons such as the Indemnitee to render valuable services to the Company, the board of directors of the Company (the "Board") has determined that this Agreement is not only reasonable and prudent, but necessary to promote and ensure the best interests of the Company and its shareholders;

NOW, THEREFORE, in consideration of the premises and mutual agreements hereinafter set forth, and other good and valuable consideration, including, without limitation, the service of the Indemnitee, the receipt of which hereby is acknowledged, and in order to induce the Indemnitee to render valuable services the Company, the Company and the Indemnitee hereby agree as follows:

1. Definitions. As used in this Agreement:

(a) "Change in Control" shall mean a change in control of the Company of a nature that would be required to be reported in response to Item 6(e) of Schedule 14A of Regulation 14A (or in response to any similar item on any similar or successor schedule or form) promulgated under the United States Securities Exchange Act of 1934, as amended, and the rules and regulations promulgated thereunder (collectively, the "Act"), whether or not the Company is then subject to such reporting requirement; provided, however, that, without limitation, such a Change in Control shall be deemed to have occurred (irrespective of the applicability of the initial clause of this definition) if (i) any "person" (as such term is used in Sections 13(d) and 14(d) of the Act, but excluding any trustee or other fiduciary holding securities pursuant to an employee benefit or welfare plan or employee share plan of the Company or any subsidiary or affiliate of the Company, or any entity organized, appointed, established or holding securities of the Company with voting power for or pursuant to the terms of any such plan) becomes the "beneficial owner" (as defined in Rule 13d-3 under the Act), directly or indirectly, of securities of the Company representing 30% or more of the combined voting power of the Company's then outstanding securities without the prior approval of at least two-thirds of the Continuing Directors (as defined below) in office immediately prior to such person's attaining such interest; (ii) the Company is a party to a merger, consolidation, scheme of arrangement, sale of assets or other reorganization, or a proxy contest, as a consequence of which Continuing Directors in office immediately prior to such transaction or event constitute less than a majority of the Board of the Company (or any successor entity) thereafter; or (iii) during any period of two (2) consecutive years, individuals who at the beginning of such period constituted the Board of the Company (including for this purpose any new director whose election or nomination for election by the Company's shareholders was approved by a vote of at least two-thirds of the directors then still in office who were directors at the beginning of such period) (such directors being referred to herein as "Continuing Directors") cease for any reason to constitute at least a majority of the Board of the Company.

(b) “Disinterested Director” with respect to any request by the Indemnitee for indemnification or advancement of expenses hereunder shall mean a director of the Company who neither is nor was a party to the Proceeding (as defined below) in respect of which indemnification or advancement is being sought by the Indemnitee.

(c) The term “Expenses” shall mean, without limitation, expenses of Proceedings, including attorneys’ fees, disbursements and retainers, accounting and witness fees, expenses related to preparation for service as a witness and to service as a witness, travel and deposition costs, expenses of investigations, judicial or administrative proceedings and appeals, amounts paid in settlement of a Proceeding by or on behalf of the Indemnitee, costs of attachment or similar bonds, any expenses of attempting to establish or establishing a right to indemnification or advancement of expenses, under this Agreement, the Company’s Memorandum of Association and Articles of Association as currently in effect (the “Articles”), applicable law or otherwise, and reasonable compensation for time spent by the Indemnitee in connection with the investigation, defense or appeal of a Proceeding or action for indemnification for which the Indemnitee is not otherwise compensated by the Company or any third party. The term “Expenses” shall not include the amount of judgments, fines, interest or penalties, or excise taxes assessed with respect to any employee benefit or welfare plan, which are actually levied against or sustained by the Indemnitee to the extent sustained after final adjudication.

(d) The term “Independent Legal Counsel” shall mean any firm of attorneys reasonably selected by the Board of the Company, so long as such firm has not represented the Company, the Company’s subsidiaries or affiliates, the Indemnitee, any entity controlled by the Indemnitee, or any party adverse to the Company, within the preceding five (5) years. Notwithstanding the foregoing, the term “Independent Legal Counsel” shall not include any person who, under applicable standards of professional conduct then prevailing, would have a conflict of interest in representing either the Company or the Indemnitee in an action to determine the Indemnitee’s right to indemnification or advancement of expenses under this Agreement, the Company’s Articles, applicable law or otherwise.

(e) The term “Proceeding” shall mean any threatened, pending or completed action, suit, arbitration, alternate dispute resolution mechanism, or other proceeding (including, without limitation, an appeal therefrom), formal or informal, whether brought in the name of the Company or otherwise, whether of a civil, criminal, administrative or investigative nature, and whether by, in or involving a court or an administrative, other governmental or private entity or body (including, without limitation, an investigation by the Company or its Board), by reason of (i) the fact that the Indemnitee is or was a director or officer of the Company, or is or was serving at the request of the Company as an agent of another enterprise, whether or not the Indemnitee is serving in such capacity at the time any liability or expense is incurred for which indemnification or reimbursement is to be provided under this Agreement, (ii) any actual or alleged act or omission or neglect or breach of duty, including, without limitation, any actual or alleged error or misstatement or misleading statement, which the Indemnitee commits or suffers while acting in any such capacity, or (iii) the Indemnitee attempting to establish or establishing a right to indemnification or advancement of expenses pursuant to this Agreement, the Company’s Articles, applicable law or otherwise.

(f) The phrase “servicing at the request of the Company as an agent of another enterprise” or any similar terminology shall mean, unless the context otherwise requires, serving at the request of the Company as a director, officer, employee or agent of another corporation, partnership, joint venture, limited liability company, trust, employee benefit or welfare plan or other enterprise, foreign or domestic. The phrase “servicing at the request of the Company” shall include, without limitation, any service as a director/an executive officer of the Company which imposes duties on, or involves services by, such director/executive officer with respect to the Company or any of the Company’s subsidiaries, affiliates, employee benefit or welfare plans, such plan’s participants or beneficiaries or any other enterprise, foreign or domestic. In the event that the Indemnitee shall be a director, officer, employee or agent of another corporation, partnership, joint venture, limited liability company, trust, employee benefit or welfare plan or other enterprise, foreign or domestic, 50% or more of the ordinary shares, combined voting power or total equity interest of which is owned by the Company or any subsidiary or affiliate thereof, then it shall be presumed conclusively that the Indemnitee is so acting at the request of the Company.

2. Services by the Indemnitee. The Indemnitee agrees to serve as a director or officer of the Company under the terms of the Indemnitee’s agreement with the Company for so long as the Indemnitee is duly elected or appointed or until such time as the Indemnitee tenders a resignation in writing or is removed from the Indemnitee’s position; provided, however, that the Indemnitee may at any time and for any reason resign from such position (subject to any other contractual obligation or other obligation imposed by operation of law).

3. Proceedings by or in the Right of the Company. The Company shall indemnify the Indemnitee if the Indemnitee is a party to or threatened to be made a party to or is otherwise involved in any Proceeding by or in the right of the Company to procure a judgment in its favor by reason of the fact that the Indemnitee is or was a director or officer of the Company, or is or was serving at the request of the Company as an agent of another enterprise, against all Expenses, judgments, fines, interest or penalties, and excise taxes assessed with respect to any employee benefit or welfare plan, which are actually and reasonably incurred by the Indemnitee in connection with the defense or settlement of such a Proceeding, if the Indemnitee acted in good faith and in a manner the Indemnitee reasonably believed to be in, or not opposed to, the best interests of the Company; except that no indemnification under this section shall be made in respect of any claim, issue or matter as to which such person shall have been adjudicated by final judgment by a court of competent jurisdiction to be liable to the Company for willful misconduct in the performance of his/her duty to the Company, unless and only to the extent that the court in which such Proceeding was brought shall determine upon application that, despite the adjudication of liability but in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such amounts which such other court shall deem proper.

4. Proceeding Other Than a Proceeding by or in the Right of the Company. The Company shall indemnify the Indemnitee if the Indemnitee is a party to or threatened to be made a party to or is otherwise involved in any Proceeding (other than a Proceeding by or in the right of the Company), by reason of the fact that the Indemnitee is or was a director or officer of the Company, or is or was serving at the request of the Company as an agent of another enterprise, against all Expenses, judgments, fines, interest or penalties, and excise taxes assessed with respect to any employee benefit or welfare plan, which are actually and reasonably incurred by the Indemnitee in connection with such a Proceeding, to the fullest extent permitted by applicable law; provided, however, that any settlement of a Proceeding must be approved in advance in writing by the Company (which approval shall not be unreasonably withheld).

5. Indemnification for Costs, Charges and Expenses of Witness or Successful Party. Notwithstanding any other provision of this Agreement (except as set forth in subparagraph 9(a) hereof), and without a requirement for determination as required by Paragraph 8 hereof, to the extent that the Indemnitee (a) has prepared to serve or has served as a witness in any Proceeding in any way relating to (i) the Company or any of the Company's subsidiaries, affiliates, employee benefit or welfare plans or such plan's participants or beneficiaries or (ii) anything done or not done by the Indemnitee as a director or officer of the Company or in connection with serving at the request of the Company as an agent of another enterprise, or (b) has been successful in defense of any Proceeding or in defense of any claim, issue or matter therein, on the merits or otherwise, including the dismissal of a Proceeding without prejudice or the settlement of a Proceeding without an admission of liability, the Indemnitee shall be indemnified against all Expenses actually and reasonably incurred by the Indemnitee in connection therewith to the fullest extent permitted by applicable law.

6. Partial Indemnification. If the Indemnitee is entitled under any provision of this Agreement to indemnification by the Company for a portion of the Expenses, judgments, fines, interest or penalties, or excise taxes assessed with respect to any employee benefit or welfare plan, which are actually and reasonably incurred by the Indemnitee in the investigation, defense, appeal or settlement of any Proceeding, but not, however, for the total amount of the Indemnitee's Expenses, judgments, fines, interest or penalties, or excise taxes assessed with respect to any employee benefit or welfare plan, then the Company shall nevertheless indemnify the Indemnitee for the portion of such Expenses, judgments, fines, interest or penalties or excise taxes to which the Indemnitee is entitled.

7. Advancement of Expenses. The Expenses incurred by the Indemnitee in any Proceeding shall be paid promptly by the Company in advance of the final disposition of the Proceeding at the written request of the Indemnitee to the fullest extent permitted by applicable law; provided, however, that the Indemnitee shall set forth in such request reasonable evidence that such Expenses have been incurred by the Indemnitee in connection with such Proceeding, a statement that such Expenses do not relate to any matter described in subparagraph 9(a) of this Agreement, and an undertaking in writing to repay any advances if it is ultimately determined as provided in subparagraph 8(b) of this Agreement that the Indemnitee is not entitled to indemnification under this Agreement.

8. Indemnification Procedure; Determination of Right to Indemnification.

(a) Promptly after receipt by the Indemnitee of notice of the commencement of any Proceeding, the Indemnitee shall, if a claim for indemnification or advancement of Expenses in respect thereof is to be made against the Company under this Agreement, notify the Company of the commencement thereof in writing. The omission to so notify the Company will not relieve the Company from any liability which the Company may have to the Indemnitee under this Agreement unless the Company shall have lost significant substantive or procedural rights with respect to the defense of any Proceeding as a result of such omission to so notify.

(b) The Indemnitee shall be conclusively presumed to have met the relevant standards of conduct, if any, as defined by applicable law, for indemnification pursuant to this Agreement and shall be absolutely entitled to such indemnification, unless a determination is made that the Indemnitee has not met such standards by a court of competent jurisdiction.

(c) If a claim for indemnification or advancement of Expenses under this Agreement is not paid by the Company within thirty (30) days after receipt by the Company of written notice thereof, the rights provided by this Agreement shall be enforceable by the Indemnitee in any court of competent jurisdiction. Such judicial proceeding shall be made de novo. The burden of proving that indemnification or advances are not appropriate shall be on the Company. Neither the failure of the directors or shareholders of the Company or Independent Legal Counsel to have made a determination prior to the commencement of such action that indemnification or advancement of Expenses is proper in the circumstances because the Indemnitee has met the applicable standard of conduct, if any, nor an actual determination by the directors or shareholders of the Company or Independent Legal Counsel that the Indemnitee has not met the applicable standard of conduct shall be a defense to an action by the Indemnitee or create a presumption for the purpose of such an action that the Indemnitee has not met the applicable standard of conduct. The termination of any Proceeding by judgment, order, settlement or conviction, or upon a plea of *nolo contendere* or its equivalent, shall not, of itself (i) create a presumption that the Indemnitee did not act in good faith and in a manner which he reasonably believed to be in the best interests of the Company and/or its shareholders, and, with respect to any criminal Proceeding, that the Indemnitee had reasonable cause to believe that his conduct was unlawful or (ii) otherwise adversely affect the rights of the Indemnitee to indemnification or advancement of Expenses under this Agreement, except as may be provided herein.

(d) If a court of competent jurisdiction shall determine that the Indemnitee is entitled to any indemnification or advancement of Expenses hereunder, the Company shall pay all Expenses actually and reasonably incurred by the Indemnitee in connection with such adjudication (including, but not limited to, any appellate proceedings).

(e) With respect to any Proceeding for which indemnification or advancement of Expenses is requested, the Company will be entitled to participate therein at its own expense and, except as otherwise provided below, to the extent that it may wish, the Company may assume the defense thereof, with counsel reasonably satisfactory to the Indemnitee. After notice from the Company to the Indemnitee of its election to assume the defense of a Proceeding, the Company will not be liable to the Indemnitee under this Agreement for any Expenses subsequently incurred by the Indemnitee in connection with the defense thereof, other than as provided below. The Company shall not settle any Proceeding in any manner which would impose any penalty or limitation on the Indemnitee without the Indemnitee's written consent. The Indemnitee shall have the right to employ his/her own counsel in any Proceeding, but the fees and expenses of such counsel incurred after notice from the Company of its assumption of the defense of the Proceeding shall be at the expense of the Indemnitee, unless (i) the employment of counsel by the Indemnitee has been authorized by the Company, (ii) the Indemnitee shall have reasonably concluded that there may be a conflict of interest between the Company and the Indemnitee in the conduct of the defense of a Proceeding, or (iii) the Company shall not in fact have employed counsel to assume the defense of a proceeding, in each of which cases the fees and expenses of the Indemnitee's counsel shall be advanced by the Company. The Company shall not be entitled to assume the defense of any Proceeding brought by or on behalf of the Company or as to which the Indemnitee has reasonably concluded that there may be a conflict of interest between the Company and the Indemnitee.

9. Limitations on Indemnification. No payments pursuant to this Agreement shall be made by the Company:

(a) To indemnify or advance funds to the Indemnitee for Expenses with respect to (i) Proceedings initiated or brought voluntarily by the Indemnitee and not by way of defense, except with respect to Proceedings brought to establish or enforce a right to indemnification under this Agreement or any other statute or law or otherwise as required under applicable law or (ii) Expenses incurred by the Indemnitee in connection with preparing to serve or serving, prior to a Change in Control, as a witness in cooperation with any party or entity who or which has threatened or commenced any action or proceeding against the Company, or any director, officer, employee, trustee, agent, representative, subsidiary, parent corporation or affiliate of the Company, but such indemnification or advancement of Expenses in each such case may be provided by the Company if the Board finds it to be appropriate;

(b) To indemnify the Indemnitee for any Expenses, judgments, fines, interest or penalties, or excise taxes assessed with respect to any employee benefit or welfare plan, sustained in any Proceeding for which payment is actually made to the Indemnitee under a valid and collectible insurance policy, except in respect of any excess beyond the amount of payment under such insurance;

(c) To indemnify the Indemnitee for any Expenses, judgments, fines, interest or penalties sustained in any Proceeding for an accounting of profits made from the purchase or sale by the Indemnitee of securities of the Company pursuant to the provisions of Section 16(b) of the Act or similar provisions of any foreign or United States federal, state or local statute or regulation;

(d) To indemnify the Indemnitee for any Expenses, judgments, fines, interest or penalties, or excise taxes assessed with respect to any employee benefit or welfare plan, for which the Indemnitee is indemnified by the Company otherwise than pursuant to this Agreement;

(e) To indemnify the Indemnitee for any Expenses (including without limitation any Expenses relating to a Proceeding attempting to enforce this Agreement), judgments, fines, interest or penalties, or excise taxes assessed with respect to any employee benefit or welfare plan, on account of the Indemnitee's conduct if such conduct shall be finally adjudged to have been knowingly fraudulent, deliberately dishonest or willful misconduct, including, without limitation, breach of the duty of loyalty; or

(f) If a court of competent jurisdiction finally determines that any indemnification hereunder is unlawful. In this respect, the Company and the Indemnitee have been advised that the Securities and Exchange Commission takes the position that indemnification for liabilities arising under securities laws is against public policy and is, therefore, unenforceable and that claims for indemnification should be submitted to appropriate courts for adjudication;

(g) To indemnify the Indemnitee in connection with Indemnitee's personal tax matter; or

(h) To indemnify the Indemnitee with respect to any claim related to any dispute or breach arising under any contract or similar obligation between the Company or any of its subsidiaries or affiliates and such Indemnitee.

10. Continuation of Indemnification. All agreements and obligations of the Company contained herein shall continue during the period that the Indemnitee is a director or officer of the Company (or is or was serving at the request of the Company as an agent of another enterprise, foreign or domestic) and shall continue thereafter so long as the Indemnitee shall be subject to any possible Proceeding by reason of the fact that the Indemnitee was a director or officer of the Company or serving in any other capacity referred to in this Paragraph 10.

11. Indemnification Hereunder Not Exclusive. The indemnification provided by this Agreement shall not be deemed to be exclusive of any other rights to which the Indemnitee may be entitled under the Company's Articles, any agreement, vote of shareholders or vote of Disinterested Directors, provisions of applicable law, or otherwise, both as to action or omission in the Indemnitee's official capacity and as to action or omission in another capacity on behalf of the Company while holding such office.

12. Successors and Assigns.

(a) This Agreement shall be binding upon the Indemnitee, and shall inure to the benefit of, the Indemnitee and the Indemnitee's heirs, executors, administrators and assigns, whether or not the Indemnitee has ceased to be a director or officer, and the Company and its successors and assigns. Upon the sale of all or substantially all of the business, assets or share capital of the Company to, or upon the merger of the Company into or with, any corporation, partnership, joint venture, trust or other person, this Agreement shall inure to the benefit of and be binding upon both the Indemnitee and such purchaser or successor person. Subject to the foregoing, this Agreement may not be assigned by either party without the prior written consent of the other party hereto.

(b) If the Indemnitee is deceased and is entitled to indemnification under any provision of this Agreement, the Company shall indemnify the Indemnitee's estate and the Indemnitee's spouse, heirs, executors, administrators and assigns against, and the Company shall, and does hereby agree to assume, any and all Expenses actually and reasonably incurred by or for the Indemnitee or the Indemnitee's estate, in connection with the investigation, defense, appeal or settlement of any Proceeding. Further, when requested in writing by the spouse of the Indemnitee, and/or the Indemnitee's heirs, executors, administrators and assigns, the Company shall provide appropriate evidence of the Company's agreement set out herein to indemnify the Indemnitee against and to itself assume such Expenses.

13. Subrogation. In the event of payment under this Agreement, the Company shall be subrogated to the extent of such payment to all of the rights of recovery of the Indemnitee, who shall execute all documents required and shall do all acts that may be necessary to secure such rights and to enable the Company effectively to bring suit to enforce such rights.

14. Severability. Each and every paragraph, sentence, term and provision of this Agreement is separate and distinct so that if any paragraph, sentence, term or provision thereof shall be held to be invalid, unlawful or unenforceable for any reason, such invalidity, unlawfulness or unenforceability shall not affect the validity, unlawfulness or enforceability of any other paragraph, sentence, term or provision hereof. To the extent required, any paragraph, sentence, term or provision of this Agreement may be modified by a court of competent jurisdiction to preserve its validity and to provide the Indemnitee with the broadest possible indemnification permitted under applicable law. The Company's inability, pursuant to a court order or decision, to perform its obligations under this Agreement shall not constitute a breach of this Agreement.

15. Savings Clause. If this Agreement or any paragraph, sentence, term or provision hereof is invalidated on any ground by any court of competent jurisdiction, the Company shall nevertheless indemnify the Indemnitee as to any Expenses, judgments, fines, interest or penalties, or excise taxes assessed with respect to any employee benefit or welfare plan, which are incurred with respect to any Proceeding to the fullest extent permitted by any (a) applicable paragraph, sentence, term or provision of this Agreement that has not been invalidated or (b) applicable law.

16. Interpretation; Governing Law. This Agreement shall be construed as a whole and in accordance with its fair meaning and any ambiguities shall not be construed for or against either party. Headings are for convenience only and shall not be used in construing meaning. This Agreement shall be governed and interpreted in accordance with the laws of the Cayman Islands without regard to the conflict of laws principles thereof.

17. Amendments. No amendment, waiver, modification, termination or cancellation of this Agreement shall be effective unless in writing signed by the party against whom enforcement is sought. The indemnification rights afforded to the Indemnitee hereby are contract rights and may not be diminished, eliminated or otherwise affected by amendments to the Company's Articles, or by other agreements, including directors' and officers' liability insurance policies, of the Company.

18. Counterparts. This Agreement may be executed in one or more counterparts, all of which shall be considered one and the same agreement and shall become effective when one or more counterparts have been signed by each party and delivered to the other.

19. Notices. Any notice required to be given under this Agreement shall be directed to Mr. Hui Xiao, the Legal Manager of the Company, at hui.xiao@ucloudlink.com and to the Indemnitee at _____ or to such other address as either shall designate to the other in writing.

[The remainder of this page is intentionally left blank.]

IN WITNESS WHEREOF, the parties have executed this Indemnification Agreement as of the date first written above.

4. NO BREACH OF CONTRACT

The Executive hereby represents to the Company that: (i) the execution and delivery of the Agreement by the Executive and the performance by the Executive of the Executive’s duties hereunder shall not constitute a breach of, or otherwise contravene, the terms of any other agreement or policy to which the Executive is a party or by which the Executive is otherwise bound, except that the Executive does not make any representation with respect to agreements required to be entered into by and between the Executive and any member of the Group pursuant to the applicable law of the jurisdiction in which the Executive is based, if any; (ii) that the Executive is not in possession of any information (including, without limitation, confidential information and trade secrets) the knowledge of which would prevent the Executive from freely entering into the Agreement and carrying out his/her duties hereunder; and (iii) that the Executive is not bound by any confidentiality, trade secret or similar agreement with any person or entity other than any member of the Group.

7. **TERMINATION OF THE AGREEMENT**

The Employment may be terminated as follows:

- (a) Death. The Employment shall terminate upon the Executive's death.
- (b) Disability. The Employment shall terminate if the Executive has a disability, including any physical or mental impairment which, as reasonably determined by the Board, renders the Executive unable to perform the essential functions of his/her position at the Company, even with reasonable accommodation that does not impose an undue burden on the Company, for more than 180 days in any 12-month period, unless a longer period is required by applicable law, in which case that longer period shall apply.
- (c) Cause. The Company may terminate the Executive's employment hereunder for Cause. The occurrence of any of the following, as reasonably determined by the Company, shall be a reason for Cause, provided that, if the Company determines that the circumstances constituting Cause are curable, then such circumstances shall not constitute Cause unless and until the Executive has been informed by the Company of the existence of Cause and given an opportunity of ten business days to cure, and such Cause remains uncured at the end of such ten-day period:

8. **CONFIDENTIALITY AND NONDISCLOSURE**

(a) Confidentiality and Non-Disclosure.

- (1) The Executive acknowledges and agrees that: (A) the Executive holds a position of trust and confidence with the Company and that his/her employment by the Company will require that the Executive have access to and knowledge of valuable and sensitive information, material, and devices relating to the Company and/or its business, activities, products, services, customers and vendors, including, but not limited to, the following, regardless of the form in which the same is accessed, maintained or stored: the identity of the Company's actual and prospective customers and, as applicable, their representatives; prior, current or future research or development activities of the Company; the products and services provided or offered by the Company to customers or potential customers and the manner in which such services are performed or to be performed; the product and/or service needs of actual or prospective customers; pricing and cost information; information concerning the development, engineering, design, specifications, acquisition or disposition of products and/or services of the Company; user base personal data, programs, software and source codes, licensing information, personnel information, advertising client information, vendor information, marketing plans and techniques, forecasts, and other trade secrets ("Confidential Information"); and (B) the direct and indirect disclosure of any such Confidential Information would place the Company at a competitive disadvantage and would do damage, monetary or otherwise, to the Company's business.
- (2) During the Term and at all times thereafter, the Executive shall not, directly or indirectly, whether individually, as a director, stockholder, owner, partner, employee, consultant, principal or agent of any business, or in any other capacity, publish or make known, disclose, furnish, reproduce, make available, or utilize any of the Confidential Information without the prior express written approval of the Company, other than in the proper performance of the duties contemplated herein, unless and until such Confidential Information is or shall become general public knowledge through no fault of the Executive.
- (3) In the event that the Executive is required by law to disclose any Confidential Information, the Executive agrees to give the Company prompt advance written notice thereof and to provide the Company with reasonable assistance in obtaining an order to protect the Confidential Information from public disclosure.
- (4) The failure to mark any Confidential Information as confidential shall not affect its status as Confidential Information under this Agreement.

- (c) Third Party Information in the Executive's Possession. The Executive agrees that he/she shall not, during the Term, (i) improperly use or disclose any proprietary information or trade secrets of any former employer or other person or entity with which the Executive has an agreement or duty to keep in confidence information acquired by Executive, if any, or (ii) bring into the premises of Company any document or confidential or proprietary information belonging to such former employer, person or entity unless consented to in writing by such former employer, person or entity. The Executive will indemnify the Company and hold it harmless from and against all claims, liabilities, damages and expenses, including reasonable attorneys' fees and costs of litigation, arising out of or in connection with any violation of the foregoing.
- (d) Third Party Information in the Company's Possession. The Executive recognizes that the Company may have received, and in the future may receive, from third parties their confidential or proprietary information subject to a duty on the Company's part to maintain the confidentiality of such information and to use it only for certain limited purposes. The Executive agrees that the Executive owes the Company and such third parties, during the Term and thereafter, a duty to hold all such confidential or proprietary information in strict confidence and not to disclose such information to any person or firm, or otherwise use such information, in a manner inconsistent with the limited purposes permitted by the Company's agreement with such third party.

This Section 8 shall survive the termination of the Agreement for any reason. In the event the Executive breaches this Section 8, the Company shall have right to seek remedies permissible under applicable law.

9. **INTELLECTUAL PROPERTY**

- (a) Prior Inventions. The Executive has attached hereto, as Schedule B, a list describing all inventions, ideas, improvements, designs and discoveries, whether or not patentable and whether or not reduced to practice, original works of authorship and trade secrets made or conceived by or belonging to the Executive (whether made solely by the Executive or jointly with others) that (i) were developed by Executive prior to the Executive's employment by the Company (collectively, "Prior Inventions"), (ii) relate to the Company' actual or proposed business, products or research and development, and (iii) are not assigned to the Company hereunder; or, if no such list is attached, the Executive represents that there are no such Prior Inventions. Except to the extent set forth in Schedule B, the Executive hereby acknowledges that, if in the course of his/her service for the Company, the Executive incorporates into a Company product, process or machine a Prior Invention owned by the Executive or in which he/she has an interest, the Company is hereby granted and shall have a nonexclusive, royalty-free, irrevocable, perpetual, worldwide right and license (which may be freely transferred by the Company to any other person or entity) to make, have made, modify, use, sell, sublicense and otherwise distribute such Prior Invention as part of or in connection with such product, process or machine.

- (b) Assignment of Intellectual Property. The Executive hereby assigns to the Company or its designees, without further consideration and free and clear of any lien or encumbrance, the Executive's entire right, title and interest (within the United States and all foreign jurisdictions) to any and all inventions, discoveries, improvements, developments, works of authorship, concepts, ideas, plans, specifications, software, formulas, databases, designees, processes and contributions to Confidential Information created, conceived, developed or reduced to practice by the Executive (alone or with others) during the Term which (i) are related to the Company's current or anticipated business, activities, products, or services, (ii) result from any work performed by Executive for the Company, or (iii) are created, conceived, developed or reduced to practice with the use of Company property, including any and all Intellectual Property Rights (as defined below) therein ("Work Product"). Any Work Product which falls within the definition of "work made for hire", as such term is defined in the U.S. Copyright Act, shall be considered a "work made for hire", the copyright in which vests initially and exclusively in the Company. The Executive waives any rights to be attributed as the author of any Work Product and any "droit morale" (moral rights) in Work Product. The Executive agrees to immediately disclose to the Company all Work Product. For purposes of this Agreement, "Intellectual Property" shall mean any patent, copyright, trademark or service mark, trade secret, or any other proprietary rights protection legally available.
- (c) Patent and Copyright Registration. The Executive agrees to execute and deliver any instruments or documents and to do all other things reasonably requested by the Company in order to more fully vest the Company with all ownership rights in the Work Product. If any Work Product is deemed by the Company to be patentable or otherwise registrable, the Executive shall assist the Company (at the Company's expense) in obtaining letters of patent or other applicable registration therein and shall execute all documents and do all things, including testifying (at the Company's expense) as necessary or appropriate to apply for, prosecute, obtain, or enforce any Intellectual Property right relating to any Work Product. Should the Company be unable to secure the Executive's signature on any document deemed necessary to accomplish the foregoing, whether due to the Executive's disability or other reason, the Executive hereby irrevocably designates and appoints the Company and each of its duly authorized officers and agents as the Executive's agent and attorney-in-fact to act for and on the Executive's behalf and stead to take any of the actions required of Executive under the previous sentence, with the same effect as if executed and delivered by the Executive, such appointment being coupled with an interest.

This Section 9 shall survive the termination of the Agreement for any reason. In the event the Executive breaches this Section 9, the Company shall have right to seek remedies permissible under applicable law.

10. **CONFLICTING EMPLOYMENT**

The Executive hereby agrees that, during the Term, he/she will not engage in any other employment, occupation, consulting or other business activity related to the business in which the Company is now involved or becomes involved during the Term, nor will the Executive engage in any other activities that conflict with his/her obligations to the Company without the prior written consent of the Company.

11. NON-COMPETITION AND NON-SOLICITATION

- (a) Non-Competition. In consideration of the compensation provided to the Executive by the Company hereunder, the adequacy of which is hereby acknowledged by the parties hereto, the Executive agree that during the Term and for a period of one year following the termination of the Employment for whatever reason, the Executive shall not engage in Competition (as defined below) with the Group. For purposes of this Agreement, "Competition" by the Executive shall mean the Executive's engaging in, or otherwise directly or indirectly being employed by or acting as a consultant or lender to, or being a director, officer, employee, principal, agent, stockholder, member, owner or partner of, or permitting the Executive's name to be used in connection with the activities of, any other business or organization which competes, directly or indirectly, with the Group in the Business; provided, however, it shall not be a violation of this Section 11(a) for the Executive to become the registered or beneficial owner of up to five percent (5%) of any class of the capital stock of a publicly traded corporation in Competition with the Group, provided that the Executive does not otherwise participate in the business of such corporation.

For purposes of this Agreement, "Business" means the provision of mobile data connectivity services and any other business which the Group engages in, or is preparing to become engaged in, during the Term.

- (b) Non-Solicitation; Non-Interference. During the Term and for a period of one year following the termination of the Executive's employment for any reason, the Executive agrees that he/she will not, directly or indirectly, for the Executive's benefit or for the benefit of any other person or entity, do any of the following:
- (1) solicit from any customer doing business with the Group during the Term business of the same or of a similar nature to the Business;
 - (2) solicit from any known potential customer of the Group business of the same or of a similar nature to that which has been the subject of a known written or oral bid, offer or proposal by the Group, or of substantial preparation with a view to making such a bid, proposal or offer;
 - (3) solicit the employment or services of, or hire or engage, any person who is known to be employed or engaged by the Group; or
 - (4) otherwise interfere with the business or accounts of the Group, including, but not limited to, with respect to any relationship or agreement between the Group and any vendor or supplier.

- (c) **Injunctive Relief; Indemnity of Company.** The Executive agrees that any breach or threatened breach of subsections (a) and (b) of this Section 11 would result in irreparable injury and damage to the Company for which an award of money to the Company would not be an adequate remedy. The Executive therefore also agrees that in the event of said breach or any reasonable threat of breach, the Company shall be entitled to seek an immediate injunction and restraining order to prevent such breach and/or threatened breach and/or continued breach by the Executive and/or any and all persons and/or entities acting for and/or with the Executive. The terms of this paragraph shall not prevent the Company from pursuing any other available remedies for any breach or threatened breach hereof, including, but not limited to, remedies available under this Agreement and the recovery of damages. The Executive and the Company further agree that the provisions of this Section 11 are reasonable. The Executive agrees to indemnify and hold harmless the Company from and against all reasonable expenses (including reasonable fees and disbursements of counsel) which may be incurred by the Company in connection with, or arising out of, any violation of this Agreement by the Executive. This Section 11 shall survive the termination of the Agreement for any reason.

12. WITHHOLDING TAXES

Notwithstanding anything else herein to the contrary, the Company may withhold (or cause there to be withheld, as the case may be) from any amounts otherwise due or payable under or pursuant to the Agreement such national, state, provincial, local or any other income, employment, or other taxes as may be required to be withheld pursuant to any applicable law or regulation.

13. ASSIGNMENT

The Agreement is personal in its nature and neither of the parties hereto shall, without the consent of the other, assign or transfer the Agreement or any rights or obligations hereunder; provided, however, that the Company may assign or transfer the Agreement or any rights or obligations hereunder to any member of the Group without such consent. If the Executive should die while any amounts would still be payable to the Executive hereunder if the Executive had continued to live, all such amounts unless otherwise provided herein shall be paid in accordance with the terms of this Agreement to the Executive's devisee, legatee, or other designee or, if there be no such designee, to the Executive's estate. The Company will require any and all successors (whether direct or indirect, by purchase, merger, consolidation or otherwise) to all or substantially all of the business and/or assets of the Company to expressly assume and agree to perform this Agreement in the same manner and to the same extent that the Company would be required to perform it if no such succession had taken place. Failure of the Company to obtain such assumption and agreement prior to the effectiveness of any such succession shall be a breach of this Agreement and shall entitle the Executive to compensation from the Company in the same amount and on the same terms as the Executive would be entitled to hereunder if the Company had terminated the Executive's employment other than for Cause, except that for purposes of implementing the foregoing, the date on which any such succession becomes effective shall be deemed the Date of Termination. As used in this Section 13, "Company" shall mean the Company as herein before defined and any successor to its business and/or assets as aforesaid which executes and delivers the agreement provided for in this Section 13 or which otherwise becomes bound by all the terms and provisions of this Agreement by operation of law.

14. SEVERABILITY

If any provision of the Agreement or the application thereof is held invalid, the invalidity shall not affect other provisions or applications of the Agreement which can be given effect without the invalid provisions or applications and to this end the provisions of the Agreement are declared to be severable.

15. ENTIRE AGREEMENT

The Agreement constitutes the entire agreement and understanding between the Executive and the Company regarding the terms of the Employment and supersedes all prior or contemporaneous oral or written agreements concerning such subject matter. The Executive acknowledges that he/she has not entered into the Agreement in reliance upon any representation, warranty or undertaking which is not set forth in the Agreement.

16. GOVERNING LAW

The Agreement shall be governed by and construed in accordance with the law of the State of New York, U.S.A.

17. AMENDMENT

The Agreement may not be amended, modified or changed (in whole or in part), except by a formal, definitive written agreement expressly referring to the Agreement, which agreement is executed by both of the parties hereto.

18. WAIVER

Neither the failure nor any delay on the part of a party to exercise any right, remedy, power or privilege under the Agreement shall operate as a waiver thereof, nor shall any single or partial exercise of any right, remedy, power or privilege preclude any other or further exercise of the same or of any right, remedy, power or privilege, nor shall any waiver of any right, remedy, power or privilege with respect to any occurrence be construed as a waiver of such right, remedy, power or privilege with respect to any other occurrence. No waiver shall be effective unless it is in writing and is signed by the party asserted to have granted such waiver.

19. NOTICES

All notices, requests, demands and other communications required or permitted under the Agreement shall be in writing and shall be deemed to have been duly given and made if (i) delivered by hand, (ii) otherwise delivered against receipt therefor, (iii) sent by a recognized courier with next-day or second-day delivery to the last known address of the other party; or (iv) sent by e-mail with confirmation of receipt.

20. COUNTERPARTS

The Agreement may be executed in any number of counterparts, each of which shall be deemed an original as against any party whose signature appears thereon, and all of which together shall constitute one and the same instrument. The Agreement shall become binding when one or more counterparts hereof, individually or taken together, shall bear the signatures of all of the parties reflected hereon as the signatories. Photographic copies of such signed counterparts may be used in lieu of the originals for any purpose.

21. NO INTERPRETATION AGAINST DRAFTER

Each party recognizes that the Agreement is a legally binding contract and acknowledges that such party has had the opportunity to consult with legal counsel of choice. In any construction of the terms of the Agreement, the same shall not be construed against either party on the basis of that party being the drafter of such terms.

Conditions

1. Register

- 1.1 An accurate register of entitlement to the Warrants (the “**Register**”) will be kept by the Company and there shall be entered in the Register:
 - (a) the names and addresses of the persons for the time being entitled to be registered as Holders;
 - (b) the number of Warrants held by every such Holder;
 - (c) the date on which the name of every such Holder is entered in the Register in respect of the Warrants standing to its name; and
 - (d) the date on which each Warrant is exercised.
- 1.2 Any change in the name or address of any Holder shall be notified to the Company which shall cause the Register to be altered accordingly. Each Holder (or any person authorised by such Holder) shall be at liberty at all reasonable times during office hours to inspect the Register and to take copies of or extracts from the same of any part thereof.
- 1.3 The Company shall be entitled to treat the relevant Holder as the absolute owner of a Warrant and accordingly shall not (except as ordered by a court of competent jurisdiction or as required by law) be bound to recognise any equitable or other claim to or interest in such Warrant on the part of any other person whether or not it shall have express or other notice thereof.
- 1.4 Each Holder will be recognised by the Company as entitled to his Warrants free from any equity, set-off or cross-claim on the part of the Company against the original or any intermediate holder of such Warrants.

2. Transfer of Warrants

- 2.1 The Warrants may be transferred in whole or in part by any Holder to any Affiliate or any other person, provided that such person shall not be a competitor of the Company which engages in the competitive business with the Company without the prior written consent of the Company.
- 2.2 Every transfer of a Warrant shall be made by an instrument of transfer in the usual or common form.
- 2.3 The instrument of transfer of a Warrant shall be signed by or on behalf of the transferor but need not be signed by or on behalf of the transferee. The transferor shall be deemed to remain the holder of the Warrant until the name of the transferee is entered in the Register in respect thereof.
- 2.4 The Directors shall recognise any instrument of transfer of a Warrant which is deposited at the registered office of the Company accompanied by the Warrant Certificate for the Warrant to which it relates. The Directors may waive production of any certificate upon production to them of satisfactory evidence of the loss or destruction of such Warrant Certificate together with such indemnity as they may require.
- 2.5 No fee shall be charged for any registration of a transfer of a Warrant or for the registration of any other documents which in the opinion of the Directors require registration.
- 2.6 The registration of a transfer shall be conclusive evidence of the approval by the Directors of such transfer.

3. Exercise of Subscription Rights

3.1 Subscription Rights may be exercised in whole or in part by the relevant Holder:

- (a) Within five (5) days commencing from the date of the signature of a term sheet (“**Term Sheet**”) in a Coming Round Financing, the Company shall notice the Holder(s) of the Coming Round Financing as well as providing such Term Sheet, and inquire whether the Holder(s) will exercise all or any part of the Warrant(s). If requested by the Holder(s), the Company shall provide any further information related to such Coming Round;
- (b) The Holder shall give a written notice to the Company for whether to exercise all or any part of the Warrant(s) within thirty (30) days after receiving the notice provided by the Company in accordance with Condition 3.1(a) (“**Exercising Period**”). If the Holder decides to exercise the Warrant, the notice provided by the Holder shall also include the number of Warrant Shares to be purchased or subscribed for by the Holder. If the Holder decides to exercise all or any part of the Warrant(s) and notifies the Company of the number of Warrant Shares to be purchased or subscribed for, where such notice shall constitute an irrevocable decision of such Holder to purchase or subscribe the Warrant Shares if the terms and conditions as those set out in the definitive transaction agreement in the Coming Round Financing keep consistent with the terms and conditions as those set out in the Term Sheet, such Holder shall complete the purchase or subscription of the Warrant Shares on the same terms and conditions (including but not limited to the Warrant Price and the payment date) as those set out in the definitive transaction agreement in the Coming Round Financing (but not including any obligation to make any contribution to relevant costs (including legal and accountancy fees and disbursements), and in accordance with procedures set forth in the following Condition 3.1(c) and (d). A failure by the Holder to respond within such Exercising Period shall constitute an irrevocable decision by such Holder not to exercise its right to exercise all or any part of the Warrant(s) with respect to this Coming Round Financing, but it shall not be construed as a waiver for the Subscription Rights to exercise the Warrant(s) with respect to other Coming Round Financing thereafter unless Warrants held by the Holder has expired. For the avoidance of doubt, in the event that relevant Notice of Exercise has been delivered on or before the Expiration Date but the purchase or subscription under such Notice of Exercise has not been completed on or before the Expiration Date, such event shall not affect the validity and effectiveness of the exercise of Subscription Rights contemplated under such Notice of Exercise and the Company shall allot and issue relevant Warrant Shares to the relevant Holder in accordance with this Warrants Instrument.
- (c) completing the Notice of Exercise;
- (d) lodging the relevant Warrant Certificate at the registered office of the Company for the time being.

3.2 The aggregate Subscription Price for the Warrant Shares to be issued upon exercise of the Warrants shall be satisfied by the payment in cash for each of the Warrant Shares at the Warrant Price.

The Company shall procure that the Warrant Shares to be issued upon the exercise of Subscription Rights shall be validly allotted and issued credited as fully paid to the relevant Holder upon receipt of the relevant Warrant Certificate (together with the Notice of Exercise duly completed, accompanied by the requisite remittance for subscription monies) lodged at the registered office of the Company in accordance with Condition 3.1. Share certificates shall be issued (free of charge) in respect of such shares no later than 14 days after the date of such lodging and the relevant Holder(s) shall be entered into the register of members of the Company as holder(s) of the relevant Warrant Shares.

- 3.3 Fraction of a Warrant Share may be issued following exercise of a Warrant.
- 3.4 Shares allotted pursuant to the exercise of Subscription Rights will rank *pari passu* in all respects with the fully paid Equity Securities then in issue and shall rank for all dividends and distributions paid on any date or by reference to any record date on or after the date on which the relevant Notice of Exercise is lodged at the registered office.
- 3.5 The Warrants Instrument (including these Conditions) and the Warrants shall, subject to the Expiration Date, survive any Disposal/Share Sale and/or the termination or cessation of the Facility Agreement.
- 3.6 If:
- (a) the Expiration Date occurs before the fifth anniversary of the date of the Warrants Instrument due to the occurrence of the submission of application of a Qualified IPO of the Company; or
 - (b) no Coming Round Financing occurs during the period commencing the date of the Warrants Instrument and ending on the fifth anniversary of the date of this Warrants Instrument,

the Company shall, on Expiration Date, pay each Holder the amount (the “**Early Expiration Amount**”) which be calculated using the following formula:

$X = Y \times Z$, where:

- (i) X = the Early Expiration Amount shall be paid to a Holder in accordance with this Condition 3.6;
- (ii) Y = the Exercise Value of the Warrant(s) which such Holder holds immediately before the Expiration Date; and
- (iii) Z = 25%.

For the avoidance of doubt and as an example, under the circumstance of Condition 3.6(b), the aggregate amount of Early Expiration Amount which shall be paid by the Company in accordance with this Condition 3.6 shall be equal to the US\$ amount equivalent to RMB1,250,000.

4. **[RESERVED]**

5. **[RESERVED]**

6. **Exit**

If before the Expiration Date, the Company undertakes a redemption of shares of its share capital, declares a dividend or other distribution on any shares, or becomes aware of the expected occurrence of an Exit Event, it shall give each Holder at least 21 days’ notice (the “**Notice**”) specifying the date (the “**Specified Date**”) of such expected occurrence (the period between the giving of the Notice and the Specified Date being referred to below as the “**Notice Period**”). The Company shall promptly send to each Holder such further information relating to the progress of the such expected occurrence or Exit Event, including relating to any increase or decrease in the likelihood of the expected occurrence or Exit Event occurring, any change in the anticipated terms, or timetable, of the expected occurrence or Exit Event and/or the failure or lapse (whether temporary or permanent) of the expected occurrence or Exit Event, to the extent required for the Holder(s) to be kept informed promptly of any changes or other circumstances which are material to the expected occurrence or Exit Event.

7. Conversion of Warrant Shares

If all of the Warrant Shares are converted into Ordinary Shares pursuant to the Constitution (including, without limitation, in connection with a Qualified IPO), then from and after the date on which all outstanding Warrant Shares have been so converted, the Warrant shall be exercisable for such number of Ordinary Shares into which the Warrant Shares would have been converted had the Warrant Shares been outstanding on the date of such conversion, and the Warrant Price shall equal the Warrant Price in effect immediately prior to such conversion divided by the number of Ordinary Shares into which one Warrant Share would have been converted, subject always to any further adjustment thereafter from time to time in accordance with the provisions of this Warrants Instrument.

8. Restrictions on the Company

Whilst the Warrants are outstanding the Company will:

- 8.1 ensure that the Directors have all necessary authorisations and waivers of pre-emption to allot such number of Warrant Shares (and Ordinary Shares issuable upon conversion of such Warrant Shares (as may be applicable)) as will enable the Subscription Rights of the Holder(s) to be satisfied in full at any time;
- 8.2 procure in the event of a Qualified IPO or a Share Sale that the Holder(s) are not required for the purpose of, or in connection with, such event to give any warranties or indemnities (other than as to title to shares registered in its/their respective name(s) or the names of their nominees, and as to their capacity and authority to effect the relevant event), or to appoint any party (including the sponsor to the Qualified IPO) to act as their agent or make any contribution to the costs (including legal and accountancy fees and disbursements) incurred by any other party in connection with such Share Sale or Qualified IPO;
- 8.3 not make any issue, grant or distribution or take any other action the effect of which would be that on exercise of any of the Subscription Rights it would be required to issue Warrant Shares at a discount to their nominal value;
- 8.4 not buy any Warrants unless it offers to buy Warrants from all Holder(s) in proportion to their respective holdings of Warrants;
- 8.5 not, by amendment to the Constitution or through any reorganisation, transfer of assets, consolidation, merger, dissolution, issue, or sale of securities or otherwise, avoid or seek to avoid the observance or performance of any of the terms of this Warrants Instrument;
- 8.6 not effects any Disposal or Share Sale.

9. Modification of Rights

- 9.1 Any modification to this Warrants Instrument may be effected only by an instrument by way of deed poll executed by the Company expressed to be supplemental to the Warrants Instrument and with the prior sanction of the Holder(s). Any alteration, variation or modification of the Warrants Instrument that is not made in compliance with the provisions of Condition 9 shall be null and void.
- 9.2 All or any of the rights for the time being attached to the Warrants (including the Subscription Rights) may from time to time (whether or not the Company is being wound up) be altered or abrogated with the prior sanction of the Holder(s) and with the consent of the Company and shall only be effected only by an instrument by way of deed poll executed by the Company expressed to be supplemental to the Warrants Instrument.

10. Replacement of Warrant Certificates

If a Warrant Certificate is mutilated, defaced, lost, stolen or destroyed it will be replaced at the registered office of the Company for the time being upon payment by the claimant of such reasonable costs as may be incurred in connection therewith and on such terms as to evidence and indemnity as the Company may reasonably require. Mutilated or defaced Warrant Certificates must be surrendered before replacements will be issued.

UCCLOUDLINK GROUP INC.

CODE OF BUSINESS CONDUCT AND ETHICS

I. PURPOSE

This Code of Business Conduct and Ethics (the “**Code**”) contains general guidelines for conducting the business of UCCLOUDLINK GROUP INC., a Cayman Islands company, and its subsidiaries and affiliates (collectively, the “**Company**”) consistent with the highest standards of business ethics, and is intended to qualify as a “code of ethics” within the meaning of Section 406 of the Sarbanes-Oxley Act of 2002 and the rules promulgated thereunder. To the extent this Code requires a higher standard than required by commercial practice or applicable laws, rules or regulations, we adhere to these higher standards.

This Code is designed to deter wrongdoing and to promote:

- honest and ethical conduct, including the ethical handling of actual or apparent conflicts of interest between personal and professional relationships;
- full, fair, accurate, timely, and understandable disclosure in reports and documents that the Company files with, or submits to, the U.S. Securities and Exchange Commission (the “**SEC**”) and in other public communications made by the Company;
- compliance with applicable laws, rules and regulations;
- prompt internal reporting of violations of the Code; and
- accountability for adherence to the Code.

II. APPLICABILITY

This Code applies to all directors, officers and employees of the Company, whether they work for the Company on a full-time, part-time, consultative or temporary basis (each, an “**employee**” and collectively, the “**employees**”). Certain provisions of the Code apply specifically to our chief executive officer, chief financial officer, senior finance officer, controller, senior vice presidents, vice presidents and any other persons who perform similar functions for the Company (each, a “**senior officer**,” and collectively, the “**senior officers**”).

The Board of Directors of the Company (the “**Board**”) has appointed Mr. Yimeng Shi as the Compliance Officer for the Company (the “**Compliance Officer**”). If you have any questions regarding the Code or would like to report any violation of the Code, please email the Compliance Officer at compliance@ucloudlink.com.

This Code has been adopted by the Board and shall become effective (the “**Effective Time**”) upon the effectiveness of the Company’s registration statement on Form F-1 filed by the Company with the SEC relating to the Company’s initial public offering.

III. CONFLICTS OF INTEREST

Identifying Conflicts of Interest

A conflict of interest occurs when an employee's private interest interferes, or appears to interfere, in any way with the interests of the Company as a whole. An employee should actively avoid any private interest that may impact such employee's ability to act in the interests of the Company or that may make it difficult to perform the employee's work objectively and effectively. In general, the following should be considered conflicts of interest:

- Competing Business. No employee may be employed by a business that competes with the Company or deprives it of any business.
- Corporate Opportunity. No employee should use corporate property, information or his/her position with the Company to secure a business opportunity that would otherwise be available to the Company. If an employee discovers a business opportunity that is in the Company's line of business through the use of the Company's property, information or position, the employee must first present the business opportunity to the Company before pursuing the opportunity in his/her individual capacity.
- Financial Interests.
 - (i) No employee may have any financial interest (ownership or otherwise), either directly or indirectly through a spouse or other family member, in any other business or entity if such interest adversely affects the employee's performance of duties or responsibilities to the Company, or requires the employee to devote time to it during such employee's working hours at the Company;
 - (ii) No employee may hold any ownership interest in a privately held company that is in competition with the Company;
 - (iii) An employee may hold up to 5% ownership interest in a publicly traded company that is in competition with the Company; provided that if the employee's ownership interest in such publicly traded company increases to more than 5%, the employee must immediately report such ownership to the Compliance Officer;
 - (iv) No employee may hold any ownership interest in a company that has a business relationship with the Company if such employee's duties at the Company include managing or supervising the Company's business relations with that company; and

(v) Notwithstanding the other provisions of this Code,

(a) a director or any family member of such director (collectively, “**Director Affiliates**”) or a senior officer or any family member of such senior officer (collectively, “**Officer Affiliates**”) may continue to hold his/her investment or other financial interest in a business or entity (an “**Interested Business**”) that:

(1) was made or obtained either (x) before the Company invested in or otherwise became interested in such business or entity; or (y) before the director or senior officer joined the Company (for the avoidance of doubt, regardless of whether the Company had or had not already invested in or otherwise become interested in such business or entity at the time the director or senior officer joined the Company); or

(2) may in the future be made or obtained by the director or senior officer, provided that at the time such investment or other financial interest is made or obtained, the Company has not yet invested in or otherwise become interested in such business or entity; provided that such director or senior officer shall disclose such investment or other financial interest to the Board;

(b) an interested director or senior officer shall refrain from participating in any discussion among senior officers of the Company relating to an Interested Business and shall not be involved in any proposed transaction between the Company and an Interested Business; and

(c) before any Director Affiliate or Officer Affiliate (i) invests, or otherwise acquires any equity or other financial interest, in a business or entity that is in competition with the Company; or (ii) enters into any transaction with the Company, the related director or senior officer shall obtain prior approval from the Audit Committee of the Board.

- Loans or Other Financial Transactions. No employee may obtain loans or guarantees of personal obligations from, or enter into any other personal financial transaction with, any company that is a material customer, supplier or competitor of the Company. This guideline does not prohibit arms-length transactions with recognized banks or other financial institutions.
- Service on Boards and Committees. No employee shall serve on a board of directors or trustees or on a committee of any entity (whether profit or not-for-profit) whose interests could reasonably be expected to conflict with those of the Company. Employees must obtain prior approval from the Board before accepting any such board or committee position. The Company may revisit its approval of any such position at any time to determine whether an employee’s service in such position is still appropriate.

The above is in no way a complete list of situations where conflicts of interest may arise. The following questions might serve as a useful guide in assessing a potential conflict of interest situation not specifically addressed above:

- Is the action to be taken legal?

- Is it honest and fair?
- Is it in the best interests of the Company?

Disclosure of Conflicts of Interest

The Company requires that employees fully disclose any situations that could reasonably be expected to give rise to a conflict of interest. If an employee suspects that he/she has a conflict of interest, or a situation that others could reasonably perceive as a conflict of interest, the employee must report it immediately to the Compliance Officer. Conflicts of interest may only be waived by the Board, or the appropriate committee of the Board, and will be promptly disclosed to the public to the extent required by law and applicable rules of the applicable stock exchange.

Family Members and Work

The actions of family members outside the workplace may also give rise to conflicts of interest because they may influence an employee's objectivity in making decisions on behalf of the Company. If a member of an employee's family is interested in doing business with the Company, the criteria as to whether to enter into or continue the business relationship and the terms and conditions of the relationship must be no less favorable to the Company compared with those that would apply to an unrelated party seeking to do business with the Company under similar circumstances.

Employees should report any situation involving family members that could reasonably be expected to give rise to a conflict of interest to their supervisor or the Compliance Officer. For purposes of this Code, "family members" or "members of employee's family" include an employee's spouse, parents, children and siblings, whether by blood, marriage or adoption or anyone residing in such employee's home.

IV. GIFTS AND ENTERTAINMENT

The giving and receiving of appropriate gifts may be considered common business practice. Appropriate business gifts and entertainment are welcome courtesies designed to build relationships and understanding among business partners. However, gifts and entertainment should never compromise, or appear to compromise, an employee's ability to make objective and fair business decisions.

It is the responsibility of employees to use good judgment in this area. As a general rule, employees may give or receive gifts or entertainment to or from customers or suppliers only if the gift or entertainment is in compliance with applicable law, insignificant in amount and not given in consideration or expectation of any action by the recipient. All gifts and entertainment expenses made on behalf of the Company must be properly accounted for on expense reports.

We encourage employees to submit gifts received to the Company. While it is not mandatory to submit small gifts, gifts of over US\$150 must be submitted immediately to the human resources department of the Company.

Bribes and kickbacks are criminal acts, strictly prohibited by law. An employee must not offer, give, solicit or receive any form of bribe or kickback anywhere in the world.

V. FCPA COMPLIANCE

The U.S. Foreign Corrupt Practices Act (“**FCPA**”) prohibits giving anything of value, directly or indirectly, to officials of foreign governments or foreign political candidates in order to obtain or retain business. A violation of FCPA does not only violate the Company’s policy but also constitute a civil or criminal offense under FCPA which the Company is subject to after the Effective Time. No employee shall give or authorize directly or indirectly any illegal payments to government officials of any country. While the FCPA does, in certain limited circumstances, allow nominal “facilitating payments” to be made, any such payment must be discussed with and approved by an employee’s supervisor in advance before it can be made.

VI. PROTECTION AND USE OF COMPANY ASSETS

Employees should protect the Company’s assets and ensure their efficient use for legitimate business purposes only. Theft, carelessness and waste have a direct impact on the Company’s profitability. Any use of the funds or assets of the Company, whether for personal gain or not, for any unlawful or improper purpose is strictly prohibited.

To ensure the protection and proper use of the Company’s assets, each employee should:

- exercise reasonable care to prevent theft, damage or misuse of the Company’s assets;
- promptly report any actual or suspected theft, damage or misuse of the Company’s assets;
- safeguard all electronic programs, data, communications and written materials from unauthorized access; and
- use the Company’s assets only for legitimate business purposes.

Except as approved in advance by the Chief Executive Officer or Chief Financial Officer of the Company, the Company prohibits political contributions (directly or through trade associations) by any employee on behalf of the Company. Prohibited political contributions include:

- any contributions of the Company’s funds or other assets for political purposes;
- encouraging individual employees to make any such contribution; and
- reimbursing an employee for any political contribution.

VII. INTELLECTUAL PROPERTY AND CONFIDENTIALITY

Employees should abide by the Company's rules and policies in protecting the intellectual property and confidential information, including the following:

- All inventions, creative works, computer software, and technical or trade secrets developed by an employee in the course of performing the employee's duties or primarily through the use of the Company's assets or resources while working at the Company shall be the property of the Company.
- Employees should maintain the confidentiality of information entrusted to them by the Company or entities with which the Company has business relations, except when disclosure is authorized or legally mandated. Confidential information includes all non-public information that might be of use to competitors, or harmful to the company or its business associates, if disclosed.
- The Company maintains a strict confidentiality policy. During an employee's term of employment with the Company, the employee shall comply with any and all written or unwritten rules and policies concerning confidentiality and shall fulfill the duties and responsibilities concerning confidentiality applicable to the employee.
- In addition to fulfilling the responsibilities associated with his/her position in the Company, an employee shall not, without obtaining prior approval from the Company, disclose, announce or publish trade secrets or other confidential business information of the Company, nor shall an employee use such confidential information outside the course of his/her duties to the Company.
- Even outside the work environment, an employee must maintain vigilance and refrain from disclosing important information regarding the Company or its business, business associates or employees.
- An employee's duty of confidentiality with respect to the confidential information of the Company survives the termination of such employee's employment with the Company for any reason until such time as the Company discloses such information publicly or the information otherwise becomes available in the public sphere through no fault of the employee.
- Upon termination of employment, or at such time as the Company requests, an employee must return to the Company all of its property without exception, including all forms of medium containing confidential information, and may not retain duplicate materials.

VIII. ACCURACY OF FINANCIAL REPORTS AND OTHER PUBLIC COMMUNICATIONS

Upon the Effective Time, the Company will be required to report its financial results and other material information about its business to the public and the SEC. It is the Company's policy to promptly disclose accurate and complete information regarding its business, financial condition and results of operations. Employees must strictly comply with all applicable standards, laws, regulations and policies for accounting and financial reporting of transactions, estimates and forecasts. Inaccurate, incomplete or untimely reporting will not be tolerated and can severely damage the Company and result in legal liability.

Employees should be on guard for, and promptly report, any possibility of inaccurate or incomplete financial reporting. Particular attention should be paid to:

- Financial results that seem inconsistent with the performance of the underlying business;
- Transactions that do not seem to have an obvious business purpose; and
- Requests to circumvent ordinary review and approval procedures.

The Company's senior financial officers and other employees working in the finance department have a special responsibility to ensure that all of the Company's financial disclosures are full, fair, accurate, timely and understandable. Any practice or situation that might undermine this objective should be reported to the Compliance Officer.

Employees are prohibited from directly or indirectly taking any action to coerce, manipulate, mislead or fraudulently influence the Company's independent auditors for the purpose of rendering the financial statements of the Company materially misleading. Prohibited actions include but are not limited to:

- issuing or reissuing a report on the Company's financial statements that is not warranted in the circumstances (due to material violations of U.S. GAAP, generally accepted auditing standards or other professional or regulatory standards);
- not performing audit, review or other procedures required by generally accepted auditing standards or other professional standards;
- not withdrawing an issued report when withdrawal is warranted under the circumstances; or
- not communicating matters required to be communicated to the Company's Audit Committee.

IX. COMPANY RECORDS

Accurate and reliable records are crucial to the Company's business and form the basis of its earnings statements, financial reports and other disclosures to the public. The Company's records are a source of essential data that guides business decision-making and strategic planning. Company records include, but are not limited to, booking information, payroll, timecards, travel and expense reports, e-mails, accounting and financial data, measurement and performance records, electronic data files and all other records maintained in the ordinary course of business.

All Company records must be complete, accurate and reliable in all material respects. There is never an acceptable reason to make false or misleading entries. Undisclosed or unrecorded funds, payments or receipts are strictly prohibited. An employee is responsible for understanding and complying with the Company's recordkeeping policy. An employee should contact the Compliance Officer if he/she has any questions regarding the recordkeeping policy.

X. COMPLIANCE WITH LAWS AND REGULATIONS

Each employee has an obligation to comply with the laws of the cities, provinces, regions and countries in which the Company operates. This includes, without limitation, laws covering commercial bribery and kickbacks, patent, copyrights, trademarks and trade secrets, information privacy, insider trading, offering or receiving gratuities, employment harassment, environmental protection, occupational health and safety, false or misleading financial information, misuse of corporate assets and foreign currency exchange activities. Employees are expected to understand and comply with all laws, rules and regulations that apply to their positions at the Company. If any doubt exists about whether a course of action is lawful, the employee should seek advice immediately from the Compliance Officer.

XI. DISCRIMINATION AND HARASSMENT

The Company is firmly committed to providing equal opportunity in all aspects of employment and will not tolerate any illegal discrimination or harassment based on race, ethnicity, religion, gender, age, national origin or any other protected class. For further information, employees should consult the Compliance Officer.

XII. FAIR DEALING

Each employee should endeavor to deal fairly with the Company's customers, suppliers, competitors and employees. None should take unfair advantage of anyone through manipulation, concealment, abuse of privileged information, misrepresentation of material facts, or any other unfair-dealing practice.

XIII. HEALTH AND SAFETY

The Company strives to provide employees with a safe and healthy work environment. Each employee has responsibility for maintaining a safe and healthy workplace for other employees by following environmental, safety and health rules and practices and reporting accidents, injuries and unsafe equipment, practices or conditions. Violence or threats of violence are not permitted.

Each employee is expected to perform his/her duty to the Company in a safe manner, not under the influence of alcohol, illegal drugs or other controlled substances. The use of illegal drugs or other controlled substances in the workplace is prohibited.

XIV. VIOLATIONS OF THE CODE

All employees have a duty to report any known or suspected violation of this Code, including any violation of laws, rules, regulations or policies that apply to the Company. Reporting a known or suspected violation of this Code by others will not be considered an act of disloyalty, but an action to safeguard the reputation and integrity of the Company and its employees.

If an employee knows of or suspects a violation of this Code, it is such employee's responsibility to immediately report the violation to the Compliance Officer, who will work with the employee to investigate his/her concern. All questions and reports of known or suspected violations of this Code will be treated with sensitivity and discretion. The Compliance Officer and the Company will protect the employee's confidentiality to the extent possible, consistent with the law and the Company's need to investigate the employee's concern.

It is the Company's policy that any employee who violates this Code will be subject to appropriate discipline, including termination of employment, based upon the facts and circumstances of each particular situation. An employee's conduct, if it does not comply with the law or with this Code, can result in serious consequences for both the employee and the Company.

The Company strictly prohibits retaliation against an employee who, in good faith, seeks help or reports known or suspected violations. An employee inflicting reprisal or retaliation against another employee for reporting a known or suspected violation will be subject to disciplinary action, including termination of employment.

XV. WAIVERS OF THE CODE

Waivers of this Code will be granted on a case-by-case basis and only in extraordinary circumstances. Waivers of this Code may be made only by the Board, or the appropriate committee of the Board, and may be promptly disclosed to the public if so required by applicable laws and regulations and rules of the applicable stock exchange.

XVI. CONCLUSION

This Code contains general guidelines for conducting the business of the Company consistent with the highest standards of business ethics. If employees have any questions about these guidelines, they should contact the Compliance Officer. We expect all employees to adhere to these standards. Each employee is separately responsible for his/her actions. Conduct that violates the law or this Code cannot be justified by claiming that it was ordered by a supervisor or someone in higher management positions. If an employee engages in conduct prohibited by the law or this Code, such employee will be deemed to have acted outside the scope of his/her employment. Such conduct will subject the employee to disciplinary action, including termination of employment.

C. Opinions

Based on our review of the Documents and subject to the Assumptions and the Qualifications, we are of the opinion that:

(i) *VIE Structure*. The ownership structure of the PRC Companies as set forth in the Registration Statement, do not and will not, immediately after giving effect to the Offering, result in any violation of applicable PRC Laws. Each of Beijing uCloudlink, Shenzhen uCloudlink and Beijing Technology, and, to the best of our knowledge after due inquiry, each of the Individual Shareholders has the power, authority and legal right to enter into, execute, deliver and perform its or his respective obligations under each VIE Agreement to which it or he is a party. Except as disclosed in the Registration Statement, each VIE Agreement constitutes valid, legal and binding obligations enforceable against each of Beijing uCloudlink, Shenzhen uCloudlink, Beijing Technology and Individual Shareholders to which it or he is a party in accordance with its terms. To the best of our knowledge after due inquiry, none of Beijing uCloudlink, Shenzhen uCloudlink, Beijing Technology and Individual Shareholders is in material breach or default in the performance or observance of any of the terms or provisions of the VIE Agreements to which it or he is a party.

Except as disclosed in the Registration Statement, the due execution, delivery and performance of each VIE Agreement by the parties thereto and the consummation of the transactions contemplated thereunder do not, as to each of the PRC Companies that is a party to such VIE Agreement: (a) result in any violation of the business license, articles of association, approval certificate or other constitutional documents (if any) of such PRC Company; or (b) result in any violation of applicable PRC Laws. No Governmental Authorizations are required under PRC Laws in connection with the due execution, delivery or performance of each of the VIE Agreements other than those already obtained; provided, however, any exercise by Beijing uCloudlink of its rights under the relevant Option Agreements will be subject to: (a) the Governmental Authorizations for the resulting equity transfer; (b) the exercise price for equity transfer under the VIE Agreements in accordance with PRC Laws; and (c) completion of tax filing under applicable PRC Laws.

There are, however, substantial uncertainties regarding the interpretation and application of PRC Laws and future PRC laws and regulations, and there can be no assurance that the Governmental Agencies will take a view that is not contrary to or otherwise different from our opinion stated above.

(ii) *Taxation*. The statements made in the Registration Statement under the caption “Taxation - People’s Republic of China Taxation”, with respect to the PRC tax laws and regulations or interpretations, constitute true and accurate descriptions of the matters described therein in all material respects and such statements constitute our opinion.

(iii) *New M&A Rules*. Based on our understanding of the explicit provisions under the PRC Laws, we are of the opinion that the China Securities Regulatory Commission’s approval is not required to be obtained for the Offering or the listing, because (i) the CSRC has not issued any definitive rule or interpretation concerning whether the Offering is subject to the New M&A Rules as of the date hereof ; (ii) each of Beijing uCloudlink, Shenzhen Ucloudlink WFOE and Shenzhen Network WFOE is a wholly foreign-owned enterprise which was initially established by means of direct investment and not through mergers or acquisitions of the equity or assets of a “PRC domestic company” as such term is defined under the New M&A Rules; and (iii) no explicit provision in the New M&A Rules classifies the contractual arrangements under the VIE Agreements as a type of acquisition transaction falling under the New M&A Rules.

(iv) *Enforceability of Civil Procedures*. The recognition and enforcement of foreign judgments are provided for under the PRC Civil Procedures Law. PRC courts may recognize and enforce foreign judgments in accordance with the requirements of PRC Civil Procedures Law based either on treaties between China and the country where the judgment is made or on principles of reciprocity between jurisdictions. China does not have any treaties or other form of written arrangement with the United States or the Cayman Islands that provide for the reciprocal recognition and enforcement of foreign judgments. In addition, according to the PRC Civil Procedures Law, courts in the PRC will not enforce a foreign judgment against a company or its directors and officers if they decide that the judgment violates the basic principles of PRC Laws or national sovereignty, security or public interest. As a result, it is uncertain whether and on what basis a PRC court would enforce a judgment rendered by a court in the United States or the Cayman Islands.

(v) *PRC Laws*. All statements set forth in the Registration Statement under the captions “Prospectus Summary,” “Risk Factors,” “Use of Proceeds,” “Enforceability of Civil Liabilities,” “Corporate History and Structure,” “Business,” “Regulation” and “Taxation—People’s Republic of China Taxation,” in each case insofar as such statements describe or summarize PRC legal or regulatory matters, are true and accurate in all material respects, and are fairly disclosed and correctly set forth therein, and nothing has been omitted from such statements which would make the same misleading in any material respect.

D. Qualifications

Our opinion expressed above is subject to the following qualifications (the “**Qualifications**”):

- i. Our opinion is limited to PRC Laws of general application on the date hereof. We have made no investigation of, and do not express or imply any views on, the laws of any jurisdiction other than the PRC, and we have assumed that no such other laws would affect our opinions expressed above.
- ii. There is no guarantee that any of the PRC Laws referred to herein, or the interpretation or enforcement thereof, will not be changed, amended or revoked in the future with or without retrospective effect.
- iii. Our opinion is subject to (a) applicable bankruptcy, insolvency, fraudulent transfer, reorganization, moratorium or similar laws in the PRC affecting creditors’ rights generally, and (b) possible judicial or administrative actions or any PRC Laws affecting creditors’ rights.
- iv. Our opinion is subject to the effects of (a) certain legal or statutory principles affecting the enforceability of contractual rights generally under the concepts of public interests, social ethics, national security, good faith, fair dealing, and applicable statutes of limitation; (b) any circumstance in connection with the formulation, execution or performance of any legal documents that would be deemed materially mistaken, clearly unconscionable, fraudulent, coercive or concealing illegal intentions with a lawful form; (c) judicial discretion with respect to the availability of specific performance, injunctive relief, remedies or defenses, or the calculation of damages; and (d) the discretion of any competent PRC legislative, administrative or judicial bodies in exercising their authority in the PRC.
- v. This opinion is issued based on our understanding of PRC Laws. For matters not explicitly provided under PRC Laws, the interpretation, implementation and application of the specific requirements under PRC Laws, as well as their application to and effect on the legality, binding effect and enforceability of certain contracts, are subject to the final discretion of competent PRC legislative, administrative and judicial authorities. Under PRC Laws, foreign investment is restricted in certain industries. The interpretation and implementation of these laws and regulations, and their application to and effect on the legality, binding effect and enforceability of contracts such as the VIE Agreements and transactions contemplated by the VIE Agreements, are subject to the discretion of the competent Governmental Agency.
- vi. The term “enforceable” or “enforceability” as used in this opinion means that the obligations assumed by the relevant obligors under the relevant Documents are of a type which the courts of the PRC may enforce. It does not mean that those obligations will necessarily be enforced in all circumstances in accordance with their respective terms and/or additional terms that may be imposed by the courts. As used in this opinion, the expression “to the best of our knowledge after due inquiry” or similar language with reference to matters of fact refers to the current, actual knowledge of the attorneys of this firm who have worked on matters for the Company and the PRC Companies in connection with the Offering and the transactions contemplated thereby.

- vii. We may rely, as to matters of fact (but not as to legal conclusions), to the extent we deem proper, on representations made by officers and employees of the Company, the PRC Companies and Governmental Agencies.
- viii. We have not undertaken any independent investigation, search or other verification action to determine the existence or absence of any fact or to render this opinion, and no inference as to our knowledge of the existence or absence of any fact should be drawn from our representation of the Company or the PRC Companies or the rendering of this opinion.
- ix. This opinion is intended to be used in the context which is specifically referred to herein; each paragraph shall be construed as a whole and no part shall be extracted and referred to independently.
- x. This opinion is strictly limited to the matters stated herein and no opinion is implied or may be inferred beyond the matters expressly stated herein. The opinion expressed herein is rendered only as of the date hereof, and we assume no responsibility to advise you of facts, circumstances, events or developments that hereafter may be brought to our attention and that may alter, affect or modify the opinion expressed herein.

This opinion is delivered solely for the purpose of and in connection with the Registration Statement publicly filed with the U.S. Securities and Exchange Commission on the date of this opinion and may not be used for any other purpose without our prior written consent.

We hereby consent to the use of this opinion in, and the filing hereof as an exhibit to, the Registration Statement, and to the use of our firm's name under the captions "Risk Factors", "Corporate History and Structure", "Enforceability of Civil Liabilities", "Regulation", "Taxation - People's Republic of China Taxation" and "Legal Matters" in the Registration Statement. In giving such consent, we do not thereby admit that we come within the category of persons whose consent is required under Section 7 of the U.S. Securities Act of 1933, as amended, or the regulations promulgated thereunder.

Yours faithfully,

A. Documents and assumptions

In rendering this opinion, we have carried out due diligence, reviewed and examined copies of the Registration Statement, and other documents as we have considered necessary or advisable for the purpose of rendering this opinion, including but not limited to originals or copies of the due diligence documents (collectively, the "**Documents**") provided to us by HONGKONG U-CLOUDLINK NETWORK TECHNOLOGY LIMITED (香港優克網絡技術有限公司) and U-CLOUDLINK (HK) LIMITED (香港優克有限公司) (together, the "**HK Companies**").
